प्रस्तावना

राष्ट्रीय प्रतिदर्श सर्वेक्षण कार्यालय (एनएसएसओ) श्रमबल आंकड़ों की समय समय पर लगातार उपलब्धता के महत्व पर विचार करते हुए 2017 से आवधिक श्रमबल सर्वेक्षण (पीएलएफएस) करता आ रहा है। यह सर्वेक्षण भारत में रोजगार एवं बेरोजगारी की स्थिति पर आंकड़ों का प्राथमिक स्रोत है। इन आंकड़ों का उपयोग योजना, नीति निर्माण, निर्णय समर्थन और सांख्यिकीय विश्लेषण के लिए सरकार के विविध विभागों, मंत्रालयों, अन्य संगठनों, शिक्षाविदों, शोधकर्त्ताओं और विद्वानों द्वारा किया जाता है।

वर्तमान रिपोर्ट जुलाई 2022 - जून 2023 के दौरान किए गए सर्वेक्षण के आधार पर एनएसएसओ द्वारा लाई जा रही छठी वार्षिक रिपोर्ट है। पीएलएफएस की पहली वार्षिक रिपोर्ट जुलाई 2017 से जून 2018 की अवधि के लिए निकाली गई थी और तब से वार्षिक रिपोर्ट नियमित रूप से जारी की जा रही है। यह रिपोर्ट ग्रामीण एवं नगरीय दोनों क्षेत्रों में रोजगार एवं बेरोजगारी संकेतकों के अखिल भारतीय और राज्यवार विविध प्राक्कलन जैसे लिंग, आयु आदि विभिन्न स्तर पर उपलब्ध कराती है।

पीएलएफएस के लिए सर्वेक्षण कार्यविधि का विकास एनएसएसओ के सर्वेक्षण अभिकल्प एवं अनुसंधान प्रभाग (एसडीआरडी) द्वारा किया गया है। एनएसएसओ के क्षेत्र संकार्य प्रभाग (एफओडी) द्वारा इस सर्वेक्षण का क्षेत्र कार्य किया गया, जबकि आँकड़ा विधायन और सारणीयन कार्य समंक विधायन प्रभाग (डीपीडी) द्वारा किया गया है। सर्वेक्षण समन्वय प्रभाग (एससीडी) ने सर्वेक्षण से सम्बन्धित विविध गतिविधियों का समन्वय किया है।

आवधिक श्रमबल सर्वेक्षण के विभिन्न चरणों में बहुमूल्य मार्ग दर्शन के लिए मैं स्टैंडिंग कमेटी ऑन स्टेटिस्टिक्स (एससीओएस) और राष्ट्रीय सांख्यिकीय आयोग (एनएससी) के सदस्यों का बहुत आभारी हूँ। मैं इस रिपोर्ट को रिकॉर्ड समय में तैयार करने और जारी करने में शामिल एनएसएसओ के विभिन्न प्रभागों के अधिकारियों और कर्मचारियों द्वारा किए गए प्रयासों की भी सराहना करता हूँ।

मैं आशा करता हूँ कि यह रिपोर्ट योजनाकारों, नीति निर्माताओं, शिक्षाविदों, एवं शोधकर्त्ताओं द्वारा उपयोगी पायी जाएगी।

(सत्येन्द्र बहादुर सिंह)
महानिदेशक

PREFACE

Considering the importance of availability of labour force data at more frequent time intervals, National Sample Survey Office (NSSO) has been conducting the Periodic Labour Force Survey (PLFS) since 2017. The PLFS is the primary source of data on employment and unemployment situation in India. Data from PLFS are being used for planning, policy formulation, decision support and as input for further statistical exercises by various Departments and Ministries of the Government, other organisations, academicians, researchers and scholars.

The present Report is the sixth Annual Report being brought out by NSSO based on the survey conducted during July 2022 - June 2023. The first Annual Report of PLFS was brought out for the period July 2017 to June 2018 and since then Annual Reports are being released regularly. This Report provides All India as well as state-wise estimates of employment and unemployment indicators in both rural and urban areas with different levels of disaggregation like gender, age, etc.

The survey methodology for PLFS has been developed by the Survey Design and Research Division (SDRD) of NSSO. The field work of the survey has been carried out by the Field Operations Division (FOD), while the data processing and tabulation work has been done by the Data Processing Division (DPD) of NSSO. The Survey Coordination Division (SCD) coordinated various activities pertaining to the survey.

I am highly thankful to the members of the Standing Committee on Statistics (SCoS) and the National Statistical Commission (NSC) for their valuable guidance at various stages of Periodic Labour Force Survey. I also place on record my appreciation of efforts made by officers and officials of different Divisions of the NSSO involved in the preparation and release of this report in record time.

I hope this Report will be found useful by planners, policy makers, academicians and researchers, etc.

New Delhi
9 October 2023

(Satyendra Bahadur Singh)
Director General

Ministry of Statistics and Programme Implementation

Labour force estimates obtained from PLFS and earlier quinquennial rounds

Explanatory Note

1. The Periodic Labour Force Survey (PLFS) was designed with two major objectives for measurement of employment and unemployment. The first was to measure the dynamics in labour force participation and employment status in the short time interval of three months for only the urban areas in the Current Weekly Status (CWS). Second one was, for both rural and urban areas, to measure the labour force estimates on key parameters in both usual status (ps+ss) and CWS. To achieve these twin objectives as well as providing estimates on additional aspects of data (such as hours worked) which were not available from the quinquennial rounds of NSSO, certain changes were introduced in the sampling design and structure of the Schedule of inquiry. These changes are annexed in the first Annual Report on Periodic Labour Force Survey (PLFS), (July 2017 - June 2018): http://mospi.nic.in/sites/default/files/publication_reports/Annual%20Report%2C%20PLFS%202017-18_31052019.pdf

2. The users of this report are being apprised of the various aspects of the survey methodology, data collection mechanism and sampling design of PLFS vis-à-vis the Employment and Unemployment quinquennial rounds of NSSO (2011-12 and earlier years) so that these can be considered while comparing results from employment and unemployment surveys (2011-12 and earlier years) which were undertaken along with the NSS Consumer Expenditure Surveys. The results of the PLFS thus need to be understood and used in the context with which the survey methodology and sample selection has been designed.

मुख्य बातें

आवधिक श्रमबल सर्वेक्षण (पीएलएफएस) 2022-2023

सर्वेक्षण
अवधि

जुलाई 2022 से जून 2023

सर्वेक्षण
कवरेज

सर्वेक्षण किया गया

12,714 फर्स्ट स्टेज उनिट्स
(एफएसयु)ग्रामीण: 6,982 गांवों
नगरीय: 5,732 नगरीय खंडों

1,01,655 परिवारों

55,844 ग्रामीण क्षेत्रों में
45,811 नगरीय क्षेत्रों में

4,19,512 व्यक्तियों

2,43,971 ग्रामीण क्षेत्रों में
1,75,541 नगरीय क्षेत्रों में

इस सर्वेक्षण में पूरे भारतीय संघ को शामिल किया गया अंडमान और निकोबार द्वीप समूह के उन गांवों को छोड़कर जिन तक पहुँच पाना पूरे वर्ष तक बेहद कठिन था।

HIGHLIGHTS

Periodic Labour Force Survey (PLFS) 2022-2023

Survey
Period

July 2022 to June 2023

Survey
Coverage

Surveyed

12,714 First Stage Units
(FSUs)

Rural: 6,982 villages
Urban: 5,732 urban blocks

1,01,655 Households

55,844 in rural areas
45,811 in urban areas

4,19,512 Persons

2,43,971 in rural areas
1,75,541 in urban areas

The survey covered the whole of the Indian Union *except* the villages in Andaman and Nicobar Islands which remained extremely difficult to access throughout the year.

Approaches
for
presenting
Labour
Force
Indicators

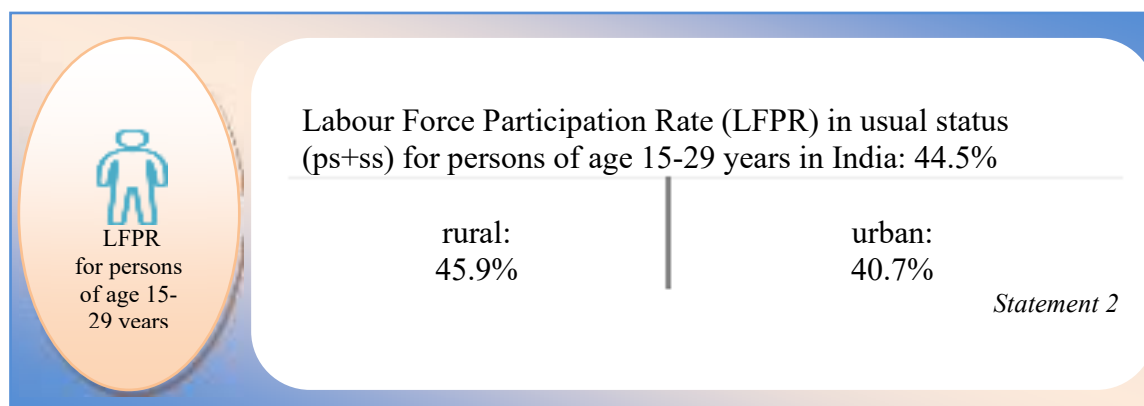

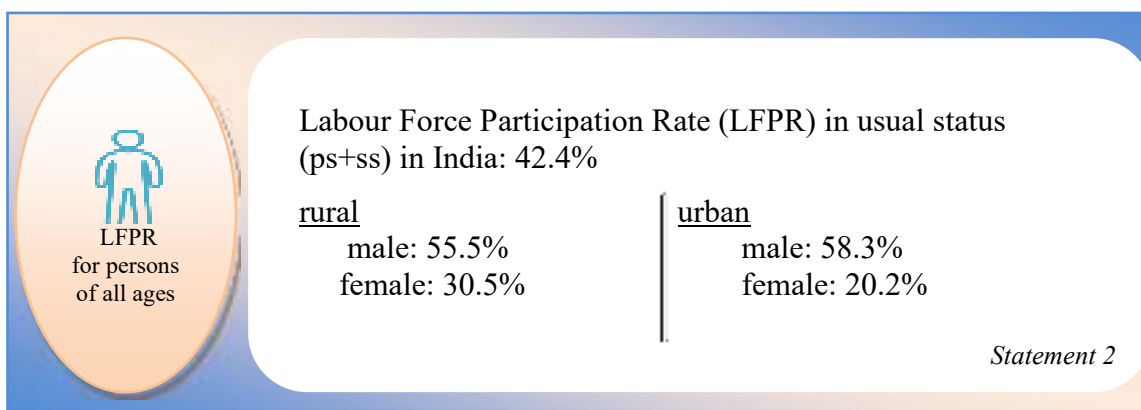

Approaches followed for presenting Labour Force Indicators

usual status (ps+ss)
Reference period : 1 year

current weekly status(CWS)
Reference period : 1 week

Some of the key results at the all-India level for the period July 2022 - June 2023 emerging from PLFS are highlighted below.

A. Labour Force in usual status (ps+ss)

B. Workforce

WPR
in usual
status for
persons of
all ages

Worker Population Ratio (WPR) in usual status (ps+ss) in India: 41.1%

rural

male: 54.0%
female: 30.0%

urban

male: 55.6%
female: 18.7%

Statement 4

WPR
in usual
status for
persons of
age 15-29
years

Worker Population Ratio (WPR) in usual status (ps+ss) for persons of age 15-29 years in India: 40.1%

rural:
42.3%

urban:
34.3%

Statement 4

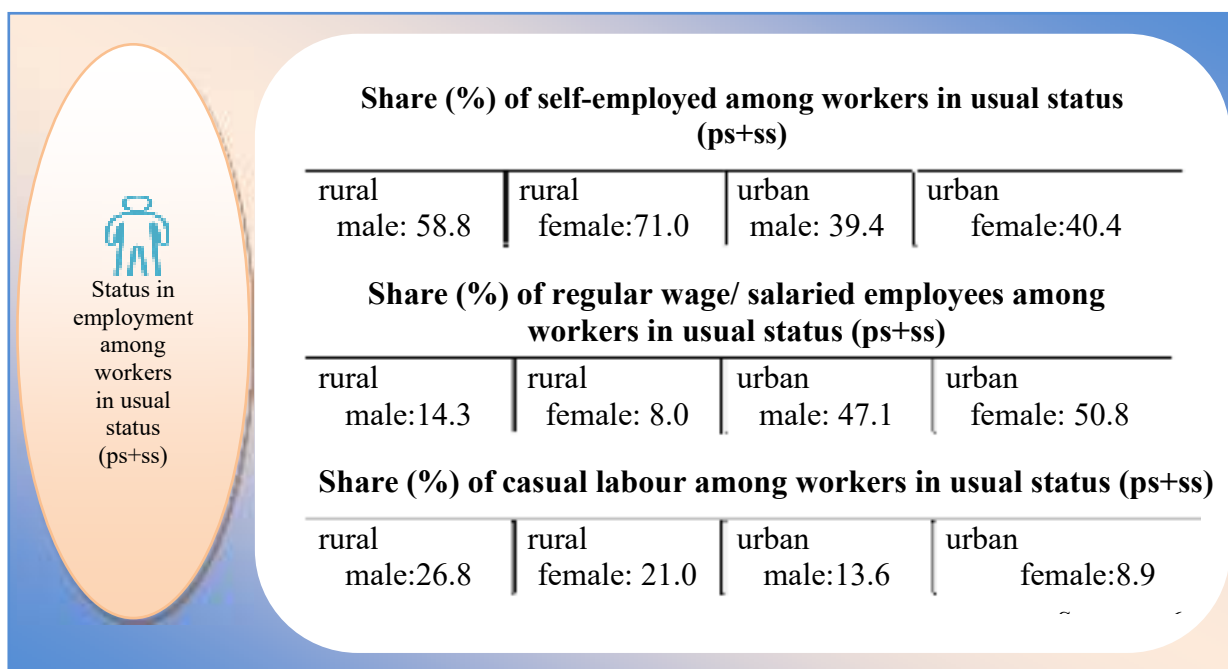

WPR
in usual
status for
persons of
age 15
years and
above

Worker Population Ratio (WPR) in usual status (ps+ss) for persons of age 15 years and above in India: 56.0%

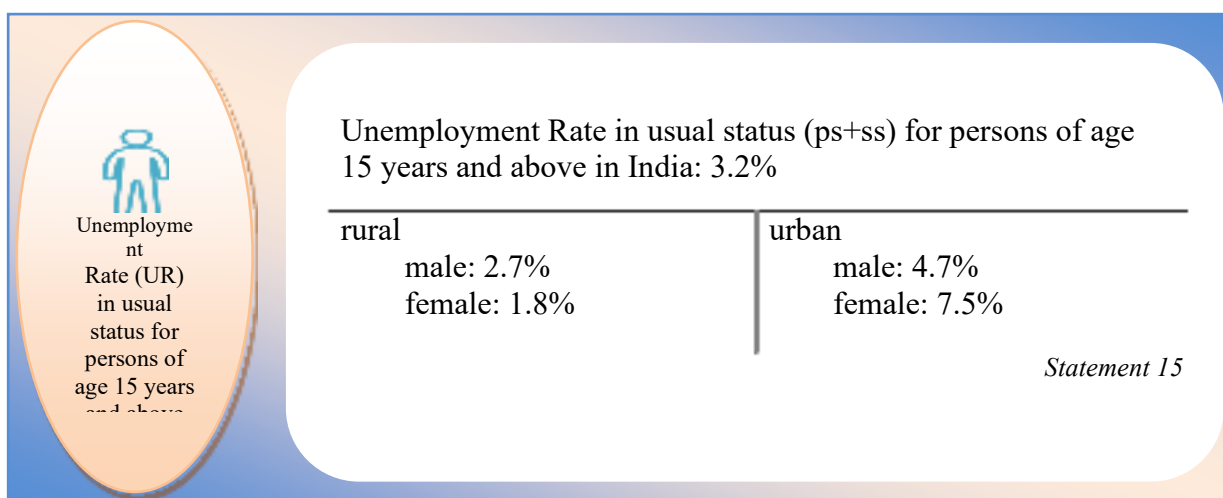

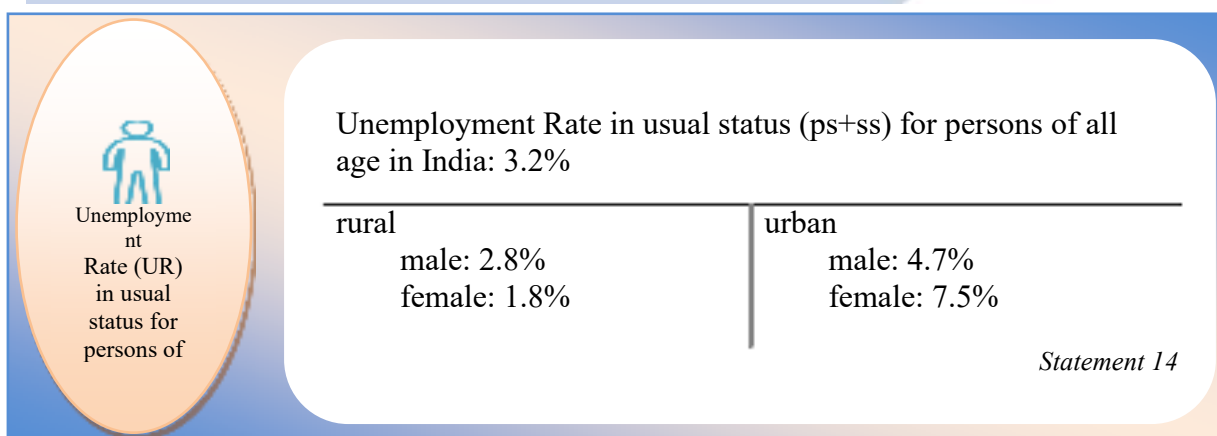

rural:
59.4%

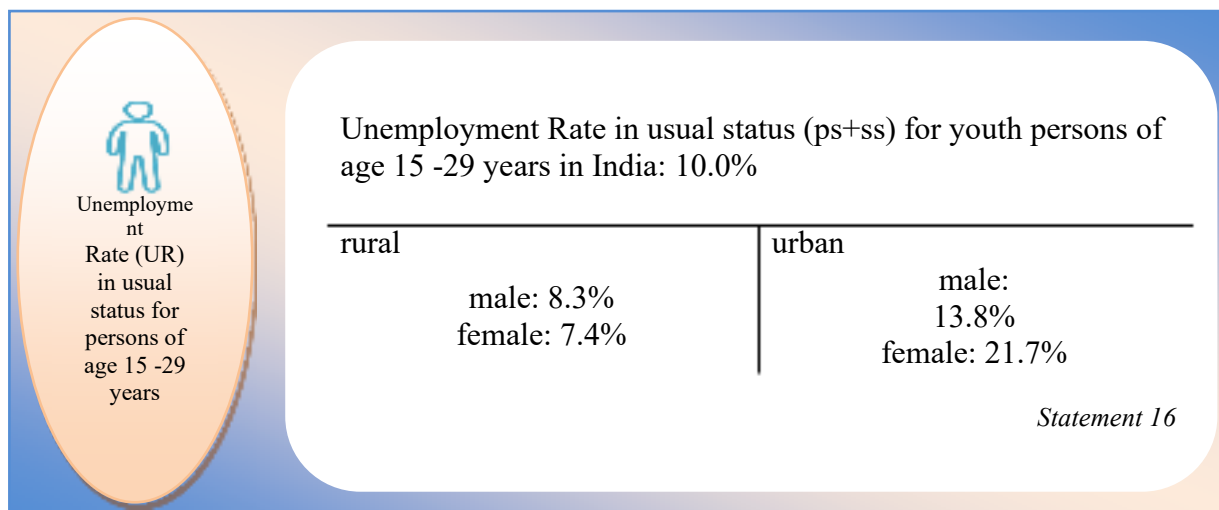

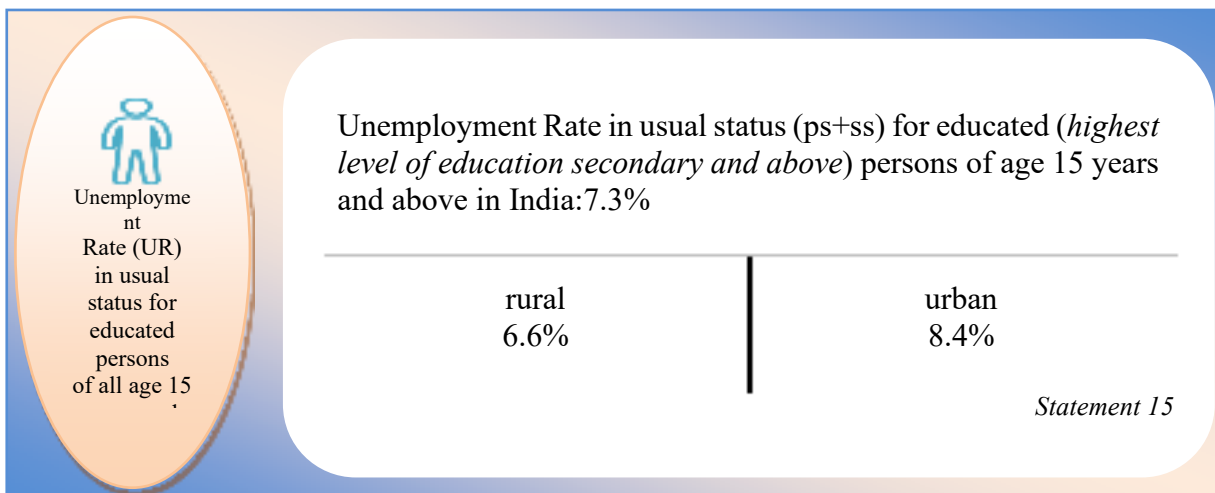

urban:
47.7%

Statement 4

C. Unemployment Rate in usual status (ps+ss)

D. Time Series of Key Labour Force indicators in usual status (ps+ss) obtained from PLFS

Summary of Findings

Summary of Findings

1.0 Introduction

1.1 Periodic Labour Force Survey (PLFS) of National Sample Survey Office (NSSO)

1.1.1 Considering the importance of availability of labour force data at more frequent time intervals, National Sample Survey Office (NSSO) launched Periodic Labour Force Survey (PLFS) in April 2017.

