MESSAGE

I am delighted to release the national annual progress report on Sustainable Development Goals (SDGs), titled "Sustainable Development Goals-National Indicator Framework Progress Report 2024". This report provides data-driven insights into India's progress, offering comprehensive information on SDG monitoring, data snapshots, and key highlights. It serves as a valuable tool for policymakers to pinpoint critical areas needing focused interventions.

The Government has launched numerous welfare and developmental programs over the past ten years, driving significant advancements across various indicators. Our commitment to the SDG motto, **"Leaving No One Behind,"** remains persistent, aligning with our national ethos of **'Sabka Saath, Sabka Vikas, Sabka Vishwas, Sabka Prayaas'**.

I congratulate officers of Ministry of Statistics and Programme Implementation for the timely preparation of the SDG Progress Report. I also express my sincere thanks to all the stakeholders, including Central Ministries/ Departments, State Governments and UN Agencies for their constant support in finalisation of this Report.

MESSAGE

As we have already crossed the halfway point in our journey towards achieving the Sustainable Development Goals (SDGs), it is crucial to reflect on our progress and identify areas that require intensified efforts. India's commitment to attain the SDGs requires close and effective monitoring of the progress made. In this endeavour, MoSPI is releasing the Sustainable Development Goals-National Indicator Framework Progress Report, 2024.

This annual progress report provides the data snapshots, brief highlights on the goals, as well as, metadata and time-series data for each national SDG indicator under the National Indicator Framework. The Report will facilitate assessment of progress, identification of challenges, and provision of recommendations for follow-up at the national level. It offers an overview of the advancements made on SDGs and highlights data gaps that must be addressed to enhance SDG monitoring. The collaborative efforts and active participation of various stakeholders including Central Ministries/ Departments and the UN Agencies, were critical while finalising the progress report.

The report could see its final shape mainly due to the timely inputs and data provided by the participating Ministries and State Governments. My special commendation goes to the officers of the SDG Unit of Social Statistics Division for their meticulous efforts in delivering this report on time.

I am sure that the report will be guiding document for the Ministries/Departments, State Governments and UT Administrations, engaged in SDG monitoring and policy formulation for SDG implementation along with UN Agencies and other stakeholders.

GOVERNMENT OF INDIA**

MESSAGE

The 2030 Agenda for Sustainable Development is centered around 17 Sustainable Development Goals (SDGs) and 169 associated targets, providing a comprehensive framework for addressing the most pressing global challenges including poverty, inequality, health, education, economic growth, and climate change. By focusing on these areas, the 2030 Agenda seeks to create a more sustainable, equitable, and prosperous world for all by 2030.

Considering the importance of data-based monitoring of SDGs at both national and sub-national levels, the Ministry of Statistics and Programme Implementation (MoSPI), through the 'Sustainable Development Goals - National Indicator Framework Progress Report, 2024', is providing relevant time series data for more than 95 per cent of the national indicators included in the National Indicator Framework for SDGs. These datasets undergo thorough analysis to pinpoint any data gaps and areas where action can be taken. I firmly believe that this report will prove immensely beneficial to Central Ministries/Departments and State Governments/UT Administrations in tracking the progress of SDGs at both national and sub-national levels. Additionally, the report will also be valuable for UN Agencies and other stakeholders.

I express my heartfelt gratitude to Central Ministries, State Governments/UT Administrations, UN Agencies, and other stakeholders for their collaborative efforts and enthusiastic involvement due to which it has reached in its final form. I commend the diligent work of the dedicated officers from the Team SDG Unit-Social Statistics Division (SSD) of MoSPI for their timely compilation and publication of the report under the able guidance of Dr. Praveen Shukla, Additional Director General, SSD and Dr. Ashutosh Ojha, Deputy Director General.

I eagerly anticipate receiving additional suggestions and feedback from various Central Ministries, researchers, policymakers, and other stakeholders.

MINISTRY OF STATISTICS AND
PROGRAMME IMPLEMENTATION
GOVERNMENT OF INDIA

PREFACE

The Sustainable Development Goals, adopted by United Nations Member States in 2015, provide a roadmap for a better future of this world. A world which is free from poverty to gender inequality to climate change. A world which has peace and prosperity for all. Emphasising the interconnectedness of global issues, the goals provide an overarching approach to tackle the social, economic and environmental challenges facing the world.

India has been playing a significant role in shaping the SDGs and is committed to achieving them within the specified timeframe. In this endeavour, the Government of India, through the Ministry of Statistics and Programme Implementation (MoSPI), has developed a National Indicator Framework for facilitating monitoring of SDGs at the national level.

SDG Progress Reports, released by MoSPI, help in measuring progress towards sustainable development and ensuring accountability in achieving the SDGs. In this series, the current report, "Sustainable Development Goals - National Indicator Framework Progress Report, 2024," provides an overview of India's progress on SDGs apart from throwing light on the data gaps that need to be filled for more effective monitoring of SDGs at national level.

I express my gratitude to Secretary, MoSPI and Director General (Statistics), MoSPI for their guidance in preparation of this report. I would like to express my heartfelt appreciation to the Social Statistics Division team led by Dr. Ashutosh Ojha, Deputy Director General along with his dedicated team members, Shri Ashwani Kanaujia, Director and Ms. Aastha Gaur, Deputy Director for their meticulous and persistent efforts. Their work included examining methodologies of SDG global indicators for potential adoption/adaptation in the Indian context, identifying possible data sources, compiling relevant data, and ultimately publishing this report. I also extend my sincere thanks to the UNRC in India, other international agencies, NITI Aayog, Central Ministries/Departments, State Governments, UT Administrations, and other stakeholders for their valuable inputs and support at various stages of preparation of this report.

I hope this report will prove to be useful for policymakers, planners, administrators, researchers, and other stakeholders. I welcome suggestions and feedback from all stakeholders for improvement in this publication.

DR. ASHUTOSH OJHA
DEPUTY DIRECTOR GENERAL
MINISTRY OF STATISTICS AND
PROGRAMME IMPLEMENTATION
GOVERNMENT OF INDIA

ACKNOWLEDGEMENTS

This publication, “Sustainable Development Goals - National Indicator Framework Progress Report, 2024,” presents the time series data on the SDG national indicators based on the data received from the concerned line Ministries. The data will be instrumental in monitoring the national-level progress on the 17 SDGs.

I would place on record my deepest sense of gratitude to Dr. Saurabh Garg, Secretary, MoSPI for his consistent inspiration and precious guidance which were extremely valuable in finalizing this report.

I would like to take this opportunity to express my heartfelt gratitude to Shri Kal Singh, Director General, MoSPI and Dr. Praveen Shukla, Additional Director General, Social Statistics Division, MoSPI for their inspirational leadership, unwavering support and supervision which significantly enhanced our confidence and enabled us to finalize the report within the set timeframe.

Shri Ashwani Kanaujia, Director and Ms. Aastha Gaur, Deputy Director deserve special recognition for their detailed negotiations with all relevant stakeholders while preparing this publication. They have invested significant time, energy, and expertise in shaping the report in its current form. Their contribution in effective designing of the report is also commendable.

I also extend my sincere gratitude to Dr. Sanjay Kumar, Deputy Director General, for guiding the team of officers involved in preparation of the report at various stages with his extensive and rich experience in SDG related work.

I wish to express my sincere appreciation to Shri Rajesh Pal, Senior Statistical Officer, Shri Sidhant Khanna, Junior Statistical Officer and Shri Amit Kumar, Junior Statistical Officer for their treasured contributions, including finalizing tables and coordinating with data source agencies during the preparation of the report.

Additionally, I acknowledge the contributions of officers associated with the SDGs work in MoSPI, NITI Aayog and other line Ministries/ Departments for their active cooperation and support in providing timely data, metadata and valuable comments. Thanks are also due to the Officers of State/UT Governments for providing essential inputs during the finalization of the report.

I am thankful to the Office of the United Nations Resident Coordinator, Office of the Resident Representative for United Nations Development Programme (UNDP) and other UN Agencies in India for their invaluable inputs and support at various stages. The proficient designing of this report was jointly accomplished by the Social Statistics Division of MoSPI and SDG Acceleration team, UNDP.

Some of the materials and inputs for this publication have been sourced or referred from relevant publications of the Government of India and various United Nations agencies. I sincerely acknowledge all such sources.

I hope this report would serve as a valuable resource to planners and policymakers in addressing current developmental challenges. I welcome suggestions and feedback from all stakeholders.

OVERVIEW

The United Nations General Assembly, during its 70th Session in September 2015, adopted the document titled “Transforming our World: The 2030 Agenda for Sustainable Development.” This landmark document outlines 17 Sustainable Development Goals (SDGs) and 169 associated targets. The SDGs, also known as the Global Goals, came into force with effect from 1st January 2016.

The SDGs serve as a comprehensive blueprint aimed at achieving a better and more sustainable future for all. The goals call for action on addressing global challenges such as poverty, inequality, climate change, environmental degradation, peace and justice. The 2030 Agenda highlights the significance of global partnerships and collaborative efforts, involving various stakeholders such as governments, UN agencies, the private sector, civil society, and the public, to ensure prosperity, peace, and a sustainable planet for present and future generations.

SDGs represent a comprehensive list of global goals integrating social, economic and environmental dimensions of development. The SDGs are universal, applying to all nations—developed, developing and least developed countries. They are interconnected and indivisible, necessitating comprehensive and participatory approaches to bring everyone together so that no one is left behind. Countries are primarily responsible for

following up and reviewing the progress made in implementing the goals and targets at the national level until 2030.

The SDGs are not legally binding, but they have effectively become international obligations and have the potential to reorient domestic spending priorities in countries. Countries are expected to take ownership and develop a national framework to monitor these goals. The implementation and success of the SDGs will depend on each country's sustainable development policies, plans and programs. The 2030 Agenda also highlights the necessity of quality, reliable and disaggregated data to measure the progress of the SDGs and to ensure that “No One is Left Behind.”

The principle of “leaving no one behind” is central to the SDGs, emphasizing that development efforts should prioritize reaching the most marginalized and

SDG VISION

The new agenda is a promise by leaders to all people everywhere.

It is a universal, integrated and transformative vision for a better world.

It is an agenda for people, to end poverty in all its forms.

An agenda for the planet, our common home.

An agenda for shared prosperity, peace and partnership.

It conveys the urgency of climate action.

It is rooted in gender equality and respect for the rights of all.

Above all, it pledges to

Leave No One Behind.

– Ban Ki-Moon

the then Secretary General, UN

vulnerable populations, including those living in poverty, women and girls, persons with disabilities, migrants, and others.

Global Indicator Framework (GIF) for SDGs

In March 2015, the United Nations Statistical Commission (UNSC) established the Inter-agency and Expert Group on SDG Indicators (IAEG-SDGs). This group, composed of Member States with regional and international agencies as observers, was tasked with developing and implementing the Global Indicator Framework (GIF) for SDGs to monitor the Goals and targets of the 2030 Agenda.

The GIF was developed by the IAEG-SDGs and agreed upon by the United Nations Statistical Commission (UNSC) in March 2017. It was subsequently adopted by the United Nations General Assembly (UNGA) in July 2017.

India, through the Ministry of Statistics and Programme Implementation (MoSPI), is representing Southern Asia in the IAEG-SDGs for the term 2023-2025. Additionally, India served as a member of the IAEG-SDGs for the terms 2015-2017, 2017-2019 and 2021-2023.

The development of the GIF was a consultative process that incorporated inputs from member states, experts, and various stakeholders. Indicators were selected based on criteria such as relevance, measurability, data availability, and international comparability. As of now, each GIF indicator has an internationally established methodology and available standards. Some indicators are widely applicable and relevant across countries, while others are more context-specific and may vary according to national priorities and circumstances. National statistical agencies and other relevant institutions are

responsible for data collection and reporting on these indicators.

The GIF initially pinpointed 244 indicators for tracking the advancement of Global SDGs and their linked targets. However, some indicators were duplicated across two or three targets, resulting in a total of 232 distinct global indicators.

In 2020, the GIF underwent a thorough review, involving extensive dialogues with diverse stakeholders. Additionally, the GIF undergoes annual refinement. The next comprehensive review of the GIF is scheduled for 2025.

As of now, the GIF encompasses 248 indicators, of which 231 are unique.

National Indicator Framework for SDGs

India is committed to execute the SDGs by utilizing nationally defined indicators that align with its own priorities and requirements.

In the endeavor to incorporate SDGs into the ongoing national and sub-national policies and programs, NITI (National Institution for Transforming India) Aayog, at the national level, has aligned the SDGs with centrally sponsored programs across various Central Ministries/Departments.

The Government of India has launched a series of nationwide welfare and developmental programs. The Government's commitment to ensuring "Sabka Saath, Sabka Vikas, Sabka Vishwas, Sabka Prayas" is in alignment with the Sustainable Development Goals' motto of "Leaving No One Behind."

Monitoring and evaluation are vital for determining how effectively policies and resource allocations for implementing the SDGs lead to meaningful outcomes. Monitoring is critical for the implementation

and progress tracking of the SDGs. It supports evidence-based policy formulation, ensures transparency, and enables stakeholders to collaboratively work towards sustainable development.

It is clear that reliable data is essential for effective monitoring of the SDGs and for making informed, data-driven policy decisions. Recognizing the complex and interconnected nature of the SDGs, the Government of India developed a robust monitoring and evaluation framework. Stakeholder participation is crucial to ensure that national priorities for SDG implementation are understood and embraced.

In this endeavor, the Ministry of Statistics and Programme Implementation, Government of India, developed a National Indicator Framework for SDGs with initially 306 national indicators, following a detailed consultation process with relevant Ministries/ Departments, UN Agencies, and other stakeholders.

The NIF, comprising of national SDG indicators along with identified data sources and periodicity, serves as the backbone for monitoring SDGs at the national level, offering valuable guidance to policymakers and the implementing agencies of various schemes and programs.

The NIF encompasses indicators that align with the global SDG indicators and also includes those tailored to meet India's specific needs. The major selection criterion for inclusion of indicators in NIF are 'relevance to SDG targets', 'national priorities', 'data availability' and 'policy significance'. For each indicator, the NIF specifies data sources and periodicity. These data sources include official government statistics from various surveys, administrative data, and censuses. Responsibility for data collection and reporting rests with the concerned line Ministries and Departments.

The NIF, like the GIF, is evolving in nature. Consequently, the Government of India has established a High-Level Steering Committee (HLSC) on SDGs under the Chairmanship of the Chief Statistician of India (CSI) & Secretary, MoSPI to periodically review and refine the NIF. This committee includes members from NITI Aayog, the Ministry of Home Affairs, the Ministry of Health and Family Welfare, the Ministry of Environment, Forest and Climate Change (MoEFCC), the Ministry of Finance, and the MoSPI.

Under the ambit of HLSC, a Technical Advisory Committee (TAC) on SDGs has been constituted by the MoSPI to provide technical support to HLSC. Proposals for the addition, deletion, or refinement of SDG indicators in the NIF, submitted by the line Ministries and Departments, are technically examined in TAC. This committee is chaired by the Director General (Statistics) of MoSPI. These recommendations of TAC are then presented to the HLSC for consideration and approval. Since 2019, the HLSC has been actively reviewing and refining indicators to align them more closely with the GIF. The latest meeting of HLSC was held on 5th June, 2024 at New Delhi.

HLSC Meeting – June 5, 2024 at New Delhi

As of 29th June, 2024, there are 290 national SDG indicators in the NIF.

At national level, the MoSPI coordinates with the Ministries and Departments to

obtain data on the SDG indicators included in the NIF.

Steps taken by MoSPI in bridging data gaps

MoSPI has undertaken several initiatives to address data gaps related to SDG indicators. The Ministry conducts regular consultations with line Ministries, Departments, and respective Custodian Agencies.

To institutionalize these discussions, MoSPI, NITI Aayog, and the United Nations, represented by the United Nations Resident Coordinator Office (UNRCO) in New Delhi, have entered into a Tripartite Memorandum of Understanding (MoU) to support data, indicators, and statistics for monitoring SDGs in India. The MoU aims to collaborate on statistical monitoring of SDG Goals and Targets, including leveraging new technologies, capacity development to track SDG-related outcomes, and addressing emerging requirements. The latest tripartite MoU has been signed on 3 February 2023 for a period of five years.

Following this MoU, MoSPI has established the Data for Development Coordination Forum (DDCF) on SDGs, co-chaired by the Director General (Statistics) of NSO, MoSPI, and the UN Resident Coordinator. The

DDCF is tasked with developing data plans, enhancing the indicator framework through comprehensive stakeholder reviews, and facilitating discussions on SDG-related issues with relevant stakeholders including Central Ministries and UN Agencies on a unified platform.

Meeting of DDCF- January 30, 2024 at New Delhi

To bridge data gaps on SDGs, MoSPI has conducted certain surveys and aligned some of its existing surveys, such as the Periodic Labour Force Survey (PLFS), as per SDG data requirements.

Publicity and awareness on SDGs

The 2030 Agenda aims to incorporate all aspects of society, ensuring no one is left behind. Publicizing the Sustainable

Support For Data, Indicators and Statistics for monitoring Sustainable Development Goals

Development Goals is crucial for raising awareness, mobilizing support, and fostering engagement from various stakeholders, including governments, civil society organizations, and individuals. To highlight the vital role of all stakeholders and emphasize the importance of localizing the SDGs, awareness programs are increasingly significant. MoSPI has undertaken several initiatives to enhance awareness of the SDGs. As part of these efforts, MoSPI developed a documentary film on SDGs in Hindi and dubbed it into English and 15 regional languages: Assamese, Bengali, Gujarati, Kannada, Kashmiri, Konkani, Malayalam, Manipuri, Marathi, Nepali, Oriya, Punjabi, Tamil, Telugu, and Urdu. These documentary films are publicly accessible through MoSPI's website.

