

ANNUAL SURVEY OF INDUSTRIES

(FACTORY SECTOR)

2008-2009

VOLUME-I

**GOVERNMENT OF INDIA
MINISTRY OF STATISTICS AND PROGRAMME
IMPLEMENTATION
CENTRAL STATISTICS OFFICE
(INDUSTRIAL STATISTICS WING)
KOLKATA**

FOR INFORMATION OF THE USER

- **ASI DATA, PUBLISHED TABLES AND CUSTOMISED SPECIAL TABLES ARE NOW AVAILABLE IN ELECTRONIC MEDIA ON REQUEST ON CHARGEABLE BASIS. THE TERMS AND CONDITIONS ETC. FOR PROCUREMENT OF ASI DATA ARE GIVEN BELOW.**

A government department may procure the data free of cost only for the use of such data in public interest, which is to be certified and requisitioned only by the Head of the concerned government department. For research or study, organisational, public or private, the data are to be purchased as per normal procedure. The ASI data are now available in electronic media. For the exact price list of available data sets & other customised tables/data, this office may be contacted at the address given below. The data can be procured after obtaining an authorisation from Deputy Director General, CSO, IS Wing, Kolkata or Executive Director, Computer Centre, New Delhi. The prices including packaging & postal charges along with an undertaking in a specified format (as available with these offices) may be remitted by way of demand draft only, drawn in favour of: *Pay and Accounts Officer, Ministry of Statistics and Programme Implementation, Kolkata* payable at *Kolkata* in case of procurement from CSO, IS Wing, Kolkata or, *Pay and Accounts Officer, Ministry of Statistics and Programme Implementation, New Delhi*, payable at *New Delhi* in case of procurement from Computer Centre, New Delhi.

- **IN CASE OF ANY QUERY, THE OFFICE OF THE DEPUTY DIRECTOR GENERAL MAY BE CONTACTED AT THE FOLLOWING ADDRESS:**

**"CENTRAL STATISTICS OFFICE

PREFACE

The Annual Survey of Industries (ASI) provides information on important characteristics for objectively evaluating the industrial scenario of India. It helps planners and policy makers in framing policies for faster industrial development and also removing regional imbalances. To meet the challenges of liberalization and global competition, there is urgent requirement of release of timely, relevant and reliable industrial statistics. Timely release of survey results of ASI meets the requirements of Central/State Governments, research scholars and other stakeholders in the industrial development, both at domestic and international levels.

Industrial units registered under Sections 2m (i) and 2m (ii) of the Factories Act, 1948 and Bidi and Cigar establishments registered under the Bidi and Cigar Workers (Conditions of Employment) Act, 1966 are covered under ASI. The survey is carried out in the entire country except three states of Arunachal Pradesh, Mizoram and Sikkim and Union Territory of Lakshadweep. National Industrial Classification 2008 is being used for classification of the industrial establishments by industrial activities. All the industrial units are covered in two sectors: Census and Sample. In the census sector, the data from all the units employing 100 or more workers are collected. In sample sector, the data are collected by drawing a representative sample from all the units having less than 100 workers in such a manner that each industrial group is represented in each state.

The Field Operations Division of the National Sample Survey Office (NSSO) carries out the fieldwork for collection of data. For ASI 2008-09, the survey was carried out during the year 2009-10. The Industrial Statistics Wing (ISW), Kolkata of the Central Statistics Office (CSO) prepares the entire plan of the survey including data processing, validation, tabulation of ASI results and data dissemination. Computer Centre of the Ministry also disseminates the unit level data to the users and uploads the results of the survey in the website of the Ministry.

The ASI 2008-09 publication contains detailed results of factory sector in two volumes reflecting important economic characteristics at 2/3-digit level of industrial classification by States/Union Territories and 4-digit level of industrial classification at all India level. The Volume-I presents data relating to capital, employment and emoluments and several economic parameters relevant to industrial sector which, among others, include (i) number of factories; (ii) fixed/working capital; (iii) total inputs; (iv) total output; (v) depreciation; (vi) net value added etc. This time, a section has been added giving summary of findings based on ASI 2008-09 results for easy comprehension. During the year 2008-09, Gross Value Added and Output have registered a growth rate of 10.59% and 17.91%, respectively over the previous year, i.e., 2007-2008. The Volume-II of the publication provides details on material consumed and ex-factory value of products and by-products both at all India level as well as at the level of State/UTs. This volume is being published in e-media.

I record my appreciation for all the officers and staff members of NSSO (Field Operations Division), CSO (IS Wing and Economic Statistics Division) for their dedicated work in bringing out this publication.

We are striving to improve both content and presentation of the report and, therefore, welcome suggestions from all users of the results of the survey.

Swapan Kumar Das
Director General
Central Statistics Office
Ministry of Statistics & Programme Implementation
Govt. of India

ANNUAL SURVEY OF INDUSTRIES: 2008-2009
VOLUME – I

CONTENTS

SUBJECT	PAGE NO(S).
Preface	I - II
Contents	III - IV
Section 1: Introduction	1 -- 10
Section 2: Summary of Findings	11 -- 35
Detailed Tables	
Table 1: Estimate of selected characteristics of factory sector by 4-digit industry class (NIC-2008) for all-India	A-1 -- A-15
Table 2: Estimate of selected characteristics of factory sector by 3-digit industry group (NIC-2008) for each state/ut	A-16 -- A-174
Table 2a: Estimate of selected characteristics of factory sector by 2-digit industry division (NIC-2008) for each state/ut	A-175 -- A-257
Table 2b: Estimate of selected characteristics of factory sector by 2-digit industry division (NIC-2008) for all-India	A-258 -- A-260
Table 3: Estimate of (i) employment, (ii) mandays employed and (iii) emoluments paid in the factory sector by their type for each 4-digit industry class (NIC-2008) for all India	A-261 -- A-275
Table 4: Estimate of (i) employment, (ii) mandays employed and (iii) emoluments paid in the factory sector by their type for each 3-digit industry group (NIC-2008) for each state/ut	A-276 -- A-434
Table 4a: Estimate of (i) employment, (ii) mandays employed and (iii) emoluments paid in the factory sector by their type for each 2-digit industry division (NIC-2008) for each state/ut	A-435 -- A-520
Table 5: Fuels consumed in the factory sector by type of fuel for each 4-digit industry class (NIC-2008) for all-India	A-521 -- A-524
Table 6: Fuels consumed in the factory sector by type of fuel for each 3-digit industry group (NIC-2008) for each state/ut	A-525 -- A-570
Table 6a: Fuels consumed in the factory sector by type of fuel for each 2-digit industry division (NIC-2008) for each state/ut	A-571 -- A-599
Table 7: Estimate of structural ratios and technical co-efficients for factory sector during 2004-05 to 2008-09	A-600
Table 8: Estimate of RSE for few basic parameters at 2-digit industry division (NIC-2008) for all-India	A-601
Annexures	
Annexure-I: Collection of Statistics Act and Rules	A-602 - A-613
Annexure-II: Sample Design and Estimation Procedure	A-614 - A-621
Annexure-III: Concepts, Definitions and Procedures	A-622 - A-635
Annexure-IV: ASI Schedule of Enquiry	A-636 - A-646
Annexure-V: Classification of Industries at 3 & 4-digit of NIC-2008	A-647 - A-655
Annexure-VI: Merged Industries by State	A-656 - A-660

Section 1

ANNUAL SURVEY OF INDUSTRIES: 2008-09

1.1 Scope and Coverage

1.1.1 The Annual Survey of Industries (ASI) has been conducted since 1959 under the authority of the Collection of Statistics Act, 1953. In accordance with the provisions of the Collection of Statistics (Central) Rules, 1959 framed under the Act, it had been designed to obtain comprehensive and detailed data with the objectives of estimating the contribution of manufacturing industries as a whole to the national income by type of industry, systematic study of the structure of the industry by type of industry, occasional analysis of the various factors influencing industries in the country to facilitate the construction of comprehensive, factual and systematic bases for formulation of policy. A copy of the above Act and the Rules made thereunder is given in *Annexure – I*.

1.1.2 Coverage of the Annual Survey of Industries extends to the entire Factory Sector comprising industrial units (called factories) registered under the Sections 2(m)(i) and 2(m)(ii) of the Factories Act, 1948, wherein a ‘Factory’, which is the primary statistical unit of enumeration for the ASI, is defined as:

‘Any premises’ including the precincts thereof: -

(i) Wherein ten or more workers are working or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power or is ordinarily so carried on, or,

(ii) Wherein twenty or more workers are working or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on without the aid of power or is ordinarily so carried on, but does not include a mine subject to the operation of the Mines Act, 1952, or a railway running shed.

The ‘manufacturing process’ referred to above has been defined [vide Section 2(k)] in the Factories Act, 1948 as:

‘Any process’ for:

(i) making, altering, ornamenting, finishing, packing, oiling, washing, cleaning, breaking up, demolishing or otherwise treating or adapting any article or substance with a view to its use, sale, transport, delivery or disposal; or,

(ii) pumping oil, water or sewage ; or,

(iii) generating , transforming or transmitting power; or,

(iv) composing types for printing by letter press, lithography, photogravure or other similar process or book binding; or,

(v) constructing, reconstructing, repairing, refitting, finishing or breaking up ships or vessels.’