The objective of PLFS is primarily twofold:

- to estimate the key employment and unemployment indicators (viz. Worker Population Ratio, Labour Force Participation Rate, Unemployment Rate) in the short time interval of three months for the urban areas only in the Current Weekly Status (CWS)
- to estimate employment and unemployment indicators in both usual status (ps+ss) and CWS in both rural and urban areas annually.

Five Annual Reports on the basis of Periodic Labour Force Survey (PLFS) covering both rural and urban areas giving estimates of all important parameters of employment and unemployment in both usual status (ps+ss) and current weekly status (CWS) have been released. These five Annual Reports are brought out on the basis of data collected in PLFS during July 2017- June 2018, July 2018-June 2019, July 2019-June 2020, July 2020- June 2021 and July 2022 - June 2023.

This is the sixth Annual Report being brought out by NSSO on the basis of data collected in Periodic Labour Force Survey for the period July 2022 - June 2023.

1.2 PLFS fieldwork during July 2022 - June 2023

The field work for collection of information in respect of the samples, allotted for the period July 2022 – June 2023, was completed timely for the first visit as well as revisit samples, except for 51 first visit and 68 revisit FSUs for the State of Manipur, allotted in the last quarter i.e., April-June 2023, which were treated as casualties, due to disturbed field situation and unavailability of internet services.

Canvassing of revisit schedules is undertaken mostly in telephonic mode since June 2020 when field work was resumed after the suspension due to Covid-19 pandemic.

These aspects may be kept in mind while using the estimates of PLFS.

1.3 Sample Size

1.3.1 Sample Size for First Visit during July 2021- June 2022 in rural and urban areas: Out of the total number of 12,800 first stage units¹ (FSUs) (7,024 villages and 5,776 UFS blocks) allotted for the survey at the all-India level during July 2022 - June 2023, a total of

¹First stage units (FSU) are the Urban Frame Survey (UFS) blocks in urban areas and 2011 Population Census villages (Panchayat wards for Kerala) in rural areas

12,714 FSUs (6,982 villages and 5,732 urban blocks) were surveyed for canvassing the PLFS schedule (Schedule 10.4). The number of households surveyed was 1,01,655 (55,844 in rural areas and 45,811 in urban areas) and number of persons surveyed was 4,19,512 (2,43,971 in rural areas and 1,75,541 in urban areas).

1.3.2 Sample Size in urban areas in each of the quarter of survey period July 2022 - June 2023: In urban areas a rotational panel sampling design was used and in this rotational panel scheme each selected household in urban areas is visited four times – one with first visit Schedule and other three with revisit Schedule. In rural areas there was no revisit. In the table below, the sample size in terms of FSU (UFS block), households and persons in urban areas is given separately for each of the quarter of the survey period July 2022 - June 2023.

Table 1: Sample size in urban areas in each of the quarter of Survey period July 2022 - June 2023			
Survey Period	FSU (UFS blocks)	household	person
July- September 2022	5,669	44,358	1,71,225
October- December 2022	5,706	44,722	1,71,803
January – March 2023	5,726	44,982	1,72,089
April – June 2023	5,639	44,190	1,67,916
Please refer to the data reference given in Table 2 of this Chapter.			

1.4 Data reference and survey period of the Annual Report of Periodic Labour Force Survey (PLFS), 2022 -23

1.4.1 The results of the Annual Report of PLFS, 2022-23 are generated from the data collected during the four quarters of the survey period: July-September 2022, October-December 2022, January-March 2023 and April- June 2023.

1.4.2 The Statements in this Chapter and Tables (in Appendix A) of this report contain estimates of labour force indicators in *usual status (ps+ss)* and *current weekly status (CWS)*. This report also covers some aspects of earnings from employment, hours worked, etc.

1.4.3 In the table below, the data reference of different Statements/ Tables of this Report are given. Estimates in this report correspond to the data collected in the entire survey period July 2022 to June 2023 or for each of the four quarters of the survey period (July-September 2022, October-December 2022, January-March 2023 and April- June 2023). The reference period of the estimates of a particular survey period (for example for a specific quarter or for the entire survey period) is the mid-point of the corresponding survey period.

Table 2: Data reference of different Statement in this Chapter and Tables in Appendix A of this Report				
Tables in Appendix A	Statements in this Chapter	Data reference	Survey period	Relevant quarter of the financial year (FY)-2022-23/ 2023-24
Table 1 to Table 23, Table 29 to Table 34	Statements 1 to 9, 14 to 22	First visit samples for both rural and urban areas	July 2022- June 2023	Quarter 2, Quarter 3 and Quarter 4 of FY 2022-23 and Quarter 1 of FY 2023-24.
Table 24 to Table 28, Table 35 and Table 36	Statements 10 to 13	For rural areas: First visit samples For urban areas: the first visit as well as the revisit samples	July - September 2022	Quarter 2 of FY 2022-23
		For rural areas: First visit samples For urban areas: the first visit as well as the revisit samples	October – December 2022	Quarter 3 of FY 2022-23
		For rural areas: First visit samples For urban areas: the first visit as well as the revisit samples	January – March 2023	Quarter 4 of FY 2022-23
		For rural areas: First visit samples For urban areas: the first visit as well as the revisit samples	April – June 2023	Quarter 1 of FY 2023-24.
In rural areas, there was no revisit, so the quarterly estimates are based on the data collected only during the first visit				

1.5 Contents of the report

1.5.1 This report contains the present chapter and five appendices. The detailed tables forming the basis of this report are presented in Appendix A. The RSEs of some of the estimates have been presented in Appendix B. In Appendix C, the concepts and definitions of important terms used in the survey in connection with the various items covered in this report are presented. Appendix D gives a detailed description of the sample design and estimation procedure used for the survey. Appendix E gives a facsimile of the Schedule (Schedule 10.4) canvassed in the Periodic Labour Force Survey.

1.5.2 In the Report the key indicators of employment and unemployment among persons belonging to different social groups (*viz.*, *scheduled tribe*, *scheduled caste*, *other backward class* and the rest referred to as *others*) and for different religious groups (*Hinduism*, *Islam*, *Christianity* and *Sikhism*) are presented. It may be noted that the scope of the survey being all households without special focus on social groups or religious groups, sample design was not tailored to specifically net the social groups/religious groups. Thus, sample size for the social groups or religious groups in different States/UTs

may not be enough to provide sufficiently reliable estimates of the various indicators and therefore, the estimates for the social groups and religious groups are not presented for different State/UT in the Report.

1.5.3 If there are no sample households/persons in a particular category, the estimates/estimated proportions of households/persons in that category appear as zero (0). Estimated numbers 'in per cent' are also shown as zero (0), when they are greater than 0 but less than 0.05. While presenting the estimates in this report, transgender has been included in male. In the Statements/Tables where estimates are presented in percentages/percentage distributions, these are obtained by excluding not reported (n.r.) cases.

1.5.4 It may be noted that as the estimates in Tables/Statements are generally presented as 'percentage distribution' or rates 'in per cent', the figures are rounded off. Thus, while using the ratios from the survey results, the accuracy of these derived aggregates will be limited to the number of significant digits available in such ratios. While using the State/UT level estimates, it may be noted that the sample sizes for the smaller States/UTs may not be adequate enough for getting sufficiently reliable estimates for some of the employment and unemployment characteristics.

2.0 Summary of Findings

2.0.1 The summary of findings of the Periodic Labour Force Survey (PLFS) (July 2022-June 2023) at all-India level is presented here is arranged in the following Eight Sections:

- Section One: Labour Force
- Section Two: Workforce
- Section Three: Employment in Informal Sector and Conditions of Employment
- Section Four: Earnings from employment
- Section Five: Hours worked
- Section Six: Unemployment
- Section Seven: Employment status among social groups
- Section Eight: Employment status among major religious groups

2.1 Section One: Labour Force

2.1.0 Labour force, or in other words, the ‘economically active’ population includes both ‘employed’ and ‘unemployed’ persons. Estimates of the labour force have been obtained based on the following approaches:

- (i) according to the *usual status (ps+ss)* approach, i.e., by considering usual principal and subsidiary activity together,
- (ii) according to the *current weekly status* approach

The labour force according to the *usual status (ps+ss)* is obtained by considering the *usual principal status* and the *subsidiary status* together. The estimate of the labour force in the *usual status (ps+ss)* includes (a) the persons who either worked or were seeking/available for work for a relatively long part of the 365 days preceding the date of survey and also (b) those persons from among the remaining population who had worked at least for 30 days during the reference period of 365 days preceding the date of survey.

The labour force in *current weekly status* gives the average picture of the labour force participation in a short period of one week during the survey period. The estimate of labour force according to the current weekly status approach is derived by considering those who worked for at least 1 hour or was seeking/ available for work for at least 1 hour on any day during the 7 days preceding the date of survey.

2.1.1 Labour Force Participation Rates (LFPR) in usual status (ps+ss) and current weekly status (CWS)

2.1.1.1 The labour force participation rate (LFPR) is defined as the percentage of persons in the labour force among the persons in the population. In Statement 1, the LFPRs in *usual status (ps+ss)* and in CWS obtained from PLFS 2020-21, PLFS 2021-22 and PLFS 2022-23 are presented at the all-India level.

Statement 1: LFPR (in per cent) according to usual status (ps+ss) and CWS estimated from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-23)						
category of persons	all-India					
	LFPR during 2022-23 in		LFPR during 2021-22 in		LFPR during 2020-21 in	
	usual status (ps+ss)	CWS	usual status (ps+ss)	CWS	usual status (ps+ss)	CWS

person	42.4	40.0	41.3	38.7	41.6	39.2

2022-23 refers to the period July 2022 – June 2023 and likewise for 2021-22 and 2020-21

2.1.1.2 Detailed Table in Appendix A: Labour force participation rate according to usual status (ps+ss) for each State/UT is given in Table 6. Labour force participation rate according to usual principal status for each State/UT is given in Table 6.1.

2.1.1.3 Detailed Tables in Appendix A: Labour force participation rate according to *current weekly status* for each State/UT is given in Table 17.

2.1.2 Labour Force Participation Rates (LFPR) in usual status for different age groups

2.1.2.1 In Statement 2, the LFPRs for persons based on *usual status (ps+ss)* obtained from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-23) are presented at the all-India level for the following age groups:

- 15-29 years
- 15 years and above
- all ages

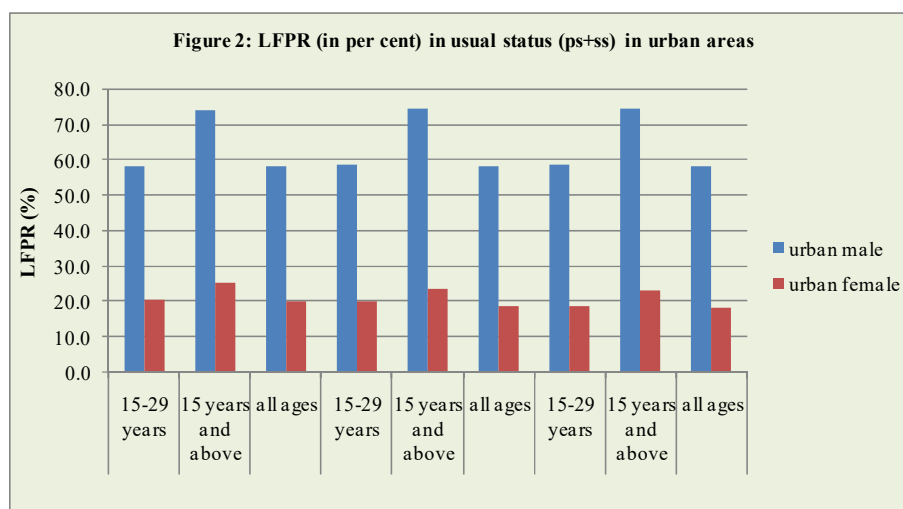

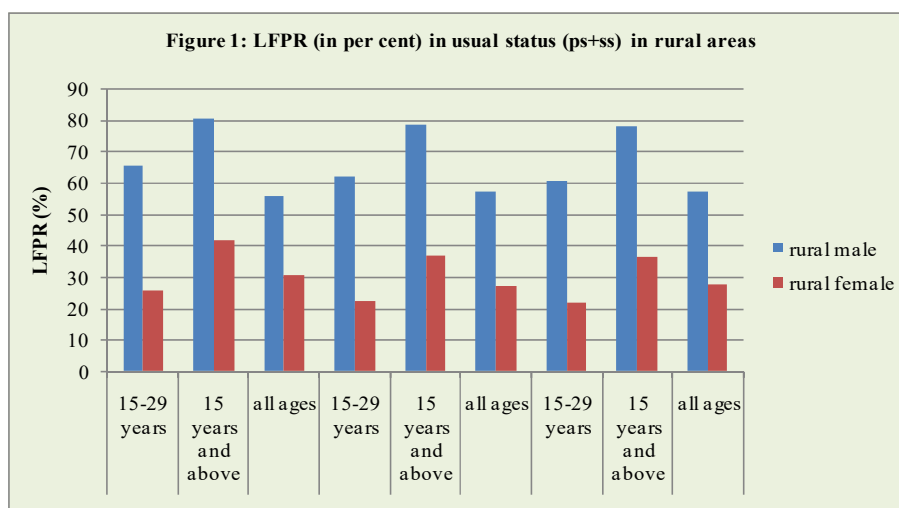

Figure 1 presents LFPRs in rural areas and in Figure 2 the corresponding figures for urban areas are presented.

2.1.2.2 Detailed Table in Appendix A: Labour force participation rate according to usual status (ps+ss) for different age groups are given in Table 6.

Statement 2: Labour force participation rates (in per cent) in usual status (ps+ss) estimated from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-2) for persons of 15-29 years, 15 years & above and persons of all ages

all-India									
age group	rural			urban			rural+urban		
	male	female	person	male	female	person	male	female	person
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)

15 years and above	78.1	36.5	57.4	74.6	23.2	49.1	77.0	32.5	54.9
all ages	57.1	27.7	42.7	58.4	18.6	38.9	57.5	25.1	41.6

2022-23 refers to the period July 2022 – June 2023 and likewise for 2021-22 and 2020-21

2.2 Section Two: Workforce

2.2.0 In this Section, various estimates of the employed persons are presented. The estimates of employed persons have been obtained based on the following approaches:

- (i) according to the *usual status (ps+ss)* approach, i.e., by considering usual principal and subsidiary activity together,
- (ii) according to the *current weekly status* approach

The workforce in the *usual status (ps+ss)* is obtained by considering the *usual principal status* and the *subsidiary status* together. The workforce in the *usual status (ps+ss)* includes (a) the persons who worked for a relatively long part of the 365 days preceding the date of survey and (b) the persons from among the remaining population who had worked at least for 30 days during the reference period of 365 days preceding the date of survey.

The workforce measured in *current weekly status (CWS)* gives the average picture of the workforce in a short period of one week during the survey period. The estimate of workforce in the *current weekly status* is derived considering those who worked for at least 1 hour on any day during the 7 days preceding the date of survey.

2.2.1 Worker Population Ratio (WPR) in different approaches

2.2.1.1 Worker Population Ratio (WPR) is the percentage of persons employed among the persons in the population. In Statement 3, WPR in *usual status (ps+ss)* and in CWS, as estimated from PLFS 2020-21, PLFS 2021-22 and PLFS 2022-23 are presented at the all-India level.

Statement 3: WPR (in per cent) according to usual status (ps+ss) and CWS estimated from PLFS 2020-21, PLFS 2021-22 and PLFS 2022-23						
category of persons	all-India					
	WPR during PLFS (2022-23) in		WPR during PLFS (2021-22) in		WPR during PLFS (2020-21) in

2022-23 refers to the period July 2022 – June 2023 and likewise for 2021-22 and 2020-21

2.2.1.2 Detailed Table in Appendix A: Worker Population Ratio (WPR) according to usual status (ps+ss) for each State/UT is given in Table 7. Worker Population Ratio (WPR) according to usual principal status for each State/UT is given in Table 7.1.

2.2.1.3 Detailed Table in Appendix A: WPRs according to current weekly status for each State/UT is given in Table 18.

2.2.2 Worker Population Ratio (WPR) in usual status (ps+ss) for different age groups

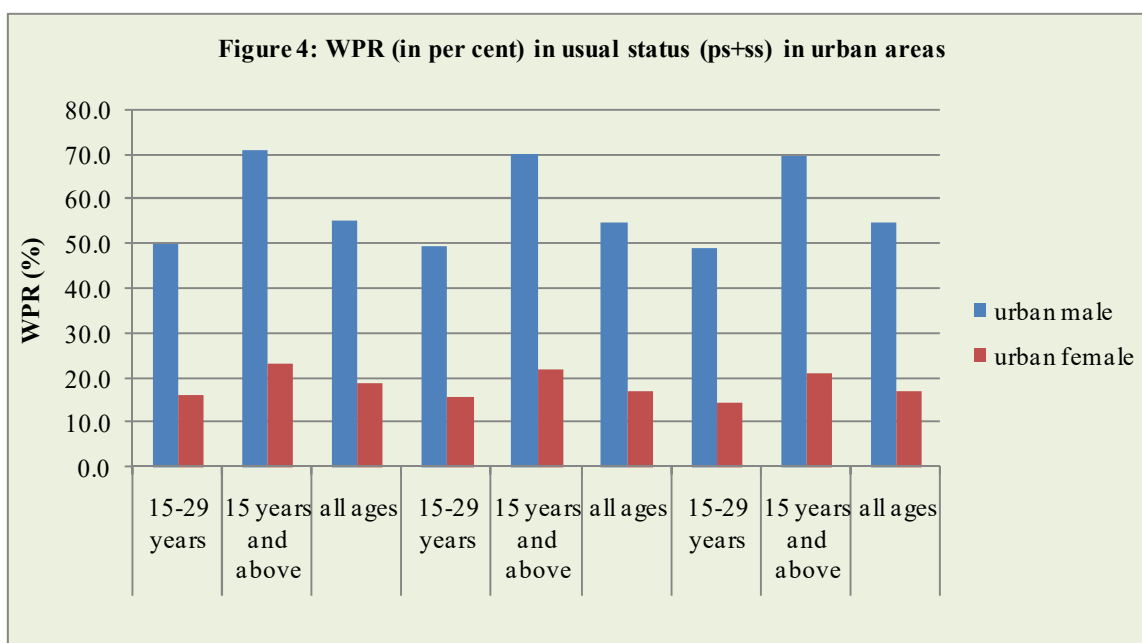

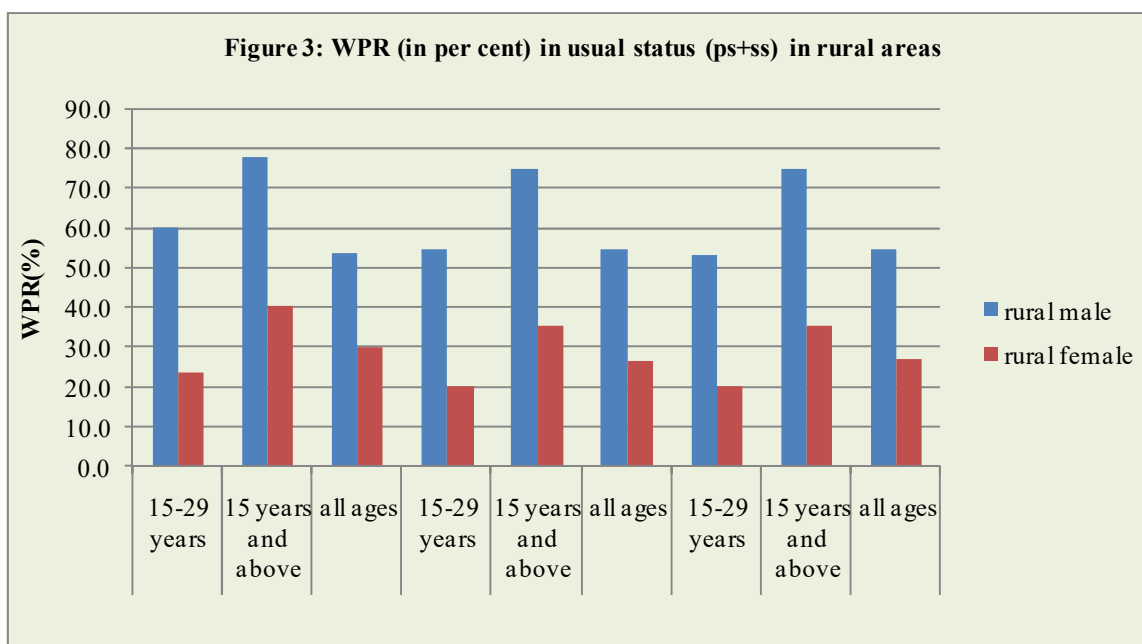

2.2.2.1 In Statement 4, the estimates of WPR based on *usual status (ps+ss)* approach obtained from PLFS 2020-21, PLFS 2021-22 and PLFS 2022-23 are presented at the all-India level for the following age groups:

- 15-29 years
- 15 years and above
- all ages

Figure 3 presents WPRs in rural areas and in Figure 4 the corresponding figures for urban areas are presented.

Statement 4: WPR (in per cent) in usual status (ps+ss) estimated from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-23) for persons of age 15-29 years, 15 years and above and persons of all ages									
age group	rural			urban			rural+urban

all ages	54.9	27.1	41.3	54.9	17.0	36.3	54.9	24.2	39.8
<i>2022-23 refers to the period July 2022 – June 2023 and likewise for 2021-22 and 2020-21</i>									

2.2.2.2 Detailed Table in Appendix A: Worker Population Ratio according to usual status (ps+ss) for persons of different age groups for each State/UT is given in Table 7.

2.2.3 Education level specific WPR in usual status (ps+ss) for persons of age 15 years and above

2.2.3.1 The percentage of workers in usual status (ps+ss) having particular levels of education among persons with that level of education is defined as the education level specific WPR. The highest level of education successfully completed by the person has been considered as the education level of the person. The education level specific WPRs in usual status (ps+ss) for persons of age 15 years and above, as obtained from PLFS (2022-23) are presented in Statement 5 for different levels of education.

2.2.3.2 Detailed Table in Appendix A: Worker Population Ratio (WPR) according to usual status (ps+ss) for persons of age 15 years and above of different general education level for each State/UT is given in Table 12.