Since 2007, the Government of India has been celebrating June 29th annually as "Statistics Day" to commemorate the birth anniversary of the late Professor Prasanta Chandra Mahalanobis, honoring his significant contributions to Economic Planning and Statistics. Each year on Statistics Day, a specific theme of current national importance is selected for intensive and focused discussions aimed at addressing data gaps and improving data collection, processing, and dissemination. To further publicize the SDGs, MoSPI has selected themes for Statistics Day around SDGs from 2019 to 2023.

The central theme of the Annual Conference of Central and State Statistical Organizations (COCSSO) in 2019 was also focused on SDGs.

National Indicator Framework – A Comparison

SDGs	Number of national SDG Indicators					
	June 2019	June 2020	June 2021	June 2022	June 2023	June 2024
SDG 1: No Poverty	19	21	17	17	17	18

SDG 17: Partnership for the Goals	0	13	13	13	12	12
Total Number of Indicators	306	302	295	286	284	290

Sub-National Level Monitoring Frameworks for SDGs

Any discussion on the SDGs at the national level lacks completeness without accompanying information on the prevailing status in the States/Union Territories (UTs). MoSPI is providing technical assistance to the States/UTs in development, review and refinement of SDG Monitoring Frameworks for SDGs at sub-national level.

In this endeavor, in 2019, the Ministry formulated and circulated Guidelines to the States/UTs for crafting their State/UT level monitoring framework. These guidelines provide step-by-step guidance for development of sub-national level Monitoring Framework, including institutional arrangements to monitor progress on the SDGs.

The guideline was subsequently updated in March 2022 as part of the report titled “Guidance on Monitoring Framework on SDGs at the Sub-national Level.” This publication aims to support and help State Governments/UT Administrations in developing and enhancing their sub-national level monitoring framework by offering comprehensive guidance.

MoSPI, in collaboration with Directorate of Planning, Statistics and Evaluation, Goa organized a Regional Workshop on Sustainable Development Goals (SDGs) and Gender Statistics for the States/UTs namely Rajasthan, Madhya Pradesh, Gujarat, Maharashtra, Goa and Daman & Diu and Dadra & Nagar Haveli during 11-12 December, 2023 at Goa. The workshop aimed to assist these

States/UTs in developing/reviewing their Indicator Frameworks for monitoring SDGs. The workshop also intended to encourage States/UTs for exploring the possibility to bring out publications on Gender Statistics at State/UT level.

Based on the available information, as of 29th June, 2024, following 28 States/UTs have developed their State/UT level monitoring framework for SDGs to track the progress of SDGs at sub-national level:

S. No.	State/ UT
1.	Andaman & Nicobar Islands
2.	Andhra Pradesh
3.	Arunachal Pradesh
4.	Assam
5.	Bihar
6.	Chhattisgarh
7.	Chandigarh
8.	Goa
9.	Gujarat
10.	Haryana
11.	Himachal Pradesh
12.	Jammu and Kashmir
13.	Jharkhand
14.	Karnataka
15.	Lakshadweep
16.	Madhya Pradesh
17.	Maharashtra
18.	Manipur
19.	Meghalaya
20.	Mizoram
21.	Nagaland
22.	Odisha
23.	Punjab
24.	Rajasthan
25.	Tamil Nadu
26.	Tripura
27.	Uttar Pradesh
28.	Uttarakhand

*Regional Workshop on SDGs and Gender Statistics
11-12 December, 2023 at Goa*

Publications on SDGs

To track the advancement of Sustainable Development Goals at the national level from 2015 to 2030, MoSPI published the baseline report on the National Indicator Framework of SDGs, titled “Sustainable Development Goals - National Indicator Framework Baseline Report 2015-16” in 2019. This was

followed by Progress Reports on SDGs based on the latest NIF in the succeeding years.

In addition to the baseline and progress reports on SDGs-NIF, MoSPI also releases the latest NIF and Data Snapshots in handbook form. Several key publications on SDGs have been issued by MoSPI to date, which has been outlined below:

SDG related Reports as of 29.06.2023	Release Date
Sustainable Development Goals National Indicator Framework Baseline Report (Provisional) 2015-16	31 March, 2019
Sustainable Development Goals National Indicator Framework Baseline Report 2015-16	29 June, 2019

Sustainable Development Goals National Indicator Framework 2023

These reports on SDGs are readily accessible to the public and can be obtained from the MoSPI website (www.mospi.gov.in).

Continuing the annual commitment of updating and reporting, the Sustainable Development Goals – National Indicator Framework Progress Report 2024 has been compiled, incorporating inputs from all relevant Ministries/Departments responsible for data collection. This report is the outcome of extensive collaboration with data source Ministries/Departments and UN organizations, aiming to adopt/adapt globally recognized indicators and refine some national indicators. It serves as a valuable tool for monitoring the country's progress towards achieving SDGs.

The report consists of four main sections:

1. OVERVIEW & EXECUTIVE SUMMARY:

The 'Overview' section contextualizes the SDG-NIF framework in the country and outlines MoSPI's role and initiatives in facilitating SDG monitoring at both national and sub-national levels.

The 'Executive Summary' encapsulates goal-wise highlights and the progress achieved during the specified reporting period.

2. DATA SNAPSHOT:

The 'Data Snapshot' offers a condensed overview of the indicators' data summary.

3. METADATA:

In 'Metadata,' comprehensive details about each indicator are provided, including the goal, target, reference year, unit of measurement, latest availability and links/sources for data accessibility

4. DATA TABLES:

The 'Data Tables,' present time series data on the indicators, wherever accessible. The data is available in MS Excel format.

Executive Summary

Executive Summary

The “Sustainable Development Goals - National Indicator Framework Progress Report, 2024” provides data-driven evidence of India’s progress toward the SDGs and their associated targets. Additionally, it will assist policymakers in identifying key areas that need focused interventions.

It reveals that while substantial progress has been achieved in certain areas, challenges persist in others.

1 NO POVERTY

No poverty

End poverty in all its forms everywhere

SDG 1 (No Poverty) aims to eliminate poverty in all its forms worldwide. Poverty, being a multifaceted issue, involves the lack of sufficient resources or income to meet basic human needs, such as food, shelter, clothing, education, and healthcare. It is not just about income deficiency or resource scarcity but also manifests as hunger, malnutrition, limited educational opportunities, social discrimination, and exclusion from decision-making processes. Eradicating poverty in all its forms remains one of humanity's most daunting challenges.

The Government of India has initiated a comprehensive strategy to eliminate poverty in all its forms. Recognizing the

multidimensional nature of poverty, the government is implementing various welfare schemes focused on nutrition, health, education, housing, drinking water, sanitation, skill development, and social protection, to name a few. Sustained economic growth has played a crucial role in reducing poverty over the years.

At the global level, this Goal has **7 targets** to measure the progress of nation in eradicating poverty in all its forms everywhere. A total of **18 indicators** have been identified at national level to measure and monitor the progress of these targets and **data is available for all the indicators.**

2 ZERO HUNGER

Zero hunger

End hunger, achieve food security and improved nutrition and promote sustainable agriculture

SDG 2, known as Zero Hunger, strives to eradicate hunger, achieve food security, enhance nutrition, and foster sustainable agriculture. It not only addresses hunger itself but also tackles its root causes, including inequality, climate change, and inefficient agricultural practices. The overarching goal of SDG 2 is to eliminate all forms of hunger and malnutrition by 2030, ensuring that everyone, particularly those in vulnerable situations, has access to sufficient nutritious food. Moreover, it aims to double agricultural productivity by 2030, promote decent incomes, facilitate people-centered rural development, and safeguard the environment. Key measures such as promoting sustainable agriculture, supporting small-scale farmers, and ensuring equitable access to land, technology, and markets are crucial for ending hunger and poverty. Achieving this goal also necessitates international cooperation to invest in infrastructure and technology for improving agricultural productivity.

The Government of India has undertaken various initiatives to guarantee food for all, launching one of the world's largest food security programs through the National Food Security Act of 2013. The emphasis on sustainable agriculture is evident through initiatives like the National Mission on Sustainable Agriculture (NMSA), a part of the National Action Plan on Climate Change (NAPCC). Additionally, the area dedicated to organic farming has been steadily expanding over the years. Despite facing numerous challenges, India has made notable strides in ensuring food security.

This Goal has **8 targets** to measure the availability of food, improvement in nutrition and promotion of sustainable agriculture. A total of **19 indicators** have been identified to measure and monitor the progress of these targets at national level and **data is available for all the indicators**.

3 GOOD HEALTH AND WELL-BEING

Good health and well-being

Ensure healthy lives and promote well-being for all at all ages

SDG 3, known as Good Health and Well-Being, aims to guarantee healthy lives and promote well-being for people of all ages. Achieving good health and well-being is crucial for leading a satisfying and productive life. This goal encompasses addressing all major health priorities, such as communicable, non-communicable, and environmental diseases; reproductive, maternal, and child health; universal health coverage; and ensuring access to safe, effective, quality, and affordable medicines and vaccines. SDG 3 particularly targets reducing child mortality, enhancing maternal health, and combatting diseases like HIV/AIDS, tuberculosis, malaria, and others, which not only affect individual well-being but also strain family and public resources while weakening societies.

Government policies in the healthcare sector aim to deliver universal health services at affordable rates. Towards this objective, initiatives such as the National Health Policy,

the Ayushman Bharat Yojana, recognized as the world's largest health protection program, and the Pradhan Mantri Bhartiya Janaushadhi Pariyojana, among others, have played pivotal roles in achieving significant progress in this domain. These interventions have contributed to reductions in maternal and neonatal mortality rates as well as under-five mortality rates. The government's health policies and infrastructure have demonstrated remarkable resilience through exemplary management of the pandemic. In the battle against COVID-19, technology-driven initiatives like the Aarogya Setu app have proven immensely beneficial for contact tracing, syndromic mapping, and self-assessment.

The Goal has **13 targets** to measure the healthy lives and promote well-being for all. A total of **38 indicators** have been identified at national level to measure and monitor the progress of these targets and **data is available for all the indicators.**

4 QUALITY EDUCATION

Quality Education

Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

SDG 4, Quality Education, encompasses an educational framework and methodology designed to equip students with the knowledge, skills, and competencies vital for their personal growth, future endeavors, and meaningful engagement in society. Access to quality education is fundamental for enhancing people's lives and fostering sustainable development. The objective of SDG 4 is to guarantee inclusive and fair access to high-quality education and to encourage lifelong learning opportunities for all.

Furthermore, it strives to ensure equal access to affordable vocational training, eliminate gender and wealth disparities, and achieve universal access to quality higher education. India has made notable steps in enhancing

school infrastructure, boosting student enrollment, and advancing gender parity in education. The Right to Education (RTE) Act establishes education as a fundamental right for every child between the ages of 6 and 14, guaranteeing free and compulsory education. The reach of education is continually expanding nationwide. Additionally, there is a strong focus on skill development and vocational education.

This goal encompasses **10 targets** aimed at measuring inclusive and equitable quality education and promoting lifelong learning opportunities. To monitor the progress of these targets, **19 indicators** have been identified at the national level, with **data available for 17 of them**.

5 GENDER EQUALITY

Gender Equality

Achieve gender equality and empower all women and girls

SDG 5 (Gender Equality) aims to achieve gender equality and empower all women and girls. It ensures equal rights, opportunities, and treatment for all individuals, irrespective of their gender. Ending all forms of discrimination against women and girls is not only a basic human right but also crucial for the sustainable future of societies. Providing women and girls with equal access to education, healthcare, decent work, and representation in political and economic decision-making processes will lead to sustainable economies and benefit societies and humanity at large.

SDG 5 aims to end all forms of discrimination against women and girls everywhere. It is vital to ensure women have equal rights to land and property, sexual and reproductive health, and access to technology and the internet.

Today, there are more women in public offices than ever before, which will help achieve greater gender equality. The government has initiated several social protection and financial inclusion programs focusing on women, increasing their participation. Initiatives like Beti Bachao Beti Padhao have raised awareness and improved the efficiency of welfare services for girls. The Pradhan Mantri Matru Vandana Yojana has been instrumental in providing social protection through maternity benefits to women.

This goal includes **9 targets** to monitor gender equality and ensure the empowerment of women and girls. At the national level, **31 indicators** have been identified to track the progress of these targets, with **data available for 28 indicators**.

Wages of casual labourers

(gender wise) other than public works, (₹ per day)

Exclusive Women SHGs in Bank linked SHGs, (in percentage)

6 CLEAN WATER AND SANITATION

Clean water and sanitation

Ensure availability and sustainable management of water and sanitation for all

SDG 6 (Clean Water and Sanitation) aims to ensure the availability and sustainable management of water and sanitation for all. Clean water and sanitation are essential for promoting good health, preventing the spread of diseases, and ensuring overall well-being. Access to clean water and proper sanitation facilities is a fundamental human right and a crucial aspect of sustainable development. Clean water and sanitation protect people from disease and enhance their economic productivity. Water scarcity, poor water quality, and inadequate hygiene negatively impact food security, livelihood choices, and educational opportunities for low-income families worldwide. The 2030 Agenda recognizes that social development and economic prosperity depend on the sustainable management of freshwater resources and ecosystems.

Despite facing substantial demand and limited water resources, India has committed to providing its population with safe and adequate drinking water. The Jal Jeevan Mission has been instrumental in ensuring sufficient water and sanitation infrastructure. Furthermore, all districts in India have achieved the target of Open Defecation Free (ODF) under the Swachh Bharat Mission.

This goal comprises **8 targets** aimed at ensuring the availability and sustainable management of water and sanitation for all. At the national level, a total of **13 indicators** have been identified to measure and monitor the progress of these targets, with **data available for all indicators**.

7 AFFORDABLE AND CLEAN ENERGY

Affordable and clean energy

Ensure access to affordable, reliable, sustainable and modern energy for all

SDG 7 (Affordable and Clean Energy) aims to ensure the availability of energy sources that are both environmentally friendly and economically viable. The contribution of energy is crucial in driving the engine of growth, and its significance cannot be underestimated in the development of societies. It lies at the heart of nearly every major challenge and opportunity faced by the world, whether it's related to starting a business, increasing food production, or raising incomes. Sustainable energy presents an opportunity that can profoundly transform lives, economies, and the planet. SDG 7 seeks to enhance energy efficiency, promote the increased use of renewable sources, and foster the adoption of sustainable and modern energy for all.

The Pradhan Mantri Sahaj Bijli Har Ghar Yojana - Saubhagya was launched to ensure electricity access for all households. The scheme prioritizes renewable energy to reduce carbon emissions and mitigate air pollution. Additionally, the Pradhan Mantri Ujjwala Yojana has effectively extended access to cooking gas to rural households, meeting their energy needs while improving women's health and reducing CO2 emissions.

This Goal encompasses **5 targets** aimed at ensuring access to affordable, reliable, sustainable, and modern energy for all. At the national level, a total of **5 indicators** have been identified to measure and monitor the progress of these targets, with **data available for all indicators**.

Percentage of
households electrified

Renewable **energy share** in the total installed
electricity generation (in %)

Installed **renewable energy generating**
capacity in the country (in watts per capita)

Decent work and economic growth

Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

SDG 8 (Decent Work and Economic Growth) aims to foster continuous, inclusive, and sustainable economic growth, along with ensuring full and productive employment and decent work for everyone. It seeks to stimulate ongoing economic progress by attaining higher levels of productivity and embracing technological innovation. Key to this Goal is the promotion of policies that foster entrepreneurship and job creation, along with effective measures to eliminate forced labor, slavery, and human trafficking. The objective is to achieve full and productive employment, reduce informal employment and the gender pay gap, and promote safe and secure working environments for all individuals by 2030.

The government initiative, Startup India, aims to support Indian entrepreneurs, while the Micro Units Development and Refinance Agency (MUDRA) ensures loans at low rates, proving beneficial in providing credit to MSMEs. Numerous structural reforms have been implemented to foster sustainable economic growth and productive employment. There has been a consistent increase in the number of patents granted.

There are **12 targets** under this Goal to ensure decent work for all and economic growth of the societies. A total of **26 indicators** have been identified at national level to measure and monitor the progress of the goal and **data is available for 25 indicators.**

Industry, Innovation and Infrastructure

**Build resilient infrastructure,
promote inclusive and
sustainable industrialization
and foster innovation**

SDG 9 (Industry, Innovation, and Infrastructure) encompasses essential elements for economic growth and sustainable development. It focuses on building quality, reliable, sustainable, and resilient infrastructure that supports economic development and human well-being. Additionally, it aims to promote inclusive and sustainable industrialization and foster innovation among various targets. Investment in infrastructure sectors, such as transport, irrigation, energy, and others, is crucial to ensure the sustainable development of many countries. Investment in infrastructure sectors like transport,

irrigation, and energy is essential for the sustainable development of many countries. The enhanced infrastructure and new initiatives such as the Dedicated Freight Corridor and various Industrial Corridors have played a pivotal role in fostering sustainable industrialization. Additionally, efforts directed towards innovation have propelled significant progress in the country's ranking on the Global Innovation Index.