1.1.3 In addition to Sections 2(m)(i) & 2(m)(ii) of the Factories Act, 1948, bidi & cigar units, employing 10 or more workers with the aid of power and 20 or more workers without the aid of power and registered under the Bidi & Cigar Workers (Conditions of Employment) Act, 1966 are also covered in ASI.

1.1.4 Although the scope of the ASI was extended to all registered manufacturing establishments in the country, establishments under the control of the Defence Ministry, oil storage and distribution units, restaurants and cafes and technical training institutions not producing anything for sale or exchange were kept outside the coverage of the ASI. The Collection of Statistics Act, 1953, being not applicable to Jammu & Kashmir, factories in that state used to be covered under ASI on a voluntary basis till a similar State Act, called the Jammu & Kashmir Collection of Statistics Act, 1961 was enacted and the Collection of Statistics Rules, 1964 was framed thereunder making thereby the collection of statistics under the ASI also statutory in that state. The geographical coverage of the Annual Survey of Industries, 2008-2009 has been extended to the entire country except the states of Arunachal Pradesh, Mizoram and Sikkim and Union Territory of Lakshadweep.

1.2 Unit of Enumeration

1.2.1 The primary unit of enumeration in the survey is a factory in the case of manufacturing industries, a workshop in the case of repair services, an undertaking or a licensee in the case of electricity, gas and water supply undertakings and an establishment in the case of bidi and cigar industries. The owner of two or more establishments located in the same state and pertaining to the same industry group and belonging to same scheme (census or sample) only is, however, permitted to furnish a single consolidated return, termed as 'Joint Return'. Such consolidated returns are a common feature in the case of bidi and cigar establishments, electricity and certain public sector undertakings.

1.3 ASI Frame

1.3.1 The ASI frame is based on the lists of registered factory / units maintained by the Chief Inspector of Factories (CIF) in each state and those maintained by registration authorities in respect of bidi and cigar establishments and electricity undertakings. The frame is being revised and updated periodically by the Regional Offices of the Field Operations Division of NSSO in consultation with the Chief Inspector of Factories in the state. At the time of revision, the names of the de-registered factories are removed from the ASI frame and those of the newly registered factories are added. In updation, only new registrations are added to the existing frame. In spite of regular updating of the frame, quite a number of small-sized factories selected for the survey are found to be non-existing in the field and are termed as deleted factories. However, such factories are not taken into consideration for the purpose of tabulation and analysis in this report.

1.3.2 All electricity undertakings other than captive units as well as all departmental undertakings such as Railway workshops, etc. have been kept outside the purview of ASI from 1999-2000.

1.4 Reference Period

1.4.1 Reference period for ASI 2008-2009 was the accounting year of the factory, ending on any day during the fiscal year 2008-2009. Thus in ASI 2008-2009, data collected from respective establishment relate to their accounting year ended on any day between 1st April 2008 and 31st March 2009. Survey was conducted in the year 2009-2010 (October 2009 to April 2010).

1.5 Sample Design and Sample Allocation

1.5.1 As per the decision taken by the Standing Committee on Industrial Statistics (SCIS), a new sampling design has been adopted since ASI 2007-08. Accordingly, for ASI 2008-2009, the Census Sector has been defined as follows:

- a) All industrial units belonging to the five less industrially developed states/ UT's viz. Manipur, Meghalaya, Nagaland, Tripura and Andaman & Nicobar Islands.
- b) For the rest of the twenty-six states/ UT's., (i) units having 100 or more workers, and (ii) all factories covered under Joint Returns.

1.5.2 Strata (State by 4-digit of NIC-04) having less than or equal to four units after selecting the Census Sector units as defined above are also selected as census sector.

1.5.3 From the remaining frame, samples are drawn considering a uniform sampling fraction of 20% for the states within a State X 4-digit NIC with a minimum of 4 units evenly distributed in two sub-samples.

1.6 Estimation Procedure

1.6.1 The sample design and procedures for estimation of the characteristics are shown in *Annexure-II* along with the number of units surveyed in ASI 2008-09 separately for the census sector and sample sector of each state and ut. The different concepts and definitions used in ASI survey are given in *Annexure-III*.

1.6.2 For some selected units, it is found during the survey that the unit existed in the given location and had engaged some employees during the reference period, but could not initiate production or did not produce anything during the reference period due to various reasons, and can take up production any moment once the problems are sorted out. These units, for the purpose of the survey, are considered as *closed units* and similarly placed with other surveyed units in respect of all parameters, such as, assets, employment, etc. There are some other units which existed in the given location, but did not engage any employee during the reference period, and also, did not initiate production or produce anything during the reference period. These units, for the purpose of ASI, are considered as *non-operative units* and termed as NOP cases, during the reference period. Moreover, as a matter of practice, these units are maintained in the frame for consecutive three years and are meant for selection for survey with the consideration that these units might start production any

time employing some workers. In case, however, any such unit is found to be *non-operative* for consecutive three years, it is assumed to be dead and marked deleted from the frame and thus, from the survey. Important to note that in providing the estimated number of units (factories) for the reference period, these units are not included. Whereas other variables like their assets, output, etc. of the NOP units are included in the usual manner in estimating the parameters presented in this report.

1.6.3 The results presented in the publications are based on the central sample data collected by the FOD, NSSO and processed by the CSO (IS Wing). Moreover, all the estimated value figures given in this publication are reported in current prices. The value figures are generally rounded off to thousand rupees or lakhs of rupees. All India figures are rounded off separately and may not tally with the sum of State/UT's figures. Similarly, all-Industry figures may not tally with the sum of individual industry figures. Also the industry-wise totals at lower level may not tally with the next higher level due to necessary merging at different levels.

1.7 Schedule of Enquiry

1.7.1 The schedule for ASI 2008-2009 has undergone minor changes from that of ASI 2007-2008 and it has got two parts. Part-I which is processed at the CSO (IS Wing), Kolkata, aims to collect data on assets and liabilities, employment and labour cost, receipts, expenses, input items – indigenous and imported, products and by-products, distributive expenses etc. Part-II, processed by the Labour Bureau, aims to collect data on different aspects of labour statistics, namely, working days, mandays worked, absenteeism, labour turnover, man-hours worked, earning and social security benefits. A copy of the Part-I of ASI 2008-2009 schedule is given as *Annexure –IV*.

1.8 Classification of Industries

1.8.1 The NIC-1970 was followed to classify economic activities of the factories from ASI 1973-74 to ASI 1988-89. NIC- 1987 had then been introduced and followed till ASI 1997-98. NIC-1998 was then followed from ASI 1998-99 to ASI 2003-04. From ASI 2004-05, the new series of classification, i.e., NIC-2004 has been introduced and the same has been used till ASI 2007-08. For ASI 2008-09, NIC- 2008 has been introduced. It classifies all the factories in the ASI frame in their appropriate industry groups on the basis of the principal product manufactured. This way a unit gets classified in one and only one industry group even though it might be manufacturing products belonging to different industries. The estimates for different aggregates presented in this report at two or three or four digit level of industry correspond to the NIC-2008 classification.

1.9 Publications and Limitations

1.9.1 For ASI 2008-2009, the results are released at 4-digit level of NIC-2008 by All-India and at 2/3-digit level of NIC-2008 by states /UT's. The list of 3/4-digit level of NIC-2008 codes along with descriptions is given in *Annexure-V*. While Volume-I contains tables related to capitals and value added, employment and labour cost, fuels consumed etc.,

Volume-II contains NIC by state-wise materials consumed as well as products & by-products generated by the factories. These input/output items are classified as per Annual Survey of Industries Commodity Classification (ASICC), 2009.

1.9.2 The Collection of Statistics Act prohibits disclosure of data relating to individual factories. Therefore, if the number of factories under any industry (3-digit level of NIC-2008) in a state is less than three, the data have been combined to a similar industry in order to conceal the identity of all such units belonging to the concerned stratum. Similarly, if number of units under any 4-digit level of NIC at All-India level is less than three, the industry has been merged to a similar industry under the same broad industry group. A list of such merged industries is given in *Annexure –VI*.

1.9.3 All the estimates, especially for quantity and value figures for any particular item consumed and produced, are subject to Statistical Error as these are estimated on the basis of a selected sample. The consumptions and productions are not estimated separately for those items for which the number of observations is insufficient. They have been reported under 'others' as the estimates for those items may not be proper.

1.9.4 As per tabulation policy it has been decided to publish the detailed information corresponding to industry codes 01 to 33, 38 and 58 following NIC-2008. For all other industry codes the units have been clubbed and shown under a common industry '**Other**' in different tables.

1.9.5 Another important point may also be noted that the rates and ratios of some parameters presented in this report at the disaggregate level, particularly for the smaller states and UTs cross classified by 2/3/4-digit level of activity classification, are subject to the limitation of small sample and thus, the user may cautiously interpret the changes of these parameters over time.

Section 2

Main Findings

2.1 Introduction

2.1.1 The fieldwork for Annual Survey of Industries (ASI): 2008-09 was carried out during 2009-10. The survey covered entire country except three States of Arunachal Pradesh, Mizoram and Sikkim and Union Territory of Lakshadweep. Three broad sectors of economic activity viz. Manufacturing; Electricity, Gas & Water Supply; and Other Activities including cotton ginning, cleaning & bailing, extract of salt and some repair services were under the coverage. A Press Statement including the Press Note and Summary Results for Factory Sector based on ASI 2008-09 have already been released on 14th January 2011. This volume contains main findings of ASI 2008-09 and certain key tables based on the survey.