Statement 5: WPRs (in per cent) in usual status (ps+ss) in different levels of education among persons of age 15 years and above estimated from PLFS (2022-23)

2022-23 refers to the period July 2022 – June 2023

2.2.4 Distribution of workers in usual status (ps+ss) by status in employment

2.2.4.1 The workers in usual status (ps+ss) are categorised into three broad categories according to their status in employment. These broad categories of status in employment of the workers are: (i) *self-employed*, (ii) *regular wage/salaried employee* and (iii) *casual labour*. Within the category of *self-employed*, two sub-categories have been made as follows: (i) *own account worker and employer* and (ii) *unpaid helper in household enterprises*. Distribution of the workers in usual status (ps+ss) by status in employment is given in Statement 6. In Figure 5 and Figure 6, the distributions of the workers by status in employment in rural and urban areas are presented.

2.2.4.2 Detailed Table in Appendix A: Percentage distribution of workers in usual status (ps+ss) by broad status in employment for each State/UT is given in Table 9.

Statement 6: Percentage distribution of workers in usual status (ps+ss) by status in employment estimated from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-23)

person	38.2	17.3	55.6	21.1	23.3	100.0

2022-23 refers to the period July 2022 – June 2023 and likewise for 2021-22 and 2020-21

Figure 5: Percentage distribution of workers in usual status (ps+ss) in rural areas by status in employment estimated from PLFS 2022-23

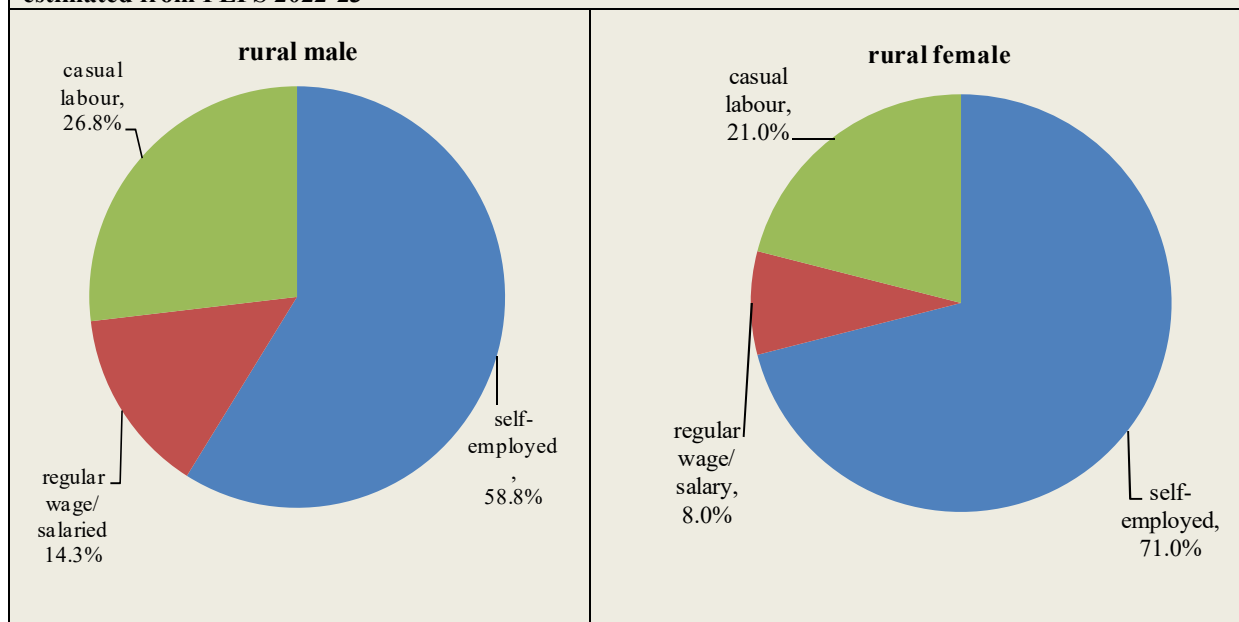

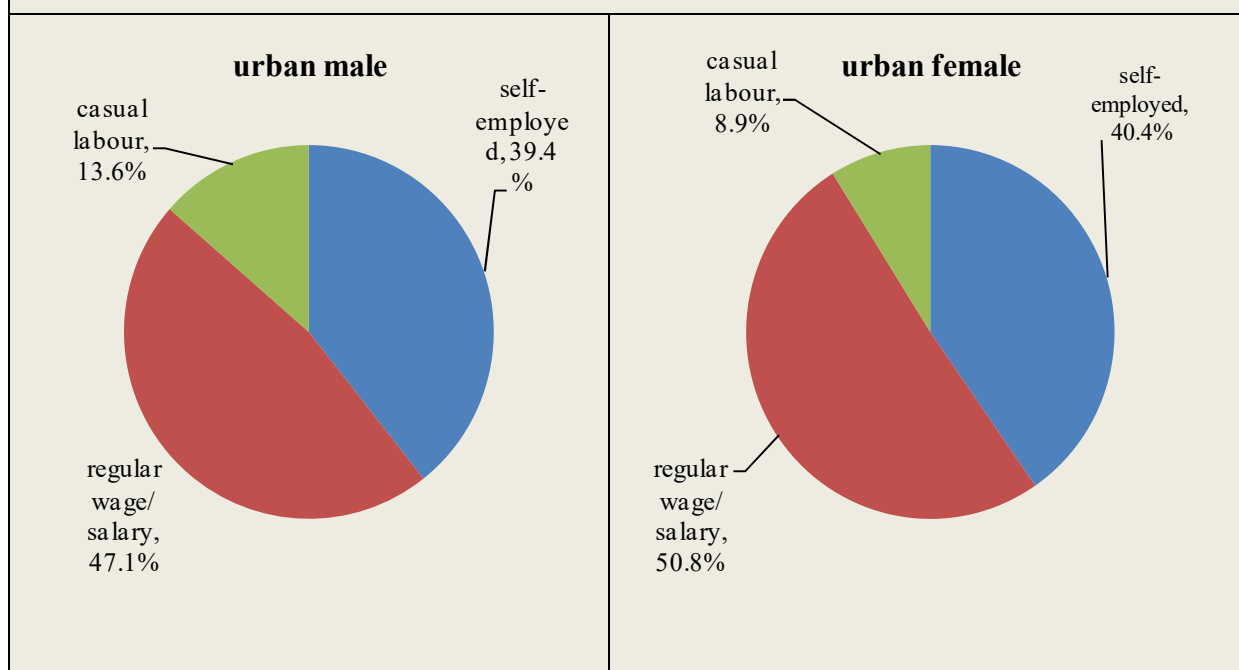

Figure 6: Percentage distribution of workers in usual status (ps+ss) in urban areas by status in employment estimated from PLFS 2022-23

2.2.5 Industrial distribution of workers in usual status (ps+ss)

2.2.5.1 For classification of industry of work of the employed persons in usual status (ps+ss), the National Industrial Classification 2008 (NIC 2008) was used. In Statement 7, distribution of workers in usual status (ps+ss) is presented by broad industry division from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-23).

2.2.5.2 **Detailed Table in Appendix A:** Percentage distribution of usually working persons (ps+ss) by industry of work (4-digit code / division / section as per NIC-2008) at all-India

level is given in Table 15. Percentage distribution of usually working persons (ps+ss) by industry sections of NIC-2008 for each State/ UT is given in Table 16.

Statement 7: Percentage distribution of workers in usual status (ps+ss) by broad industry division estimated from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-23)

Note 2: 2022-23 refers to the period July 2022 – June 2023 and likewise for 2021-22 and 2020-21

2.3 Section Three: Employment in informal sector and conditions of employment

2.3.1 Informal sector enterprises:

2.3.1.1 According to the 15th ICLS conceptual framework, unincorporated enterprises owned by households, (i.e., *proprietary* and *partnership* enterprises including the informal

producers' cooperatives) are largely considered as *informal sector* enterprises. In PLFS, *proprietary* and *partnership* enterprises are considered as *informal sector* enterprises. In Statement 8, share of workers in informal sector among workers in usual status (ps+ss) in non-agriculture sector is presented.

Statement 8: Percentage of workers engaged in <i>proprietary</i> and <i>partnership</i> (P & P) enterprises among workers (ps+ss) engaged in non-agriculture sector estimated from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-23)			
			all-India

2.3.1.2 Detailed Table in Appendix A: Percentage distribution of usually working (ps+ss) persons by enterprise type for each State/ UT is given in Table 22.

2.3.2 Conditions of Employment

2.3.2.1 In this survey, from the employees (regular wage/salaried persons and casual labour) in usual status (ps+ss), information on the following conditions of employment was collected:

- whether there was any written job contract in the employment,
- whether employees were eligible for the paid leave
- whether employees were covered under any specified social security benefits.

In Statement 9, percentage of *regular wage/ salaried employees* in usual status (ps+ss) engaged in non-agriculture sector in various conditions of employment are presented.

These are:

(i) Regular wage/salaried employees in usual status (ps+ss) engaged in non-agricultural sector who had no written job contract

Information on *type of job contract* was recorded in terms of four categories viz. (i) *no written job contract*, (ii) *written job contract for 1 year or less*, (iii) *written job contract for more than 1 year to 3 years* and (iv) *written job contract for more than 3 years*.

(ii) Regular wage/salaried employees in usual status (ps+ss) engaged in non-agricultural sector who were not eligible for paid leave

Paid leave included leave during sickness, maternity or such leave as an employee was eligible to take without loss of pay, as per the conditions of employment. The situation

was assessed excluding the paid off-days/holidays, which an enterprise normally allows to its employees.

(iii) Regular wage/salaried employees in usual status (ps+ss) engaged in non-agricultural sector who were not eligible for any specified social security benefits

For this survey the following social security benefits were only considered:

- only PF/ pension (i.e., GPF, CPF, PPF, pension, etc.).
- only gratuity
- only health care/maternity benefits
- only PF/ pension and gratuity
- only PF/ pension and health care/maternity benefits.
- only gratuity and health care/maternity benefits
- PF/ pension, gratuity and health care/maternity benefits

Those who were not covered under any of the above social security schemes were considered as not eligible for any specified social security benefits.

Statement 9: Percentage of regular wage/salaried employees who had no written job contract, not eligible for paid leave and not eligible for the specified social security benefits among regular wage/salaried employees in usual status (ps+ss) in non-agriculture sector estimated from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-23)

2.3.2.2 Detailed Table in Appendix A: Percentage of regular wage/ salaried employees in usual status (ps+ss) in non-agriculture sector *without written job contract, not eligible for paid leave and not eligible for any specified social security benefit (SSB)* for each State/ UT is given in Table 23.

2.4 Section Four: Earnings from employment

2.4.0 In PLFS, information on earnings from employment was collected for all the three categories of workers, viz., *self-employed persons*, *regular wage/salaried employees* and *casual labourers* as follows:

- For self-employed persons in current weekly status, information on earnings during the last 30 days from the self-employment activity in which the person was working as per current weekly status was collected.
- For regular wage/salaried employees in current weekly status, information on earnings during the preceding calendar month from the regular wage/salaried work in which the person was employed in the current weekly status was collected.
- For casual labour, information on earnings was collected for the casual labour work in which the person was engaged for each day of the reference week.

The estimates in this section are derived on the basis of data collected in the first visit schedules in the rural areas (since there was no revisit in rural areas) and for the urban areas on the basis of data collected in the schedules of first visit and the corresponding revisits conducted during the four quarters of the survey period, viz., during July–September 2022, October – December 2022, January- March 2023 and April- June 2023.

2.4.1 Earnings by regular wage/salaried employees in current weekly status during the preceding calendar month

2.4.1.1 Statement 10 presents average wage/ salary earnings during the preceding calendar month received by regular wage/ salaried employees in current weekly status separately for each of the four quarters of the survey period of PLFS 2022-23, i.e., during July–September 2022, October – December 2022, January- March 2023 and April- June 2023.

2.4.1.2 Detailed Table in Appendix A: Average wage/salary earnings during the preceding calendar month from the regular wage/salaried employment among the regular wage/salaried employees in CWS for each State/ UT are given in Table 24.

Statement 10: Average wage/ salary earnings (in Rs) during the preceding calendar month by the regular wage/ salaried employees in current weekly status estimated from PLFS (2022-23)									
survey period	rural			urban			rural+urban

January – March 2023	17239	11337	15954	23946	18669	22632	20756	15499	19523
April- June 2023	17274	13825	16482	24243	19308	23011	21026	16926	20039

2.4.2 Average wage earnings by casual labour engaged in work other than public works per day

2.4.2.1 In PLFS, wage earnings by casual labour was recorded for each of the day of the reference week (last 7 days preceding the date of the survey) when the household member had worked as casual labour. Statement 11 presents the average wage earnings per day by casual labour engaged in works other than public works in each of the four quarters during the survey period.

Statement 11: Average earnings (in Rs.) per day by casual labour engaged in works other than public works estimated from PLFS (2022-23)										
survey period	rural			urban			rural+urban			all-India
	male	female	person	male	female	person	male	female	person

April- June 2023	416	287	388	515	333	493	432	291	403	

2.4.2.2 Detailed Table in Appendix A: Average wage earnings per day from casual labour work other than public works in CWS for each State/ UT are given in Table 25.

2.4.3 Average gross earnings from self-employment work during last 30 days by the self-employed persons in current weekly status

2.4.3.1 In PLFS, information on gross earnings from self-employment work was collected through a single-shot question from the self-employed persons in current weekly status. In Statement 12, average gross earnings during the last 30 days from the self-employment work by the self-employed persons in the current weekly status are presented. It may be noted that average gross earnings have been calculated by excluding those self-employed persons who had reported earning as zero/not reported cases.

2.4.3.2 Detailed Table in Appendix A: Average gross earnings during last 30 days from self-employment among self-employed persons in CWS for each State/ UT are given in Table 26.

Statement 12: Average gross earnings (in Rs.) during the last 30 days from self-employment work in current weekly status estimated from PLFS (2022-23)

2.5 Section Five: Hours worked

2.5.1 In PLFS information on hours worked during each day of the reference week was recorded when the household member was engaged in economic activity. In this section, estimates are presented on hours actually worked during the reference week. The estimates in this section are derived on the basis of data collected in the first visit schedules in the rural areas (since there was no revisit in rural areas) and for the urban areas on the basis of data collected in the schedules of first visit and revisit conducted during the four quarters of the survey period, viz., during July– September 2022, October – December 2022, January- March 2023 and April- June 2023.

2.5.2 Average hours actually worked

2.5.2.1 In Statement 13, average number of hours actually worked considering all the economic activities in a week are presented for different statuses in employment in current weekly status.

Statement 13: Average number of hours actually worked in a week by workers in different statuses in employment during the four quarters of the survey period July 2022- June 2023

2.5.2.2 Detailed Table in Appendix A: Average number of hours actually worked per week considering all the economic activities performed during the week for workers in CWS for each State/ UT is given in Table 27.

2.6 Section Six: Unemployment

2.6.0 Estimates relating to unemployment rate in PLFS are obtained in the following approaches:

- (i) in the *usual status (ps+ss)* approach. In this approach, the estimates of unemployment rates are based on usual status considering principal and subsidiary statuses together and is called unemployed in *usual status (ps+ss)* or *usual status (adjusted)*.
- (ii) in the *current weekly status* approach.

The estimate of unemployed in *current weekly status* gives an average picture of unemployment in a short period of 7 days during the survey period. According to the *current weekly status* approach, a person was considered as unemployed in a week if he/she did not work even for 1 hour during the week but sought or was available for work at least for 1 hour during the week.

2.6.1 Unemployment Rates

2.6.1.1 *Unemployment rate (UR)* is defined as the percentage of unemployed persons in the *labour force*. In Statement 14, unemployment rate in usual status (ps+ss) and current weekly status obtained from PLFS 2020-21, PLFS 2021-22 and PLFS 2022-23 are presented. In this Statement, the proportion of unemployed (in per cent) in the population is also presented in the parenthesis.

Statement 14: Unemployment rates (in percent) and Proportion of Unemployed (PU) according to usual status (ps+ss) and current weekly status (CWS) estimated from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-23)										
		all-India

Note 1: Figures in parenthesis give the proportion of unemployed (PU) person in the population in per cent
Note 2: 2022-23 refers to the period July 2023 – June 2023 and likewise for 2021-22 and 2020-21

2.6.1.2 Detailed Table in Appendix A: Unemployment Rate according to usual status (ps+ss) for each State/UT is given in Table 8. Unemployment Rate (UR) according to usual principal status for each State/UT is given in Table 8.1.

2.6.1.3 Detailed Table in Appendix A: Unemployment Rate according to current weekly status for each State/UT is given in Table 19.

2.6.2 Unemployment Rates among the Educated

2.6.2.1 For the purpose of this report, the educated persons are defined as those who have attained the educational level of *secondary and above*. Normally, one can attain this educational level at the age of 15 years or above. Thus, the unemployment rate among the educated is presented for persons of age 15 years and above. In Statement 15, the unemployment rates in usual status (ps+ss) for different educational attainments at the all-India level obtained from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-23) are presented.

Statement 15: Unemployment rates (in percent) according to usual status (ps+ss) for the persons of age 15 years and above with different educational attainments estimated from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-23)

2022-23 refers to the period July 2023 – June 2023 and likewise for 2021-22 and 2020-21

2.6.2.2 Detailed Table in Appendix A: Unemployment rate according to usual status (ps+ss) for persons of age 15 years and above of different general education level for each State/UT is given in Table 13.

2.6.3 Unemployment Rates of the Youth

2.6.3.1 In this report, persons aged 15-29 years are considered as the youth. Statement 16 gives the unemployment rates among the youth at the all-India level in 2020-21, 2021-22 and 2022-23.

Statement 16: Unemployment rates (in per cent) according to usual status (ps+ss) for the persons of age 15-29 years estimated from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-23) all-India

2022-23 refers to the period July 2023 – June 2023 and likewise for 2021-22 and 2020-21

2.6.3.2 Detailed Tables in Appendix A: Unemployment Rate (UR) (in per cent) according to usual status (ps+ss) for persons of age 15-29 years for each State/UT is given in Table 8.

2.7 Section Seven: Employment status among social groups

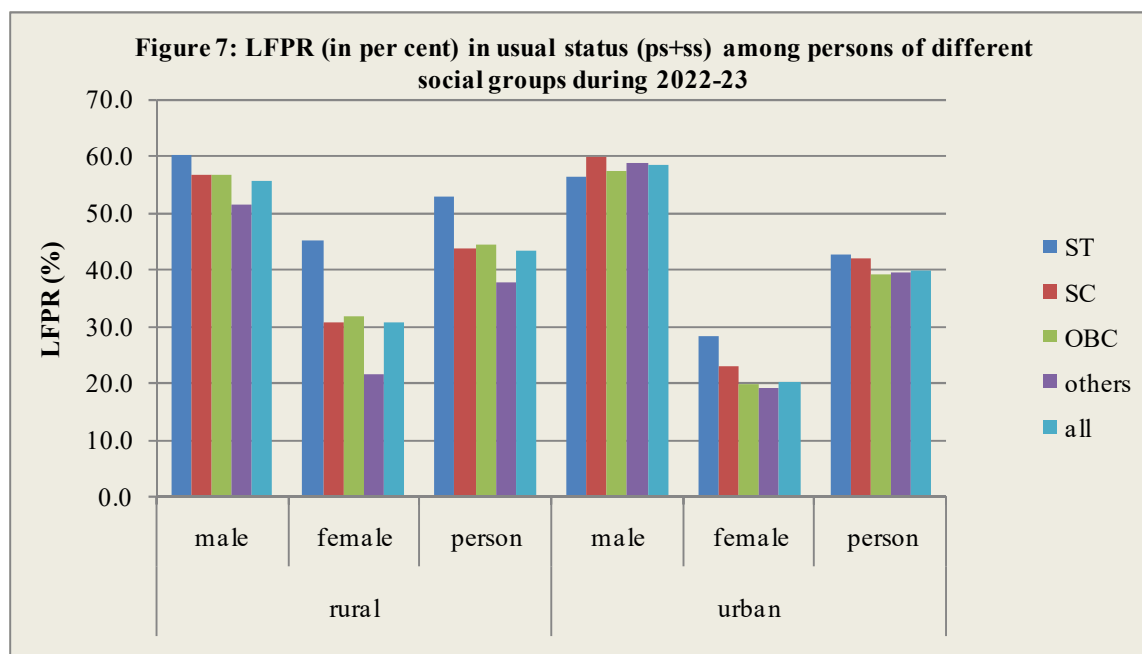

2.7.0 In this section the employment status among persons belonging to the four social groups, viz., *scheduled tribe* (ST), *scheduled caste* (SC), *other backward class* (OBC) and the rest referred to as *others* are presented. In PLFS, for each household surveyed, the social group to which the head of the household belonged to was recorded. The social group of the head of the household was considered as the social group of all the members of the household irrespective of the actual social group to which the individual members belonged. It may be noted that the scope of the survey being all households without special focus on social groups, sample design was not tailored to specifically net the social groups like *Scheduled Caste* (SC) and *Scheduled Tribe* (ST), etc. Thus, sample size for the social groups in different States/UTs may not be enough to provide sufficiently reliable estimates of the various indicators and therefore, the estimates for the social groups are not presented for different State/UT in the Report.

2.7.1 Labour force participation rate among persons in different social groups

2.7.1.1 In Statement 17, LFPRs (in per cent) in usual status (ps+ss) among persons belonging to different social groups during 2020-21, 2021-22 and 2022-23 are presented. In Figure 7, LFPR among different social groups during 2022-23 is presented.

Statement17: Labour Force Participation Rate (in per cent) according to usual status (ps+ss) for different social groupsestimated from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-23)

2.7.3.2 Detailed Table in Appendix A: UR in usual status (ps+ss) for different social groups at all-India level is given in Table 30.

2.8 Section Eight: Employment status among religious groups

2.8.0 In PLFS information on the religious group to which the head of the household belonged was collected and for the purpose of this report for each household surveyed, the reported religion of the head of the household was considered as the religion of all the members of the household irrespective of the actual religion followed by individual members. Religious group of the household members was recorded in the following 8 categories: *Hinduism, Islam, Christianity, Sikhism, Jainism, Buddhism, Zoroastrianism*, and the rest referred to as *others*. It may be noted that the scope of the survey being all households without special focus on religious groups, sample design was not tailored to specifically net different religious groups. Thus, sample size for the religious groups in different States/UTs may not be enough to provide sufficiently reliable estimates of the various indicators and therefore, the estimates for the religious groups are not presented for different State/UT in the Report. Estimates in this section has been presented for the following religious groups, *Hinduism, Islam, Christianity and Sikhism* which are referred to as major religious groups in this Report.

