प्राक्कथन

राष्ट्रीय प्रतिदर्श सर्वेक्षण कार्यालय (एनएसएसओ) द्वारा किए जाने वाले रोजगार और बेरोजगार संबंधी सर्वेक्षण भारत में राष्ट्रीय और राज्य स्तर पर श्रम बाजार आंकड़ों का प्राथमिक स्रोत हैं। इन सर्वेक्षणों से प्राप्त श्रम सांख्यिकी सरकार की विभिन्न एजेंसियों द्वारा आयोजना और नीति-निर्माण तथा भारत में रोजगार एवं बेरोजगारी से जुड़े अन्य संबंधित विषयों का निराकरण करने वाले अनुसंधानकर्ताओं के लिए भी महत्वपूर्ण है। 27वें दौर (अक्टूबर, 1972-सितंबर, 1973) के उपरांत प्रत्येक 5 वर्ष के अंतराल में रोजगार एवं बेरोजगारी पर एनएसएस सर्वेक्षण किए जा रहे हैं। एनएसएसओ द्वारा अभी तक इस प्रकार के नौ विस्तृत सर्वेक्षण किए जा चुके हैं, जिसमें अंतिम सर्वेक्षण एनएसएस के 68वें दौर (जुलाई, 2011-जून, 2012) में किया गया था।

2. राष्ट्रीय सांख्यिकीय आयोग (एनएससी) की अनुशंसा पर समय-समय पर लगातार श्रम बल आंकड़ों की उपलब्धता के महत्व पर विचार करते हुए सांख्यिकी और कार्यक्रम कार्यान्वयन मंत्रालय ने मासिक/तिमाही श्रम बाजार आंकड़े तैयार करने के लिए प्रतिदर्श अभिकल्प सहित सर्वेक्षण विधि विकसित करने के लिए आवधिक श्रम बल सर्वेक्षणों (पीएलएफएस) पर एनएससी के तत्कालीन सदस्य प्रो. अभिताभ कुंडु की अध्यक्षता में एक समिति गठित की गई थी। तदुपरांत, एनएससी द्वारा की गई सिफारिशों पर अनुवर्ती कार्रवाई के रूप में एनएससी द्वारा प्रो.एस.पी. मुखर्जी, एमिरेट्स प्रो. कलकत्ता विश्वविद्यालय की अध्यक्षता में श्रम बल सांख्यिकी संबंधी-स्थायी समिति (एससीएलएफएस) गठित की गई। एससीएलएफएस ने शहरी क्षेत्रों के लिए तिमाही आकलन सहित ग्रामीण और शहरी दोनों क्षेत्रों के लिए तिमाही आकलन सहित ग्रामीण और शहरी दोनों क्षेत्रों के लिए रोजगार एवं बेरोजगारी विशेषताओं के वार्षिक आकलन तैयार करने के लिए पीएलएफएस के लिए पूछताछ अनुसूची और प्रतिदर्श अभिकल्प की सिफारिश की थी।

3. जुलाई 2017-जून 2018 के दौरान श्रम बल आवधिक सर्वेक्षण में एकत्रित आंकड़ों पर यह पहली वार्षिक रिपोर्ट है। इसमें राष्ट्रीय तथा राज्य स्तर पर रोजगार तथा बेरोजगारी के विभिन्न पहलुओं से संबंधित आकलन प्रस्तुत किए गए हैं। सर्वे के परिणामों को, पूर्व के सर्वेक्षण परिणामों से तुलना करते समय रिपोर्ट में शामिल व्याख्यात्मक टिप्पणी के साथ पढ़ें।

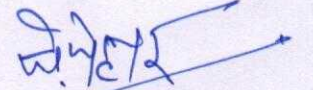

4. सर्वेक्षण अभिकल्प और अनुसंधान प्रभाग (एसडीआरडी) द्वारा सर्वेक्षण पद्धति और इस रिपोर्ट को तैयार किया गया। सर्वे का फील्ड कार्य क्षेत्र संकार्य प्रभाग (एफओडी) द्वारा किया गया तथा आंकड़ा प्रक्रमण एवं सारणीयन कार्य समंक विधायन प्रभाग (डीपीडी) द्वारा किया गया है। समन्वय एवं प्रकाशन प्रभाग (सीपीडी) ने इस सर्वेक्षण से संबंधित विभिन्न कार्यकलापों का समन्वयन किया है।

5. मैं इस रिपोर्ट को तैयार करने हेतु विभिन्न गतिविधियों के सावधानीपूर्वक योजना और निष्पादन में एनएसएसओ के विभिन्न प्रभागों के अधिकारियों द्वारा किए गए प्रयासों की सराहना करता हूँ और धन्यवाद देता हूँ। सर्वेक्षण के विभिन्न चरणों में उनके मूल्यवान मार्गदर्शन के लिए मैं एससीएलएफएस और एनएससी के सदस्यों के प्रति आभार प्रकट करता हूँ।

6. मैं आशा करता हूँ कि यह रिपोर्ट योजनाकारों, नीति-निर्माताओं, शिक्षाविदों तथा अनुसंधानकर्ताओं के लिए उपयोगी सिद्ध होगी।

7. इस रिपोर्ट की विषय-वस्तु तथा कवरेज में सुधार के लिए सुझावों की अत्यधिक सराहना की जाएगी।

नई दिल्ली
मई 2019

(ज्योतिर्मय पोद्दार)

महानिदेशक (एनएसएस)

PREFACE

Employment and Unemployment Surveys (EUS) of NSS are the primary source of labour market data at National and State level in India. The labour statistics generated from these surveys have remained crucial for planning and policy formulations not only in various agencies of the Government but also in the academic field including addressing issues concerning larger contests relating to Employment and Unemployment in India. Regular EUS of NSS were conducted quinquennially beginning 27th round (October 1972 - September 1973). Nine such comprehensive surveys were conducted so far by NSSO, the last and recent one being conducted during NSS 68th round (July 2011 - June 2012).

2. Considering the importance of availability of labour force data at more frequent intervals, and pursuance to the recommendation of the National Statistical Commission (NSC), the Ministry of Statistics and Programme Implementation constituted a Committee on Periodic Labour Force Survey (PLFS) under the Chairpersonship of Prof. Amitabh Kundu, the then Member of NSC, to develop the survey methodology including the sample design for generating monthly/quarterly labour market data. Subsequently, as a follow-up action on the recommendations of the NSC, a Standing Committee on Labour Force Statistics (SCLFS) was constituted under the Chairmanship of Prof. S. P. Mukherjee, Emeritus Professor, University of Calcutta. The SCLFS recommended Schedule of Enquiry and Sampling Design for the PLFS to produce annual estimates of employment and unemployment characteristics for both rural and urban areas, alongwith quarterly estimates for urban areas. The PLFS has brought in several new interventions in the survey design by using rotational panels for the urban areas and the use of technology through use of hand held devices and portal technology.

3. This is the first Annual Report based on the data collected in PLFS during July 2017- June 2018. It presents the estimates pertaining to various aspects of employment and unemployment at National as well as State level. The results of the survey may be read along with the Explanatory Note included in the Report while comparing the results with those from earlier surveys.

4. Survey Design and Research Division (SDRD) undertook the development of survey instruments and preparation of this report. Field work of the survey was carried out by the Field Operations Division (FOD) and the data processing and tabulation work was handled by the Data Processing Division (DPD now DQAD).

5. I thankfully acknowledge and appreciate the efforts made by the officials of the different divisions of NSS in meticulous planning and execution of various activities for bringing to the fore this report. I am profoundly obliged to the members of domain experts from the SCLFS and NSC for their valuable guidance at various stages of the survey.

6. I hope, this report will be useful to the planners, policy makers, academia, researchers and other stakeholders.

7. Suggestions for improvement in its content and coverage, if any will be highly appreciated.

(Jyotirmoy Poddar)
Director General (NSS)

Ministry of Statistics and Programme Implementation

Labour force estimates obtained from PLFS and earlier quinquennial rounds

Explanatory Note

1. The Periodic Labour Force Survey (PLFS) was designed with two major objectives for measurement of employment and unemployment. The first was to measure the dynamics in labour force participation and employment status in the short time interval of three months for only the urban areas in the Current Weekly Status (CWS). Secondly, for both rural and urban areas, to measure the labour force estimates on key parameters in both usual status (ps+ss) and CWS. To achieve these twin objectives as well as providing estimates on additional aspects of data (such as hours worked) which were not available from the quinquennial rounds of NSSO, certain changes were introduced in the sampling design and structure of the Schedule of inquiry. Some of these are included in the Annex to this Note.
2. The users of this report are being apprised of the various aspects of the survey methodology, data collection mechanism and sampling design of PLFS vis-à-vis the earlier Employment and Unemployment quinquennial rounds of NSSO so that these can be considered while comparing results from earlier employment and unemployment surveys which were undertaken along with the NSS Consumer Expenditure Surveys. The results of the PLFS thus need to be understood and used in the context with which the survey methodology and sample selection has been designed.

Labour Force Estimates obtained from PLFS and earlier quinquennial rounds**1. Data Collection**

- a) NSSO collected information on different aspects of labour force in its Quinquennial Surveys using paper schedules. In the PLFS information in the Schedule (Schedule 10.4) was collected from all members of the sample households using Computer-assisted Personal Interviewing (CAPI) method with inbuilt validation rules through Tablet.
- b) For the persons engaged in economic activity on the days of the reference week, hours worked were recorded and current weekly activity status for those engaged in economic activity was determined on the basis of time disposition in each day of the reference week recorded in terms of hours worked.
- c) With inbuilt validation rules of CAPI, different mechanism of validation and scrutiny was also introduced. In the surveys conducted by NSSO through paper Schedule, after data entry different levels of validation were carried out. However, with the inbuilt validation rules of CAPI, data were mostly validated at the time of canvassing the Schedule.

2. Sampling design

- a) *Frame for PLFS (2017-18)*: The list of latest available Urban Frame Survey (UFS) blocks was the sampling frame for urban areas. For nearly one-half of the towns, UFS frame 2012-17 was used and for another half of the towns, UFS frame 2007-12 was used. List of 2011 Population Census villages (Panchayat wards for Kerala) constituted the rural sampling frame.
- b) *Frame for 68th round (2011-12)*: The first stage units (FSU) were the 2001 census villages (Panchayat wards in case of Kerala) in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. For NSS 68th round (2011-12), UFS frame 2007-12 was used.
- c) *Sampling design for PLFS*: A stratified multi-stage design was adopted. The first stage units (FSU) were the Urban Frame Survey (UFS) blocks in urban areas and 2011 Population Census villages (Panchayat wards for Kerala) in rural areas. The ultimate stage units (USU) were households. As in usual NSS rounds, in the case of large FSUs one intermediate stage unit, called hamlet group/sub-block, was formed.
- d) A rotational panel sampling design has been used in urban areas. In this rotational panel scheme, each selected household in urban areas is visited four times – first time with first visit schedule and other three times with revisit schedule. For rural areas, in each quarter, only 25% FSUs of annual allocation (as is done in each sub-round of NSS rounds) were covered so that independent estimates can be generated for each quarter. There was no revisit for the rural samples.

- e) *Sampling Design for NSS 68th round*: A stratified multi-stage design was adopted for the 68th round survey. The first stage units (FSU) were the 2001 census villages (Panchayat wards in case of Kerala) in the rural areas and Urban Frame Survey (UFS) blocks in the urban areas. The ultimate stage units (USU) were households in both the sectors.

3. Stratification and Sub-stratification

- a) *Stratification for first stage units in PLFS*: In urban areas strata were formed within each NSS region on the basis of size class of towns as per Population Census 2011.

stratum 1 :	all towns with population less than 50,000
stratum 2 :	all towns with population 50,000 or more but less than 3 lakhs
stratum 3 :	all towns with population 3 lakhs or more but less than 15 lakhs
stratum 4, 5, 6,... :	each city with population 15 lakhs or more

The rural areas of each NSS region constituted rural stratum.

- b) *Stratification of the first stage units in NSS 68th round*: Within each district of a State/ UT, two basic strata were formed as follows:

- i) *rural stratum comprising all rural areas of the district and*
- ii) *urban stratum comprising all the urban areas of the district.*

However, within the urban areas of a district, if there were one or more towns with population 10 lakhs or more as per population census 2001 in a district, each of them formed a separate basic stratum and the remaining urban areas of the district were considered as another basic stratum.

- c) *Sub-Stratification in PLFS*:

- i) *Urban: In urban areas there was no sub-stratification.*
- ii) *Rural: 'r/8' sub-strata were formed in each rural stratum, if 'r' was the annual sample size allocated for a rural stratum. The villages within a stratum as per frame were first arranged in ascending order of population. Then sub-strata 1 to 'r/8' were demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal population.*

- d) *Sub-stratification in NSS 68th round*: Procedure followed for sub-stratification in each of rural and urban sectors are stated below.

- i) *Rural sector*: If 'r' was the sample size allocated for a rural stratum, 'r/4' sub-strata were formed in that stratum. The villages within a district as per frame were first arranged in ascending order of population and then sub-strata 1 to 'r/4' were demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal population.
- ii) *Urban sector*: If 'u' was the sample size for an urban stratum, 'u/4' sub-strata were formed in that stratum. Formation sub-strata was done by first arranging the

towns in ascending order of total number of households in the town as per UFS phase 2007-12 and then arranging the IV units of each town and blocks within each IV unit in ascending order of their numbers. From this arranged frame of UFS blocks of all the towns/million plus cities of a stratum, 'u/4' number of sub-strata were formed in such a way that each sub-stratum had more or less equal number of households as per UFS 2007-12.

4. Sample Size and sample selection

- a) *Sample size for PLFS*: A total number of 12,800 FSUs (7,024 villages and 5,776 UFS blocks) was allotted for the survey at the all-India level during July 2017- June 2018.
- b) *Sample size for NSS 68th round*: At the all-India level, a total number of 12,784 FSUs (7,508 villages and 5,276 urban blocks) was allocated for survey in the central sample.
- c) *Selection of first stage units in PLFS*: Urban FSUs were selected by probability proportional to size with replacement (PPSWR) scheme, size being the number of households in the UFS block. Samples for a panel within each stratum were drawn in the form of two independent sub-samples. To implement the rotational scheme, 4 groups of sample FSUs of equal size (each multiple of size 2, half for each of sub-sample 1 and sub-sample 2) were drawn randomly. In the rural areas, samples for a stratum/sub-stratum were drawn randomly in the form of two independent sub-samples with probability proportional to size with replacement (PPSWR) scheme, size being the population of the village.
- d) *Selection of first-stage units in NSS 68th round*: For the rural sector, from each stratum/sub-stratum, required number of sample villages was selected by probability proportional to size with replacement (PPSWR), size being the population of the village as per Census 2001. For the urban sector, FSUs were selected from each stratum/sub-stratum by using Simple Random Sampling Without Replacement (SRSWOR). Both rural and urban samples were drawn from each stratum/sub-stratum in the form of two independent sub-samples.
- e) *Second stage strata formation in PLFS*:

composition of SSS (rural)	SSS	number of members	number of households to be surveyed	
			FSU without hamlet group (hg) formation	FSU with hg formation (for each hg)
number of members in the household having level of general education as secondary (10 th standard) or above	SSS 1	2 or more	2	1
	SSS 2	1	4	2
	SSS 3	0	2	1
TOTAL			8	
composition of SSS (urban)	SSS	number of members	number of households to be surveyed	
			FSU without sub-block (sb) formation	FSU with sb formation (for each sb)
number of members in the household having level of general education as secondary (10 th standard) or above	SSS 1	3 or more	2	1
	SSS 2	2	2	1
	SSS 3	1	2	1
	SSS 4	0	2	1
TOTAL			8	

f) *Second stage strata in NSS 68th round*

SSS	composition of SSS	number of households to be surveyed	
		FSU without hg/sb formation	FSU with hg/sb formation (for each hg/sb)
Rural			
SSS 1:	relatively affluent households	2	1
SSS 2:	of the remaining, households having principal earning from non-agricultural activity	4	2
SSS 3:	other households	2	1
Urban			
SSS 1:	households having MPCE of top 10% of urban population	2	1
SSS 2:	households having MPCE of middle 60% of urban population	4	2
SSS 3:	households having MPCE of bottom 30% of urban population	2	1
Monthly Per Capita Consumer Expenditure (MPCE) obtained from NSS 66th round (2009-10) for each NSS region was used			

मुख्य बातें

यह रिपोर्ट एनएसएसओ द्वारा जुलाई 2017 से जून 2018 के दौरान किए गए आवधिक श्रमबल सर्वेक्षण (पीएलएफएस) पर आधारित है। यह सर्वेक्षण 12,773 एफएसयू में (7,014 ग्रामों और 5,759 नगरीय खंडों) में फैला हुआ था, एवं 1,02,113 परिवारों (56,108 ग्रामीण क्षेत्रों और 46,005 नगरीय क्षेत्रों में) को इसमें समाविष्ट किया गया, और 4,33,339 व्यक्तियों (2,46,809 ग्रामीण क्षेत्रों और 1,86,530 नगरीय क्षेत्रों) गणना की गई। यह रिपोर्ट में श्रमबल संकेतक का प्राक्कलन क्रियाशील स्थितियों द्वारा जनसंख्या के वर्गीकरण के लिए सर्वेक्षण में अपनाए गए वर्तमान साप्ताहिक स्थिति एवं सामान्य स्थिति (पीएस+एसएस) पर आधारित है। सामान्य स्थिति (पीएस+एसएस) के लिए सन्दर्भ अवधि 1 वर्ष है, और वर्तमान साप्ताहिक स्थिति के लिए 1 सप्ताह है। नगरीय क्षेत्र में क्रमावर्तित पैनल प्रतिदर्श अभिकल्प का उपयोग किया गया। इस क्रमावर्तित पैनल स्कीम में नगरीय क्षेत्र में चयनित प्रत्येक परिवारों को चार बार निरीक्षण किया गया- एक प्रथम अनुसूची निरीक्षण और अन्य तीन अनुसूची के पुनः निरीक्षण किया गया। ग्रामीण अनुसूचीयों का पुनः निरीक्षण नहीं हुआ। यहाँ प्रस्तुत परिवार और जनसंख्या, श्रमबल, कार्यबल और बेरोजगारी का प्राक्कलन नगरीय एवं ग्रामीण दोनों क्षेत्रों में अनुसूचियों के प्रथम निरीक्षण में एकत्रित डाटा पर आधारित है।

अखिल भारतीय स्तर पर जुलाई 2017 - जून 2018 की अवधि के लिए पीएलएफएस से प्राप्त कुछ मुख्य परिणाम निम्नलिखित हैं।

(क) परिवार एवं जनसंख्या

- भारत में करीब 70.7 प्रतिशत व्यक्ति ग्रामीण क्षेत्रों के हैं।
(पारा. 3.1.1.1)
- भारत में औसत परिवार आकार करीब 4.2 था। यह करीब 4.3 ग्रामीण भारत में और करीब 3.9 नगरीय भारत में था।
(पारा. 3.1.1.1)
- भारत में लिंगानुपात (प्रति 1000 पुरुषों पर महिलाओं की संख्या) 956 था। यह नगरीय भारत में 965 और ग्रामीण भारत में 952 था।
(पारा. 3.1.1.1)

- 15-29 वर्षों के उम्र के व्यक्तियों जिन्हें युवा माना गया, ग्रामीण पुरुषों का 27.4 प्रतिशत, ग्रामीण महिलाओं का 27 प्रतिशत, नगरीय पुरुषों का 28.2 प्रतिशत और नगरीय महिलाओं का 27.8 प्रतिशत था ।

(पारा. 3.1.3.1)

- 2017-18 के दौरान, 15 वर्षों और उससे उपर के उम्र के 71.5 प्रतिशत ग्रामीण पुरुष, 73.8 प्रतिशत ग्रामीण महिला, 76.3 प्रतिशत नगरीय पुरुष और 77.7 प्रतिशत नगरीय महिला था ।

(पारा. 3.1.3.1)

- भारत में साक्षरता दर (7 वर्ष और उससे अधिक उम्र के व्यक्तियों में) 2017-18 के दौरान 76.9 प्रतिशत था ।

(पारा. 3.1.4.1)

- ग्रामीण और नगरीय दोनों क्षेत्रों में साक्षरता दर पुरुषों में महिलाओं से अधिक था : ग्रामीण क्षेत्रों में पुरुषों में साक्षरता दर 80.7 प्रतिशत और महिलाओं में साक्षरता दर 64.5 प्रतिशत था और नगरीय क्षेत्रों में साक्षरता दर महिलाओं की 81.6 प्रतिशत की तुलना में पुरुषों में 91.6 प्रतिशत था ।

(पारा. 3.1.4.1)

- 2017-18 के दौरान करीब 52.2 प्रतिशत ग्रामीण परिवारों के आय का प्रमुख स्रोत स्व.नियोजन था । 25 प्रतिशत ग्रामीण परिवारों का आय के प्रमुख स्रोत आकस्मिक मजदूरी था, और 12.7 प्रतिशत ग्रामीण परिवारों का आय के प्रमुख स्रोत नियमित मजदूरी/वेतन था ।

(पारा. 3.1.2.2)

- 2017-18 के दौरान करीब 32.4 प्रतिशत नगरीय परिवारों के आय का प्रमुख स्रोत स्व.नियोजन था। 11.8 प्रतिशत ग्रामीण परिवारों का आय के प्रमुख स्रोत आकस्मिक मजदूरी था और 41.4 प्रतिशत ग्रामीण परिवारों का आय के प्रमुख स्रोत नियमित मजदूरी/वेतन था ।

(पारा. 3.1.2.2)

(ख) श्रमबल

- करीब 54.9 प्रतिशत ग्रामीण पुरुषों, 18.2 प्रतिशत ग्रामीण महिलाओं, 57 प्रतिशत नगरीय पुरुषों और 15.9 प्रतिशत नगरीय महिलाओं सामान्य स्थिति (पीएस+एसएस) में श्रमबल में थे ।

(पारा. 3.2.1.2)

- भारत के 15-29 वर्ष उम्र के व्यक्तियों में सामान्य स्थिति (पीएस+एसएस) में एलएफपीआर 38.2 प्रतिशत था : यह 38.1 प्रतिशत ग्रामीण क्षेत्रों में और 38.5 प्रतिशत नगरीय क्षेत्रों में था ।
(पारा. 3.2.2.1)

- भारत के 15 वर्ष एवं उससे अधिक उम्र के व्यक्तियों में सामान्य स्थिति (पीएस+एसएस) में एलएफपीआर 49.8 प्रतिशत था : यह ग्रामीण क्षेत्रों में 50.7 प्रतिशत और नगरीय क्षेत्रों में 47.6 प्रतिशत था ।
(पारा. 3.2.3.1)

(ग) कार्यबल

ग.1 कामगार जनसंख्या अनुपात (डब्ल्यूपीआर)

- कामगार जनसंख्या अनुपात (डब्ल्यूपीआर) सामान्य स्थिति में (पीएस+एसएस) में अखिल भारतीय स्तर पर करीब 34.7 प्रतिशत था । यह करीब 35 प्रतिशत ग्रामीण क्षेत्रों में और 33.9 प्रतिशत नगरीय क्षेत्रों में था ।
(पारा. 3.3.1.2)
- सामान्य स्थिति (पीएस+एसएस) में डब्ल्यूपीआर ग्रामीण पुरुषों के लिए 51.7 प्रतिशत था, ग्रामीण महिलाओं के लिए 17.5 प्रतिशत, नगरीय पुरुषों के लिए 53 प्रतिशत और नगरीय महिलाओं के लिए 14.2 प्रतिशत था ।
(पारा. 3.3.1.2)
- अखिल भारतीय स्तर पर वर्तमान साप्ताहिक स्थिति (सीडब्ल्यूएस) में डब्ल्यूपीआर करीब 32.7 प्रतिशत था : ग्रामीण क्षेत्रों में 32.6 प्रतिशत और नगरीय क्षेत्रों में 32.9 प्रतिशत। सीडब्ल्यूएस में डब्ल्यूपीआर ग्रामीण पुरुषों के लिए 49.6 प्रतिशत, ग्रामीण महिलाओं के लिए 14.8 प्रतिशत, नगरीय पुरुषों के लिए 51.7 प्रतिशत और नगरीय महिलाओं के लिए 13.3 प्रतिशत था ।
(पारा. 3.3.1.4)
- 15-29 वर्ष उम्र के व्यक्तियों में भारत में डब्ल्यूपीआर 31.4 प्रतिशत था: यह ग्रामीण क्षेत्रों में 31.8 प्रतिशत और नगरीय क्षेत्रों में 30.6 प्रतिशत था ।
(पारा. 3.3.3.1)
- 15 वर्ष एवं उससे अधिक उम्र के व्यक्तियों में भारत में डब्ल्यूपीआर 46.8 प्रतिशत था: यह ग्रामीण क्षेत्रों में 48.1 प्रतिशत और नगरीय क्षेत्रों में 43.9 प्रतिशत था ।
(पारा. 3.3.3.3)

ग.2 सामान्य स्थिति (पीएस+एसएस) में कामगारों के बीच रोजगार स्थिति

- सामान्य स्थिति (पीएस+एसएस) में कामगारों के बीच स्व-रोजगार का शेयर ग्रामीण पुरुषों में करीब 57.8 प्रतिशत, ग्रामीण महिलाओं में 57.7 प्रतिशत, नगरीय पुरुषों में 39.2 प्रतिशत और नगरीय महिलाओं में 34.7 प्रतिशत था ।

(पारा. 3.3.6.2)

- सामान्य स्थिति (पीएस+एसएस) में कामगारों के बीच ग्रामीण पुरुषों में करीब 14 प्रतिशत, ग्रामीण महिलाओं में 10.5 प्रतिशत, नगरीय पुरुषों में 45.7 प्रतिशत और नगरीय महिलाओं में 52.1 प्रतिशत नियमित मजदूरी/वेतन पानेवाले कर्मी थे ।

(पारा. 3.3.6.2)

- सामान्य स्थिति (पीएस+एसएस) में कामगारों के बीच आकस्मिक मजदूरों का अनुपात ग्रामीण पुरुषों में करीब 28.2 प्रतिशत, ग्रामीण महिलाओं में 31.8 प्रतिशत, नगरीय पुरुषों में 15.1 प्रतिशत और नगरीय महिलाओं में 13.1 प्रतिशत था ।

(पारा. 3.3.6.2)

ग.3 सामान्य स्थिति (पीएस+एसएस) में कामगारों का कार्य उद्दोग

- ग्रामीण क्षेत्रों में पुरुष कामगारों का 55 प्रतिशत और महिला कामगारों का 73.2 प्रतिशत कृषि क्षेत्र में प्रयुक्त थे । ग्रामीण क्षेत्र में निर्माण सेक्टर में प्रयुक्त पुरुष एवं महिला कामगारों का अनुपात क्रमशः 14.5 प्रतिशत और 5.3 प्रतिशत था । 'विनिर्माण' क्षेत्र में प्रयुक्त पुरुष एवं महिला कामगारों का अनुपात क्रमशः 7.7 प्रतिशत और 8.1 प्रतिशत था ।

(पारा. 3.3.7.2)

- नगरीय भारत में, 2017-18 के दौरान पुरुष कामगारों के बीच 'ट्रेड, होटल और रेस्टुरेन्ट सेक्टर' में करीब 24.5 प्रतिशत प्रयुक्त थे, जबकि 'विनिर्माण' और 'अन्य सेवाओं' सेक्टर में क्रमशः करीब 22.4 प्रतिशत और 21.5 प्रतिशत प्रयुक्त थे ।

(पारा. 3.3.7.3)

- नगरीय क्षेत्रों में महिला कर्मियों के बीच 'अन्य सेवाएँ' सेक्टर (ट्रेड, होटल एवं रेस्टुरेन्ट और ट्रांसपोर्ट एवं कम्यूनिकेशन सेक्टर के अलावा) कामगारों के अधिकतम अनुपात (44.4 प्रतिशत) शेयर किया, इसके उपरांत 'विनिर्माण' (25.2 प्रतिशत) और 'ट्रेड, होटल और रेस्टुरेन्ट' (13 प्रतिशत) शेयर किया।
(पारा. 3.3.7.3)

ग.4 सामान्य स्थिति (पीएस+एसएस) में कामगारों का उपजीविका

- ग्रामीण क्षेत्रों में 9.1 प्रतिशत पुरुष कामगार और 8.7 प्रतिशत महिला कामगार निम्नलिखित उपजीविका प्रभागों में प्रयुक्त थे: प्रभाग 1 : विधिकारों, वरीय कर्मचारियों एवं प्रबंधकों, प्रभाग 2 : पेशेवरों एवं प्रभाग 3: टेकनेशियन एवं सहयोगी पेशेवरों।
(पारा. 3.3.8.1)

- नगरीय क्षेत्रों में 30.4 प्रतिशत पुरुष कामगार और 34.6 प्रतिशत महिला कामगार निम्नलिखित उपजीविका प्रभागों में प्रयुक्त थे: प्रभाग 1 : विधिकारों, वरीय कर्मचारियों एवं प्रबंधकों, प्रभाग 2 : पेशेवरों एवं प्रभाग 3: टेकनेशियन एवं सहयोगी पेशेवरों।
(पारा. 3.3.8.1)

ग.5 अनौपचारिक सेक्टर और सामान्य स्थिति (पीएस+एसएस) में कामगारों के रोजगार की अवस्था

- पीएलएफएस से अनौपचारिक सेक्टर में कामगारों का शेयर उद्दोग समूहों/प्रभागों 014, 016, 017, 02 एवं 03 (एजीइजीसी सेक्टर) और उद्दोग समूहों 05-99 (गैर-कृषि सेक्टर) में उपलब्ध हैं। उद्दोग समूहों/प्रभागों 014, 016, 017, 02 और 03 कृषि सेक्टर में केवल फसल उगाना, पौधा प्रवर्धन, पशुओं के विशिष्ट उत्पादन के बिना फसल एवं पशुओं के संयुक्त उत्पादन को सम्मिलित नहीं किया गया। उद्दोग समूहों/प्रभागों 014, 016, 017, 02 एवं 03 (जो आगे एजीइजीसी क्षेत्र के रूप में देखा जाय) कृषि क्षेत्र में है। भारत में सामान्य स्थिति (पीएस+एसएस) में 68.4 प्रतिशत कामगार गैर-कृषि और एजीइजीसी सेक्टर में अनौपचारिक क्षेत्र में लगे हुए थे। पुरुष कामगारों के बीच अनौपचारिक क्षेत्र का शेयर करीब 71.1 प्रतिशत और महिला कामगारों के बीच अनौपचारिक क्षेत्र का शेयर 54.8 प्रतिशत था गैर-कृषि और एजीइजीसी सेक्टर में।
(पारा. 3.4.1.2)

- भारत में, गैर-कृषि क्षेत्र में नियमित मजदूरी/वेतन भोगी कर्मचारियों के बीच 71.1 प्रतिशत के पास कोई लिखित नौकरी संविदा नहीं था : 72.3 प्रतिशत पुरुषों में और 66.8 प्रतिशत महिलाओं में।
(पारा. 3.4.2.2)

- भारत में, गैर-कृषि क्षेत्र में नियमित मजदूरी/वेतन भोगी कर्मचारियों के बीच 54.2 प्रतिशत वेतन युक्त अवकाश के योग्य नहीं थे : 55.2 प्रतिशत पुरुषों में और 50.4 प्रतिशत महिलाओं में ।

(पारा. 3.4.2.4)

- भारत में, गैर-कृषि क्षेत्र में नियमित मजदूरी /वेतन भोगी कर्मचारियों के बीच 49.6 प्रतिशत किसी सामाजिक सुरक्षा हितलाभ के पात्र नहीं थे : पुरुषों में 49 प्रतिशत एवं महिलाओं में 51.8 प्रतिशत ।

(पारा. 3.4.2.5)

(घ) कामगारों के आय, कितने घंटे काम किया एवं अतिरिक्त कार्यों के लिए उपलब्ध घंटे

कामगारों के आय, कितने घंटे काम किया एवं अतिरिक्त कार्यों के लिए उपलब्ध घंटे ग्रामीण क्षेत्रों में किए गए अनुसूची के पहले दौर पर इकट्ठे किए गए आकड़ों पर आधारित है। नगरीय क्षेत्रों में अनुसूची के पहले दौर पर और पुनः दौरों पर इकट्ठे किए गए आकड़ों पर आधारित है जो जुलाई-सितम्बर 2017, अक्टूबर-दिसम्बर 2017, जनवरी-मार्च 2018 एवं अप्रैल-जून 2018 की अवधियों के लिए थे।

रोजगार से आय पर सूचना सभी तीन वर्गों के कामगारों के लिए इकट्ठी की गयी, जैसे स्व-कार्यरत व्यक्ति, नियमित मजदूरी/वेतन भोगी कर्मचारी एवं आकस्मिक श्रमिक। सीडब्ल्यूएस में नियमित मजदूरी/वेतनभोगी व्यक्तियों के लिए आय पर सूचना पूर्ववर्ती कैलेण्डर माह के लिए इकट्ठी की गयी, सीडब्ल्यूएस में स्व-रोजगार व्यक्तियों के लिए आय पर सूचना पिछले 30 दिनों के लिए इकट्ठी की गयी एवं आकस्मिक श्रमिक के लिए आय पर सूचना संदर्भ हफ्ते के प्रतिदिन के लिए इकट्ठी की गयी ।

घ.1 कामगारों के आय

- ग्रामीण क्षेत्रों में, सीडब्ल्यूएस में नियमित मजदूरी/वेतनभोगी कर्मचारियों के बीच, पूर्ववर्ती कैलेण्डर माह के दौरान हुई आय की रेंज पुरुषों में 13 हजार से 14 हजार के बीच की रही एवं महिलाओं के बीच यह रूपये 8.5 हजार से रूपये 10 हजार के बीच की रही सर्वेक्षण अवधि के जुलाई-सितम्बर 2017, अक्टूबर दिसम्बर 2017, जनवरी-मार्च 2018 एवं अप्रैल-जून 2018 के बीच में ।

(पारा. 3.5.1.1)

- नगरीय क्षेत्रों में, सीडब्ल्यूएस में नियमित मजदूरी/वेतनभोगी कर्मचारियों के बीच, पूर्ववर्ती कैलेण्डर माह के दौरान हुई आय की रेंज पुरुषों में 17 हजार से 18 हजार की थी एवं महिलाओं के बीच

रूपये 14 हजार से 15 हजार तक थी सर्वेक्षण अवधि के जुलाई-सितम्बर 2017, अक्टूबर दिसम्बर 2017, जनवरी-मार्च 2018 एवं अप्रैल-जून 2018 के बीच में ।

(पारा. 3.5.1.1)

- ग्रामीण क्षेत्रों में, आकस्मिक श्रमिक की औसतन प्रतिदिन की आय जो कि सर्वजनिक कार्यों के अतिरिक्त अन्य कार्यों में कार्यरत थे, पुरुषों में ₹.253 से ₹.282 एवं महिलाओं के बीच करीब ₹.166 से ₹. 179 थी सर्वेक्षण अवधि के जुलाई-सितम्बर 2017, अक्टूबर दिसम्बर 2017, जनवरी-मार्च 2018 एवं अप्रैल-जून 2018 के बीच में । नगरीय क्षेत्रों में, आकस्मिक श्रमिक की औसतन प्रतिदिन की आय जो कि सर्वजनिक कार्यों के अतिरिक्त अन्य कार्यों में कार्यरत थे, पुरुषों में ₹.314 से ₹. 335 थी एवं महिलाओं में करीब ₹.186 से ₹.201 की थी ।

(पारा. 3.5.2.1)

