PRESS NOTE

**REVISED ESTIMATES OF ANNUAL NATIONAL INCOME, 2009-10
AND
QUARTERLY ESTIMATES OF GROSS DOMESTIC PRODUCT, 2009-10**

The Central Statistics Office (CSO), Ministry of Statistics and Programme Implementation, has released the revised estimates of national income for the financial year 2009-10 and the quarterly estimates of Gross Domestic Product (GDP) for the fourth quarter (January-March) of 2009-10, both at constant (2004-05) and current prices.

2. The CSO has also released the corresponding annual and quarterly estimates of Expenditure components of the GDP in current and constant (2004-05) prices, namely the private final consumption expenditure, government final consumption expenditure, gross fixed capital formation, change in stocks, valuables, and net exports.

I REVISED ANNUAL ESTIMATES OF NATIONAL INCOME, 2009-10

3. The advance estimates of national income for the year 2009-10 were released on 8th February, 2010. These estimates have now been revised incorporating latest estimates of agricultural production, index of industrial production and performance of key sectors like, railways, transport other than railways, communication, banking and insurance and government expenditure.

4. The salient features of these estimates are detailed below:

(a) Estimates at constant (2004-05) prices

Gross Domestic Product

5. GDP at factor cost at constant (2004-05) prices in the year 2009-10 is now estimated at Rs. 44,64,081 crore (as against Rs. 44,53,064 crore estimated earlier on 8th February, 2010, showing a growth rate of 7.4 per cent (as against 7.2 per cent in the Advance Estimates) over the Quick Estimates of GDP for the year 2008-09 of Rs. 41,54,973 crore, released on 29th January 2010. The upward revision in the GDP growth rate is mainly on account of higher performance in 'agriculture, forestry and fishing', 'mining and quarrying' and 'manufacturing', than anticipated.

6. In the agriculture sector, the third advance estimates of crop production released by the Ministry of Agriculture showed an upward revision as compared to their second advance estimates in the production of rice (89.31 million tonnes from 87.56 million tonnes), wheat (80.98 million tonnes from 79.06 million tonnes), cotton (228.34 from 223.18 lakh bales of 170 kg. each) and sugarcane (274.66 million tonnes from 251.27 million tonnes) during 2009-10. Due to this upward revision in the production, the growth rate in 'agriculture, forestry and fishing' sector in 2009-10 has shown a growth rate of 0.2 per cent, as against the growth rate of (-) 0.2 per cent in the Advance estimates.

7. In the case of 'mining and quarrying', the Index of Industrial Production of Mining (IIP-Mining) registered a growth rate of 9.7 per cent during 2009-10, as against the growth rate of 8.3 per cent during April-November, 2009, which was used in the Advance Estimates. Due to

this increase in the IIP-Mining, the growth rate in GDP is now estimated at 10.6 per cent, as against the advance estimate growth rate of 8.7 per cent.

8. Similarly, the IIP of manufacturing registered a growth rate of 10.9 per cent during 2009-10, as against the growth rate of 7.7 per cent during April-November, 2009. Due to this increase in the IIP, the GDP of 'manufacturing' sector is now estimated at 10.8 per cent, as against the Advance estimate growth rate of 8.9 per cent.

9. However, the sector 'community, social and personal services' has shown a steep fall in growth rate to 5.6 per cent in the revised estimates, as against the growth rate of 8.2 per cent in the advance estimates, mainly due to greater fall in total expenditure of central government than anticipated (during April-December, 2009, the total expenditure of central government showed a rise of 18.5 per cent which was extrapolated in the advance estimates, whereas the RE, 2009-10 showed a rise of 15.6 per cent in this item during 2009-10) and increase in the deflator in terms of consumer price index for industrial workers (CPI-IW) from 11.4 per cent during April-December, 2009 to 12.4 per cent during 2009-10. Besides, there is also more fall in the GDP of other activities due to increase in the deflators than anticipated in terms of CPI-IW and wholesale price index.

10. The sectors which showed growth rates of 5 per cent or more, are 'mining and quarrying' (10.6 per cent), 'manufacturing' (10.8 per cent), 'electricity, gas and water supply' (6.5 per cent) 'construction' (6.5 per cent), 'trade, hotels, transport and communication' (9.3 per cent), 'financing, insurance, real estate and business services' (9.7 per cent), and 'community, social and personal services' (5.6 per cent). The 'agriculture, forestry and fishing' sector, however registered a growth rate of 0.2 per cent.

Gross National Income

11. The gross national income (GNI) at factor cost at 2004-05 prices is now estimated at Rs. 44,39,072 crore (as compared to Rs. 44,33,402 crore estimated earlier), during 2009-10, as against the previous year's Quick Estimate of Rs. 41,38,174 crore. In terms of growth rates, the gross national income is estimated to rise by 7.3 per cent during 2009-10, in comparison to the growth rate of 6.8 per cent in 2008-09.

Per Capita Net National Income

12. The per capita net national income in real terms (at 2004-05 prices) during 2009-10 is estimated to attain a level of Rs. 33,588 (as against Rs. 33,540 estimated on 8th February, 2010), as compared to the Quick Estimates for the year 2008-09 of Rs. 31,821. The growth rate in per capita income is estimated at 5.6 per cent during 2009-10.