This Goal has **8 targets** to measure its progress. A total of **16 indicators** have been identified at national level to measure and monitor the progress of these targets and **data is available for all the indicators.**

10 REDUCED INEQUALITIES

Reduced inequalities

SDG 10, addressing Reduced Inequalities, focuses on diminishing inequality both within and among nations. It plays a critical role in advancing social justice, sustainable development, and human rights. SDG 10 endeavors to lessen income disparities based on factors such as age, gender, disability, religion, and economic or other statuses within countries, as well as between nations. Inequality not only hinders progress but also denies individuals opportunities, ultimately exacerbating conditions of extreme poverty. The government is dedicated to reducing economic inequality through a range of policies and programs. In pursuit of this

Reduce inequality within and among countries

goal, several initiatives have been launched, including the Pradhan Mantri Jan Dhan Yojana and the Pradhan Mantri Kisan Samman Nidhi.

The Goal comprises **10 targets** aimed at reducing inequality primarily through the regulation and monitoring of financial markets and institutions, as well as by promoting development assistance and foreign direct investment in regions where needed. At the national level, a total of **12 indicators** have been identified to measure and monitor the progress of these targets, with **data available for all indicators**.

Labour Share of GDP

Percentage of budget allocated to North Eastern States

Percentage of budget allocated for welfare of SCs and STs

Sustainable cities and communities

**Make cities and human
settlements inclusive, safe,
resilient and sustainable**

SDG 11 (Sustainable Cities and Communities) aims to foster inclusive, safe, resilient, and sustainable cities and human settlements. Sustainable cities and communities are founded on the principles of social, economic, and environmental sustainability. Urbanization has led to the creation of new jobs and opportunities, contributing to poverty reduction. The sustainable development of cities plays a pivotal role in national development, providing avenues for economic and social prosperity. Urban areas can address challenges of rapid growth by enhancing resource utilization, reducing pollution and poverty, and ensuring access to basic services, energy, and housing, while simultaneously lowering greenhouse gas emissions.

Rapid urbanization has presented numerous challenges to infrastructure, such as increased demand for resources like water, energy, and transportation. The Atal Mission for

Rejuvenation and Urban Transformation (AMRUT) is dedicated to establishing infrastructure capable of providing robust sewage networks and water supply to facilitate urban transformation. Additionally, the government launched the Pradhan Mantri Awas Yojana (PMAY) to ensure affordable housing for all. The National Smart Cities Mission, an urban renewal and retrofitting program, aims to develop smart cities nationwide. Municipal solid waste management remains a major environmental issue in Indian cities. However, the government has implemented several initiatives that have led to significant progress in urban waste management.

SDG 11 includes 10 targets aimed at fostering inclusive, safe, resilient, and sustainable cities and human settlements. At the national level, a total of 13 indicators have been identified to measure and monitor the progress of these targets, with data available for 10 indicators.

Responsible consumption and production

Ensure sustainable consumption and production patterns

SDG 12 (Responsible Consumption and Production) aims to ensure sustainable consumption and production patterns. This approach to economic development seeks to minimize the negative impact of human activities on the environment while promoting social equity and economic prosperity. According to the Oslo Symposium of 1994, SDG 12 is defined as “the use of services and related products which respond to basic needs and bring a better quality of life, while minimizing the use of natural resources and toxic materials, as well as the emission of waste and pollutants over the life cycle of the service or product, so as not to jeopardize the needs of future generations.” Goal 12 emphasizes the efficient use of natural resources, energy efficiency, and sustainable infrastructure.

India is a part of international initiatives and agreements on sustainable consumption and production including the 10 Years Framework of Programmes on sustainable consumption and production (10YFP) process. Government has given special consideration on renewable energy, organic agriculture, bio fertilizers, reduced emission etc. in order to ensure responsible consumption and production.

Goal 12 includes **11 targets** aimed at measuring responsible consumption and production patterns. At the national level, **14 indicators** have been identified to measure and monitor the progress of these targets, with data available for **10 indicators**.

Climate action

Take urgent action to combat climate change and its impacts

SDG 13 (Climate Action) aims to take urgent measures to combat climate change and its effects. This goal encompasses efforts to address and mitigate the impacts of climate change. The world is witnessing rising sea levels, extreme weather conditions, and increasing concentrations of greenhouse gases, threatening lives, particularly in coastal areas. With the continuous rise in greenhouse gas emissions, there is a need for ambitious plans and accelerated actions for both mitigation and adaptation to climate change impacts. This includes access to finance and enhanced capacities. Goal 13 emphasizes building resilience and adaptive capacity to climate-related hazards and integrating these measures into national policies. It focuses not only on early warning systems but also on reducing impacts. Moreover, it highlights the importance of partnerships and commitment among nations to achieve these objectives.

India's National Action Plan for Climate Change (NAPCC) comprises eight sub-missions designed to mitigate and adapt to the adverse impacts of climate change. This plan aims to achieve India's developmental objectives with a focus on reducing the emission intensity of its economy. The government is committed to creating disaster-resilient societies, and these efforts have significantly reduced casualties from disastrous events over the years. India successfully achieved its pre-2020 goal of reducing emission intensity and is now implementing programs to meet its post-2020 targets.

Goal 13 has **5 targets** to measure the changing impacts of climate-related hazards. A total of **7 indicators** have been identified at the national level to measure and monitor the progress of these targets, with **data available for all the indicators**.

India has nationally determined contributions and long term strategies, as reported to the secretariat of the United Nations Framework, Convention of Climate Change

14 LIFE
BELOW WATER

Life below water

Conserve and sustainably use the oceans, seas and marine resources for sustainable development

SDG 14 (Life Below Water) aims to conserve and sustainably use the oceans, seas, and marine resources for sustainable development. The goal recognizes the importance of the oceans and marine ecosystems in sustaining life on Earth, supporting livelihoods, and regulating the climate.

SDG 14 seeks to tackle the challenges faced by marine life, including threats from marine and nutrient pollution, resource depletion, overfishing, habitat destruction, climate change, degradation and loss of biodiversity, and ocean acidification, all primarily caused by human actions. The goal advocates for corrective measures, such as effectively regulating harvesting and overfishing,

protecting marine and coastal ecosystems, increasing scientific knowledge to improve ocean health, and providing access to marine resources and markets for small-scale artisanal fishers.

Several initiatives have been undertaken to protect marine and coastal ecosystems, including mangroves and coral reefs. These efforts have contributed to the growth in the maximum sustainable yield in fishing over the years.

Goal 14 includes **10 targets** to measure the health and services of water-related ecosystems. At the national level, **11 indicators** have been identified to measure and monitor the progress of these targets, with **data available for all the indicators**.

Life on land

Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

SDG 15 (Life on Land) aims to protect, restore, and promote the sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and biodiversity loss. These considerations have always been central to environmental policy formulation. Terrestrial ecosystems, including forests and wetlands, provide essential goods such as timber, raw materials for construction, energy, and food. Additionally, they offer a series of ecosystem services, including maintaining soil quality, providing habitats for biodiversity, preserving water quality, regulating water flow, and controlling erosion.

Goal 15 highlights how terrestrial ecosystems contribute to reducing the risks of natural disasters such as floods and landslides, maintaining the productivity of agricultural systems, and regulating the climate. It also emphasizes the need for concerted action to protect, restore, and promote terrestrial ecosystems.

Goal 15 includes **12 targets** to measure the changing health and status of terrestrial ecosystems. At the national level, **15 indicators** have been identified to measure and monitor the progress of these targets, with **data available for all the indicators**.

16 PEACE, JUSTICE AND STRONG INSTITUTIONS

Peace, justice and strong institution

Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

SDG 16 (Peace, Justice, and Strong Institutions) aims to promote peaceful and inclusive societies, provide access to justice for all, and build effective, accountable, and inclusive institutions at all levels. It seeks to address the most significant and destructive challenges to development, growth, and well-being: violence and armed conflict. The global sustainable development agenda for 2030 promotes transparent and effective local governance and judicial systems, reducing crime and sexual and gender-based violence, tackling homicide and trafficking cases, and ending violations of children's rights. SDG 16 addresses the challenges of violence at all levels—individual, relationship, community, and societal.

The Indian Constitution deeply embeds the spirit of democracy, justice, liberty, and equality. Acts such as The Right to Information Act, Lok Pal and Lok Ayukta Act, and Whistle Blowers Protection Act further reinforce these principles. Additionally, more than 90% of citizens are covered under the unique identity system Aadhar. The constitutional framework of the country ensures political participation of vulnerable groups.

Goal 16 aims to ensure peaceful and just societies, with **12 targets** in place for this purpose. At the national level, **21 indicators** have been identified to measure and monitor the progress of these targets, with **data available for all the indicators**.

Number of
**victims of
intentional homicide**
per 1,00,000 population

Existence of independent

**national human
rights institutions**
in compliance
with the Paris
Principles

Number of **Judges**
(all levels) per lakh population

Number of
**Government services
provided online**
to citizens

Partnerships for the goals

SDG 17 (Partnerships for the Goals) aims to strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development. It emphasizes collaboration and partnerships between various stakeholders, including governments and societies, to achieve the SDGs. SDG 17 is crucial to the achievement of all SDGs because partnerships among different stakeholders are essential for sustainable development.

Over the years, India has introduced several policy improvements and process simplifications. In the pursuit of achieving the SDGs, measuring progress at both national and sub-national levels is crucial. The Ministry of Statistics and Programme

Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

Implementation (MoSPI) has developed the National Indicator Framework (NIF), while states and union territories (UTs) are encouraged to develop their own State and District Indicator Frameworks. MoSPI has issued guidelines for developing the State Indicator Framework (SIF), and a number of states and UTs have already developed their respective SIFs.

Goal 17 comprises **19 targets** aimed at strengthening the means of implementation and revitalizing the Global Partnership. At the national level, **12 indicators** have been identified to track the progress of the Goal, and **data is available for all these indicators.**

Share of India's exports in Global exports, (in percentage)

■ Commercial Services ■ Merchandise

Proportion of domestic budget funded by domestic taxes (in %)

Number of States having a State Monitoring Framework that supports the achievement of the sustainable development goals

Budget allocated to different Ministries for strengthening statistics, (in Rs. Lakh)

Data Snapshot

Goal 1: End poverty in all its forms everywhere			
S.NO.	NATIONAL INDICATOR	VALUE OF THE INDICATOR	
Target 1.1: By 2030, eradicate extreme poverty for all people everywhere, currently measured as people living on less than USD 1.25a day			
National Indicator is under development			
Target 1.2: By 2030, reduce at least by half the proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions			
1	1.2.1: Proportion of population living below the national poverty line Source: NITI Aayog / Periodicity: 5 Years	Year	Value
		2011-12	21.92
2	1.2.2: Proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions Source: NITI Aayog / Periodicity: 3 Years	Year	Value
		2015-16	24.85
		2019-21	14.96
Target 1.3: Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achievesubstantial coverage of the poor and the vulnerable			
1	1.3.1: Percentage of households with any usual member covered by a health scheme or health insurance Source: Ministry of Health and Family Welfare (National Family Health Survey) /Periodicity: 3 Years	Year	Value
		2015-16	28.70
		2019-21	41.00
2	1.3.2: Number of Beneficiaries under Integrated Child Development Scheme - ICDS Source: Ministry of Women and Child Development / Periodicity: Annual	Year	Value
		2015-16	10,21,31,284
		2016-17	9,83,42,390
		2017-18	8,92,76,933
		2018-19	8,75,60,671
		2019-20	8,55,05,148
		2020-21	8,31,82,823
		2021-22	9,49,94,406
3	1.3.3: Persons offered employment as a percentage of persons who demanded employment under Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA) Source: Department of Rural Development, Ministry of Rural Development /Periodicity: Annual	Year	Value
		2015-16	99.62
		2016-17	99.56
		2017-18	99.62
		2018-19	98.96
		2019-20	99.63
		2020-21	99.79
		2021-22	99.23
		2022-23	99.73
2023-24	99.74		

4	1.3.4: Number of Self-Help Groups (SHGs) provided bank credit linkage, <i>Source: National Bank for Agriculture and Rural Development (NABARD), Ministry of Finance /Periodicity: Annual</i>	Year	Value (in lakhs)
		2015-16	18.32
		2016-17	18.98
		2017-18	22.61
		2018-19	26.98
		2019-20	31.46
		2020-21	28.87
		2021-22	33.98
		2022-23	42.96
		2023-24	44.15
5	1.3.5: Proportion of the population (out of total eligible population) receiving social protection benefits under Pradhan Mantri Matritva Vandana Yojana (PMMVY) <i>Source: Ministry of Women and Child Development / Periodicity: Annual</i>	Year	Value
		2017-18	91.66
		2018-19	92.17
		2019-20	91.38
		2020-21	71.50
		2021-22	62.60
		2022-23	80.01
6	1.3.6: Number of senior citizens provided institutional assistance through Senior Citizen Homes/Day Care Centers funded by the Government <i>Source: Department of Social Justice & Empowerment, Ministry of Social Justice & Empowerment / Periodicity: Annual</i>	Year	Value
		2015-16	23,095
		2016-17	40,200
		2017-18	40,450
		2018-19	34,920
		2019-20	1,09,085
		2020-21	1,36,440
		2021-22	1,39,385
		2022-23	87,745
		2023-24	1,57,820
7	1.3.7: Number of beneficiaries added under Employee's Pension Scheme (EPS) during the year <i>Source: Ministry of Labour and Employment / Periodicity: Annual</i>	Year	Value
		2015-16	1,96,02,304
		2016-17	2,13,94,978
		2017-18	1,95,06,950
		2018-19	1,51,77,025
		2019-20	1,32,14,394
		2020-21	94,15,220
		2021-22	1,15,10,715
		2022-23	1,18,53,544

8	1.3.8: Coverage of New Pension Scheme (NPS)	Year	Value
	Source: Ministry of Finance / Periodicity: Annual	2015-16	97,50,406
		2016-17	1,05,75,160
		2017-18	1,15,70,930
		2018-19	1,23,99,659
		2019-20	1,34,12,639
		2020-21	1,43,90,543
		2021-22	1,57,43,768
		2022-23	1,73,06,948
		2023-24	1,80,43,920
Target 1.4: By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financial services, including microfinance			
1	1.4.1: Proportion of population living in households with access to basic services Source: Ministry of Health and Family Welfare, Ministry of Education, Ministry of Jal Shakti, Ministry of Petroleum and Natural Gas, Ministry of Communications, Ministry of Housing and Urban Affairs / Periodicity: Annual	This indicator is combination of national indicators 3.8.1, 4.1.1, 6.1.1, 6.2.1, 7.1.2, 9.c.1 and 11.6.1. The data on these indicators are available under respective SDGs and associated targets.	
2	1.4.2: Number of telephone subscriptions as percentage of total population Source: Department of Telecommunications, Ministry of Communications / Periodicity: Annual	Year	Value
		2015-16	82.48
		2016-17	91.96
		2017-18	92.23
		2018-19	89.10
		2019-20	87.65
		2020-21	88.50
		2021-22	85.15
		2022-23	84.77
		2023-24	85.42
3	1.4.3: Percentage of households living in kachha houses Source: Ministry of Health and Family Welfare (National Family Health Survey) / Periodicity: 3 Years	Year	Value
		2015-16	5.6
		2019-21	4.6
Target 1.5: By 2030, build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters			
1	1.5.1: Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population (similar to indicators 11.5.1 and 13.1.1) Source: Disaster Management Division, Ministry of Home Affairs / Periodicity: Annual	Year	Value
		2015	1,4743.14
		2016	1,3706.39
		2017	1,3381.24
		2018	1,0738.97

2	1.5.3: Whether the country has adopted and implemented national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, (similar to indicators 11.b.1 and 13.1.2) Source: Disaster Management Division, Ministry of Home Affairs / Periodicity: Annual	Year	Value
		2015	0.25
		2018	0.93
		2019 to 2023	1.00
3	1.5.4: Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies, (similar to indicators 11.b.2 and 13.1.3) Source: Disaster Management Division, Ministry of Home Affairs / Periodicity: Annual	Year	Value
		2015	0.90
		2018	0.93
		2019	0.93
		2020	0.92
		2022	0.92
		2023	0.89
Target 1.a: Ensure significant mobilization of resources from a variety of sources, including through enhanced development co-operation, in order to provide adequate and predictable means for developing countries, in particular least developed countries, to implement programmes and policies to end poverty in all its dimensions			
1	1.a.2: Proportion of total government spending on essential services (education, health and social protection) Source: National Accounts Division, NSO, Ministry of Statistics and Programme Implementation / Periodicity: Annual	Year	Value
		2015-16	29.87
		2016-17	30.23
		2017-18	29.70
		2018-19	30.33
		2019-20	31.03
		2020-21	27.33
		2021-22	28.51
2022-23	28.69		
Target 1.b: Create sound policy frameworks at the national, regional and international levels, based on pro-poor and gender-sensitive development strategies, to support accelerated investment in poverty eradication actions			
1	1.b.1: Proportion of budget earmarked under gender budget Source: Ministry of Women and Child Development / Periodicity: Annual	Year	Value
		2015-16	4.46
		2016-17	4.58
		2017-18	5.68
		2018-19	4.99
		2019-20	4.91
		2020-21	4.72
		2021-22	4.40
		2022-23	4.33
		2023-24	5.00
		2024-25	6.50