- ग्रामीण क्षेत्रों में, आकस्मिक श्रमिक की औसतन प्रतिदिन की आय जो कि एमजीएनआरईजी सर्वजनिक कार्यों में कार्यरत थे, रैंज प्रतिदिन ₹.141 से ₹.171 के बीच थी एवं महिलाओं के बीच ₹. 131 से ₹.165 के बीच थी सर्वेक्षण अवधि के जुलाई-सितम्बर 2017, अक्टूबर दिसम्बर 2017, जनवरी-मार्च 2018 एवं अप्रैल-जून 2018 के बीच में ।

(पारा. 3.5.3.1)

- ग्रामीण क्षेत्रों में, आकस्मिक श्रमिक की औसतन प्रतिदिन की आय जो कि सर्वजनिक कार्यों में एमजीएनआरईजी कार्यों के आलावा कार्यरत थे, रैंज प्रतिदिन ₹.138 से ₹. 158 के बीच थी जबकि महिलाओं के बीच ₹ 119 से ₹ 144 के बीच थी सर्वेक्षण अवधि के जुलाई-सितम्बर 2017, अक्टूबर दिसम्बर 2017, जनवरी-मार्च 2018 एवं अप्रैल-जून 2018 के बीच में ।

(पारा. 3.5.3.1)

- ग्रामीण क्षेत्रों में पिछले कैलेण्डर माह के दौरान औसतन सकल आय सीडब्ल्यूएस में स्व-कार्यरत कामगारों द्वारा किए गए स्व-कार्यरत कार्य से आय की रैंज, पुरुषों में ₹.8500 से ₹.9700 के बीच थी जो कि महिलाओं में करीब 3900 से ₹.4300 के बीच थी सर्वेक्षण अवधि के जुलाई-सितम्बर 2017, अक्टूबर दिसम्बर 2017, जनवरी-मार्च 2018 एवं अप्रैल-जून 2018 के बीच में । पिछले कैलेण्डर माह के दौरान नगरीय क्षेत्रों में स्व-रोजगार के कार्य की सकल औसतन आय पुरुषों में करीब 16 हजार थी एवं महिलाओं में यह ₹.6500 से ₹.7500 तक थी ।

(पारा. 3.5.4.1)

घ.2 वर्तमान साप्ताहिक स्तर (सीडब्ल्यूएस) में संदर्भ हफ्ते के दौरान कामगारों द्वारा कितने घंटे कार्य किया गया

- ग्रामीण क्षेत्रों में, एक हफ्ते में सीडब्ल्यूएस में एक कामगार ने औसतन करीब सर्वेक्षण अवधि के जुलाई 2017 से जून 2018 के दौरान 48 घंटे कार्य किया एवं नगरीय क्षेत्रों में, एक सप्ताह में इस अवधि के दौरान, 56 घंटे कार्य किया ।

(पारा. 3.6.2.2)

घ.3 वर्तमान साप्ताहिक स्थिति (सीडब्ल्यूएस) में कामगारों का अतिरिक्त कार्यों के लिए उपलब्ध समय

- ग्रामीण क्षेत्रों में, जुलाई-सितम्बर 2017 के दौरान सीडब्ल्यूएस में 10.7 प्रतिशत कामगारों ने अतिरिक्त कार्य की उपलब्धता की रिपोर्ट दर्ज करवायी । सर्वेक्षण अवधि (जुलाई 2017 से जून 2018) में जिन कामगारों के प्रतिशत अतिरिक्त कार्य की उपलब्धता दर्ज करवायी थी उस में कमी नजर आयी एवं अप्रैल-जून 2018 में करीब 4.6 प्रतिशत कामगारों ने सी.डब्ल्यूएस में अतिरिक्त कार्य की उपलब्धता दर्ज करवायी ।

(पारा. 3.6.4.1)

- ग्रामीण क्षेत्रों में, जुलाई 2017 - जून 2018 के दौरान सीडब्ल्यूएस में कामगारों में उपलब्ध अतिरिक्त कार्य की रेंज 11 से 13 घंटों के बीच थी जो अतिरिक्त कार्य हेतु उपलब्ध थे ।

(पारा. 3.6.4.1)

- नगरीय क्षेत्रों में, जुलाई-सितम्बर 2017 के दौरान सीडब्ल्यूएस में करीब 9 प्रतिशत कामगारों ने अतिरिक्त कार्य की उपलब्धता की रिपोर्ट दर्ज करवायी । सर्वेक्षण अवधि (जुलाई 2017 से जून 2018) में जिन कामगारों के प्रतिशत अतिरिक्त कार्य की उपलब्धता दर्ज करवायी थी उस में कमी नजर आयी एवं अप्रैल-जून 2018 में करीब 3.1 कामगारों ने सी.डब्ल्यूएस में अतिरिक्त कार्य की उपलब्धता दर्ज करवायी ।

(पारा. 3.6.5.1)

- नगरीय क्षेत्रों में जुलाई 2017 - जून 2018 के दौरान सीडब्ल्यूएस में कामगारों में उपलब्ध अतिरिक्त कार्य की रेंज 10 से 14 घंटों के बीच थी जो अतिरिक्त कार्य हेतु उपलब्ध थे ।

(पारा. 3.6.5.1)

(ड) बेरोजगार दर

- सामान्य स्थिति (पीएस+एसएस) में ग्रामीण क्षेत्रों में पुरुषों में बेरोजगार दर 5.8 प्रतिशत था एवं महिलाओं में 3.8 प्रतिशत जबकि नगरीय क्षेत्रों में यही दर पुरुषों में 7.1 प्रतिशत एवं महिलाओं के बीच 10.8 प्रतिशत था ।

(पारा. 3.7.1.2)

- सीडब्ल्यूएस में, ग्रामीण क्षेत्रों में बेरोजगार दर पुरुषों के बीच 8.8 प्रतिशत था एवं महिलाओं के बीच 7.7 प्रतिशत था जबकि नगरीय क्षेत्र में पुरुषों में यह दर 8.8 प्रतिशत एवं महिलाओं में यह 12.8 प्रतिशत था ।

(पारा. 3.7.1.2)

- 15 वर्षों और उससे उपर के उम्र के शिक्षित ग्रामीण पुरुषों एवं ग्रामीण महिलाओं के लिए (माध्यमिक एवं उसके उच्चतर का अधिकतम शिक्षा का स्तर), सामान्य स्थिति (पीएस+एसएस) में बेरोजगार दर क्रमवार 10.5 प्रतिशत एवं 17.3 प्रतिशत थे ।

(पारा. 3.7.2.3)

- 2017-18 में नगरीय क्षेत्रों में, 15 वर्षों और उससे उपर के उम्र के शिक्षित पुरुषों के लिए, बेरोजगार दर 9.2 प्रतिशत था एवं शिक्षित महिलाओं के बीच यह बेरोजगार दर 19.8 प्रतिशत था ।

(पारा. 3.7.2.3)

- 2017-18 के दौरान बेरोजगार दर ग्रामीण युवा पुरुष (15-29 वर्ष) में 17.4 प्रतिशत था जबकि यह बेरोजगार दर ग्रामीण युवा महिला में 13.6 प्रतिशत था । 2017-18 के दौरान बेरोजगार दर नगरीय युवा पुरुष में 18.7 प्रतिशत था एवं यही बेरोजगार दर नगरीय युवा महिला के लिए 27.2 प्रतिशत था ।

(पारा. 3.7.3.2)

HIGHLIGHTS

This Report is based on the Periodic Labour Force Survey (PLFS) conducted by NSSO from July 2017 to June 2018. The survey was spread over 12,773 FSUs (7,014 villages and 5,759 urban blocks) covering 1,02,113 households (56,108 in rural areas and 46,005 in urban areas) and enumerating 4,33,339 persons (2,46,809 in rural areas and 1,86,530 in urban areas). Estimates of the labour force indicators are presented in this Report based on the *usual status (ps+ss)* approach and *current weekly status* approach adopted in the survey for classification of the population by activity statuses. The reference period for usual status (ps+ss) approach is 1 year and for *current weekly status* approach, it is 1 week. A rotational panel sampling design was used in urban areas. In this rotational panel scheme each selected household in urban areas is visited four times – in the beginning with first visit schedule and thrice periodically later with revisit schedule. There was no revisit in the rural samples. The estimates of household and population, labour force, workforce and unemployment presented here are based on data collected in the Schedules of first visit in both rural and urban areas.

Some of the key results at the all-India level for the period July 2017 - June 2018 emerging from PLFS are highlighted below.

A Household and Population

- About 70.7 per cent of the persons in India belonged to rural areas.
[para. 3.1.1.1]
- The average household size in India was about 4.2. It was about 4.3 in rural India and about 3.9 in urban India.
[para. 3.1.1.1]
- The sex ratio (number of females per 1000 males) in India was 956. It was 952 in rural India and 965 in urban India.
[para. 3.1.1.1]
- Persons aged 15-29 years, who are considered as the youth, accounted for 27.4 per cent of rural males, 27 per cent of rural females, 28.2 per cent of urban males and 27.8 per cent of urban females.
[para 3.1.3.1]
- During 2017-18, persons of age 15 years and above, accounted for 71.5 per cent of rural male, 73.8 per cent of rural females, 76.3 per cent of urban males and 77.7 per cent of urban females.
[para 3.1.3.1]

- In India, literacy rate (*among persons of age 7 years and above*) during 2017-18 was 76.9 per cent.
[para. 3.1.4.1]
- Literacy rate in both rural and urban areas was higher among males than females: in rural areas, literacy rate was 80.7 per cent among males compared to 64.5 per cent among females and in urban areas, literacy rate was 91.6 per cent among males compared to 81.6 per cent among females.
[para. 3.1.4.1]
- During 2017-18, about 52.2 per cent of rural households had major source of income from *self-employment*. The share of rural households with major source of income from *casual labour* during 2017-18 was 25 per cent and that of *regular wage/salary earning* was 12.7 per cent.
[para. 3.1.2.2]
- In urban areas, the share of the household type *self-employment* during 2017-18 was 32.4 per cent, the share of households with major source of income from *regular wage/salary earning* was 41.4 per cent while that of *casual labour* was 11.8 per cent.
[para. 3.1.2.2]

B Labour Force

- About 54.9 per cent of the rural males, 18.2 per cent of the rural females, 57 per cent of the urban males and 15.9 per cent of the urban females were in the labour force in *usual status (ps+ss)*.
[para. 3.2.1.2]
- Among persons of age 15-29 years, LFPR in *usual status (ps+ss)* in India was 38.2 per cent: it was 38.1 per cent in rural areas and 38.5 per cent in urban areas.
[para. 3.2.2.1]
- Among persons of age 15 years and above, LFPR in *usual status (ps+ss)* in India was 49.8 per cent: it was 50.7 per cent in rural areas and 47.6 per cent in urban areas.
[para. 3.2.3.1]

C Workforce

C.1 Worker Population Ratio (WPR)

- The Worker Population Ratio (WPR) in *usual status (ps+ss)* was about 34.7 per cent at the all-India level. It was about 35 per cent in rural areas and 33.9 per cent in urban areas.
[para. 3.3.1.2]

- The WPR in *usual status (ps+ss)* was 51.7 per cent for rural males, 17.5 per cent for rural females, 53 per cent for urban males and 14.2 per cent for urban females.
[para. 3.3.1.2]
- The WPR in *current weekly status (CWS)* was about 32.7 per cent at the all-India level: 32.6 per cent in rural areas and 32.9 per cent in urban areas. The WPR in CWS was 49.6 per cent for rural males, 14.8 per cent for rural females, 51.7 per cent for urban males and 13.3 per cent for urban females.
[para. 3.3.1.4]
- Among persons of age 15-29 years, WPR in usual status (ps+ss) in India was 31.4 per cent: it was 31.8 per cent in rural areas and 30.6 per cent in urban areas.
[para. 3.3.3.1]
- Among persons of age 15 years and above, WPR in usual status (ps+ss) in India was 46.8 per cent: it was 48.1 per cent in rural areas and 43.9 per cent in urban areas.
[para. 3.3.3.3]

C.2 Status in employment among workers in usual status (ps+ss)

- Share of *self-employed* among workers in *usual status (ps+ss)* was about 57.8 per cent among rural males, 57.7 per cent among rural females, 39.2 per cent among urban males and 34.7 per cent among urban females.
[para. 3.3.6.2]
- Among workers in *usual status (ps+ss)*, about 14 per cent among rural males, 10.5 per cent among rural females, 45.7 per cent among urban males and 52.1 per cent among urban females were *regular wage/ salaried employees*.
[para. 3.3.6.2]
- The proportion of *casual labour* among workers in *usual status (ps+ss)* was about 28.2 per cent among rural males, 31.8 per cent among rural females, 15.1 per cent among urban males and 13.1 per cent among urban females.
[para. 3.3.6.2]

C.3 Industry of work of the workers in usual status (ps+ss)

- In rural areas, about 55 per cent of the male workers and 73.2 per cent of the female workers were engaged in the agricultural sector. The proportions of male and female workers in rural areas engaged in 'construction' sector were 14.5 per cent and 5.3 per cent respectively. The proportions of male and female workers in rural areas engaged in 'manufacturing' sector were 7.7 per cent and 8.1 per cent respectively.
[para. 3.3.7.2]

- In urban India, during 2017-18, among male workers, the industry sector, 'trade, hotel and restaurant' sector engaged about 24.5 per cent while 'manufacturing' and 'other services' sectors accounted for about 22.4 per cent and 21.5 per cent, respectively.

[para. 3.3.7.3]

- Among female workers in the urban, 'other services' sector (other than 'trade, hotel & restaurant' and 'transport, storage & communications') shared the highest proportion of workers (44.4 per cent), followed by 'manufacturing' (25.2 per cent) and 'trade, hotel and restaurant' (13 per cent).

[para. 3.3.7.3]

C.4 Occupation of the workers in usual status (ps+ss)

- In rural areas, 9.1 per cent of the male workers and 8.7 per cent of the female workers were engaged in the following occupation divisions: *Division 1: Legislators, senior officials and managers, Division 2: Professionals* and *Division 3: Technicians and associate professionals*.

[para. 3.3.8.1]

- In urban areas, 30.4 per cent of the male workers and 34.6 per cent of the female workers were engaged in the following occupation divisions: *Division 1: Legislators, senior officials and managers, Division 2: Professionals* and *Division 3: Technicians and associate professionals*.

[para. 3.3.8.1]

C.5 Informal sector and conditions of employment of the workers in usual status (ps+ss)

- From PLFS, share of *informal sector* is available among the workers in the industry groups/divisions 014, 016, 017, 02 and 03 (referred to as AGEGC sector) and the industry divisions 05-99 (referred to as the non-agriculture sector). Industry groups/divisions 014, 016, 017, 02 and 03 are in the [AG]riculture sector [E]xcluding [G]rowing of [C]rops, plant propagation, combined production of crops and animals without a specialized production of crops or animals. In India, 68.4 per cent of the workers in usual status (ps+ss) in *non-agriculture* and *AGEGC sectors* were engaged in informal sector. The share of informal sector among male workers was 71.1 per cent and among female workers was nearly 54.8 per cent in *non-agriculture* and *AGEGC sectors*.

[para. 3.4.1.2]

- In India, among regular wage/salaried employees in the *non-agriculture sector*, 71.1 per cent had no written job contract: 72.3 per cent among males and 66.8 per cent among females.

[para. 3.4.2.2]

- In India, among regular wage/salaried employees in the *non-agriculture sector*, 54.2 per cent were not eligible for paid leave: 55.2 per cent among males and 50.4 per cent among females.

[para. 3.4.2.4]

- In India, among regular wage/salaried employees in the *non-agriculture sector*, 49.6 per cent were not eligible for any social security benefit: 49 per cent among males and 51.8 per cent among females.

[para.3.4.2.5]

D Earnings from employment, hours worked and hours available for additional work

The estimates on earnings from employment of the workers, hours worked and hours available for additional work are derived on the basis of data collected in the first visit schedule in rural areas (since in rural areas there was no revisit) and on the basis of data collected in the first visit schedule as well as revisit schedules in urban areas for each of the survey periods July – September 2017, October- December 2017, January – March 2018 and April – June 2018.

Information on earnings from employment was collected for all the three categories of workers, viz., self-employed persons, regular wage/salaried employees and casual labour. For regular wage/salaried persons in current weekly status information on earnings was collected for preceding calendar month, for self-employed persons in current weekly status information on earnings was collected for the last 30 days and for casual labour information on earnings was collected for each day of the reference week.

D.1 Earnings from employment

- In rural areas, among regular wage/salaried employees in current weekly status, earnings during the preceding calendar month ranged from Rs 13 thousand to Rs. 14 thousand among males and it was around Rs. 8.5 thousand to Rs. 10 thousand among females during July – September 2017, October- December 2017, January – March 2018 and April – June 2018.

[para. 3.5.1.1]

- In urban areas, among regular wage/salaried employees in current weekly status, earnings during the preceding calendar month ranged from Rs. 17 thousand to Rs. 18 thousand among males and from Rs. 14 thousand to 15 thousand among

females during July – September 2017, October- December 2017, January – March 2018 and April – June 2018.

[para 3.5.1.1]

- In rural areas, average wage earnings per day by casual labour engaged in works other than public works ranged between Rs. 253 to Rs. 282 among males and nearly Rs. 166 to Rs. 179 among females during July – September 2017, October-December 2017, January – March 2018 and April – June 2018. In urban areas, average wage earnings per day by casual labour engaged in works other than public works ranged between Rs. 314 to Rs. 335 among males and nearly Rs. 186 to Rs. 201 among females during this period.

[para 3.5.2.1]

- In rural areas, average wage earnings per day by casual labour engaged in MGNREG public works ranged between Rs. 141 to Rs. 171 among males and nearly Rs. 131 to Rs. 165 among females during July – September 2017, October-December 2017, January – March 2018 and April – June 2018.

[para 3.5.3.1]

- In rural areas, a male casual labour engaged in public works other than MGNREG public works earned on an average nearly Rs. 138 to Rs. 158 per day while a female casual labour engaged in public works other than MGNREG public works earned nearly Rs. 119 to Rs. 144 per day during July – September 2017, October-December 2017, January – March 2018 and April – June 2018.

[para 3.5.3.1]

- In rural areas average gross earnings during the last 30 days from self-employment work by the self-employed workers in CWS ranged between Rs. 8500 to Rs. 9700 among males which was nearly Rs. 3900 to Rs. 4300 among females during July – September 2017, October- December 2017, January – March 2018 and April – June 2018. In urban areas, average gross earnings from self-employment work during the last 30 days was around Rs. 16 thousand among males and it ranged between Rs. 6500 to Rs. 7500 among females during this period.

[para. 3.5.4.1]

D.2 Hours actually worked during the reference week by the workers in current weekly status (CWS)

- In rural areas, in a week, a worker in CWS actually worked on an average nearly 48 hours during July 2017 to June 2018 and in urban areas they worked for 56 hours, in a week, during this period.

[para. 3.6.2.2]

D.3 Hours available for additional work by the workers in current weekly status (CWS)

- In rural areas, during July – September 2017, nearly 10.7 per cent of the workers in CWS reported that they were available for additional work. The percentage of workers in CWS reporting that they were available for additional work showed a decreasing trend over the survey period (July 2017- June 2018) and during April – June 2018, nearly 4.6 per cent of the workers in CWS reported that they were available for additional work.

[para. 3.6.4.1]

- In rural areas, during July 2017- June 2018 hours available for additional work in a week for workers in CWS who reported that they were available for additional work, ranged from 11 to 13 hours.

[para. 3.6.4.1]

- In urban areas, during July – September 2017, nearly 9 per cent of the workers in CWS reported that they were available for additional work. The percentage of workers who reported that they were available for additional work decreased over the survey period (July 2017 – June 2018) and during April – June 2018, nearly 3.1 per cent of the workers in CWS reported that they were available for additional work.

[para. 3.6.5.1]

- In urban areas, during July 2017- June 2018 hours available for additional work in a week for workers in CWS who reported that they were available for additional work ranged from 10 to 14 hours.

[para. 3.6.5.1]

E Unemployment Rate

- In the *usual status* (ps+ss), unemployment rate was 5.8 per cent among males and 3.8 per cent among females in rural areas, while the rates were 7.1 per cent among males and 10.8 per cent among females in urban areas.

[para. 3.7.1.2]

- In CWS, the unemployment rate was 8.8 per cent among males and was 7.7 per cent among females in rural areas while the rates were 8.8 per cent among males and 12.8 per cent among females in urban areas.

[para. 3.7.1.2]

- For *educated (highest level of education secondary and above)* rural males and rural females of age 15 years and above, unemployment rates in usual status (ps+ss) were 10.5 per cent and 17.3 per cent respectively.

[para. 3.7.2.3]

Highlights

- For *educated* males of age 15 years and above in urban areas, the unemployment rate was 9.2 per cent and among the *educated* females of age 15 years and above in the urban areas, the unemployment rate was 19.8 per cent in 2017-18.

[para 3.7.2.3]

- The unemployment rate among the rural male youth (persons of age 15-29 years) was 17.4 per cent while the unemployment rate among the rural female youth was 13.6 per cent during 2017-18. The unemployment rate among the urban male youth was 18.7 per cent in 2017-18 while the unemployment rate for urban female youth was 27.2 per cent during 2017-18.

Chapter One

Introduction

Chapter One

Introduction

1.0 Past employment and unemployment surveys undertaken by NSSO

1.0.1 The employment and unemployment surveys undertaken by the National Sample Survey Office (NSSO) are the primary source of statistics on labour force, activity participation of the population and structure of employment and unemployment in the country. The architecture of these surveys provides the measurement of labour force indicators in cross classification of age, gender, education, industry, etc.

1.0.2 *Employment and Unemployment surveys conducted in the past by NSSO*

1.0.2.1 *Quinquennial employment and unemployment surveys of NSSO:* To assess the volume and structure of employment and unemployment, starting with the 9th round (May - September, 1955), NSSO conducted a number of surveys on employment and unemployment. To give a firm conceptual framework for conducting the employment and unemployment surveys, the Planning Commission, in the year 1970, set up an “Expert Committee on Unemployment Estimates” (popularly known as the Dantwala Committee). The concepts and definitions recommended by this committee formed the basis of the first quinquennial survey on employment and unemployment conducted in NSS 27th round (October 1972 - September 1973). Since then, eight comprehensive quinquennial surveys on employment and unemployment situation in India have been carried out by NSSO. These were carried out during the 32nd round (July 1977 - June 1978), 38th round (January - December 1983), 43rd round (July 1987 - June 1988), 50th round (July 1993 - June 1994), 55th round (July 1999 - June 2000), 61st round (July 2004 - June 2005), 66th round (July 2009 - June 2010) and 68th round (July 2011 - June 2012), in which concepts, definitions and procedures were based primarily on the recommendations of the Dantwala Committee.

1.0.2.2 *Other surveys on employment-unemployment:* Apart from the quinquennial surveys on employment and unemployment, NSSO has also collected information on certain key items on employment and unemployment, as a part of annual series, from a smaller sample of households in each round since its 45th round (July 1989 - June 1990) through the schedule on Household Consumer Expenditure (Schedule 1.0). This procedure of collecting data on employment and unemployment in the annual rounds of NSSO continued till NSS 59th round (January - December 2003). In the annual rounds, only activity status and industry of work according to usual principal status, subsidiary status and current weekly status approach were collected through a few columns of the demographic block of the Consumer Expenditure Schedule (Schedule 1.0). In the annual rounds, particulars of employment and unemployment according to the usual principal status and usual subsidiary status were collected by applying a similar approach as in the quinquennial rounds. In the quinquennial rounds, current daily activities in terms of status and industry are collected for the household members and current weekly activity is derived from the daily activities of the reference week whereas in the

annual rounds, current weekly activity particulars were collected through direct query. In the 60th round (January - June 2004), a separate schedule on employment and unemployment was canvassed for the first time in an annual round and particulars on employment and unemployment were collected in the same manner as that of the quinquennial rounds. A separate schedule on employment and unemployment, similar to the one canvassed in the 60th round, was also canvassed in the 62nd round (July 2005 - June 2006) and 64th round (July 2007- June 2008) of NSSO.

1.1 Genesis and objective of the Periodic Labour Force Survey (PLFS) of NSSO

1.1.1 The behavior of labour market depends on the trend and pattern of the overall economy. The volatility in the economy, both in its inter and intra sectoral linkages as well as in the context of economic integration with rest of the world, is reflected in the domestic labour market. As such, measuring its short term impact on labour market is considered extremely important. Considering the importance of availability of labour force data at more frequent time intervals (say, for every quarter), on the recommendation of the National Statistical Commission (NSC), the Ministry of Statistics and Programme Implementation (MoS&PI) constituted a Committee on Periodic Labour Force Survey (PLFS) under the Chairpersonship of Prof. Amitabh Kundu, the then Member, NSC to develop the survey methodology including the sample design for generating monthly/quarterly labour market data.

1.1.2 Subsequently, as a follow-up action on the recommendation made by the National Statistical Commission (NSC), a Standing Committee on Labour Force Statistics (SCLFS) was constituted by NSSO on 12th November 2014 under the Chairmanship of Prof. S. P. Mukherjee, Emeritus Professor, University of Calcutta. The SCLFS decided that the PLFS would also be used to collect data on some aspects of the quinquennial employment and unemployment survey covering both rural and urban areas, besides retaining the feature of PLFS to generate quarterly estimates of level and change parameters for only urban areas. Accordingly, SCLFS made recommendations with respect to the structure of the Schedule of Enquiry, Sampling Design, etc., which were adopted for PLFS.

1.1.3 The objective of PLFS is primarily two fold. The first is to measure the dynamics in labour force participation and employment status in the short time interval of three months for the urban areas only in the Current Weekly Status (CWS). Thus, in every quarter, PLFS will bring out the level and change estimates of the key labour force indicators in CWS, viz., Worker population ratio (WPR), Labour Force Participation Rate (LFPR), Unemployment Rate (UR). Secondly, for both rural and urban areas, level estimates of all important parameters in both usual status (ps+ss) and CWS will be brought out annually. It may be noted that unlike in earlier quinquennial rounds of NSSO, it was decided that the estimates of the labour force parameters in the Report of PLFS will be provided in usual status (ps+ss) and in current weekly status (CWS) approach.

1.2 Geographical coverage of PLFS

1.2.1 *Geographical coverage*: The survey covered the whole of the Indian Union *except* the villages in Andaman and Nicobar Islands which remained extremely difficult to access throughout the year.

1.3 Sample Design of PLFS

1.3.1 A rotational panel sampling design has been used in urban areas. In this rotational panel scheme each selected household in urban areas is visited four times – in the beginning with first visit schedule and thrice periodically later with revisit schedule. In urban area, samples for a panel within each stratum were drawn in the form of two independent sub-samples. There was no revisit in the rural samples. For rural areas, samples for a stratum/sub-stratum were drawn randomly in the form of two independent sub-samples. For rural areas, in each quarter of the survey period, 25% FSUs of annual allocation were covered.

1.3.2 A stratified multi-stage design was adopted for PLFS. The first stage units (FSU) were the Urban Frame Survey (UFS) blocks in urban areas and 2011 Population Census villages (Panchayat wards for Kerala) in rural areas. The ultimate stage units (USU) were households. As in usual NSS rounds, in the case of large FSUs one intermediate stage unit, called hamlet group/sub-block, were formed.

1.3.3 In urban areas strata were formed within each NSS region on the basis of size class of towns as per Population Census 2011. The rural areas of each NSS region constituted rural stratum. In case of rural sectors of Nagaland, a special stratum was formed within the State consisting of all the villages which were difficult to access.

In urban areas there was no sub-stratification. In rural areas, 'r/8' sub-strata were formed in each rural stratum, if 'r' was the annual sample size allocated for a rural stratum. The villages within a stratum as per frame were first arranged in ascending order of population. Then sub-strata 1 to 'r/8' were demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal population.

1.3.4 At all-India level a total of 12800 FSUs (7024 villages and 5776 UFS blocks) were allotted for survey annually. State/UT level samples were allocated between two sectors in proportion to population as per Census 2011 with double weightage to urban sector in general. Within each sector of a State/UT, the respective sample size was allocated to the different strata (in the case of urban areas) and strata/ sub-strata (in the case of rural areas) in proportion to the population as per Census 2011. Urban allocations at stratum level were adjusted to multiples of 8 with a minimum sample size of 8 (for 4 panels, each of size multiple of 2). Rural allocation for each stratum was also multiple of 8 with minimum sample size of 8 (for 4 quarters, each of size 2).

1.3.5 Urban FSUs were selected by probability proportional to size with replacement (PPSWR) scheme, size being the number of households in the UFS block. Samples for a panel within each stratum were drawn in the form of two independent sub-samples. To

implement the rotational scheme, 4 groups of sample FSUs of equal size (each multiple of size 2, half for each of sub-sample 1 and sub-sample 2) were drawn randomly. In the rural areas, samples for a stratum/sub-stratum were drawn randomly in the form of two independent sub-samples with probability proportional to size with replacement (PPSWR) scheme, size being the population of the village and equal number of samples were allocated among the four quarters. All households listed in a village/UFS block where no hamlet-group/sub-block formation was done, or the households listed in the two selected hamlet-groups/sub-blocks of the village/UFS block where hamlet-group/sub-block formation was done, constituted the sampling frame of households. All the households listed in the selected village/ hamlet-groups were stratified into three second stage strata (SSS) and all the households listed in the selected UFS block /sub-blocks were stratified into four second stage strata (SSS). A total of 8 households were selected from each sample village/block for canvassing the detailed schedule. The sample households from each of the second stage strata were selected by SRSWOR.

1.3.6 The domains of rural and urban sector in the survey are co-terminus with the criterion adopted in census. The urban frame used in the survey was the latest updated UFS that took into account the newly declared towns after the last census 2011. Accordingly the rural sector is the one that is not urban.

1.4 Sample Size

1.4.1 Sample Size for First Visit during July 2017- June 2018 in rural and urban areas: Out of the total number of 12,800 FSUs (7,024 villages and 5,776 UFS blocks) allotted for the survey at the all-India level during July 2017- June 2018; 12,773 FSUs (7,014 villages and 5,759 urban blocks) could be surveyed for canvassing the PLFS schedule (Schedule 10.4). The number of households surveyed was 1,02,113 (56,108 in rural areas and 46,005 in urban areas) and number of persons surveyed was 4,33,339 (2,46,809 in rural areas and 1,86,530 in urban areas).

1.4.2 Sample Size in urban areas in each of the quarter of survey period July 2017- June 2018: In urban areas a rotational panel sampling design was used and in this rotational panel scheme each selected household in urban areas is visited four times – one with first visit schedule and other three with revisit schedule. In rural areas there was no revisit. In the Table below, the sample size in terms of FSU (UFS block), households and persons in urban areas is given, separately for each of the quarter of the survey period July 2017- June 2018.

Survey Period	FSU (UFS blocks)	household	person
July - Sept 2017	1439	11497	47608
Oct - Dec 2017	2877	22717	92976
Jan - Mar 2018	4310	33839	137698
April- June 2018	5739	44697	180808

Please refer to the data reference given in Table 2 of this Chapter.

1.5 Some special features of PLFS

The PLFS has the following special features:

(i) **Computer-assisted Personal Interviewing (CAPI):** In PLFS, information in Schedule of Enquiry (Schedule 10.4) was collected from all members of the sample households using Computer-assisted Personal Interviewing (CAPI) method.

(ii) **Rotational panel sampling design in urban areas:** A rotational panel sampling design was used in urban areas. In this rotational panel scheme each selected household in urban areas is visited four times – one with first visit schedule and other three with revisit schedule. There was no revisit in the rural samples. The details of the sampling design are given in Appendix B.

(iii) **Collection of information on hours worked on each day of the reference week:** For the persons engaged in economic activity on the days of the reference week, hours worked were recorded and current weekly activity status for those engaged in economic activity was determined on the basis of time disposition in each day of the reference week recorded in terms of hours worked. Besides, information on total hours actually worked considering all the work performed during the day was also collected.

(iv) **Availability for additional work:** For the persons who were engaged in economic activity on different days of the week, if they were available for additional work on that day, information on hours available for work during the day was recorded.

(v) **Earnings from employment:** For regular wage/salaried employees in current weekly status, information on earnings from the regular salaried/wage employment for the preceding calendar month was collected. For the self-employed persons in current weekly status, information on gross earnings from the self-employment activity during the last 30 days was collected. For the persons worked as casual labour on different days of the reference week, information on wage earnings was collected separately for each of such days.

1.6 Data reference and survey period of the Annual Report of Periodic Labour Force Survey (PLFS), 2017-18

1.6.1 The results of the Annual Report of PLFS, 2017-18 are generated from the data collected during the four quarters of the survey period: July-September 2017, October-December 2017, January-March 2018 and April- June 2018. This is the first Annual Report brought out on the basis of data collected in PLFS.

1.6.2 It may be noted that the report contains broadly two types of estimates depending on the coverage of data of PLFS collected during July 2017- June 2018: One set of estimates are based on the data of the first visit Schedules that were canvassed during the four quarters of the Survey, i.e., July-September 2017, October-December 2017, January-March 2018 and April- June 2018 and another set of estimates include all the first visit and revisit Schedules

canvassed in the survey period of July 2017 to June 2018 corresponding to the four quarters, viz., July-September 2017, October-December 2017, January-March 2018 and April- June 2018.

1.6.3 The Tables of this report contain estimates of labour force indicators in *usual status* (*ps+ss*) and *current weekly status* (CWS) and their patterns in association with their correlates at all-India level and State/UT level. The present report also covers some aspects of earnings from employment, hours worked and hours available for additional work, etc.

1.6.4 In the table below, the data reference of different Statements/ Tables of this Report are given:

Tables	Statements	Data reference	Survey period	Relevant quarter of the financial year (FY)-2017-18/ 2018-19
Table 1 to Table 41, Table 50 to Table 55	Statements 1 to 21, 30 to 50	First visit samples	July 2017- June 2018	Quarter 2, Quarter 3 and Quarter 4 of FY 2017-18 and Quarter 1 of FY 2018-19.
Table 42 to Table 48	Statements 22 to 29	First visit samples	July - September 2017	Quarter 2 of FY 2017-18
		(i) First visit samples (ii) Second visit schedules of July - September 2017	October - December 2017	Quarter 3 of FY 2017-18
		(i) First visit samples (ii) Second visit samples of October - December 2017 (iii) Third visit samples of July - September 2017	January - March 2018	Quarter 4 of FY 2017-18
		(i) First visit samples (ii) Second visit samples of January - March 2018 (iii) Third visit samples of October - December 2017 (iv) Fourth visit samples of July - September 2017	April - June 2018	Quarter 1 of FY 2018-19.

1.7 Contents of the report

1.7.1 This report contains three chapters, including the present introductory chapter (Chapter One), and four appendices. Chapter Two describes the concepts and definitions of important terms used in the survey in connection with the various items covered in this report. The summary of findings are presented and discussed in Chapter Three. The detailed tables forming the basis of this report are presented in Appendix A. Appendix B gives a detailed description of the sample design and estimation procedure used for the survey. Appendix C gives a facsimile of the schedule (Schedule 10.4) canvassed in the Periodic Labour Force Survey (PLFS). The RSEs of some of the estimates have been presented in Appendix D.

1.7.2 Chapter Three of the Report is arranged in Ten Sections as follows: section one deals with Households and Population, in section two characteristics of the Labour Force are discussed, in section three discussion is on workforce, in section four employment in

Informal Sector and conditions of employment are discussed, section five gives the estimates of earnings from employment, in section six estimates of hours worked are presented, in section seven estimates of unemployment are discussed, in section eight Technical education, vocational/technical training and number of years in formal education are discussed, in section nine employment status among social groups are discussed and the last section i.e., section ten deals with employment status among major religious groups.

1.7.3 It may also be noted that as the estimates in Tables/Statements are generally presented as ‘percentage distribution’ or rates ‘in per cent’, the figures are rounded off. Thus, while using the ratios from the survey results, it is to be noted that the accuracy of these derived aggregates will be limited to the number of significant digits available in such ratios. The estimates of the employment and unemployment characteristics have been presented in the report for all the States and UTs. While using the State/UT level estimates, it may be noted that the sample sizes for the smaller States/UTs may not be adequate enough for getting sufficiently reliable estimates for some of the employment and unemployment characteristics.