2.2 Sample Size

2.2.1 From the frame of 202,767 factories considering all the States/UTs under the coverage, 58,300 factories representing each State/UT were selected for the survey. However, 52,864 factories were ultimately surveyed. State/UT wise details of number of factories in the frame, number of factories selected and number of factories surveyed are given in **Statement 0**.

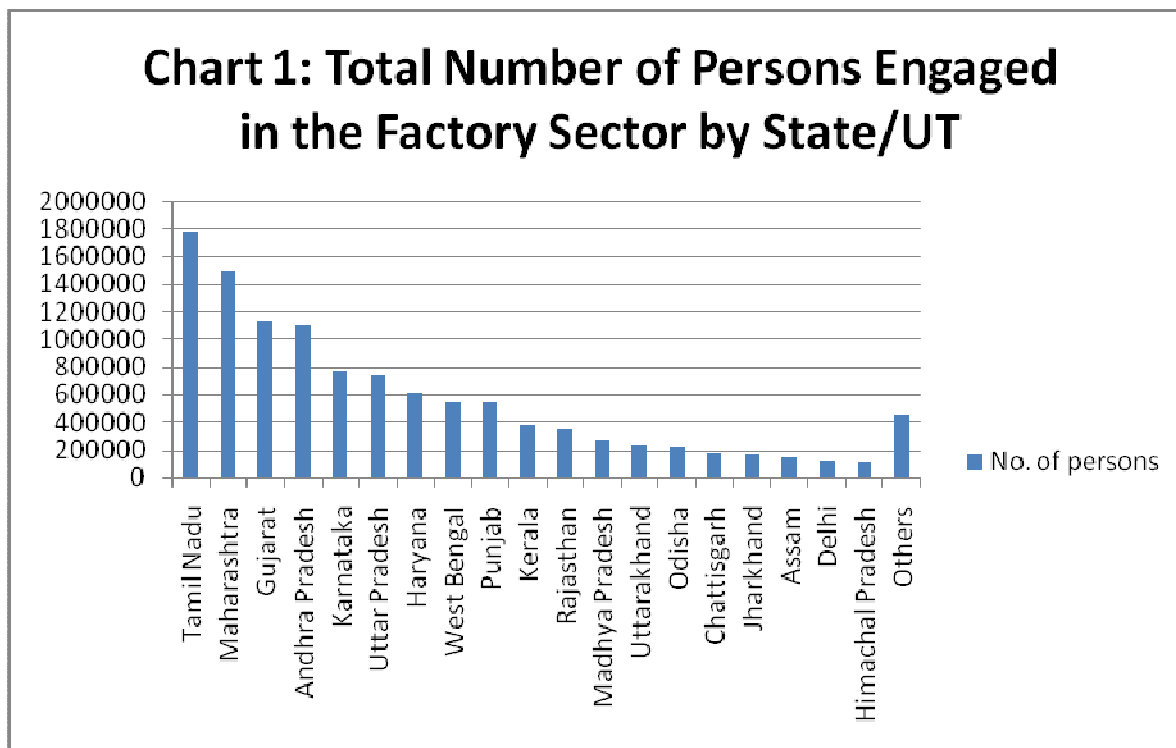

2.3 Main Findings

2.3.1 Aggregates for Key Characteristics by State/UT

2.3.1.1 **Statement 2.1a** gives estimates of aggregates for some key characteristics by State/UT for all economic activities taken together while **Statement 2.1b** presents the same for the manufacturing sector only, which had a share of about 93.8% in total number of estimated factories found to be operating in the country and a share of about 96.6% in the aggregate Net Value Added (NVA) by such factories. Considering all economic activities, estimated total number of factories as per ASI 2008-09 was 155,321 which engaged about 113.27 lakh persons. Total value of output was worth Rs. 327279786 lakh and total Gross Value Added (GVA) was worth Rs. 61131148 lakh. So far as manufacturing sector is concerned, an estimated number of 145,727 factories were under operation in this sector. The sector engaged nearly 109.46 lakh persons and it had contributed worth Rs. 313951937 lakh of output to the Indian economy and Rs. 58925137 lakh as GVA.

2.3.2 In each of the above two statements, States/UTs have been arranged in descending order of their percentage share in aggregate GVA. **Chart 1** shows graphically the relative position of various States/UTs as per total persons engaged in the factories. The top five States were Tamil Nadu, Maharashtra, Gujarat, Andhra Pradesh and Karnataka respectively engaging about 17.7 lakh, 14.9 lakh, 11.3 lakh, 10.9 lakh and 7.7 lakh persons. These five States together had engaged more than half (55.2%) of total manpower engaged by the factory sector of the country. The same five States were also the major ones in terms of their percentage shares in aggregate GVA

– although their relative positions were different. Maharashtra topped in terms of its percentage share (20.9%) in aggregate GVA, which was followed by Gujarat (12.2%), Tamil Nadu (8.0%), Karnataka (8.0%), and Andhra Pradesh (6.7%).

2.4 Aggregates for Key Characteristics by NIC 2-Digit

2.4.1 Out of 28 industries in terms of National Industrial Classification (NIC) 2-digit codes under the coverage of the survey, major employment providing industries were Food Products (13%), Textiles (12%), Basic Metals (8%), Wearing Apparel (7%), Other Non-Metallic Mineral Products (7%), Machinery & Equipment Not Elsewhere Classified (6%), Chemicals & Chemical Products (5%), Motor Vehicles, Trailers & Semi-Trailers (5%), Fabricated Metal Products Except Machinery & Equipment (4%), Tobacco Products (4%), and Rubber & Plastic Products (4%), where figures within brackets denote percentage share of the manufacturing industry in total number of persons engaged by the factory sector (see **Statement 2.2 & Chart 2**).

2.4.2 Top six industries in terms of their percentage share in aggregate GVA were manufacturing of Basic Metals, Coke and Refined Petroleum Products, Chemicals and Chemical Products, Machinery and Equipment Not Elsewhere Classified, Other Non-Metallic Mineral Products, and Food Products. They respectively had share of about 13.9%, 12.5%, 9.1%, 6.9%, 6.8% and 6.1% in aggregate GVA (Statement 2.2). **Chart 3** shows relative position of top 10 industries in respect of their percentage shares in aggregate GVA.

**Chart 2: Percentage Share of Major Industries
in Total Number of Persons Engaged in the
Factory Sector**

Chart 3: Percentage Share of Major Industries in Aggregate GVA by the Factory Sector

2.5 Structural Ratios by State/UT and NIC 2-Digit

2.5.1 **Statement 2.3a** gives some structural ratios by State/UT for all activities/sectors taken together while **Statement 2.3b** gives the same in respect of manufacturing sector only. For all activities together, average values of gross output per factory, NVA per factory, number of employees per factory and wages per worker were Rs. 2,107 lakh, Rs. 340 lakh, 73 and Rs. 68,103 respectively. Similar values in respect of manufacturing sector were little higher and the same being Rs. 2,154 lakh, Rs. 350 lakh, 75 and Rs. 68,507 respectively. Structural ratios by NIC 2-digit are given in **Statement 2.4**. For each of the above four structural ratios, minimum value and maximum value along with the names of corresponding State/UT/Industry and also the average values are summarized below **Statement A** below:

Statement A: Selected structural ratios: Their minimum, maximum and average values

Classification by State/UT		Classification by Industry	
1. Gross Output per Factory (Rs. Lakh)			
Minimum Value	93 (Manipur)	Minimum Value	255 (Other mining & quarrying)
Maximum Value	5,644 (D & N Haveli)	Maximum Value	50,462 (Coke & refined petroleum products)
Average Value	2,107	Average Value	2,107
2. NVA per Factory (Rs. Lakh)			
Minimum Value	17 (Manipur)	Minimum Value	25 (Wood, products of wood & cork except furniture; articles of straw & plaiting material)
Maximum Value	1,491 (Uttarakhand)	Maximum Value	7,367 (Coke & refined petroleum products)
Average Value	340	Average Value	340
3. Number of Employees per Factory			
Minimum Value	30 (A & N Islands)	Minimum Value	22 (Wood, products of wood, etc.)
Maximum Value	137 (Haryana)	Maximum Value	139 (Motor vehicles, trailers & semi-trailers)
Average Value	73	Average Value	73
4. Wages per Worker (Rs.)			
Minimum Value	18,923 (Tripura)	Minimum Value	22,475 (Tobacco products)
Maximum Value	139,587 (Jharkhand)	Maximum Value	170,803 (Coke & refined petroleum products)
Average Value	68,103	Average Value	68,103

2.6 Selected Characteristics by Employment Range of the Factory

2.6.1 It would be of interest to study the relative contributions of various employment size classes of the factories with regard to some selected characteristics. These have been presented in Statements 2.5a, 2.5b, 2.6a and 2.6b. The former two statements (say, first set) deal with all activities/sectors taken together while the latter two (set two) deals with the factories belonging to the manufacturing sector only. Under each set, the first statement presents the aggregate values of the characteristics for each employment range, the second statement gives percentage share of a given employment range in total value of the aggregate for each characteristic. For all activities taken together, from Statement 2.5b it may be seen that more than one-third (36.3%) of the factories had employed 14 or less persons although their share in aggregate GVA was very nominal (1.5%). On the contrary, there were some factories with employment of 5,000 and above

(0.2% of total number of factories) with a substantial share (14.1%) in aggregate GVA. Findings in respect of a few broad employment ranges of factories are summarized in **Statement B. Chart 4** depicts percentage distribution of factories by seven employment ranges while **Chart 5** shows distribution of total number of factories by more detailed (eleven in number) employment ranges.