2.8.1 Labour force participation rate among persons in major religious groups

2.8.1.1 In Statement 20, LFPRs (in per cent) in usual status (ps+ss) among major religious groups during 2020-21, 2021-22 and 2022-23 are presented. LFPR among major religious groups during 2022-23 is presented in Figure 9.

Statement 20: Labour Force Participation Rate (in per cent) according to usual status (ps+ss) for major religious groups estimated from PLFS (2020-21), PLFS (2021-22) and PLFS (2022-23)

2.8.3.2 Detailed Table in Appendix A: Unemployment rate in usual status (ps+ss) for major religious groups at all-India level is given in Table 32.

Appendix A

List of Detailed Tables

(hyperlinked with the corresponding Excel table)

APPENDIX A: DETILED TABLES

Table No.	Title
Table (1)	Number of villages/ blocks, households surveyed and persons enumerated by age and gender for each State/ UT
Table (1a)	Estimated number of households, Average household size, Sex ratio and Dependency ratio for each State/UT
Table (2R)	Percentage distribution of households by household type for rural areas for each State/ UT
Table (2U)	Percentage distribution of households by household type for urban areas for each State/ UT
Table (3)	Literacy rate (in per cent) of persons of different age groups for each State/UT
Table (4)	Percentage distribution of persons by general educational level for each State/UT
Table (5)	Percentage distribution of persons of different age groups (age: 15-29 years/ 15-59 years) by vocational/technical training received
Table (6)	Labour Force Participation Rate (LFPR) (in per cent) according to usual status (ps+ss) for each State/UT
Table (6.1)	Labour Force Participation Rate (LFPR) (in per cent) according to usual principal status (ps) for each State/UT
Table (7)	Worker Population Ratio (WPR) (in per cent) according to usual status (ps+ss) for each State/UT
Table (7.1)	Worker Population Ratio (WPR) (in per cent) according to usual principal status (ps) for each State/UT
Table (8)	Unemployment Rate (UR) (in per cent) according to usual status (ps+ss) for each State/UT
Table (8.1)	Unemployment Rate (UR) (in per cent) according to usual principal status (ps) for each State/UT
Table (9)	Percentage distribution of workers in usual status (ps+ss) by broad status in employment for each State/UT
Table (10)	Percentage distribution of workers in usual status (ps+ss) by broad status in employment for each industry of work
Table (11)	Labour Force Participation Rate (LFPR) (in per cent) according to usual status (ps+ss) for persons of age 15 years and above of different general education level for each State/UT
Table (12)	Worker Population Ratio (WPR) (in per cent) according to usual status (ps+ss) for persons of age 15 years and above of different general education level for each State/UT
Table (13)	Unemployment Rate (UR) (in per cent) according to usual status (ps+ss) for persons of age 15 years and above of different general education level for each State/UT
Table (14)	Percentage distribution of workers in usual status (ps+ss) by occupation group/ sub-division /division as per National Classification of Occupation (NCO) 2015
Table (15)	Percentage distribution of usually working persons (ps+ss) by industry of work
Table (16)	Percentage distribution of usually working persons (ps+ss) by industry of work (industry sections of NIC-2008) for each State/ UT
Table (17)	Labour Force Participation Rate (LFPR) (in per cent) according to current weekly status (CWS) for each State/UT
Table (18)	Worker Population Ratio (WPR) (in per cent) according to current weekly status (CWS) for each State/UT
Table (19)	Unemployment Rate (UR) (in per cent) according to current weekly status (CWS) for each State/UT

APPENDIX A: DETILED TABLES

Table No.	Title
Table (20)	Percentage distribution of persons working according to CWS by broad industry of work for each State/ UT
Table (21)	Percentage distribution of persons working according to CWS by broad status in employment for each State/ UT
Table (22)	Percentage distribution of usually working (ps+ss) persons engaged in non-agriculture (industry divisions 05-99 of NIC-2008) by enterprise type for each State/ UT
Table (23)	Percentage of regular wage/ salaried employees in usual status (ps+ss) in non-agriculture sector (industry divisions 05-99 of NIC-2008) without written job contract, not eligible for paid leave, without any social security benefit for each State/ UT
Table (24)	Average wage/salary earnings during the preceding calendar month from regular wage/salaried employment among the regular wage salaried employees in CWS for each State/ UT
Table (25)	Average wage earnings per day from casual labour work other than public works in CWS for each State/ UT
Table (26)	Average gross earnings during last 30 days from self-employment among self-employed persons in CWS for each State/ UT
Table (27)	Average number of days worked in a week for workers in CWS and average number of hours actually worked per week considering all the economic activities performed during the week for workers in CWS for each State/ UT
Table (28)	Average number of hours available for additional work in a week for persons with different broad activity status in employment in CWS
Table (29)	Literacy rate (in per cent) of persons of different age groups for each social group
Table (30)	Labour Force Participation Rate (LFPR), Worker Population Ratio (WPR) and Unemployment Rate (UR) by usual status (ps+ss) for each social group
Table (31)	Literacy rate (in per cent) of persons of different age groups for major religious groups
Table (32)	Labour Force Participation Rate (LFPR), Worker Population Ratio (WPR) and Unemployment Rate (UR) by usual status (ps+ss) for major religious groups
Table (33)	Average wage/salary earnings (Rs.) during the preceding calendar month from regular wage/salaried employment among the regular wage salaried employees in CWS by occupation Divisions (1- digit code of NCO-2015) for each State/UT
Table (34)	Average wage earnings (Rs.) per day from casual labour work by industry of work (industry sections of NIC-2008) for each State/ UT
Table (35)	Percentage distribution of workers in Current Weekly status (CWS) by number of days worked in a week for each State/UT
Table (36)	Percentage distribution of persons in labour force in Current Weekly status (CWS) by number of days unemployed in a week for each State/ UT

Note 1:

Description of Industry Sections: Section A: Agriculture, forestry and fishing, Section B: Mining and quarrying, Section C: Manufacturing, Section D: Electricity, gas, steam and air conditioning supply
Section E: Water supply; sewerage, waste management and remediation activities, Section F: Construction, Section G: Wholesale and retail trade; repair of motor vehicles and motorcycles, Section H: Transportation and storage,
Section I: Accommodation and Food service activities, Section J: Information and communication, Section K: Financial and insurance activities, Section L: Real estate activities, Section M: Professional, scientific and technical
activities, Section N: Administrative and support service activities, Section O: Public administration and defence; compulsory social security, Section P: Education, Section Q: Human health and social work activities, Section R:
Arts, entertainment and recreation, Section S: Other service activities .Section T: Activities of households as employers; undifferentiated goods and services producing activities of households for own use, Section U: Activities
of extraterritorial organizations and bodies

Note 2: no sample was observed for the industry section 'U'

Appendix C

Concepts and Definitions

Appendix - C

LFPR, WPR and UR in Current Weekly Status (CWS) for urban areas from Quarterly Bulletin of PLFS covering the four quarters of the survey period July 2021 – June 2022

1. Introduction

1.1 On the basis of Periodic Labour Force Survey (PLFS), the quarterly estimates of key labour force indicators in Current Weekly Status (CWS) for the urban areas only are released in the form of Quarterly Bulletins. It may be noted that in the Quarterly Bulletin released for the quarter ending June 2022, estimates of key labour force indicators in CWS corresponding to each of the quarters *July – September 2021, October – December 2021, January – March 2022 and April – June 2022* covering the survey period July, 2021 – June, 2022 of PLFS are presented. The following estimates which are already released in the Quarterly Bulletin are presented here for each of the quarter covering the survey period July, 2021 – June, 2022:

- Labour Force Participation Rate (LFPR)
- Worker Population Ratio (WPR)
- Unemployment Rate (UR)

1.2 For generation of the quarterly estimates of labour force indicators for urban areas in CWS released in the Quarterly Bulletin, a rotational panel sampling design was used. In this rotational panel scheme each selected household in urban areas is visited four times – one with first visit schedule and other three with revisit schedule. In the Table below, the sample size in terms of FSUs (UFS blocks), households and persons in urban areas is given, separately for each of the quarters *July – September 2021, October – December 2021, January – March 2022 and April – June 2022*. In each of these quarters, besides the first visit sample (25 per cent of total sample size), samples in respect to three revisits (75 per cent of total sample size) were also surveyed.

Quarter	FSU (UFS blocks#)	household	all-India
			person
July- September 2021	5,676	44,272	1,71,405
October- December 2021	5,691	44,553	1,72,944
January – March 2022	5,714	44,778	1,73,091
April – June 2022	5,721	44,660	1,73,271

#: Urban Frame Survey (UFS) blocks

1.3 In the Quarterly Bulletins the estimates of LFPR, WPR and UR in CWS are derived separately for each of the quarter considering all the schedules canvassed in both first visit and revisit during that quarter. The estimates of LFPR, WPR and UR in CWS as given in Statement 6, 8 and 24 (in Chapter Three) as well as in Appendix Tables 33 to 36 in this report are derived covering the entire survey period July 2021 – June 2022 and these are generated on the basis of the first visit schedules only canvassed during the period July 2021 – June 2022. Thus it may be noted that differences exist in these estimates presented in the Quarterly Bulletin and given in Statement 6, 8 and 24 (in Chapter Three) as well as in Appendix Tables 33 to 36 of this report.

2. LFPR, WPR and UR in CWS for urban areas from Quarterly Bulletin of PLFS

2.1 Labour Force Participation Rate (LFPR) in current weekly status

2.1.1 In Statement C1, LFPR in CWS for urban areas are presented for each of the quarters *July – September 2021, October – December 2021, January – March 2022 and April – June 2022* covering the survey period July, 2021 – June, 2022.

Statement C1: Labour Force Participation Rate (in per cent) in CWS in urban areas									
survey period (1)	male ^s (2)	female (3)	person ^s (4)	all-India					
				male ^s (5)	female (6)	person ^s (7)	male ^s (8)	female (9)	person ^s (10)
age: 15-29 years				age: 15 years and above			age: all ages		
July – September 2021	57.2	17.2	38.0	73.5	19.9	46.9	57.5	15.8	37.0
October – December 2021	57.6	17.1	38.2	73.9	20.2	47.3	57.6	16.0	37.2
January – March 2022	57.0	17.3	38.2	73.4	20.4	47.3	57.4	16.2	37.2
April – June 2022	57.2	18.4	38.7	73.5	20.9	47.5	57.2	16.4	37.2

§: includes Transgender

2.2 Worker Population Ratio (WPR) in current weekly status

2.2.1 In Statement C2, WPR in current weekly status for urban areas are presented for each of the quarters *July – September 2021, October – December 2021, January – March 2022 and April – June 2022* covering the survey period July, 2021 – June, 2022

Statement C2: Worker Population Ratio (in per cent) in CWS in urban areas									
survey period (1)	male ^s (2)	female (3)	person ^s (4)	all-India					
				male ^s (5)	female (6)	person ^s (7)	male ^s (8)	female (9)	person ^s (10)
age: 15-29 years				age: 15 years and above			age: all ages		
July – September 2021	45.1	12.6	29.5	66.6	17.6	42.3	52.1	14.0	33.4
October – December 2021	46.4	12.6	30.3	67.8	18.1	43.2	52.9	14.3	33.9
January – March 2022	46.3	13.0	30.5	67.7	18.3	43.4	53.0	14.5	34.2
April – June 2022	47.3	14.0	31.4	68.3	18.9	43.9	53.1	14.9	34.4

§: includes Transgender

2.3 Unemployment Rate (UR) in current weekly status

2.3.1 In Statement C3, UR in CWS for urban areas for each of the quarters *July – September 2021, October – December 2021, January – March 2022 and April – June 2022* covering the survey period July, 2021 – June, 2022 are presented.

Statement C3: Unemployment Rate (in per cent) in current weekly status in urban areas									
survey period (1)	male ^s (2)	female (3)	person ^s (4)	all-India					
				male ^s (5)	female (6)	person ^s (7)	male ^s (8)	female (9)	person ^s (10)
age: 15-29 years				age: 15 years and above			age: all ages		
July – September 2021	21.3	27.0	22.5	9.3	11.6	9.8	9.3	11.6	9.8
October – December 2021	19.4	26.0	20.8	8.3	10.5	8.7	8.3	10.6	8.8
January – March 2022	18.8	25.3	20.2	7.7	10.1	8.2	7.8	10.1	8.2
April – June 2022	17.4	23.9	18.9	7.1	9.5	7.6	7.1	9.5	7.6

§: includes Transgender

Appendix - C

Concepts and Definitions

2.0 The concepts and definitions of some important terms used in the survey and relevant to this report are explained in the following paragraphs.

2.1 Household and household size: A group of persons who normally lived together and took food from a common kitchen constituted a household. The adverb “normally” means that temporary visitors and guests (whose total period of stay in the household was expected to be less than 6 months) were excluded but temporary stay-aways (whose total period of absence from the household was expected to be less than 6 months) were included. Thus a child residing in a hostel for studies was excluded from the household of his/her parents, but a resident domestic servant or paying guest (but not just a tenant in the house) was included in the employer’s/host’s household. “Living together” was given more importance than “sharing food from a common kitchen” in drawing the boundaries of a household in case the two criteria were in conflict. However, in the special case of a person taking food with his family but sleeping elsewhere (say, in a shop or a different house) due to shortage of space, the household formed by such a person’s family members was taken to include the person also. Each inmate of a hotel, mess, boarding-lodging house, hostel, etc., was considered to be a single-member household. The same principle was applicable for the residential staff of such establishments. However, if a group of persons among them pooled their income for spending, they were treated as forming a single household. A family living in a hotel was treated as a single household. The size of a household is the total number of persons in the household.

2.2 Age (years): The age in completed years, as on the date of survey, of the household members were recorded.

2.3 Household type: The household type was decided based on the sources of the household's income during the 365 days preceding the date of survey. For this purpose, only the household's income (net income and not gross income) from economic activities was considered; but the incomes of servants and paying guests were not taken into account.

In **rural** areas, a household belonged to any one of the following six household types:

- | | |
|------------------------------------|-------------------------------------|
| 1.self-employed in agriculture | 5. casual labour in non-agriculture |
| 2.self-employed in non-agriculture | 6. others |
| 3.regular wage/salary earning | |
| 4.casual labour in agriculture | |

For **urban** areas, the household types are:

- 1.self-employed
- 2.regular wage/salary earning
- 3.casual labour
- 4.others

2.4 General educational level: A person who can both read and write a simple message with understanding in at least one language was considered as literate for the purpose of the survey. For all the individuals who were found to be literate, the general level of education was collected in terms of highest level of education successfully completed by him/her. Highest level of education successfully completed by each member of the household was decided by considering his/ her all general/ technical/ vocational educational level and was recorded in terms of 12 categories viz. (i) *not literate*, (ii) *literate without formal schooling: (a) Education Guarantee Scheme (EGS)/Non-formal Education Courses (NFEC)/ Adult Literacy Centres (AEC), (b) Total Literacy Campaign (TLC), (c) others;* (iii) *literate but below primary*, (iv) *primary* (v) *middle*, (vi) *secondary*, (vii) *higher secondary*, (viii) *diploma/certificate course*, (ix) *graduate*, and (x) *postgraduate and above*. The criteria for deciding primary, middle, secondary, etc. levels were the same as that has been followed in the concerned states/union territories. The category ‘diploma or certificate course’ meant diploma or certificate courses in general education, technical education or vocational education, which is below graduation level. Diploma or certificate courses in general education, technical education or vocational education, which is equivalent to graduation level, was considered under the category ‘graduate’. Similarly, diploma or certificate courses in general education, technical education or vocational education, which is equivalent to post-graduation level and above were considered under the category ‘post-graduate and above’.

2.5 Vocational/ Technical Training: A vocational/ technical training can broadly be defined as training through which knowledge and skills for the world of work were acquired. The main objective of vocational/ technical education and training is to make individuals employable for a broad range of occupations in various industries and other economic sectors. There are three methods of acquiring Vocational/ Technical training:

2.5.1 Formal Training: The training that is acquired through institutions/ organisations and is recognised by national certifying bodies, leading to diplomas/ certificates and qualifications. Formal training is structured according to educational arrangements such as curricula, qualifications, teaching/ learning requirements and assessment. Formal training is intentional from the learner’s perspective.

2.5.2 Non- formal Training: The training that is in addition or alternative to formal learning and is also structured but is more flexible. It is provided through community-based settings, the workplace, or through the activities of civil society organisations or any organisation imparting

training. This training mode does not have the level of curriculum, syllabus or accreditation and certification associated with formal learning but it is more structured as compared to informal learning.

2.5.3 Informal Training: The training that occurs in daily life, in the family, in the workplace, in communities, and through the interests and activities of individuals. It is not structured (in terms of learning objectives, learning time or learning support) and typically does not lead to certification.

2.5.4 Vocational/technical training other than formal vocational/technical training

(a) **Hereditary:** The expertise in a vocation or trade is sometimes acquired by the succeeding generations from the other members of the households, generally the ancestors. The expertise gained through significant ‘hands-on’ experience enables the individual to take up activities in self-employment capacity or makes them employable. Acquiring such marketable expertise by one, which enables him/her to carry out the trade or occupation of their ancestors over generations, was considered to be training through ‘hereditary’ sources.

(b) **Self-learning:** The expertise in a vocation or trade when acquired by a person through his/her own effort, without any training under any person or organisation, was considered as non-formal vocational training through ‘self-learning’. For example, a person who learnt photography on his own effort was considered to have acquired the non-formal vocational training through ‘self-learning’.

(c) **Learning on the job:** The expertise acquired by a person while in employment (current and/or past), either through informal training by the employer or organisation or through the exposure to the type of job that he/she is/was performing, was considered as the training through ‘learning on the job’. Note that if a person was provided with formal training in a vocation or trade even by the employer or organisation, while in employment, he/she was considered to have received ‘formal’ vocational/technical training.

(d) **Other:** The ‘other’ sources included the cases where the expertise for a vocation or trade was developed even from the household members or ancestors, provided that the said vocation or trade was different from the one relating to their ancestors. Similarly, a person might have learnt tailoring work from a master tailor or a person may learn book-binding work from a printing press. All such expertise acquired was considered as vocational/technical training through ‘other’ sources.

2.6 Economic activity: The entire spectrum of human activity falls into two categories – economic activities and non-economic activities. Any activity resulting in production of goods and services that add value to national product was considered as an economic activity for the employment and unemployment survey. Such activities included (i) production of all goods and services for market (i.e. for pay or profit) including those of government services, (ii) production of primary commodities for own consumption and (iii) own account production of fixed assets.

2.6.1 The full spectrum of economic activities as defined in the UN System of National Accounts was not covered in the definition of economic activities adopted for the Periodic Labour Force Survey (PLFS). Although production of any good for own consumption is considered as economic activity by UN System of National Accounts, production of only primary goods for own consumption was considered as economic activity by NSSO for the purpose of the survey. While the former considers activities like own account processing of primary products as economic activities, processing of primary products for own consumption was not considered as economic activity for PLFS.

2.6.2 The term 'economic activity' as defined in the PLFS, therefore, included:

- (i) all the market activities performed for pay or profit which result in production of goods and services for exchange.
- (ii) of the non-market activities,
 - (a) all the activities relating to the agriculture, forestry, fishing, mining and quarrying sector (i.e. industry Divisions 01 to 09 of NIC-2008) which result in production of primary goods for own consumption (including free collection of uncultivated crops, forestry, firewood, hunting, fishing, mining, quarrying, etc.)
 - and
 - (b) activities relating to the own-account production of fixed assets, which include production of fixed assets including construction of own houses, roads, wells, etc., and of machinery, tools, etc., for household enterprise and also construction of any private or community facilities free of charge. A person may be engaged in own account construction in the capacity of either a labour or a supervisor.

The activities like prostitution, begging, etc., which might result in earning, were not considered as economic activities for the survey.

2.7 Activity status: It is the activity situation in which a person was found during a specified reference period with regard to the person's participation in economic and non-economic activities. According to this, a person could be in one or a combination of the following three broad activity statuses during the reference period:

- (i) working or being engaged in economic activity (work),
- (ii) being not engaged in economic activity (work) but either making tangible efforts to seek 'work' or being available for 'work' if 'work' is available and
- (iii) being not engaged in any economic activity (work) and also not available for 'work'.

Broad activity statuses mentioned in (i) and (ii) above are associated with 'being in labour force' and the last with 'not being in the labour force'. Within the labour force, broad activity status (i) and (ii) were associated with 'employment' and 'unemployment', respectively.

2.7.1 Identification of each individual in terms of a unique activity status could pose a problem when more than one of the three broad activity statuses listed above were concurrently obtained for a person during the reference period. In such an eventuality, unique identification under any one of the three broad activity statuses (*viz.* employed/ unemployed/not in labour force) was done by adopting either *the major time criterion* or *priority criterion*. The former was used for classification of persons according to the usual status approach and the latter for classification of persons according to the current status approach (*i.e.*, current weekly status and current daily status approaches).

Each of the three broad activity statuses was further sub-divided into several detailed activity categories. If a person categorised as engaged in economic activity was found to be pursuing more than one economic activity during the reference period, the appropriate detailed activity in terms of status and industry was considered as that one corresponding to which relatively long time had been spent. A similar procedure was adopted for assigning detailed activity code for persons categorised as engaged in non-economic activity and pursuing more than one non-economic activity.

2.7.2 The detailed activity statuses under each of the three broad activity statuses (*viz.* 'employed', 'unemployed' and 'not in labour force') and the corresponding codes used in the survey are given below:

code description

working (or employed)

self-employed

- 11 worked in household enterprises (self-employed) as own-account worker
- 12 worked in household enterprises (self-employed) as an employer
- 21 worked in household enterprises (self-employed) as helper
- 61 did not work owing to sickness though there was work in household enterprise
- 62 did not work owing to other reasons though there was work in household enterprise

regular wage/ salaried employee

- 31 worked as regular wage/salaried employee
- 71 did not work owing to sickness but had regular salaried/wage employment
- 72 did not work owing to other reasons but had regular salaried/wage employment

casual labour

- 41 worked as casual labour in public works other than MGNREG public works
- 42 worked as casual labour in Mahatma Gandhi NREG public works

51 worked as casual labour in other types of works

not working but seeking/available for work (or unemployed)

81 sought work or did not seek but was available for work (for usual status approach)

81 sought work (for current weekly status approach)

82 did not seek but was available for work (for current weekly status approach)

neither working nor available for work (or not in labour force)

91 attended educational institutions

92 attended to domestic duties only

93 attended to domestic duties and was also engaged in free collection of goods (vegetables, roots, firewood, cattle feed, etc.), sewing, tailoring, weaving, etc. for household use

94 rentiers, pensioners, remittance recipients, etc.