1.7.4 Appendix A contains the detailed tables of the report. In Appendix some of the estimates are also presented for each of the social groups (viz., *scheduled tribe* (ST), *scheduled caste* (SC), *other backward class* (OBC) and the rest referred to as *others*) as well as for the major religious groups (viz., *Hinduism, Islam, Christianity and Sikhism* which are referred to as major religious groups). The survey estimates of the aggregates presented in the margin of the detailed tables may be used to combine the estimates of the ratios or to get the ratios with more significant digits. If there are no sample households/persons in a particular category, the estimates/estimated proportions of households/persons in that category appear as zero (0). Estimated numbers ‘in per cent’ are also shown as zero (0), when they are greater than 0 but less than 0.05. In the Statements/Tables where estimates for PLFS are presented in percentages/percentage distributions, these are obtained by excluding not reported (n.r.) cases. Appendix A of the report turns out to be voluminous and hence, the hard-copy of Appendix A does not form a part of the Report. The soft copy of Appendix A of the report is provided in CD.

Chapter Two

Concepts and Definitions

Chapter Two

Concepts and Definitions

2.0 The concepts and definitions of some important terms used in the survey and relevant to this report are explained in the following paragraphs.

2.1 Household and household size: A group of persons who normally lived together and took food from a common kitchen constituted a household. The adverb “normally” means that temporary visitors and guests (whose total period of stay in the household was expected to be less than 6 months) were excluded but temporary stay-aways (whose total period of absence from the household was expected to be less than 6 months) were included. Thus a child residing in a hostel for studies was excluded from the household of his/her parents, but a resident domestic servant or paying guest (but not just a tenant in the house) was included in the employer’s/host’s household. “Living together” was given more importance than “sharing food from a common kitchen” in drawing the boundaries of a household in case the two criteria were in conflict. However, in the special case of a person taking food with his family but sleeping elsewhere (say, in a shop or a different house) due to shortage of space, the household formed by such a person’s family members was taken to include the person also. Each inmate of a hotel, mess, boarding-lodging house, hostel, etc., was considered to be a single-member household. The same principle was applicable for the residential staff of such establishments. However, if a group of persons among them pooled their income for spending, they were treated as forming a single household. A family living in a hotel was treated as a single household. The size of a household is the total number of persons in the household.

2.2 Age (years): The age in completed years, as on the date of survey, of the household members were recorded.

2.3 Household type: The household type was decided based on the sources of the household's income during the 365 days preceding the date of survey. For this purpose, only the household's income (net income and not gross income) from economic activities was considered; but the incomes of servants and paying guests were not taken into account.

In **rural** areas, a household belonged to any one of the following six household types:

1. self-employed in agriculture
2. self-employed in non-agriculture
3. regular wage/salary earning
4. casual labour in agriculture
5. casual labour in non-agriculture
6. others

For **urban** areas, the household types are:

1. self-employed
2. regular wage/salary earning
3. casual labour
4. others

2.4 Household's usual consumer expenditure (in Rs.) in a month: This may was ascertained as follows.

(i) first it was ascertained what was the usual expenditure for household purposes in a month (let it was Rs. A).

(ii) Next, the purchase value of any household durables (mobile phones, TV sets, fridge, fans, cooler, AC, vehicles, computers, furniture, kitchen equipment, etc.) purchased during the *last one year* was ascertained and the expenditure *per month* was obtained by dividing by 12. (let it was Rs. B.)

(iii) Further, it was ascertained whether there was usually any consumption from (a) wages in kind (b) home-grown stock (c) free collection. If so, the approximate monthly value of the amount usually consumed in a month was imputed (Let it was Rs. C).

(iv) Then the sum of A+B+C was the usual monthly consumer expenditure of the household

2.5 General educational level: A person who can both read and write a simple message with understanding in at least one language was considered as literate for the purpose of the survey. For all the individuals who were found to be literate, the general level of education was collected in terms of highest level of education successfully completed by him/her. Highest level of education successfully completed by each member of the household was decided by considering his/ her all general/ technical/ vocational educational level and was recorded in terms of 12 categories viz. (i) *not literate*, (ii) *literate without formal schooling: (a) Education Guarantee Scheme (EGS)/Non-formal Education Courses (NFEC)/ Adult Literacy Centres (AEC), (b) Total Literacy Campaign (TLC), (c) others; (iii) literate but below primary, (iv) primary (v) middle, (vi) secondary, (vii) higher secondary, (viii) diploma/certificate course, (ix) graduate, and (x) postgraduate and above.* The criteria for deciding primary, middle, secondary, etc. levels were the same as that has been followed in the concerned states/union territories. The category 'diploma or certificate course' meant diploma or certificate courses in general education, technical education or vocational education, which is below graduation level. Diploma or certificate courses in general education, technical education or vocational education, which is equivalent to graduation level, was considered under the category 'graduate'. Similarly, diploma or certificate courses in general education, technical education or vocational education, which is equivalent to post-graduation level and above were considered under the category 'post-graduate and above'.

2.6 Number of years in formal education: Number of years in formal education refers to the number of academic years a person attended, or participated in a formal education programme (structured in terms of learning objectives, learning time or learning support and leading to degree/diploma/certificate) provided by elementary and secondary schools, universities, colleges and other institutions providing general/technical/vocation education, like polytechnics, ITIs, etc. An academic year was equivalent to a school year or in case of semester system, all the years in which semesters were planned. Entry in this column will be recorded in whole number of years by collecting the information on completed number of academic years spent in attending formal education. It may be noted that It may be noted that

- (i) Years in education at the level of pre-primary education was not included. Thus, years in school in kindergarten or such preparatory schooling were excluded. The count starts when the child gets admission in class I.
- (ii) No distinction was made in recording the years in education among students attending institutions providing automatic promotion and those allowing repetition in the same grade/class. Thus, in reporting the number of years in education, the repetition years were also counted.
- (iii) If a person had discontinued education at any time and again started education afterwards, then the time spent in-between was not counted.
- (iv) In counting the years in formal education, training programmes which are normally for performing specific jobs, in-service trainings was not included. However, the trainings which are part of the formal education programmes were considered for counting number of years in education.
- (v) There are some courses, like distance education, chartered accountancy (CA), Company Secretariatship (CS), etc., for which there is no fixed/predetermined number of years of education and one can complete such courses in phased manner in a number of attempts. For such courses, the following procedure was followed:
 - For those pursuing distance education, CA, CS, etc., number of years in education for that particular course was considered only when the course was completed successfully and it referred to the scheduled number of years generally specified or known for completion of the course.
 - In case, for a particular course, say, Doctorate, the number of years specified for completion of the course is not known, the number of years in education for such courses was considered only when the course was completed successfully. In such cases, calculation of number of years in education was done as follows: First determine the number of years in education for all such courses for which duration is known and then add two (2) years for each of courses completed for which number of years of education is not known. Thus, when a person completes chartered accountancy course, after completion of graduation, the number of years in education for that person will be the number of years in education for completing graduation level *plus* 2 years.

2.7 Technical educational level: The highest level of technical education successfully completed by each member of the household was recorded in terms of 16 categories viz. (i) *no technical education, technical degree in:* (ii) *agriculture, (iii) engineering/technology, (iv) medicine, (v) crafts, (vi) other subjects, diploma or certificate (below graduate level) in:* (vii) *agriculture, (viii) engineering/technology, (ix) medicine, (x) crafts, (xi) other subjects, diploma or certificate (graduate and above level) in:* (xii) *agriculture, (xiii) engineering/technology, (xiv) medicine, (xv) crafts, (xvi) other subjects*

2.8 Vocational/ Technical Training: A vocational/ technical training can broadly be defined as training through which knowledge and skills for the world of work were acquired. The main objective of vocational/ technical education and training is to make individuals employable for a broad range of occupations in various industries and other economic sectors. There are three methods of acquiring Vocational/ Technical training:

2.8.1 Formal Training: The training that is acquired through institutions/ organisations and is recognised by national certifying bodies, leading to diplomas/ certificates and qualifications. Formal training is structured according to educational arrangements such as curricula, qualifications, teaching/ learning requirements and assessment. Formal training is intentional from the learner's perspective.

2.8.2 Non- formal Training: The training that is in addition or alternative to formal learning and is also structured but is more flexible. It is provided through community-based settings, the workplace, or through the activities of civil society organisations or any organisation imparting training. This training mode does not have the level of curriculum, syllabus or accreditation and certification associated with formal learning but it is more structured as compared to informal learning.

2.8.3 Informal Training: The training that occurs in daily life, in the family, in the workplace, in communities, and through the interests and activities of individuals. It is not structured (in terms of learning objectives, learning time or learning support) and typically does not lead to certification.

2.8.4 Vocational/technical training other than formal vocational/technical training

(a) **Hereditary:** The expertise in a vocation or trade is sometimes acquired by the succeeding generations from the other members of the households, generally the ancestors. The expertise gained through significant 'hands-on' experience enables the individual to take up activities in self-employment capacity or makes them employable. Acquiring such marketable expertise by one, which enables him/her to carry out the trade or occupation of their ancestors over generations, was considered to be training through 'hereditary' sources.

(b) **Self-learning:** The expertise in a vocation or trade when acquired by a person through his/her own effort, without any training under any person or organisation, was considered as non-formal vocational training through 'self-learning'. For example, a person who learnt photography

on his own effort was considered to have acquired the non-formal vocational training through 'self-learning'.

(c) **Learning on the job:** The expertise acquired by a person while in employment (current and/or past), either through informal training by the employer or organisation or through the exposure to the type of job that he/she is/was performing, was considered as the training through 'learning on the job'. Note that if a person was provided with formal training in a vocation or trade even by the employer or organisation, while in employment, he/she was considered to have received 'formal' vocational/technical training.

(d) **Other:** The 'other' sources included the cases where the expertise for a vocation or trade was developed even from the household members or ancestors, provided that the said vocation or trade was different from the one relating to their ancestors. Similarly, a person might have learnt tailoring work from a master tailor or a person may learn book-binding work from a printing press. All such expertise acquired was considered as vocational/technical training through 'other' sources.

2.9 Economic activity: The entire spectrum of human activity falls into two categories – economic activities and non-economic activities. Any activity resulting in production of goods and services that add value to national product was considered as an economic activity for the employment and unemployment survey. Such activities included (i) production of all goods and services for market (i.e. for pay or profit) including those of government services, (ii) production of primary commodities for own consumption and (iii) own account production of fixed assets.

2.9.1 The full spectrum of economic activities as defined in the UN System of National Accounts was not covered in the definition of economic activities adopted for the Periodic Labour Force Survey (PLFS). Although production of any good for own consumption is considered as economic activity by UN System of National Accounts, production of only primary goods for own consumption was considered as economic activity by NSSO for the purpose of the survey. While the former considers activities like own account processing of primary products as economic activities, processing of primary products for own consumption was not considered as economic activity for PLFS.

2.9.2 The term 'economic activity' as defined in the PLFS, therefore, included:

- (i) all the market activities performed for pay or profit which result in production of goods and services for exchange.
- (ii) of the non-market activities,
 - (a) all the activities relating to the agriculture, forestry, fishing, mining and quarrying sector (i.e. industry Divisions 01 to 09 of NIC-2008) which result in production of

primary goods for own consumption (including free collection of uncultivated crops, forestry, firewood, hunting, fishing, mining, quarrying, etc.)

and

(b) activities relating to the own-account production of fixed assets, which include production of fixed assets including construction of own houses, roads, wells, etc., and of machinery, tools, etc., for household enterprise and also construction of any private or community facilities free of charge. A person may be engaged in own account construction in the capacity of either a labour or a supervisor.

The activities like prostitution, begging, etc., which might result in earning, were not considered as economic activities for the survey.

2.10 Activity status: It is the activity situation in which a person was found during a specified reference period with regard to the person's participation in economic and non-economic activities. According to this, a person could be in one or a combination of the following three broad activity statuses during the reference period:

- (i) working or being engaged in economic activity (work),
- (ii) being not engaged in economic activity (work) but either making tangible efforts to seek 'work' or being available for 'work' if 'work' is available and
- (iii) being not engaged in any economic activity (work) and also not available for 'work'.

Broad activity statuses mentioned in (i) and (ii) above are associated with 'being in labour force' and the last with 'not being in the labour force'. Within the labour force, broad activity status (i) and (ii) were associated with 'employment' and 'unemployment', respectively.

2.10.1 Identification of each individual in terms of a unique activity status could pose a problem when more than one of the three broad activity statuses listed above were concurrently obtained for a person during the reference period. In such an eventuality, unique identification under any one of the three broad activity statuses (viz. employed/ unemployed/not in labour force) was done by adopting either *the major time criterion* or *priority criterion*. The former was used for classification of persons according to the usual status approach and the latter for classification of persons according to the current status approach (i.e., current weekly status and current daily status approaches).

Each of the three broad activity statuses was further sub-divided into several detailed activity categories. If a person categorised as engaged in economic activity was found to be pursuing more than one economic activity during the reference period, the appropriate detailed activity in terms of status and industry was considered as that one corresponding to which relatively long time had been spent. A similar procedure was adopted for assigning detailed activity code for

persons categorised as engaged in non-economic activity and pursuing more than one non-economic activity.

2.10.2 The detailed activity statuses under each of the three broad activity statuses (viz. ‘employed’, ‘unemployed’ and ‘not in labour force’) and the corresponding codes used in the survey are given below:

<u>code</u>	<u>description</u>
working (or employed)	
<i>self-employed</i>	
11	worked in household enterprises (self-employed) as own-account worker
12	worked in household enterprises (self-employed) as an employer
21	worked in household enterprises (self-employed) as helper
<i>regular wage/ salaried employee</i>	
31	worked as regular wage/salaried employee
<i>casual labour</i>	
41	worked as casual labour in public works other than MGNREG public works
42	worked as casual labour in Mahatma Gandhi NREG public works
51	worked as casual labour in other types of works
61	did not work owing to sickness though there was work in household enterprise
62	did not work owing to other reasons though there was work in household enterprise
71	did not work owing to sickness but had regular salaried/wage employment
72	did not work owing to other reasons but had regular salaried/wage employment
not working but seeking/available for work (or unemployed)	
81	sought work or did not seek but was available for work (for usual status approach)
81	sought work (for current weekly status approach)
82	did not seek but was available for work (for current weekly status approach)
neither working nor available for work (or not in labour force)	
91	attended educational institutions
92	attended to domestic duties only
93	attended to domestic duties and was also engaged in free collection of goods (vegetables, roots, firewood, cattle feed, etc.), sewing, tailoring, weaving, etc. for household use
94	rentiers, pensioners, remittance recipients, etc.
95	not able to work owing to disability
97	others (including beggars, prostitutes, etc.)
98	did not work owing to sickness (for casual workers only)
99	children of age 0-4 years

It may be noted that codes 42, 61, 62, 71, 72, 82 and 98 were applicable for current status only. It may also be noted that activity status code 41 in the usual status is used for casual labour in all types of public works, whereas in the current activity status, code 41 is for casual labour in public works other than MGNREG public works and code 42 is for casual labour in MGNREG public works.

2.11 Workers (or employed): Persons who were engaged in any economic activity or who, despite their attachment to economic activity, abstained themselves from work for reason of illness, injury or other physical disability, bad weather, festivals, social or religious functions or other contingencies necessitating temporary absence from work, constituted workers. Unpaid household members who assisted in the operation of an economic activity in the household farm or non-farm activities were also considered as workers. Relevant activity status codes 11 to 72 were assigned for workers. Workers were further categorized as *self-employed* (relevant activity status codes: 11, 12, 21, 61, 62), *regular wage /salaried employee* (relevant activity status codes: 31, 71, 72), and *casual labour* (relevant activity status codes: 41, 42 and 51).

2.12 Seeking or available for work (or unemployed): Persons who, owing to lack of work, had not worked but either sought work through employment exchanges, intermediaries, friends or relatives or by making applications to prospective employers or expressed their willingness or availability for work under the prevailing conditions of work and remuneration, were considered as those 'seeking or available for work' (or unemployed). Activity status codes 81 or 82 were assigned for unemployed.

2.13 Labour force: Persons who were either 'working' (or employed) or 'seeking or available for work' (or unemployed) constituted the labour force. Persons with activity status codes 11 – 82 constituted the labour force.

2.14 Not in labour force: Persons who were neither 'working' nor 'seeking or available for work' for various reasons during the reference period were considered as 'not in labour force'. Persons under this category are students, those engaged in domestic duties, rentiers, pensioners, recipients of remittances, those living on alms, infirm or disabled persons, too young persons, prostitutes, etc. and casual labours not working due to sickness. Activity status codes 91-95, 97, 98 and 99 were assigned for persons belonging to category 'not in labour force'.

2.15 Self-employed: Persons who operated their own farm or non-farm enterprises or were engaged independently in a profession or trade on own-account or with one or a few partners were deemed to be self-employed in household enterprises. The essential feature of the self-employed is that they have *autonomy* (decide how, where and when to produce) and *economic independence* (in respect of choice of market, scale of operation and finance) for carrying out

their operation. The remuneration of the self-employed consists of a non-separable combination of two parts: a reward for their labour and profit of their enterprise.

2.15.1 Categories of self-employed persons: Self-employed persons were further categorised as follows:

- (i) **own-account workers:** Self-employed persons who operated their enterprises on their own account or with one or a few partners and who, during the reference period, by and large, ran their enterprise without hiring any labour were considered as own-account workers. They could, however, have had unpaid helpers to assist them in the activity of the enterprise.
- (ii) **employers:** Self-employed persons who worked on their own account or with one or a few partners and, who, by and large, ran their enterprise by hiring labour were considered as employers.
- (iii) **helpers in household enterprise:** Self-employed persons who were engaged in their household enterprises, working full or part time and did not receive any regular salary or wages in return for the work performed were considered as helpers in household enterprise. They did not run the household enterprise on their own but assisted the concerned person living in the same household in running the household enterprise.

2.16 Regular wage/salaried employee: These were persons who worked in others' farm or non-farm enterprises (both household and non-household) and, in return, received salary or wages on a regular basis (i.e. not on the basis of daily or periodic renewal of work contract). This category included not only persons getting time wage but also persons receiving piece wage or salary and paid apprentices, both full time and part-time.

2.17 Casual labour: A person who was casually engaged in others' farm or non-farm enterprises (both household and non-household) and, in return, received wages according to the terms of the daily or periodic work contract, was considered as a casual labour.

2.18 Public works: 'Public works' were those activities which were sponsored by Government or Local Bodies, and which cover local area development works like construction of roads, dams, bunds, digging of ponds, etc., as relief measures, or as an outcome of employment generation schemes under the poverty alleviation programmes such as Mahatma Gandhi National Rural Employment Guarantee (MGNREG) works, Sampoorna Grameen Rozgar Yojana (SGRY), National Food for Work Programme (NFFWP), etc. The coverage of schemes under 'public works' is restricted to those schemes under poverty alleviation programmes, or relief measures through which the Government generated wage employment. The types of works that were generally undertaken through these schemes, were watershed development, drought proofing, land levelling, flood control, laying pipes or cables, sanitation, water harvesting, digging of irrigation canal, development of orchard, road construction, building construction /

repair, running crèche, etc. There may be some schemes sponsored by the Government and in operation, which were conceived as self-employment generation schemes. Some such schemes of the Government were Swarnjayanti Gram Swarozgar Yojana (schemes under erstwhile IRDP merged with this), Rural Employment Generation Programme (REGP), Prime Minister's Rozgar Yojana (PMRY), Valmiki Ambedkar Awas Yojana (VAMBAY), etc. Employment generated through these schemes was not considered within the purview of 'public works'. Classification of individuals as 'casual labour in *public works*' required that the work in which they participated was '*public works*' as defined above. To distinguish between '*public works*' and works not classifiable as '*public works*', some broad characteristics of '*public works*' were identified, viz. the primary objective was generation of wage employment and poverty alleviation, and creation of community asset as an outcome in achieving those main objectives. It is to be noted that for assigning current weekly and current daily activity status codes for the casual labour working in public works, codes 41 and 42 were used as follows:

- (i) worked as casual labour in public works other than Mahatma Gandhi National Rural Employment Guarantee (MGNREG) public works – 41
- (ii) worked as casual labour in Mahatma Gandhi National Rural Employment Guarantee (MGNREG) public works – 42

In the usual activity status, code 41 was used for casual labour in public works, which included all types of public works and code 42 was not applicable in the usual activity status.

2.19 Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA): The Mahatma Gandhi National Rural Employment Guarantee Act, 2005 (MGNREGA) is an important step towards the realization of the right to work and to enhance the livelihood security of the households in the rural areas of the country. According to this Act, Rural Employment Guarantee Schemes (REGS) are formed by the State Governments. The Scheme provides at least 100 days of guaranteed wage employment in every financial year to every household whose adult members volunteer to do unskilled manual work. Adult means a person who has completed his/ her eighteen years of age. Unskilled manual work means any physical work which any adult person is capable of doing without any special skill/ training. The implementing agency of the scheme may be any Department of the Central Government or a State Government, a Zila Parishad, Panchayat/ Gram Panchayat or any local authority or Government undertaking or non-governmental organization authorized by the Central Government or the State Government.

2.20 Different approaches for determining activity status: In the labour force surveys, the activity status of a person is determined on the basis of the activities pursued by the person during certain specified reference period. The activity status determined on the basis of the reference period of last 365 days preceding the date of survey is known as the usual activity status of the person, that determined on the basis of a reference period of last 7 days preceding the date of survey is known as the current weekly status (CWS) of the person and the activity status determined for each day of the reference week which is known as the current daily status

(CDS) of the person. For the PLFS, activity status was collected for all the three reference periods mentioned above, viz., last 365 days for usual status, using a reference period of 7 days preceding the date of the survey for current weekly status and each day of the reference week for current daily status.

2.20.1 Identification of each individual into a unique situation poses a problem when more than one of three types of broad activity status viz. 'employed', 'unemployed' and 'not in labour force' is concurrently obtained for a person. In such an eventuality, unique identification under any one of the three broad activity statuses was done by adopting either the major time criterion or priority criterion. The former was used for classification of persons under 'usual activity status' and, the latter, for classification of persons under 'current weekly status' and 'current daily status'. If, by adopting one of these two criteria, a person categorised as engaged in economic activity was found to be pursuing more than one economic activity during the reference period, the appropriate detailed activity status category related to the activity in which relatively more time was spent. Similar approach was adopted for non-economic activities also.

2.20.2 Usual activity status: The usual activity status relates to the activity status of a person during the reference period of 365 days preceding the date of survey. The activity status on which a person spent relatively long time (major time criterion) during the 365 days preceding the date of survey was considered the *usual principal activity status* of the person. To decide the usual principal activity of a person, he/ she was first categorised as belonging to the labour force or not, during the reference period on the basis of major time criterion. Persons, thus adjudged as not belonging to the labour force were assigned the broad activity status 'neither working nor available for work'. For the persons belonging to the labour force, the broad activity status of either 'working' or 'not working but seeking and/ or available for work' was then ascertained again on the basis of the relatively long time spent in the labour force during the 365 days preceding the date of survey. Within the broad activity status so determined, the detailed activity status category of a person pursuing more than one such activity was determined again on the basis of the 'relatively long time spent' criterion.

2.20.3 Subsidiary economic activity status: Usual principal status of a person was determined as the status on which the person spent relatively long time (major time criterion) during the 365 days preceding the date of survey. Such persons might have also pursued, in addition to his/her usual principal status, some economic activity for 30 days or more during the reference period of 365 days preceding the date of survey. The status in which such economic activity was pursued during the reference period of 365 days preceding the date of survey was the subsidiary economic activity status of the person. In case of multiple subsidiary economic activities, the major activity and status based on the 'relatively long time spent' criterion was considered. It may be noted that engagement in work in subsidiary capacity may arise out of the two following situations:

(i) a person may be engaged for a relatively long period during the 365 days in an economic (a non-economic activity) and for a relatively small period, which is not less than 30 days, in another economic activity (any economic activity).

(ii) a person may be pursuing an economic activity (non-economic activity) almost throughout the year in the principal status and also simultaneously pursuing another economic activity (any economic activity) for relatively small period in a subsidiary capacity. In such cases, since both the activities were being pursued throughout the year and the duration of both the activities is more than 30 days, the activity which was being pursued for a relatively small period was considered as his/ her subsidiary activity.

2.20.4 Current weekly activity status (CWS): The current weekly activity status of a person is the activity status obtaining for a person during a reference period of 7 days preceding the date of survey. It is decided **on the basis of a certain priority cum major time criterion**. According to the priority criterion, the status of 'working' gets priority over the status of 'not working but seeking or available for work', which in turn gets priority over the status of 'neither working nor available for work'. *A person is considered working (or employed) if he/ she worked for at least one hour on at least one day during the 7 days preceding the date of survey or if he/she had work for at least 1 hour on at least one day during the 7 days preceding the date of the survey but did not do the work.* A person is considered 'seeking or available for work (or unemployed)' if during the reference week no economic activity was pursued by the person but he/ she made efforts to get work or had been available for work for at least one hour on any day during the reference week. A person who had neither worked nor was available for work any time during the reference week, is considered to be engaged in non-economic activities (or not in labour force). Having decided the broad current weekly activity status of a person on the basis of 'priority' criterion, the detailed current weekly activity status is again decided on the basis of 'major time' criterion if a person was pursuing multiple economic activities.

2.20.5 Current daily activity status (CDS): The current daily activity status for a person is determined on the basis of his/ her activity status on each day of the reference week using a priority-cum-major time criterion. As mentioned earlier, according to the priority criterion, the status of 'working' gets priority over the status of 'not working but seeking or available for work', which in turn gets priority over the status of 'neither working nor available for work'. The following points were used for determining the current daily status of a person:

- i) If on a day, a person '*had actually worked for 1 hour or more*' or '*had work for 1 hour or more but did not do the work*', he was given work status code.
- ii) For each day at most two economic activities (work activities) were recorded.
- iii) Economic activities were differentiated at *status x 2-digit of NIC-2008*.
- iv) If a person was not engaged in 'work' even for 1 hour on a day, only one status code relevant for unemployment status or out of labour force status, as the case may be was recorded using a priority-cum-major time criteria.

2.21 In the of PLFS, the current weekly activity status of a person is derived from the information on hours worked in the different activities of a person during 7 days of the reference week.

2.22 Industry and occupation of the work activity: For the workers (employed persons), to record the industry of work, 5-digit classification of NIC-2008 was used and to record the type of occupation, 3-digit classification of NCO-2004 was used. To identify certain category of workers under Division 97 (Activities of households as employers of domestic personnel) of NIC-2008, eight additional codes were used in the survey viz., housemaid /servant (97001), cook (97002), gardener (97003), gatekeeper/chowkidar/watchman (97004), governess/baby-sitter (97005), tutor (97006), driver (97007) and ‘others’ (97009). Broad structure of NIC-2008 (Sections and Divisions) and description of occupation divisions/sub-divisions of NCO-2004 have been presented at the end of this Chapter in **Annexure I** and **Annexure II**, respectively.

2.23 Hours actually worked: ‘Hours actually worked’ for a person was obtained in the line of the concept of ‘*hours actually worked*’ as defined by ILO in its 18th ICLS (International Conference of Labour Statisticians) and in consideration of the production boundary followed by NSSO to define the economic activities.

2.23.1 ‘Hours actually worked’ by a person on a day is the total time spent by the person on that day towards production of all goods and services that are considered as economic activities. It included (i) the hours spent directly on production activity, (ii) hours related to the production activity i.e., hours required to maintain, facilitate or enhance productive activities, (iii) hours accounted for unavoidable ‘in-between time’ in the course of production process when the person continues to be available for work such as work or machinery breakdown or accident or lack of supplies etc., (iv) hours allowed for short rest or refreshment. All other time that had not been involved for work, even if paid for, was excluded. The production activity performed in any location (in the economic territory/ establishment, on the street, at home, elsewhere away from usual work location) was considered for getting hours actually worked.

2.23.2 Therefore, hours actually worked included

- (i) hours spent directly on production:
 - (a) hours worked during normal periods of work;
 - (b) hours worked in addition to normal periods of work (such as overtime);
- (ii) hours related to the production activity:
 - (a) time spent at the place of work for preparation of the workplace, repairs and maintenance, preparation and cleaning of tools, and the preparation of receipts, time sheets and reports etc.,
 - (b) time spent for purchasing raw or basic materials or resale goods, transporting products to/from the market, source or home,
 - (c) time spent for waiting for business, customers, patients, on-call duty,

- (d) time spent for travelling between work locations, to reach field projects, fishing areas, assignments, conferences or to meet clients (such as door-to-door vending), patients,
 - (e) time spent for receiving training to acquire new skills or techniques and for upgrading or enhancement of skills for jobs in the economic unit, at or away from the work location,
- (iii) Time spent at the place of work when persons could not work for reasons such as lack of supply of work, breakdown of machinery or accidents, but continued to be available for work. This ‘in-between time’ is unavoidable or inherent to the job and involves temporary interruptions of a technical, material or economic nature.
- (iv) Time spent for short periods of rest, relief or refreshment at the work place including tea, coffee etc.,

and hours actually worked excluded

- (i) hours not worked, irrespective of payment, such as weekly holidays, annual leave, public holidays, sick leave, parental (maternity/paternity) leave, other leave for personal or family reasons, etc.,
- (ii) time spent on travel from home to work and vice versa,
- (iii) time spent for longer breaks such as meal breaks when no productive activity is performed, even when paid by the employer,
- (iv) time spent in educational activity not intended for the economic unit even when authorized, paid or provided by the employer.

2.23.3 Determination of hours actually worked for self-employed persons in some specific cases: Many of the self-employed persons have atypical ways of working, for example those engaged in agricultural activities, fisheries or a shop owner. For collecting information on hours actually worked by the self-employed persons, following points were considered:

- (a) For determination of the actual hours of work for these categories of workers, the basic criterion followed was whether they were available for the work to be performed. The availability criterion was judged by considering whether they were ready to receive order or attend to clients or to perform the economic activities.
- (b) However, period of absence from work was excluded. Absence from work might be due to illness, occupational injury, leave or care for dependants (including the elderly) and other types of absence due to personal reasons. Besides, periods of absence affecting or stemming from the economic unit, workplace or establishment for technical or economic reasons, strike activity, by bad weather, were also excluded. The absence from work might be due to economic reasons such as reduction in activity.
- (c) When the economic activity in which the person was engaged did not require actual working for production purpose, such periods were excluded from the count of hours actually worked.

- (d) Thus, the period during which the self-employed persons were actually absent from work was excluded from the calculation of hours actually worked.

2.24 Hours would have worked: The ‘hours would have worked’ related to the hours the person would have worked had he worked in the economic activity from which the person was temporarily off.

2.25 Earnings of the regular salaried/wage employees and casual labours: For collecting information on earning of ‘regular salaried/wage employees’ and ‘casual labours’, following points were taken into consideration:

- (a) Earnings of the regular salaried/wage employees and casual labours relates to remuneration in cash and in kind which were paid, as a rule at regular intervals, for time worked (including overtime payments) or work done together with remuneration for time not worked, such as for annual vacation, other paid leave or holidays.
- (b) It relates to employees’ gross remuneration, i.e. the total before any deductions were made by the employer in respect of taxes, contributions of employees to social security and pension schemes, life insurance premiums and other obligations of employees.
- (c) Earnings exclude employers' contributions paid to social security and pension schemes in respect of their employees and also the benefits received by employees under these schemes.
- (d) Earnings also exclude severance and termination pay.
- (e) The wages in kind were evaluated at the respective current retail price.
- (f) Bonus (expected or paid) was duly apportioned for the reference period for inclusion in earnings.

2.26 Gross earnings of self-employed persons: The gross earnings of the self-employed persons during a reference period was derived by the procedure stated below:

- (a) Gross earnings of the self-employed persons during a reference period was obtained by deducting total expenses from the gross output of that period.
- (b) The gross output corresponds to the sum of the values of all goods and services produced during the reference period, including any part which has been retained for own consumption or given free of charge or at reduced prices to hired labour.
- (c) The valuation of output was made at basic price. The basic price is defined as the amount receivable by the producer from the purchaser for a unit of good or service produced as output minus any tax payable on product (like, excise duties, sales tax, non-deductable vat etc.) plus any subsidy receivable on the product for selling those to the ultimate consumer at lesser price.
- (d) Total expenses include (i) current expenses of the enterprise, such as purchase of raw materials, tools and equipment, fuel, electricity, etc., (ii) payments to hired labour, (iii) rent paid for fixed capital items and interest payments on financial assets, (iv) taxes on

production (like, recurrent taxes on land & buildings, business or professional licence fees, road tax, registration fee of vehicles etc.) paid by the enterprise, reduced by subsidies received on production (like, employing physically challenged persons, installing pollution control equipment etc.).

- (e) Thus, gross earning = gross output – total expenses
- (f) If the owners of the enterprise are from the same household, earning was judged by considering equal distribution of income among all the owners. If the owners of the enterprise were from the different households, earning from the partnership business was be distributed, according to the agreement (verbal or written), among the partner households.
- (g) For helpers in household enterprises, gross earnings was considered as zero (0).

2.27 Enterprise: An enterprise is an undertaking which is engaged in the production and/ or distribution of some goods and/ or services meant mainly for the purpose of sale, whether fully or partly. An enterprise may be owned and operated by a single household, or by several households jointly, or by an institutional body.

2.28 Household Enterprise: A household enterprise is one which is run by one or more members of a household or run jointly by two or more households on partnership basis irrespective of whether the enterprise is located in the premises of the household(s) or not. In other words, all proprietary and partnership enterprises are household enterprises.

2.29 Definitions of various types of enterprises:

(i) **Proprietary:** When an individual is the sole owner of an enterprise it is a proprietary enterprise. Own account production of fixed assets for own use, when produced by a single member, will be classified as proprietary enterprise.

(ii) **Partnership:** Partnership is defined as the ‘relation between persons who have agreed to share the profits of a business carried on by all or any one of them acting for all’. There may be two or more owners, belonging to the same or different households, on a partnership basis, with or without formal registration (where there is a tacit understanding about the distribution of profit among the so-called partners). Own account production of fixed assets, when produced by two or more members belonging to the same or different households was classified as partnership enterprises. Thus, own account production of fixed assets by a group of households for community use was classified as partnership enterprise.

(iii) **Government/Local Body:** Government/local body included Government administrative departments of both the Central and State Governments, local bodies of rural and urban areas and Departmental Enterprises like Indian Railways, Department of Post, etc.

(iv) **Public Sector Enterprises:** Public Sector Enterprises included government companies and subsidiaries of government companies and statutory corporations set up under special enactments

of Parliament or State Legislatures. Some of these are Damodar Valley Corporation, Food Corporation of India, Airports Authority of India, Road Transport Corporations, Warehousing Corporations, Electricity Boards, etc. Some of the financial enterprises included the nationalised banks, Central and State financial corporations, LIC, GIC, Employees State Insurance Corporation (ESIC), etc. The non-financial public sector enterprises consisted of all the undertakings/ enterprises of central, state, union territory governments and local authorities under the industry groups agriculture, forestry and logging, fishing, mining, manufacturing, electricity and gas, road, air and water transport including port trusts, storage and warehousing, trade, hotels & restaurants and other services.

(v) **Autonomous Bodies:** Autonomous Bodies are mostly set up by an Act of Parliament/Assembly or registered under Societies Registration Act. However, they are separate from Government Administrative Departments as they enjoy certain degree of autonomy in their day to day functioning. They receive grants from Government in addition to their own resources. Further, these are engaged in non-market production. Some of the autonomous bodies are: All India Institute of Medical Sciences, Indian Institute of Technology, Indian Statistical Institute, Housing Boards, Development Boards, Pollution Control Boards etc.