Statement B: Percentage shares in overall aggregate for three selected characteristics by broad employment ranges of factories

Employment Range	All sectors/activities combined			Manufacturing sector only		
	Number of factories	Total persons engaged	Aggregate GVA	Number of factories	Total persons engaged	Aggregate GVA
0-14	36.3	4.0	1.5	36.5	3.9	1.5
15-49	35.7	13.2	6.8	35.3	12.7	6.5
50-99	12.3	11.6	7.3	12.2	11.1	7.1
100 or more	15.6	71.2	84.4	16.1	72.3	85.0
All	100.0	100.0	100.0	100.0	100.0	100.0
1000 or more	1.6	26.5	39.9	1.7	27.4	40.6

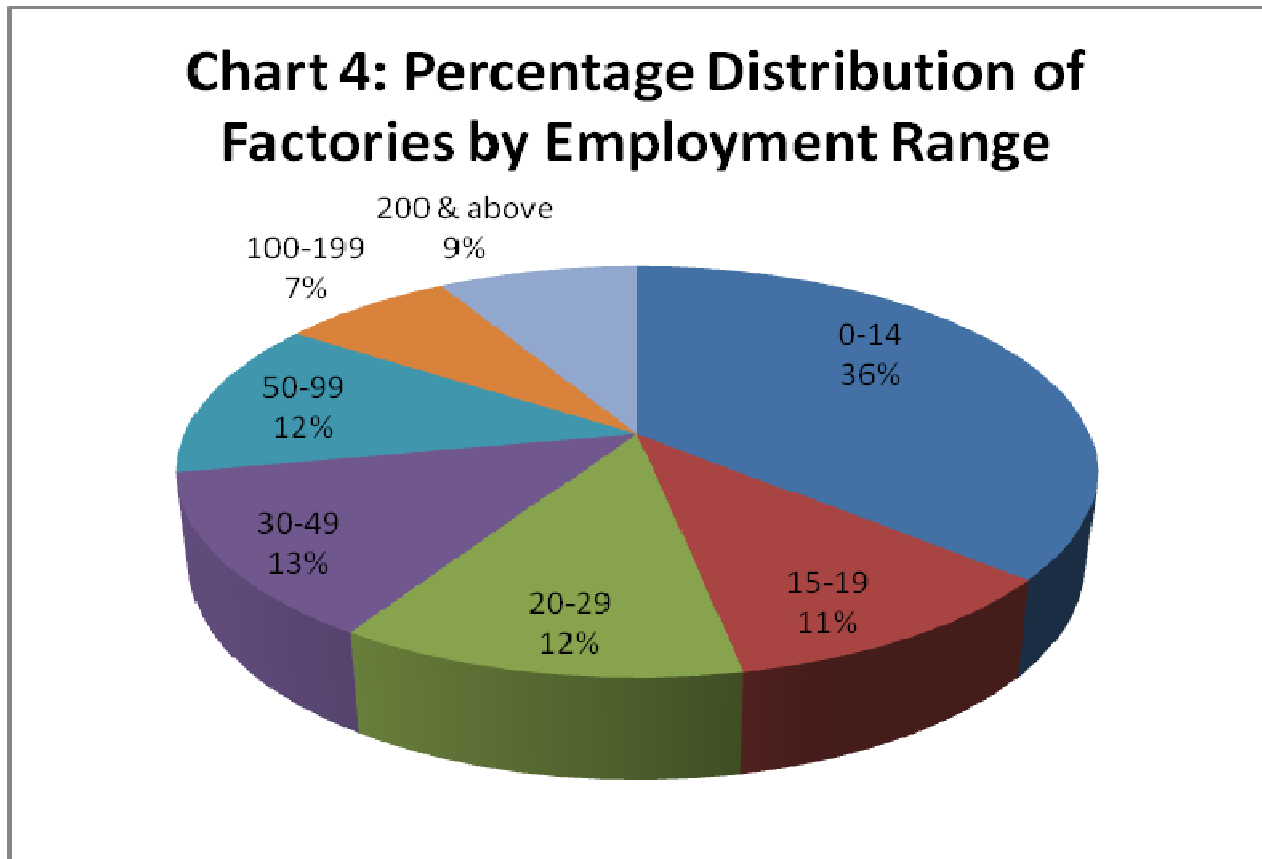

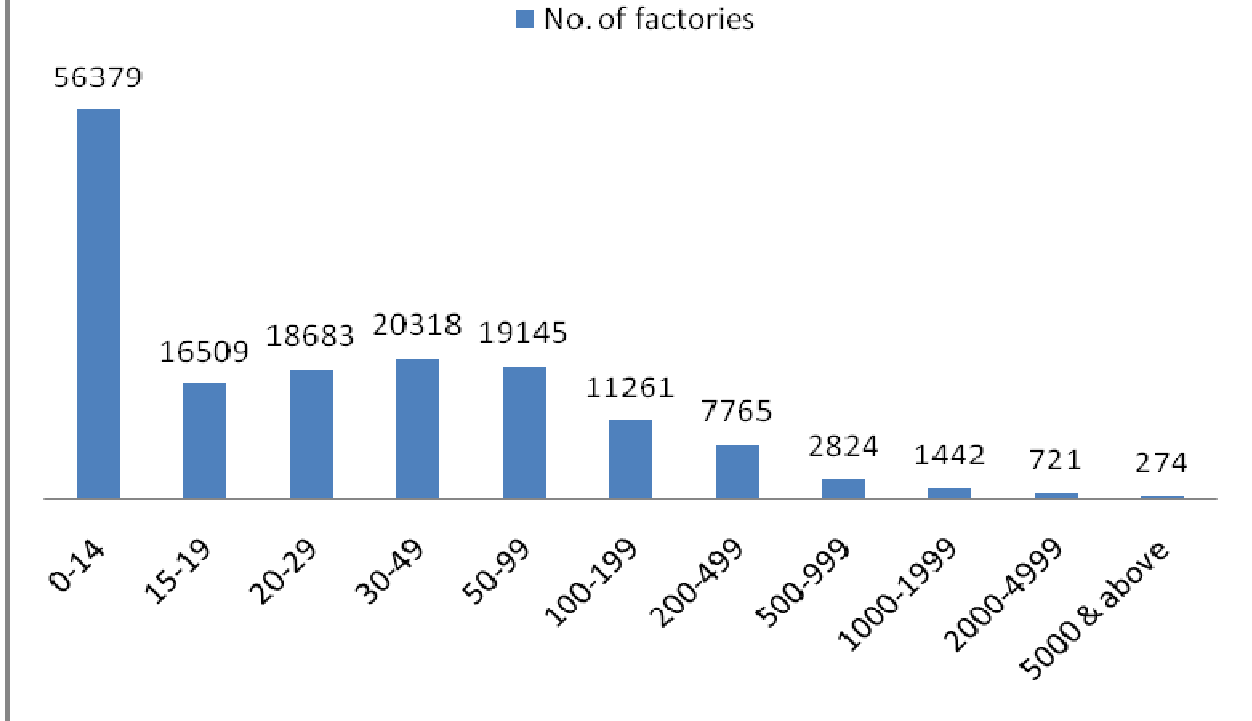

Chart 5: Distribution of Factories by Employment Range

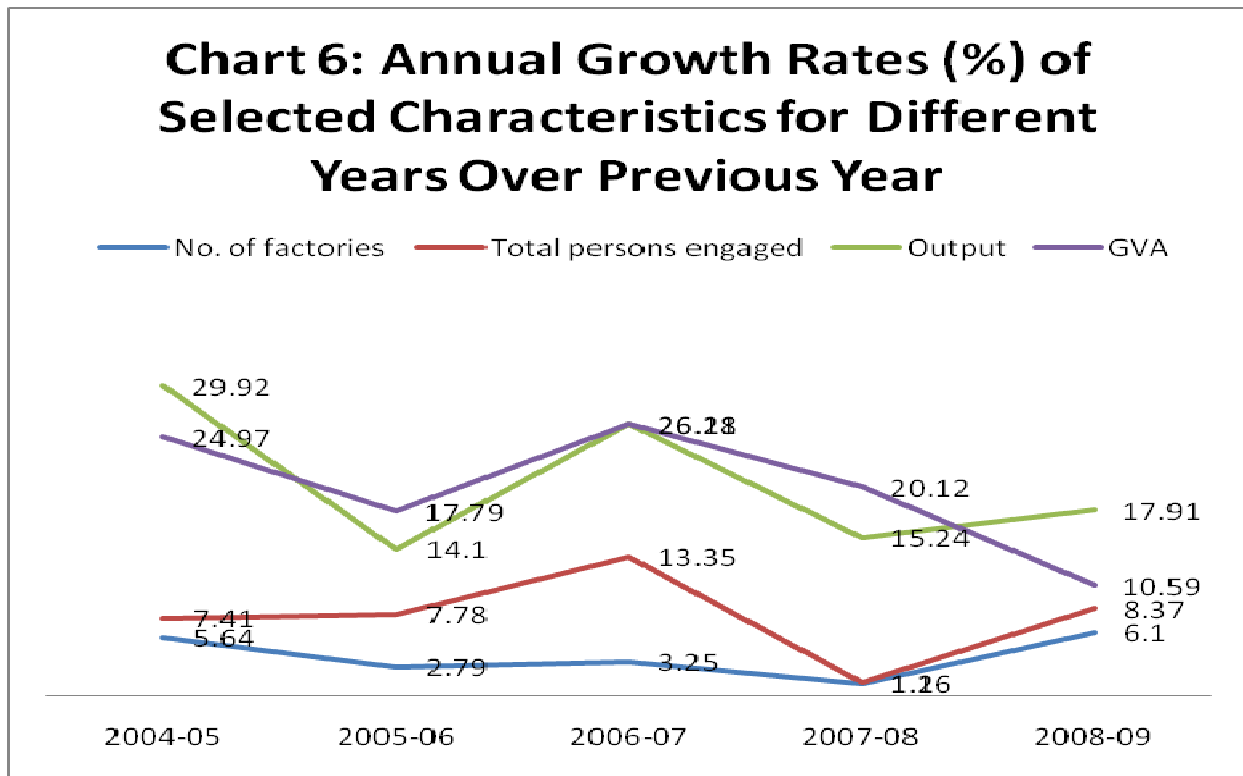

2.7 State/UT wise distribution of factories by size of employment

2.7.1 **Statement 2.7a** presents distribution of state-wise total number of factories by size classes of employment for manufacturing sector. The corresponding percentage distribution is given in **Statement 2.7b**. **Statements 2.8a** and **2.8b** are the corresponding statements for all activities/sectors taken together. Considering the entire factory sector (see Statement 2.8b), as high as 47% of the factories had engaged less than 20 persons while 1.6% of the factories had engaged at least 1000 workers.

2.7.2 At the national level, more than one-third (36.3%) of the factories engaged 14 or less number of persons. In this lowest size class of employment, Goa had the least proportion of factories (19.1%) whereas Nagaland had the highest proportion (61.5%) of factories. In the highest size class of employment with 5000 and more persons, the State of Chattisgarh had the highest percentage of factories (3.4%). In terms of absolute number also, the State of Chattisgarh topped the list with 64 factories in the employment range of 5000 & above, followed by Karnataka (34 factories), Kerala (29 factories), Jharkhand (25 factories), and Tamil Nadu (22 factories).

2.8 Observed growths for the last five years

2.8.1 Observed annual growth rates of selected characteristics for the last five years i.e. 2004-05 to 2008-09 over the corresponding previous year for the entire factory sector are given in **Statement 2.9a**. The corresponding growth rates for manufacturing sector are indicated in **Statement 2.9b**. As may be seen from Statement 2.9a, during 2008-09, total number of factories grew by 6.1% with the resulting increase in growth rates of 8.4% in total number of persons engaged, 17.9% in total value of output, and 10.6% in aggregate GVA. **Chart 6** below depicts the annual growth rates in total number of factories, total number of persons engaged and aggregate GVA.

**Statement 0: Number of factories (i) in the frame,
(ii) selected and (iii) surveyed in ASI 2008-09**

SAMPLE DESIGN AND ESTIMATION PROCEDURE

1. As stated in Section 1 of this publication, FOD, NSSO collects the data for central sample units, and the data so collected are validated, processed, tabulated and published by the CSO (IS Wing). For selection of central sample units, all the factories in the frame are divided into two categories, viz., Census Sector and Sample Sector.

2. **Census Sector:** Census Sector consists of the following units:

a) All industrial units belonging to the five less industrially developed states/ UT's viz. Manipur, Meghalaya, Nagaland, Tripura and Andaman & Nicobar Islands.

b) For the rest of the twenty-six states/ UT's., (i) units having 100 or more workers, and (ii) all factories covered under Joint Returns.

c) After excluding the Census Sector units as defined above, all units belonging to the strata (*State by 4-digit of NIC-04*) having less than or equal to 4 units are also considered as Census Sector units.

3. **Sample Sector:** From the remaining units excluding those of Census Sector, called the sample sector, samples are drawn circular systematically considering sampling fraction of 20% within each stratum (*State X 4-digit NIC*) for all the states. An even number of units with a minimum of 4 are selected and evenly distributed in two sub-samples. The sectors considered here are Biri, Manufacturing and Electricity.

4. Estimation Procedure