95 not able to work owing to disability

97 others (including beggars, prostitutes, etc.)

98 did not work owing to sickness (for casual workers only)

99 children of age 0-4 years

It may be noted that codes 42, 61, 62, 71, 72, 82 and 98 were applicable for current status only. It may also be noted that activity status code 41 in the usual status is used for casual labour in all types of public works, whereas in the current activity status, code 41 is for casual labour in public works other than MGNREG public works and code 42 is for casual labour in MGNREG public works.

2.8 Workers (or employed): Persons who were engaged in any economic activity or who, despite their attachment to economic activity, abstained themselves from work for reason of illness, injury or other physical disability, bad weather, festivals, social or religious functions or other contingencies necessitating temporary absence from work, constituted workers. Unpaid household members who assisted in the operation of an economic activity in the household farm or non-farm activities were also considered as workers. Relevant activity status codes 11 to 72 were assigned for workers. Workers were further categorized as *self-employed* (relevant activity status codes: 11, 12, 21, 61, 62), *regular wage /salaried employee* (relevant activity status codes: 31, 71, 72), and *casual labour* (relevant activity status codes: 41, 42 and 51).

2.9 Seeking or available for work (or unemployed): Persons who, owing to lack of work, had not worked but either sought work through employment exchanges, intermediaries, friends or relatives or by making applications to prospective employers or expressed their willingness or availability for work under the prevailing conditions of work and remuneration, were considered as those 'seeking or available for work' (or unemployed). Activity status codes 81 or 82 were assigned for unemployed.

2.10 Labour force: Persons who were either 'working' (or employed) or 'seeking or available for work' (or unemployed) constituted the labour force. Persons with activity status codes 11 – 82 constituted the labour force.

2.11 Not in labour force: Persons who were neither 'working' nor 'seeking or available for work' for various reasons during the reference period were considered as 'not in labour force'. Persons under this category are students, those engaged in domestic duties, rentiers, pensioners, recipients of remittances, those living on alms, infirm or disabled persons, too young persons, prostitutes, etc. and casual labours not working due to sickness. Activity status codes 91-95, 97,98 and 99 were assigned for persons belonging to category 'not in labour force'.

2.12 Self-employed: Persons who operated their own farm or non-farm enterprises or were engaged independently in a profession or trade on own-account or with one or a few partners were deemed to be self-employed in household enterprises. The essential feature of the self-employed is that they have *autonomy* (decide how, where and when to produce) and *economic independence* (in respect of choice of market, scale of operation and finance) for carrying out their operation. The remuneration of the self-employed consists of a non-separable combination of two parts: a reward for their labour and profit of their enterprise.

2.12.1 Categories of self-employed persons: Self-employed persons were further categorised as follows:

- (i) ***own-account workers:*** Self-employed persons who operated their enterprises on their own account or with one or a few partners and who, during the reference period, by and large, ran their enterprise without hiring any labour were considered as own-account workers. They could, however, have had unpaid helpers to assist them in the activity of the enterprise.
- (ii) ***employers:*** Self-employed persons who worked on their own account or with one or a few partners and, who, by and large, ran their enterprise by hiring labour were considered as employers.
- (iii) ***helpers in household enterprise:*** Self-employed persons who were engaged in their household enterprises, working full or part time and did not receive any regular salary or wages in return for the work performed were considered as helpers in household enterprise. They did not run the household enterprise on their own but assisted the concerned person living in the same household in running the household enterprise.

2.13 Regular wage/salaried employee: These were persons who worked in others' farm or non-farm enterprises (both household and non-household) and, in return, received salary or wages on a regular basis (i.e. not on the basis of daily or periodic renewal of work contract). This category included not only persons getting time wage but also persons receiving piece wage or salary and paid apprentices, both full time and part-time.

2.14 Casual labour: A person who was casually engaged in others' farm or non-farm enterprises (both household and non-household) and, in return, received wages according to the terms of the daily or periodic work contract, was considered as a casual labour.

2.15 Public works: ‘Public works’ were those activities which were sponsored by Government or Local Bodies, and which cover local area development works like construction of roads, dams, bunds, digging of ponds, etc., as relief measures, or as an outcome of employment generation schemes under the poverty alleviation programmes such as Mahatma Gandhi National Rural Employment Guarantee (MGNREG) works, Sampoorna Grameen Rozgar Yojana (SGRY), National Food for Work Programme (NFFWP), etc. The coverage of schemes under ‘public works’ is restricted to those schemes under poverty alleviation programmes, or relief measures through which the Government generated wage employment. The types of works that were generally undertaken through these schemes, were watershed development, drought proofing, land levelling, flood control, laying pipes or cables, sanitation, water harvesting, digging of irrigation canal, development of orchard, road construction, building construction / repair, running crèche, etc. There may be some schemes sponsored by the Government and in operation, which were conceived as self-employment generation schemes. Some such schemes of the Government were Swarnjayanti Gram Swarozgar Yojana (schemes under erstwhile IRDP merged with this), Rural Employment Generation Programme (REGP), Prime Minister’s Rozgar Yojana (PMRY), Valmiki Ambedkar Awas Yojana (VAMBAY), etc. Employment generated through these schemes was not considered within the purview of ‘public works’. Classification of individuals as ‘casual labour in *public works*’ required that the work in which they participated was ‘*public works*’ as defined above. To distinguish between ‘*public works*’ and works not classifiable as ‘*public works*’, some broad characteristics of ‘*public works*’ were identified, viz. the primary objective was generation of wage employment and poverty alleviation, and creation of community asset as an outcome in achieving those main objectives. It is to be noted that for assigning current weekly and current daily activity status codes for the casual labour working in public works, codes 41 and 42 were used as follows:

- (i) worked as casual labour in public works other than Mahatma Gandhi National Rural Employment Guarantee (MGNREG) public works – 41
- (ii) worked as casual labour in Mahatma Gandhi National Rural Employment Guarantee (MGNREG) public works – 42

In the usual activity status, code 41 was used for casual labour in public works, which included all types of public works and code 42 was not applicable in the usual activity status.

2.16 Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA): The Mahatma Gandhi National Rural Employment Guarantee Act, 2005 (MGNREGA) is an important step towards the realization of the right to work and to enhance the livelihood security of the households in the rural areas of the country. According to this Act, Rural Employment Guarantee Schemes (REGS) are formed by the State Governments. The Scheme provides at least 100 days of guaranteed wage employment in every financial year to every household whose adult members volunteer to do unskilled manual work. Adult means a person who has completed his/ her eighteen years of age. Unskilled manual work means any physical work which any adult person is capable of doing without any special skill/ training. The implementing agency of the

scheme may be any Department of the Central Government or a State Government, a Zila Parishad, Panchayat/ Gram Panchayat or any local authority or Government undertaking or non-governmental organization authorized by the Central Government or the State Government.

2.17 Different approaches for determining activity status: In the labour force surveys, the activity status of a person is determined on the basis of the activities pursued by the person during certain specified reference period. The activity status determined on the basis of the reference period of last 365 days preceding the date of survey is known as the usual activity status of the person, that determined on the basis of a reference period of last 7 days preceding the date of survey is known as the current weekly status (CWS) of the person and the activity status determined for each day of the reference week which is known as the current daily status (CDS) of the person. For the PLFS, activity status was collected for all the three reference periods mentioned above, viz., last 365 days for usual status, using a reference period of 7 days preceding the date of the survey for current weekly status and each day of the reference week for current daily status.

2.17.1 Identification of each individual into a unique situation poses a problem when more than one of three types of broad activity status viz. 'employed', 'unemployed' and 'not in labour force' is concurrently obtained for a person. In such an eventuality, unique identification under any one of the three broad activity statuses was done by adopting either the major time criterion or priority criterion. The former was used for classification of persons under 'usual activity status' and, the latter, for classification of persons under 'current weekly status' and 'current daily status'. If, by adopting one of these two criteria, a person categorised as engaged in economic activity was found to be pursuing more than one economic activity during the reference period, the appropriate detailed activity status category related to the activity in which relatively more time was spent. Similar approach was adopted for non-economic activities also.

2.17.2 Usual activity status: The usual activity status relates to the activity status of a person during the reference period of 365 days preceding the date of survey. The activity status on which a person spent relatively long time (major time criterion) during the 365 days preceding the date of survey was considered the *usual principal activity status* of the person. To decide the usual principal activity of a person, he/ she was first categorised as belonging to the labour force or not, during the reference period on the basis of major time criterion. Persons, thus adjudged as not belonging to the labour force were assigned the broad activity status 'neither working nor available for work'. For the persons belonging to the labour force, the broad activity status of either 'working' or 'not working but seeking and/ or available for work' was then ascertained again on the basis of the relatively long time spent in the labour force during the 365 days preceding the date of survey. Within the broad activity status so determined, the detailed activity status category of a person pursuing more than one such activity was determined again on the basis of the 'relatively long time spent' criterion.

2.17.3 Subsidiary economic activity status: Usual principal status of a person was determined as the status on which the person spent relatively long time (major time criterion) during the 365

days preceding the date of survey. Such persons might have also pursued, in addition to his/her usual principal status, some economic activity for 30 days or more during the reference period of 365 days preceding the date of survey. The status in which such economic activity was pursued during the reference period of 365 days preceding the date of survey was the subsidiary economic activity status of the person. In case of multiple subsidiary economic activities, the major activity and status based on the 'relatively long time spent' criterion was considered. It may be noted that engagement in work in subsidiary capacity may arise out of the two following situations:

- (i) a person may be engaged for a relatively long period during the 365 days in an economic (a non-economic activity) and for a relatively small period, which is not less than 30 days, in another economic activity (any economic activity).
- (ii) a person may be pursuing an economic activity (non-economic activity) almost throughout the year in the principal status and also simultaneously pursuing another economic activity (any economic activity) for relatively small period in a subsidiary capacity. In such cases, since both the activities were being pursued throughout the year and the duration of both the activities is more than 30 days, the activity which was being pursued for a relatively small period was considered as his/ her subsidiary activity.

2.17.4 Current weekly activity status (CWS): The current weekly activity status of a person is the activity status obtaining for a person during a reference period of 7 days preceding the date of survey. It is decided **on the basis of a certain priority cum major time criterion**. According to the priority criterion, the status of 'working' gets priority over the status of 'not working but seeking or available for work', which in turn gets priority over the status of 'neither working nor available for work'. *A person is considered working (or employed) if he/ she worked for at least one hour on at least one day during the 7 days preceding the date of survey or if he/she had work for at least 1 hour on at least one day during the 7 days preceding the date of the survey but did not do the work.* A person is considered 'seeking or available for work (or unemployed)' if during the reference week no economic activity was pursued by the person but he/ she made efforts to get work or had been available for work for at least one hour on any day during the reference week. A person who had neither worked nor was available for work any time during the reference week, is considered to be engaged in non-economic activities (or not in labour force). Having decided the broad current weekly activity status of a person on the basis of 'priority' criterion, the detailed current weekly activity status is again decided on the basis of 'major time' criterion if a person was pursuing multiple economic activities.

2.17.5 Current daily activity status (CDS): The current daily activity status for a person is determined on the basis of his/ her activity status on each day of the reference week using a priority-cum-major time criterion. As mentioned earlier, according to the priority criterion, the status of 'working' gets priority over the status of 'not working but seeking or available for work', which in turn gets priority over the status of 'neither working nor available for work'. The following points were used for determining the current daily status of a person:

- i) If on a day, a person '*had actually worked for 1 hour or more*' or '*had work for 1 hour or more but did not do the work*', he was given work status code.
- ii) For each day at most two economic activities (work activities) were recorded.
- iii) Economic activities were differentiated at *status x 2-digit of NIC-2008*.
- iv) If a person was not engaged in 'work' even for 1 hour on a day, only one status code relevant for unemployment status or out of labour force status, as the case may be was recorded using a priority-cum-major time criteria.

2.18 In the of PLFS, the current weekly activity status of a person is derived from the information on hours worked in the different activities of a person during 7 days of the reference week.

2.19 Industry and occupation of the work activity: For the workers (employed persons), to record the industry of work, 5-digit classification of NIC-2008 was used and to record the type of occupation, 3-digit classification of NCO-2015 was used. To identify certain category of workers under Division 97 (Activities of households as employers of domestic personnel) of NIC-2008, eight additional codes were used in the survey viz., housemaid /servant (97001), cook (97002), gardener (97003), gatekeeper/chowkidar/watchman (97004), governess/baby-sitter (97005), tutor (97006), driver (97007) and 'others' (97009). Broad structure of NIC-2008 (Sections and Divisions) and description of occupation divisions/sub-divisions of NCO-2015 have been presented at the end of this Appendix in **Annexure I** and **Annexure II**, respectively.

2.20 Hours actually worked: 'Hours actually worked' for a person was obtained in the line of the concept of '*hours actually worked*' as defined by ILO in its 18th ICLS (International Conference of Labour Statisticians) and in consideration of the production boundary followed in PLFS to define the economic activities.

2.20.1 'Hours actually worked' by a person on a day is the total time spent by the person on that day towards production of all goods and services that are considered as economic activities. It included (i) the hours spent directly on production activity, (ii) hours related to the production activity i.e., hours required to maintain, facilitate or enhance productive activities, (iii) hours accounted for unavoidable 'in-between time' in the course of production process when the person continues to be available for work such as work or machinery breakdown or accident or lack of supplies etc., (iv) hours allowed for short rest or refreshment. All other time that had not been involved for work, even if paid for, was excluded. The production activity performed in any location (in the economic territory/ establishment, on the street, at home, elsewhere away from usual work location) was considered for getting hours actually worked.

2.20.2 Therefore, hours actually worked included

- (i) hours spent directly on production:
 - (a) hours worked during normal periods of work;
 - (b) hours worked in addition to normal periods of work (such as overtime);
- (ii) hours related to the production activity:

- (a) time spent at the place of work for preparation of the workplace, repairs and maintenance, preparation and cleaning of tools, and the preparation of receipts, time sheets and reports etc.,
 - (b) time spent for purchasing raw or basic materials or resale goods, transporting products to/from the market, source or home,
 - (c) time spent for waiting for business, customers, patients, on-call duty,
 - (d) time spent for travelling between work locations, to reach field projects, fishing areas, assignments, conferences or to meet clients (such as door-to-door vending), patients,
 - (e) time spent for receiving training to acquire new skills or techniques and for upgrading or enhancement of skills for jobs in the economic unit, at or away from the work location,
- (iii) Time spent at the place of work when persons could not work for reasons such as lack of supply of work, breakdown of machinery or accidents, but continued to be available for work. This ‘in-between time’ is unavoidable or inherent to the job and involves temporary interruptions of a technical, material or economic nature.
- (iv) Time spent for short periods of rest, relief or refreshment at the work place including tea, coffee etc.,

and hours actually worked excluded

- (i) hours not worked, irrespective of payment, such as weekly holidays, annual leave, public holidays, sick leave, parental (maternity/paternity) leave, other leave for personal or family reasons, etc.,
- (ii) time spent on travel from home to work and vice versa,
- (iii) time spent for longer breaks such as meal breaks when no productive activity is performed, even when paid by the employer,
- (iv) time spent in educational activity not intended for the economic unit even when authorized, paid or provided by the employer.

2.20.3 Determination of hours actually worked for self-employed persons in some specific cases: Many of the self-employed persons have atypical ways of working, for example those engaged in agricultural activities, fisheries or a shop owner. For collecting information on hours actually worked by the self-employed persons, following points were considered:

- (a) For determination of the actual hours of work for these categories of workers, the basic criterion followed was whether they were available for the work to be performed. The availability criterion was judged by considering whether they were ready to receive order or attend to clients or to perform the economic activities.
- (b) However, period of absence from work was excluded. Absence from work might be due to illness, occupational injury, leave or care for dependants (including the elderly) and other types of absence due to personal reasons. Besides, periods of absence affecting or stemming from the economic unit, workplace or establishment for technical or economic reasons, strike activity, by bad weather, were also

excluded. The absence from work might be due to economic reasons such as reduction in activity.

- (c) When the economic activity in which the person was engaged did not require actual working for production purpose, such periods were excluded from the count of hours actually worked.
- (d) Thus, the period during which the self-employed persons were actually absent from work was excluded from the calculation of hours actually worked.

2.21 Hours would have worked: The ‘hours would have worked’ related to the hours the person would have worked had he worked in the economic activity from which the person was temporarily off.

2.22 Earnings of the regular salaried/wage employees and casual labours: For collecting information on earning of ‘regular salaried/wage employees’ and ‘casual labours’, following points were taken into consideration:

- (a) Earnings of the regular salaried/wage employees and casual labours relates to remuneration in cash and in kind which were paid, as a rule at regular intervals, for time worked (including overtime payments) or work done together with remuneration for time not worked, such as for annual vacation, other paid leave or holidays.
- (b) It relates to employees’ gross remuneration, i.e. the total before any deductions were made by the employer in respect of taxes, contributions of employees to social security and pension schemes, life insurance premiums and other obligations of employees.
- (c) Earnings exclude employers' contributions paid to social security and pension schemes in respect of their employees and also the benefits received by employees under these schemes.
- (d) Earnings also exclude severance and termination pay.
- (e) The wages in kind were evaluated at the respective current retail price.
- (f) Bonus (expected or paid) was duly apportioned for the reference period for inclusion in earnings.

2.23 Gross earnings of self-employed persons: The gross earnings of the self-employed persons during a reference period was derived by the procedure stated below:

- (a) Gross earnings of the self-employed persons during a reference period was obtained by deducting total expenses from the gross output of that period.
- (b) The gross output corresponds to the sum of the values of all goods and services produced during the reference period, including any part which has been retained for own consumption or given free of charge or at reduced prices to hired labour.
- (c) The valuation of output was made at basic price. The basic price is defined as the amount receivable by the producer from the purchaser for a unit of good or service produced as output minus any tax payable on product (like, excise duties, sales tax, non-deductable vat etc.) plus any subsidy receivable on the product for selling those to the ultimate consumer at lesser price.

- (d) Total expenses include (i) current expenses of the enterprise, such as purchase of raw materials, tools and equipment, fuel, electricity, etc., (ii) payments to hired labour, (iii) rent paid for fixed capital items and interest payments on financial assets, (iv) taxes on production (like, recurrent taxes on land & buildings, business or professional licence fees, road tax, registration fee of vehicles etc.) paid by the enterprise, reduced by subsidies received on production (like, employing physically challenged persons, installing pollution control equipment etc.).
- (e) Thus, gross earning = gross output – total expenses
- (f) If the owners of the enterprise are from the same household, earning was judged by considering equal distribution of income among all the owners. If the owners of the enterprise were from the different households, earning from the partnership business was be distributed, according to the agreement (verbal or written), among the partner households.
- (g) For helpers in household enterprises, gross earnings was considered as zero (0).

2.24 Enterprise: An enterprise is an undertaking which is engaged in the production and/ or distribution of some goods and/ or services meant mainly for the purpose of sale, whether fully or partly. An enterprise may be owned and operated by a single household, or by several households jointly, or by an institutional body.

2.25 Household Enterprise: A household enterprise is one which is run by one or more members of a household or run jointly by two or more households on partnership basis irrespective of whether the enterprise is located in the premises of the household(s) or not. In other words, all proprietary and partnership enterprises are household enterprises.

2.26 Definitions of various types of enterprises:

(i) **Proprietary:** When an individual is the sole owner of an enterprise it is a proprietary enterprise. Own account production of fixed assets for own use, when produced by a single member, will be classified as proprietary enterprise.

(ii) **Partnership:** Partnership is defined as the ‘relation between persons who have agreed to share the profits of a business carried on by all or any one of them acting for all’. There may be two or more owners, belonging to the same or different households, on a partnership basis, with or without formal registration (where there is a tacit understanding about the distribution of profit among the so-called partners). Own account production of fixed assets, when produced by two or more members belonging to the same or different households was classified as partnership enterprises. Thus, own account production of fixed assets by a group of households for community use was classified as partnership enterprise.

(iii) **Government/Local Body:** Government/local body included Government administrative departments of both the Central and State Governments, local bodies of rural and urban areas and Departmental Enterprises like Indian Railways, Department of Post, etc.

(iv) **Public Sector Enterprises:** Public Sector Enterprises included government companies and subsidiaries of government companies and statutory corporations set up under special enactments of Parliament or State Legislatures. Some of these are Damodar Valley Corporation, Food Corporation of India, Airports Authority of India, Road Transport Corporations, Warehousing Corporations, Electricity Boards, etc. Some of the financial enterprises included the nationalised banks, Central and State financial corporations, LIC, GIC, Employees State Insurance Corporation (ESIC), etc. The non-financial public sector enterprises consisted of all the undertakings/ enterprises of central, state, union territory governments and local authorities under the industry groups agriculture, forestry and logging, fishing, mining, manufacturing, electricity and gas, road, air and water transport including port trusts, storage and warehousing, trade, hotels & restaurants and other services.

(v) **Autonomous Bodies:** Autonomous Bodies are mostly set up by an Act of Parliament/Assembly or registered under Societies Registration Act. However, they are separate from Government Administrative Departments as they enjoy certain degree of autonomy in their day to day functioning. They receive grants from Government in addition to their own resources. Further, these are engaged in non-market production. Some of the autonomous bodies are: All India Institute of Medical Sciences, Indian Institute of Technology, Indian Statistical Institute, Housing Boards, Development Boards, Pollution Control Boards etc.

(vi) **Public Limited Company:** A public limited company is defined as a company that is not a private company. As such public companies can have an unlimited number of members and can invite the public to subscribe to its shares and debentures. The minimum number of members required to form a public limited company is seven.

(vii) **Private Limited Company:** Private limited company means a company which by its articles:

- (a) restricts the right to transfer its shares, if any,
- (b) limits the number of its members to two hundred not including-
 - (i) persons who are in the employment of the company, and
 - (ii) persons who, having been formerly in the employment of the company, were members of the company while in that employment and have continued to be members after the employment ceased; and
- (c) prohibits any invitation to the public to subscribe for any share in, or debentures of, the company.

[Where two or more persons hold jointly one or more shares in a company, they shall, for the purpose of this definition, be treated as a single member.]