(vi) **Public Limited Company:** A public limited company is defined as a company that is not a private company. As such public companies can have an unlimited number of members and can invite the public to subscribe to its shares and debentures. The minimum number of members required to form a public limited company is seven.

(vii) **Private Limited Company:** Private limited company means a company which by its articles:

- (a) restricts the right to transfer its shares, if any,
- (b) limits the number of its members to two hundred not including-
 - (i) persons who are in the employment of the company, and
 - (ii) persons who, having been formerly in the employment of the company, were members of the company while in that employment and have continued to be members after the employment ceased; and
- (c) prohibits any invitation to the public to subscribe for any share in, or debentures of, the company.

[Where two or more persons hold jointly one or more shares in a company, they shall, for the purpose of this definition, be treated as a single member.]

(viii) **Co-operative Societies:** Co-operative society is one that is formed through the co-operation of a number of persons, recognised as members of the society, to benefit themselves. In the process, the funds are raised by members' contributions/investments and the profits generated out of the society's activities are shared by the members. The government itself in a government agency can also be a member or shareholder of a registered co-operative society but this fact cannot render the society into a public sector enterprise for the purpose of this survey.

(ix) **Trust:** An arrangement through which one set of people, the trustees, are the legal owners of property which is administered in the interest of another set, the beneficiaries. Trusts may be set up to provide support for individuals or families, to provide pensions, to run charities, to liquidate the property of the bankrupts for the benefit of their creditors, or for the safe keeping of securities bought by trusts with their investor's money. The assets, which trusts hold are regulated by law, must be administered in the interests of the beneficiaries, and not for the profit of the trustees.

(x) **Non-Profit Institutions (NPI):** NPIs are legal or social entities created for the purpose of producing goods and services whose status does not permit them to be a source of income, profit or other financial gain for the units that establish, control or finance them. In practice, their productive activities are bound to generate either surpluses or deficits but any surpluses they happen to make cannot be appropriated by other institutional units. The articles of association by which they are established are drawn up in such a way that the institutional units which control or manage them are not entitled to a share in any profits or other income which they receive.

2.30 Number of workers in the enterprise: Information on number of workers in the enterprise, where the persons worked, was collected in terms of 5 codes. The number of workers employed in the enterprise on an average in a day of operation, irrespective of whether they are hired worker or household members working in the enterprise, was considered as the number of workers in the enterprise. The number of workers also included working owner(s).

2.31 Type of job contract: For each employee in the usual status, it was ascertained whether there was any *written contract or agreement* with his/her employer in respect of duration of employment for the job he/she was engaged. For those who reported to have written job contract with their employer, further probing was done in respect of the length of duration contracted, viz., *for 1 year or less, for more than 1 year to 3 years and more than 3 years*. If the contract of employment specified a particular date of termination which was more than 3 years or if the type of job contracted was such that no time was fixed but the contract could only be terminated for certain administrative reasons such as incompetence, misconduct or for economic reasons then the contract was considered to have a duration of 3 years or more. However, if no written contract existed, then irrespective of the duration of employment, it was considered as no written job contract.

2.32 Eligibility of paid leave: For the employees in the usual status, it was ascertained whether they were eligible to get paid leave. Paid leave included leave during sickness, maternity, or such leave, as an employee was eligible to take without loss of pay, as per the conditions of employment. The situation was assessed excluding the paid off-days/holidays, which an enterprise normally allows to its employees. Employees were classified as those with eligibility for paid leave and those without eligibility for paid leave.

2.33 Availability of social security benefits: For the employees in the usual status, it was ascertained whether they were covered under any of the specified social security benefits or a

combination of them which are arranged by the employer or for which contribution is made by the employer. For the purpose of the survey the following schemes were considered as social security benefits:

- only PF/ pension (i.e., GPF, CPF, PPF, pension, etc.).
- only gratuity
- only health care & maternity benefits
- only PF/ pension and gratuity
- only PF/ pension and health care & maternity benefits.
- only gratuity and health care & maternity benefits
- PF/ pension, gratuity and health care & maternity benefits

Those who were not covered under any of the above social security schemes were considered as not eligible for any social security benefits.

2.33.1 The term Provident Fund (PF) included General Provident Fund, Contributory Provident Fund, Public Provident Fund, Employees Provident Fund, etc. It may be mentioned that coverage under any of these social security schemes meant that the employer contributed/ arranged/ paid in implementing the social security benefits for the worker. If an employee operated, in his/ her individual capacity, a PPF account and the employer is not contributing in that account then it was not considered as a social security benefit. On the contrary, a scheme, in which both the employee and the employer contributed, was considered a social security benefit. When benefits were given by the employer for treatment of illness/ injury or an employee was eligible for paid leave for a specified period of pre-natal/ childbirth/ post-natal stages or the expenditure for maternity care or childbirth was borne by the employer as per the conditions of employment, then such benefits were considered as health care & maternity benefits. There were cases where the employer was not directly contributing in a social security scheme for the employees, but being the member of the welfare association or organization or scheme in relation to the specific activity carried out by the employer, the employees got the benefit from that welfare association/ organization/ scheme. Such cases were also considered as social security benefits availed through the employer.

2.34 Informal sector and informal employment: Broad guideline regarding the concept of informal sector and informal employment as enunciated in the 15th International Conference of Labour Statisticians (ICLS) and 17th ICLS, are given below. Extracts of the resolutions and guidelines concerning informal sector and informal employment are given in **Annexure III** and **Annexure IV** respectively, at the end of Chapter Two.

2.34.1 As per 15th ICLS, the *informal sector* is broadly characterized as consisting of:

- (a) units engaged in the production of goods or services with the primary objective of generating employment and incomes to the persons concerned. These units typically operate at a low level of organization, with little or no division between labour and

capital as factors of production and on a small scale. Labour relations - where they exist - are based mostly on casual employment, kinship or personal and social relations rather than contractual arrangements with formal guarantees.

- (b) production units of the informal sector have the characteristic features of household enterprises. The fixed and other assets used do not belong to the production units as such but to their owners. The units as such cannot engage in transactions or enter into contracts with other units, nor incur liabilities, on their own behalf. The owners have to raise the necessary finance at their own risk and are personally liable, without limit, for any debts or obligations incurred in the production process. Expenditure for production is often indistinguishable from household expenditure. Similarly, capital goods such as buildings or vehicles may be used indistinguishably for business and household purposes.

Thus, for statistical purposes, the *informal sector*, as per guidelines of 15th ICLS is regarded as a group of production units which, according to the definitions and classifications provided in the United Nations System of National Accounts, forms part of the household sector as household enterprises or, equivalently, unincorporated enterprises owned by households.

2.34.2 According to the 17th ICLS framework, *informal employment* is identified by jobs classified by status of employment of the workers and the types of production units in which they were employed. The different types of production units are: (a) *formal sector enterprises*, (b) *informal sector enterprises*, and (c) *households which produce goods for their own final use and/or those employing domestic workers*. The status of employment of the workers performing the jobs may be (a) *own account workers*, (b) *employers*, (c) *contributing family workers*, (d) *employees*, or (e) *member of informal producers' co-operatives*. The employment may be considered as formal or informal depending upon the type of enterprises in which the workers are engaged or the nature of work they perform.

The *informal employment* comprises jobs held by:

- own-account workers and employers who have their own informal sector enterprises;
- contributing family workers, irrespective of whether they work in formal or informal sector enterprises;
- employees who have informal jobs (for definition, see item (5) in paragraph 3 in Annexure IV) whether employed by formal sector enterprises, informal sector enterprises, or as paid domestic workers by households;
- members of informal producers' cooperatives; and
- persons engaged in the own-account production of goods exclusively for own final use by their household, such as subsistence farming or do-it-yourself construction of own dwellings.

2.34.3 In the PLFS, NSS 68th round and NSS 61st and 66th rounds, information on enterprise type was collected for all the usual status workers and the enterprise types proprietary and partnership are classified as informal sector enterprises. Besides, information on conditions of employment of the employees in the usual status engaged in industry groups/divisions 014, 016, 017, 02-99 of NIC-2008 was collected to identify informal employment. Information on employment status, type of enterprise, type of job contract, availability of paid leave, availability of social security benefits, etc. are used for identification of informal employment.

2.35 Coverage of Industry for collection of data on informal sector and conditions of employment: Information on characteristics of enterprises and conditions of employment was collected for both usual principal status workers and usual subsidiary status workers engaged in non-agricultural sector (industry divisions 05-99 of NIC-2008) and a part of the agricultural sector (industry groups 014, 016, 017 and divisions 02, 03 of NIC-2008). In the agricultural sector, industry groups 011 (growing of non-perennial crops), 012 (growing of perennial crops), 013 (plant propagation) and 015 (mixed farming) of NIC – 2008 were excluded for collection of information on characteristics of enterprises and conditions of employment. The industry groups/divisions 014, 016, 017, 02 and 03 are in the [AG]ricultural sector [E]xcluding [G]rowing of [C]rops, plant propagation, combined production of crops and animals without a specialized production of crops or animals (referred to as AGEGC activities). Information on the existence of union/association was collected for the usual status workers engaged in any industry of NIC - 2008. The description of the Industry Groups 014, 016 and 017 are as follows:

- Group 014: Animal production
- Group 016: Support activities to agriculture and post-harvest crop activities
- Group 017: Hunting, trapping and related service activities

2.36 Social group: For each household surveyed, the social group to which the head of the household belonged to was recorded. The social group of the head of the household was considered as the social group of all the members of the household irrespective of the actual social group to which the individual members belonged. In the survey, information was collected in respect of four social groups viz. *scheduled tribe* (ST), *scheduled caste* (SC), *other backward class* (OBC) and the rest referred to as *others*. The information recorded in this regard was based entirely on the response of the informant and not based on any state or central level list of the social group.

2.37 Religious group: For each household surveyed, the reported religion of the head of the household was considered as the religion of *all* the members of the household irrespective of the actual religion followed by individual members. Seven known major religions viz. Hinduism, Islam, Christianity, Sikhism, Jainism, Buddhism and Zoroastrianism were explicitly considered for data collection as a part of the household characteristics. The information recorded in this regard was based entirely on the response of the informant.

2.38 Conceptual Framework of Key Employment and Unemployment Indicators: From the Periodic Labour Force Survey (PLFS), the Key employment and unemployment Indicators viz. LFPR, WPR, PU and UR are derived . The definitions of these indicators are as follows:

1. **Labour force participation rate (LFPR):** LFPR is defined as the percentage of persons in the labour force in the population.
2. **Worker Population Ratio (WPR):** WPR defined as the percentage of employed persons in the population.
3. **Proportion Unemployed (PU):** It is defined as the percentage of persons unemployed in the population.
4. **Unemployment Rate (UR):** UR is defined as the percentage of persons unemployed among the persons in the labour force.

2.37.1 The architecture of key labour force indicators are given below in tabular form:

activity profile		key indicators
activity status (code)	category of persons	
11, 12, 21, 31, 41, 42, 51, 61, 62, 71, 72	workers	<p>1. Labour Force Participation Rate (LFPR): $\frac{\text{no. of employed persons} + \text{no. of unemployed persons}}{\text{total population}} * 100$</p> <p>2. Worker Population Ratio (WPR): $\frac{\text{no. of employed persons}}{\text{total population}} * 100$</p>
81, 82	unemployed	<p>3. Proportion Unemployed (PU): $\frac{\text{no. of unemployed persons}}{\text{total population}} * 100$</p>
91, 92, 93, 94, 95, 97, 98, 99	not in labour force	<p>4. Unemployment Rate (UR): $\frac{\text{no. of unemployed persons}}{\text{no. of employed persons} + \text{no. of unemployed persons}} * 100$</p>
<p>Note: Activity status codes, 42, 61, 62, 71, 72, 82, and 98 are used only in the <i>current status</i> and the remaining activity status codes are used in both <i>usual status</i> and in <i>current status</i></p>		

ANNEXURE I

**BROAD STRUCTURE of NIC -2008
(SECTIONS AND DIVISIONS)**

Section A: Agriculture, forestry and fishing

Division 01: Crop and animal production, hunting and related service activities

Division 02: Forestry and logging

Division 03: Fishing and aquaculture

Section B: Mining and quarrying

Division 05: Mining of coal and lignite

Division 06: Extraction of crude petroleum and natural gas

Division 07: Mining of metal ores

Division 08: Other mining and quarrying

Division 09: Mining support service activities

Section C: Manufacturing

Division 10: Manufacture of food products

Division 11: Manufacture of beverages

Division 12: Manufacture of tobacco products

Division 13: Manufacture of textiles

Division 14: Manufacture of wearing apparel

Division 15: Manufacture of leather and related products

Division 16: Manufacture of wood and products of wood and cork, except furniture;
manufacture of articles of straw and plaiting materials

Division 17: Manufacture of paper and paper products

Division 18: Printing and reproduction of recorded media

Division 19: Manufacture of coke and refined petroleum products

Division 20: Manufacture of chemicals and chemical products

Division 21: Manufacture of pharmaceuticals, medicinal chemical and botanical products

Division 22: Manufacture of rubber and plastics products

Division 23: Manufacture of other non-metallic mineral products

Division 24: Manufacture of basic metals

Division 25: Manufacture of fabricated metal products, except machinery and equipment

Division 26: Manufacture of computer, electronic and optical products

Division 27: Manufacture of electrical equipment

Division 28: Manufacture of machinery and equipment n.e.c.

Division 29: Manufacture of motor vehicles, trailers and semi-trailers

Division 30: Manufacture of other transport equipment

Division 31: Manufacture of furniture

Division 32: Other manufacturing

Division 33: Repair and installation of machinery and equipment

Section D: Electricity, gas, steam and air conditioning supply

Division 35: Electricity, gas, steam and air conditioning supply

Section E: Water supply; sewerage, waste management and remediation activities

Division 36: Water collection, treatment and supply

Division 37: Sewerage

Division 38: Waste collection, treatment and disposal activities; materials recovery

Division 39: Remediation activities and other waste management services

Section F: Construction

Division 41: Construction of buildings

Division 42: Civil engineering

Division 43: Specialized construction activities

Section G: Wholesale and retail trade; repair of motor vehicles and motorcycles

Division 45: Wholesale and retail trade and repair of motor vehicles and motorcycles

Division 46: Wholesale trade, except of motor vehicles and motorcycles

Division 47: Retail trade, except of motor vehicles and motorcycles

Section H: Transportation and storage

Division 49: Land transport and transport via pipelines

Division 50: Water transport

Division 51: Air transport

Division 52: Warehousing and support activities for transportation

Division 53: Postal and courier activities

Section I: Accommodation and Food service activities

Division 55: Accommodation

Division 56 Food and beverage service activities

Section J: Information and communication

Division 58: Publishing activities

Division 59: Motion picture, video and television programme production, sound recording and music publishing activities

Division 60: Broadcasting and programming activities

Division 61: Telecommunications

Division 62: Computer programming, consultancy and related activities

Division 63: Information service activities

Section K: Financial and insurance activities

Division 64: Financial service activities, except insurance and pension funding

Division 65: Insurance, reinsurance and pension funding, except compulsory social security

Division 66: Other financial activities

Section L: Real estate activities

Division 68: Real estate activities

Section M: Professional, scientific and technical activities

Division 69: Legal and accounting activities

Division 70: Activities of head offices; management consultancy activities

Division 71: Architecture and engineering activities; technical testing and analysis

Division 72: Scientific research and development

Division 73: Advertising and market research

Division 74: Other professional, scientific and technical activities

Division 75: Veterinary activities

Section N: Administrative and support service activities

Division 77: Rental and leasing activities

Division 78: Employment activities

Division 79: Travel agency, tour operator and other reservation service activities

Division 80: Security and investigation activities

Division 81: Services to buildings and landscape activities

Division 82: Office administrative, office support and other business support activities

Section O: Public administration and defence; compulsory social security

Division 84: Public administration and defence; compulsory social security

Section P: Education

Division 85: Education

Section Q: Human health and social work activities

Division 86: Human health activities

Division 87: Residential care activities

Division 88: Social work activities without accommodation

Section R: Arts, entertainment and recreation

Division 90: Creative, arts and entertainment activities

Division 91: Libraries, archives, museums and other cultural activities

Division 92: Gambling and betting activities

Division 93: Sports activities and amusement and recreation activities

Section S: Other service activities

Division 94: Activities of membership organizations

Division 95: Repair of computers and personal and household goods

Division 96: Other personal service activities

Section T: Activities of households as employers; undifferentiated goods and services producing activities of households for own use

Division 97: Activities of households as employers of domestic personnel

Division 98: Undifferentiated goods and services producing activities of private households for own use

Section U: Activities of extraterritorial organizations and bodies

Division 99: Activities of extraterritorial organizations and bodies

ANNEXURE II

**Description of Occupation Divisions and sub-divisions of
National Classification of Occupations-2004**

division	sub- division	description
1		Legislators, Senior Officials and Managers
	11	Legislators and Senior Officials
	12	Corporate Managers
	13	General Managers
2		Professionals
	21	Physical, Mathematical and Engineering Science Professionals
	22	Life Science and Health Professionals
	23	Teaching Professionals
	24	Other Professionals
3		Technicians and Associate Professionals
	31	Physical and Engineering Science Associate Professionals.
	32	Life Science and Health Associate Professionals
	33	Teaching Associate Professionals
	34	Other Associate Professionals
4		Clerks
	41	Office Clerks
	42	Customer Services Clerks
5		Service Workers and Shop & Market Sales Workers
	51	Personal and Protective Service Workers
	52	Models, Sales Persons and Demonstrators
6		Skilled Agricultural and Fishery Workers
	61	Market Oriented Skilled Agricultural and Fishery Workers
	62	Subsistence Agricultural and Fishery Workers
7		Craft and related Trades Workers
	71	Extraction and Building Trades Workers
	72	Metal, Machinery and Related Trades Workers
	73	Precision, Handicraft, Printing and Related Trades Workers
	74	Other Craft and Related Trades Workers
8		Plant and Machine Operators and Assemblers
	81	Stationary-Plant and Related Operators
	82	Machine Operators and Assemblers
	83	Drivers and Mobile Plant Operators
9		Elementary Occupations
	91	Sales and Service Elementary Occupations
	92	Agricultural, Fishery and Related Labourers
	93	Labourers in Mining, Construction, Manufacturing and Transport

ANNEXURE – III

**Resolution concerning statistics of employment in the informal sector,
adopted by the Fifteenth International Conference of Labour Statisticians (January 1993)**

[Extract]

Concept

5 (1) The informal sector may be broadly characterized as consisting of units engaged in the production of goods or services with the primary objective of generating employment and incomes to the persons concerned. These units typically operate at a low level of organization, with little or no division between labour and capital as factors of production and on a small scale. Labour relations - where they exist - are based mostly on casual employment, kinship or personal and social relations rather than contractual arrangements with formal guarantees.

(2) Production units of the informal sector have the characteristic features of household enterprises. The fixed and other assets used do not belong to the production units as such but to their owners. The units as such cannot engage in transactions or enter into contracts with other units, nor incur liabilities, on their own behalf. The owners have to raise the necessary finance at their own risk and are personally liable, without limit, for any debts or obligations incurred in the production process. Expenditure for production is often indistinguishable from household expenditure. Similarly, capital goods such as buildings or vehicles may be used indistinguishably for business and household purposes.

Operational definitions

Informal sector

6 (1) For statistical purposes, the informal sector is regarded as a group of production units which, according to the definitions and classifications provided in the United Nations System of National Accounts (Rev. 4), form part of the household sector as household enterprises or, equivalently, unincorporated enterprises owned by households as defined in paragraph 7.

(2) Within the household sector, the informal sector comprises (i) "informal own-account enterprises" as defined in paragraph 8; and (ii) the additional component consisting of "enterprises of informal employers" as defined in paragraph 9.

(3) The informal sector is defined irrespective of the kind of workplace where the productive activities are carried out, the extent of fixed capital assets used, the duration of the operation of the enterprise (perennial, seasonal or casual), and its operation as a main or secondary activity of the owner.

Household enterprises

7. According to the United Nations System of National Accounts (Rev. 4), household enterprises (or, equivalently, unincorporated enterprises owned by households) are distinguished from corporations and quasi-corporations on the basis of the legal organization of the units and the type of accounts kept for them. Household enterprises are units engaged in the production of goods or services which are not constituted as separate legal entities independently of the households or household members that own them, and for which no complete sets of accounts (including balance sheets of assets and liabilities) are available which would permit a clear distinction of the production activities of the enterprises from the other activities of their owners and the identification of any flows of income and capital between the enterprises and the owners. Household enterprises include unincorporated enterprises owned and operated by individual household members or by two or more members of the same household as well as unincorporated partnerships formed by members of different households.

Informal own-account enterprises

8 (1) Informal own-account enterprises are household enterprises (in the sense of paragraph 7) owned and operated by own-account workers, either alone or in partnership with members of the same or other households, which may employ contributing family workers and employees on an occasional basis, but do not employ employees on a continuous basis and which have the characteristics described in subparagraphs 5 (1) and (2).

(2) For operational purposes, informal own-account enterprises may comprise, depending on national circumstances, either all own-account enterprises or only those which are not registered under specific forms of national legislation.

(3) Registration may refer to registration under factories or commercial acts, tax or social security laws, professional groups' regulatory acts, or similar acts, laws, or regulations established by national legislative bodies.

Enterprises of informal employers

9 (1) Enterprises of informal employers are household enterprises (in the sense of paragraph 7) owned and operated by employers, either alone or in partnership with members of the same or other households, which employ one or more employees on a continuous basis and which have the characteristics described in subparagraphs 5 (1) and (2).

(2) For operational purposes, enterprises of informal employers may be defined, depending on national circumstances, in terms of one or more of the following criteria:

- (i) size of the unit below a specified level of employment;

(ii) non-registration of the enterprise or its employees.

(3) While the size criterion should preferably refer to the number of employees employed on a continuous basis, in practice, it may also be specified in terms of the total number of employees or the number of persons engaged during the reference period.

(4) The upper size limit in the definition of enterprises of informal employers may vary between countries and branches of economic activity. It may be determined on the basis of minimum size requirements as embodied in relevant national legislations, where they exist, or in terms of empirically determined norms. The choice of the upper size limit should take account of the coverage of statistical inquiries of larger units in the corresponding branches of economic activity, where they exist, in order to avoid an overlap.

(5) In the case of enterprises, which carry out their activities in more than one establishment, the size criterion should, in principle, refer to each of the establishments separately rather than to the enterprise as a whole. Accordingly, an enterprise should be considered to satisfy the size criterion if none of its establishments exceeds the specified upper size limit.

(6) Registration of the enterprise may refer to registration under specific forms of national legislation as specified in subparagraph 8 (3). Employees may be considered registered if they are employed on the basis of an employment or apprenticeship contract which commits the employer to pay relevant taxes and social security contributions on behalf of the employee or which makes the employment relationship subject to standard labour legislation.

10. For particular analytical purposes, more specific definitions of the informal sector may be developed at the national level by introducing further criteria on the basis of the data collected. Such definitions may vary according to the needs of different users of the statistics.

Population employed in the informal sector

11 (1) The population employed in the informal sector comprises all persons who, during a given reference period, were employed (in the sense of paragraph 9 of resolution I adopted by the Thirteenth International Conference of Labour Statisticians) in at least one informal sector unit as defined in paragraphs 8 and 9, irrespective of their status in employment and whether it is their main or a secondary job.

Treatment of particular cases

14. Household enterprises, which are exclusively engaged in non-market production, i.e. the production of goods or services for own final consumption or own fixed capital formation as defined by the United Nations System of National Accounts (Rev. 4), should be excluded from the scope of the informal sector for the purpose of statistics of employment in the informal

sector. Depending on national circumstances, an exception may be made in respect of households employing domestic workers as referred to in paragraph 19.

16. For practical reasons, the scope of the informal sector may be limited to household enterprises engaged in non-agricultural activities. With account being taken of paragraph 14, all non-agricultural activities should be included in the scope of the informal sector, irrespective of whether the household enterprises carry them out as main or secondary activities. In particular, the informal sector should include secondary non-agricultural activities of household enterprises in the agricultural sector if they fulfil the requirements of paragraphs 8 or 9.

17. Units engaged in professional or technical activities carried out by self-employed persons, such as doctors, lawyers, accountants, architects or engineers, should be included in the informal sector if they fulfil the requirements of paragraphs 8 or 9.

18 (1) Outworkers are persons who agree to work for a particular enterprise, or to supply a certain quantity of goods or services to a particular enterprise, by prior arrangement or contract with that enterprise, but whose place of work is not within any of the establishments, which make up that enterprise.

(2) In order to facilitate data collection, all outworkers should be potentially included in the scope of informal sector surveys, irrespective of whether they constitute production units on their own (self-employed outworkers) or form part of the enterprise, which employs them (employee outworkers). On the basis of the information collected, self-employed and employee outworkers should be distinguished from each other by using the criteria recommended in the United Nations System of National Accounts (Rev. 4). Outworkers should be included in the informal sector, or in the population employed in the informal sector, if the production units, which they constitute as self-employed persons or for which they work as employees fulfil the requirements of paragraphs 8 or 9.

19. Domestic workers are persons exclusively engaged by households to render domestic services for payment in cash or in kind. Domestic workers should be included in or excluded from the informal sector depending upon national circumstances and the intended uses of the statistics. In either case, domestic workers should be identified as a separate sub-category in order to enhance international comparability of the statistics.

ANNEXURE – IV

**Guidelines concerning a statistical definition of informal employment,
endorsed by the Seventeenth International Conference of Labour Statisticians (November-
December 2003)**

The Seventeenth International Conference of Labour Statisticians (ICLS),

Acknowledging that the relevance of informal employment varies among countries, and that a decision to develop statistics on it is therefore determined by national circumstances and priorities,

Noting that the term ‘informal economy’ is used by the ILO as including the informal sector as well as informal employment, and that as a supplement to the System of National Accounts 1993 an international conceptual framework for measurement of the non-observed economy already exists, which distinguishes the informal sector from underground production, illegal production, and household production for own final use,

Recalling the existing international standards on statistics of employment in the informal sector contained in the Resolution concerning statistics of employment in the informal sector adopted by the Fifteenth ICLS (January 1993),

Noting the recommendation made by the Expert Group on Informal Sector Statistics (Delhi Group), during its Fifth Meeting, that the definition and measurement of employment in the informal sector need to be complemented with a definition and measurement of informal employment,

Emphasizing the importance of consistency and coherence in relating the enterprise-based concept of employment in the informal sector to a broader, job-based concept of informal employment,

Considering the methodological work, which the International Labour Office and a number of countries have already undertaken in this area,

Supporting the request, which was made by the International Labour Conference in paragraph 37(n) of the Resolution concerning decent work and the informal economy adopted during its 90th Session (2002), that the International Labour Office should assist countries in the collection, analysis and dissemination of statistics on the informal economy,

Recognizing that the considerable diversity of informal employment situations poses limits to the extent to which statistics on informal employment can be harmonized across countries,

Realizing the usefulness of international guidelines in assisting countries in the development of national definitions of informal employment, and in enhancing the international comparability of the resulting statistics to the extent possible,

Endorses the following guidelines, which complement the Resolution concerning statistics of employment in the informal sector of the Fifteenth ICLS, and encourages countries to test the conceptual framework on which they are based.

1. The concept of informal sector refers to production units as observation units, while the concept of informal employment refers to jobs as observation units. Employment is defined in the sense of paragraph 9 of the Resolution concerning statistics of the economically active population, employment, unemployment and underemployment adopted by the Thirteenth ICLS.

2. *Informal sector enterprises* and *employment in the informal sector* are defined according to the Resolution concerning statistics of employment in the informal sector adopted by the Fifteenth ICLS. For the purpose of statistics on informal employment, paragraph 19 of the Resolution concerning statistics of employment in the informal sector adopted by the Fifteenth ICLS should be applied to exclude households employing paid domestic workers from informal sector enterprises, and to treat them separately as part of a category named ‘households’.

3. (1) *Informal employment* comprises the total number of informal jobs as defined in subparagraphs (2) to (5) below, whether carried out in formal sector enterprises, informal sector enterprises, or households, during a given reference period.

(2) As shown in the attached matrix, informal employment includes the following types of jobs:

- (i) own-account workers employed in their own informal sector enterprises (cell 3);
- (ii) employers employed in their own informal sector enterprises (cell 4);
- (iii) contributing family workers, irrespective of whether they work in formal or informal sector enterprises (cells 1 and 5);
- (iv) members of informal producers’ cooperatives (cell 8);
- (v) employees holding informal jobs (as defined in subparagraph (5) below) in formal sector enterprises, informal sector enterprises, or as paid domestic workers employed by households (cells 2, 6 and 10);
- (vi) own-account workers engaged in the production of goods exclusively for own final use by their household (cell 9), if considered employed according to paragraph 9 (6) of the

Resolution concerning statistics of the economically active population, employment, unemployment and underemployment adopted by the Thirteenth ICLS.

- (3) Own-account workers, employers, members of producers' cooperatives, contributing family workers, and employees are defined in accordance with the latest version of the International Classification of Status in Employment (ICSE).
 - (4) Producers' cooperatives are considered informal, if they are not formally established as legal entities and also meet the other criteria of informal sector enterprises specified in the Resolution concerning statistics of employment in the informal sector adopted by the Fifteenth ICLS.
 - (5) Employees are considered to have informal jobs if their employment relationship is, in law or in practice, not subject to national labour legislation, income taxation, social protection or entitlement to certain employment benefits (advance notice of dismissal, severance pay, paid annual or sick leave, etc.). The reasons may be the following: non-declaration of the jobs or the employees; casual jobs or jobs of a limited short duration; jobs with hours of work or wages below a specified threshold (e.g. for social security contributions); employment by unincorporated enterprises or by persons in households; jobs where the employee's place of work is outside the premises of the employer's enterprise (e.g. outworkers without employment contract); or jobs, for which labour regulations are not applied, not enforced, or not complied with for any other reason. The operational criteria for defining informal jobs of employees are to be determined in accordance with national circumstances and data availability.
 - (6) For purposes of analysis and policy-making, it may be useful to disaggregate the different types of informal jobs listed in paragraph 3 (2) above, especially those held by employees. Such a typology and definitions should be developed as part of further work on classifications by status in employment at the international and national levels.
4. Where they exist, employees holding formal jobs in informal sector enterprises (cell 7 of the attached matrix) should be excluded from informal employment.
 5. *Informal employment outside the informal sector* comprises the following types of jobs:
 - (i) employees holding informal jobs (as defined in paragraph 3 (5) above) in formal sector enterprises (cell 2) or as paid domestic workers employed by households (cell 10);
 - (ii) contributing family workers working in formal sector enterprises (cell 1);
 - (iii) own-account workers engaged in the production of goods exclusively for own final use by their household (cell 9), if considered employed according to paragraph 9 (6)

of the Resolution concerning statistics of the economically active population, employment, unemployment and underemployment adopted by the Thirteenth ICLS.

6. Countries, which do not have statistics on employment in the informal sector, or for which a classification of employment by type of production unit is not relevant, may develop statistics on informal employment, if desired, in specifying appropriate definitions of informal jobs of own-account workers, employers and members of producers' cooperatives. Alternatively, they may limit the measurement of informal employment to employee jobs.

7. Countries, which exclude agricultural activities from the scope of their informal sector statistics, should develop suitable definitions of informal jobs in agriculture, especially with respect to jobs held by own-account workers, employers and members of producers' cooperatives.

Conceptual Framework: Informal Employment

Production units by type	Jobs by status in employment									
	Own-account workers		Employers		Contributing family workers	Employees		Members of producers' cooperatives		
	Informal	Formal	Informal	Formal		Informal	Informal	Formal	Informal	Formal
Formal sector enterprises					1	2				
Informal sector enterprises ^(a)	3		4		5	6	7	8		
Households ^(b)	9					10				

(a) As defined by the Fifteenth International Conference of Labour Statisticians (excluding households employing paid domestic workers).

(b) Households producing goods exclusively for their own final use and households employing paid domestic workers.

Note: Cells shaded in dark grey refer to jobs, which, by definition, do not exist in the type of production unit in question. Cells shaded in light grey refer to formal jobs. Un-shaded cells represent the various types of informal jobs.

Informal employment: Cells 1 to 6 and 8 to 10.
Employment in the informal sector: Cells 3 to 8.
Informal employment outside the informal sector: Cells 1, 2, 9 and 10.

Chapter Three

Summary of Findings

Chapter Three

Summary of Findings

3.0. Introduction

3.0.1 The summary of findings of the first Annual Report of Periodic Labour Force Survey (PLFS) (July 2017-June 2018) at all-India level is discussed in this Chapter. A comparison with earlier survey results on employment and unemployment obtained from different quinquennial rounds of NSSO is also done in some cases. This Chapter of the Report is arranged in Ten Sections as follows:

- Section One: Households and Population
- Section Two: Labour Force
- Section Three: Workforce
- Section Four: Employment in Informal Sector and conditions of employment
- Section Five: Earnings from employment
- Section Six: Hours worked
- Section Seven: Unemployment
- Section Eight: Technical education, vocational/technical training and number of years in formal education
- Section Nine: Employment status among social groups
- Section Ten: Employment status among major religious groups.

3.0.2 Reference period of the estimates

3.0.2.1 The estimates presented in the report are based on the two types of data reference: one set of estimates are based on the data collected in the Schedules of first visit conducted from July 2017 to June 2018 and another set of estimates are presented for each quarter and are based on data of first visit as well as revisit data of the corresponding four quarters of the survey period of PLFS (2017-18), viz., July – September 2017, October- December 2017, January- March 2018 and April – June 2018.

3.0.2.2 *Estimates derived on the basis of the data of first visit:* The estimates, in general, refer to the midpoint of the survey period: thus for the estimates based on first visit Schedule, the reference period of the estimates is the mid-point of the survey period July 2017 - June 2018. In this Chapter, except Statements 22 to 29, all other estimates are presented on the basis of data collected in the first visit Schedules (Schedule 10.4) of PLFS conducted during July 2017 – June 2018.

3.0.2.3 *Estimates derived on the basis of the data of first visit and revisit:* For the estimates generated for each quarter of the survey period July 2017 – June 2018, the reference period of the estimates is the mid-point of the respective quarter, viz., July – September 2017, October- December 2017, January- March 2018 and April – June 2018.

3.1 Section One: Households and Population

3.1.1 Estimates of Households and Population

3.1.1.0 Certain information on socio-economic condition of the sample households and demographic data pertaining to the surveyed individuals were collected in this survey. In this chapter, estimates relating to some of the socio-economic characteristics of households and demographic particulars of the population are presented.

3.1.1.1 Households and Population: Statement 1 gives the estimates of number of households and number of persons along with average household size and sex ratio

Statement 1: Estimated numbers of households, persons, average household size and sex ratio during 2017-18			
	all-India		
estimates	rural	urban	rural+urban
(1)	(2)	(3)	(4)
number of households (in million)	176.30	80.46	256.76
number of persons (in million)	759.28	314.83	1074.10
average household size (0.0)	4.3	3.9	4.2
sex ratio (females per 1000 males)	952	965	956

(number of females per 1000 males) as obtained from PLFS-2017-18. As per the survey estimates, about 1074 million people constituted 257 million households in India. Share of persons in

rural areas was 70.7 per cent. During 2017-18, average household size in India was 4.2 and the sex ratio was 956.

3.1.1.2 Detailed Table in Appendix A: Number of villages/ blocks, households surveyed and persons enumerated for each State/ UT are given in Table 1. Estimated numbers of persons for each State/ UT are given in Table 2. Estimated numbers of households, average household size and sex ratio for each State/ UT are given in Table 3.

3.1.1.3 Household size and sex ratio over different NSS rounds: In Statement 2, the average household size and sex ratio in India obtained during the last three quinquennial rounds of NSSO conducted during 2004-05 (NSS 61st round), 2009-10 (NSS 66th round) and 2011-12 (NSS 68th round) and in 2017-18 (PLFS) are presented. It is seen that the over the period of time from 2004-05 to 2017-18, average household size in both rural and urban areas followed a decreasing pattern while sex ratio in rural areas have declined and it increased in urban areas.