4.1 Notations:

i = subscript for i -th state

s = subscript for s -th stratum in the i -th state

m = subscript for sub-sample ($m = 1, 2$)

k = subscript for k -th sample enterprise under a particular stratum

E = total number of factory **in the sample sector** in a stratum

e = number of factories surveyed out of total number of factory **in the sample sector** in a stratum

x, y = observed value of characteristics x, y under estimation

\hat{X}, \hat{Y} = estimate of population total X, Y for the characteristics x, y

Under the above symbols,

Y_{ismk} = observed value of the characteristic y for the k -th enterprise belonging to the m -th sub-sample for the s -th stratum in the i -th state.

(a) Formulae for estimation of aggregates for a state based on central sample:

Estimation formula for any characteristics of the enterprise **for the sample sector** of the i -th state is:

$$\hat{Y}'_i = \sum_{s=1} \left[\frac{E_{is}}{e_{is}} \left[\sum_{k=1}^{e_{is1}} y_{is1k} + \sum_{k=1}^{e_{is2}} y_{is2k} \right] \right] \dots\dots\dots (1)$$

The formula for corresponding sub-sample wise estimates **for the sample sector** of the i -th state is:

$$\hat{Y}'_{im} = \sum_{s=1} \left[\frac{E_{is}}{e_{ism}} \sum_{k=1}^{e_{ism}} y_{ismk} \right], \quad m= 1,2. \dots\dots\dots (1.1)$$

If \hat{Y}''_i be the corresponding estimate for that characteristic of the enterprise **for the census sector** of the i -th state, then the estimate for that characteristic of the enterprise for the i -th state **as a whole** is given by:

$$\hat{Y}_i = \hat{Y}'_i + \hat{Y}''_i \dots\dots\dots (2)$$

The estimate of the characteristic of the enterprise for all-India will be:

$$\hat{Y} = \sum_i \hat{Y}_i \dots\dots\dots (3)$$

4.2 Estimates of Ratios:

Let \hat{Y} and \hat{X} be the overall estimate of the aggregates Y and X for two characteristics y and x , respectively at the State/ UT/ all-India level.

Then the combined ratio estimate (\hat{R}) of the ratio ($R = \frac{Y}{X}$) will be obtained as

$$\hat{R} = \frac{\hat{Y}}{\hat{X}}.$$

4.3 Estimates of Error for Aggregate \hat{Y} : The variance is to be obtained for the sample sector units only. The estimated variances of the estimates at state level will be as follows:

$$V\hat{a}r(\hat{Y}_i) = \sum_s V\hat{a}r(\hat{Y}_{is}) \dots\dots\dots (4)$$

where $V\hat{a}r(\hat{Y}_{is})$ is given as below:

$$V\hat{a}r(\hat{Y}_{is}) = \{(\hat{Y}_{is1} - \hat{Y}_{is2})/2\}^2 \dots\dots\dots (5)$$

For all-India, the estimated variances of the estimates will be as follows:

$$V\hat{a}r(\hat{Y}) = \sum_i V\hat{a}r(\hat{Y}_i) \dots\dots\dots (6)$$

4.4 For ratio \hat{R} :

For \hat{R} at all-India,

$$M\hat{S}E(\hat{R}) = \frac{1}{(\hat{X})^2} [\hat{V}(\hat{Y}) - 2\hat{R}Co\hat{v}(\hat{X}, \hat{Y}) + \hat{R}^2\hat{V}(\hat{X})] \dots\dots\dots (7)$$

For \hat{R} at state level,

$$M\hat{S}E(\hat{R}_i) = \frac{1}{(\hat{X}_i)^2} [\hat{V}(\hat{Y}_i) - 2\hat{R}_iCo\hat{v}(\hat{X}_i, \hat{Y}_i) + \hat{R}_i^2\hat{V}(\hat{X}_i)] \dots\dots (8)$$

4.5 Estimates of RSE:

$$R\hat{S}E(\hat{Y}) = \frac{\sqrt{V\hat{a}r(\hat{Y})}}{\hat{Y}} \times 100 \dots\dots\dots (9)$$

$$M\hat{S}E(\hat{R}) = \frac{\sqrt{M\hat{S}E(\hat{R})}}{\hat{R}} \times 100 \dots\dots\dots (10)$$

4.6 Multipliers for enterprises:

The formulae for multipliers for a stratum are given below:

formula for sub-sample wise multiplier	formula for combined sample multiplier
$\frac{E_{is}}{e_{ism}}, \quad i= 1 \text{ or } 2.$	$\frac{E_{is}}{e_{is}}$

4.7 Treatment for surveyed cases and casualty cases:

4.7.1 While counting the number of units surveyed (e_{ism}) in the m-th sub-sample of a stratum, all the units with survey codes 1 to 15 in Item 12, Block A will be considered.

4.7.2 *Casualty cases*: Units with survey codes 7-10 and 15 as per Item 12, Block A are treated as casualties.

4.8 Treatment in cases of void strata

4.8.1 A stratum may be void because of the casualty of all the units belonging to the stratum. This may occur in one sub-sample or in both the sub-samples. If it relates to only one sub-sample, then estimate for the void stratum may be replaced with the estimate as obtained from the other sub-sample for the same stratum.