(viii) **Co-operative Societies:** Co-operative society is one that is formed through the co-operation of a number of persons, recognised as members of the society, to benefit themselves. In the process, the funds are raised by members' contributions/investments and the profits generated out of the society's activities are shared by the members. The government itself in a government

agency can also be a member or shareholder of a registered co-operative society but this fact cannot render the society into a public sector enterprise for the purpose of this survey.

(ix) **Trust:** An arrangement through which one set of people, the trustees, are the legal owners of property which is administered in the interest of another set, the beneficiaries. Trusts may be set up to provide support for individuals or families, to provide pensions, to run charities, to liquidate the property of the bankrupts for the benefit of their creditors, or for the safe keeping of securities bought by trusts with their investor's money. The assets, which trusts hold are regulated by law, must be administered in the interests of the beneficiaries, and not for the profit of the trustees.

(x) **Non-Profit Institutions (NPI):** NPIs are legal or social entities created for the purpose of producing goods and services whose status does not permit them to be a source of income, profit or other financial gain for the units that establish, control or finance them. In practice, their productive activities are bound to generate either surpluses or deficits but any surpluses they happen to make cannot be appropriated by other institutional units. The articles of association by which they are established are drawn up in such a way that the institutional units which control or manage them are not entitled to a share in any profits or other income which they receive.

2.27 Type of job contract: For each employee in the usual status, it was ascertained whether there was any *written contract or agreement* with his/her employer in respect of duration of employment for the job he/she was engaged. For those who reported to have written job contract with their employer, further probing was done in respect of the length of duration contracted, viz., *for 1 year or less, for more than 1 year to 3 years and more than 3 years*. If the contract of employment specified a particular date of termination which was more than 3 years or if the type of job contracted was such that no time was fixed but the contract could only be terminated for certain administrative reasons such as incompetence, misconduct or for economic reasons then the contract was considered to have a duration of 3 years or more. However, if no written contract existed, then irrespective of the duration of employment, it was considered as no written job contract.

2.28 Eligibility of paid leave: For the employees in the usual status, it was ascertained whether they were eligible to get paid leave. Paid leave included leave during sickness, maternity, or such leave, as an employee was eligible to take without loss of pay, as per the conditions of employment. The situation was assessed excluding the paid off-days/holidays, which an enterprise normally allows to its employees. Employees were classified as those with eligibility for paid leave and those without eligibility for paid leave.

2.29 Availability of social security benefits: For the employees in the usual status, it was ascertained whether they were covered under any of the specified social security benefits or a combination of them which are arranged by the employer or for which contribution is made by the employer. For the purpose of the survey the following schemes were considered as social security benefits:

- only PF/ pension (i.e., GPF, CPF, PPF, pension, etc.).
- only gratuity
- only health care & maternity benefits
- only PF/ pension and gratuity
- only PF/ pension and health care & maternity benefits.
- only gratuity and health care & maternity benefits
- PF/ pension, gratuity and health care & maternity benefits

Those who were not covered under any of the above social security schemes were considered as not eligible for any social security benefits.

2.29.1 The term Provident Fund (PF) included General Provident Fund, Contributory Provident Fund, Public Provident Fund, Employees Provident Fund, etc. It may be mentioned that coverage under any of these social security schemes meant that the employer contributed/ arranged/ paid in implementing the social security benefits for the worker. If an employee operated, in his/ her individual capacity, a PPF account and the employer is not contributing in that account then it was not considered as a social security benefit. On the contrary, a scheme, in which both the employee and the employer contributed, was considered a social security benefit. When benefits were given by the employer for treatment of illness/ injury or an employee was eligible for paid leave for a specified period of pre-natal/ childbirth/ post-natal stages or the expenditure for maternity care or childbirth was borne by the employer as per the conditions of employment, then such benefits were considered as health care & maternity benefits. There were cases where the employer was not directly contributing in a social security scheme for the employees, but being the member of the welfare association or organization or scheme in relation to the specific activity carried out by the employer, the employees got the benefit from that welfare association/ organization/ scheme. Such cases were also considered as social security benefits availed through the employer.

2.30 Guidelines of International Conference of Labour Statisticians (ICLS) on informal sector and informal employment: Broad guideline regarding the concept of informal sector and informal employment as enunciated in the 15th International Conference of Labour Statisticians (ICLS) and 17th ICLS, are given below. Extracts of the resolutions and guidelines concerning informal sector and informal employment are given in **Annexure III** and **Annexure IV** respectively, at the end of this Appendix.

2.30.1 As per 15th ICLS, the *informal sector* is broadly characterized as consisting of:

- (a) units engaged in the production of goods or services with the primary objective of generating employment and incomes to the persons concerned. These units typically operate at a low level of organization, with little or no division between labour and capital as factors of production and on a small scale. Labour relations - where they exist - are based mostly on casual employment, kinship or personal and social relations rather than contractual arrangements with formal guarantees.

- (b) production units of the informal sector have the characteristic features of household enterprises. The fixed and other assets used do not belong to the production units as such but to their owners. The units as such cannot engage in transactions or enter into contracts with other units, nor incur liabilities, on their own behalf. The owners have to raise the necessary finance at their own risk and are personally liable, without limit, for any debts or obligations incurred in the production process. Expenditure for production is often indistinguishable from household expenditure. Similarly, capital goods such as buildings or vehicles may be used indistinguishably for business and household purposes.

Thus, for statistical purposes, the *informal sector*, as per guidelines of 15th ICLS is regarded as a group of production units which, according to the definitions and classifications provided in the United Nations System of National Accounts, forms part of the household sector as household enterprises or, equivalently, unincorporated enterprises owned by households.

2.30.2 According to the 17th ICLS framework, *informal employment* is identified by jobs classified by status of employment of the workers and the types of production units in which they were employed. The different types of production units are: (a) *formal sector enterprises*, (b) *informal sector enterprises*, and (c) *households which produce goods for their own final use and/or those employing domestic workers*. The status of employment of the workers performing the jobs may be (a) *own account workers*, (b) *employers*, (c) *contributing family workers*, (d) *employees*, or (e) *member of informal producers' co-operatives*. The employment may be considered as formal or informal depending upon the type of enterprises in which the workers are engaged or the nature of work they perform.

The *informal employment* comprises jobs held by:

- own-account workers and employers who have their own informal sector enterprises;
- contributing family workers, irrespective of whether they work in formal or informal sector enterprises;
- employees who have informal jobs (for definition, see item (5) in paragraph 3 in Annexure IV) whether employed by formal sector enterprises, informal sector enterprises, or as paid domestic workers by households;
- members of informal producers' cooperatives; and
- persons engaged in the own-account production of goods exclusively for own final use by their household, such as subsistence farming or do-it-yourself construction of own dwellings.

2.31 Informal sector and conditions of employment in PLFS: In this Report, estimates of percentage of workers in different types of enterprises are presented in respect of workers engaged in non-agriculture sector (industry divisions 05-99 of NIC-2008). It may be noted that *proprietary and partnership* enterprises are classified as informal sector enterprises. Besides, percentage of regular wage/ salaried employees in usual status (ps+ss) in non-agriculture sector under different conditions of conditions of employment (such as without written job contract, not eligible for paid leave, without any social security benefit, etc) are also presented.

2.32 Social group: For each household surveyed, the social group to which the head of the household belonged to was recorded. The social group of the head of the household was considered as the social group of all the members of the household irrespective of the actual social group to which the individual members belonged. In the survey, information was collected in respect of four social groups viz. *scheduled tribe (ST)*, *scheduled caste (SC)*, *other backward class (OBC)* and the rest referred to as *others*. The information recorded in this regard was based entirely on the response of the informant and not based on any state or central level list of the social group.

2.33 Religious group: For each household surveyed, the reported religion of the head of the household was considered as the religion of *all* the members of the household irrespective of the actual religion followed by individual members. Seven known major religions viz. Hinduism, Islam, Christianity, Sikhism, Jainism, Buddhism and Zoroastrianism were explicitly considered for data collection as a part of the household characteristics. The information recorded in this regard was based entirely on the response of the informant.

2.34 Conceptual Framework of Key Employment and Unemployment Indicators: From the Periodic Labour Force Survey (PLFS), the Key employment and unemployment Indicators viz. LFPR, WPR, PU and UR are derived. The definitions of these indicators are as follows:

1. **Labour force participation rate (LFPR):** LFPR is defined as the percentage of persons in the labour force in the population.
2. **Worker Population Ratio (WPR):** WPR defined as the percentage of employed persons in the population.
3. **Proportion Unemployed (PU):** It is defined as the percentage of persons unemployed in the population.
4. **Unemployment Rate (UR):** UR is defined as the percentage of persons unemployed among the persons in the labour force.

2.34.1 The architecture of key labour force indicators are given below in tabular form:

activity profile		key indicators
activity status(code)	category of persons	
11, 12, 21, 31, 41, 42, 51, 61, 62, 71, 72	workers	1. Labour Force Participation Rate (LFPR): $\frac{\text{no. of employed persons} + \text{no. of unemployed persons}}{\text{total population}} * 100$
81, 82	unemployed	2. Worker Population Ratio (WPR): $\frac{\text{no. of employed persons}}{\text{total population}} * 100$
91, 92, 93, 94, 95, 97, 98, 99	not in labour force	3. Proportion Unemployed (PU): $\frac{\text{no. of unemployed persons}}{\text{total population}} * 100$ 4. Unemployment Rate (UR): $\frac{\text{no. of unemployed persons}}{\text{no. of employed persons} + \text{no. of unemployed persons}} * 100$
Note: Activity status codes, 42, 61, 62, 71, 72, 82, and 98 are used only in the <i>current status</i> and the remaining activity status codes are used in both <i>usual status</i> and in <i>current status</i>		

BROAD STRUCTURE of NIC -2008 (SECTIONS AND DIVISIONS)

Section A: Agriculture, forestry and fishing

- Division 01: Crop and animal production, hunting and related service activities
- Division 02: Forestry and logging
- Division 03: Fishing and aquaculture

Section B: Mining and quarrying

- Division 05: Mining of coal and lignite
- Division 06: Extraction of crude petroleum and natural gas
- Division 07: Mining of metal ores
- Division 08: Other mining and quarrying
- Division 09: Mining support service activities

Section C: Manufacturing

- Division 10: Manufacture of food products
- Division 11: Manufacture of beverages
- Division 12: Manufacture of tobacco products
- Division 13: Manufacture of textiles
- Division 14: Manufacture of wearing apparel
- Division 15: Manufacture of leather and related products
- Division 16: Manufacture of wood and products of wood and cork, except furniture;
 manufacture of articles of straw and plaiting materials
- Division 17: Manufacture of paper and paper products
- Division 18: Printing and reproduction of recorded media
- Division 19: Manufacture of coke and refined petroleum products
- Division 20: Manufacture of chemicals and chemical products
- Division 21: Manufacture of pharmaceuticals, medicinal chemical and botanical products
- Division 22: Manufacture of rubber and plastics products
- Division 23: Manufacture of other non-metallic mineral products
- Division 24: Manufacture of basic metals
- Division 25: Manufacture of fabricated metal products, except machinery and equipment
- Division 26: Manufacture of computer, electronic and optical products
- Division 27: Manufacture of electrical equipment
- Division 28: Manufacture of machinery and equipment n.e.c.
- Division 29: Manufacture of motor vehicles, trailers and semi-trailers
- Division 30: Manufacture of other transport equipment
- Division 31: Manufacture of furniture
- Division 32: Other manufacturing
- Division 33: Repair and installation of machinery and equipment

Section D: Electricity, gas, steam and air conditioning supply

Division 35: Electricity, gas, steam and air conditioning supply

Section E: Water supply; sewerage, waste management and remediation activities

Division 36: Water collection, treatment and supply

Division 37: Sewerage

Division 38: Waste collection, treatment and disposal activities; materials recovery

Division 39: Remediation activities and other waste management services

Section F: Construction

Division 41: Construction of buildings

Division 42: Civil engineering

Division 43: Specialized construction activities

Section G: Wholesale and retail trade; repair of motor vehicles and motorcycles

Division 45: Wholesale and retail trade and repair of motor vehicles and motorcycles

Division 46: Wholesale trade, except of motor vehicles and motorcycles

Division 47: Retail trade, except of motor vehicles and motorcycles

Section H: Transportation and storage

Division 49: Land transport and transport via pipelines

Division 50: Water transport

Division 51: Air transport

Division 52: Warehousing and support activities for transportation

Division 53: Postal and courier activities

Section I: Accommodation and Food service activities

Division 55: Accommodation

Division 56 Food and beverage service activities

Section J: Information and communication

Division 58: Publishing activities

Division 59: Motion picture, video and television programme production, sound recording
and music publishing activities

Division 60: Broadcasting and programming activities

Division 61: Telecommunications

Division 62: Computer programming, consultancy and related activities

Division 63: Information service activities

Section K: Financial and insurance activities

Division 64: Financial service activities, except insurance and pension funding

Division 65: Insurance, reinsurance and pension funding, except compulsory social security

Division 66: Other financial activities

Section L: Real estate activities

Division 68: Real estate activities

Section M: Professional, scientific and technical activities

Division 69: Legal and accounting activities

Division 70: Activities of head offices; management consultancy activities

Division 71: Architecture and engineering activities; technical testing and analysis

Division 72: Scientific research and development

Division 73: Advertising and market research

Division 74: Other professional, scientific and technical activities

Division 75: Veterinary activities

Section N: Administrative and support service activities

Division 77: Rental and leasing activities

Division 78: Employment activities

Division 79: Travel agency, tour operator and other reservation service activities

Division 80: Security and investigation activities

Division 81: Services to buildings and landscape activities

Division 82: Office administrative, office support and other business support activities

Section O: Public administration and defence; compulsory social security

Division 84: Public administration and defence; compulsory social security

Section P: Education

Division 85: Education

Section Q: Human health and social work activities

Division 86: Human health activities

Division 87: Residential care activities

Division 88: Social work activities without accommodation

Section R: Arts, entertainment and recreation

Division 90: Creative, arts and entertainment activities

Division 91: Libraries, archives, museums and other cultural activities

Division 92: Gambling and betting activities

Division 93: Sports activities and amusement and recreation activities

Section S: Other service activities

Division 94: Activities of membership organizations

Division 95: Repair of computers and personal and household goods

Division 96: Other personal service activities

Section T: Activities of households as employers; undifferentiated goods and services producing activities of households for own use

Division 97: Activities of households as employers of domestic personnel

Division 98: Undifferentiated goods and services producing activities of private households for own use

Section U: Activities of extraterritorial organizations and bodies

Division 99: Activities of extraterritorial organizations and bodies

	96	Refuse Workers and Other Elementary Workers

**Resolution concerning statistics of employment in the informal sector,
adopted by the Fifteenth International Conference of Labour Statisticians (January 1993)**

[Extract]

Concept

5 (1) The informal sector may be broadly characterized as consisting of units engaged in the production of goods or services with the primary objective of generating employment and incomes to the persons concerned. These units typically operate at a low level of organization, with little or no division between labour and capital as factors of production and on a small scale. Labour relations - where they exist - are based mostly on casual employment, kinship or personal and social relations rather than contractual arrangements with formal guarantees.

(2) Production units of the informal sector have the characteristic features of household enterprises. The fixed and other assets used do not belong to the production units as such but to their owners. The units as such cannot engage in transactions or enter into contracts with other units, nor incur liabilities, on their own behalf. The owners have to raise the necessary finance at their own risk and are personally liable, without limit, for any debts or obligations incurred in the production process. Expenditure for production is often indistinguishable from household expenditure. Similarly, capital goods such as buildings or vehicles may be used indistinguishably for business and household purposes.

Operational definitions

Informal sector

6 (1) For statistical purposes, the informal sector is regarded as a group of production units which, according to the definitions and classifications provided in the United Nations System of National Accounts (Rev. 4), form part of the household sector as household enterprises or, equivalently, unincorporated enterprises owned by households as defined in paragraph 7.

(2) Within the household sector, the informal sector comprises (i) "informal own-account enterprises" as defined in paragraph 8; and (ii) the additional component consisting of "enterprises of informal employers" as defined in paragraph 9.

(3) The informal sector is defined irrespective of the kind of workplace where the productive activities are carried out, the extent of fixed capital assets used, the duration of the operation of the enterprise (perennial, seasonal or casual), and its operation as a main or secondary activity of the owner.

Household enterprises

7. According to the United Nations System of National Accounts (Rev. 4), household enterprises (or, equivalently, unincorporated enterprises owned by households) are distinguished from corporations and quasi-corporations on the basis of the legal organization of the units and the type of accounts kept for them. Household enterprises are units engaged in the production of goods or services which are not constituted as separate legal entities independently of the households or household members that own them, and for which no complete sets of accounts (including balance sheets of assets and liabilities) are available which would permit a clear distinction of the production activities of the enterprises from the other activities of their owners and the identification of any flows of income and capital between the enterprises and the owners. Household enterprises include unincorporated enterprises owned and operated by individual household members or by two or more members of the same household as well as unincorporated partnerships formed by members of different households.

Informal own-account enterprises

8 (1) Informal own-account enterprises are household enterprises (in the sense of paragraph 7) owned and operated by own-account workers, either alone or in partnership with members of the same or other households, which may employ contributing family workers and employees on an occasional basis, but do not employ employees on a continuous basis and which have the characteristics described in subparagraphs 5 (1) and (2).

(2) For operational purposes, informal own-account enterprises may comprise, depending on national circumstances, either all own-account enterprises or only those which are not registered under specific forms of national legislation.

(3) Registration may refer to registration under factories or commercial acts, tax or social security laws, professional groups' regulatory acts, or similar acts, laws, or regulations established by national legislative bodies.

Enterprises of informal employers

9 (1) Enterprises of informal employers are household enterprises (in the sense of paragraph 7) owned and operated by employers, either alone or in partnership with members of the same or other households, which employ one or more employees on a continuous basis and which have the characteristics described in subparagraphs 5 (1) and (2).

(2) For operational purposes, enterprises of informal employers may be defined, depending on national circumstances, in terms of one or more of the following criteria:

- (i) size of the unit below a specified level of employment;
- (ii) non-registration of the enterprise or its employees.

(3) While the size criterion should preferably refer to the number of employees employed on a continuous basis, in practice, it may also be specified in terms of the total number of employees or the number of persons engaged during the reference period.

(4) The upper size limit in the definition of enterprises of informal employers may vary between countries and branches of economic activity. It may be determined on the basis of minimum size requirements as embodied in relevant national legislations, where they exist, or in terms of empirically determined norms. The choice of the upper size limit should take account of the coverage of statistical inquiries of larger units in the corresponding branches of economic activity, where they exist, in order to avoid an overlap.

(5) In the case of enterprises, which carry out their activities in more than one establishment, the size criterion should, in principle, refer to each of the establishments separately rather than to the enterprise as a whole. Accordingly, an enterprise should be considered to satisfy the size criterion if none of its establishments exceeds the specified upper size limit.

(6) Registration of the enterprise may refer to registration under specific forms of national legislation as specified in subparagraph 8 (3). Employees may be considered registered if they are employed on the basis of an employment or apprenticeship contract which commits the employer to pay relevant taxes and social security contributions on behalf of the employee or which makes the employment relationship subject to standard labour legislation.

10. For particular analytical purposes, more specific definitions of the informal sector may be developed at the national level by introducing further criteria on the basis of the data collected. Such definitions may vary according to the needs of different users of the statistics.

Population employed in the informal sector

11 (1) The population employed in the informal sector comprises all persons who, during a given reference period, were employed (in the sense of paragraph 9 of resolution I adopted by the Thirteenth International Conference of Labour Statisticians) in at least one informal sector unit as defined in paragraphs 8 and 9, irrespective of their status in employment and whether it is their main or a secondary job.

Treatment of particular cases

14. Household enterprises, which are exclusively engaged in non-market production, i.e. the production of goods or services for own final consumption or own fixed capital formation as defined by the United Nations System of National Accounts (Rev. 4), should be excluded from the scope of the informal sector for the purpose of statistics of employment in the informal sector. Depending on national circumstances, an exception may be made in respect of households employing domestic workers as referred to in paragraph 19.

16. For practical reasons, the scope of the informal sector may be limited to household enterprises engaged in non-agricultural activities. With account being taken of paragraph 14, all non-agricultural activities should be included in the scope of the informal sector, irrespective of whether the household enterprises carry them out as main or secondary activities. In particular, the informal sector should include secondary non-agricultural activities of household enterprises in the agricultural sector if they fulfil the requirements of paragraphs 8 or 9.

17. Units engaged in professional or technical activities carried out by self-employed persons, such as doctors, lawyers, accountants, architects or engineers, should be included in the informal sector if they fulfil the requirements of paragraphs 8 or 9.

18 (1) Outworkers are persons who agree to work for a particular enterprise, or to supply a certain quantity of goods or services to a particular enterprise, by prior arrangement or contract with that enterprise, but whose place of work is not within any of the establishments, which make up that enterprise.

(2) In order to facilitate data collection, all outworkers should be potentially included in the scope of informal sector surveys, irrespective of whether they constitute production units on their own (self-employed outworkers) or form part of the enterprise, which employs them (employee outworkers). On the basis of the information collected, self-employed and employee outworkers should be distinguished from each other by using the criteria recommended in the United Nations System of National Accounts (Rev. 4). Outworkers should be included in the informal sector, or in the population employed in the informal sector, if the production units, which they constitute as self-employed persons or for which they work as employees fulfil the requirements of paragraphs 8 or 9.

19. Domestic workers are persons exclusively engaged by households to render domestic services for payment in cash or in kind. Domestic workers should be included in or excluded from the informal sector depending upon national circumstances and the intended uses of the statistics. In either case, domestic workers should be identified as a separate sub-category in order to enhance international comparability of the statistics.