Statement 2: Average household size (0.0) and sex ratio (number of females per 1000 males) during 61 st (2004-05), 66 th (2009-10), 68 th (2011-12) rounds and PLFS (2017-18)				
	all-India			
NSS rounds (survey periods)	rural		urban	
	household size	sex ratio	household size	sex ratio
(1)	(2)	(3)	(4)	(5)
PLFS (July 2017- June 2018)	4.3	952	3.9	965
68 th (July 2011- June 2012)	4.5	957	4.0	922
66 th (July 2009- June 2010)	4.6	947	4.1	909
61 st (July 2004- June 2005)	4.8	962	4.3	920

Note: The figures are to be read along with the explanatory note for comparability.

3.1.2 Household Type

3.1.2.1 The nature and type of work from which a household derives its major income is an important indicator of the activity pattern of its members. In this survey, source of major income of the household was worked out depending on the income from economic/non-economic activities pursued by the members of the households during the 365 days preceding the date of survey. On the basis of the source of major income, sample households were categorised into different *household types*. The percentage distributions of households by *household type* for all-India are given in Statement 3 obtained from NSS 68th round (2011-12) and PLFS (2017-18). It may be noted that classification of the households into different household types was same in both rural and urban areas during NSS 68th round (2011-12) and PLFS (2017-18). However, in earlier rounds of NSSO, the classification of the households were different from those followed in NSS 68th round and PLFS. Thus, comparison of the household types has been restricted only for the periods 2011-12 (NSS 68th round) and 2017-18 (PLFS).

Statement 3: Percentage distribution of households by household type during 2011-12 (NSS 68th round) and 2017-18 (PLFS)

household type	all-India			
	rural		urban	
	NSS 68 th round (2011-12)	PLFS (2017- 18)	NSS 68 th round (2011-12)	PLFS (2017- 18)
(1)	(2)	(3)	(4)	(5)
self-employed in:				
agriculture	34.3	37.8	-	-
non-agriculture	15.5	14.3	-	-
self-employed	49.8	52.2	35.3	32.4
regular wage/salary earning	9.6	12.7	41.7	41.4
casual labour in:				
agriculture	21.0	12.1	-	-
non-agriculture	13.5	12.9	-	-
casual labour	34.5	25.0	11.8	11.8
others	6.1	10.1	11.2	14.4
all	100.0	100.0	100.0	100.0

Note: 1. in urban areas, 'self-employment' and 'casual labour' households were not categorized separately into 'agriculture' and 'non-agriculture' households.

2. The figures are to be read along with the explanatory note for comparability..

3.1.2.2 Statement 3 shows that during 2017-18, about 52.2 per cent of rural households had major source of income from *self-employment* and this share increased by 2 percentage points compared to the corresponding share during 2011-12: the share of rural households with major source of income from *self-employment in agriculture* increased by nearly 4 percentage points during 2017-18 compared to that of 2011-12. The share of rural households with major source of income from *casual labour* decreased by 10 percentage points during 2017-18 (25 per cent) compared to that of 2011-12. The share of rural households with major source of income from *regular wage/salary earning* increased by nearly 3 percentage points in 2017-18 (12.7 per cent) compared to that of 2011-12. In urban areas, the share of the household type *self-employment* decreased by 3 percentage points during 2017-18 (32.4 per cent) compared to that of 2011-12 while that of the category *others* increased by 3 percentage points and the share of households with major source of income from *regular wage/salary earning* remained almost at the same level

(41.4 per cent during 2017-18). The share of urban households with major source of income from *casual labour* during 2017-18 was 11.8 per cent.

3.1.2.3 Detailed Table in Appendix A: Percentage distribution of households by household type for rural areas for each State/ UT is given in Table 4R and that for urban areas is given in Table 4U.

3.1.3 Age Distribution of Population

3.1.3.1 Age and gender are two important demographic characteristics of a population. In Statement 4, the distribution of rural and urban population by 5-year age-groups is presented for males and females separately. Comparable results based on the 61st round (2004-05), 66th round (2009-10) and 68th round (2011-12) surveys are also presented in this Statement.

Statement 4: Percentage distribution of population by five year age groups during 61 st (2004-05), 66 th (2009-10), 68 th (2011-12) rounds and PLFS (2017-18)								
								all-India
age group (years)	male				female			
	61 st (2004-05)	66 th (2009-10)	68 th (2011-12)	PLFS (2017-18)	61 st (2004-05)	66 th (2009-10)	68 th (2011-12)	PLFS (2017-18)

all	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0

Note: The figures are to be read along with the explanatory note for comparability.

From Statement 4, it is seen that:

- During 2017-18, persons aged 15-29 years, who are considered as youth, accounted for 27.4 per cent of rural males, 27 per cent of rural females, 28.2 per cent of urban males and 27.8 per cent of urban females.
- During the period 2004-05 to 2017-18, among rural male, the share of the children (age group 0-14 years) in the population decreased by 8 percentage points (from nearly 36.4 per cent to 28.4 per cent), and for the age group 15 years and above, the share increased by 8 percentage points (from 63.4 per cent to 71.5 per cent).
- During the period 2004-05 to 2017-18, among rural female, the share of the children (age group 0-14 years) in the population decreased by 8 percentage points (from nearly 34.3 per cent to 26.3 per cent), and for the age group 15 years and above, the share has increased by 8 percentage points (from 65.7 per cent to 73.8 per cent).
- During the period 2004-05 to 2017-18, among urban male, the share of the children (age group 0-14 years) in the population decreased by 5 percentage points (from nearly 28.7 per cent to 23.8 per cent), and for the age group 15 years and above, the share has increased by 5 percentage points (from 71.1 per cent to 76.3 per cent).
- During the period 2004-05 to 2017-18, among urban female, the share of the children (age group 0-14 years) in the population decreased by nearly 7 percentage points (from nearly 28.8 per cent to 22.2 per cent), and for the age group 15 years and above, the share has increased by 6 percentage points (from 71.5 per cent to 77.7 per cent).

3.1.3.2 Detailed Table in Appendix A: Estimated numbers of persons for each State/ UT for the age groups 0-4 years, 5-14 years, 15-29 years, 15-59 years, 15 years and above as well as for all ages are given in Table 2. Percentage distribution of persons for each age-group at all-India level is given in Table 15.

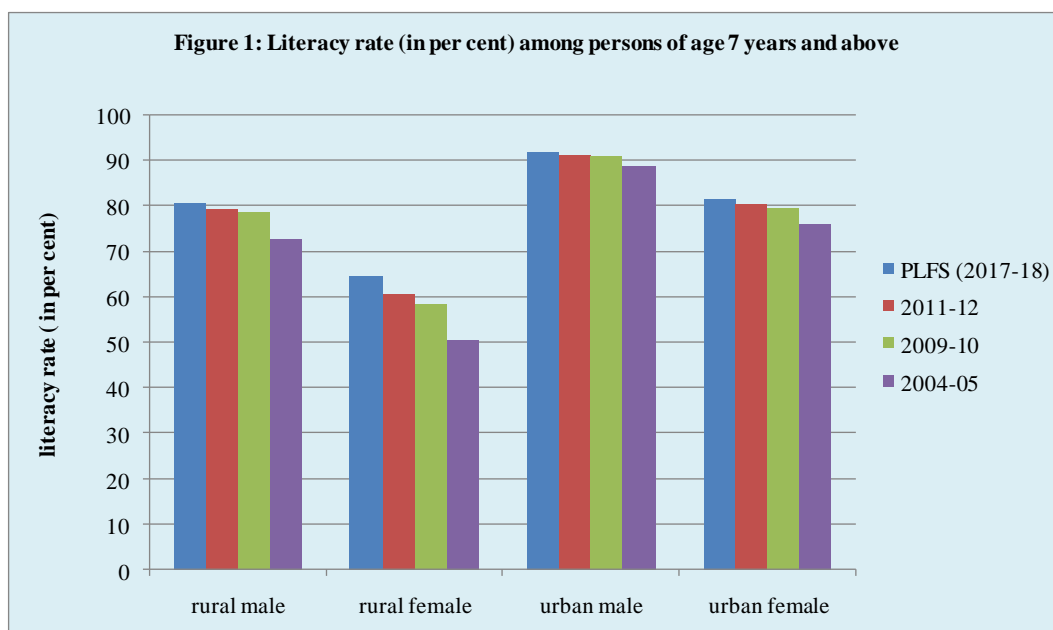

3.1.4 Educational Level of Population

3.1.4.1 Literacy Rate: For the purposes of this survey, a person who could read and write a simple message in any language with understanding was considered a *literate*. Literacy rate among persons of age 7 years and above is given in Statement 5. In Figure 1, the literacy rate among persons of age 7 years and above in India is presented. It is seen that in India literacy rate during 2017-18 was 76.9 per cent which was nearly 10 percentage points higher than that observed during 2004-05. During 2017-18, literacy rate in rural areas of India was 72.8 per cent and in urban areas, it was 86.7 per cent. Literacy rate in both rural and urban areas was higher among males than females: in rural areas, literacy rate was 80.7 per cent among males compared to 64.5 per cent among females and in

urban areas, literacy rate was 91.6 per cent among males compared to 81.6 per cent among females.

Statement 5: Literacy rate (in per cent) among persons of age 7 years and above during 2004-05, 2009-10, 2011-12 and 2017-18			
category of persons	rural	urban	all-India rural+urban
(1)	(2)	(3)	(4)
2017-18 (PLFS)			
male	80.7	91.6	83.9
female	64.5	81.6	69.6
person	72.8	86.7	76.9
2011-12 (68 th round)			
male	79.1	91.1	82.7
female	60.6	80.3	66.3
person	70.0	86.0	74.7
2009-10 (NSS 66 th round)			
male	78.5	90.8	82.0
female	58.5	79.5	64.3
person	68.8	85.4	73.4
2004-05 (NSS 61 st round)			
male	72.7	88.8	77.0
female	50.6	75.9	57.0
person	61.9	82.7	67.3

Note: The figures are to be read along with the explanatory note for comparability.

3.1.4.2 Detailed Tables in Appendix A: Literacy rates of persons of different age groups for each State/UT are given in Table 7.

3.1.4.3 Educated Persons: Statement 6 presents the distribution of persons (of age 15-29 years and 15 years and above) by broad educational level viz. *not literate, literate & up to primary, middle, secondary & above including diploma/ certificate course*. Persons with general educational level *secondary and above including diploma/ certificate course* are referred to as educated in this Report.

Statement 6: Percentage distribution of persons of age 15 -29 years and 15 years and above by general educational level during 2004-05 (NSS 61st round), 2009-10 (NSS 66th round), 2011-12 (NSS 68th round) and 2017-18 (PLFS)

61 st (2004 - 05)	27.9	19.7	16.8	35.6	100.0	

Note 1: Figures in columns 3 to 6 may not add up to 100.0 due to rounding/presence of not reported cases.

2. The figures are to be read along with the explanatory note for comparability.

It is seen from Statement 6 that during 2017-18, among persons of age 15 years and above, about 35.8 per cent of rural males, 22.7 per cent of rural females, 56.7 per cent of urban males and 46.4 per cent of urban females in India were *educated*. It is seen from the Statement that the proportion of *educated* persons has increased for all the categories of persons between 2004-05 and 2017-18: the increase was 15 percentage points among rural males, 13 percentage points among rural females, 8 percentage points among urban males and 11 percentage points among urban females. It is observed that during 2017-18, among persons of age 15-29 years share of the educated was nearly 52.6 per cent among rural males, 43.4 per cent among rural females, 65.8 per cent among urban males and 65.4 per cent of urban females.

3.1.4.4 Detailed Table in Appendix A: Percentage distribution of persons of age 15 years and above by general educational level for each State/UT is given in Table 8.

3.2 Section Two: Labour Force

3.2.0 Labour force, or in others words, the ‘economically active’ population, refers to the population which supplies or seeks to supply labour for production and, therefore, includes both ‘employed’ and ‘unemployed’ persons. Estimates of the labour force have been obtained based on the following approaches:

- (i) according to the *usual status (ps+ss)* i.e. by considering usual principal and subsidiary activity together,
- (ii) according to the *current weekly status*

The labour force according to the *usual status (ps+ss)* is obtained by considering the *usual principal status* and the *subsidiary status* together. The estimate of the labour force in the *usual status (ps+ss)* includes (a) the persons who either worked or were available for work for a relatively long part of the 365 days preceding the date of survey and also (b) those persons from among the remaining population who had worked at least for 30 days during the reference period of 365 days preceding the date of survey. The labour force in *current weekly status* gives the average picture of the labour force participation in a short period of one week during the survey period. The estimate of labour force according to the current weekly status approach gives the number of persons who worked for at least 1 hour or was seeking/ available for work for at least 1 hour on any day during the 7 days preceding the date of survey.

3.2.1 Labour Force Participation Rates (LFPR) in different approaches

3.2.1.1 The labour force participation rate (LFPR) is defined as the percentage of persons in the labour force among the persons in the population. In Statement 7, the LFPRs for persons of all ages at the all-India level based on *usual status (ps+ss)* and *current weekly status* obtained from PLFS (2017-18) are presented along with the corresponding rates obtained from the quinquennial employment and unemployment surveys of NSSO conducted during NSS 50th (1993-94), 55th (1999-2000), 61st (2004-2005), 66th (2009-10)

and 68th (2011-12) rounds. Figure 2 presents LFPRs in rural areas based on different approaches are presented and in Figure 3 the corresponding figures for urban areas are presented.

Statement 7: Labour force participation rate (LFPR in per cent) according to usual status (ps+ss) and current weekly status (CWS) in NSS 50th (1993-94), 55th (1999-2000), 61st (2004-2005), 66th (2009-10), 68th (2011-12) rounds and PLFS (2017-18)

all-India												
status	LFPR (in per cent)											
	male						female					
	1993	1999	2004	2009	2011	2017	1993	1999	2004	2009	2011	2017
	1994	2000	2005	2010	2012	2018	1994	2000	2005	2010	2012	2018
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)
rural												
usual (ps+ss)	56.1	54.0	55.5	55.6	55.3	54.9	33.0	30.2	33.3	26.5	25.3	18.2
CWS	54.7	53.1	54.5	54.8	54.5	54.4	27.6	26.3	28.7	23.1	21.5	16.1
urban												
usual (ps+ss)	54.3	54.2	57.0	55.9	56.3	57.0	16.5	14.7	17.8	14.6	15.5	15.9
CWS	53.8	53.9	56.6	55.6	56.1	56.7	15.2	13.8	16.8	14.1	14.8	15.3

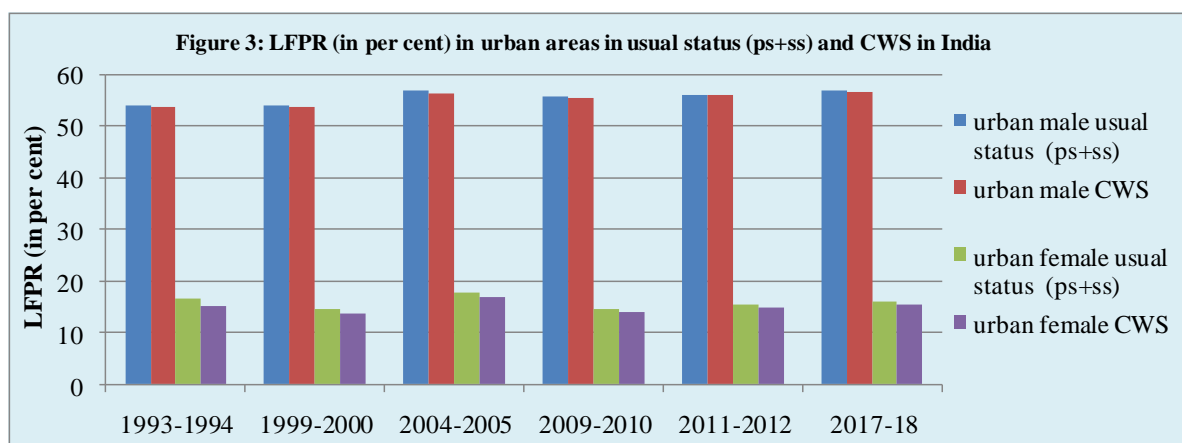

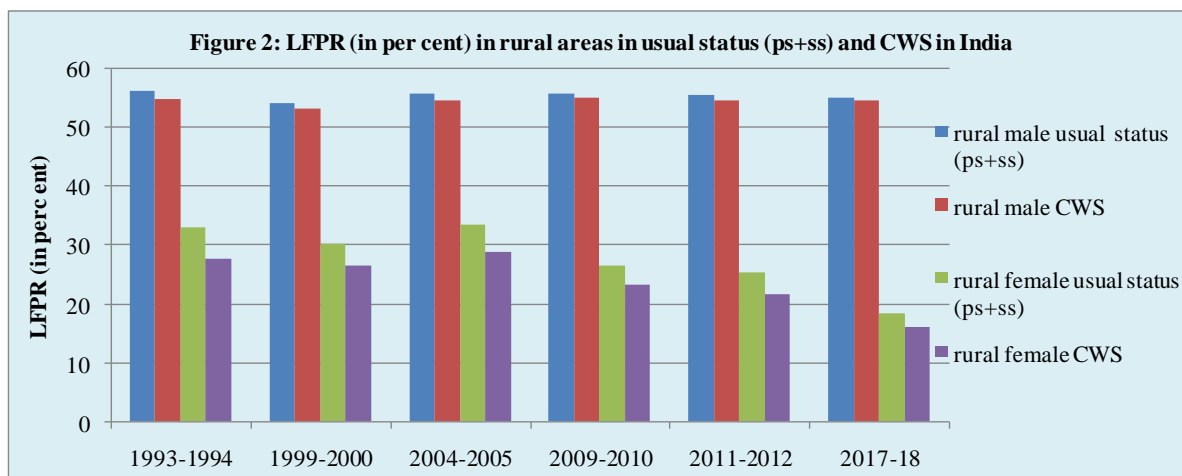

Note: The figures are to be read along with the explanatory note for comparability.

3.2.1.2 LFPR for persons of all ages in usual status (ps+ss): Statement 7 shows that labour force participation rate is significantly lower for females than for males in both rural and urban areas. During 2017-18, according to *usual status (ps+ss)*, about 54.9 per cent of rural males and 18.2 per cent of rural females were in the labour force. During this period, about 57 per cent of urban males and 15.9 per cent of urban females were in the labour force according to *usual status (ps+ss)*. Between 2004-05 and 2011-12 as well as between 2011-12 and 2017-18, LFPR in *usual status (ps+ss)* for rural males remained almost at the same level. Between 2004-05 and 2011-12, for rural female, LFPR decreased by nearly 8 percentage points and between 2011-12 and 2017-18 it further decreased by around 7 percentage points. Between 2004-05 and 2011-12 as well as between 2011-12 and 2017-18 rounds, LFPR in *usual status (ps+ss)* for urban males remained at the same level. For urban females, between 2004-05 and 2011-12, LFPR decreased by about 2 percentage points and between 2011-12 and 2017-18, it remained almost at the same level.

3.2.1.3 Detailed Table in Appendix A: Percentage distribution of persons by usual status (ps+ss) for each age-group at all-India level is given in Table 15. Labour force participation rate according to usual status (ps+ss) for each State/UT is given in Table 16.

3.2.1.4 LFPR for persons of all ages in current weekly status: From Statement 7 it is seen that during 2017-18, according to *current weekly status*, about 54.4 per cent of rural males and 16.1 per cent of rural females were in the labour force. During this period, about 56.7 per cent of urban males and 15.3 per cent of urban females were in the labour force according to *current weekly status*. Between 2004-05 and 2011-12 as well as between 2011-12 and 2017-18, LFPR in *current weekly status* for rural males remained almost at the same level. Between 2004-05 and 2011-12, for rural female, LFPR decreased by nearly 7 percentage points and between 2011-12 and 2017-18 it further decreased by

around 5 percentage points. Between 2004-05 and 2017-18, LFPR in *current weekly status* for urban males remained at the same level. For urban females, between 2004-05 and 2011-12, LFPR in *current weekly status*, decreased by about 2 percentage points and between 2011-12 and 2017-18, it increased by nearly 1 percentage point.

3.2.1.5 Detailed Tables in Appendix A: Percentage distribution of persons by *current weekly status* for each age-group at all-India level is given in Table 33. Labour force participation rate according to *current weekly status* for each State/UT is given in Table 34.

3.2.2 LFPR for persons of age 15 to 29 years in usual status (ps+ss)

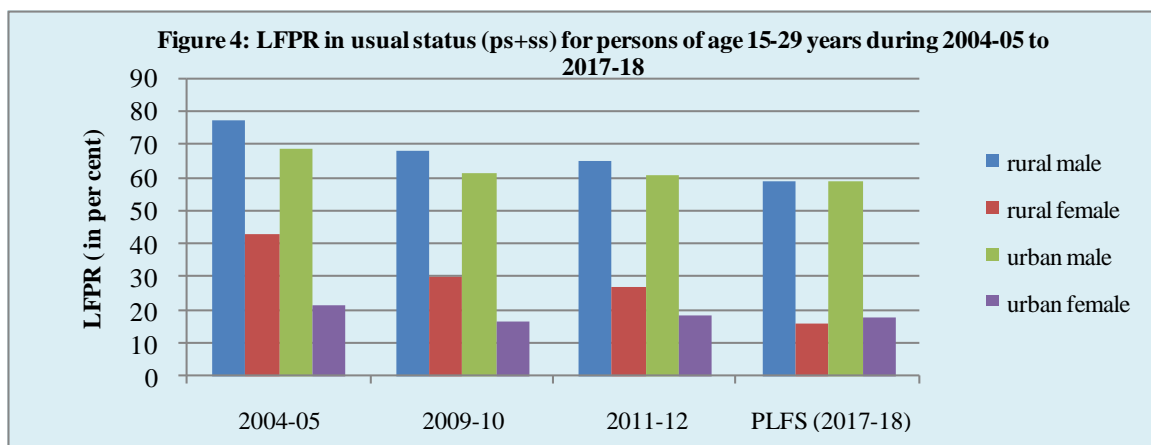

3.2.2.1 In Statement 8 LFPR in usual status (ps+ss) for persons of age 15-29 years is presented. It is seen that during 2017-18, in India, LFPR for persons of age 15-29 years was 38.2 per cent: 38.1 per cent in rural areas and 38.5 per cent in urban areas. LFPR was around 59 per cent among males in both rural and urban areas. For female in rural areas, LFPR was nearly 15.9 per cent while for urban females, LFPR was nearly 17.5 per cent. For rural male, LFPR decreased by 12 percentage points between 2004-05 and 2011-12 which further decreased by 6 percentage points between 2011-12 and 2017-18. For rural female, LFPR decreased by 16 percentage points between 2004-05 and 2011-12 which further decreased by 11 percentage points between 2011-12 and 2017-18. For urban male,

LFPR decreased by 8 percentage points between 2004-05 and 2011-12 which further decreased by 2 percentage points between 2011-12 and 2017-18. For urban female, LFPR decreased by 4 percentage points between 2004-05 and 2011-12 while it remained almost at the same level between 2011-12 and 2017-18. Thus, it is seen that during a period of 7 years between 2004-05 and 2011-12 and 6 years during a period of 2011-12 to 2017-18, among persons of age 15-29 years, the LFPR among males and females in rural areas and males in urban areas followed a decreasing pattern and the decrease (in terms of percentage points) during 2017-18 compared to 2011-12 was lower compared to the decrease in LFPR between 2004-05 and 2011-12. In urban areas, female LFPR though decreased between 2004-05 and 2011-12 did not further decrease between 2011-12 and 2017-18. The LFPR in *usual status (ps+ss)* for persons of age 15-29 years in the period 2004-05 to 2017-18 is given in Figure 4.

Statement 8: Labour force participation rates (in per cent) in usual status (ps+ss) during 61 st (2004-2005), 66 th (2009-10), 68 th (2011-12) rounds and PLFS (2017-18) for persons of age 15-29 years, 15 years & above and all persons

Note: The figures are to be read along with the explanatory note for comparability.

3.2.2.2 Detailed Table in Appendix A: Labour force participation rate for persons of age 15-29 years according to usual status (ps+ss) for each State/UT is given in Table 16.

3.2.3 LFPR for persons of age 15 years and above in usual status (ps+ss)

3.2.3.1 In Statement 8, LFPR in usual status (ps+ss) for persons of age 15 years and above is also presented. It is seen that during 2017-18, in India, LFPR for persons of age 15 years and above was nearly 49.8 per cent: 50.7 per cent in rural areas and 47.6 per cent in urban areas. Among rural male, LFPR was nearly 76.4 per cent and among urban male it was nearly 74.5 per cent. In rural areas nearly one-fourth of the females of age 15 years and above were in the labour force while in among urban females of age 15 years and above, nearly one-fifth were in the labour force. LFPR among rural male of age 15 years and above decreased by nearly 5 percentage points from 2004-05 to 2011-12 as well as from 2011-12 to 2017-18. LFPR among rural female of age 15 years and above, decreased by nearly 14 percentage points from 2004-05 to 2011-12 and it decreased further by 11 percentage points from 2011-12 to 2017-18. LFPR among urban male of age 15 years and above, decreased by nearly 3 percentage points between 2004-05 and 2011-12 and it further decreased by 2 percentage points between 2011-12 and 2017-18. LFPR among urban female of age 15 years and above decreased by nearly 4 percentage points between 2004-05 and 2011-12 and it remained at the same level between 2011-12 and 2017-18. The LFPR in *usual status (ps+ss)* for persons of age 15 years and above between 2004-05 and 2017-18 is given in Figure 5.

3.2.3.2 Detailed Table in Appendix A: Labour force participation rate for persons of age 15 years and above according to usual status (ps+ss) for each State/UT is given in Table 16.

3.3 Section Three: Workforce

3.3.0 In this Section, the estimate of the employed persons and its structure are discussed. The estimates of employed persons have been obtained based on the following approaches:

- (i) number of persons employed according to the *usual status* (ps+ss) i.e. by considering usual principal and subsidiary activity together, and
- (ii) number of persons employed according to the *current weekly status*.

The workforce in the *usual status* (ps+ss) is obtained by considering the *usual principal status* and the *subsidiary status* together. The workforce in the *usual status* (ps+ss) includes (a) the persons who worked for a relatively long part of the 365 days preceding the date of survey and (b) the persons from among the remaining population who had worked at least for 30 days during the reference period of 365 days preceding the date of survey. The workforce measured in *current weekly status* (CWS) gives the average picture of the workforce in a short period of one week during the survey period. The estimate of workforce in the *current weekly status* provides the number of persons worked for at least 1 hour on any day during the 7 days preceding the date of survey.

3.3.1 Worker Population Ratio (WPR) in different approaches

3.3.1.1 Worker Population Ratio (WPR) is the percentage of persons employed among the persons in the population. In Statement 9, the WPRs based on the different approaches, as estimated from PLFS (2017-18), are presented at the all-India level.

Statement 9: WPR (in per cent) according to usual status (ps+ss) and CWS during 2017-18

category of persons	all-India	
	usual status (ps+ss)	CWS
(1)	(2)	(3)
rural		
male	51.7	49.6
female	17.5	14.8
person	35.0	32.6
urban		
male	53.0	51.7
female	14.2	13.3
person	33.9	32.9
rural+urban		
male	52.1	50.2
female	16.5	14.4
person	34.7	32.7

3.3.1.2 WPR in usual status (ps+ss): In India, WPR according to *usual status* (ps+ss) was 34.7 per cent. WPR in rural areas was about 35 per cent and that in urban areas was about 33.9 per cent. In both rural and urban areas, WPRs for females were considerably lower than WPRs for males. In rural areas, WPRs for males and females were nearly 51.7 per cent and 17.5 per cent, respectively while in urban areas, WPRs for males and females were nearly 53 per cent and 14.2 per cent, respectively.

3.3.1.3 Detailed Table in Appendix A: Percentage distribution of persons by usual

status (ps+ss) for each age-group at all-India level is given in Table 15. Worker Population Ratio (WPR) according to usual status (ps+ss) for each State/UT is given in Table 17.

3.3.1.4 WPR in Current Weekly Status: It is seen from Statement 9 that the WPRs in CWS were lower than the WPRs in usual status (ps+ss). In India, WPR in CWS was 32.7 per cent – 32.6 per cent in rural areas and 32.9 per cent in urban areas. The WPRs in CWS for males and females in rural areas were 49.6 per cent and 14.8 per cent, respectively. The corresponding figures for males and females in urban areas were 51.7 per cent and 13.3 per cent, respectively.

3.3.1.5 Detailed Table in Appendix A: Percentage distribution of persons by current weekly activity for each age-group at all-India level is given in Table 33. WPRs according to current weekly status for each State/UT is given in Table 35.

3.3.2 Change in estimates of employed persons in usual status (ps+ss) over different NSS rounds

3.3.2.1 Statement 10 presents the estimates of WPRs according to usual status (ps+ss) for different categories of persons as obtained from quinquennial surveys of NSSO conducted in NSS 27th (1972-73), 32nd (1977-78), 38th (1983), 43rd (1987-88), 50th (1993-94), 55th (1999-00), 61st (2004-05), 66th (2009-10), 68th (2011-12) rounds and PLFS (2017-18). Figure 6 presents the WPRs in *usual status (ps+ss)* for different categories of persons between 1972-73 and 2017-18.

Statement 10: WPR (*in per cent*) in usual status (ps+ss) during 1972-73 (27th round) and PLFS (2017-2018)

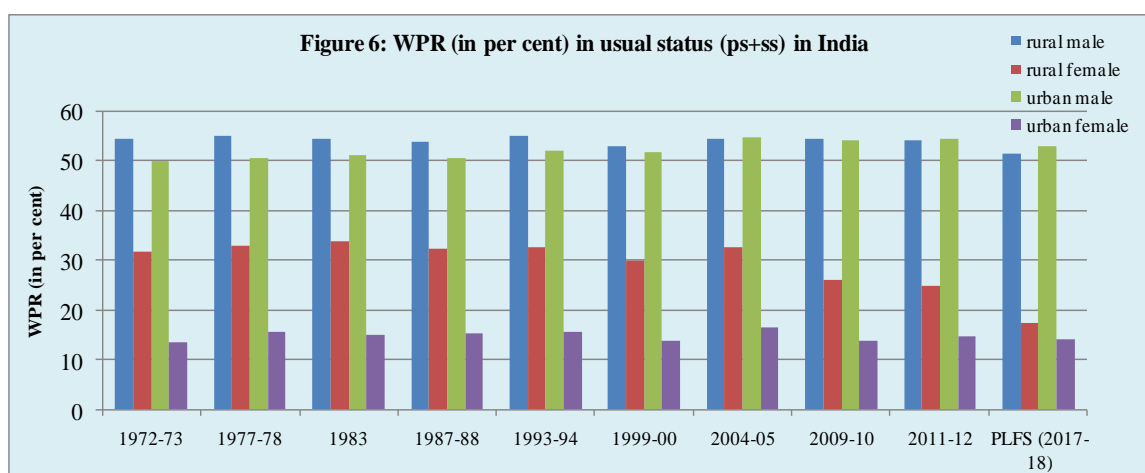

round (year)	all-India								
	usually (ps+ss) employed								
	rural			urban			all		
	male	female	person	male	female	person	male	female	person
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)
PLFS (2017-18)	51.7	17.5	35.0	53.0	14.2	33.9	52.1	16.5	34.7
68 th (2011-12)	54.3	24.8	39.9	54.6	14.7	35.5	54.4	21.9	38.6
66 th (2009-10)	54.7	26.1	40.8	54.3	13.8	35.0	54.6	22.8	39.2
61 st (2004-05)	54.6	32.7	43.9	54.9	16.6	36.5	54.7	28.7	42.0
55 th (1999-00)	53.1	29.9	41.7	51.8	13.9	33.7	52.7	25.9	39.7
50 th (1993-94)	55.3	32.8	44.4	52.1	15.5	34.7	54.5	28.6	42.0
43 rd (1987-88)	53.9	32.3	43.4	50.6	15.2	33.7	53.1	28.5	41.2
38 th (1983)	54.7	34.0	44.5	51.2	15.1	34.0	53.8	29.6	42.0
32 nd (1977-78)	55.2	33.1	44.4	50.8	15.6	34.1	54.3	29.7	42.3
27 th (1972-73)	54.5	31.8	*	50.1	13.4	*	*	*	*

Note: *: proportions not derived for NSS 27th round

1. The figures are to be read along with the explanatory note for comparability.

3.3.2.2 Between 1972-73 and 2017-18, WPR in *usual status (ps+ss)* in India decreased by nearly 7 percentage points: from around 42.3 per cent in 1977-78 to 34.7 per cent in 2017-18. Between 2004-05 and 2011-12, WPR in *usual status (ps+ss)* for rural males and urban males remained at the same level, while it decreased by about 8 percentage point for rural

females and about 2 percentage points for urban females. Between 2011-12 and 2017-18, WPR in *usual status (ps+ss)* for rural males and urban males decreased by nearly 3 percentage points and 2 percentage points respectively, while it decreased by about 7 percentage point for rural females and remained at the same level for urban females.

3.3.3 Worker Population Ratio (WPR) for persons of age groups 15 to 29 years and 15 years and above

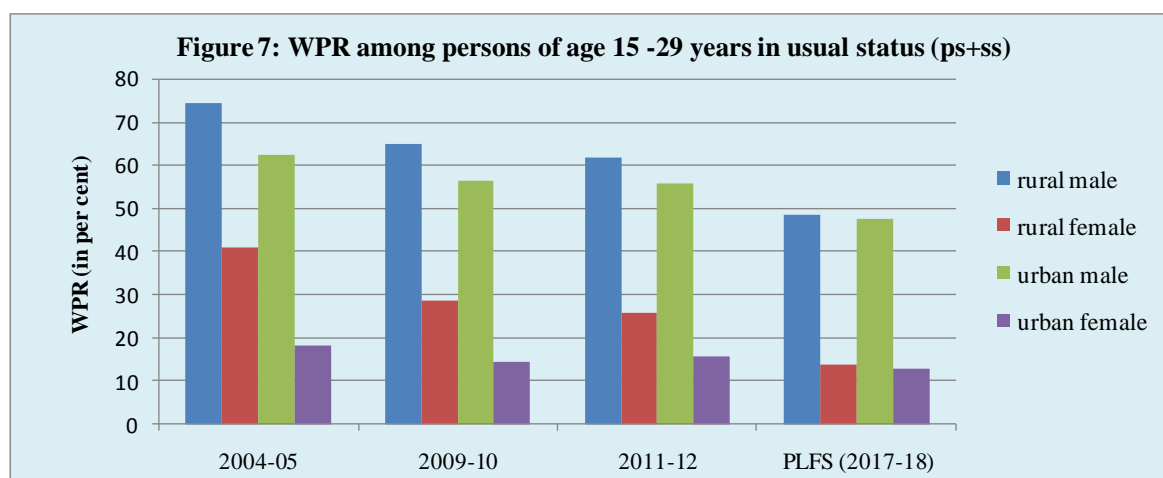

Statement 11: WPR (in per cent) in usual status (ps+ss) during 61st (2004-2005), 66th (2009-10), 68th (2011-12) rounds and PLFS (2017-18) for persons of age 15-29 years, 15 years and above and all persons

age group	all-India								
	rural			urban			rural+urban		
	male	female	person	male	female	person	male	female	person
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)

2004-05									
15-29 years	74.2	41.0	57.7	62.3	18.4	41.9	70.7	34.9	53.3
15 years and above	84.6	48.5	66.6	76.3	22.7	50.6	82.2	41.6	62.2
all ages	54.6	32.7	43.9	54.9	16.6	36.5	54.7	28.7	42.0

Note: The figures are to be read along with the explanatory note for comparability.