4.8.2 When a stratum is void in both the sub-samples, the following procedure is recommended:

Case (I): Census sector is void, but sample sector is not void:

i) Information in respect of all the characteristics may be borrowed from the previous year, if available, for the census sector units belonging to that stratum. In case the information is available for some, then an adjustment factor is to be obtained for the census sector units for which information is not available. For example, if information is available for n units out of N in the census sector in a particular stratum, then the appropriate adjustment factor would be (N/n).

Case (II): Sample sector is void, but Census sector is not void:

ii) The estimated figures in respect of all the characteristics obtained for the census sector may be assumed to hold good for each of the units in the sample sector and accordingly, the estimate for the sample sector may be obtained. For example, if there are n units in the sample sector in a particular stratum, then the estimated figure per census units (i.e., average figures) for a characteristic will be multiplied by n to obtain the estimate for the sample sector in that stratum.

Case (III): Both the Sample sector and Census sector are void:

iii) The stratum may be merged with the nearest stratum looking into the description of the 4-digit NIC activity, or else it could be merged with the 4-digit NIC activity 'others' within that 4-digit NIC group.

Concepts, Definitions and Procedures

Important concepts and definitions used in ASI are explained below.

1. A number of accounting, economic and other terms related to the factories are used in conduct of Annual Survey of Industries. For proper assessment and interpretation of ASI data, those are given below.

2. Accounting Year: For the purpose of ASI, the accounting year is the period on which the factory closes its books of account. With the enactment of Income Tax Act, by and large, the accounting year of all factories is from April to March.

3. Reference Period: It corresponds to the financial year. For example, for ASI 2008-2009 the reference period is the financial year commencing from 1st April 2008 and ending on 31st March 2009 or the accounting year of the factory ending on any date between 1.4.08 to 31.3.09.

4. Survey Period: Survey period is a period during which work of any Annual Survey of Industries is undertaken. Since ASI 1978-79 the survey period has been fixed from 1st July to 30th June of the next year. From ASI 1998-99 the survey period has been changed from 12 months to 4 months i.e. from Nov'99 to Feb'2000. The survey period for ASI 99-00 has been again changed from October to March. The survey period for ASI 2008-2009 is from Sept. 2009 to April, 2010.

5. Factory (as per the Factory Act 1948): Factory is one, which is registered under Sections 2m(i) and 2m(ii) of the Factories Act, 1948. The Sections 2m(i) and 2m(ii) refer to any premises including the precinct thereof (i) wherein ten or more workers are working, or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on, or (ii) wherein twenty or more workers are working, or were working on any day of the preceding twelve months and in any part of which a manufacturing process is being carried on without the aid of power, or is ordinarily so carried on. Closed factories with fixed assets on site are also considered as registered factories till they are de-registered and removed from the live-register maintained by the Chief Inspector of Factories (CIF) in the State.

6. Manufacturing Process: This is as per Section 2(k) of the Factories Act, 1948, and briefly mentioned in Section 1.

7. Gross Value of Plant and Machinery: Gross value of plant and machinery represents the total original (undepreciated) value of installed plant and machinery as at the end of the accounting year. It includes the book value of own constructed plant and machinery, if installed, and the approximate value of rented-in plant and machinery as at the time of

renting in but excludes the value of rented-out plant and machinery. Total value of all the plant and machinery acquired on hire-purchase basis is also included. Thus it represents the gross value of plant and machinery engaged in production process.

8. Fixed Capital: Fixed Capital represents the depreciated value of fixed assets owned by the factory as on the closing day of the accounting year. Fixed assets are those, which have normal productive life of more than one year. Fixed capital covers all type of assets, new or used or own constructed, deployed for productions, transportation, living or recreational facilities, hospitals, schools, etc. for factory personnel. It would include land, building, plant and machinery, transport equipment etc. It includes the fixed assets of the head office allocable to the factory and also the full value of assets taken on hire-purchase basis (Whether fully paid or not) excluding interest element. It excludes intangible assets and assets solely used for post-manufacturing activities such as, sale, storage, distribution, etc.

9. Depreciation: Depreciation is consumption of fixed capital by the factory due to wear and tear and obsolescence during the accounting year and is taken as provided by the factory owner, or if not provided by the factory this is estimated on the basis of cost of installation and working life of the fixed assets.

10. Finished Goods: Finished Goods are those, which are manufactured by the factory for sale. Finished goods should conform to a prescribed standard.

11. Physical Working Capital: This is defined to include all physical inventories owned, held or controlled by the factory as on the closing day of the accounting year such as the materials, fuels and lubricants, stores, etc. that enter into products manufactured by the factory itself or supplied by the factory to others for processing. Physical working capital also includes the value of stock of materials, fuels and stores etc. purchased expressly for re-sale, semi-finished goods and goods-in-process on account of others and goods made by the factory which are ready for sale at the end of the accounting year. However, it does not include the stock of the materials, fuels, stores, etc. supplied by others to the factory for processing. Finished goods processed by others from raw materials supplied by the factory and held by them are included and finished goods processed by the factory from raw materials supplied by others, are excluded.

12. Working Capital: Working Capital is the sum total of the physical working capital as already defined above and the cash deposits in hand and at bank, land, the net balance of amounts receivable over amounts payable at the end of the accounting year. Amounts receivable include value of credit items on revenue account, such as sums due to the factory for goods sold, amounts advanced in connection with normal factory work, bills of exchange payable to the factory, payments made in advance such as for fire insurance, telephone charges, rates and taxes, call deposits and security deposits having a normal life of less than one year, etc. It excludes unused overdraft facility, fixed deposits irrespective of duration, advances for acquisition of fixed assets, long-term loans including interest thereon and investment.

13. Invested Capital: Invested capital is the total of fixed capital and physical working capital.

14. Productive Capital: This is the total of fixed capital and working capital.

15. Outstanding Loans: Outstanding loans represent all loans, whether short-term or long-term, whether interest bearing or not, outstanding according to the books of the factory as on the closing day of accounting year.

16. Contract Worker: All persons who are not employed directly by an employer but through the third agency, i.e. contractor, are termed as contract workers. Those workers may be employed with or without the knowledge of the principal employer.

17. Employees: Employees relate to all persons engaged by the factory whether for wages or not, in work connected directly or indirectly with the manufacturing process and include all administrative, technical and clerical staff as also labour in production of capital assets for factory's own use. This is inclusive of persons holding position of supervision or management or engaged in administrative office, store-keeping section and welfare section, watch and ward staff, sales department as also those engaged in the purchase of raw materials etc. and production of fixed assets for the factory. It also includes all working proprietors and their family members who are actively engaged in the work of the factory even without any pay and the unpaid members of the co-operative societies who work in or for the factory in any direct and productive capacity. Persons in the head office connected with the manufacturing activity of the factory are also included in this item.

18. Labour Turnover: Labour turnover measures the extent of change in the working force due to accession and separation during a given period. The term 'accession' was defined as the total number of workers added to employment during the period, whether new or re-employed or transferred from other establishments or units under the same management. Inter-departmental transfers within the same establishment are, however ignored. The term 'separation' implies termination of employment at the instance of worker or employers. It includes termination of services due to death or retirement. As in the case of accession, transfers to other establishments are included but transfers within the same establishment are ignored. Retrenchment as a result of rationalisation or modernisation or any other cause, is also treated as separation.

19. Wages: Wages are defined to include all remuneration capable of being expressed in monetary terms and also payable/paid more or less regularly in each pay period to workers (defined above) as compensation for work done during the accounting year. It **includes:**

(i) Direct wages and salary (i.e. basic wages/salaries, payment of overtime, dearness, compensatory, house rent and other allowances);

(ii) Remuneration for period not worked (i.e. basic wages), salaries and allowances payable for leave period, paid holidays, lay-off payments and compensation for unemployment (if not paid from source other than employers);

(iii) Bonus and ex-gratia payment paid both at regular and less frequent intervals (i.e., incentive bonuses and good attendance bonuses, production bonuses, profit sharing bonuses, festival or yearend bonuses etc.).

It **excludes** layoff payments and compensation for employment except where such payments are for this purpose, i.e., payments not made by the employer. It **excludes** employer's contribution to old age benefits and other social security charges, direct expenditure on maternity benefits and creches and other group benefit in kind and travelling and other expenditure incurred for business purposes and reimbursed by the employer. The wages are expressed in terms of gross value, i.e., before deductions for fines, damages, taxes, provident fund, employee's state insurance contribution etc. Benefits in kind (perquisites) of individual nature are only **included**.

20. Bonus: Profit sharing bonus, festival bonus, year-end bonus, and all other bonuses and ex-gratia payments paid at less frequent intervals are covered by this term.

21. Workmen and Staff Welfare Expenses: These include expenditure incurred by the employer on the maternity benefits and crèches and other benefits such as supply of food, beverages, tobacco, clothing and group lodging at concessional rates and educational, cultural and recreational facilities and services and grants to trade unions and cooperative stores meant for employees. All group benefits are included.

22. Emoluments: These are defined in the same way as wages but paid to all employees plus imputed value of benefits in kind i.e. the net cost to the employers on those goods and services provided to employees free of charge or at markedly reduced cost which are clearly and primarily of benefit to the employees as consumers. It includes profit sharing, festival and other bonuses and ex-gratia payments paid at less frequent intervals (i.e. other than bonus paid more or less regularly for each period). Benefits in kind include supplies or services rendered such as housing, medical, education and recreation facilities. Personal insurance, income tax, house rent allowance, conveyance etc. for payment by the factory also is included in the emoluments.