Goal 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture

S.NO.	NATIONAL INDICATOR	VALUE OF THE INDICATOR			
Target 2.1: By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round					
1	2.1.1: Percentage of children aged under 5 years who are underweight Source: Ministry of Health and Family Welfare (National Family Health Survey) / Periodicity: 3 Years	Year		Value	
		2015-16		35.70	
		2019-21		32.10	
2	2.1.2: Proportion of beneficiaries covered under National Food Security Act, 2013 Source: Ministry of Consumer Affairs, Food and Public Distribution / Periodicity: Annual	Year		Value	
		2015-16		95.18	
		2016-17		99.01	
		2017-18		99.24	
		2018-19		97.62	
		2019-20		99.51	
		2020-21		97.59	
		2021-22		98.00	
		2022-23		98.48	
		2023-24		98.96	
Target 2.2: By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting andwasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons					
1	2.2.1: Percentage of children under age 5 years who are stunted Source: Ministry of Health and Family Welfare (National Family Health Survey) /Periodicity: 3 Years	Year		Value	
		2015-16		38.40	
		2019-21		35.50	
2	2.2.2: Prevalence of malnutrition among children under 5 years of age, by type (wasting and overweight) Source: Ministry of Health and Family Welfare (National Family Health Survey) /Periodicity: 3 Years	Year	Wasting (%)	Overweight (%)	
		2015-16	21.00	2.1	
		2019-21	19.3	3.4	
3	2.2.3: Prevalence of anaemia in women aged 15 to 49 years, by pregnancy status (percentage) Source: Ministry of Health and Family Welfare (National Family Health Survey) / Periodicity: 3 Years	Year	Pregnant	Non-Pregnant	Total
		2015-16	50.40	53.2	53.1
		2019-21	52.2	57.2	57.00
4	2.2.4: Percentage of women whose Body Mass Index (BMI) is below normal Source: Ministry of Health and Family Welfare (National Family Health Survey) /Periodicity: 3 Years	Year		Value	
		2015-16		22.90	
		2019-21		18.70	

5	2.2.5: Percentage of Children age 6-59 months who are anaemic (<11.0g/dl) Source: Ministry of Health and Family Welfare (National Family Health Survey) /Periodicity: 3 Years	Year	Value	
		2015-16	58.50	
		2019-21	67.10	
Target 2.3: By 2030, double the agricultural productivity and incomes of small scale food producers, in particular women, indigenous peoples, family farmers, pastoralists and fishers, including through secure and equal access to land, other productive resources and inputs, knowledge, financial services, markets and opportunities for value addition and non-farm employment				
1	2.3.1: Agriculture productivity of wheat and rice (in kg per hectare) Source: AS Division, DAC&FW , Ministry of Agriculture and Farmers' Welfare /Periodicity: Annual	Year	Wheat	Rice
		2015-16	3,034	2,400
		2016-17	3,200	2,494
		2017-18	3,368	2,576
		2018-19	3,533	2,638
		2019-20	3,440	2,722
		2020-21	3,521	2,717
		2021-22	3,537	2,798
		2022-23	3,521	2,838
		2023-24	3,525	2,742
2	2.3.2: Gross Value Added in agriculture per worker (in Rs.) Source: National Accounts Division, NSO, Ministry of Statistics and Programme Implementation / Periodicity: Annual	Year		Value
		2015-16		61,427
		2016-17		65,603
		2017-18		69,936
		2018-19		71,402
		2019-20		75,801
		2020-21		78,837
		2021-22		82,482
		2022-23		86,365
		2023-24		87,609
3	2.3.3: Ratio of institutional credit to agriculture to the agriculture output Source: (a) Numerator: Ministry of Agriculture and Farmers' Welfare (b) Denominator: National Accounts Division, NSO, Ministry of Statistics and Programme Implementation / Periodicity: Annual	Year		Value
		2015-16		0.76
		2016-17		0.83
		2017-18		0.87
		2018-19		0.95
		2019-20		1.01
		2020-21		1.10
		2021-22		1.28
		2022-23		1.40

Target 2.4: By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extremeweather, drought, flooding and other disasters and that progressively improve land and soil quality

1	2.4.1: Proportion of Net Sown Area to Cultivable land <i>Source: SDDS, DAC&FW, Ministry of Agriculture and Farmers' Welfare /Periodicity: Annual</i>	Year	Value
		2015-16	76.62
		2016-17	76.83
		2017-18	76.75
		2018-19	76.64
		2019-20	77.73
		2020-21	78.52
		2021-22	78.29
2	2.4.2: Percentage of farmers issued Soil Health Card <i>Source: INM, DAC&FW, Ministry of Agriculture and Farmers' Welfare /Periodicity: Annual</i>	Year	Value
		2015-17	100
		2017-19	98.54
		2019-20	100
		2022-23	98
3	2.4.3: Percentage of net area under organic farming <i>Source: INM, DAC&FW, Ministry of Agriculture and Farmers' Welfare / Periodicity: Annual</i>	Year	Value
		2015-16	0.9740
		2016-17	1.1041
		2017-18	1.3929
		2018-19	1.5892
		2019-20	2.0220
		2020-21	2.3843
		2021-22	3.9151
		2022-23	4.4293

Target 2.5: By 2020, maintain the genetic diversity of seeds, cultivated plants and farmed and domesticated animals and their related wild species, including through soundly managed and diversified seed and plant banks at the national, regional and international levels, and promote access to fair and equitable sharing of benefits arising from the utilization of genetic resources and associated traditional knowledge, as internationally agreed

1	2.5.1: Number of (a) plant and (b) animal genetic resources for food and agriculture secured in either medium- or long-term conservation facilities <i>Source: Ministry of Agriculture and Farmers' Welfare, DARE, (a) National Bureau of Plant Genetic Resources, (ICAR-NBPGR) and (b) National Bureau of Animal Genetic Resources, (ICAR-NBAGR) / Periodicity: Annual</i>	Year	plant	Animal
		2014-15	432564	140364
		2015-16	444607	146364
		2016-17	449702	156276
		2017-18	454841	181128
		2018-19	461832	200549
		2019-20	464517	220649
		2020-21	475054	239954
		2021-22	479823	262104
		2022-23	482633	294504
		2023-24	486452	316214

2	2.5.2: Proportion of local breeds classified as being at risk of extinction Source: National Bureau of Animal Genetic Resources,(ICAR-NBAGR), Ministry of Agriculture and Farmers' Welfare / Periodicity: 5 Years	Year	Value
		2022-23	17.92
		2023-24	17.27
3	2.5.3: Conservation of fish genetic resource, (in number) Source: National Bureau of Fish Genetic Resources (ICAR-NBFGR), Ministry of Agriculture and Farmers' Welfare, DARE / Periodicity: Annual	Year	Value
		2014-15	47
		2015-16	50
		2016-17	53
		2017-18	58
		2018-19	63
		2019-20	67
		2020-21	81
		2021-22	91
		2022-23	100
		2023-24	101
Target 2.a: Increase investment, including through enhanced international cooperation, in rural infrastructure, agricultural researchand extension services, technology development and plant and livestock gene banks in order to enhance agricultural productive capacity in developing countries, in particular least developed countries			
1	2.a.1: The agriculture orientation index for government expenditures Source: National Accounts Division, NSO, Ministry of Statistics and Programme Implementation / Periodicity: Annual	Year	Value
		2016-17	0.399
		2017-18	0.443
		2018-19	0.458
		2019-20	0.456
		2020-21	0.382
		2021-22	0.419
		2022-23	0.451
2	2.a.2: Percentage share of expenditure in Intellectual Property Product (R&D) in agriculture to GVA in agriculture Source: National Accounts Division, NSO, Ministry of Statistics and ProgrammImplementation / Periodicity: Annual	Year	Value
		2015-16	0.044
		2016-17	0.052
		2017-18	0.041
		2018-19	0.041
		2019-20	0.039
		2020-21	0.021
		2021-22	0.028
		2022-23	0.033

Target 2.b: Correct and prevent trade restrictions and distortions in world agricultural markets, including through the parallel elimination of all forms of agricultural export subsidies and all export measures with equivalent effect, in accordance with the mandate of the Doha Development Round

National indicator is under development

Target 2.c: Adopt measures to ensure the proper functioning of food commodity markets and their derivatives and facilitate timely access to market information, including on food reserves, in order to help limit extreme food price volatility

1	2.c.1: Percentage of agriculture mandis enrolled in e-market <i>Source: Agri Marketing, DAC&FW, Ministry of Agriculture and Farmers' Welfare/ Periodicity: Annual</i>	Year	Value
		2016-17	6.49
		2017-18	3.10
		2020-21	15.10
		2021-22	14.40
		2022-23	19.21

Goal 3: Ensure healthy lives and promote well-being for all at all ages

S.NO.	NATIONAL INDICATOR	VALUE OF THE INDICATOR	
Target 3.1: By 2030, reduce the global maternal mortality ratio to less than 70 per 1,00,000 live births			
1	3.1.1: Maternal Mortality Ratio, (per 1,00,000 live births) Source: Office of the Registrar General & Census Commissioner, India, Ministry of Home Affairs / Periodicity: Annual	Year	Value
		2014-16	130
		2015-17	122
		2016-18	113
		2017-19	103
		2018-20	97
2	3.1.2: Percentage of births attended by skilled health personnel (Period 5 years) Source: Ministry of Health and Family Welfare (National Family Health Survey) /Periodicity: 3 Years	Year	Value
		2015-16	81.40
		2019-21	89.40
3	3.1.3: Percentage of births attended by skilled health personnel (Period 1 year), Source: Ministry of Health and Family Welfare (National Family Health Survey) /Periodicity: 3 Years	Year	Value
		2015-16	84.40
		2019-21	90.90
Target 3.2: By 2030, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 25 per 1,000 live births			
1	3.2.1: Under-five mortality rate, (per 1,000 live births) Source: Office of the Registrar General & Census Commissioner, India, Ministry of Home Affairs / Periodicity: Annual	Year	Value
		2015	43
		2016	39
		2017	37
		2018	36
		2019	35
		2020	32
2	3.2.2: Neonatal mortality rate, (per 1,000 live births) Source: Office of the Registrar General & Census Commissioner, India, Ministry of Home Affairs / Periodicity: Annual	Year	Value
		2015	25
		2016	24
		2017	23
		2018	23
		2019	22
		2020	20
Target 3.3: By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases

		2022	14.00
		2023	11.00
Target 6.a: By 2030, expand international cooperation and capacity-building support to developing countries in water- and sanitation-related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment,recycling and reuse technologies			
National Indicator is under development			
Target 6.b: Support and strengthen the participation of local communities in improving water and sanitation management			
1	6.b.1: Proportion of villages with Village Water & Sanitation Committee [VWSC] Source: DDWS, Ministry of Jal Shakti / Periodicity: Annual	Year	Value
		2021-22	0.81
		2022-23	0.87
		2023-24	0.90

Goal 7: Ensure access to affordable, reliable, sustainable and modern energy for all

S.NO.	NATIONAL INDICATOR	VALUE OF THE INDICATOR	
Target 7.1: By 2030, ensure universal access to affordable, reliable and modern energy services			
1	7.1.1: Percentage of households electrified, Source: Ministry of Power / Periodicity: Annual	Year	Value
		2019-20	99.77
		2021-22	100.00
2	7.1.2: Percentage of household using clean cooking fuel Source: Ministry of Petroleum and Natural Gas / Periodicity: Annual	Year	Value
		2015-16	62.83
		2016-17	74.16
		2017-18	82.49
		2018-19	97.95
		2019-20	97.94
		2020-21	98.10
		2021-22	99.35
		2022-23	99.80
		2023-24	106.54
Target 7.2: By 2030, increase substantially the share of renewable energy in the global energy mix			
1	7.2.1: Renewable energy share in the total installed electricity generation Source: Ministry of New and Renewable Energy / Periodicity: Annual	Year	Value (in %)
		2015-16	15.95
		2016-17	16.49
		2017-18	17.42
		2018-19	19.01

		2022-23	15.43	8.26	4.25	1.11	23.36	6.96	8.47

Target 10.6: Ensure enhanced representation and voice for developing countries in decision-making in global international economic and financial institutions in order to deliver more effective, credible, accountable and legitimate institutions

1	10.6.1: Whether the Country is a member and has voting rights in international organizations (similar to indicator 16.8.1) <i>Source: Ministry of External Affairs / Periodicity: Annual</i>	For 2021		
		International Organization (Out of 11 international organizations)	Membership	Voting Rights
		2021	10	9
		2023	9	9

Target 10.7: Facilitate orderly, safe, regular and responsible migration and mobility of people, including through the implementation of planned and well-managed migration policies

1	10.7.1: Recruitment cost borne by employee as a proportion of monthly income earned in country of destination <i>Source: Ministry of External Affairs / Periodicity: Annual</i>	Year	Value
		2015 To 2017	1.43
		2018 To 2022	2.14
		2023 To 2024	1.5

Target 10.a: Implement the principle of special and differential treatment for developing countries, in particular least developed countries, in accordance with World trade organization agreements

National Indicator is under development

Target 10.b: Encourage official development assistance and financial flows, including foreign direct investment, to states where the need is greatest, in particular least developed countries, African countries, small island developing States and landlocked developing countries, in accordance with their national plans and programmes

National Indicator is under development

Target 10.c: By 2030, reduce to less than 3 per cent the transaction costs of migrant remittances and eliminate remittance corridors with costs higher than 5 per cent

1	10.c.1: Remittance costs as a proportion of the amount remitted, (cost of Sending/Receiving USD 200 in Public Sector Banks) <i>Source: Reserve Bank of India / Periodicity: Annual</i>	Bank Type/Mode (For 2016-17)	Sending	Receiving
		Direct Transfer to Bank Account/Electronic Wire	0 - 6.7	0 - 1.5
		SWIFT	0 - 21.3	0.5 - 4.4

Goal 11: Make cities and human settlements inclusive, safe, resilient and sustainable

S.NO.	NATIONAL INDICATOR	VALUE OF THE INDICATOR		
Target 11.1: By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums				
1	11.1.1: Proportion of urban population living in slums, informal settlements or inadequate housing Source: NSSO, Ministry of Statistics and Programme Implementation / Periodicity: 3 years	Under compilation		
Target 11.2: By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons				
1	11.2.1: Proportion of Households in urban areas having convenient access to public transport Source: NSSO, Ministry of Statistics and Programme Implementation / Periodicity: 3 years	Under compilation		
2	11.2.2: People killed/injured in road accidents (per 1,00,000 population) (similar to indicator 3.6.1) Source: National Crime Records Bureau, Ministry of Home Affairs / Periodicity: Annual	Year	Death rate	Injury rate
		2015	11.81	38.31
		2016	11.92	38.11
		2017	11.46	34.85
		2018	11.54	33.74
		2019	11.57	32.84
		2020	9.84	24.76
		2021	11.38	27.20
2022	12.4	30.66		
Target 11.3: By 2030, enhance inclusive and sustainable urbanization and capacity for participatory, integrated and sustainable human settlement planning and management in all countries				
1	11.3.1: Proportion of cities with Master plans (in %) (similar to indicator 11.a.1) Source: Ministry of Housing and Urban Affairs / Periodicity: Annual	Year	Value	
		2015	25.61	
		2016	33.17	
		2017	34.51	
		2018	34.93	
		2019	34.93	
		2020	35.84	
		2021	39.00	
		2022	37.30	
Target 11.4: Strengthen efforts to protect and safeguard the world's cultural and natural heritage				
1	11.4.1: Total per capita expenditure on the preservation, protection and conservation of all cultural and natural heritage Source: Ministry of Culture / Periodicity: Annual	Year	Value	
		2016-17	2.32	
		2017-18	3.13	
		2018-19	3.05	
		2019-20	3.03	
		2020-21	1.93	
		2021-22	1.84	

Target 11.5: By 2030, significantly reduce the number of deaths and the number of people affected and substantially decrease the direct economic losses relative to global GDP caused by disasters, including water-related disasters, with a focus on protecting the poor and people in vulnerable situations

1	11.5.1: Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population (similar to indicators 1.5.1 and 13.1.1) <i>Source: Disaster Management Division, Ministry of Home Affairs / Periodicity: Annual</i>	Year	Value
		2015	1,4743.14
		2016	1,3706.39
		2017	1,3381.24
		2018	1,0738.97

Target 11.6: By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management

1	11.6.1: Percentage of waste processed <i>Source: Ministry of Housing and Urban Affairs / Periodicity: Annual</i>	Year	Value
		2016	17.97
		2017	23.14
		2018	28.57
		2019	53.00
		2020	65.00
		2021	68.18
		2022	73.00
		2023	76.00
		2024	78.46
2	11.6.2: Percentage of wards with 100% door to door waste collection <i>Source: Ministry of Housing and Urban Affairs / Periodicity: Annual</i>	Year	Value
		2016	43
		2017	53
		2018	74
		2019	74
		2020	96
		2021	97
		2022	98
		2023	95
		2024	97
3	11.6.3: The number of good air days when the Particulate matter level is below country standards for PM 10. <i>Source: Ministry of Environment, Forest and Climate Change / Periodicity: Annual</i>	For the year 2022 The number of good air days for 430 cities have been computed, when daily average concentration of PM10 is below 100 µg/m ³ . The city-wise data has been given in data tables.	