ANNEXURE – IV

**Guidelines concerning a statistical definition of informal employment,
endorsed by the Seventeenth International Conference of Labour Statisticians (November-
December 2003)**

The Seventeenth International Conference of Labour Statisticians (ICLS),

Acknowledging that the relevance of informal employment varies among countries, and that a decision to develop statistics on it is therefore determined by national circumstances and priorities,

Noting that the term ‘informal economy’ is used by the ILO as including the informal sector as well as informal employment, and that as a supplement to the System of National Accounts 1993 an international conceptual framework for measurement of the non-observed economy already exists, which distinguishes the informal sector from underground production, illegal production, and household production for own final use,

Recalling the existing international standards on statistics of employment in the informal sector contained in the Resolution concerning statistics of employment in the informal sector adopted by the Fifteenth ICLS (January 1993),

Noting the recommendation made by the Expert Group on Informal Sector Statistics (Delhi Group), during its Fifth Meeting, that the definition and measurement of employment in the informal sector need to be complemented with a definition and measurement of informal employment,

Emphasizing the importance of consistency and coherence in relating the enterprise-based concept of employment in the informal sector to a broader, job-based concept of informal employment,

Considering the methodological work, which the International Labour Office and a number of countries have already undertaken in this area,

Supporting the request, which was made by the International Labour Conference in paragraph 37(n) of the Resolution concerning decent work and the informal economy adopted during its 90th Session (2002), that the International Labour Office should assist countries in the collection, analysis and dissemination of statistics on the informal economy,

Recognizing that the considerable diversity of informal employment situations poses limits to the extent to which statistics on informal employment can be harmonized across countries,

Realizing the usefulness of international guidelines in assisting countries in the development of national definitions of informal employment, and in enhancing the international comparability of the resulting statistics to the extent possible,

Endorses the following guidelines, which complement the Resolution concerning statistics of employment in the informal sector of the Fifteenth ICLS, and encourages countries to test the conceptual framework on which they are based.

1. The concept of informal sector refers to production units as observation units, while the concept of informal employment refers to jobs as observation units. Employment is defined in the sense of paragraph 9 of the Resolution concerning statistics of the economically active population, employment, unemployment and underemployment adopted by the Thirteenth ICLS.

2. *Informal sector enterprises and employment in the informal sector* are defined according to the Resolution concerning statistics of employment in the informal sector adopted by the Fifteenth ICLS. For the purpose of statistics on informal employment, paragraph 19 of the Resolution concerning statistics of employment in the informal sector adopted by the Fifteenth ICLS should be applied to exclude households employing paid domestic workers from informal sector enterprises, and to treat them separately as part of a category named 'households'.

3. (1) *Informal employment* comprises the total number of informal jobs as defined in subparagraphs (2) to (5) below, whether carried out in formal sector enterprises, informal sector enterprises, or households, during a given reference period.

(2) As shown in the attached matrix, informal employment includes the following types of jobs:

- (i) own-account workers employed in their own informal sector enterprises (cell 3);
- (ii) employers employed in their own informal sector enterprises (cell 4);
- (iii) contributing family workers, irrespective of whether they work in formal or informal sector enterprises (cells 1 and 5);
- (iv) members of informal producers' cooperatives (cell 8);
- (v) employees holding informal jobs (as defined in subparagraph (5) below) in formal sector enterprises, informal sector enterprises, or as paid domestic workers employed by households (cells 2, 6 and 10);
- (vi) own-account workers engaged in the production of goods exclusively for own final use by their household (cell 9), if considered employed according to paragraph 9 (6) of the Resolution concerning statistics of the economically active population, employment, unemployment and underemployment adopted by the Thirteenth ICLS.

- (3) Own-account workers, employers, members of producers' cooperatives, contributing family workers, and employees are defined in accordance with the latest version of the International Classification of Status in Employment (ICSE).
 - (4) Producers' cooperatives are considered informal, if they are not formally established as legal entities and also meet the other criteria of informal sector enterprises specified in the Resolution concerning statistics of employment in the informal sector adopted by the Fifteenth ICLS.
 - (5) Employees are considered to have informal jobs if their employment relationship is, in law or in practice, not subject to national labour legislation, income taxation, social protection or entitlement to certain employment benefits (advance notice of dismissal, severance pay, paid annual or sick leave, etc.). The reasons may be the following: non-declaration of the jobs or the employees; casual jobs or jobs of a limited short duration; jobs with hours of work or wages below a specified threshold (e.g. for social security contributions); employment by unincorporated enterprises or by persons in households; jobs where the employee's place of work is outside the premises of the employer's enterprise (e.g. outworkers without employment contract); or jobs, for which labour regulations are not applied, not enforced, or not complied with for any other reason. The operational criteria for defining informal jobs of employees are to be determined in accordance with national circumstances and data availability.
 - (6) For purposes of analysis and policy-making, it may be useful to disaggregate the different types of informal jobs listed in paragraph 3 (2) above, especially those held by employees. Such a typology and definitions should be developed as part of further work on classifications by status in employment at the international and national levels.
4. Where they exist, employees holding formal jobs in informal sector enterprises (cell 7 of the attached matrix) should be excluded from informal employment.
5. *Informal employment outside the informal sector* comprises the following types of jobs:
- (i) employees holding informal jobs (as defined in paragraph 3 (5) above) in formal sector enterprises (cell 2) or as paid domestic workers employed by households (cell 10);
 - (ii) contributing family workers working in formal sector enterprises (cell 1);
 - (iii) own-account workers engaged in the production of goods exclusively for own final use by their household (cell 9), if considered employed according to paragraph 9 (6) of the Resolution concerning statistics of the economically active population, employment, unemployment and underemployment adopted by the Thirteenth ICLS.

6. Countries, which do not have statistics on employment in the informal sector, or for which a classification of employment by type of production unit is not relevant, may develop statistics on informal employment, if desired, in specifying appropriate definitions of informal jobs of own-account workers, employers and members of producers' cooperatives. Alternatively, they may limit the measurement of informal employment to employee jobs.

7. Countries, which exclude agricultural activities from the scope of their informal sector statistics, should develop suitable definitions of informal jobs in agriculture, especially with respect to jobs held by own-account workers, employers and members of producers' cooperatives.

Conceptual Framework: Informal Employment

Production units by type	Jobs by status in employment									
	Own-account workers		Employers		Contributing family workers	Employees			Members of producers' cooperatives	
	Informal	Formal	Informal	Formal		Informal	Informal	Formal	Informal	Formal
Formal sector enterprises					1	2				
Informal sector enterprises (a)	3		4		5	6		7	8	
Households ^(b)	9					10				

(a) As defined by the Fifteenth International Conference of Labour Statisticians (excluding households employing paid domestic workers).

(b) Households producing goods exclusively for their own final use and households employing paid domestic workers.

Note: Cells shaded in dark grey refer to jobs, which, by definition, do not exist in the type of production unit in question. Cells shaded in light grey refer to formal jobs. Un-shaded cells represent the various types of informal jobs.

Informal employment:

Cells 1 to 6 and 8 to 10.

Employment in the informal sector:

Cells 3 to 8.

Informal employment outside the informal sector:

Cells 1, 2, 9 and 10.

Appendix D

Sample Design and Estimation Procedure

Appendix - D

Sample Design and Estimation Procedure

1. Introduction

1.1 The Periodic Labour Force Survey (PLFS) is designed to estimate the key employment and unemployment indicators (*viz. Worker Population Ratio, Labour Force Participation Rate, Unemployment Rate*) in the short time interval of three months for the urban areas only in the Current Weekly Status (CWS) as well as to estimate the employment and unemployment indicators in both usual status (ps+ss) and CWS in both rural and urban areas annually. This report contains the estimates of various aspects of employment-unemployment particulars based on the data collected during July 2022-June 2023 in PLFS. The survey covered the whole of the Indian Union *except* the villages in Andaman and Nicobar Islands which remained extremely difficult to access throughout the year.

1.2 Sample Design

1.2.1 Rotational scheme for Periodic Labour Force Survey (PLFS)

A rotational panel sampling design was used in urban areas. The rotational scheme is of two years duration (the present panel of 2 years covers the period *July 2021- June 2023*) to accommodate the changes in the urban frame in the intervening period; in the sense that the sampling frames for both rural and urban areas will remain unchanged for every two-year duration. In this rotational panel scheme each selected household in urban areas was visited four times – in the beginning with first visit schedule and thrice periodically later with revisit schedule. The proposed design aims at generating quarterly estimates of level and change parameters of some important labour force indicators (LFPR, WPR & UR) based on CWS data in urban areas and annual estimates of level parameters based on usual status for both rural and urban areas.

1.2.2 Rotational panel design for urban areas

- i. The rotational panel will be for two years (the present panel of 2 years covers the period *July 2021- June 2023*), where only 25% FSUs of urban annual allocation were covered in the first quarter (i.e. July 2022 – September 2022) of second year i.e. July 2022 – June 2023 (Panel P₃₅) of the third two year panel with detail listing and canvassing of visit 1 Schedule in the selected households; where P_{ij} indicates the panel belonging to jth quarter of the ith two-year period of rotation.
- ii. Another 25% FSUs were covered in the second quarter of second year (Panel P₃₆) for taking up visit 1 Schedule and revisit Schedule were canvassed in the selected households of Panel P₃₅.
- iii. A new panel P₃₇ of 25% FSUs was surveyed in third quarter of second year of third two-year panel with visit 1 Schedule and revisit Schedules were canvassed in the households of panels P₃₅ & P₃₆.

- iv. In the fourth quarter of second year of third two-year panel, households of panels P₃₅, P₃₆ & P₃₇ were surveyed with revisit Schedule and a new panel P₃₈ with 25% FSUs for visit 1 Schedule.

1.2.3 Rural samples

For rural areas, samples for all the 8 quarters (covering the period July 2021- June 2023) were selected before commencement of survey for each two-year period, while the frame remained same for this duration. In each quarter, only 25% FSUs of annual allocation (as is done in each sub-round of NSS rounds) were covered in rural areas so that independent estimates could be generated for each quarter. For this purpose, quarterly allocation is multiple of 2 for drawing interpenetrating sub-samples. There is no revisit in the rural samples.

1.2.4 The following table gives the rotational panel schemes in tabular format:

	panels for the third 2 year period							
	During the four quarters of the fifth year				During the four quarters of the sixth year			
	Qtr1	Qtr2	Qtr3	Qtr4	Qtr1	Qtr2	Qtr3	Qtr4
Urban Panel	P ₃₁ *	P ₃₁	P ₃₁	P ₃₁	P ₃₅ *	P ₃₅	P ₃₅	P ₃₅
	P ₂₈	P ₃₂ *	P ₃₂	P ₃₂	P ₃₂	P ₃₆ *	P ₃₆	P ₃₆
	P ₂₇	P ₂₈	P ₃₃ *	P ₃₃	P ₃₃	P ₃₃	P ₃₇ *	P ₃₇
	P ₂₆	P ₂₇	P ₂₈	P ₃₄ *	P ₃₄	P ₃₄	P ₃₄	P ₃₈ *
Rural	R ₃₁ *	R ₃₂ *	R ₃₃ *	R ₃₄ *	R ₃₅ *	R ₃₆ *	R ₃₇ *	R ₃₈ *
Note: (i) *Visit 1 schedule will be canvassed (ii) R _{ij} * indicates samples to be covered in rural areas in j th quarter of i th two-year period (iii) P _{ij} indicates the panel belonging to jth quarter of the ith two-year period of rotation								

1.2.5 It is seen from the above table that one panel of urban sample FSUs is in the sample for 4 quarters and the selected households in an FSU is surveyed for the successive periods during which the FSU remains in the sample. Selected households are visited 4 times for canvassing the detailed schedule of enquiry of the PLFS (Schedule 10.4: Employment and Unemployment). These visits are termed as first visit and revisit. For this, two formats of the detailed schedule of enquiry have been devised viz., Schedule 10.4: Employment and Unemployment (First Visit) and Schedule 10.4: Employment and Unemployment (Revisit).

To implement the rotational scheme in urban areas, when a panel appears for the first time in any quarter with 25% of annual allocation, listing and selection of households was done in all the selected FSUs in that panel. The first visit schedule was canvassed in the selected households. The selected FSUs/households were revisited in the subsequent three quarters as the panel will remain in the sample for four quarters. During the revisit, listing and selection of households will not be done afresh. Only the households selected during first visit was revisited for canvassing revisit schedule. At the time of revisit if any sample household was not found, same was treated as casualty. If any sample household was split, then, among the split households available in the FSU/Sub-block, the household where the head/senior most member of the erstwhile household was available was covered. In the PLFS scheme, each selected household of urban FSUs only was visited four times, one in each quarter.

1.2.6 Outline of the design: A stratified multi-stage design was adopted. The first stage units (FSU) were the Urban Frame Survey (UFS) blocks in urban areas and 2011 Population Census villages (Panchayat wards for Kerala) in rural areas. The ultimate stage units (USU) were households. In the case of large FSUs one intermediate stage unit, called hamlet group/sub-block, was formed.

1.2.7 Sampling Frame for First Stage Units: The list of latest available Urban Frame Survey (UFS) blocks was considered as the urban sampling frame. List of 2011 Population Census villages (Panchayat wards for Kerala) constituted the rural sampling frame. Since the duration of rotational panel is of two-year, the urban sampling frame once updated incorporating the changes made in the current phase of UFS will remain unchanged for two years. Similarly the rural sampling frame with changes, if any, for urbanisation of village(s) will remain unchanged for two years. After completion of every two-year period, the frames will be updated for incorporating the changes likely to occur during this period. When next Population Census details will be available, the new frame will be used only when UFS blocks for all newly declared Census Towns and Statutory Towns are available for preparation of sampling frame, as the new list of census villages will not include those villages which will be considered as urban areas.

1.2.8 Stratification: In urban areas strata were formed within each NSS region on the basis of size class of towns as per Population Census 2011. The stratum numbers and their composition (within each region) are as follows:

stratum 1 :	all towns with population less than 50,000
stratum 2 :	all towns with population 50,000 or more but less than 3 lakhs
stratum 3 :	all towns with population 3 lakhs or more but less than 15 lakhs
stratum 4, 5, 6,... :	each city with population 15 lakhs or more

The rural areas of each NSS region constituted rural stratum.

1.2.9 Sub-Stratification: Urban: In urban areas there was no sub-stratification.

1.2.10 Sub-Stratification: Rural: ‘r/8’ sub-strata were formed in each rural stratum, if ‘r’ was the annual sample size allocated for a rural stratum. The villages within a stratum as per frame were first arranged in ascending order of population. Then sub-strata 1 to ‘r/8’ were demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal population.

1.2.11 Total sample size (FSUs): 12,800 FSUs (7,024 villages and 5,776 UFS blocks) are being covered annually at all-India level. State/UT wise allocation of sample FSUs are given in Table D1 at the end of this write-up.

1.2.11.1 State/UT level sample size was allocated between two sectors in proportion to population as per Census 2011 with double weightage to urban sector in general. Within each sector of a State/UT, the respective sample size was allocated to the different strata (in the case of urban

areas) and strata/ sub-strata (in the case of rural areas) in proportion to the population as per Census 2011. Urban allocations at stratum level were adjusted to multiples of 8 with a minimum sample size of 8 (for 4 panels, each of size multiple of 2). Rural allocation for each stratum was also multiple of 8 with minimum sample size of 8 (for 4 quarters, each of size 2).

1.2.11.2 It may be noted that quarterly allocation of FSUs was same for an NSS state-region although 25% of the urban FSUs rotate over the quarters according to the rotational scheme. However, quarterly allocation of urban FSUs for FOD regions and FOD sub-regions may vary over the quarters since new FSUs entering the sample according to the rotational scheme may or may not belong to the same FOD region or FOD sub-region.

1.2.12 *Selection of first stage units:* Urban FSUs were selected by probability proportional to size with replacement (PPSWR) scheme, size being the number of households in the UFS block. Samples for a panel within each stratum were drawn in the form of two independent sub-samples. To implement the rotational scheme, 4 groups of sample FSUs of equal size (each multiple of size 2, half for each of sub-sample 1 and sub-sample 2) were drawn randomly. In the rural areas, samples for a stratum/sub-stratum were drawn randomly in the form of two independent sub-samples with probability proportional to size with replacement (PPSWR) scheme, size being the population of the village and equal number of samples were allocated among the four quarters.

1.2.13 *Formation of hamlet-group/ sub-block:* After identification of the boundaries of the FSU, it was determined whether listing to be done in the whole sample FSU or not. In case the population of the selected FSU was found to be 1200 or more, it was divided into a suitable number (say, D) of ‘hamlet-groups’ in the rural sector and ‘sub-blocks’ in the urban sector by more or less equalising the population as stated below.

approximate present population of the sample FSU	no. of hg's/sb's to be formed
less than 1200 (no hamlet-groups/sub-blocks)	1
1200 to 1799	3
1800 to 2399	4
2400 to 2999	5
3000 to 3599	6
.....and so on	

For rural areas of Himachal Pradesh, Sikkim, Andaman & Nicobar Islands, Uttarakhand (except four districts Dehradun, Nainital, Hardwar and Udham Singh Nagar), Punch, Rajouri, Udhampur, Reasi, Doda, Kishtwar, Ramban, Ladakh and Idukki district of Kerala, the number of hamlet-groups were formed as follows:

approximate present population of the sample village	no. of hg's to be formed
less than 600 (no hamlet-groups)	1
600 to 899	3
900 to 1199	4
1200 to 1499	5
1500 to 1799	6
.....and so on	

1.2.14 *Formation and selection of hamlet-groups/ sub-blocks:* In case hamlet-groups/ sub-blocks were formed in the sample FSU, the same was done by more or less equalizing population. Two hamlet-groups (hg)/ sub-blocks (sb) were selected from a large FSU wherever hamlet-groups/ sub-blocks will be formed in the following manner – one hg/ sb with maximum percentage share of population was selected and termed as hg/ sb ‘1’; one more hg/ sb was selected from the remaining hg’s/ sb’s by simple random sampling (SRS) and was termed as hg/ sb ‘2’. Listing and selection of the households was done independently in the two selected hamlet-groups/ sub-blocks. The FSUs without hg/ sb formation was treated as sample hg/ sb number ‘1’. If more than one hg/ sb had same maximum percentage share of population, the one among them which listed first was treated as hg/ sb ‘1’. Listing and selection of the households was done independently in the two selected hg’s/sb’s.

1.2.15 *Formation of second stage strata and allocation of households:* Second stage stratification (SSS) in each FSU/hg/sb was done based on the number of members in each household who had completed secondary level of education. In urban FSUs 4 SSS while in rural FSUs 3 SSS were formed. Details are given in the following table.

composition of SSS (rural)	SSS	number of members	number of households to be surveyed	
			FSU without hg formation	FSU with hg formation (for each hg)
number of members in the household having level of general education as secondary (10 th standard) or above	SSS 1	2 or more	2	1
	SSS 2	1	4	2
	SSS 3	0	2	1
TOTAL			8	
composition of SSS (urban)	SSS	number of members	number of households to be surveyed	
			FSU without sb formation	FSU with sb formation (for each sb)
number of members in the household having level of general education as secondary (10 th standard) or above	SSS 1	3 or more	2	1
	SSS 2	2	2	1
	SSS 3	1	2	1
	SSS 4	0	2	1
TOTAL			8	

1.2.16 *Selection of households:* From each SSS the sample households were selected by SRSWOR.

2. Estimation Procedure

2.1 Subscripts

s = subscript for s-th stratum

t = subscript for t-th sub-stratum (**for rural only**)

r = panel number (**for urban only**)

m = subscript for sub-sample (m = 1, 2)

i = subscript for i-th FSU [village (panchayat ward)/ block]

d = subscript for a hamlet-group/ sub-block (d = 1, 2)

j = subscript for j-th second stage stratum in an FSU/ hg/sb [j = 1, 2, 3 (for rural) or 1, 2, 3, 4 (for urban)]

k = subscript for k-th sample household under a particular second stage stratum within an FSU/ hg/sb

D = total number of hg's/ sb's formed in the sample FSU

$D^* = 0$ if $D = 1$

= (D - 1) for FSUs with $D > 1$

Z = total size of a rural/urban stratum/sub-stratum (= sum of sizes for all the FSUs of a stratum/sub-stratum)

z = size of sample village/UFS block used for selection

n = number of sample FSUs surveyed including 'uninhabited' and 'zero cases' but excluding casualty for a particular sub-sample and stratum/sub-stratum/panel

H = total number of households listed in a second-stage stratum of an FSU / hamlet-group or sub-block of sample FSU

h = number of households surveyed in a second-stage stratum of an FSU / hamlet-group or sub-block of sample FSU

x, y = observed value of characteristics x, y under estimation

\hat{X} , \hat{Y} = estimate of population total X, Y for the characteristics x, y

Under the above symbols,

$y_{srmidjk}$ = observed value of the characteristic y for the kth household in the jth second stage stratum of the dth hg/ sb (d = 1, 2) of the ith **urban** FSU belonging to the mth sub-sample of the rth panel of sth stratum

$y_{stmidjk}$ = observed value of the characteristic y for the kth household in the jth second stage stratum of the dth hg/ sb (d = 1, 2) of the ith **rural** FSU belonging to the mth sub-sample of the tth sub-stratum of sth stratum

However, for ease of understanding, a few subscripts have been suppressed in following paragraphs where they are obvious.

3. Formulae for Quarterly Estimates of Aggregates for a particular stratum × panel × sub-sample of the urban sector from Schedule 10.4:

3.1 The estimate for a **stratum × panel × sub-sample** is obtained as follows:

$$\hat{Y}_{srm} = \frac{Z_s}{n_{srm}} \sum_{i=1}^{n_{srm}} \frac{1}{z_{srmi}} \left[\sum_{j=1}^4 \frac{H_{srmi1j}}{h_{srmi1j}} \sum_{k=1}^{h_{srmi1j}} y_{srmi1jk} + D_{srmi}^* \sum_{j=1}^4 \frac{H_{srmi2j}}{h_{srmi2j}} \sum_{k=1}^{h_{srmi2j}} y_{srmi2jk} \right]$$

3.2 The estimate for aggregates for a particular **stratum** × **panel** based on two sub-samples is obtained as:

$$\hat{Y}_{sr} = \frac{1}{2} \sum_{m=1}^2 \hat{Y}_{srm}$$

3.3 The estimate for aggregates for a particular stratum based on ‘**r**’ **panels** and two sub-samples is obtained as:

$$\hat{Y}_s = \frac{1}{r} \sum_r \hat{Y}_{sr}, r = 1, 2, 3, 4$$

(r will be ‘4’ from fourth quarter and r may be less than ‘4’ till third quarter)

3.4 From fourth quarter onwards, estimate for aggregates for a particular stratum based on all the 4 panels and two sub-samples is generated as:

$$\hat{Y}_s = \frac{1}{4} \sum_{r=1}^4 \hat{Y}_{sr}$$

3.5 Estimate of an aggregate character for a State is obtained by summing the stratum estimates as follows:

$$\hat{Y} = \sum_s \hat{Y}_s$$

3.6 Let \hat{Y} and \hat{X} be the estimates of the aggregates Y and X for two characteristics y and x respectively at the State/ UT/ all-India level. Estimate of a ratio $R = \frac{Y}{X}$ at State level is obtained

as the ratio of aggregates of two characters at State levels: $\hat{R} = \frac{\hat{Y}}{\hat{X}}$

3.7 The estimates of change over the quarters was measured by the simple difference between the estimates of aggregates or ratios of the corresponding quarters.