3.3.3.1 WPR for persons of age 15 to 29 years in usual status (ps+ss): In Statement 11, WPR in usual status (ps+ss) for persons of age 15-29 years is presented. It is seen that during 2017-18, WPR for persons of age 15-29 years was 31.4 per cent: 31.8 per cent in rural areas and 30.6 per cent in urban areas. Among males, WPR was around 48.6 per cent in rural areas and 47.6 per cent in urban areas. For female in rural areas, WPR was nearly 13.8 per cent while for urban females, WPR was nearly 12.8 per cent. For rural male, worker population ratio decreased by 13 percentage points between 2004-05 and 2011-12 which further decreased by 13 percentage points between 2011-12 and 2017-18. For rural female, WPR decreased by 15 percentage points between 2004-05 and 2011-12 which further decreased by 12 percentage points between 2011-12 and 2017-18. For urban male, worker population ratio decreased by 7 percentage points between 2004-05 and 2011-12 which further decreased by 8 percentage points between 2011-12 and 2017-18. For urban female, WPR decreased by 3 percentage points between 2004-05 and 2011-12 as well as between 2011-12 and 2017-18. Thus, it is seen that during a period of 7 years between 2004-05 and 2011-12 and during a period of 6 years between 2011-12 and 2017-18, among persons of age 15-29 years, the WPR among all categories of persons followed a decreasing pattern. The WPR in usual status (ps+ss) for persons of age 15-29 years is presented in Figure 7.

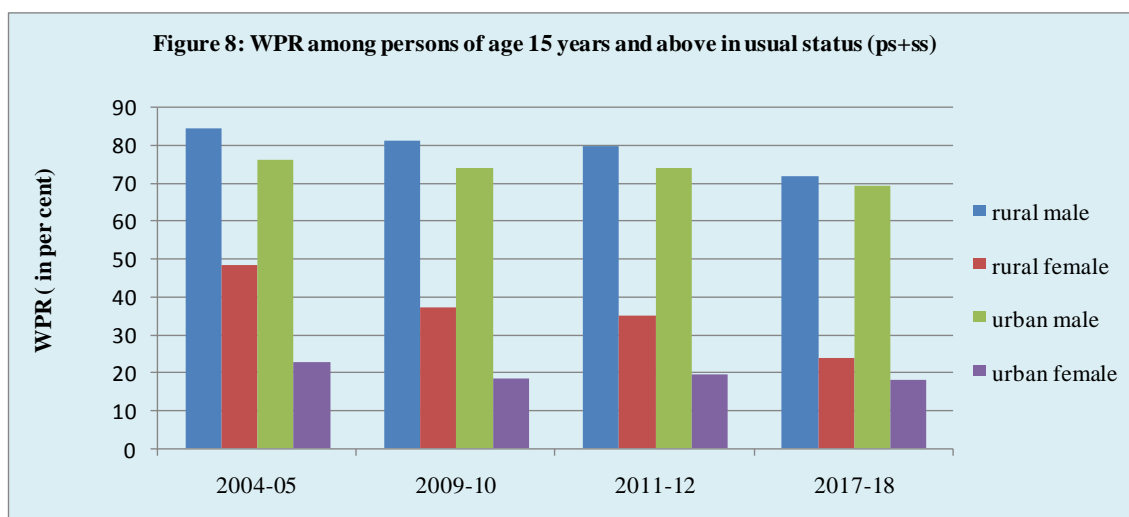

3.3.3.2 Detailed Table in Appendix A: Worker Population Ratio according to usual status (ps+ss) for persons of age 15-29 years for each State/UT is given in Table 17.

3.3.3.3 WPR for persons of age 15 years and above in usual status (ps+ss): In Statement 11, WPR in usual status (ps+ss) for persons of age 15 years and above is also presented. It is seen that during 2017-18, WPR for persons of age 15 years and above was nearly 46.8 per cent: 48.1 per cent in rural areas and 43.9 per cent in urban areas. Among rural male, WPR was nearly 72 per cent and among urban male it was nearly 69.3 per cent. In rural areas, nearly 23.7 per cent of the females of age 15 years and above were in the workforce while among urban females of age 15 years and above, nearly 18.2 per cent were in the workforce. WPR among rural male decreased by nearly 5 percentage points between 2004-05 and 2011-12 and it decreased by nearly 8 percentage points between 2011-12 and 2017-18. WPR among rural female of age 15 years and above, decreased by nearly 13 percentage points between 2004-05 and 2011-12 and it decreased further by 12 percentage

points between 2011-12 and 2017-18. Among urban male of age 15 years and above, WPR decreased by nearly 2 percentage points between 2004-05 and 2011-12 and it further decreased by 5 percentage points between 2011-12 and 2017-18. WPR among urban female decreased by nearly 3 percentage points between 2004-05 and 2011-12 and it decreased by 1 percentage point between 2011-12 and 2017-18. The estimates of WPR in usual status (ps+ss) for persons of age 15 years and above are given in Figure 8.

3.3.3.4 Detailed Tables in Appendix A: Worker Population ratio according to usual status (ps+ss) for persons of age 15 years and above for each State/UT is given in Table 17.

3.3.4 WPR in usual status (ps+ss) across decile classes by usual monthly per capita consumer expenditure (UMPCE)

3.3.4.1 Statement 12 presents the estimates of WPR in usual status (ps+ss) for each decile class of population by UMPCE separately for males and females of rural and urban areas of India. It is seen from the Statement that the WPRs show in general an increasing trend from the lower decile classes to the upper decile classes in both rural and urban areas and for both males and females. During 2017-18, WPR for rural males in the bottom decile class was 45.5 per cent whereas this was 57.8 per cent in the top decile class. For urban males, WPR in the bottom and top decile classes were 45.7 per cent and 56 per cent, respectively. For rural females, WPR was about 16.5 per cent in the bottom decile class and 19.7 per cent in the top decile class. The corresponding figure for urban females was 11.1 per cent in the bottom decile class and 19.9 per cent in the top decile class.

3.3.4.2 Detailed Table in Appendix A: Percentage distribution of persons by usual status (ps+ss) for each decile class of usual monthly per capita consumer expenditure (UMPCE) at all-India level is given in Table 28. WPRs according to usual status (ps+ss) for each decile class of UMPCE for each State/UT is given in Table 30.

Statement 12: WPRs (in per cent) in usual status (ps+ss) by decile classes of usual monthly per capita consumer expenditure (UMPCE) during 2017-18 (PLFS)

decile classes of population by UMPCE	all- India					
	rural			urban		
	male	female	person	male	female	person
(1)	(2)	(3)	(4)	(5)	(6)	(7)

3.3.5 Education level specific usual status (ps+ss) WPR for persons of age 15 years and above

3.3.5.1 The percentage of workers in usual status (ps+ss) having particular levels of education among persons with that level of education is defined as the education level specific WPR. It may be noted that the highest level of education successfully completed by the person has been considered as the education level of the person. The education level specific WPRs in usual status (ps+ss) for persons of age 15 years and above, as obtained from PLFS (2017-18) are presented in Statement 13 for different levels of education. It is seen that among all the categories of persons of age 15 years and above, WPR was the lowest among those with education level 'higher secondary'. Among rural male of age 15 years and above, WPR was the highest among those with educational level 'literate and upto primary' (85.1 per cent) and it was the lowest among those with educational level 'higher secondary' (54.4 per cent). Among rural female of age 15 years and above, WPR was the highest among the 'diploma/ certificate course' (34.9 per cent) and it was the lowest among those with educational level 'higher secondary' (12.5 per cent). Among urban males of age 15 years and above, WPR was the highest among those with educational level 'literate & upto primary' (80.2 per cent) and it was the lowest among those with educational level 'higher secondary' (51.5 per cent). Among urban females of age 15 years and above, WPR was the highest among those with educational level 'post graduate & above' (35.7 per cent) and it was the lowest among those with educational level 'higher secondary' (9.9 per cent).

3.3.5.2 Detailed Table in Appendix A: Percentage distribution of persons of age 15 years and above by usual status (ps+ss) for different educational levels at all-India level is given in Table 21. Worker Population Ratio (WPR) according to usual status (ps+ss) for persons of age 15 years and above of different general education level for each State/UT is given in Table 23.

Statement 13: WPRs (in per cent) in usual status (ps+ss) in different levels of education among persons of age 15 years and above during 2017-18 (PLFS)

category of persons	highest level of education successfully completed

3.3.6 Distribution of workers in usual status (ps+ss) by status in employment

3.3.6.1 The workers in usual status (ps+ss) are categorised into three broad categories according to their status in employment. These broad categories are: (i) *self-employed*, (ii) *regular wage/salaried employee* and (iii) *casual labour*. Within the category of *self-employed* two sub-categories have been made as follows: (i) *own account worker and employer* and (ii) *unpaid helper in household enterprises*.

3.3.6.2 It is seen from Statement 14 that during 2017-18, in rural areas majority of the workers in usual status (ps+ss) were self-employed followed by casual labour while in urban areas, majority of the workers were regular wage/salaried employees followed by self-employed persons. The statement shows that during 2017-18, in rural areas, among workers in usual status (ps+ss), share of *self-employed workers* among males and females were around 58 per cent (57.8 per cent among rural males and 57.7 per cent among rural females). In urban areas during 2017-18, the share of *self-employed workers* was 39.2 per cent among male workers and 34.7 per cent among female workers. In rural areas, the share of *regular wage/salaried workers* was 14 per cent among male workers and 10.5 per cent among female workers. In urban areas, the share of *regular wage/salaried workers* was 45.7 per cent among male workers and 52.1 per cent among female workers. In rural areas, share of casual labours was 28.2 per cent among male workers and 31.8 per cent among female workers. In urban areas on the other hand, share of *casual labours* was nearly 15.1 per cent among male workers and 13.1 per cent among female workers. It is seen that in rural areas, the share of *helper in household enterprises* was nearly 17 per cent among male self-employed workers and 67 per cent among female self-employed workers while in urban areas, the share of *helper in household enterprises* was nearly 11 per cent among male *self-employed* workers and 32 per cent among female *self-employed* workers.

Statement 14: Percentage distribution of workers in usual status (ps+ss) by status in employment during 2017-18 (PLFS)

all-India						
category of persons	category of employment					
	self-employment			regular wage/salary	casual labour	all
	own account worker and employer	helper in household enterprise	all self employed

person	38.6	13.6	52.2	22.8	24.9	100.0

3.3.6.3 Detailed Table in Appendix A: Percentage distribution of workers in usual status (ps+ss) by broad status in employment for each State/UT is given in Table 19.

3.3.6.4 Changes in the status in employment among workers in usual status (ps+ss) between 1983 and 2017-18 in rural areas: In Statement 15, distribution of workers in different statuses in employment obtained from the quinquennial employment and unemployment surveys of NSSO conducted between 1983 (NSS 38th round) and 2011-12 (68th round) and PLFS (2017-18) is presented. It is seen that in rural areas, during 2017-18 compared to 2011-12, the share of *self-employed* persons has increased by 3 percentage points among male workers while it decreased by nearly 2 percentage points for female workers. The share of *regular wage/salaried employees* in rural areas increased by nearly 4 percentage points among male workers and 5 percentage points among female workers during this period. The share of *casual labour* has decreased during this period among both male and female workers in rural areas by nearly 7 percentage points and 3 percentage points respectively. The percentage shares of workers in usual status (ps+ss) in different statuses in employment in rural areas are given in Figures 9 to 11.

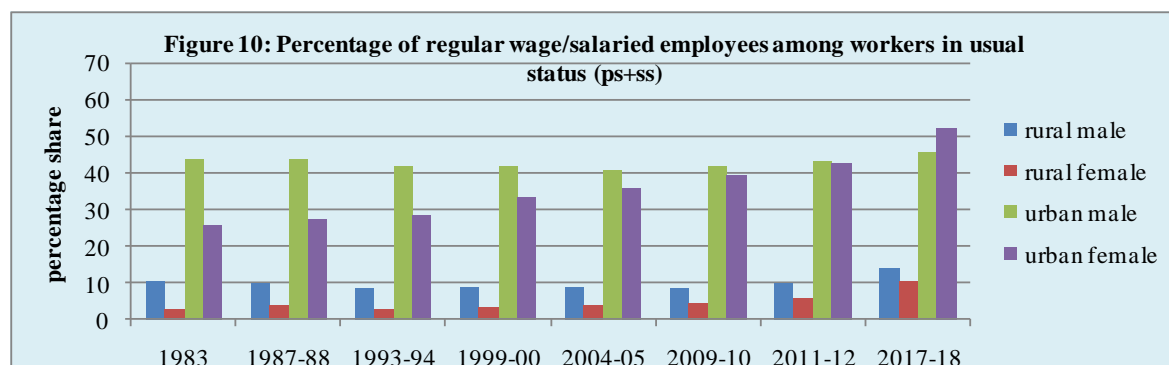

3.3.6.5 Changes in the status in employment among workers in usual status (ps+ss) between 1983 and 2017-18 in urban areas: From Statement 15 it is seen that in urban areas, among male workers, the share of self-employed persons decreased by nearly 3 percentage points for males and 8 percentage points for females during 2017-18 compared to 2011-12. The share of regular wage/salaried employees increased by 2 percentage points among male workers and 9 percentage points among female workers during this period. The share of casual labour remained at the same level among urban male workers and decreased by nearly 1 percentage points among female workers during 2017-18 compared to 2011-12.

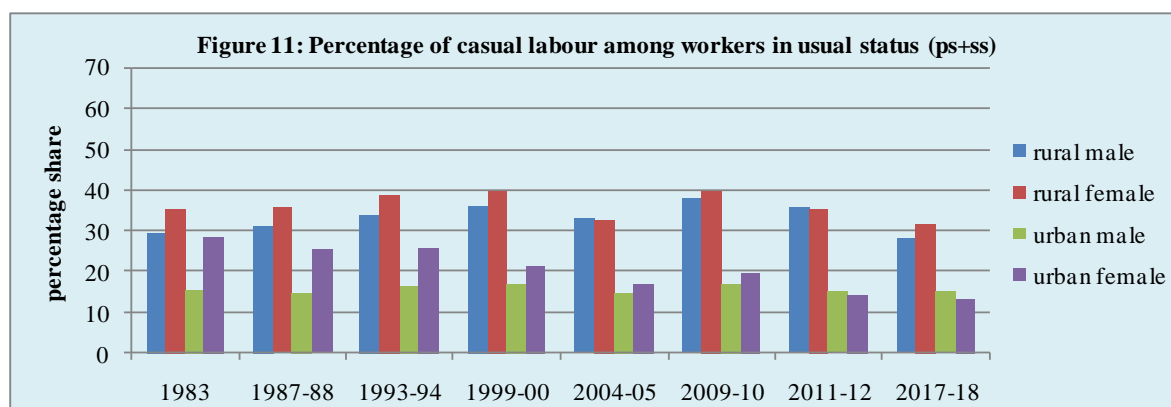

Statement 15: Percentage distribution of workers in usual status (ps+ss) by statuses in employment during NSS 38th round (1983) to 68th round (2011-12) and PLFS (2017-18)

all-India

NSS round (survey period)	male			female

Note: The figures are to be read along with the explanatory note for comparability.

3.3.7 Industrial distribution of workers in usual status (ps+ss)

3.3.7.1 In Statement 16, distribution of workers in usual status (ps+ss) is presented by broad industry division as obtained from the quinquennial employment and unemployment surveys of NSSO conducted between 1977-78 (32nd round) and 2011-12 (68th round) and the 2017-18 (PLFS). For classification of industry, National Industrial Classification (NIC) 2008 was used in PLFS (2017-18) and NSS 68th round. NIC 2004 was used in 66th round, NIC 1998 in 61st and 55th rounds, NIC 1987 in 50th round and NIC 1970 was used in NSS 43rd, 38th and 32nd rounds. It may be noted that the changes in the activity classification across rounds at one digit level of industry is nominal and thus, comparison can fairly be made over the rounds at the one digit level of industry. This fact may be taken into account in measuring the changes of workforce at one digit level of industry over rounds.

3.3.7.2 Rural areas: The Statement shows that, during 2017-18, in rural areas, about 55 per cent of the male workers in usual status (ps+ss) and 73.2 per cent of the female workers in usual status (ps+ss) were engaged in the agricultural sector. The proportion of rural male workers engaged in the agricultural activities gradually fell from 80.6 per cent in 1977-78 to 66.5 per cent in 2004-05, and then to 59.4 per cent in 2011-12, which further decreased to 55 per cent during 2017-18. Among female workers in usual status (ps+ss), the proportion engaged in the agricultural activities decreased from 88.1 per cent in 1977-78 to 83.3 per cent in 2004-05, and then to 74.9 per cent in 2011-12 which further decreased to 73.2 per cent in 2017-18. In rural India, over the years, there has been considerable increase in the proportion of male and female workers engaged in 'construction' – from 1.7 per cent in 1977-78 to 14.5 per cent in 2017-18 for males and from 0.6 per cent in 1977-78 to 5.3 per cent in 2017-18 for females. The proportions of male and female workers in rural areas engaged in 'manufacturing' sector were 7.7 per cent and 8.1 per cent respectively. Over the period from 1977-78 to 2017-18, share of rural male workers increased in 'trade, hotel and restaurant', 'transport, storage and communications', 'manufacturing' and 'other services' sectors and share of rural female workers increased in 'manufacturing', 'other services' and 'trade, hotel and restaurant' sectors.

Statement 16: Percentage distribution of workers in usual status (ps+ss) by broad industry division during 1977-78 (NSS 32nd round) to 2017-18 (PLFS)

		all-India

all	x	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0

Note: 1. As per NIC - 2008 which was used in the current survey for recording industry of work for the employed persons, the different industry sections comprised the broad industry divisions mentioned in column 1 are as follows: **agriculture** - section A; **mining & quarrying** - section B; **manufacturing** - section C; **electricity, water, etc.** - sections D & E; **construction** - section F; **trade, hotel & restaurant** - sections G & I; **transport, storage & communications** - sections H & J; **other services** - sections K to U.

2. The figures are to be read along with the explanatory note for comparability.

3.3.7.3 Urban areas: In urban India, during 2017-18, among male workers in usual status (ps+ss), the industry sector, 'trade, hotel and restaurant' sector engaged about 24.5 per cent while 'manufacturing' and 'other services' sectors accounted for about 22.4 per cent and 21.5 per cent, respectively, of total workers in usual status (ps+ss). During, 2017-18, industry sectors 'transport, storage and communications', 'construction' and 'agriculture'

sectors provided employment to about 12.7 per cent, 11.7 per cent and 5.4 per cent of urban male workers in usual status (ps+ss). Among female workers in urban areas in 2017-18, 'other services' sector registered the highest proportion of workers (44.4 per cent), followed by 'manufacturing' (25.2 per cent), 'trade, hotel and restaurant' (13 per cent) and 'agriculture' (9.1 per cent). Between 1977-78 and 2011-12, proportions of urban males and females employed in agricultural sector decreased by about 5 percentage points and 23 percentage points, respectively. During this period, proportions of urban males employed in 'construction' and 'trade, hotel and restaurant' sectors increased by about 8 percentage points and 3 percentage points, respectively while the share of the 'manufacturing' sector decreased by about 5 percentage points. During the period from 1977-78 to 2011-12, proportions of urban female workers in usual status (ps+ss) engaged in 'construction', 'trade, hotel and restaurant', 'transport, storage & communications' and 'other services' sectors increased by about 2 percentage points, 4 percentage points, 2 percentage points and 18 percentage points, respectively.

3.3.7.4 Detailed Table in Appendix A: Percentage distribution of usually working persons (ps+ss) by industry of work (4-digit code / division / section as per NIC-2008) at all-India level is given in Table 26. Percentage distribution of usually working persons (ps+ss) by industry sections of NIC-2008 for each State/ UT is given in Table 27.

3.3.8 Distribution of usual status (ps+ss) workers by Occupation Division of NCO-2004

3.3.8.1 In PLFS, information on the type of occupation in which the workers in usual status (ps+ss) were engaged was collected at the 3-digit level of National Classification of Occupation (NCO-2004). In Statement 17 percentage distribution of workers in usual status (ps+ss) by broad occupation divisions during 2011-12 and 2017-18 are presented. It is seen from the Statement that in rural areas, among the *usual status (ps+ss)* workers, the occupation divisions 6 (skilled agricultural and fishery workers), 7 (craft and related trades workers) and 9 (elementary occupations) shared higher percentage of workers: about 77 percent of males and 86.3 per cent of the females were engaged in these three occupation divisions. In urban areas, these three occupation divisions shared 37.8 per cent of the male workers and 43.5 per cent of the female workers. The share of the workers in division 1 (*legislators, senior officials and managers*), division 2 (*professionals*) and division 3 (*technicians and associate professionals*), increased from 7.9 per cent to 9.1 per cent for rural males, from 5 per cent to 8.7 per cent for rural females, decreased from 31.1 per cent to 30.4 per cent for urban males and increased from 31.9 per cent to 34.6 per cent for urban females.

3.3.8.2 Detailed Table in Appendix A: Percentage distribution of workers by occupation sub-division /division at all-India level is given in Table 25.

Statement 17: Percentage distribution of workers in usual status (ps+ss) by broad occupation division of NCO 2004 during 2011-12 and 2017-18

Note 1: The occupation divisions of NCO-2004 are: **Division 1:** Legislators, senior officials and managers, **Division 2:** Professionals, **Division 3:** Technicians and associate professionals, **Division 4:** Clerks, **Division 5:** Service workers and shop & market sales workers, **Division 6:** Skilled agricultural and fishery workers, **Division 7:** Craft and related trades workers, **Division 8:** Plant and machine operators and assemblers, **Division 9:** Elementary occupations and **Division X:** Workers not classified by occupations.

2. The figures are to be read along with the explanatory note for comparability.

3.4 Section Four: Employment in informal sector and conditions of employment

3.4.1 Informal sector enterprises:

3.4.1.0 According to the 15th ICLS conceptual framework (Chapter 2, Annexure III), unincorporated enterprises owned by households, (i.e., *proprietary* and *partnership* enterprises including the informal producers' cooperatives) are largely considered as *informal sector* enterprises.

3.4.1.1 In the survey, for persons usually employed in non-agriculture and AGE GC sectors, information was collected regarding the types of enterprises in which they worked. The industry groups/ divisions 014, 016, 017, 02 and 03 in the [AG]ricultural sector [E]xcluding [G]rowing of [C]rops, plant propagation, combined production of crops and animals without a specialized production of crops or animals are referred to as AGE GC sector in this Report. Information on 'type of enterprise' was recorded in terms of twelve categories viz. (i) *proprietary male*, (ii) *proprietary female*, (iii) *partnership with members from same household*, (iv) *partnership with members from different households*, (v) *Government/local body*, (vi) *Public Sector Enterprises* (vii) *Autonomous Bodies*, (viii) *Public/Private limited company*, (ix) *Co-operative societies*, (x) *trust/other non-profit institutions*, (xi) *employer's households (i.e., private households employing maid servant, watchman, cook, etc.)* and (xii) *others*. In PLFS, 'co-operative societies' was specified as separate categories for collecting information in respect of 'type of enterprise' but no distinction was made about whether these were formal or informal. As informal producers' cooperatives could not be identified separately, workers engaged in enterprise type 'co-operative societies' have been excluded from the coverage of *informal sector*. For

collecting information on type of enterprise in which the employed persons worked, one category was also specified as ‘*employer’s households*’ which comprised private households employing persons for producing goods and services for household consumption. As per the conceptual framework of 15th ICLS, the enterprise type ‘*employer’s households*’ is not covered in the *informal sector*, although jobs in this type of enterprise could be informal or formal. In this report, workers engaged in the enterprise type ‘*employer’s households*’ have been excluded from the coverage of workers in the *informal sector*. Considering these aspects, for the purpose of the report, only *proprietary* and *partnership* enterprises have been considered as *informal sector* enterprises. For discussion in this Report, unless otherwise mentioned, *informal sector* enterprises will mean *proprietary* and *partnership* type enterprises within the non-agriculture and AGE GC sectors.

3.4.1.2 Changes in the share of informal sector in the employment of non-agriculture and AGE GC sectors between 2004-05 to 2017-18: In Statement 18, percentage of workers in usual status (ps+ss) in non-agriculture and AGE GC sectors engaged in *informal sector* is presented as obtained from the quinquennial employment and unemployment surveys of NSSO conducted during 2004-05 (61st round), 2009-10 (66th round) and 2011-12 (68th round) and in 2017-18 (PLFS). Statement 18 shows that the proportion of workers in usual status (ps+ss) in *informal sector* declined considerably between 2004-05 and 2011-12 as well as 2011-12 and 2017-18. During 2017-18, in India, about 68.4 per cent of the workers in usual status (ps+ss) in the non-agriculture and AGE GC sectors were engaged in *informal sector*. The share of informal sector among male workers during 2017-18 was 71.1 per cent and among female workers was nearly 54.8 per cent in *non-agriculture* and *AGE GC sectors*. In India, nearly 77.5 per cent of the workers in usual status (ps+ss) in *non-agriculture* and *AGE GC sectors* were employed in the *informal sector* in 2004-05, while the proportion was about 72.4 per cent in 2011-12. Between 2004-05 and 2011-12, the overall decline in the share of employment in the *informal sector* was about 5 percentage points while between 2011-12 and 2017-18, the share of the informal sector declined by 4 percentage points. Between 2004-05 and 2011-12 the share of the informal sector declined by nearly 3 percentage points among rural male workers and 14 percentage points among rural female workers, while between 2011-12 and 2017-18, the share of informal sector declined by 2 percentage points for rural male workers and 13 percentage points for rural female workers. Between 2004-05 and 2011-12 the share of the informal sector declined by nearly 4 percentage points among urban male workers and 2 percentage points among urban female workers, while between 2011-12 and 2017-18, the share of informal sector declined by 3 percentage points for urban male workers and 13 percentage points for urban female workers.

3.4.1.3 Detailed Table in Appendix A: Percentage distribution of usually working (ps+ss) persons engaged in the industry groups/ divisions 014, 016, 017, 02, 03 or 05-99 (i.e., non-agriculture and AGE GC sectors) by enterprise type for each State/ UT is given in Table 39.

Statement 18: Percentage of workers engaged in <i>proprietary</i> and <i>partnership</i> (P & P) enterprises among workers (ps+ss) engaged in non-agriculture and AGEGC sectors during 2004-05 (61 st round), 2009-10 (66 th round), 2011-12 (68 th round) and 2017-18 (PLFS)				
category of workers	61 st round (2004-05)	66 th round (2009-10)	68 th round (2011-12)	all-India PLFS (2017-18)

person	77.5	71.1	72.4	68.4

Note 1: AGEGC and non-agriculture sectors: Industry groups/ divisions 014, 016, 017, 02-99 of NIC-2008.

2.: The figures are to be read along with the explanatory note for comparability.

3.4.2 Conditions of Employment

3.4.2.1 In order to get an idea about the volume of informal employment in the country, information on different conditions of employment of the employees (i.e., regular wage/salaried employees and casual labours) in the usual status was collected among those engaged in non-agriculture and AGEGC sectors. In this survey, information on the following conditions of employment was collected: *whether there was any written job contract in the employment, whether employees were eligible for the paid leave and whether employees were covered under social security benefits*. In this section, estimates of *regular wage/ salaried employees* in usual status (ps+ss) engaged in non-agriculture sector in various conditions of employment are discussed.

3.4.2.2 Regular wage/salaried employees in usual status (ps+ss) engaged in non-agricultural sector who had no written job contract: Information was collected in this survey on whether the employees have any written contract or agreement with the employer regarding the duration of the job they were engaged in. In Statement 19 percentage of *regular wage/salaried employees* in *non-agricultural sector* who had no written job contract is presented. Information on *type of job contract* was recorded in terms of four categories viz. (i) *no written job contract*, (ii) *written job contract for 1 year or less*, (iii) *written job contract for more than 1 year to 3 years* and (iv) *written job contract for more than 3 years*. In India, during 2017-18, among regular wage/salaried employees in the non-agriculture sector, 71.1 per cent had no written job contract: 72.3 per cent among males and 66.8 per cent among females. It is seen from Statement 19 that in rural areas, proportion of *regular wage/salaried employees* without written job contract was 71.7 per cent among male regular wage/salaried employees and 58.5 per cent among female regular wage/salaried employees. In urban areas, among male regular

wage/salaried employees, 72.7 per cent had no written job contract and among female regular wage/salaried employees, 71.4 per cent had no written job contract. Among rural males, proportion of regular wage/salaried employees without written job contract increased by 6 percentage points (from 59.4 per cent to 65.4 per cent) during 2004-05 and 2011-12 which further increased by 6 percentage points during 2011-12 and 2017-18, while among rural females, proportion of regular wage/salaried employees without written job contract increased by 5 percentage points (from 56.8 per cent to 61.9 per cent) during 2004-05 and 2011-12 and it decreased by 3 percentage points during 2011-12 and 2017-18. Among urban males, proportion of regular wage/salaried employees without job contract increased by 6 percentage points (from 58.6 per cent to 64.4 per cent) during 2004-05 and 2011-12 which further increased by 8 percentage points during 2011-12 and 2017-18, while among urban females, proportion of regular wage/salaried employees without job contract increased by 5 percentage points (from 61.2 per cent to 65.9 per cent) during 2004-05 and 2011-12 and it increased by 6 percentage points during 2011-12 and 2017-18. The percentage of regular wage/salaried employees in usual status (ps+ss) engaged in non-agriculture sector who had no written job contract is given in Figure 12.

Statement 19: Percentage of regular wage/salaried employees who had no written job contract among regular wage/salaried employees in usual status (ps+ss) in non-agriculture sector during NSS 61st (2004-05), 66th (2009-10), 68th (2011-12) rounds and PLFS (2017-18)

NSS round (survey period)	all-India

Note: The figures are to be read along with the explanatory note for comparability.

3.4.2.3 Detailed Table in Appendix A: Percentage of regular wage/ salaried employees in usual status (ps+ss) in non-agriculture sector *without written job contract, not eligible for paid leave and, without any social security benefit* for each State/ UT is given in Table 40.

3.4.2.4 Regular wage/salaried employees in usual status (ps+ss) engaged in non-agricultural sector who were not eligible for paid leave: Information was collected in this survey on whether the employees were eligible for paid leave. In Statement 20 percentage of regular wage/salaried employees in usual status (ps+ss) in *non-agricultural sector* who were not eligible for paid leave is presented. In India, during 2017-18, among regular wage/salaried employees in the *non-agriculture sector*, 54.2 per cent were not eligible for paid leave: 55.2 per cent among males and 50.4 per cent among females. It is seen from Statement 20 that during 2017-18, in rural areas, proportion of *regular wage/salaried employees* who were not eligible for paid leave was 58.1 per cent among male regular wage/salaried employees and 47.9 per cent among female regular wage/salaried employees. In urban areas during 2017-18, among male regular wage/salaried employees, 53.1 per cent were not eligible for paid leave and among female regular wage/salaried employees, 51.8 per cent were not eligible for paid leave. Among rural males, proportion of regular wage/salaried employees who were not eligible for paid leave increased by 4 percentage points (from 47.3 per cent to 51.7 per cent) during 2004-05 and 2011-12 which further increased by 6 percentage points during 2011-12 and 2017-18 while among rural females, proportion of regular wage/salaried employees who were not eligible for paid leave remained almost at the same level between 2004-05 and 2017-18. Among urban males, proportion of regular wage/salaried employees who were not eligible for paid leave increased by 5 percentage points (from 44.8 per cent to 49.5 per cent) during 2004-05 and 2011-12 which further increased by 4 percentage points during 2011-12 and 2017-18 while among urban females, proportion of regular wage/salaried employees who were not eligible for paid leave increased by 1 percentage point (from 48 per cent to 49.1 per cent) during 2004-05 and 2011-12 and it increased by 3 percentage points between 2011-12 and 2017-18. The percentage of regular wage/salaried employees in usual status (ps+ss) engaged in non-agriculture sector who were not eligible for paid leave is given in Figure 13.

Statement 20: Percentage of regular wage/salaried employees not eligible for paid leave among regular wage/salaried employees in usual status (ps+ss) in non-agriculture sector during NSS 61 st (2004-05), 66 th (2009-10), 68 th (2011-12) rounds and PLFS (2017-18)

3.4.2.5 Regular wage/salaried employees in usual status (ps+ss) engaged in non-agricultural sector who were not eligible for any social security benefit: Information was collected in this survey on whether the employees were eligible for any social security benefit. In Statement 21, percentage of *regular wage/salaried employees* in non-agricultural sector who were not eligible for any social security benefit is presented. In India, during 2017-18, among regular wage/salaried employees in the *non-agriculture sector*, 49.6 per cent were not eligible for any social security benefit: 49 per cent among males and 51.8 per cent among females. It is seen from Statement 21 that in rural areas, proportion of regular wage/salaried employees who were not eligible for any social security benefit was 51.9 per cent among male regular wage/salaried employees and 55.1 per cent among female regular wage/salaried employees. In urban areas, among male regular wage/salaried employees, 47 per cent were not eligible for any social security benefit and among female regular wage/salaried employees, 50.1 per cent were not eligible for any social security benefit. Among rural males, proportion of regular wage/salaried employees who were not eligible for any social security benefit increased by 1 percentage points (from 55.5 per cent to 56.8 per cent) during 2004-05 and 2011-12 which decreased by 5 percentage points during 2011-12 and 2017-18 while among rural females, proportion of regular wage/salaried employees who were not eligible for any social security benefit increased by 3 percentage points (from 60.8 per cent to 63.4 per cent) during 2004-05 and 2011-12 and it decreased by 8 percentage points between 2011-12 and 2017-18. Among urban males, the proportion of regular wage/salaried employees who were not eligible for any social security benefit increased by 2 percentage points (from 51.9 per cent to 53.5 per cent) during 2004-05 and 2011-12 which decreased by 7 percentage points during 2011-12 and 2017-18 while among urban females, proportion of regular wage/salaried employees who were not eligible for any social security benefit decreased by 3 percentage points (from 59.6 per cent to 56.2 per cent) during 2004-05 and 2011-12 and it decreased by 6 percentage points during 2011-12 and 2017-18. The percentage of regular wage/salaried employees in usual status (ps+ss) engaged in non-agriculture sector who were not eligible for social security benefits is given in Figure 14.

Statement 21: Percentage of regular wage/salaried employees not eligible for any social security benefit* among regular wage/salaried employees in usual status (ps+ss) in non-agriculture sector during NSS 61st (2004-05), 66th (2009-10), 68th (2011-12) rounds and PLFS (2017-18)

3.5 Section Five: Earnings from employment

3.5.0 In PLFS information on earnings from employment was collected for all the three categories of workers, viz., *self-employed persons*, *regular wage/salaried employees* and *casual labour*. For self-employed persons information on earnings was collected for the last 30 days, for regular wage/salaried persons information on earnings was collected for preceding calendar month and for casual labour information on earnings was collected for each day of the reference week. The estimates in this section are derived on the basis of data collected in the first visit schedules in the rural areas (since there was no revisit in rural areas) and for the urban areas on the basis of data collected in the schedules of first visit and the corresponding revisits conducted during the four quarters of the survey period, viz., during July 2017 – September 2017, October – December 2017, January-March 2018 and April- June 2018.