Target 11.7: By 2030, provide universal access to safe, inclusive and accessible, green and public spaces, in particular for women and children, older persons and persons with disabilities			
1	11.7.1: Proportion of households reporting an open space within 500 meters from premises (urban) Source: NSSO, Ministry of Statistics and Programme Implementation / Periodicity: 3 years	Under compilation	
Target 11.a: Support positive economic, social and environmental links between urban, peri-urban and rural areas by strengthening national and regional development planning			
1	11.a.1: Proportion of cities with Master plans (in %) (similar to indicator 11.3.1) Source: Ministry of Housing and Urban Affairs / Periodicity: Annual	Year	Value
		2015	25.61
		2016	33.17
		2017	34.51
		2018	34.93
		2019	34.93
		2020	35.84
		2021	39.00
		2022	37.30
Target 11.b: By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all levels			
1	11.b.1: Whether the country has adopted and implemented national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030 (similar to indicators 1.5.3 and 13.1.2) Source: Disaster Management Division, Ministry of Home Affairs / Periodicity: Annual	Year	Value
		2015	0.25
		2018	0.93
		2019 to 2023	1.00
2	11.b.2: Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies, (similar to indicators 1.5.4 and 13.1.3) Source: Disaster Management Division, Ministry of Home Affairs / Periodicity: Annual	Year	Value
		2015	0.90
		2018	0.93
		2019	0.93
		2020	0.92
		2022	0.92
		2023	0.89
Target 11.c: Support least developed countries, including through financial and technical assistance, in building sustainable and resilient buildings utilizing local materials			
National Indicator is under development			

Goal 12: Ensure sustainable consumption and production patterns

S.NO.	NATIONAL INDICATOR	VALUE OF THE INDICATOR		
Target 12.1: Implement the 10-Year Framework of programmes on Sustainable Consumption and production patterns, all countries taking action, with developed countries taking the lead, taking into account the development and capabilities of developing countries				
1	12.1.1: Number of countries with sustainable consumption and production (SCP) national action plans or SCP mainstreamed as a priority or a target into national policies Source: Ministry of Environment, Forest and Climate Change / Periodicity: Annual	Under compilation		
Target 12.2: By 2030, achieve the sustainable management and efficient use of natural resources				
National Indicator is under development				
Target 12.3: By 2030, halve per capita global food waste at the retail and consumer levels and reduce food losses along productionand supply chains, including post-harvest losses				
1	12.3.1: Per capita food availability (Kg per year per person) Source: FE, DAC&FW, Ministry of Agriculture and Farmers' Welfare / Periodicity: Annual	Year	Value	
		2018-19	176.0	
		2019-20	183.1	
		2020-21	186.8

		2017-18	0.14
		2018-19	0.13
		2019-20	0.19
		2020-21	0.20
		2021-22	0.03
		2022-23	0.03

Goal 13: Take urgent action to combat climate change and its impacts

S. NO.	NATIONAL INDICATOR	VALUE OF THE INDICATOR	
Target 13.1: Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries			
1	13.1.1: Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population (similar to indicators 1.5.1 and 11.5.1) Source: Disaster Management Division, Ministry of Home Affairs / Periodicity: Annual	Year	Value
		2015	1,4743.14
		2016	1,3706.39
		2017	1,3381.24
		2018	1,0738.97
2	13.1.2: Whether the country has adopted and implemented national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, (similar to indicators 1.5.3 and 11.b.1) Source: Disaster Management Division, Ministry of Home Affairs / Periodicity: Annual	Year	Value
		2015	0.25
		2018	0.93
		2019 to 2023	1.00
3	13.1.3: Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies, (similar to indicators 1.5.4 and 11.b.2) Source: Disaster Management Division, Ministry of Home Affairs / Periodicity: Annual	Year	Value
		2015	0.90
		2018	0.93
		2019	0.93
		2020	0.92
		2022	0.92
		2023	0.89
Target 13.2: Integrate climate change measures into national policies, strategies and planning.			
1	13.2.1: Whether the country has nationally determined contributions and long-term strategies, as reported to the secretariat of the United Nations Framework Convention on Climate Change Source: Ministry of Environment, Forest and Climate Change / Periodicity: Annual	Yes	
2	13.2.2: Pre-2020 action: Achievement of pre-2020 goals as per country priority (percentage reduction in emission intensity of GDP, over 2005 level) Source: Ministry of Environment, Forest and Climate Change / Periodicity: Annual	24	
3	13.2.3: Percentage of industries complying with environmental standards Source: CPCB, Ministry of Environment, Forest and Climate Change / Periodicity: Annual	Year	Value
		2018	86.25
		2019	91.71
		2020	91.79
		2021	91.27
		2022	88.99
		2023	90.33

Target 13.3: Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning

1	13.3.1: Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment (Similar to Indicators 4.7.1 and 12.8.1) <i>Source: Department of School Education and Literacy, Ministry of Education /Periodicity: Annual</i>	For 2020	
		Area	Value
		Policy	1.00
		Curricula	0.92
		Teacher Education	0.95
		Student Assessment	1.00

Target 13.a: Implement the commitment undertaken by developed-country parties to the United Nations Framework Convention on Climate Change to a goal of mobilizing jointly USD 100 billion annually by 2020 from all sources to address the needs of developing countries in the context of meaningful mitigation actions and transparency on implementation and fully operationalize the Green Climate Fund through its capitalization as soon as possible

The target is not relevant in the national context

Target 13.b: promote mechanisms for raising capacity for effective climate change-related planning and management in least developed countries and small island developing States, including focusing on women, youth and local and marginalized communities

The target is not relevant in the national context

Goal 14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development

S.NO.	NATIONAL INDICATOR	VALUE OF THE INDICATOR	
Target 14.1: By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities,including marine debris and nutrient pollution			
1	14.1.1: Coastal Water Quality Index Source: Ministry of Earth Sciences / Periodicity: Annual	Year	Value
		2015-16	Out of 9 Coastal States,Number of States in the category of: Moderate = 7 Good = 2
		2020-21	Out of 9 Coastal States,Number of States in the category of: Moderate = 9 Good = 0
		2021-22	Out of 8 Coastal States,Number of States in the category of: i) Moderate =7 ii) Good =1
		2022-23	Out of 13 Coastal States/UTs, Number of States/UTs in the category of: i) Moderate =8 ii) Good =3 iii) Very Good= 2
		2023-24	Out of 12 Coastal States/UTs, Number of States/UTs in the category of: i) Moderate =10 ii) Good =2
2	14.1.2: Percentage use of nitrogenous fertilizer to total fertilizer (N, P & K) Source: INM, DAC&FW, Ministry of Agriculture and Farmers' Welfare / Periodicity: Annual	Year	Value
		2015-16	64.94
		2016-17	64.49
		2017-18	63.77
		2018-19	64.39
		2019-20	65.04
		2020-21	62.71
		2021-22	65.24
		2022-23	67.71
		2023-24	66.76
Target 14.2: By 2020, sustainably manage and protect marine and coastal ecosystems to avoid significant adverse impacts, including by strengthening their resilience, and take action for their restoration in order to achieve healthy and productive oceans			
1	14.2.1: Percentage change in area under mangroves (similar to indicator 14.5.2) Source: Ministry of Environment, Forest and Climate Change / Periodicity: 2 Years	Year	Value
		2013-15	2.43
		2015-17	3.82
		2017-19	1.10
		2019-21	0.34
2	14.2.2: Percentage of coastal marine protected areas in relation to Territorial Seas (Similar to indicator 14.5.1) Source: Ministry of Environment, Forest and Climate Change / Periodicity: 2 Years	Year	Value
		2020	5.47
		2022	4.60

Target 14.3: Minimize and address the impacts of ocean acidification, including through enhanced scientific cooperation at all levels

1	14.3.1: Average marine acidity (pH) measured at agreed site of representative sampling stations <i>Source: Ministry of Earth Sciences / Periodicity: Annual</i>	Year	Number of sites having average pH value (coastal waters)
		2019-20	Less than 8: 4 Greater than 8: 12
		2020-21	Less than 8: 10 Greater than 8: 44
		2021-22	Less than 8: 8 Greater than 8: 54
		2022-23	Less than 8: 18 Greater than 8: 47
		2023-24	Less than 8: 14 Greater than 8: 34

Target 14.4: By 2020, effectively regulate harvesting and end overfishing, illegal, unreported and unregulated fishing and destructive fishing practices and implement science-based management plans, in order to restore fish stocks in the shortest timefeasible, at least to levels that can produce maximum sustainable yield as determined by their biological characteristics

1	14.4.1: Maximum Sustainable Yield (MSY) in fishing, (in Million Tonne /Year) <i>Source: Department of Fisheries, Ministry of Animal Husbandry, Dairying & Fisheries /Periodicity: Annual</i>	Year	Value
		2015-16	3.078
		2016-17	3.078
		2017-18	5.311
		2018-19	5.311
		2019-20	5.311
		2020-21	5.311
		2021-22	5.311
		2022-23	5.311
		2023-24	5.311

Target 14.5: By 2020, conserve at least 10 per cent of coastal and marine areas, consistent with national and international law andbased on the best available scientific information

1	14.5.1: Percentage of coastal marine protected areas in relation to Territorial Seas (Similar to indicator 14.2.2) <i>Source: Ministry of Environment, Forest and Climate Change / Periodicity: 2 Years</i>	Year	Value
		2020	5.47
		2022	4.60
2	14.5.2: Percentage change in area under mangroves (similar to indicator 14.2.1) <i>Source: Ministry of Environment, Forest and Climate Change / Periodicity :2 years</i>	Year	Value
		2013-15	2.43
		2015-17	3.82
		2017-19	1.10
		2019-21	0.34

Target 14.6: By 2020, prohibit certain forms of fisheries subsidies which contribute to overcapacity and overfishing, eliminate subsidies that contribute to illegal, unreported and unregulated fishing and refrain from introducing new such subsidies, recognizing that appropriate and effective special and differential treatment for developing and least developed countries should be an integral part of the World trade Organization fisheries subsidies negotiation

National Indicator is under development

Target 14.7: By 2030, increase the economic benefits to small island developing States and least developed countries from the sustainable use of marine resources, including through sustainable management of fisheries, aquaculture and tourism

National Indicator is under development

Target 14.a: Increase scientific knowledge, develop research capacity and transfer marine technology, taking into account the Intergovernmental oceanographic Commission Criteria and Guidelines on the transfer of Marine technology, in order to improve ocean health and to enhance the contribution of marine biodiversity to the development of developing countries, in particular small island developing States and least developed countries

1	14.a.1: Allocation of budget resources (Budget Estimates) for Ocean Services, Modelling, Applications, Resources and Technology (OSMART) scheme (in Rs.crore) <i>Source: Ministry of Earth Sciences / Periodicity: Annual</i>	Year	Value
		2019-20	445
		2020-21	567
		2021-22	528.59
		2022-23	498.95
		2023-24	460

Target 14.b: provide access for small-scale artisanal fishers to marine resources and markets

1	14.b.1: Assistance to the traditional/artisanal fishers for procurement of FRP boats and other associated fishing implements, (in Number & in Rs. lakh) <i>Source: Department of Fisheries, Ministry of Animal Husbandry, Dairying & Fisheries / Periodicity: Annual</i>	Year	Boats	Project Cost
		2016-17	259	1,098.25
		2017-18	285	1,012.5
		2018-19	560	1,930
		2019-20	110	500
		2020-21	1851	7755
		2021-22	1358	6790
		2022-23	2266	8409.05
		2023-24	1023	1373.85

Target 14.c: Enhance the conservation and sustainable use of oceans and their resources by implementing international law as reflected in the United Nations Convention on the Law of the Sea, which provides the legal framework for the conservation and sustainable use of oceans and their resources, as recalled in paragraph 158 of "the future we want"

1	14.c.1: Compliance of international laws <i>Source: Ministry of Earth Sciences / Periodicity: Annual</i>	Yes
---	---	-----

Goal 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

S.NO.	NATIONAL INDICATOR	VALUE OF THE INDICATOR			
Target 15.1: By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and dry lands, in line with obligations under international agreement					
1	15.1.1: Forest cover as a percentage of total geographical area Source: Ministry of Environment, Forest and Climate Change / Periodicity: 2 Years	Year	Value		
		2015	21.34		
		2017	21.54		
		2019	21.67		
		2021	21.71		
2	15.1.2: Protected area as percentage of total geographical area Source: Ministry of Environment, Forest and Climate Change / Periodicity: Annual	Year	Value		
		2015	5.14		
		2016	5.18		
		2017	5.18		
		2018	5.27		
		2019	5.27		
		2020	5.33		
		2021	5.33		
		2022	5.42		
		2023	5.43		
3	15.1.3: Area of Ramsar sites as a percentage of total wetland area Source: Ministry of Environment, Forest and Climate Change / Periodicity: Annual	Year	Value		
		2016	4.15		
		2017	4.15		
		2018	4.15		
		2019	7.00		
		2020	7.09		
		2021	7.14		
		2022	8.69		
		2023	8.73		
Target 15.2: By 2020, promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally					
1	15.2.1: Progress towards sustainable forest management Source: FSI, Ministry of Environment, Forest and Climate Change / Periodicity: 2 Years	Component	Value		
			2017	2019	2021
		Net change in area under forest and tree cover (sq.km.)	6678/1243	3976/1212	1540/721
		Above-ground biomass in forest	2237549	2256533	2319910
		Proportion of geographical area under legally established protected areas (in %)	4.93	5.01	5.26
		Proportion of forest and protected area under a long-term management plan	-	-	-

2	15.2.2: Percentage change in carbon stock in forest cover	Year	Value
	Source: FSI, Ministry of Environment, Forest and Climate Change / Periodicity: 2 Years	2019	0.6017
		2021	1.1112
Target 15.3: By 2030, combat desertification, restore degraded land and soil, including land affected by desertification, drought and floods, and strive to achieve a land degradation-neutral world			
1	15.3.1: Proportion of land that is degraded over total land area (in %)	Year	Value
	Source: National Remote Sensing Centre (NRSC), Department of Space / Periodicity: 5 Years	2015-16	27.77
Target 15.4: By 2030, ensure the conservation of mountain ecosystems, including their biodiversity, in order to enhance their capacity to provide benefits that are essential for sustainable development			
1	15.4.1: Percentage change in forest cover in hill districts Source: Ministry of Environment, Forest and Climate Change / Periodicity: 2 Years	Year	Value
		2013-15	0.60
		2015-17	0.16
		2017-19	0.19
		2019-21	-0.32
2	15.4.2: Percentage change in per capita income of Himalayan States over previous year Source: National Accounts Division, NSO, Ministry of Statistics and Programme Implementation / Periodicity: Annual	Year	Value
		2015-16	10.77
		2016-17	9.91
		2017-18	15.00
		2018-19	7.81
		2019-20	9.42
		2020-21	-3.79
		2021-22	13.64
Target 15.5: Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity and, by 2020, protect and prevent the extinction of threatened species			
1	15.5.1: Red List Index Source: Ministry of Environment, Forest and Climate Change / Periodicity: Annual	Year	Value
		2017	0.62
Target 15.6: promote fair and equitable sharing of the benefits arising from the utilization of genetic resources and promote appropriate access to such resources, as internationally agreed			
1	15.6.1: Whether country has adopted legislative, administrative and policy frameworks to ensure fair and equitable sharing of benefits Source: Ministry of Environment, Forest and Climate Change and Ministry of Agriculture and Farmers Welfare / Periodicity: Annual	From 2021 onwards	
		Component	Response
		Whether the Country is a contracting Party to the International Treaty on Plant Genetic Resources for Food and Agriculture	Yes
		Whether the Country is a party to the Nagoya Protocol	Yes
		Whether country has legislative, administrative and policy framework or measures reported through the Online Reporting System on Compliance of the International Treaty on Plant Genetic Resources for Food and Agriculture	Yes
Whether the Country has legislative, administrative and policy framework or measures reported to the Access and Benefit-Sharing Clearing-House	Yes		

Target 15.7: Take urgent action to end poaching and trafficking of protected species of flora and fauna and address both demand and supply of illegal wildlife products			
1	15.7.1: Number of cases registered under the Wildlife Protection Act, 1972 (similar to indicator 15.c.1)	Year	Value
	Source: Ministry of Environment, Forest and Climate Change / Periodicity: Annual	2015	698
		2016	565
		2017	342
		2018	207
		2019	296
		2020	406
		2021	632
		2022	554
		2023	296
Target 15.8: By 2020, introduce measures to prevent the introduction and significantly reduce the impact of invasive alien species on land and water ecosystems and control or eradicate the priority species			
1	15.8.1: Whether the country has adopted relevant national legislation and adequately resourcing the prevention or control of invasive alien species Source: Ministry of Environment, Forest and Climate Change / Periodicity: Annual	Yes	
Target 15.9: By 2020, integrate ecosystem and biodiversity values into national and local planning, development processes, poverty reduction strategies and accounts			
1	15.9.1 (a) Progress towards national targets established in accordance with Aichi Biodiversity Target 2 of the Strategies Plan for Biodiversity, 2011-2020; (b) Integration of biodiversity into national accounting and reporting systems, defined as implementation of the System of Environmental-Economic Accounting Source: (a) Ministry of Environment, Forest and Climate Change (b) Ministry of Statistics and Programme Implementation / Periodicity: Annual	(a) National target exists and progress is on track for achievement	
Target 15.a: Mobilize and significantly increase financial resources from all sources to conserve and sustainably use biodiversity and ecosystems			
National Indicator is under development			
Target 15.b: Mobilize significant resources from all sources and at all levels to finance sustainable forest management and provide adequate incentives to developing countries to advance such management, including for conservation and reforestation			
1	15.b.1: Percentage of government spending on environmental protection to total government expenditure Source: National Accounts Division, NSO, Ministry of Statistics and Programme Implementation / Periodicity: Annual	Year	Value
		2015-16	0.05
		2016-17	0.04
		2017-18	0.06
		2018-19	0.09
		2019-20	0.07
		2020-21	0.06
		2021-22	0.07
		2022-23	0.08