23. Supplements to Emoluments: These include: (i) employer's contribution to old age benefits, i.e., provident fund, pension, gratuity, etc.; (ii) employer's contribution towards other social security charges such as Employees' State Insurance, compensation for work injuries, occupational diseases, maternity benefits, retrenchment and lay-off benefits etc.; and (iii) group benefits like direct expenditure on maternity, creches, canteen facilities, educational, cultural and recreational facilities and grant to trade unions, co-operative stores etc. meant for employees.

24. Compensation of Employees: Compensation of employees is the total of emoluments and supplement to emoluments.

25. Mandays Worked: These are obtained by summing up the number of mandays worked by persons working in each shift over all the shifts on all days, i.e. both manufacturing and non-manufacturing days. This figure excludes persons who are paid but remain on leave, strike, etc.

26. Mandays Paid For: The number of mandays paid for is arrived at by summing up the number of employees paid for in each shift. This also includes mandays on weekly schedule holidays if paid for and those absences with pay as also mandays lost through lay off/ strike for which compensation was payable.

27. Working Day: Working day means the days on which a manufacturing process and/ or repair or maintenance work was carried on.

28. Non-working Day: Apart from manufacturing day and repair and maintenance days there may be some non-working days. Non working days are those days on which the workers give their attendance but due to non-availability of raw materials power etc. no effective work is done. As the workers are paid for these days such days are also taken into account for the purpose of labour statistics.

29. Basic Materials: Basic materials are the materials which are important and of key nature to the industry on which the manufacturing process is based, viz. metal for machine, leather for shoe. Such material is not lost through the process of production but only changes its forms.

30. Consumable Stores: All such materials which assist the manufacturing process and lose their identity without entering the products are called consumable stores, e.g., cotton waste.

31. Fuel Consumed: Fuel Consumed represent total purchase value of all items of fuels, lubricants, electricity, water (purchased to make steam) etc. consumed by the factory during the accounting year except those which directly enter into products as materials consumed. It excludes that part of fuels, which is produced and consumed by the factory in manufacture i.e., all intermediate products and also fuels consumed by employees as part of amenities. It includes quantities acquired and consumed from allied concerns, their book value being taken as their purchase value and also the quantities consumed in production of machinery or other capital items for factory's own use.

32. Materials Consumed: Materials consumed represent the total delivered value of all items of raw materials, components, chemicals, packing materials and stores which actually entered into the production process of the factory during the accounting year. It also includes the cost of all the materials used in the production of fixed assets, including construction work for factory's own use. Components and accessories fitted as purchased with the finished product during the accounting year are also to be included. It excludes intermediate products. Intermediate products in the above context mean all those products which are produced by the factory and consumed for further manufacturing process.

33. Total Input: This comprises gross value of fuel materials etc. consumed (as defined above) and also other inputs viz. (a) cost of non-industrial services received from others (b) cost of materials consumed for repair and maintenance of factory's fixed assets including cost of work done by others to the factory's fixed assets (c) cost of contract and commission work done by others on materials supplied by the factory (d) cost of office supplies and products reported for sale during last year & used for further manufacture during the accounting year.

34. Intermediate Product: Intermediate Product is a product which is obtained during a manufacturing process, which may or may not be saleable and is not the intended final product.

35. Net Value of Semi-Finished Goods: It represents the excess/deficit of value of semi-finished goods and/or goods-in-process at the end of the accounting year over that at the beginning of year.

36. Products: These are defined to include the ex-factory value (i.i. exclusive of taxes, duties etc. on sale and inclusive of subsidies etc., if any) of all products and by-products, excluding intermediate products, that have been completed during the accounting year for sale whether actually sold during the accounting year or entered into books. Also include fixed assets produced by the factory for its own use.

37. Gross Output: Gross output is defined to include the ex-factory value, (i.e., exclusive of taxes, duties, etc. on sale and inclusive of subsidies etc., if any) of products and by-products manufactured during the accounting year, and the net value of the semi-finished goods, work-in-process, (represents the excess/deficit of value of semi-finished goods or work-in-process at the end of the accounting year over that of the beginning of the year plus net balance of semi-finished fixed assets on factory's capital account) and also the receipts for industrial and non-industrial services rendered to others, value of semi-finished goods of last year sold in the current year, sale value of goods sold in the same condition as purchased and value of electricity generated and sold. Value of gross output and total output has been used in the text inter-changeable to mean the same thing.

38. Industrial Services: Any services taken or rendered from one to another unit resulting in increase in the value of material during the manufacturing process are industrial services.

39. Non-Industrial Services: All such services which do not have a direct bearing on the manufacturing process but are needed by any manufacturing unit are called non-industrial services, say, transport.

40. Net Value Added: This is the increment to the value of goods and services that is contributed by the factory and is obtained by deducting the value of total inputs and depreciation from gross value of output.

CONFIDENTIAL

Government of India
Ministry of Statistics and Programme Implementation
Return under Rules 3 and 4 of the Collection of Statistics (Central Rules), 1959
Annual Survey of Industries: 2008-09 (Part -I)
(Please read the instructions before filling the return)

Block A: identification particulars (for official use)											
1. schedule despatch (DSL) no.											
2. PSL no.											
3. scheme code (<i>census-1, sample-2</i>)											
4. industry code as per frame (4-digit level of NIC-2004)											
5. industry code as per return (5-digit level of NIC-2008)											
6. description of industry:											
7. state code											
8. district code											
9. sector (<i>rural-1, urban-2</i>)											
10. RO /SRO code											
11. no. of units											
12. status of unit (<i>code</i>)											

Block B: particulars of the factory (to be filled by owner of the factory)											
1. name and address of the individual undertaking:						1.1 vill./town name:					
						1.2 district name:					
						1.3 state name:					
						1.4 PIN code					
2. type of organisation (<i>code</i>)											
3. type of ownership (<i>code</i>)											
4. if code is 4 or 5 in item 2 and code is 6 in item 3 , how many total number of units the company has											
5. original value of investment in P & M (range codes: less than or equal to one crore-1, more than 1 crore but less than or equal to 5 crore -2, more than 5 crore but less than or equal to 10 crore-3, more than 10 crore-4)											
6. whether the unit has ISO Certification, 14000 Series (yes-1, no-2)											
7. year of initial production (<i>in the format YYYY</i>)											
8. accounting year (<i>in the format YYYY to YYYY</i>)									to		
9. number of months of operation											
10. does your unit have computerised accounting system? (<i>yes-1, no-2</i>)											
11. can your unit supply ASI data in computer media? (<i>yes-1, no-2</i>)											
12. details of the contact person		i) name & designation:									
		ii) Tele (with STD code)									
		iii) FAX no.									
		iv) E-mail									

DECLARATION

I hereby declare that information furnished in this return is correct and complete to the best of my knowledge and belief.

DSL No PSL No

Block K: information and communication technology (ICT) usage		
item no.	ICT indicator	yes-1, no-2
1.	is the enterprise using computer?	
2.	does the enterprise use internet?	
3.	does the enterprise have its own website?	
4.	does the enterprise receive orders through internet?	
5.	does the enterprise use internet for business purpose?	
6.	does the enterprise access the internet through broadband?	
7.	does the enterprise has a local area network?	

Block L: energy conservation (EC) measures		
item no.	EC indicator	yes-1, no-2
have any measures been taken during last financial year with regard to:		
1.	electrical saving?	
2.	coal saving?	
3.	oil saving?	
4.	gas saving?	

FOR OFFICIAL USE ONLY

Block M: particulars of field operations					
1.	name of assistant superintendent		5.	date of receipt from factory.	
2.	signature of assistant superintendent		6.	date of verification/compilation	
3.	name of superintendent		7.	date(s) of scrutiny	
4.	signature of superintendent		8.	date of despatch	

Block N: comments of assistant superintendent/ superintendent
<p><i>Note: Reasons for negative working capital and for any abnormal values or entries (high or low) in respect to important characteristics (Such as GVA, working capital, wage rate, number of workers, distributive expenses, depreciation etc.) should be given invariably. For instance the reasons for high GVA could be increased demand/production, profit, govt. subsidy; or for low GVA, the reasons could be decreased demand/production, capacity under-utilization, high input cost etc. similarly reasons for any abnormal values of certain important ratios eg. Ratio of output to input, ratio of depreciation/distributive expenses to output etc should be given. Please refer to detailed instructions also for further guidance.</i></p>

	14) GVA (through Ex-factory Value)(Bl. J: item 12, col.13)(+)(Bl. G: item 8 col. 3)(-)(item 7 as above)			

5. Impose check on the following and give observations against each item		
srl. no.	check points	observations (Yes-1/No-2)
1.	Whether codes and identification particulars have been correctly furnished in Block A?	
2.	Whether information for all the items in Block B have been correctly furnished?	
3.	If the working capital in item 16 of Block D is negative whether reasons furnished in the footnote of Block D of the Return and also in Block N along with code.	
4.	Whether the entries against item 4 & 5 in Block B are furnished?	
5.	Whether the return has been duly signed by owner with stamp?	
6.	If wide variation is noticed between Opening & Closing value of Working Capital, whether reasons furnished in the footnote of Block D and also in Block L along with code	
7.	Whether special check has been made in case of negative GVA?	
8.	Whether basic entries have been thoroughly rechecked where output/input ratio is less than 0.5	
9.	Whether ratio of Distributive expenses to gross sales is reasonable? If no, whether the relevant entries have been rechecked particularly where this ratio exceeds 20%.	
10.	If the total Bonus is more than 20% of total wages/salaries whether suitable remarks given in the Return?	
11.	If sale value of goods sold in same condition as purchased (Item-12 of Block G) is less than the purchase value of the same (Item-11 of Block F), whether reasons furnished in the return ?	
12.	Whether Balance Sheet, Profit & Loss Account and Working Sheet are attached with the O/C of the Return ?	
13.	Whether, the ex-factory value of output in column-13 of Block J have been calculated correctly for each of the 10 major items of product and by-product and also for item 11 ?	
14.	Whether the entries in Blocks H & I are reported independently ?	