3.8 **Estimates of Error:** The estimated variances of the above estimates is as follows:

3.8.1 **For aggregate \hat{Y} :**

$$Var\hat{r}(\hat{Y}) = \sum_s \sum_{r=1}^4 Var\hat{r}\left(\frac{1}{4} \hat{Y}_{sr}\right) = \frac{1}{16} \sum_{r=1}^4 \sum_s Var\hat{r}(\hat{Y}_{sr}) \text{ where}$$

$$Var\hat{r}(\hat{Y}_{sr}) = \frac{1}{4} (\hat{Y}_{sr1} - \hat{Y}_{sr2})^2, \text{ where } \hat{Y}_{sr1} \text{ and } \hat{Y}_{sr2} \text{ are the estimates for sub-sample 1}$$

and sub-sample 2 respectively for stratum ‘s’ and panel ‘r’.

3.8.2 For ratio \hat{R} :

$$M\hat{S}E(\hat{R}) = \frac{1}{4\hat{X}^2} \sum_s \left[(\hat{Y}_{s1} - \hat{Y}_{s2})^2 + \hat{R}^2 (\hat{X}_{s1} - \hat{X}_{s2})^2 - 2\hat{R}(\hat{Y}_{s1} - \hat{Y}_{s2})(\hat{X}_{s1} - \hat{X}_{s2}) \right]$$

where $\hat{Y}_{s1} = \frac{1}{4} \sum_{r=1}^4 \hat{Y}_{sr1}$ and $\hat{Y}_{s2} = \frac{1}{4} \sum_{r=1}^4 \hat{Y}_{sr2}$;

$$\hat{X}_{s1} = \frac{1}{4} \sum_{r=1}^4 \hat{X}_{sr1} \quad \text{and} \quad \hat{X}_{s2} = \frac{1}{4} \sum_{r=1}^4 \hat{X}_{sr2}$$

3.9 Estimates of Relative Standard Error (RSE):

$$R\hat{S}E(\hat{Y}) = \frac{\sqrt{Var(\hat{Y})}}{\hat{Y}} \times 100$$

$$R\hat{S}E(\hat{R}) = \frac{\sqrt{M\hat{S}E(\hat{R})}}{\hat{R}} \times 100$$

4. Formulae for Annual Estimates of Aggregates for a particular sub-sample and stratum \times sub-stratum in the rural/urban sector from Schedule 10.4:

4.1 For rural:

4.1.1 For rural areas, annual estimates of aggregates are obtained from the data collected in four quarters.

(i) For j^{th} second-stage stratum of a stratum \times sub-stratum, for a particular sub-sample:

$$\hat{Y}_{stmj} = \frac{Z_{st}}{n_j} \sum_{i=1}^{n_j} \frac{1}{z_{stmi}} \left[\frac{H_{stmi1j}}{h_{stmi1j}} \sum_{k=1}^{h_{stmi1j}} y_{stmi1jk} + D_{stmi}^* \times \frac{H_{stmi2j}}{h_{stmi2j}} \sum_{k=1}^{h_{stmi2j}} y_{stmi2jk} \right]$$

(ii) For all second-stage strata combined:

$$\hat{Y}_{stm} = \sum_j \hat{Y}_{jstm}$$

4.1.2 Estimate for aggregates for a sub-stratum:

Estimate for aggregates for a sub-stratum (\hat{Y}_{st}) based on two sub-samples in a sub-stratum is obtained as:

$$\hat{Y}_{st} = \frac{1}{2} \sum_{m=1}^2 \hat{Y}_{stm}$$

4.1.3 Estimate for aggregates for a stratum:

Estimate for a stratum (\hat{Y}_s) is obtained as

$$\hat{Y}_s = \sum_t \hat{Y}_{st}$$

4.1.4 Estimate of Aggregates at State/UT/all-India level:

The estimate \hat{Y} at the State/ UT/ all-India level is obtained by summing the stratum estimates \hat{Y}_s over all strata belonging to the State/ UT/ all-India.

4.1.5 Estimates of Ratios:

Let \hat{Y} and \hat{X} be the estimates of the aggregates Y and X for two characteristics y and x respectively at the State/ UT/ all-India level.

Then the combined ratio estimate (\hat{R}) of the ratio ($R = \frac{Y}{X}$) will be obtained as $\hat{R} = \frac{\hat{Y}}{\hat{X}}$

4.1.6 Estimates of Error: The estimated variances of the above estimates are as follows:

4.1.6.1 For aggregate \hat{Y} :

$$V\hat{a}r(\hat{Y}) = \sum_s V\hat{a}r(\hat{Y}_s) = \sum_s \sum_t V\hat{a}r(\hat{Y}_{st}) \text{ where } V\hat{a}r(\hat{Y}_{st}) \text{ is given by}$$

$V\hat{a}r(\hat{Y}_{st}) = \frac{1}{4}(\hat{Y}_{st1} - \hat{Y}_{st2})^2$, where \hat{Y}_{st1} and \hat{Y}_{st2} are the estimates for sub-sample 1 and sub-sample 2 respectively for stratum 's' and sub-stratum 't'.

4.1.6.2 For ratio \hat{R} :

$$M\hat{S}E(\hat{R}) = \frac{1}{4\hat{X}^2} \sum_s \sum_t \left[(\hat{Y}_{st1} - \hat{Y}_{st2})^2 + \hat{R}^2 (\hat{X}_{st1} - \hat{X}_{st2})^2 - 2\hat{R}(\hat{Y}_{st1} - \hat{Y}_{st2})(\hat{X}_{st1} - \hat{X}_{st2}) \right]$$

4.1.6.3 Estimates of Relative Standard Error (RSE):

$$R\hat{S}E(\hat{Y}) = \frac{\sqrt{V\hat{a}r(\hat{Y})}}{\hat{Y}} \times 100$$

$$R\hat{S}E(\hat{R}) = \frac{\sqrt{M\hat{S}E(\hat{R})}}{\hat{R}} \times 100$$

4.2 For urban:

4.2.1 Considering first visit schedules for each of the four panels of four quarters, annual estimates of aggregates for a **particular sub-sample and stratum** is obtained for urban areas. For rural areas, annual estimates of aggregates is obtained from the data collected in four quarters.

(i) For j^{th} second-stage stratum of a stratum, for a particular sub-sample:

$$\hat{Y}_{smj} = \frac{Z_s}{n_j} \sum_{i=1}^{n_j} \frac{1}{z_{smi}} \left[\frac{H_{smi1j}}{h_{smi1j}} \sum_{k=1}^{h_{smi1j}} y_{smi1jk} + D_{smi}^* \times \frac{H_{smi2j}}{h_{smi2j}} \sum_{k=1}^{h_{smi2j}} y_{smi2jk} \right]$$

(ii) For all second-stage strata combined:

$$\hat{Y}_{sm} = \sum_j \hat{Y}_{j sm}$$

4.2.2 Estimate for Aggregates for a stratum:

Estimate for aggregates for a stratum (\hat{Y}_s) based on two sub-samples in a stratum is obtained as:

$$\hat{Y}_s = \frac{1}{2} \sum_{m=1}^2 \hat{Y}_{sm}$$

4.2.3 Estimate of Aggregates at State/UT/all-India level:

The estimate \hat{Y} at the State/ UT/ all-India level is obtained by summing the stratum estimates \hat{Y}_s over all strata belonging to the State/ UT/ all-India.

4.2.4 Estimates of Ratios:

Let \hat{Y} and \hat{X} be the estimates of the aggregates Y and X for two characteristics y and x respectively at the State/ UT/ all-India level.

Then the combined ratio estimate (\hat{R}) of the ratio ($R = \frac{Y}{X}$) is obtained as $\hat{R} = \frac{\hat{Y}}{\hat{X}}$

4.2.5 Estimates of Error: The estimated variances of the above estimates is as follows:

4.2.5.1 For aggregate \hat{Y} :

$$Var(\hat{Y}) = \sum_s Var(\hat{Y}_s) \text{ where } Var(\hat{Y}_s) \text{ is given by}$$

$Var(\hat{Y}_s) = \frac{1}{4} (\hat{Y}_{s1} - \hat{Y}_{s2})^2$, where \hat{Y}_{s1} and \hat{Y}_{s2} are the estimates for sub-sample 1 and sub-sample 2 respectively for stratum 's'.

4.2.5.2 For ratio \hat{R} :

$$M\hat{S}E(\hat{R}) = \frac{1}{4\hat{X}^2} \sum_s [(\hat{Y}_{s1} - \hat{Y}_{s2})^2 + \hat{R}^2 (\hat{X}_{s1} - \hat{X}_{s2})^2 - 2\hat{R}(\hat{Y}_{s1} - \hat{Y}_{s2})(\hat{X}_{s1} - \hat{X}_{s2})]$$

4.2.5.3 Estimates of Relative Standard Error (RSE):

$$R\hat{S}E(\hat{Y}) = \frac{\sqrt{Var(\hat{Y})}}{\hat{Y}} \times 100$$

$$R\hat{S}E(\hat{R}) = \frac{\sqrt{M\hat{S}E(\hat{R})}}{\hat{R}} \times 100$$

Table D1: Allocation of sample villages and blocks for PLFS

State/UT	number of sample villages/blocks		
	total	rural	urban
(1)	(2)	(3)	(4)
Andhra Pradesh	496	272	224
Arunachal Pradesh	216	136	80

Appendix E

**Schedule 10.4: Employment and
Unemployment: First Visit and Revisit**

RURAL	*
URBAN	

GOVERNMENT OF INDIA
NATIONAL STATISTICAL OFFICE
SOCIO-ECONOMIC SURVEY
PERIODIC LABOUR FORCE SURVEY: JULY 2022 – JUNE 2023
SCHEDULE 10.4: EMPLOYMENT AND UNEMPLOYMENT
(FIRST VISIT)

[0] descriptive identification of sample household	
1. state/u.t.:	6. house number (as in listing schedule):
2. district:	7. ward /inv. unit:
3.sub-district:	8. block:
4. town/ village:*	9. name of head of household:
5. hamlet name:	10. name of informant:

[1] identification of sample household												
item no.	item	code					item no.	item	code			
1.	srl. no. of sample village/block						12.	FOD sub - region				
2.	schedule number	1	0	4			13.	sample hg/sb number (1/2)				
3.	sector (<i>rural-1, urban -2</i>)						14.	second-stage stratum number				
4.	NSS region						15.	sample household number				
5.	stratum						16.	srl. no. of informant (as in col. 1, block 4)				
6.	sub-stratum (for rural only)											
7.	quarter and year of selection	Q	Y	Y	Y	Y	17.	response code				
8.	year ^s of survey	Y	Y	Y	Y		18.	survey code				
							19.	reason for substitution of original household (code)				
9.	month of survey (code)											
10.	panel (for urban only)						20.	visit no.				1
11.	sub-sample						21.	tele- phone number #	21.1 mobile			
									21.2 alternate mobile			
									21.3 land line (with STD code)			

Codes for Block 1

item 9: **month of survey:** Jan-01, Feb-02, Mar-03, Apr-04, May-05, Jun-06,
Jul-07, Aug-08, Sep-09, Oct-10, Nov-11, Dec-12.

item 17: **response code:** informant : co-operative and capable-1, co-operative but not capable-2, busy-3, reluctant-4,
others-9.

item 18: **survey code:** household surveyed: original -1, substitute -2, casualty -3.

item 19: **reason for substitution of original household:** informant busy -1, members away from home -2, informant
non-cooperative -3, others -9.

§: Item 8: The year in which Schedule 10.4 was scheduled to be canvassed in the selected household in a particular visit will be entered in this item.

* tick mark (√) may be put in the appropriate place.

#: For landline number add the STD code in bracket without zero.

[2] particulars of field operation

[7] remarks by Survey enumerator (SE)

[8] comments by supervisory officer(s)

[3] household characteristics		
1.	household size	
2.	household type (code)	
3.	religion (code)	
4.	social group (code)	
5.	household's usual monthly consumer expenditure (Rs.)	
5.1	<p>What is the usual consumer expenditure in a month for household purposes out of purchase of goods and services excluding items like clothing, footwear, durable goods (A): make entry in whole number of rupees <i>[Include:</i></p> <ul style="list-style-type: none"> • <i>all regular monthly expenditure incurred by the household for purchase of goods and services for household purposes.</i> • <i>Recurring expenses on telephone bill, electricity bills, etc. which are to be paid once in two months/ quarterly, etc. will be apportioned and reported for a month</i> <p><i>Exclude:</i></p> <ul style="list-style-type: none"> • <i>Any expenditure made by the household for purchase of durable goods.</i> • <i>Unusual expenditures, such as, expenditure on social ceremonies, capitation fee, hospitalization, etc.</i> • <i>Any expenses made on items like clothing, footwear, etc.]</i> 	
5.2	<p>What is the imputed value of usual consumption in a month from home grown stock like, rice, cereals, pulses, vegetables, milk, firewood, chips, cow dung, etc. (B): make entry in whole number of rupees <i>[If home grown stocks are used on regular basis, the imputed value of such usual consumption in a month at ex-farm/ex-factory price will be recorded]</i></p>	
5.3	<p>What is the imputed value of usual consumption in a month from wages in kind, free collection, gifts, etc. (C): make entry in whole number of rupees <i>[For wage/salaried employees these include free electricity, free telephone services, free medical services, etc. For agricultural labourers these include food-grains, vegetables, meals, etc. It will also include consumption through free collection, or consumption of mid-day meal. Imputation will be made at local retail prices.]</i></p>	
5.4	<p>What is the expenditure on purchase of items like clothing, footwear, etc. during last 365 days (D): make entry in whole number of rupees</p>	
5.5	<p>What is the expenditure on purchase of household durables like bedstead, furniture, vehicles, TV, fridge, fans, cooler, AC, mobile, computer, kitchen equipment, etc. during last 365 days (E): make entry in whole number of rupees</p>	
5.6	<p>usual monthly household consumer expenditure: $[A + B + C + (D+E)/12]$</p>	

Codes for Block 3**item 2: household type:**

for rural areas: self-employed in: *agriculture-1, non-agriculture -2; regular wage/salary earning-3, casual labour in: agriculture-4, non-agriculture -5; others -9.*

for urban areas: *self-employed -1, regular wage/salary earning -2, casual labour -3, others -9.*

item 3: religion: *Hinduism -1, Islam -2, Christianity -3, Sikhism -4, Jainism -5, Buddhism -6, Zoroastrianism -7, others -9.*

item 4: social group: *scheduled tribe-1, scheduled caste-2, other backward class-3, others-9.*

Codes for Block 4

col. (4): relation to head: *self-1, spouse of head-2, married child-3, spouse of married child-4, unmarried child-5, grandchild-6, father/mother/father-in-law/mother-in-law-7, brother/sister/brother-in-law/ sister-in-law/other relatives-8, servants/employees/other non-relatives-9.*

col. (7): marital status: *never married-1, currently married-2, widowed-3, divorced/separated-4.*

col. (8): educational level - general:

not literate -01, literate without formal schooling: EGS/ NFEC/ AEC -02, TLC -03, others -04; literate: below primary -05, primary -06, middle -07, secondary -08, higher secondary -10, diploma/certificate course -11, graduate -12, postgraduate and above -13.

col. (9): educational level - technical:

no technical education -01,

technical degree in: agriculture -02, engineering/ technology -03, medicine -04, crafts -05, other subjects -06

diploma or certificate (below graduate level) in: agriculture -07, engineering/technology -08, medicine -09, crafts -10, other subjects -11;

diploma or certificate (graduate and above level) in: agriculture -12, engineering/technology -13, medicine -14, crafts -15, other subjects -16.

col. (11): status of current attendance:

currently not attending:

never attended: school too far -01, to supplement household income -02, education not considered necessary -03, to attend domestic chores -04, others -05;

ever attended but currently not attending: school too far -11, to supplement household income -12, education not considered necessary -13, to attend domestic chores -14, others -15;

currently attending in: EGS/ NFEC/ AEC -21, TLC -22, pre-primary (nursery/ Kindergarten, etc.) -23, primary (class I to IV/ V) -24, middle -25, secondary-26, higher secondary-27, graduate in: agriculture -28, engineering/ technology -29, medicine -30, other subjects -31; post graduate and above -32, diploma or certificate (below graduate level) in: agriculture -33, engineering/ technology -34, medicine -35, crafts -36, other subjects -37; diploma or certificate (graduate level) in: agriculture -38, engineering/ technology -39, medicine -40, crafts -41, other subjects -42; diploma or certificate in post graduate and above level- 43.

col. (12): whether received any vocational/technical training:

yes: received formal vocational/technical training-1; received vocational/technical training other than formal vocational/technical training: hereditary-2, self-learning-3, learning on the job-4, others -5;

did not receive any vocational/technical training -6.

[4.1] formal vocational/technical training particulars of household members of age 12 to 59 years (for those with code 1 in column 12 of Block 4)						
srl. no. as in col.1, bl.4	age (yrs.) as in col.6, bl. 4	whether the training was completed during last 365 days (yes-1, no-2)	field of training (code)	duration of training (code)	type of training (code)	source of funding the training (govt-1, own funding-2, others-9)
(1)	(2)	(3)	(4)	(5)	(6)	(7)

Codes for Block 4.1

col. (4): field of training:

aerospace and aviation-01, agriculture, non-crop based agriculture, food processing - 02, allied manufacturing-gems and jewellery, leather, rubber, furniture and fittings, printing - 03, artisan/craftsman/handicraft/creative arts and cottage based production - 04, automotive - 05, beauty and wellness - 06, chemical engineering, hydrocarbons, chemicals and petrochemicals - 07, civil engineering- construction, plumbing, paints and coatings - 08, electrical, power and electronics - 09, healthcare and life sciences-10, hospitality and tourism - 11, iron and steel, mining, earthmoving and infra building - 12, IT-ITeS -13, logistics - 14, mechanical engineering-capital goods, strategic manufacturing -15, media-journalism, mass communication and entertainment - 16, office and business related work -17, security -18, telecom - 19, textiles and handlooms, apparels - 20, work related to childcare, nutrition, pre-school and crèche -21, other -99.

col. (5): duration of training:

less than 3 months -1, 3 months or more but less than 6 months-2, 6 months or more but less than 12 months-3, 12 months or more but less than 18 months-4, 18 months or more but less than 24 months-5, 24 months or more-6

col. (6): type of training:

on the job-1, other than on the job: part time-2, full time-3

Codes for Block 5.1

col. (3): **status:**

worked in h.h. enterprise (self-employed): *own account worker -11, employer-12, worked as helper in h.h. enterprise (unpaid family worker) -21; worked as regular salaried/ wage employee -31, worked as casual wage labour: in public works -41, in other types of work -51; did not work but was seeking and/or available for work -81, attended educational institution -91, attended domestic duties only -92, attended domestic duties and was also engaged in free collection of goods (vegetables, roots, firewood, cattle feed, etc.), sewing, tailoring, weaving, etc. for household use -93, renters, pensioners, remittance recipients, etc. -94, not able to work due to disability -95, others (including begging, prostitution, etc.) -97.*

col. (5): **industry:** 5-digit code as per NIC -2008.

col. (6): **occupation:** 3-digit code as per NCO -2015.

col. (8): **location of workplace:** workplace in rural areas and located in: *own dwelling unit-10, structure attached to own dwelling unit-11, open area adjacent to own dwelling unit-12, detached structure adjacent to own dwelling unit-13, own enterprise/unit/office/shop but away from own dwelling-14, employer's dwelling unit -15, employer's enterprise/unit/office/shop but outside employer's dwelling -16, street with fixed location-17, construction site-18, others -19; workplace in urban areas and located in: own dwelling unit-20, structure attached to own dwelling unit-21, open area adjacent to own dwelling unit-22, detached structure adjacent to own dwelling unit-23, own enterprise/unit/office/shop but away from own dwelling-24, employer's dwelling unit -25, employer's enterprise/unit/office/shop but outside employer's dwelling -26, street with fixed location-27, construction site-28, others -29; no fixed workplace -99.*

col. (9): **enterprise type:** *proprietary: male -01, female -02; partnership: with members from same household. -03, with members from different household -04; Government/local body-05, Public Sector Enterprises-06, Autonomous Bodies- 07, Public/Private limited company-08, Co-operative societies-10, trust/other non-profit institutions -11, employer's households(i.e., private households employing maid servant, watchman, cook, etc.) -12, others -19.*

col. (10): **number of workers in the enterprise:** *less than 6-1, 6 and above but less than 10-2, 10 and above but less than 20-3, 20 and above-4, not known-9*

col. (11): **type of job contract:** *no written job contract -1; written job contract: for 1 year or less -2, more than 1 year to 3 years -3, more than 3 years -4.*

col. (13): **availability of social security benefits:**

eligible for: only PF/pension (i.e., GPF, CPF, PPF, pension, etc.) -1, only gratuity -2, only health care/ maternity benefits -3, only PF/pension and gratuity -4, only PF/pension and health care/ maternity benefits -5, only gratuity and health care/ maternity benefits -6, PF/ pension, gratuity, health care/ maternity benefits -7; not eligible for any of above social security benefits -8, not known-9.

col. (14): **what is done with the product of the economic activity in which the household member was engaged in usual principal status:**

for own consumption only and did not intend to sell any part of it- 1, for own consumption and intended to sell some part of it (less than 50%)- 2, for own consumption and intended to sell major part of it (more than or equal 50%)- 3, the entire produce is for selling -4.

Codes for Block 5.2

col. (3): **status:** codes as in col. 3, block 5.1. **(only codes 11 to 51 are applicable here).**

col. (5) : **industry :** 5-digit code as per NIC-2008.

col. (6) : **occupation :** 3-digit code as per NCO-2015.

col. (7): **location of workplace :** codes as in col. 8, block 5.1.

col. (8): **enterprise type:** codes as in col. 9, block 5.1.

col. (9): **number of workers in the enterprise:** codes as in col. 10, block 5.1.

col. (10): **type of job contract:** codes as in col. 11, block 5.1.

col. (12): **availability of social security benefits:** codes as in col. 13, block 5.1.