Target 15.c: Enhance global support for efforts to combat poaching and trafficking of protected species, including by increasing the capacity of local communities to pursue sustainable livelihood opportunities

1	15.c.1: Number of cases registered under the Wildlife Protection Act, 1972 (similar to indicator 15.7.1) <i>Source: Ministry of Environment, Forest and Climate Change / Periodicity: Annual</i>	Year	Value
		2015	698
		2016	565
		2017	342
		2018	207
		2019	296
		2020	406
		2021	632
		2022	554
		2023	296

Goal 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

S.NO.	NATIONAL INDICATOR	VALUE OF THE INDICATOR	
Target 16.1: Significantly reduce all forms of violence and related death rates everywhere			
1	16.1.1: Number of victims of intentional homicide per 1,00,000 population Source: National Crime Records Bureau, Ministry of Home Affairs / Periodicity: Annual	Year	Value
		2015	2.63
		2016	2.47
		2017	2.34
		2018	2.28
		2019	2.24
		2020	2.23
		2021	2.20
		2022	2.13

		2022-23	2.42	0.033
		2023-24	2.64	0.017

Target 17.7: promote the development, transfer, dissemination and diffusion of environmentally sound technologies to developing countries on favourable terms, including on concessional and preferential terms, as mutually agreed

National Indicator is under development

Target 17.8: Fully operationalize the technology bank and science, technology and innovation capacity-building mechanism for least developed countries by 2017 and enhance the use of enabling technology, in particular information and communications technology

National Indicator is under development

Target 17.9: Enhance international support for implementing effective and targeted capacity-building in developing countries to support national plans to implement all the Sustainable Development Goals, including through north-south, south-south and triangular cooperation

National Indicator is under development

Target 17.10: promote a universal, rules-based, open, non-discriminatory and equitable multilateral trading system under the Worldtrade organization, including through the conclusion of negotiations under its Doha Development agenda

National Indicator is under development

Target 17.11: Significantly increase the exports of developing countries, in particular with a view to doubling the least developedcountries' share of global exports by 2020

1	17.11.1: Share of India's exports in Global exports, (in percentage) <i>Source: DGFT, Ministry of Commerce & Industry / Periodicity: Annual</i>	Year	Merchandise	Commercial Services
		2015	1.62	3.27
		2016	1.65	3.35
		2017	1.68	3.47
		2018	1.67	3.54
		2019	1.71	3.52
		2020	1.57	4.12
		2021	1.77	4.00
		2022	1.80	4.40

Target 17.12: Realize timely implementation of duty-free and quota-free market access on a lasting basis for all least developedcountries, consistent with World trade organization decisions, including by ensuring that preferential rules of origin applicable toimports from least developed countries are transparent and simple, and contribute to facilitating market access

National Indicator is under development

Target 17.13: Enhance global macroeconomic stability, including through policy coordination and policy coherence

1	17.13.1: Macroeconomic Dashboard <i>Source: Ministry of Finance / Periodicity: Annual</i>	Yes

Metadata

SDG 1 Metadata: National Indicator 1.2.1

Goal	1: End poverty in all its forms everywhere
Target	1.2: By 2030, reduce at least by half the proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions
Indicator	1.2.1: Proportion of population living below the national poverty line
Data Source Ministry	NITI Aayog
Department/Division	-
Description of Indicator	The rural poverty rate is the percentage of the rural population living below the rural national poverty line. Similarly, urban poverty rate is the percentage of the urban population living below the urban national poverty line. The levels of poverty are estimated on the basis of consumer expenditure surveys conducted by the National Statistical Office, Ministry of Statistics and Programme Implementation. The poverty line is as per the recommendation of Tendulkar Committee Report. As per Tendulkar Committee methodology, the poverty line has been expressed in terms of Monthly Per Capita Expenditure (MPCE) based on Mixed Reference Period.
Computation	Numerator: Total population (rural/urban) living below the national (rural/urban) poverty line Denominator: Total population (rural/urban) during the reference period Multiplier: 100
Unit of Measurement	Percent
Periodicity	5 Years
Level of Disaggregation	State/UT
Type of Disaggregation	Geographical location (rural/urban)
Mapping with Global Indicator	Exact match with GIF 1.2.1
References	Data is available on the website http://niti.gov.in

SDG 1 Metadata: National Indicator 1.2.2

Goal	1: End poverty in all its forms everywhere
Target	1.2: By 2030, reduce at least by half the proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions
Indicator	1.2.2: Proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions
Data Source Ministry	NITI Aayog
Department/Division	-
Description of Indicator	The proportion of men, women and children of all ages living in poverty in all its dimensions or the incidence of poverty is the proportion of multidimensionally poor individuals in the total population.
Computation	Numerator: Total number of multidimensionally poor individuals identified Denominator: Total population during the reference period Multiplier: 100
Unit of Measurement	Percent
Periodicity	3 Years
Level of Disaggregation	State/UT
Type of Disaggregation	Geographical location (rural/urban)
Mapping with Global Indicator	Partial match with GIF 1.2.2

SDG 1 Metadata: National Indicator 1.3.1	
Goal	1: End poverty in all its forms everywhere
Target	1.3: Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable
Indicator	1.3.1: Percentage of households with any usual member covered by a health scheme or health insurance
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	The indicator is defined as the ratio of number of households in a geographic location in which at least one usual member is covered by a health scheme or health insurance at a given period of time to the number of households in the geo-graphic location during same period. Data is collected in National Health Family Survey (NFHS).
Computation	Numerator: Number of households in which at least one usual member is covered by a health scheme or health insurance during survey period Denominator: Total estimated number of households during same period Multiplier: 100
Unit of Measurement	Percent
Periodicity	3 years
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Partial match with GIF 1.3.1
References	Data is available on the website http://rchiips.org/nfhs

SDG 1 Metadata: National Indicator 1.3.2	
Goal	1: End Poverty in all its form everywhere
Target	1.3: Implement nationally extra space appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable
Indicator	1.3.2: Number of beneficiaries under Integrated Child Development Scheme - ICDS
Data Source Ministry	Ministry of Women and Child Development
Department/Division	-
Description of Indicator	The indicator is defined as number of registered beneficiaries under Integrated Child Development Scheme. The ICDS is a centrally sponsored scheme which inter alia provides food, pre-school education and primary healthcare to children less than 6 years of age and their mothers.
Computation	Numerator: Number of total Children (6 months - 6 years) and Pregnant & lactating Mothers getting benefit under ICDS during the period Denominator: Nil Multiplier: Nil
Unit of Measurement	Number
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-

SDG 1 Metadata: National Indicator 1.3.3

Goal	1: End Poverty in all its form everywhere
Target	1.3: Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable
Indicator	1.3.3: Persons offered employment as a percentage of persons who demanded employment under Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA)
Data Source Ministry	Ministry of Rural Development
Department/Division	Department of Rural Development
Description of Indicator	The indicator refers to the number of persons who were offered employment under MGNREGA in proportion to the persons who demanded employment under the scheme. The Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA) was enacted on August 25, 2005. The MGNREGA provides a legal guarantee for 100 days of employment in every financial year to adult members of any rural household willing to do public work-related unskilled manual work at the statutory minimum wage.
Computation	Numerator: Number of persons offered employment under MGNREGA during the reference year Denominator: Number of persons who demanded employment under MGNREGA during the reference year Multiplier: 100
Unit of Measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-

SDG 1 Metadata: National Indicator 1.3.4

Goal	1: End Poverty in all its form everywhere
Target	1.3: Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable
Indicator	1.3.4: Number of Self Help Groups (SHGs) provided bank credit linkage
Data Source Ministry	Ministry of Finance
Department/Division	National Bank for Agriculture and Rural Development
Description of Indicator	The indicator is defined as number of Self Help Groups (SHGs) to which bank credit linkage was provided during the reference year.
Computation	Numerator: Total Number of SHGs extended loans during reference year Denominator: Nil Multiplier: Nil
Unit of Measurement	Number
Periodicity	Annual
Level of Disaggregation	-

SDG 1 Metadata: National Indicator 1.3.5	
Goal	1: End Poverty in all its form everywhere
Target	1.3: Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable
Indicator	1.3.5: Proportion of the population (out of total eligible population) receiving social protection benefits under Pradhan Mantri Matritva Vandana Yojana (PMMVY)
Data Source Ministry	Ministry of Women and Child Development
Department/Division	-
Description of Indicator	The indicator refers to number of beneficiaries getting benefit under Pradhan Mantri Matritva Vandana Yojana (PMMVY) expressed as percentage of total beneficiaries enrolled. The Maternity Benefit Programme PMMVY is implemented in all the districts of the country since 01.01.2017. Under PMMVY, a cash incentive of Rs. 5000/- is provided directly to the Bank / Post Office Account of Pregnant Women and Lactating Mothers (PW&LM) for first living child of the family subject to fulfilling specific conditions relating to Maternal and Child Health.
Computation	Numerator: Total number of beneficiaries paid under PMMVY during the reference year Denominator: Total number of beneficiaries enrolled under PMMVY during the reference year Multiplier: 100
Unit of Measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-

SDG 1 Metadata: National Indicator 1.3.6	
Goal	1: End Poverty in all its form everywhere
Target	1.3: Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable
Indicator	1.3.6: Number of senior citizens provided institutional assistance through Senior Citizen Homes/DayCare Centers funded by the Government
Data Source Ministry	Ministry of Social Justice and Empowerment
Department/Division	Department of Social Justice and Empowerment
Description of Indicator	The indicator addresses the component of senior citizen beneficiaries and number of senior citizen homes / day care centers leading to relevant and effective outcomes.
Computation	Numerator: Number of beneficiaries (classified as senior citizens i.e. population of or above the age of 60 years) in senior citizen's homes/day care centers funded by Government of India Denominator: Nil Multiplier: Nil
Unit of Measurement	Number
Periodicity	Annual
Level of Disaggregation	State/UT

SDG 1 Metadata: National Indicator 1.3.8

Goal	1: End Poverty in all its form everywhere
Target	1.3: Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable
Indicator	1.3.8: Coverage of New Pension Scheme (NPS)
Data Source Ministry	Ministry of Finance
Department/Division	PFRDA
Description of Indicator	National Pension System (NPS) is a voluntary, defined contribution retirement savings scheme designed to enable the subscribers to make optimum decisions regarding their future through systematic savings during their working life. An individual fulfilling the following eligibility criteria can voluntarily join in NPS: a) Should be an Indian Citizen (resident or non-resident) or an overseas Citizen of India (OCI) b) Should be aged between 18-70 years c) Compliance of Know Your Customer (KYC)
Computation	Number of NPS Subscriber has been taken for this indicator.
Unit of Measurement	Number
Periodicity	Annual

SDG 1 Metadata: National Indicator 1.4.1

Goal	1: End Poverty in all its form everywhere
Target	1.4: By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financial services, including microfinance
Indicator	1.4.1: Proportion of population living in households with access to basic services
Data Source Ministry	Ministry of Health and Family Welfare, Ministry of Education, Ministry of Jal Shakti, Ministry of Petroleum and Natural Gas, Ministry of Communications, Ministry of Housing and Urban Affairs
Department/Division	-
Description of Indicator	The basic service are those services that meet human basic needs like drinking water, sanitation, hygiene, energy, mobility, waste collection, health care, education etc. The indicator is based on different components of basic services which are captured through 6 standalone indicators under different SDG targets.
Computation	This indicator is combination of national indicators 3.8.1, 4.1.1, 6.1.1, 6.2.1, 7.1.2, 9.c.1 and 11.6.1. The data on these indicators are available under respective SDGs and associated targets.
Unit of Measurement	-
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-

SDG 1 Metadata: National Indicator 1.5.1

Goal	1: End poverty in all its forms everywhere
Target	1.5: By 2030, build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters
Indicator	1.5.1: Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population (similar to 11.5.1 and 13.1.1)
Data Source Ministry	Ministry of Home Affairs
Department/Division	Disaster Management Division (DMD)
Description of Indicator	This indicator measures the number of people who died, went missing or were directly affected by disasters per 100,000 population.
Computation	Numerator: Number of deaths + Number of missing persons + Number of directly affected people attributed to disasters Denominator: Population Multiplier: 100,000
Unit of Measurement	Number
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 1.5.1
References	-

SDG 1 Metadata: National Indicator 1.5.3

Goal	1: End poverty in all its forms everywhere
Target	1.5: By 2030, build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters
Indicator	1.5.3: Whether the country has adopted and implemented national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, (similar to 11.b.1 and 13.1.2)
Data Source Ministry	Ministry of Home Affairs
Department/Division	Disaster Management Division (DMD)
Description of Indicator	National and local disaster risk reduction strategies should be based on, and aligned with, the guiding principles, scope, outcomes, and strategic priorities of the Sendai Framework, and in particular Paragraph 27 (b) which identifies that strategies should be adopted and implemented.
Computation	National average score for the adoption and implementation of national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030 is calculated on the basis of a set of questions.
Unit of Measurement	-
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 1 Metadata: National Indicator 1.5.4

Goal	1: End poverty in all its forms everywhere
Target	1.5: By 2030, build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters
Indicator	1.5.4: Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies (similar to 11.b.2 and 13.1.3)
Data Source Ministry	Ministry of Home Affairs
Department/Division	Disaster Management Division (DMD)
Description of Indicator	The indicator is defined as the percentage of districts that have adopted and implemented local Disaster Risk Reduction (DRR) strategies in line with national strategies out of total number of districts in the country during the reference period.
Computation	Numerator: Number of districts that have adopted and implemented local DRR strategies in line with national strategies Denominator: Total number of districts Multiplier: 100
Unit of Measurement	Proportion
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 1.5.4

SDG 1 Metadata: National Indicator 1.a.2

Goal	1: End Poverty in all its form everywhere
Target	1.a: Ensure significant mobilization of resources from a variety of sources, including through enhanced development cooperation, in order to provide adequate and predictable means for developing countries, in particular least developed countries, to implement programmes and policies to end poverty in all its dimensions
Indicator	1.a.2: Proportion of total government spending on essential services (education, health and social protection)
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	The indicator is defined as percentage of government spending on essentials services, which include current expenditure, capital expenditure, loan & advances and net investment in stock out of total government expenditures during reference year.
Computation	Numerator: Government expenditures on essential services (education, health and social protection) during reference year Denominator: Government total expenditures during reference year Multiplier: 100
Unit of Measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 1.a.2
References	Data is available on the website http://www.mospi.gov.in

SDG 1 Metadata: National Indicator 1.b.1

Goal	1: End Poverty in all its form everywhere
Target	1.b: Create sound policy frameworks at the national, regional and international levels, based on pro-poor and gender-sensitive development strategies, to support accelerated investment in poverty eradication actions.
Indicator	1.b.1: Proportion of budget earmarked under gender budget
Data Source Ministry	Ministry of Women and Child Development
Department/Division	-
Description of Indicator	The indicator is defined as percentage allocation of gender budget out of total budget allocation during the reference year.
Computation	Numerator: Gender budget allocation during reference year Denominator: Total budget allocation during reference year Multiplier: 100
Unit of Measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 2 Metadata: National Indicator 2.1.1

Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.1: By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round
Indicator	2.1.1: Percentage of children aged under 5 years who are underweight
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	This indicator is defined as the percentage of children under 5 years of age (i.e. 0 - 59 months) whose weight-for-age is below minus 2 times standard deviations of the WHO Child Growth Standards median. Data is collected in NFHS.
Computation	Numerator: Children aged 0-59 months who are underweight Denominator: Number of children in age group 0-59 months Multiplier: 100
Unit of measurement	Percent
Periodicity	3 years
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 2: Metadata: National Indicator 2.1.2

Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.1: By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, including infants, to safe, nutritious and sufficient food all year round
Indicator	2.1.2: Proportion of beneficiaries covered under National Food Security Act 2013
Data Source Ministry	Ministry of Consumer Affairs, Food and Public Distribution
Department/Division	Department of Food and Public Distribution (NFSA Division)
Description of Indicator	The indicator is defined as number of families/persons identified under NFSA as percentage of accepted number of persons covered under NFSA.
Computation	Numerator: Families/persons identified under NFSA Denominator: Accepted number of persons covered under NFSA Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 2 Metadata: National Indicator 2.2.1	
Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.2: By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons
Indicator	2.2.1: Percentage of children under age 5 years who are stunted
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	This indicator is defined as percentage of children aged 0-59 months who are stunted (short for age i.e. children whose height-for-age is below minus 2 times standard deviation from the WHO Child Growth Standards median).
Computation	Numerator: Stunted children aged 0-59 months Denominator: Total number of children age 0-59 months whose height is measured Multiplier: 100
Unit of measurement	Percent
Periodicity	3 years
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 2.2.1

SDG 2 Metadata: National Indicator 2.2.2	
Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.2: By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons
Indicator	2.2.2: Prevalence of malnutrition among children under 5 years of age, by type (wasting and overweight)
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	This indicator is defined as percentage of Children aged 0-59 months who are wasted (children whose weight-for-height is below minus - 2 times standard deviation of the WHO Child Growth Standards median) and overweight (children whose weight-for-height is above 2 times standard deviation of the WHO Child Growth Standards median).
Computation	Numerator: Number of wasted/overweight children aged 0-59 months Denominator: Number of children aged 0-59 months whose weight is measured Multiplier: 100
Unit of measurement	Percent
Periodicity	3 years
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 2.2.2