Signature of the Supdt./Sr. Supdt.

Name of the Supdt. /Sr. Supdt.

PART-B (To be filled in by Scrutinizing officer)		
Impose check on the following and give observations against each item		
srl. no.	check points	observations (Yes-1/No-2)
1.	Examine the Industry Code with reference to Production/Process and state whether Industry Code is reported in 5 digit NIC 2008 against item 5 of Block A.	
2.	Whether valid new State Code has been entered against item 7 of Block 'A'?	
3.	Whether Schedule Despatch no. has been correctly filled in against item 1 of Block A ?	
4.	State whether proper remarks in Block N for all important parameters such as GVA, working capital, wage rate, number of workers, distributive expenses, depreciation etc. are given.	
5.	Whether average salaries/wages per manday worked (worker) has been checked calculated correctly and are within the reasonable limits?	
6.	Whether special check has been made in case of negative GVA?	
7.	Whether basic entries have been rechecked where output/Input ratio is less than 0.5	
8.	Whether ratio of distributive expenses to gross sales is reasonable? If no, whether the relevant entries have been rechecked particularly where this ratio exceeds 20%.	
9.	If total bonus exceeds 20% of total salaries & wages, whether suitable remarks furnished ?	
10.	Whether yield ratio of products from basic materials consumed (in case the units of quantity are common or directly convertible) are correctly calculated and are within prescribed limits ?	
11.	Whether data reported in the return have been checked with Balance Sheet and Profit & Loss Account ?

222	2220	Manufacture of plastics products
231	2310	Manufacture of glass and glass products
239		Manufacture of non-metallic mineral products n.e.c.
	2391	Manufacture of refractory products
	2392	Manufacture of clay building materials
	2393	Manufacture of other porcelain and ceramic products
	2394	Manufacture of cement, lime and plaster
	2395	Manufacture of articles of concrete, cement and plaster
	2396	Cutting, shaping and finishing of stone
	2399	Manufacture of other non-metallic mineral products n.e.c.
241	2410	Manufacture of basic iron and steel
242	2420	Manufacture of basic precious and other non-ferrous metals
243		Casting of metals
	2431	Casting of iron and steel
	2432	Casting of non-ferrous metals
251		Manufacture of structural metal products, tanks, reservoirs and steam generators
	2511	Manufacture of structural metal products
	2512	Manufacture of tanks, reservoirs and containers of metal
	2513	Manufacture of steam generators, except central heating hot water boilers
252	2520	Manufacture of weapons and ammunition
259		Manufacture of other fabricated metal products; metalworking service activities

Description along with 3/4-digit NIC-2008 codes

3-digit NIC- 2008	4-digit NIC- 2008	Description
	2591	Forging, pressing, stamping and roll-forming of metal; powder metallurgy
	2592	Machining; treatment and coating of metals
	2593	Manufacture of cutlery, hand tools and general hardware
	2599	Manufacture of other fabricated metal products n.e.c.
261	2610	Manufacture of electronic components
262	2620	Manufacture of computers and peripheral equipment
263	2630	Manufacture of communication equipment
264	2640	Manufacture of consumer electronics
265		Manufacture of measuring, testing, navigating and control equipment; watches and clocks
	2651	Manufacture of measuring, testing, navigating and control equipment
	2652	Manufacture of watches and clocks
266	2660	Manufacture of irradiation, electromedical and electrotherapeutic equipment
267	2670	Manufacture of optical instruments and equipment
268	2680	Manufacture of magnetic and optical media
271	2710	Manufacture of electric motors, generators, transformers and electricity distribution and control apparatus
272	2720	Manufacture of batteries and accumulators
273		Manufacture of wiring and wiring devices
	2731	Manufacture of fibre optic cables for data transmission or live transmission of images
	2732	Manufacture of other electronic and electric wires and cables
	2733	Manufacture of wiring devices
274	2740	Manufacture of electric lighting equipment
275	2750	Manufacture of domestic appliances
279	2790	Manufacture of other electrical equipment

Description along with 3/4-digit NIC-2008 codes

3-digit NIC- 2008	4-digit NIC- 2008	Description
281		Manufacture of general purpose machinery
	2811	Manufacture of engines and turbines, except aircraft, vehicle and cycle engines
	2812	Manufacture of fluid power equipment
	2813	Manufacture of other pumps, compressors, taps and valves
	2814	Manufacture of bearings, gears, gearing and driving elements
	2815	Manufacture of ovens, furnaces and furnace burners
	2816	Manufacture of lifting and handling equipment
	2817	Manufacture of office machinery and equipment
	2818	Manufacture of power-driven hand tools
	2819	Manufacture of other general-purpose machinery
282		Manufacture of special-purpose machinery
	2821	Manufacture of agricultural and forestry machinery
	2822	Manufacture of metal-forming machinery and machine tools
	2823	Manufacture of machinery for metallurgy
	2824	Manufacture of machinery for mining, quarrying and construction
	2825	Manufacture of machinery for food, beverage and tobacco processing
	2826	Manufacture of machinery for textile, apparel and leather production
	2829	Manufacture of other special-purpose machinery
291	2910	Manufacture of motor vehicles
292	2920	Manufacture of bodies (coachwork) for motor vehicles; manufacture of trailers and semi-trailers
293	2930	Manufacture of parts and accessories for motor vehicles
301		Building of ships and boats
	3011	Building of ships and floating structures

Description along with 3/4-digit NIC-2008 codes

3-digit NIC- 2008	4-digit NIC- 2008	Description
	3012	Building of pleasure and sporting boats
302	3020	Manufacture of railway locomotives and rolling stock
303	3030	Manufacture of air and spacecraft and related machinery
304	3040	Manufacture of weapons and ammunition
309		Manufacture of transport equipment n.e.c.
	3091	Manufacture of motorcycles
	3092	Manufacture of bicycles and invalid carriages
	3099	Manufacture of other transport equipment n.e.c.
310	3100	Manufacture of furniture
321		Manufacture of jewellery, bijouterie and related articles
	3211	Manufacture of jewellery and related articles
	3212	Manufacture of imitation jewellery and related articles
322	3220	Manufacture of musical instruments
323	3230	Manufacture of sports goods
324	3240	Manufacture of games and toys
325	3250	Manufacture of medical and dental instruments and supplies
329	3290	Other manufacturing n.e.c.
331		Repair of fabricated metal products, machinery and equipment
	3311	Repair of fabricated metal products
	3312	Repair of machinery
	3313	Repair of electronic and optical equipment
	3314	Repair of electrical equipment
	3315	Repair of transport equipment, except motor vehicles

Description along with 3/4-digit NIC-2008 codes

3-digit NIC- 2008	4-digit NIC- 2008	Description
	3319	Repair of other equipment
332	3320	Installation of industrial machinery and equipment
351	3510	Electric power generation, transmission and distribution
352	3520	Manufacture of gas; distribution of gaseous fuels through mains
353	3530	Steam and air conditioning supply
360	3600	Water collection, treatment and supply
370	3700	Sewerage
381		Waste collection
	3811	Collection of non-hazardous waste
	3812	Collection of hazardous waste
382		Waste treatment and disposal
	3821	Treatment and disposal of non-hazardous waste
	3822	Treatment and disposal of hazardous waste
383	3830	Materials recovery
452	4520	Maintenance and repair of motor vehicles
454	4540	Sale, maintenance and repair of motorcycles and related parts and Accessories
521	5210	Warehousing and storage
581		Publishing of books, periodicals and other publishing activities
	5811	Book publishing
	5812	Publishing of directories and mailing lists
	5813	Publishing of newspapers, journals and periodicals
	5819	Other publishing activities
591		Motion picture, video and television programme activities

Description along with 3/4-digit NIC-2008 codes

3-digit NIC- 2008	4-digit NIC- 2008	Description
	5911	Motion picture, video and television programme production activities
	5912	Motion picture, video and television programme post-production activities
	5913	Motion picture, video and television programme distribution activities
592	5920	Sound recording and music publishing activities
742	7420	Photographic activities
829		Business support service activities n.e.c.
	8292	Packaging activities
951		Repair of computers and communication equipment
	9511	Repair of computers and peripheral equipment
	9512	Repair of communication equipment
952		Repair of personal and household goods
	9521	Repair of consumer electronics
	9522	Repair of household appliances and home and garden equipment
	9523	Repair of footwear and leather goods
	9524	Repair of furniture and home furnishings
	9529	Repair of personal and household goods, n.e.c.
960		Other personal service activities
	9601	Washing and (dry-) cleaning of textile and fur products