3.5.1 Earnings by regular wage/salaried employees in current weekly status during the preceding calendar month

3.5.1.1 Statement 22 presents, average wage/ salary earnings during the preceding calendar month received by regular wage/ salaried employees in current weekly status

separately for each of the four quarters of the survey period of PLFS, i.e., during July–September 2017, October – December 2017, January- March 2018 and April- June 2018. In rural areas, among regular wage/salaried employees, earnings during the preceding calendar month ranged from Rs. 13 thousand to Rs. 14 thousand among males and it ranged from Rs. 8.5 thousand to Rs. 10 thousand among females during the four quarters of the survey period. In urban areas, among wage/salaried employees, earnings during the last calendar month ranged from Rs. 17 thousand Rs. 18 thousand among males and Rs. 14 thousand to Rs. 15 thousand among females during the four quarters of the survey period. In both rural and urban areas, earnings of male regular wage/salaried employees was higher than female regular wage/salaried persons. In rural area, a male regular wage/salaried employee earned nearly 1.4 to 1.7 times the earnings of a female regular wage/salaried employee while in urban area, a male regular wage/salaried persons earned nearly 1.2 to 1.3 times the earnings of a female regular wage/salaried employee during the four quarters of the survey period.

3.5.1.2 Detailed Table in Appendix A: Average wage/salary earnings during the preceding calendar month from the regular wage/salaried employment among the regular wage salaried employees in CWS for each State/ UT are given in Table 42.

Statement 22: Average wage/ salary earnings (in Rs) during the preceding calendar month by the regular wage/ salaried employees in current weekly status during the survey period 2017-18

October- December 2017	13005	8534	12133	18014	15078	17359
January – March 2018	14445	8549	13351	18277	14779	17483
April- June 2018	14024	9895	13207	18353	14487	17473

3.5.2 Average wage earnings by casual labour engaged in work other than public works per day

3.5.2.1 In PLFS, wage earnings by casual labour was recorded for each of the day of the reference week (last 7 days preceding the date of the survey) when the household member had worked as casual labour. Statement 23 presents the average wage earnings per day by casual labour engaged in works other than public works in each of the four quarters during the survey period. It is seen that in rural areas, average wage earnings per day by casual labour engaged in works other than public works ranged between Rs. 253 to Rs. 282 among males and it ranged from Rs. 166 to Rs. 179 among females during the four quarters of the survey period. In urban areas, average wage earnings per day by casual labour engaged in works other than public works ranged between Rs. 314 to Rs. 335 among males and nearly Rs. 186 to Rs. 201 among females during the four quarters of the survey period. During the four quarters of the survey period, in rural areas, a male casual labour engaged in works other than public works earned per day, nearly 1.5 to 1.6 times

the earnings of a female casual labour engaged in works other than public works while in urban areas, a male casual labour engaged in works other than public works earned per day, nearly 1.6 to 1.7 times the earnings of a female casual labour engaged in works other than public works.

3.5.2.2 Detailed Table in Appendix A: Average wage earnings per day from casual labour work other than public works in CWS for each State/ UT are given in Table 43.

January – March 2018	152	134	143
April- June 2018	138	119	129

3.5.3.1 Statement 24 presents, average wage earnings per day by casual labour in rural areas engaged in public works in each of the four quarters during the survey period. It may be noted that in PLFS information on public works was collected for both MGNREG public works and public works other than MGNREG public works. The results are presented for rural areas only. It is seen that in rural areas, average wage earnings per day by casual labour engaged in MGNREG public works ranged from Rs. 141 to Rs. 171 among males and nearly Rs. 131 to Rs. 165 among females during the four quarters of the

survey period. On the other hand, a male casual labour engaged public works other than MGNREG public works earned nearly Rs. 138 to Rs. 158 per day while a female casual labour engaged in public works other than MGNREG public works earned nearly Rs. 119 to Rs. 144 per day during this period.

3.5.3.2 Detailed Tables in Appendix A: Average wage earnings per day from casual labour work in public works for each State/ UT are given in Table 44.

3.5.4 Average gross earnings from self-employment work during last 30 days by the self-employed persons in current weekly status

3.5.4.1 In PLFS, information on gross earnings from self-employment work was collected through a single-shot question from the self-employed persons in current weekly status. In Statement 25, average gross earnings during the last 30 days from the self-employment work by the self-employed persons in the current weekly status are presented. It may be noted that average gross earnings have been calculated by excluding those self-employed persons who had reported zero gross earnings. In rural areas, average gross earnings during the last 30 days from the self-employment work by the self-employed workers in current weekly status ranged between Rs. 8500 to Rs. 9700 among males and nearly Rs. 3900 to Rs. 4300 among females during the four quarters of the survey period. In urban areas, average gross earnings from self-employment work during the last 30 days was around Rs. 16 thousand among males and it ranged between Rs. 6500 to Rs. 7500 among females during the four quarters of the survey period.

3.5.4.2 Detailed Table in Appendix A: Average gross earnings (Rs. 0.00) during last 30 days from self-employment among self-employed persons in CWS for each State/ UT are given in Table 45.

3.6 Section Six: Hours worked

3.6.1 In PLFS information on hours worked during each day of the reference week was recorded when the household member was engaged in economic activity and for each of such days information was also collected on whether the household member was available for additional work. In this section, estimates are presented on hours actually worked and availability for additional hours of work in respect of those who were engaged in economic activity during the reference week. The estimates in this section are derived on the basis of data collected in the first visit schedules in the rural areas (since there was no

revisit in rural areas) and for the urban areas on the basis of data collected in the schedules of first visit and revisit conducted during the four quarters of the survey period, viz., during July 2017 – September 2017, October – December 2017, January- March 2018 and April- June 2018.

3.6.2 Average hours actually worked

3.6.2.1 In Statement 26, average number of hours actually worked considering all the economic activities in a week are presented for different statuses in employment in current weekly status.

Statement 26: Average number of hours actually worked in a week by workers in different statuses in employment during the four quarters of the survey period 2017-18 (PLFS)						
status in employment	rural			urban

all	49.8	39.1	47.6	57.4	47.6	55.5

3.6.2.2 Statement 26 shows that in rural areas, in a week, a worker in CWS actually worked nearly 48 hours during the four quarters of the survey period and in urban areas they worked for 56 hours, in a week, during this period. It is seen that during the four quarters of the survey period, in rural areas, the male self-employed persons in current weekly status actually worked nearly 50 to 51 hours in a week and female self-employed persons actually worked nearly to 37 to 40 hours, while in urban areas, male self-employed persons actually worked nearly 58 to 59 hours in a week and female self-employed persons actually worked nearly to 41 to 42 hours, in a week, during the four quarters of the survey period. In rural areas male regular wage/salaried employees in current weekly status worked nearly 57 to 58 hours, in a week, and female regular

wage/salaried employees worked nearly 50 hours in a week, while in urban areas, male regular wage/salaried employees worked nearly 60 hours in a week and female regular wage/salaried employees worked nearly 53 hours, in a week. Among all the categories of workers, casual labour in current weekly status generally worked the least number of hours in the week: average hours actually worked ranged from 44 to 46 hours by rural male casual labour, 37 to 39 hours by rural female casual labour, 45 to 49 hours by urban male casual labour and 39 to 42 hours by urban female casual labour.

3.6.2.3 Detailed Table in Appendix A: Average number of hours actually worked per week considering all the economic activities performed during the week for workers in CWS for each State/ UT is given in Table 46.

3.6.3 Percentage distribution of workers in CWS by hours actually worked

3.6.3.1 In Statement 27, percentage distribution of workers in current weekly status by different ranges of hours actually worked during the week is presented. It is seen that majority of rural male and urban male worker in CWS had worked in the range of 48 to 60 hours during the week: the share ranged from 48 to 50 per cent among rural male workers and 50 to 51 per cent among urban male workers during the four quarters of the survey period. Among female workers, on the other hand, a lower percentage of workers compared to male workers had worked for 48 to 60 hours during the week: the share ranged from 27 per cent to 33 per cent among rural female workers in CWS and among urban female workers, the share ranged from 45 per cent to 46 per cent during the four quarters of the survey period.

3.6.3.2 Detailed Table in Appendix A: Percentage distribution of workers in CWS by number of hours actually worked in a week for each State/ UT is given in Table 48.

3.6.4 Hours available for additional work in rural areas

3.6.4.1 In Statement 28, percentage of workers in current weekly status who reported that they were available for additional work during the week is presented along with average hours available for additional work in rural areas. During July – September 2017, nearly 10.7 per cent of the workers in CWS reported that they were available for additional work: 10.9 per cent of the male workers and 10.1 per cent of the female workers reported that they were available for additional work. It is seen that in rural areas, during July – September 2017, nearly 11.9 per cent of the male self-employed persons in the current weekly status and 11.6 per cent of the female self-employed persons reported that they were available for additional work during the reference week. Compared to self-employed persons in current weekly status, generally a lower percentage of regular wage/salaried employees and casual labours during July –September 2017 reported that they were available for additional work: nearly 8.7 per cent of the male regular wage/salaried employees, 9.4 per cent of the female regular wage/salaried employees, 9.7 per cent of the male casual labours and 8 per cent of the female casual labours reported that they were available for additional work during the reference week. It is observed that the percentage of different categories of workers among both males and females, who reported that they were available for additional work decreased over the period from July – September 2017 to April- June 2018 and during April – June 2018, nearly 4.6 per cent of the workers in CWS reported that they were available for additional work. During April- June 2018, nearly 4.8 per cent of the male workers and 3.9 per cent of the female workers in CWS reported that they were available for additional work. The hours available for additional work in rural areas in current weekly status during the week ranged on an average from 11 to 13 hours during July 2017- June 2018.

Statement 28: Percentage of workers in current weekly status available for additional work and average number of hours of available for additional work for workers in different statuses in employment during the four quarters of the survey period 2017-18 (PLFS)

3.6.4.2 Detailed Table in Appendix A: Average number of hours available for additional work in a week for persons with different broad activity status in employment in CWS at all-India level is given in Table 47.

3.6.5 Hours available for additional work in urban areas

3.6.5.1 In Statement 29, percentage of workers in current weekly status who reported that they were available for additional work during the week is presented along with average hours available for additional work in urban areas. During July – September 2017, nearly 9 per cent of the workers in CWS reported that they were available for additional work: nearly 8.9 per cent of the male workers and 9.6 per cent of the female workers reported that they were available for additional work. It is seen that in urban areas, during July – September 2017, nearly 9.4 per cent of the male self-employed persons in the current weekly status and 12.3 per cent of the female self-employed persons reported that they were available for additional work during the reference week. Compared to self-employed persons in current weekly status, a lower percentage of regular wage/salaried employees during July – September 2017 reported that they were available for additional work: nearly 7.8 per cent

of the male regular wage/salaried employees and 7.7 per cent of the female regular wage/salaried employees reported that they were available for additional work during the reference week. It is observed that the percentage of different categories of workers among both males and females, who reported that they were available for additional work decreased over the period from July – September 2017 to April- June 2018 and during April – June 2018, nearly 3.1 per cent of the workers in CWS reported availability of additional work. During April- June 2018, nearly 2.7 per cent of the male workers and 5 per cent of the female workers reported that they were available for additional work. The hours available for additional work in urban areas in current weekly status during the week ranged on an average from 10 to 14 hours during four quarters of the survey period.

Statement 29: Percentage of workers in current weekly status available for additional work and average number of hours available for additional work for workers in different statuses in employment during the four quarters of the survey period 2017-18 (PLFS)

3.7 Section Seven: Unemployment

3.7.0 As in the case of employed, for unemployed, estimates are obtained in the following approaches:

- (i) number of persons unemployed in the *usual status (ps+ss)*. This is based on usual status considering principal and subsidiary statuses together and is called unemployed in *usual status (ps+ss)* or *usual status (adjusted)*.
- (ii) number of persons unemployed in the *current weekly status*.

The estimates based on usual status considering principal and subsidiary statuses together is called as unemployed in *usual status (ps+ss)*. The estimate of unemployed in *current weekly status* gives an average picture of unemployment in a short period of 7 days during the survey period. According to the *current weekly status* approach, a person was considered as unemployed in a week if he/she did not work even for 1 hour during the week but sought or was available for work at least for 1 hour during the week.

3.7.1 Unemployment Rates

3.7.1.1 *Unemployment rate (UR)* is defined as the percentage of unemployed persons in the *labour force*. This gives the unutilised portion of the labour force.

3.7.1.2 *Unemployment rates during 2017-2018*: Statement 30 presents the unemployment rates (UR) according to usual status (ps+ss) and current weekly status (CWS) as obtained

Statement 30: Unemployment rates (in percent) according to usual status (ps+ss) and current weekly status (CWS) during 2017 – 2018 (PLFS)			
status	male	female	all-India person
(1)	(2)	(3)	(4)
rural			
usual status (ps+ss)	5.8 (3.2)	3.8 (0.7)	5.3 (2.0)
CWS	8.8 (4.8)	7.7 (1.2)	8.5 (3.1)
urban			
usual status (ps+ss)	7.1 (4.0)	10.8 (1.7)	7.8 (2.9)
CWS	8.8 (5.0)	12.8 (2.0)	9.6 (3.5)
rural+urban			
usual status (ps+ss)	6.2 (3.4)	5.7 (1.0)	6.1 (2.2)
CWS	8.8 (4.8)	9.1 (1.4)	8.9 (3.2)

Note: Figures within bracket indicate the percentage of unemployed in the population.

from the PLFS. This Statement also gives the estimates of proportion unemployed (PU) in the population in parentheses. Some of the important points emerging from this statement are:

(i) the unemployment rates in urban areas are higher than those in rural areas in both usual status (ps+ss) and CWS except for males in urban areas in CWS, which was equal to that of rural areas.

(ii) In urban areas, the unemployment rates for females are higher than those for males in both usual status

(ps+ss) and CWS while in rural areas, the unemployment rates for females were lower than males.

- (iii) In the *usual status* (ps+ss), unemployment rates were 5.8 per cent among males and 3.8 per cent among females in rural areas, while the rates were 7.1 per cent among males and 10.8 per cent among females in urban areas.
- (iv) In CWS, the unemployment rates were 8.8 per cent among males and was 7.7 per cent among females in rural areas while the rates were 8.8 per cent among males and 12.8 per cent among females in urban areas.

3.7.1.3 Detailed Table in Appendix A: Percentage distribution of persons by usual status (ps+ss) for each age-group at all-India level is given in Table 15. Unemployment Rate according to usual status (ps+ss) for each State/UT is given in Table 18. Percentage distribution of persons by current weekly status for each age-group at all-India level is given in Table 33. Unemployment Rate according to current weekly status for each State/UT is given in Table 18.

3.7.1.4 Unemployment rates over NSS rounds: Statement 31 gives the unemployment rates as obtained from the nine quinquennial surveys of NSSO (27th round to 68th round) and PLFS (2017-18). The statement shows that compared to the quinquennial rounds, in 2017-18 the unemployment rates in both usual status (ps+ss) and CWS were higher for both males and females. Among different quinquennial rounds, unemployment rate in usual status (ps+ss) was around 1.2 to 1.8 per cent among rural males and 0.5 to 2.4 per cent among rural females while it was around 2.8 per cent to 5.4 per cent among urban males and 4.9 per cent to 12.4 per cent among urban females. Among different quinquennial rounds, unemployment rates in CWS was around 3 to 4.2 per cent among rural males and 2.9 to 5.5 per cent among rural females while it was around 3.8 per cent to 7.1 per cent among urban males and 6.7 per cent to 10.9 per cent among urban females.

Statement 31: Unemployment rates (in percent) according to usual status (ps+ss) and current weekly status (CWS) from 1972-73 to 2017-18 (PLFS)

27 th (1972-73)	1.2	3.0	0.5	5.5	4.8	6.0	6.0	9.2

Note: The figures are to be read along with the explanatory note for comparability.

3.7.2 Unemployment Rates among the Educated

3.7.2.1 As mentioned earlier, in this report the educated persons are defined as those who have attained the educational level of secondary and above. Normally, one can attain this educational level at the age of 15 years or above. Thus, the study among the educated is restricted to persons of age 15 years and above. In Statement 32, the unemployment rates in usual status (ps+ss) are given for different educational attainments at the all-India level - for the present and for the last three quinquennial surveys.

3.7.2.2 Statement 32 shows the following broad features for the period 2017-18:

- (i) In both rural and urban areas, unemployment rate among the *educated* was higher than that among those whose educational level was lower than *secondary*.
- (ii) In both rural and urban areas, among the *educated*, the unemployment rate was much higher for females than for males.

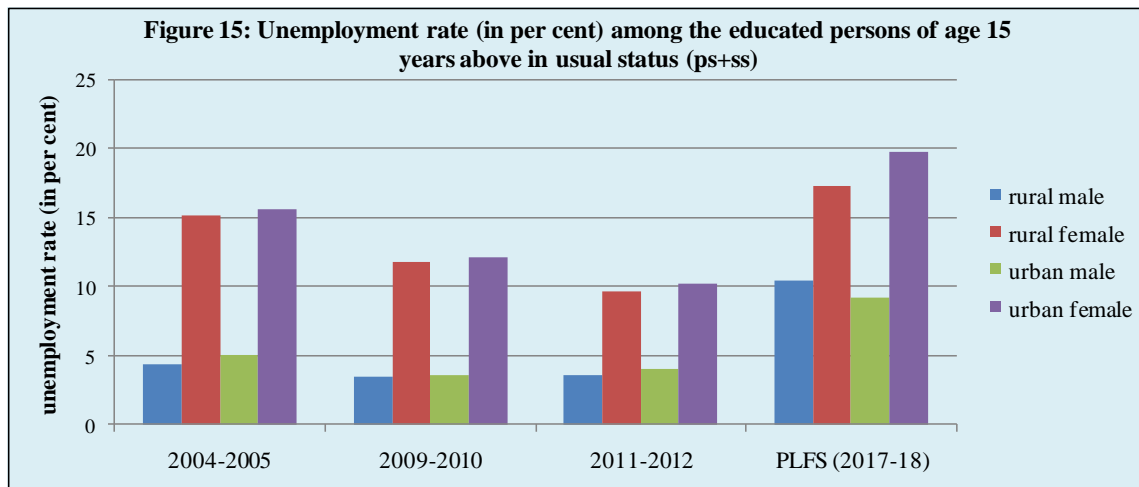

3.7.2.3 Comparison of unemployment rates since 2004-05: It is seen from Statement 32 that for each category of persons of age 15 years and above, the unemployment rates among the *educated* have increased in 2017-18 as compared to that of 2004-05. In rural areas, among males, the unemployment rate in usual status (ps+ss) for *educated* between 2004-05 and 2011-12 ranged from 3.5 to 4.4 per cent which rose to 10.5 per cent during 2017-18. For *educated* rural females, unemployment rate ranged from 9.7 to 15.2 per cent between 2004-05 and 2011-12 which rose to 17.3 per cent in 2017-18. For *educated* males in urban areas, the unemployment rate ranged from 3.6 to 5.1 per cent between 2004-05 and 2011-12 which rose to 9.2 per cent during 2017-18 and among the *educated* females in urban areas, the unemployment rate ranged between 10.3 per cent to 15.6 per cent which rose to 19.8 per cent in 2017-18. The unemployment rates according to usual status (ps+ss) among the educated are presented in Figure 15.

Statement 32: Unemployment rates (in percent) according to usual status (ps+ss) for the persons of age 15 years and above with different educational attainments during NSS 61st (2004-05), 66th (2009-10), 68th (2011-12) rounds and PLFS (2017-18)

Note: The figures are to be read along with the explanatory note for comparability.

3.7.2.4 Detailed Table in Appendix A: Unemployment rate according to usual status (ps+ss) for persons of age 15 years and above of different general education level for each State/UT is given in Table 24.

3.7.3 Unemployment Rates of the Youth

3.7.3.1 In this report, persons aged 15-29 years, are considered as the youth. The youths in India share nearly 27 to 28 per cent of the total population (Statement 4). Statement 33 gives the unemployment rates among the youth at the all-India level in PLFS (2017-18) and the last three quinquennial rounds of NSSO.

3.7.3.2 It is seen that during 2011-12, the unemployment rate among the youth was much higher compared to that in the overall population. It is seen that over the period from 2004-05 to 2011-12, the unemployment rate among the rural male youth ranged between 3.9 to 5 per cent which rose to 17.4 per cent in 2017-18 while the unemployment rate among the rural female youth ranged between 4.2 per cent to 4.8 per cent between 2004-05 and 2011-12 which rose to 13.6 per cent during 2017-18. The unemployment rate among the urban male youth ranged between 7.5 to 8.8 per cent between 2004-05 and 2011-12 which rose to 18.7 per cent in 2017-18 while the unemployment rate for urban female youth ranged between 13.1 per cent to 14.9 per cent during 2004-05 and 2011-12 which rose to 27.2 per cent during 2017-18.

Statement 33: Unemployment rate (in per cent) among the youth (15 to 29 years) in usual status (ps+ss) during NSS 61st (2004-05), 66th (2009-10), 68th (2011-12) rounds and PLFS (2017-18)

category of persons	NSS round (period)				all-India PLFS (2017-18)
	61 st round (2004-2005)	66 th round (2009-2010)	68 th round (2011-2012)		
(1)	(2)	(3)	(4)	(5)	
rural male	3.9	4.7	5.0		17.4
rural female	4.2	4.6	4.8		13.6
urban male	8.8	7.5	8.1		18.7
urban female	14.9	14.3	13.1		27.2

Note: The figures are to be read along with the explanatory note for comparability.

3.7.3.3 Detailed Tables in Appendix A: Unemployment Rate (UR) (in per cent) according to usual status (ps+ss) for persons of age 15-29 years for each State/UT for each State/UT is given in Table 18.

3.8 Section Eight: Technical education, vocational/technical training and number of years in formal education

3.8.1 Technical Education

3.8.1.1 A degree in engineering, medicine, agriculture etc. or a diploma/certificate in agriculture, engineering/technology, medicine, crafts, etc., was included under technical education. The distribution of persons of age 15 years and above by level of attainment of technical education is given in Statement 34 at the all-India level. Statement 34 shows that in India, among the persons of age 15 years and above, 97.3 per cent had no technical education: 98.5 per cent in rural areas and 94.3 per cent in urban areas. In urban areas nearly 92.4 per cent of the males had no technical education while among the females, 96.3 per cent had no technical education.

3.8.1.2 Detailed Tables in Appendix A: Percentage distribution of persons of age 15 years & above by technical educational level at all-India level is given in Table 9.

Statement 34: Percentage distribution of persons of age 15 years and above by technical education during 2017-18						all-India
category of persons	percentage distribution of persons by level of technical education					total
	percentage of persons without any technical education	degree in technical education	diploma/ certificate below graduate level	diploma/ certificate graduate level and above		
(1)	(2)	(3)	(4)	(5)	(6)

person	97.3	1.0	1.2	0.5	100.0	

3.8.2 Vocational/technical Training

3.8.2.1 Formal and Non-formal vocational/technical training: In PLFS, information on formal and non-formal vocational/technical training received was collected for persons of age 12-59 years. In Statement 35, percentage distribution of persons of age 15-59 years by status of vocational /technical training received is presented for which comparable figures are also available from Employment and Unemployment survey conducted by NSSO during 68th round (2011-12).

3.8.2.2 It is seen that in India nearly 2 per cent of the persons of age 15 -59 years had received formal vocational training: 1.2 per cent in rural areas and 3.7 per cent in urban areas. The percentage of persons of age 15 -59 years who received non-formal vocational/

technical training was 6.1 per cent in both rural and urban areas. It is seen that for both formal and non-formal vocational training, a higher percentage of males compared to females had received vocational/technical training.

Statement 35: Percentage distribution of persons in the age group 15-59 years by status of vocational/technical training received

category of persons	received vocational training							did not receive vocational training	total (incl. n.r.)
	formal	non-formal				total (formal and non-formal)			
		hereditary	self-learning	learning on the job	others

person	2.0	1.6	1.8	2.2	0.5	6.1	8.1	91.9	100.0

3.8.2.3 Detailed Tables in Appendix A: Percentage distribution of persons by vocational/technical training received for persons of age 15-29 years and 15-59 years at all-India level is given in Table 12.

3.8.2.4 Changes in the percentage of persons who received formal vocational/technical training: Statement 36 presents the percentage of persons who received formal vocational training during 2011-12 and 2017-18 separately for the age groups 15-29 years and 15-59 years. It is seen that for the age groups 15-29 years or 15-59 years, the percentage of persons who received formal vocational/technical training as obtained from the 68th round (2011-12) or from PLFS (2017-18) was of the same level in both rural and urban areas.

Statement 36: Percentage of persons of age 15-29 years and 15-59 years who received formal vocational/technical training during 2011-12 and 2017-18

Note: The figures are to be read along with the explanatory note for comparability.

3.8.2.5 Field of formal vocational/technical training: Field of vocational/technical training signifies the specific area of the training that a person has obtained. In the survey, data in respect of 21 specific fields of training were collected and the results are presented in Statement 37 in the form of distribution of persons of age 15-59 years who received formal vocational training by field of training at the all-India level. The descriptions of the field of training and corresponding codes are given at the bottom of the statement.

Statement 37: Percentage distribution of persons of age 15-59 years who received formal vocational/technical training by field of training

all	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	

*: **Field of training:** aerospace and aviation-01, agriculture, non-crop based agriculture, food processing - 02, allied manufacturing- gems and jewellery, leather, rubber, furniture and fittings, printing - 03, artisan/ craftsman/ handicraft/ creative arts and cottage based production - 04, automotive - 05, beauty and wellness - 06, chemical engineering, hydrocarbons, chemicals and petrochemicals - 07, civil engineering- construction, plumbing, paints and coatings - 08, electrical, power and electronics - 09, healthcare and life sciences-10, hospitality and tourism - 11, iron and steel, mining, earthmoving and infra building - 12, IT-ITeS -13, logistics - 14, mechanical engineering-capital goods, strategic manufacturing -15, media-journalism, mass communication and entertainment - 16, office and business related work -17, security -18, telecom - 19, textiles and handlooms, apparels - 20, work related to childcare, nutrition, pre-school and crèche -21, other -99.

3.8.2.6 Statement 37 shows that among rural males who received formal vocational/technical training, the share of field of training ‘electrical, power and electronics’ was the highest (code 09: 19.5 per cent) followed by ‘IT-ITeS’ (code 13: 17.7 per cent) and among urban males the highest share was by the field of training ‘IT-ITeS’ (code 13: 22.1 per cent) followed by ‘electrical, power and electronics’ (code 09: 16.5 per cent). Among rural females, the share of the field of training ‘textiles and handlooms,

apparels' was the highest (code 20: 23 per cent) followed by 'IT-ITeS' (code 13: 20.5 per cent) and for urban females the share was the highest for 'IT-ITeS' (code 13: 21.4 per cent) followed by 'textiles and handlooms, apparels' (code 20: 18.9 per cent). Thus, it is seen that in both rural and urban areas and for both males and females, the field of vocational/technical training 'IT-ITeS' shared a considerable proportion of persons who received formal vocational/technical training.

3.8.2.7 Detailed Table in Appendix A: Percentage distribution of persons in the age group 15-59 years who received formal vocational/technical training by field of training at all-India level for each broad usual status (ps+ss) is given in Table 13.

3.8.2.8 Formal vocational/technical training and broad activity status: Percentage distribution of persons in the age group 15-59 years who received formal vocational/

Statement 38: Percentage distribution of persons in the age group 15-59 years who received formal vocational/technical training by broad activity status (viz., employed, unemployed and not in labour force) in usual status (ps+ss)

category of persons	usual activity status (ps+ss)			all-India
	employed	unemployed	not in labour force	
(1)	(2)	(3)	(4)	(5)
rural				
male	67.2	15.5	17.3	100.0
female	37.4	11.0	51.6	100.0
person	56.0	13.8	30.2	100.0
urban				
male	72.0	12.4	15.6	100.0
female	38.6	10.0	51.4	100.0
person	57.1	11.3	31.5	100.0
rural+urban				
male	69.8	13.8	16.4	100.0
female	38.1	10.4	51.5	100.0
person	56.6	12.4	31.0	100.0

technical training by each of the broad activity status (viz., employed, unemployed and not in labour force) in the usual status (ps+ss) is given in Statement 38 at the all-India level. It is observed that in rural areas, among the persons who received formal vocational/technical training, nearly 56 per cent were employed, 13.8 per cent were unemployed and 30.2 per cent were not in labour force, while in urban areas,

nearly 57.1 per cent were employed, 11.3 per cent were unemployed and nearly 31.5 per cent were not in labour force.

3.8.2.9 Detailed Table in Appendix A: Percentage distribution of persons in the age group 15-59 years who received formal vocational/technical training by broad activity status (viz., employed, unemployed and not in labour force) in the usual status (ps+ss) at all-India level is given in Table 13.

3.8.3 Number of years in formal education

3.8.3.1 In PLFS for the literate persons who had the highest level of educational attainment any of *below primary, primary, middle, secondary, higher secondary, diploma/certificate course, graduate and post graduate and above* information on number of years in formal education was collected. In Statement 39, average number of years in

formal education completed by workers in usual status (ps+ss) of age 15-29 years and 15 years and above who are literate through formal schooling are presented. It is seen that in rural areas, the workers in usual status (ps+ss) of age 15-29 years spent nearly 9 years in formal education while in urban areas it was nearly 11 years. There was not much

Statement 39: Average number of years (in 0.0) spent in formal education by workers in usual status (ps+ss) who are literate through formal schooling

category of workers in usual status (ps+ss)	age of the worker in usual status (ps+ss)		all-India
	15-29 years	15 years & above	
(1)	(2)	(3)	(3)
rural			
male	9.4		8.9
female	9.0		8.1
person	9.3		8.8
urban			
male	10.7		10.7
female	12.1		11.1
person	10.9		10.8
rural+urban			
male	9.8		9.5
female	10.0		9.2
person	9.8		9.5

variation in the number of years in formal education completed by the workers of age 15 years and above and of the workers of age 15-29 years either in rural and or in urban areas.

3.8.3.2 Detailed Tables in Appendix A:

Average number of years spent in formal education by workers in usual status (ps+ss) of age 15 years

and above who are literate through formal schooling by industry of work at all-India level is given in Table 11.

3.9 Section Nine: Employment status among social groups

3.9.0 In this section the employment status among persons belonging to the four social groups, viz., *scheduled tribe (ST)*, *scheduled caste (SC)*, *other backward class (OBC)* and the rest referred to as *others* are discussed. In PLFS, for each household surveyed, the social group to which the head of the household belonged to was recorded. The social group of the head of the household was considered as the social group of all the members of the household irrespective of the actual social group to which the individual members belonged. It may be noted that the scope of the survey being all households without special focus on social groups, sample design was not tailored to netting in special social groups like *Scheduled Caste (SC)* and *Scheduled Tribe (ST)*, etc. Thus, sample size for the social groups in different States/UTs may not be enough to provide sufficiently reliable estimates of the various indicators and therefore, the estimates for the social groups are not presented for different State/UT in the Report.

3.9.1 Distribution of persons by social group

3.9.1.1 It is seen from Statement 40 that during 2017-18, proportion of persons belonging to the categories ST, SC and OBC in India were about 9.3 per cent, 19.6 per cent and 42.8 per cent, respectively. The corresponding proportions were 11.7 per cent, 21.6 per cent and 43.5 per cent, respectively in rural areas and about 3.6 per cent, 14.9 per cent and 41.2 per cent, respectively in urban areas. It is seen that a higher proportion of persons belonging to ST, SC or OBC categories lived in rural areas than in urban areas. Over the period from 2004-05 to 2017-18, the proportion of persons belonging to SC among total

persons did not show much variation but the share of persons belonging to ST and OBC increased slightly (1 to 2 percentage point).

3.9.1.2 Detailed Table in Appendix A: Sample numbers and estimated numbers of persons for different social groups at all-India level is given in Table 51.

Statement 40: Percentage distribution of persons among different social groups in NSS 61st (2004 - 2005), 66th (2009-2010), 68th (2011-2012) rounds and PLFS (2017-18)

3.9.2 Labour force participation rate among persons in different social groups during 2017-18

3.9.2.1 In Statement 41, LFPRs (in per cent) in usual status (ps+ss) among persons belonging to different social groups during 2017-18 are presented. It is seen that in India LFPR in usual status (ps+ss) was highest for ST (41.8 per cent) followed by SC (37.6 per cent), OBC (36.2 per cent) and it was the lowest among the 'others' (35.9 per cent). In rural areas, LFPR was the highest among both the males and females belonging to ST while in urban areas among females, the LFPR was the highest for SC and among males it was almost at the same level for each of SC, OBC and 'others'. Among females in rural areas, LFPR was the lowest for 'others' (15 per cent) and among males it was the lowest among OBC (53.6 per cent), while in urban areas, among females LFPR was the lowest among 'others' (14.2 per cent) and among males, LFPR was the lowest among ST (53.6 per cent). LFPR among persons of different social groups is presented in Figure 16.

Statement 41: Labour Force Participation Rate (in per cent) according to usual status (ps+ss) for different social groups during 2017-18

3.9.2.2 Detailed Table in Appendix A: LFPR in usual status (ps+ss) for different social groups at all-India level is given in Table 51.

3.9.3 Worker Population Ratio (WPR) in usual status (ps+ss) among persons in different social groups during 2017-18

3.9.3.1 In Statement 42, WPRs (in per cent) in usual status (ps+ss) among persons belonging to different social groups during 2017-18 are presented. It is seen that in India WPR in usual status (ps+ss) was highest for ST (40 per cent) followed by SC (35.2 per cent), OBC (34.1 per cent) and it was the lowest among the 'others' (33.5 per cent). WPR in usual status (ps+ss) for different social groups is presented in Figure 17.

Statement 42: Worker Population Ratio (WPR) (in per cent) according to usual status (ps+ss) for different social groups during 2017-18

social group	all-India								
	rural			urban			rural+urban		
	male	female	person	male	female	person	male	female	person

3.9.3.2 Detailed Table in Appendix A: WPR in usual status (ps+ss) for different social groups at all-India level is given in Table 51.

3.9.4 WPR in usual status (ps+ss) among persons in different social groups in different rounds of NSSO

3.9.4.1 Estimates of WPR (in per cent) among persons of different social groups obtained in different quinquennial rounds of NSSO over the period from 2004-05 to 2011-12 and PLFS (2017-18) are presented in Statement 43 for different social groups. It is seen that in rural areas among males of different social groups, in 2017-18 compared to that of 2011-12, WPR has decreased by 2 to 3 percentage points and for females the decrease was nearly 6 to 9 percentage points. In urban areas among males of different social groups, in 2017-18 compared to that of 2011-12, WPR has decreased by 1 to 2 percentage points and for females the decrease was nearly 2 percentage points for ST and 1 percentage points for 'OBC, while for SC and 'others', WPR remained at the same level during these two periods.

Statement 43: Worker Population Ratio (WPR) (in per cent) according to usual status (ps+ss) for different social groups during NSS 61 st (2004-05), 66 th (2009-10), 68 th (2011-12) rounds and PLFS (2017-18)

3.9.5 Unemployment rate (UR) in usual status (ps+ss) among persons in different social groups during 2017-18

3.9.5.1 In Statement 44, UR (in per cent) in usual status (ps+ss) among persons belonging to different social groups are presented. It is seen that in India, UR in usual status (ps+ss) was highest for 'others' (6.7 per cent) and was the lowest among the ST (4.3 per cent). Among males in rural areas, the UR was the highest among the SC (6.4 per cent) and lowest among the ST (4.9 per cent) while among females, the UR was the highest among

‘others’ (5.9 per cent) and lowest among the ST (2.2 per cent). Among males in urban areas, UR was the highest among the SC (8.2 per cent) and lowest among ‘others’ (6.8 per cent) while among females, the UR was the highest among ‘others’ (11.2 per cent) and lowest among ‘ST’ (7.6 per cent).

3.9.6 Unemployment rate (UR) in usual status (ps+ss) among persons of different social groups in different rounds of NSSO

3.9.6.1 Estimates of UR (in per cent) among persons of different social groups obtained in different quinquennial rounds of NSSO over the period from 2004-05 to 2011-12 and 2017-18 (PLFS) are presented in Statement 45. It is seen that in rural areas among males of different social groups, in 2017-18 compared to that of 2011-12, UR has increased by nearly 4 percentage points and for females the increase was nearly 1 to 4 percentage

points. In urban areas among males of different social groups, in 2017-18 compared to that of 2011-12, UR has increased by 3 to 5 percentage points and for females the increase was nearly 3 to 6 percentage during these period.