SDG 2 Metadata: National Indicator 2.2.3

Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.2: By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons
Indicator	2.2.3 Prevalence of anaemia in women aged 15 to 49 years, by pregnancy status (percentage)
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	This indicator is defined as percentage of pregnant, non- pregnant and total women age 15-49 years who are anaemic. Data is collected in NFHS.
Computation	Numerator: Number of pregnant/non-pregnant/total women aged 15-49 years who are anemic by pregnancy status Denominator: Number of pregnant/non-pregnant/total women aged 15-49 years whose Hb level is measured Multiplier: 100
Unit of measurement	Percent
Periodicity	3 years
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 2.2.3

SDG 2 Metadata: National Indicator 2.2.4

Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.2: By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons
Indicator	2.2.4 : Percentage of women whose Body Mass Index (BMI) is below normal
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	The Body Mass Index (BMI) is defined as the body mass divided by the square of the body height and is universally expressed in units of kg/sq. meter. Data is collected under NFHS.
Computation	Numerator: Number of women aged 15-49 years with BMI <18.5kg/sq. meter Denominator: Total number of women aged 15-49 years whose height and weight are measured Multiplier: 100
Unit of measurement	Percent
Periodicity	3 years
Level of Disaggregation	State/UT
Type of Disaggregation	-

SDG 2 Metadata: National Indicator 2.2.5	
Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.2: By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons
Indicator	2.2.5: Percentage of children age 6-59 months who are anaemic (Hb<11.0 g/dl)
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	This indicator is defined as percentage of children aged 6-59 months who are anaemic (Hb<11.0 gram per deciliter) Data is collected in NFHS.
Computation	Numerator: Number of anaemic children aged 6-59 months Denominator: Number of children aged 6-59 months whose Haemoglobin level is measured Multiplier: 100
Unit of measurement	Percent
Periodicity	3 years
Level of Disaggregation	State/UT
Type of Disaggregation	-

SDG 2 Metadata: National Indicator 2.3.1	
Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.3: By 2030, double the agricultural productivity and incomes of small-scale food producers, in particular women, indigenous peoples, family farmers, pastoralists and fishers, including through secure and equal access to land, other productive resources and inputs, knowledge, financial services, markets and opportunities for value addition and non-farm employment
Indicator	2.3.1: Agriculture productivity of wheat and rice
Data Source Ministry	Ministry of Agriculture and Farmers' Welfare
Department/Division	AS Division, DAC&FW
Description of Indicator	The indicator is defined as the total production of wheat and rice per area under its cultivation.
Computation	Numerator: Production of wheat/rice Denominator: Area under wheat/rice cultivation Multiplier: 100
Unit of measurement	Kg per hectare
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 2 Metadata: National Indicator 2.3.2	
Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.3: By 2030, double the agricultural productivity and incomes of small-scale food producers, in particular women, indigenous peoples, family farmers, pastoralists and fishers, including through secure and equal access to land, other productive resources and inputs, knowledge, financial services, markets and opportunities for value addition and non-farm employment.
Indicator	2.3.2: Gross Value Added in Agriculture per worker
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	The indicator is defined as the gross value added in Agriculture and Allied sectors (at constant price) per agricultural workers.
Computation	Numerator: GVA in Agriculture and Allied sectors (at constant price) Denominator: Total number of agricultural workers Multiplier: NIL
Unit of measurement	Rs. Per Worker
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 2 Metadata: National Indicator 2.3.3	
Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.3: By 2030, double the agricultural productivity and incomes of small-scale food producers, in particular women, indigenous peoples, family farmers, pastoralists and fishers, including through secure and equal access to land, other productive resources and inputs, knowledge, financial services, markets and opportunities for value addition and non-farm employment
Indicator	2.3.3: Ratio of institutional Credit to Agriculture to the Agriculture output
Data Source Ministry	Numerator: Ministry of Agriculture and Farmers' Welfare Denominator: Ministry of Statistics and Programme Implementation
Department/Division	Numerator: Ministry of Agriculture and Farmers' Welfare Denominator: National Accounts Division, National Statistical Office
Description of Indicator	The indicator measures flow of institutional credits to farm sector of agriculture. It is ratio of agriculture credits to agriculture Gross Value Output (GVO). The indicator which is the ratio of Agri Credit to Agriculture Gross Value Output (GVO), indicates the intensity of credit in agriculture. Higher the level of development, higher the intensity expected. Agriculture Credit: The agriculture credit can be broadly classified on the basis of tenure of loans: Short-Term Crop/Agri Loans and Agriculture Term Loans
Computation	Numerator: Institutional credit to agriculture sector during Financial Year Denominator: Agricultural Output Multiplier: NIL
Unit of measurement	Ratio
Periodicity	Annual
Level of Disaggregation	-

SDG 2 Metadata: National Indicator 2.4.1	
Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.4: By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality
Indicator	2.4.1: Proportion of Net Sown Area to Cultivable land
Data Source Ministry	Ministry of Agriculture and Farmers' Welfare
Department/Division	SDDS, DAC&FW
Description of Indicator	It is percentage increase in Net Sown Area to Cultivable land.
Computation	Numerator: Total Net Sown Area Denominator: Total Cultivable Land Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 2: Metadata: National Indicator 2.4.2	
Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.4: By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality
Indicator	2.4.2: Percentage of farmers issued Soil Health Card
Data Source Ministry	Ministry of Agriculture and Farmers' Welfare
Department/Division	INM, DAC&FW
Description of Indicator	The indicator is percentage of farmers issued with soil health cards during the reference year. Soil Health Card is field specific detailed report of soil fertility and other important soil parameters that affect crop productivity. Besides soil health, it also provides an advisory on soil test based use of fertilizers and amendments.
Computation	Numerator: Number of Soil Health Cards issued to farmers during the year Denominator: Number of targeted farmers to be issued Soil Health Card during the year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 2 Metadata: National Indicator 2.4.3	
Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.4: By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality
Indicator	2.4.3: Percentage of net area under organic farming
Data Source Ministry	Ministry of Agriculture and Farmers' Welfare
Department/Division	INM, DAC&FW
Description of Indicator	National Program for Organic Production (NPOP) provides policies for: a) development and certification of organic products, and national standards for organic products b) accreditation of certification bodies and certification of organic products in conformity to the national standards c) encourage the development of organic cultivation and processing.
Computation	Numerator: Area under organic farming (as registered under National Programme for Organic Production certification process) Denominator: Net sown area under crops Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-

SDG 2 Metadata: National Indicator 2.5.1	
Goal	2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.5 By 2020, maintain the genetic diversity of seeds, cultivated plants and farmed and domesticated animals and their related wild species, including through soundly managed and diversified seed and plant banks at the national, regional and international levels, and promote access to and fair and equitable sharing of benefits arising from the utilization of genetic resources and associated traditional knowledge, as internationally agreed
Indicator	2.5.1: Number of (a) plant and (b) animal genetic resources for food and agriculture secured in either medium- or long-term conservation facilities
Data Source Ministry	Ministry of Agriculture and Farmers' Welfare
Department/Division	Indian Council of Agricultural Research
Description of Indicator	The conservation of plant and animal Genetic Resources for Food and Agriculture (GRFA) in medium or long term conservation facilities (ex situ, in gene banks) represents the most trusted means of conserving genetic resources worldwide. Plant and animal GRFA conserved in these facilities can be easily used in breeding programmes as well, even directly on-farm. The two components of the indicator, plant and animal GRFA, are separately counted.
Computation	Plant component: Number of accessions conserved in the base collection (-18°C) at National Gene bank (Seeds) + Number of Accessions Conserved In Vitro Gene bank (Tissue Cultures) + Number of accessions at Cryogen bank (-196°C) Animal component: Cryopreservation of semen at National Gene Bank + Cryopreservation of somatic cell at National Gene Bank
Unit of measurement	Number
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 2 Metadata: National Indicator 2.5.2	
Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.5: By 2020, maintain the genetic diversity of seeds, cultivated plants and farmed and domesticated animals and their related wild species, including through soundly managed and diversified seed and plant banks at the national, regional and international levels, and promote access to and fair and equitable sharing of benefits arising from the utilization of genetic resources and associated traditional knowledge, as internationally agreed
Indicator	2.5.2: Proportion of local breeds classified as being at risk of extinction
Data Source Ministry	Ministry of Agriculture of Farmer's Welfare
Department/Division	DARE, National Bureau of Animal Genetic Resources, (ICAR-NBAGR)
Description of Indicator	The indicator presents the percentage of local livestock breeds among local breeds with known risk status classified as being at risk of extinctions at a certain moment in time, as well as the trends for this percentage.
Computation	$p = nR / (nR + nNR)$ Where: nR : At risk local breeds nNR : Not at risk local breeds
Unit of Measurement	Proportion
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with Global 2.5.2
References	-

SDG 2 Metadata: National Indicator 2.5.3	
Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.5: By 2020, maintain the genetic diversity of seeds, cultivated plants and farmed and domesticated animals and their related wild species, including through soundly managed and diversified seed and plant banks at the national, regional and international levels, and promote access to and fair and equitable sharing of benefits arising from the utilization of genetic resources and associated traditional knowledge, as internationally agreed.
Indicator	2.5.3: Conservation of fish genetic resource (in number)
Data Source Ministry	Ministry of Agriculture and Farmers' Welfare
Department/Division	DARE, National Bureau of Plant Genetic Resources, (ICAR-NBPGR)
Description of Indicator	The Fish Genetic Resources (FGR) have received importance for their role in direct consumption, providing new species for aquaculture diversification, genetic diversity to improve domesticated species, utilization for ornamental trade and also for the products of commercial value.
Computation	Voucher Accessions + Tissue Accessions + Accession relating to Species Wild Sourced, Propagated/Non-propagated + Fish cell lines Accessions
Unit of measurement	Number
Periodicity	Annual

SDG 2 Metadata: National Indicator 2.a.1	
Goal	2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture
Target	2.a: Increase investment, including through enhanced international cooperation, in rural infrastructure, agricultural research and extension services, technology development and plant and livestock gene banks in order to enhance agricultural productive capacity in developing countries, in particular least developed countries
Indicator	2.a.1: The agriculture orientation index for government expenditures
Data Source Ministry	Ministry of Statistics & Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	The Agriculture Orientation Index (AOI) for Government Expenditures is defined as the Agriculture share of Government Expenditure, divided by the Agriculture value added share of GDP.
Computation	Numerator: Agriculture Share of Government Expenditures Denominator: Agriculture Value Added Share of GDP Multiplier: Nil Where, $\text{Agriculture Share of Government Expenditures} = \frac{\text{Central Government expenditure on Agriculture}}{\text{Total Central Government Expenditure}} \times 100$ Agriculture refers to COFOG category 042 (agriculture, forestry, fishing and hunting); and Agriculture Value Added Share of GDP = Agriculture Value Added / GDP * 100
Unit of measurement	Number
Periodicity	Annual

SDG 3 Metadata: National Indicator 3.1.1

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.1: By 2030, reduce the global maternal mortality ratio to less than 70 per 1,00,000 live births
Indicator	3.1.1: Maternal Mortality Ratio (MMR), (per 1,00,000 live births)
Data Source Ministry	Ministry of Home Affairs
Department/Division	Office of the Registrar General & Census Commissioner, India
Description of Indicator	Maternal Mortality Ratio (MMR) is derived as the proportion of maternal deaths per 1,00,000 live births reported under the Sample Registration System (SRS).
Computation	Numerator: Maternal death during three reference years Denominator: Live births under SRS during three reference years Multiplier: 1,00,000
Unit of measurement	Per 1,00,000 live births
Periodicity	Annual
Level of Disaggregation	Major States
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 3.1.1

SDG 3 Metadata: National Indicator 3.1.2

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.1: By 2030, reduce the global maternal mortality ratio to less than 70 per 1,00,000 live births
Indicator	3.1.2: Percentage of births attended by skilled health personnel (period 5 years)
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	Percentage of women aged 15-49 years with a live birth attended by skilled health personnel in delivery during last five years. Data is collected in NFHS.
Computation	Numerator: Women aged 15-49 years with a live birth attended by skilled health personnel in delivery during last five years Denominator: Women aged 15-49 years with a live birth during the same period Multiplier: 100
Unit of measurement	Percent
Periodicity	3 years
Level of Disaggregation	State/UT
Type of Disaggregation	-

SDG 3 Metadata: National Indicator 3.2.1

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.2: By 2030, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 25 per 1,000 live births.
Indicator	3.2.1: Under-five Mortality Rate
Data Source Ministry	Ministry of Home Affairs
Department/Division	Office of the Registrar General & Census Commissioner, India
Description of Indicator	Under-5 Mortality rate which is the probability that a child born in a specific year or time period will die before reaching the age of 5, subject to current age specific mortality rates. It is expressed as a rate per 1,000 live births. Data is collected under Sample Registration System.
Computation	Numerator: Estimated Infant deaths (< 1 year) and deaths among children of age (1-4 years) during the given year Denominator: Estimated Live births (< 1 year) and population in the age group (1-4 years) during the given year Multiplier: 1,000
Unit of measurement	Per 1,000 live births
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	Geographical location (rural/urban); Sex
Mapping with Global Indicator	Exact match with GIF 3.2.1
References	SRS Report is available on the website http://www.censusindia.gov.in

SDG 3 Metadata: National Indicator 3.2.2

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.2: By 2030, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 25 per 1,000 live births.
Indicator	3.2.2: Neonatal Mortality Rate
Data Source Ministry	Ministry of Home Affairs
Department/Division	Office of the Registrar General & Census Commissioner, India
Description of Indicator	Neonatal Mortality Rate is defined as the number of infant deaths of age less than 29 days (neonatal deaths) per 1,000 live births in a given year. Data is collected under Sample Registration System.
Computation	Numerator: Infant deaths of age less than 29 days (neonatal deaths) during given year Denominator: Live births during given year Multiplier: 1,000
Unit of measurement	Per 1,000 live births
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	Geographical location (rural/urban)
Mapping with Global Indicator	Exact match with GIF 3.2.2
References	SRS Report is available on the website http://www.censusindia.gov.in

SDG 3 Metadata: National Indicator 3.3.1

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.3: By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, waterborne diseases and other communicable diseases
Indicator	3.3.1: Number of new HIV infections per 1,000 uninfected population
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	National AIDS Control Organization
Description of Indicator	The indicator gives the number of new HIV infections in a given reference period per 1,000 uninfected population.
Computation	Numerator: New HIV infections in reference period Denominator: Uninfected population in reference period Multiplier: 1,000
Unit of measurement	Per 1,000 uninfected population
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	Sex
Mapping with Global Indicator	Partial match with GIF 3.3.1
References	Data available on the website http://naco.gov.in

SDG 3 Metadata: National Indicator 3.3.2

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.3: By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, waterborne diseases and other communicable diseases
Indicator	3.3.2: Tuberculosis incidence per 1,00,000 population
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	RNTCP Division
Description of Indicator	Estimated number of new and relapse TB cases arising in a given year, expressed as a rate per 1,00,000 population.
Computation	Numerator: New TB patients in a population during reference period Denominator: Persons in population during reference period Multiplier: 1,00,000
Unit of measurement	Per 1,00,000 population
Periodicity	Annual

SDG 3 Metadata: National Indicator 3.3.3

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.3: By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, waterborne diseases and other communicable diseases
Indicator	3.3.3: Malaria incidence per 1,000 population
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Directorate of National Vector Borne Disease Control Programme, DGHS
Description of Indicator	Number of confirmed malaria cases in the given reference period per 1,000 population
Computation	Numerator: Number of confirmed malaria cases Denominator: Mid-year population Multiplier: 1,000
Unit of measurement	Per 1,000 population
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG3 Metadata: National Indicator 3.3.4	
Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.3: By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water borne diseases and other communicable diseases
Indicator	3.3.4: Prevalence of Hepatitis 'B' per 1,00,000 population
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Viral Hepatitis Division, National Centre for Disease Control, Directorate General Health Services, Department of Health and Family Welfare
Description of Indicator	As per the HIV Sentinel Surveillance plus 2021 the target population considered for computation was: <ol style="list-style-type: none"> Pregnant woman of aged 15–49 years, and Attending the antenatal clinic for the first time during the current round of surveillance. <p>Hence the indicator gives the prevalence of Hepatitis B per 100000 of this target population</p>
Computation	Numerator: Total Positive Hepatitis B cases among pregnant woman of aged 15–49 years and attending the antenatal clinic for the first time during the current round of surveillance. Denominator: Total pregnant woman of aged 15–49 years and attending the antenatal clinic for the first time during the current round of surveillance. Multiplier: 100000
Unit of measurement	Individuals
Periodicity	Annual
Level of Disaggregation	State
Type of Disaggregation	Geographical location (rural/urban)
Mapping with Global Indicator	Partial match with GIF 3.3.4
References	Seroprevalence of Hepatitis B and Hepatitis C (HIV Sentinel Surveillance plus, 2021, round 17)

SDG 3 Metadata: National Indicator 3.3.5	
Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.3: By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, waterborne diseases and other communicable diseases
Indicator	3.3.5: Dengue: Case Fatality Ratio (CFR)
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Directorate of National Vector Borne Disease Control Programme, DGHS
Description of Indicator	Dengue Case Fatality Rate (CFR) refers to number of deaths due to dengue per 100 dengue cases reported.
Computation	Numerator: Number of deaths due to dengue reported during reference Denominator: Number of total Dengue cases reported during reference year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 3 Metadata: National Indicator 3.3.6