3.10 Section Ten: Employment status among religious groups

3.10.0 In PLFS information on the religious group to which the head of the household belonged was collected and for the purpose of this report for each household surveyed, the reported religion of the head of the household was considered as the religion of all the members of the household irrespective of the actual religion followed by individual members. Religious group of the household members was recorded in the following 8 categories: *Hinduism, Islam, Christianity, Sikhism, Jainism, Buddhism, Zoroastrianism*, and the rest referred to as *others*. It may be noted that the scope of the survey being all households without special focus on religious groups, sample design was not tailored to netting in different religious groups. Thus, sample size for the religious groups in different States/UTs may not be enough to provide sufficiently reliable estimates of the various indicators and therefore, the estimates for the religious groups are not presented for different State/UT in the Report. Discussion in this section has been confined to the following religious groups, *Hinduism, Islam, Christianity and Sikhism* which are referred to as major religious groups.

3.10.1 Distribution of persons by religious group

3.10.1.1 It is seen from Statement 46 that during 2017-18, in India, 81.7 per cent of the population belonged to 'Hinduism', 12.7 per cent belonged to 'Islam', 2.2 per cent belonged to 'Christianity' and 1.6 per cent belonged to 'Sikhism' and the share of the all the remaining religious groups (*Jainism, Buddhism, Zoroastrianism*, and the rest referred to as *others*.) was around 2 per cent.

3.10.1.2 Sample numbers and estimated numbers of persons for different religious groups at all-India level is given in Table 54.

Statement 46: Percentage distribution of persons by religious groups in NSS 61 st (2004-05), 66 th (2009-10), 68 th (2011-12) rounds and PLFS (2017-18)

Note: 1. 'all' includes 'Jainism', 'Buddhism', 'Zoroastrianism' as well as the remaining religious groups ('others').

2. : The figures are to be read along with the explanatory note for comparability.

3.10.2 Labour force participation rate among persons in major religious groups during 2017-18

3.10.2.1 In Statement 47, LFPRs (in per cent) in usual status (ps+ss) among persons belonging to the major religious groups during 2017-18 are presented. It is seen that in India LFPR in usual status (ps+ss) was highest for Christianity (39.2 per cent) and lowest for Islam (31.2 per cent). LFPR among persons of different religious groups during 2017-18 is presented in Figure 18.

Statement 47: Labour Force Participation Rate (in per cent) according to usual status (ps+ss) for major religious groups during 2017-18

3.10.2.2 Detailed Table in Appendix A: LFPR in usual status (ps+ss) for major religious groups at all-India level is given in Table 54.

3.10.3 Worker Population Ratio (WPR) in usual status (ps+ss) among persons in different religious groups during 2017-18

3.10.3.1 In Statement 48, WPR (in per cent) in usual status (ps+ss) among persons belonging to different religious groups during 2017-18 are presented. It is seen that in India WPR in usual status (ps+ss) was highest for Christianity (35.8 per cent) and lowest among Islam (28.9 per cent). WPR in usual status (ps+ss) for different religious groups is presented in Figure 19.

Statement 48: WPR (in per cent) according to usual status (ps+ss) for major religious groups during 2017-18

major religious groups	all-India

3.10.3.2 Detailed Table in Appendix A: WPR in usual status (ps+ss) for major religious groups at all-India level is given in Table 54.

3.10.4 WPR in usual status (ps+ss) among persons in different religious groups in different rounds of NSSO

3.10.4.1 Estimates of WPR (in per cent) among persons of different religious groups obtained in different quinquennial rounds of NSSO over the period from 2004-05 to 2011-12 and PLFS (2017-18) are presented in Statement 49 for major religious groups. It is seen that in rural areas among males of different religious groups, in 2017-18 compared to that of 2011-12, WPR has decreased by 2 to 3 percentage points and for females the decrease was nearly 5 to 15 percentage points. In urban areas among males of different religious groups, in 2017-18 compared to that of 2011-12, WPR has decreased by 2 to 4 percentage points and for females the decrease was nearly 6 percentage points for Christianity and 3 percentage points for Islam.

Statement 49: WPR according to usual status (ps+ss) among persons of major religious groups in NSS 61st (2004-05), 66th (2009-10), 68th (2011-12) rounds and PLFS (2017-18)

3.10.5 Unemployment rate (UR) in usual status (ps+ss) among persons in different religious groups in different rounds of NSSO

3.10.5.1 Estimates of UR (in per cent) in usual status (ps+ss) among persons of different religious groups obtained in different quinquennial rounds of NSSO over the period from 2004-05 to 2011-12 and PLFS (2017-18) are presented in Statement 50 for major religious groups. It is seen that in rural areas among males of major religious groups, in 2017-18 compared to that of 2011-12, UR has increased by nearly 4 to 5 percentage points and for females the increase was nearly 2 to 4 percentage points. In urban areas among males of major religious groups, in 2017-18 compared to that of 2011-12, UR has increased by 4 to 5 percentage points and for females the increase was nearly 5 to 11 percentage during these two periods.

3.10.5.2 Detailed Table in Appendix A: Unemployment rate in usual status (ps+ss) for major religious groups at all-India level is given in Table 54.

Statement 50: Unemployment rate in usual status (ps+ss) for different religious groups during 2004-2005 (61st round), 2009-2010 (66th round), 2011-12 (68th round) and PLFS (2017-18)

Sample Design and Estimation Procedure

1. Introduction

1.1 The Periodic Labour Force Survey (PLFS) is designed to measure, annually, for both rural and urban areas, level estimates of all important parameters in both usual status and CWS and the particulars of employment-unemployment particulars in the short time interval of three months for the urban areas only in the Current Weekly Status (CWS). This report contains the estimates of various aspects of employment-unemployment particulars based on the data collected during July 2017-June 2018. The survey covered the whole of the Indian Union *except* the villages in Andaman and Nicobar Islands which remained extremely difficult to access throughout the year.

1.2 Sample Design

1.2.1 Rotational scheme for Periodic Labour Force Survey (PLFS)

A rotational panel sampling design was used in urban areas. The rotational scheme is of two years duration to accommodate the changes in the urban frame in the intervening period; in the sense that the sampling frames for both rural and urban areas will remain unchanged for every two-year duration. In this rotational panel scheme each selected household in urban areas was visited four times – in the beginning with first visit schedule and thrice periodically later with revisit schedule. The proposed design aims at generating quarterly estimates of level and change parameters of some important labour force indicators (LFPR, WPR & UR) based on CWS data in urban areas and annual estimates of level parameters based on usual status for both rural and urban areas in the line of employment & unemployment survey of NSS quinquennial round.

1.2.2 Rotational panel design for urban areas

- i. The initial rotational panel is for two years, where only 25% FSUs of urban annual allocation was covered in the first quarter (Panel P_{11}) with detail listing and canvassing of visit 1 schedule in the selected households; where P_{ij} indicates the panel belonging to j^{th} quarter of the i^{th} two-year period of rotation.
- ii. Another 25% FSUs was covered in the second quarter (Panel P_{12}) for taking up visit 1 schedule and revisit schedule was canvassed in the selected households of Panel P_{11} .
- iii. A new panel P_{13} of 25% FSUs was surveyed in third quarter with visit 1 schedule and revisit schedules was canvassed in the households of panels P_{11} & P_{12} .
- iv. In the fourth quarter, households of panels P_{11} , P_{12} & P_{13} was surveyed with revisit schedule and a new panel P_{14} with 25% FSUs for visit 1 schedule.
- v. In the subsequent quarters of second year 75% FSUs (3 panels - P_{12} , P_{13} & P_{14}) would be common and an earlier panel (P_{11}) would be replaced by a new panel (P_{15}) for canvassing visit 1 schedule. This will continue till 8th quarter.
- vi. All the FSUs of the panels P_{11} , P_{12} , ..., P_{18} (each of which is with 25% of FSUs) was selected before commencement of survey in the first quarter.

- vii. At the end of the second year of each two-year duration, updated frame will be used for both rural and urban areas.
- viii. FSUs of another set of panels $P_{21}, P_{22}, \dots, P_{28}$ selected from the updated frame will be made ready before commencement of first quarter of third year (first quarter of the second two-year duration). These panels P_{21} to P_{28} will take care of the changes in the urban frame.
- ix. In the ninth quarter (first quarter of the second two-year duration), panel P_{21} selected from the updated frame will be introduced and the panels P_{16}, P_{17} and P_{18} of the old frame will be surveyed.
- x. This scheme will continue for another 2 years with the introduction of panels P_{22} to P_{28} each in one quarter for the subsequent 7 quarters till the end of the fourth year (second year of the two-year period).
- xi. This scheme of rotation of panels will enable generation of estimates of change parameters with 75% matching and 25% of unmatched samples from fifth quarter onwards.
- xii. One of the main advantages of this plan of rotation is that there will not be any break in the series of estimates of the change parameters starting from 5th quarter.
- xiii. Since major changes in the rural-urban frame occurs in the Census years (say for the year 2023-24), provision is made to generate estimates without break in the series of estimates considering panels from pre and post-census frames.

1.2.3 Rural samples

For rural areas, samples for all the 8 quarters were selected before commencement of survey for each two-year period, while the frame remained same for this duration. In each quarter, only 25% FSUs of annual allocation (as is done in each sub-round of NSS rounds) were covered in rural areas so that independent estimates could be generated for each quarter. For this purpose, quarterly allocation is multiple of 2 for drawing interpenetrating sub-samples. There is no revisit in the rural samples.

1.2.4 The following table gives the rotational panel schemes in tabular format:

	panels for the first 2 year period								panels from updated frame for the next 2 year period			
	During the four quarters of the first year				During the four quarters of the second year				During the four quarters of the third year			
	Qtr1	Qtr2	Qtr3	Qtr4	Qtr1	Qtr2	Qtr3	Qtr4	Qtr1	Qtr2	Qtr3	Qtr4
Urban Panel	P_{11}^*	P_{11}	P_{11}	P_{11}	P_{15}^*	P_{15}	P_{15}	P_{15}	P_{21}^*	P_{21}	P_{21}	P_{21}
		P_{12}^*	P_{12}	P_{12}	P_{12}	P_{16}^*	P_{16}	P_{16}	P_{16}	P_{22}^*	P_{22}	P_{22}
			P_{13}^*	P_{13}	P_{13}	P_{13}	P_{17}^*	P_{17}	P_{17}	P_{17}	P_{23}^*	P_{23}
				P_{14}^*	P_{14}	P_{14}	P_{14}	P_{18}^*	P_{18}	P_{18}	P_{18}	P_{24}^*
Rural	R_{11}^*	R_{12}^*	R_{13}^*	R_{14}^*	R_{15}^*	R_{16}^*	R_{17}^*	R_{18}^*	Fresh rural samples in third year from the updated frame			
*for canvassing Visit 1 schedule												
R_{ij}^* indicates sample covered in rural areas in j^{th} quarter of i^{th} two-year period												

1.2.5 It is seen from the above table that one panel of urban sample FSUs is in the sample for 4 quarters and the selected households in an FSU is surveyed for the successive periods during which the FSU remains in the sample. Selected households are visited 4 times for canvassing the detailed schedule of enquiry of the PLFS (Schedule 10.4: Employment and Unemployment). These visits are termed as first visit and revisit. For this, two formats of the detailed schedule of enquiry have been devised viz., Schedule 10.4: Employment and Unemployment (First Visit) and Schedule 10.4: Employment and Unemployment (Revisit).

To implement the rotational scheme in urban areas, when a panel appears for the first time in any quarter with 25% of annual allocation, listing and selection of households was done in all the selected FSUs in that panel. The first visit schedule was canvassed in the selected households. The selected FSUs/households were revisited in the subsequent three quarters as the panel will remain in the sample for four quarters. During the revisit, listing and selection of households were not be done afresh. Only the households selected during first visit was revisited for canvassing revisit schedule. At the time of revisit if any sample household was not found, same was treated as casualty and a substitute household was be surveyed. If any sample household was split, then, among the split households available in the FSU/Sub-block, the household where the head/senior most member of the erstwhile household was available was covered. In the PLFS scheme, each selected household of urban FSUs only was visited four times, one in each quarter.

1.2.6 **Outline of the design:** A stratified multi-stage design was adopted. The first stage units (FSU) were the Urban Frame Survey (UFS) blocks in urban areas and 2011 Population Census villages (Panchayat wards for Kerala) in rural areas. The ultimate stage units (USU) were households. As in usual NSS rounds, in the case of large FSUs one intermediate stage unit, called hamlet group/sub-block, was formed.

1.2.7 **Sampling Frame for First Stage Units:** The list of latest available Urban Frame Survey (UFS) blocks was considered as the urban sampling frame. List of 2011 Population Census villages (Panchayat wards for Kerala) constituted the rural sampling frame. Since the duration of rotational panel is of two-year, the urban sampling frame once updated incorporating the changes made in the current phase of UFS will remain unchanged for two years. Similarly the rural sampling frame with changes, if any, for urbanisation of village(s) will remain unchanged for two years. After completion of every two-year period, the frames will be updated for incorporating the changes likely to occur during this period. When next Population Census details will be available, the new frame will be used only when UFS blocks for all newly declared Census Towns and Statutory Towns are available for preparation of sampling frame, as the new list of census villages will not include those villages which will be considered as urban areas.

1.2.8 **Stratification:** In urban areas strata were formed within each NSS region on the basis of size class of towns as per Population Census 2011. The stratum numbers and their composition (within each region) are as follows:

stratum 1 :	all towns with population less than 50,000
stratum 2 :	all towns with population 50,000 or more but less than 3 lakhs
stratum 3 :	all towns with population 3 lakhs or more but less than 15 lakhs
stratum 4, 5, 6,... :	each city with population 15 lakhs or more

The rural areas of each NSS region constituted rural stratum. In case of rural sectors of Nagaland, a special stratum was formed within the State consisting of all the villages which were difficult to access.

1.2.9 Sub-Stratification: Urban: In urban areas there was no sub-stratification.

1.2.10 Sub-Stratification: Rural: 'r/8' sub-strata were formed in each rural stratum, if 'r' was the annual sample size allocated for a rural stratum. The villages within a stratum as per frame were first arranged in ascending order of population. Then sub-strata 1 to 'r/8' were demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal population.

1.2.11 Total sample size (FSUs): 12800 FSUs (7024 villages and 5776 UFS blocks) are being covered annually at all-India level. State/UT wise allocation of sample FSUs are given in Table B1 at the end of this write-up.

1.2.11.1 State/UT level sample size was allocated between two sectors in proportion to population as per Census 2011 with double weightage to urban sector in general. Within each sector of a State/UT, the respective sample size was allocated to the different strata (in the case of urban areas) and strata/ sub-strata (in the case of rural areas) in proportion to the population as per Census 2011. Urban allocations at stratum level were adjusted to multiples of 8 with a minimum sample size of 8 (for 4 panels, each of size multiple of 2). Rural allocation for each stratum was also multiple of 8 with minimum sample size of 8 (for 4 quarters, each of size 2). For special stratum formed in rural areas of Nagaland, 16 FSUs will be allocated.

1.2.11.2 It may be noted that quarterly allocation of FSUs was same for an NSS state-region although 25% of the urban FSUs rotate over the quarters according to the rotational scheme. However, quarterly allocation of urban FSUs for FOD regions and FOD sub-regions may vary over the quarters since new FSUs entering the sample according to the rotational scheme may or may not belong to the same FOD region or FOD sub-region.

1.2.12 Selection of first stage units: Urban FSUs were selected by probability proportional to size with replacement (PPSWR) scheme, size being the number of households in the UFS block. Samples for a panel within each stratum were drawn in the form of two independent sub-samples. To implement the rotational scheme, 4 groups of sample FSUs of equal size (each multiple of size 2, half for each of sub-sample 1 and sub-sample 2) were drawn randomly. In the rural areas, samples for a stratum/sub-stratum were drawn randomly in the form of two independent sub-

samples with probability proportional to size with replacement (PPSWR) scheme, size being the population of the village and equal number of samples were allocated among the four quarters.

1.2.13 *Formation of hamlet-group/ sub-block*: After identification of the boundaries of the FSU, it was determined whether listing to be done in the whole sample FSU or not. In case the population of the selected FSU was found to be 1200 or more, it was divided into a suitable number (say, D) of ‘hamlet-groups’ in the rural sector and ‘sub-blocks’ in the urban sector by more or less equalising the population as stated below.

approximate present population of the sample FSU	no. of hg's/sb's to be formed
less than 1200 (no hamlet-groups/sub-blocks)	1
1200 to 1799	3
1800 to 2399	4
2400 to 2999	5
3000 to 3599	6
.....and so on	

For rural areas of Himachal Pradesh, Sikkim, Andaman & Nicobar Islands, Uttarakhand (except four districts Dehradun, Nainital, Hardwar and Udham Singh Nagar), Punch, Rajouri, Udhampur, Reasi, Doda, Kishtwar, Ramban, Leh (Ladakh), Kargil districts of Jammu and Kashmir and Idukki district of Kerala, the number of hamlet-groups were formed as follows:

approximate present population of the sample village	no. of hg's to be formed
less than 600 (no hamlet-groups)	1
600 to 899	3
900 to 1199	4
1200 to 1499	5
1500 to 1799	6
.....and so on	

1.2.14 *Formation and selection of hamlet-groups/ sub-blocks*: In case hamlet-groups/ sub-blocks were formed in the sample FSU, the same was done by more or less equalizing population. Two hamlet-groups (hg)/ sub-blocks (sb) were selected from a large FSU wherever hamlet-groups/ sub-blocks will be formed in the following manner – one hg/ sb with maximum percentage share of population was selected and termed as hg/ sb ‘1’; one more hg/ sb was selected from the remaining hg's/ sb's by simple random sampling (SRS) and was termed as hg/ sb ‘2’. Listing and selection of the households was done independently in the two selected hamlet-groups/ sub-blocks. The FSUs without hg/ sb formation was treated as sample hg/ sb number ‘1’. If more than one hg/ sb had same maximum percentage share of population, the one among them which listed first was treated as hg/ sb ‘1’. Listing and selection of the households was done independently in the two selected hg's/sb's.

1.2.15 *Formation of second stage strata and allocation of households*: Second stage stratification (SSS) in each FSU/hg/sb was done based on the number of members in each household who had

completed secondary level of education considering general type of education. In urban FSUs 4 SSS while in rural FSUs 3 SSS were formed in rural areas. Details are given in the following table.

composition of SSS (rural)	SSS	number of members	number of households to be surveyed	
			FSU without hg formation	FSU with hg formation (for each hg)
number of members in the household having level of general education as secondary (10 th standard) or above	SSS 1	2 or more	2	1
	SSS 2	1	4	2
	SSS 3	0	2	1
TOTAL			8	
composition of SSS (urban)	SSS	number of members	number of households to be surveyed	
			FSU without sb formation	FSU with sb formation (for each sb)
number of members in the household having level of general education as secondary (10 th standard) or above	SSS 1	3 or more	2	1
	SSS 2	2	2	1
	SSS 3	1	2	1
	SSS 4	0	2	1
TOTAL			8	

1.2.16 *Selection of households:* From each SSS the sample households were selected by SRSWOR.

2. Estimation Procedure

2.1 Subscripts

s = subscript for s-th stratum

t = subscript for t-th sub-stratum (**for rural only**)

r = panel number (**for urban only**)

m = subscript for sub-sample (m = 1, 2)

i = subscript for i-th FSU [village (panchayat ward)/ block]

d = subscript for a hamlet-group/ sub-block (d = 1, 2)

j = subscript for j-th second stage stratum in an FSU/ hg/sb [j = 1, 2, 3 (for rural) or 1, 2, 3, 4 (for urban)]

k = subscript for k-th sample household under a particular second stage stratum within an FSU/ hg/sb

D = total number of hg's/ sb's formed in the sample FSU

D* = 0 if D = 1

= (D - 1) for FSUs with D > 1

Z = total size of a rural/urban stratum/sub-stratum (= sum of sizes for all the FSUs of a stratum/sub-stratum)

z = size of sample village/UFS block used for selection

n = number of sample FSUs surveyed including ‘uninhabited’ and ‘zero cases’ but excluding casualty for a particular sub-sample and stratum/sub-stratum/panel

H = total number of households listed in a second-stage stratum of an FSU / hamlet-group or sub-block of sample FSU

h = number of households surveyed in a second-stage stratum of an FSU / hamlet-group or sub-block of sample FSU

x, y = observed value of characteristics x, y under estimation

\hat{X}, \hat{Y} = estimate of population total X, Y for the characteristics x, y

Under the above symbols,

$y_{srmi\ 1\ jk}$ = observed value of the characteristic y for the k^{th} household in the j^{th} second stage stratum of the d^{th} hg/ sb ($d = 1, 2$) of the i^{th} **urban** FSU belonging to the m^{th} sub-sample of the r^{th} panel of s^{th} stratum

$y_{srmi\ 2\ jk}$ = observed value of the characteristic y for the k^{th} household in the j^{th} second stage stratum of the d^{th} hg/ sb ($d = 1, 2$) of the i^{th} **rural** FSU belonging to the m^{th} sub-sample of the r^{th} sub-stratum of s^{th} stratum

However, for ease of understanding, a few subscripts have been suppressed in following paragraphs where they are obvious.

3. Formulae for Quarterly Estimates of Aggregates for a particular stratum \times panel \times sub-sample of the urban sector from Schedule 10.4:

3.1 The estimate for a **stratum \times panel \times sub-sample** is obtained as follows:

$$\hat{Y}_{srmi} = \frac{Z_s}{n_{srmi}} \sum_{i=1}^{n_{srmi}} \frac{1}{z_{srmi}} \left[\sum_{j=1}^4 \frac{H_{srmi\ 1\ j}}{h_{srmi\ 1\ j}} \sum_{k=1}^{h_{srmi\ 1\ j}} y_{srmi\ 1\ jk} + D_{srmi}^* \sum_{j=1}^4 \frac{H_{srmi\ 2\ j}}{h_{srmi\ 2\ j}} \sum_{k=1}^{h_{srmi\ 2\ j}} y_{srmi\ 2\ jk} \right]$$

3.2 The estimate for aggregates for a particular **stratum \times panel** based on two sub-samples is obtained as:

$$\hat{Y}_{sr} = \frac{1}{2} \sum_{m=1}^2 \hat{Y}_{srmi}$$

3.3 The estimate for aggregates for a particular stratum based on ‘**r**’ panels and two sub-samples is obtained as:

$$\hat{Y}_s = \frac{1}{r} \sum_r \hat{Y}_{sr}, \quad r = 1, 2, 3, 4$$

(r will be ‘4’ from fourth quarter and r may be less than ‘4’ till third quarter)

3.4 From fourth quarter onwards, estimate for aggregates for a particular stratum based on all the 4 panels and two sub-samples is generated as:

$$\hat{Y}_s = \frac{1}{4} \sum_{r=1}^4 \hat{Y}_{sr}$$

3.5 Estimate of an aggregate character for a State is obtained by summing the stratum estimates as follows:

$$\hat{Y} = \sum_s \hat{Y}_s$$

3.6 Let \hat{Y} and \hat{X} be the estimates of the aggregates Y and X for two characteristics y and x respectively at the State/ UT/ all-India level. Estimate of a ratio $R = \frac{Y}{X}$ at State level is obtained

as the ratio of aggregates of two characters at State levels: $\hat{R} = \frac{\hat{Y}}{\hat{X}}$

3.7 The estimates of change over the quarters was measured by the simple difference between the estimates of aggregates or ratios of the corresponding quarters.

3.8 **Estimates of Error:** The estimated variances of the above estimates is as follows:

3.8.1 **For aggregate \hat{Y} :**

$$Var\hat{r}(\hat{Y}) = \sum_s \sum_{r=1}^4 Var\hat{r}\left(\frac{1}{4}\hat{Y}_{sr}\right) = \frac{1}{16} \sum_{r=1}^4 \sum_s Var\hat{r}(\hat{Y}_{sr}) \text{ where}$$

$Var\hat{r}(\hat{Y}_{sr}) = \frac{1}{4}(\hat{Y}_{sr1} - \hat{Y}_{sr2})^2$, where \hat{Y}_{sr1} and \hat{Y}_{sr2} are the estimates for sub-sample 1 and sub-sample 2 respectively for stratum 's' and panel 'r'.

3.8.2 **For ratio \hat{R} :**

$$M\hat{S}E(\hat{R}) = \frac{1}{4\hat{X}^2} \sum_s \left[(\hat{Y}_{s1} - \hat{Y}_{s2})^2 + \hat{R}^2 (\hat{X}_{s1} - \hat{X}_{s2})^2 - 2\hat{R}(\hat{Y}_{s1} - \hat{Y}_{s2})(\hat{X}_{s1} - \hat{X}_{s2}) \right]$$

$$\text{where } \hat{Y}_{s1} = \frac{1}{4} \sum_{r=1}^4 \hat{Y}_{sr1} \quad \text{and} \quad \hat{Y}_{s2} = \frac{1}{4} \sum_{r=1}^4 \hat{Y}_{sr2};$$

$$\hat{X}_{s1} = \frac{1}{4} \sum_{r=1}^4 \hat{X}_{sr1} \quad \text{and} \quad \hat{X}_{s2} = \frac{1}{4} \sum_{r=1}^4 \hat{X}_{sr2}$$

3.9 **Estimates of Relative Standard Error (RSE):**

$$R\hat{S}E(\hat{Y}) = \frac{\sqrt{Var\hat{r}(\hat{Y})}}{\hat{Y}} \times 100$$

$$R\hat{S}E(\hat{R}) = \frac{\sqrt{M\hat{S}E(\hat{R})}}{\hat{R}} \times 100$$

4. Formulae for Annual Estimates of Aggregates for a particular sub-sample and stratum × sub-stratum in the rural/urban sector from Schedule 10.4:

4.1 For rural:

4.1.1 For rural areas, annual estimates of aggregates are obtained from the data collected in four quarters.

(i) For j^{th} second-stage stratum of a stratum × sub-stratum, for a particular sub-sample:

$$\hat{Y}_{stmj} = \frac{Z_{st}}{n_j} \sum_{i=1}^{n_j} \frac{1}{z_{stmi}} \left[\frac{H_{stmi1j}}{h_{stmi1j}} \sum_{k=1}^{h_{stmi1j}} y_{stmi1jk} + D_{stmi}^* \times \frac{H_{stmi2j}}{h_{stmi2j}} \sum_{k=1}^{h_{stmi2j}} y_{stmi2jk} \right]$$

(ii) For all second-stage strata combined:

$$\hat{Y}_{stm} = \sum_j \hat{Y}_{jstm}$$

4.1.2 Estimate for aggregates for a sub-stratum:

Estimate for aggregates for a sub-stratum (\hat{Y}_{st}) based on two sub-samples in a sub-stratum is obtained as:

$$\hat{Y}_{st} = \frac{1}{2} \sum_{m=1}^2 \hat{Y}_{stm}$$

4.1.3 Estimate for aggregates for a stratum:

Estimate for a stratum (\hat{Y}_s) is obtained as

$$\hat{Y}_s = \sum_t \hat{Y}_{st}$$

4.1.4 Estimate of Aggregates at State/UT/all-India level:

The estimate \hat{Y} at the State/ UT/ all-India level is obtained by summing the stratum estimates \hat{Y}_s over all strata belonging to the State/ UT/ all-India.

4.1.5 Estimates of Ratios:

Let \hat{Y} and \hat{X} be the estimates of the aggregates Y and X for two characteristics y and x respectively at the State/ UT/ all-India level.

Then the combined ratio estimate (\hat{R}) of the ratio ($R = \frac{Y}{X}$) will be obtained as $\hat{R} = \frac{\hat{Y}}{\hat{X}}$

4.1.6 Estimates of Error: The estimated variances of the above estimates are as follows:

4.1.6.1 For aggregate \hat{Y} :

$$V\hat{a}r(\hat{Y}) = \sum_s V\hat{a}r(\hat{Y}_s) = \sum_s \sum_t V\hat{a}r(\hat{Y}_{st}) \quad \text{where } V\hat{a}r(\hat{Y}_{st}) \text{ is given by}$$

$Var(\hat{Y}_{st}) = \frac{1}{4}(\hat{Y}_{st1} - \hat{Y}_{st2})^2$, where \hat{Y}_{st1} and \hat{Y}_{st2} are the estimates for sub-sample 1 and sub-sample 2 respectively for stratum 's' and sub-stratum 't'.

4.1.6.2 For ratio \hat{R} :

$$M\hat{S}E(\hat{R}) = \frac{1}{4\hat{X}^2} \sum_s \sum_t \left[(\hat{Y}_{st1} - \hat{Y}_{st2})^2 + \hat{R}^2 (\hat{X}_{st1} - \hat{X}_{st2})^2 - 2\hat{R}(\hat{Y}_{st1} - \hat{Y}_{st2})(\hat{X}_{st1} - \hat{X}_{st2}) \right]$$

4.1.6.3 Estimates of Relative Standard Error (RSE):

$$R\hat{S}E(\hat{Y}) = \frac{\sqrt{V\hat{a}r(\hat{Y})}}{\hat{Y}} \times 100$$

$$R\hat{S}E(\hat{R}) = \frac{\sqrt{M\hat{S}E(\hat{R})}}{\hat{R}} \times 100$$

4.2 For urban:

4.2.1 Considering first visit schedules for each of the four panels of four quarters, annual estimates of aggregates for a **particular sub-sample and stratum** is obtained for urban areas. For rural areas, annual estimates of aggregates is obtained from the data collected in four quarters.

(i) For j^{th} second-stage stratum of a stratum, for a particular sub-sample:

$$\hat{Y}_{smj} = \frac{Z_s}{n_j} \sum_{i=1}^{n_j} \frac{1}{z_{smi}} \left[\frac{H_{smi1j}}{h_{smi1j}} \sum_{k=1}^{h_{smi1j}} y_{smi1jk} + D_{smi}^* \times \frac{H_{smi2j}}{h_{smi2j}} \sum_{k=1}^{h_{smi2j}} y_{smi2jk} \right]$$

(ii) For all second-stage strata combined:

$$\hat{Y}_{sm} = \sum_j \hat{Y}_{j sm}$$

4.2.2 Estimate for Aggregates for a stratum:

Estimate for aggregates for a stratum (\hat{Y}_s) based on two sub-samples in a stratum is obtained as:

$$\hat{Y}_s = \frac{1}{2} \sum_{m=1}^2 \hat{Y}_{sm}$$

4.2.3 Estimate of Aggregates at State/UT/all-India level:

The estimate \hat{Y} at the State/ UT/ all-India level is obtained by summing the stratum estimates \hat{Y}_s over all strata belonging to the State/ UT/ all-India.

4.2.4 Estimates of Ratios:

Let \hat{Y} and \hat{X} be the estimates of the aggregates Y and X for two characteristics y and x respectively at the State/ UT/ all-India level.

Then the combined ratio estimate (\hat{R}) of the ratio ($R = \frac{Y}{X}$) is obtained as $\hat{R} = \frac{\hat{Y}}{\hat{X}}$

4.2.5 **Estimates of Error:** The estimated variances of the above estimates is as follows:

4.2.5.1 For aggregate \hat{Y} :

$$V\hat{a}r(\hat{Y}) = \sum_s V\hat{a}r(\hat{Y}_s) \text{ where } V\hat{a}r(\hat{Y}_s) \text{ is given by}$$

$V\hat{a}r(\hat{Y}_s) = \frac{1}{4}(\hat{Y}_{s1} - \hat{Y}_{s2})^2$, where \hat{Y}_{s1} and \hat{Y}_{s2} are the estimates for sub-sample 1 and sub-sample 2 respectively for stratum 's'.

4.2.5.2 For ratio \hat{R} :

$$M\hat{S}E(\hat{R}) = \frac{1}{4\hat{X}^2} \sum_s [(\hat{Y}_{s1} - \hat{Y}_{s2})^2 + \hat{R}^2(\hat{X}_{s1} - \hat{X}_{s2})^2 - 2\hat{R}(\hat{Y}_{s1} - \hat{Y}_{s2})(\hat{X}_{s1} - \hat{X}_{s2})]$$

4.2.5.3 Estimates of Relative Standard Error (RSE):

$$R\hat{S}E(\hat{Y}) = \frac{\sqrt{V\hat{a}r(\hat{Y})}}{\hat{Y}} \times 100$$

$$R\hat{S}E(\hat{R}) = \frac{\sqrt{M\hat{S}E(\hat{R})}}{\hat{R}} \times 100$$

Table B1: Allocation of sample villages and blocks for PLFS

State/UT	number of sample villages/blocks		
	total	rural	urban

[4] demographic particulars of household members											
srl. no. (give continuous srl. number from part A)	name of member	whether a member on the date of re-visit (code)* [for revisit only]	relation to head (code)	sex (male-1, female -2, third gender 3)	age (years) as on the date of survey	marital status (code)	educational level		for persons with code 05 to 13 in column 8, number of years in formal education	for persons of age 0 to 29 years, status of current attendance in educational institution (code)	for persons of age 12 to 59 years whether received any vocational/ technical training (code)
							general (code)	technical (code)			
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)
B. new members											

* Codes 2 and 3 are only applicable in Part B

Note on Block 4: All persons listed in the preceding visit (either in Part A or in Part B) will be listed in Part A of the current visit with the same serial number and age.

[6] current weekly activity particulars of the household members (for those who are household members as on the date of survey, i.e., for those with codes 1, 2 or 3 in col. 3 of block 4) during the week ended on :

DD/MM/YYYY.....

srl. no.	items	details of weekly activity particulars of the persons
(1)	(2)	(3)
1.	srl. no. of member (as in col. 1, block 4)	
2.	age (years) (as in col. 6, block 4)	

3. activity status, industry, earnings, hours worked and hours available for additional work

srl. nos. for day of the week	day of the week	srl. no. of activity	status	for 11 – 72 in column 4				for 41, 42, 51 in column 4, wage earnings (received/receivable) for the work (Rs.)
				industry (2-digit of NIC-2008) for the work activity	hours actually worked (for status codes 11-51)/ hours would have worked (for status codes 61/62/71/72)	total hours actually worked considering all the work performed during the day	if available for additional work, hours available for such work during the day	
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)
3.1	7 th day	1						
		2						
3.2	6 th day	1						
		2						
3.3	5 th day	1						
		2						
3.4	4 th day	1						
		2						
3.5	3 rd day	1						
		2						
3.6	2 nd day	1						
		2						
3.7	1 st day	1						
		2						
4.	total hours actually worked during the week/hours available for additional work (total of entries in items 3.1 to 3.7)							

current weekly activity particulars

5.	status (code)		
6.	for codes 11-72 in item 5,	industry (2-digit NIC-2008 code)	
7.		occupation (3-digit NCO-2004 code)	
8.		description of the industry-occupation	
9.	for 31, 71 or 72 in item 5, earnings (received/receivable) during the preceding calendar month for <i>regular salaried/wage activity</i> (Rs.)		
10.	if entry 11, 12, 21, 61, 62 in item 5, gross earning during last 30 days from <i>self-employment activity</i> (Rs.)		

Note: In items 9 and 10 information will be recorded in respect of the activity identified by the current weekly status (item 5) corresponding industry (item 6) and occupation (item 7).

Codes for block 6

items 3.1 to 3.7 in column 4/ weekly activity status (item 5): codes 11, 12, 21, 31, 51 and 91-95, 97 of col. (3), block-5.1 and also the following codes: worked as casual wage labour in public works other than MGNREG works – 41, worked as casual wage labour in MGNREG works – 42, had work in h.h. enterprise but did not work due to: sickness -61, other reasons -62; had regular salaried/wage employment but did not work due to: sickness -71, other reasons - 72; sought work -81, did not seek but was available for work -82, did not work due to temporary sickness (for casual workers only) -98.