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.3: By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, waterborne diseases and other communicable diseases
Indicator	3.3.6: The proportion of grade-2 cases amongst new cases of Leprosy (per million population)
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	Number of New Cases with Grade II disability cases due to leprosy reported per 10,00,000 population during the reference year. There are two types of leprosy. The first category is paucibacillary, in which five or fewer lesions with no bacteria are detected in the skin sample. The second category (Grade II) is multibacillary, in which there are more than five lesions, bacteria is detected in the skin smear, or both.
Computation	Numerator: Grade 2 case of leprosy during reference year Denominator: New case of leprosy reported during reference year x population during the year Multiplier: 10,00,000
Unit of measurement	Per million population
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-
References	Annual Report is available on the website www.nlep.nic.in

SDG 3 Metadata: National Indicator 3.3.7

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.3: By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, waterborne diseases and other communicable diseases
Indicator	3.3.7: Number of blocks reporting < 1 Kala Azar case per 10,000 population out of the total endemic blocks
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Directorate of National Vector Borne Disease Control Programme, DGHS
Description of Indicator	Number of blocks reporting < 1 Kala Azar case in a given year out of the total endemic blocks. It is expressed as a percentage per 10,000 population.
Computation	Numerator: Number of blocks reporting < 1 Kala Azar case Denominator: Total endemic blocks Multiplier: 10,000
Unit of measurement	Per 10,000 population
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 3 Metadata: National Indicator 3.3.8	
Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.3: By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, waterborne diseases and other communicable diseases
Indicator	3.3.8: Number of districts reporting < 1% Microfilaria rate (MF) out of total endemic districts
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Directorate of National Vector Borne Disease Control Programme, DGHS
Description of Indicator	Lymphatic Filariasis is a neglected tropical disease that occurs when filarial parasites are transmitted to humans through mosquitoes. Infection is usually acquired in childhood causing hidden damage to the lymphatic system which can lead to the abnormal enlargement of body parts.
Computation	Numerator: Number of districts reporting < 1% Microfilaria rate (MF) Denominator: Total endemic districts Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 3 Metadata: National Indicator 3.3.9	
Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.3: By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, waterborne diseases and other communicable diseases
Indicator	3.3.9: Tuberculosis case notification against target in percentage
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Central TB Division
Description of Indicator	Percentage of TB cases notified to the national health authorities during a specified period against the estimated target of TB cases
Computation	Numerator: Number of TB cases notified to the national health authorities during a specified period Denominator: Estimated Notification target for the defined period by the programme division given to the states annually Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT

SDG 3 Metadata: National Indicator 3.4.1

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.4: By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being
Indicator	3.4.1. Mortality rate attributed to Cardiovascular disease, Malignant & other Neoplasms, Diabetes Mellitus or Chronic Respiratory disease
Data Source Ministry	Ministry of Home Affairs
Department/Division	Office of the Registrar General & Census Commissioner, India
Description of Indicator	The indicator is computed based on the data from the 'Report on Medical Certification of Cause of Death'. In the Report, data on medically certified cause of deaths has been tabulated in conformity with the International Classification of Diseases (ICD) – Tenth Revision (1993). The indicator gives the probability of dying between the ages of 25 and 69 years from Cardiovascular disease, Malignant & other Neoplasms, Diabetes Mellitus or Chronic Respiratory disease.
Computation	Numerator: No. of medically certified deaths between the ages of 25 and 69 years from Cardiovascular disease, Malignant & other Neoplasms, Diabetes Mellitus or Chronic Respiratory disease Denominator: Total number of medically certified deaths Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	
Type of Disaggregation	Age group wise

SDG 3 Metadata: National Indicator 3.4.2

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.4: By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being
Indicator	3.4.2. Suicide mortality rate (per 1,00,000 population)
Data Source Ministry	Ministry of Home Affairs
Department/Division	National Crime Record Bureau
Description of Indicator	Suicides reported during reference year per 1,00,000 population. Data is collected under the Publication 'Accidental Deaths and Suicides in India'.
Computation	Numerator: Suicides reported during reference year Denominator: Mid-Year Population of reference year Multiplier: 1,00,000
Unit of measurement	Per 1,00,000 population
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 3.4.2

SDG 3 Metadata: National Indicator 3.5.1

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.5: Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol
Indicator	3.5.1 : Number of persons treated in de-addiction centers
Data Source Ministry	Ministry of Social Justice and Empowerment
Department/Division	Department of Social Justice and Empowerment
Description of Indicator	The indicator addresses the component of Scheme, National Action Plan for Drug Demand Reduction leading to relevant and effective outcomes.
Computation	Number of beneficiaries in de-addiction centers (admitted and treated) funded by GOI
Unit of measurement	Number
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Partial match with GIF 3.5.1

SDG 3 Metadata: National Indicator 3.5.2

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.5: Strengthen the prevention and treatment of substance abuse, including narcotic drug abuse and harmful use of alcohol
Indicator	3.5.2 : Percentage of population (men (15-49 years) and women (15 - 49 years)) who drink alcohol about once a week out of total population (men (15-49 years) and women (15 - 49 years)) who drink alcohol
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	The indicator is defined as percentage of persons (men (aged 15-49 years) and women (aged 15-49 years)) who consume alcohol about once a week to the total population (men (aged 15-49 years) and women (aged 15-49 years)) who drink alcohol. Data is collected under NFHS.
Computation	Numerator: Number of persons (men (aged 15-49 years) and women (aged 15-49 years)) who consume alcohol about once a week Denominator: Total population (men (aged 15-49 years) and women (aged 15-49 years)) who drink alcohol Multiplier: 100
Unit of measurement	Percent
Periodicity	3 years
Level of Disaggregation	State/UT
Type of Disaggregation	Sex

SDG 3 Metadata: National Indicator 3.6.1

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.6: By 2020, halve the number of global deaths and injuries from road traffic accidents
Indicator	3.6.1: People killed/injured in road accidents (similar to 11.2.2)
Data Source Ministry	Ministry of Home Affairs
Department/Division	National Crime Record Bureau
Description of Indicator	The indicator gives the total number of people killed (injured) due to road traffic accidents during reference year per 1,00,000 population.
Computation	Numerator: People killed (injured) due to road traffic accidents during reference year Denominator: Mid-year population of reference year Multiplier: 1,00,000
Unit of measurement	Per 1,00,000 population
Periodicity	Annual

SDG 3 Metadata: National Indicator 3.7.1

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.7: By 2030, ensure universal access to sexual and reproductive health-care services, including for family planning, information and education, and the integration of reproductive health into national strategies and programmes
Indicator	3.7.1: Percentage of currently married women aged 15-49 years who have their need for family planning satisfied with modern methods
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	This indicator is calculated as percentage of currently married women aged 15-49 years who have their need for family planning satisfied with modern methods. Data is collected under NFHS.
Computation	Numerator: Currently married women aged 15-49 years who have their need for family planning satisfied with modern methods Denominator: Currently married women aged 15-49 years Multiplier: 100
Unit of measurement	Percent
Periodicity	3 years

SDG 3 Metadata: National Indicator 3.7.2

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.7: By 2030, ensure universal access to sexual and reproductive health-care services, including for family planning, information and education, and the integration of reproductive health into national strategies and programmes
Indicator	3.7.2: Adolescent birth rate (aged 15–19 years) per 1,000 women in that age group
Data Source Ministry	Ministry of Home Affairs
Department/Division	Office of the Registrar General & Census Commissioner, India
Description of Indicator	This indicator is calculated as number of births to women aged 15-19 years per 1,000 women in that age group. Data is collected under SRS.
Computation	Numerator: Number of births to women aged 15-19 years Denominator: Women aged 15-19 years Multiplier: 1,000
Unit of measurement	Per 1,000 women
Periodicity	Annual
Level of Disaggregation	-

SDG 3 Metadata: National Indicator 3.7.4

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.7: By 2030, ensure universal access to sexual and reproductive health-care services, including for family planning, information and education, and the integration of reproductive health into national strategies and programmes
Indicator	3.7.4: Percentage of currently married women (15-49 years) who use any modern family planning methods
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	The indicator is defined as the total number of currently married women aged 15-49 years who use modern contraceptive methods to the currently married women aged 15-49 years. Data is collected under NFHS.
Computation	Numerator: Currently married women aged 15-49 years who use modern contraceptive methods Denominator: Currently married women aged 15-49 years Multiplier: 100
Unit of measurement	Percent
Periodicity	3 years

SDG 3 Metadata: National Indicator 3.8.2	
Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.8: Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all
Indicator	3.8.2: Proportion of population with large household expenditures on health as a share of total household expenditure or income
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	NSSO
Description of Indicator	Proportion of the population with large household expenditure on health as a share of total household expenditure or income with two thresholds greater than 10% and greater than 25% of total household expenditure or income.
Computation	$I_{3.8.2} = \frac{\sum_i m_i w_i Y \left(\frac{\text{health expenditure of the household } i (H_i)}{\text{total consumer expenditure of the household } i (T_i) + A_i + B_i} > t \right)}{\sum_i m_i w_i}$ <p>Where i denotes a household, Y() is the indicator function that takes on the value 1 if the bracketed expression is true, and 0 otherwise, mi corresponds to the number of household members of i, wi corresponding to the sampling weight of the household i, t is the threshold identifying large household expenditure on health as a share of total household consumption expenditure (namely, 10% and 25%).</p> <p>mi= household size of ith household Hi: Health expenditure of a household i = (Ai) + (Bi) + (Ci) + (Di), where; Ai = total household out-of-pocket expenditure for hospitalization (including childbirth) during 365 days: Difference of total medical and non-medical expenditure on hospitalization (doctor's/surgeon's fee + medicines + diagnostic tests + bed charges + other medical expenses (attendant charges, physiotherapy, personal medical appliances, blood, oxygen, etc. + expenditure on transport + other non- medical expenses) and total amount reimbursed by medical insurance company or employer for hospitalization Bi= total household out-of-pocket expenditure for non-hospitalization during last 15 days: Difference of total medical and non-medical expenditure on non-hospitalization (doctor's/surgeon's fee + medicines (AYUSH + non-AYUSH) + diagnostic tests + other medical expenses (attendant charges, physiotherapy, personal medical appliances, blood, oxygen, etc. + expenditure on transport + other non- medical expenses) and total amount reimbursed by medical insurance company or employer for non- hospitalization. Ci = total expenditure on immunization of children of age 0-5 during last 365 days Di= total expenditure on pre-natal and post-natal care of women of age 15-49 during last 365 days Ti: Total consumer expenditure of the ith household during last 365 days</p>

SDG 3 Metadata: National Indicator 3.8.3

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.8: Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all
Indicator	3.8.3: Percentage of women aged 30-49 years who have ever undergone a screening test for cervical cancer
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	The indicator is defined as percentage of women age 30-49 who have ever undergone a screening test for cervical cancer. Data is collected under NFHS.
Computation	Numerator: Women age 30-49 years who have ever undergone a screening test for cervical cancer Denominator: Number of women age 30-49 years surveyed Multiplier: 100
Unit of measurement	Percent
Periodicity	3 years

SDG 3 Metadata: National Indicator 3.8.4

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.8: Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all
Indicator	3.8.4: Prevalence of hypertension among men and women age 15 years and above
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	The indicator is defined as the percentage of men and women in aged 15 years and above having hypertension taking medicine to lower the blood pressure. A person is classified as having hypertension if he/she has blood pressure (Systolic ≥ 140 mm of Hg and/or Diastolic ≥ 90 mm of Hg) or taking medicine to control blood pressure. Data is collected under NFHS.
Computation	Numerator: Person (aged 15 years and above) having hypertension during the reference year Denominator: Total Person (aged 15 years and above) during the survey period Multiplier: 100
Unit of measurement	Percent
Periodicity	3 years

SDG 3 Metadata: National Indicator 3.b.1

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.b: Support the research and development of vaccines and medicines for the communicable and non-communicable diseases that primarily affect developing countries, provide access to affordable essential medicines and vaccines, in accordance with the Doha Declaration on the TRIPS Agreement and Public Health, which affirms the right of developing countries to use to the full the provisions in the Agreement on Trade Related Aspects of Intellectual Property Rights regarding flexibilities to protect public health, and, in particular, provide access to medicines for all
Indicator	3.b.1: Percentage of children age 12-23 months fully vaccinated with BCG, measles and three doses each of polio and DPT or Penta vaccine (excluding polio vaccine given at birth)
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	Indicator is defined as percentage of children aged 12-23 months who received all the basic vaccinations. To have received all vaccinations, a child must receive at least: a) one dose of BCG vaccine which protects against Tuberculosis b) three doses of DPT or Penta vaccine, which protects against diphtheria, pertussis (whooping cough) and tetanus c) three doses of polio vaccine (excluding polio vaccine given at birth) d) one dose of measles vaccine Data is collected under NFHS.
Computation	Numerator: Children aged 12-23 months who received all basic vaccinations Denominator: Children aged 12-23 months Multiplier: 100

SDG 3 Metadata: National Indicator 3.c.1

Goal	3: Ensure healthy lives and promote well-being for all at all ages
Target	3.c: Substantially increase health financing and the recruitment, development, training and retention of the health workforce in developing countries, especially in least developed countries and small island developing States
Indicator	3.c.1: Health worker density
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Public Health Division
Description of Indicator	The indicator is defined as total number of Doctors, nurses and midwives, dentists and pharmacists reported during reference year per 10,000 population.
Computation	Numerator: Total number of doctors, nurses and midwives, dentists and pharmacists reported during reference year Denominator: Mid-year population during reference year Multiplier: 10,000
Unit of measurement	Per 10,000 population
Periodicity	Annual

SDG 4 Metadata: National Indicator 4.1.1	
Goal	4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
Target	4.1: By 2030, ensure that all girls and boys complete free, equitable and quality primary and secondary education leading to relevant and effective learning outcomes.
Indicator	4.1.1: Percentage of students in grade 3, 5 and 8 achieving at least a minimum proficiency level in terms of nationally defined learning outcomes to be attained by pupils at the end of each of above grades
Data Source Ministry	Ministry of Education
Department/Division	Department of School Education & Literacy
Description of Indicator	Percentage of students in Grade 3, 5 and 8 who achieve minimum proficiency level in Language and Mathematics, in National Achievement Survey (NAS).
Computation	Percentage of students in Grade 3, 5 and 8 who scored minimum proficient level i.e. "Proficient and Advanced" in each grade in Language and Mathematics in National Achievement Survey (NAS) conducted by NCERT.
Unit of measurement	Percent

SDG 4 Metadata: National Indicator 4.1.5

Goal	4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
Target	4.1: By 2030, ensure that all girls and boys complete free, equitable and quality primary and secondary education leading to relevant and effective learning outcomes.
Indicator	4.1.5: Adjusted Net Enrolment Rate (ANER) in primary, upper primary and secondary education
Data Source Ministry	Ministry of Education
Department/Division	Department of School Education & Literacy
Description of Indicator	For a given level of education, Adjusted Net Enrolment Rate (ANER) gives the number of students belonging to the official age group (for that level) enrolled at that level or one level above, expressed as a percentage of the corresponding population.
Computation	Numerator: i. For Primary: Number of 6-10 years' pupil enrolled in Primary/Upper Primary ii. For Upper Primary: Number of 11-13 years' pupil enrolled in Upper Primary/Secondary iii. For Secondary: Number of 14-15 years' pupil enrolled in Secondary/Higher Secondary Denominator: Population of the corresponding (i.e. 6-10/11-13/14-15 years) age group Multiplier: 100

SDG 4 Metadata: National Indicator 4.1.6

Goal	4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
Target	4.1: By 2030, ensure that all girls and boys complete free, equitable and quality primary and secondary education leading to relevant and effective learning outcomes.
Indicator	4.1.6: Proportion of students enrolled in Grade 1 who reaches last grade or primary/Elementary/secondary levels
Data Source Ministry	Ministry of Education
Department/Division	Department of School Education & Literacy
Description of Indicator	It is a gross measure of the internal efficiency of an education system to retain its students. A high value of this indicator indicates the low incidence of dropouts.
Computation	Enrolment in Grade V/VIII/X (minus repeaters) in a year as proportion to enrolment in Grade I four/seven/nine years back. Numerator: Enrolment (minus repeaters) in Grade V/ VIII/ X Denominator: Enrolment in Grade I of students four/seven/nine years back Multiplier: 100

SDG 4 Metadata: National Indicator 4.5.1

Goal	4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
Target	4.5: By 2030, eliminate gender disparities in education and ensure equal access to all levels of education and vocational training for the vulnerable, including persons with disabilities, indigenous peoples and children in vulnerable situations
Indicator	4.5.1: Gender Parity Indices (GPI) for primary/secondary/higher secondary/tertiary education
Data Source Ministry	Ministry of Education
Department/Division	Department of School & Higher Education
Description of Indicator	Gender Parity Index is a measure of relative access to education of males and females and is calculated as the quotient of the number of females by the number of males enrolled in a given level of education.
Computation	Numerator: GER of female for primary/secondary/higher secondary/tertiary education Denominator: GER of male for primary/secondary/higher secondary/tertiary education Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT

SDG 4 Metadata: National Indicator 4.6.1

Goal	4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
Target	4.6: By 2030, ensure that all youth and a substantial proportion of adults, both men and women, achieve literacy and numeracy
Indicator	4.6.1: Literacy rate of youth in the age group of 15-24 years
Data Source Ministry	Ministry of Home Affairs
Department/Division	Office of the Registrar General & Census Commissioner, India
Description of Indicator	The indicator gives Literacy rate of youth in the age group of 15-24 years. The Data is collected under Census of India.
Computation	Numerator: Number of literate in age group 15-24 years Denominator: Youth population in age group 15-24 years Multiplier: 100
Unit of measurement	Percent
Periodicity	10 years
Level of Disaggregation	State/UT
Type of Disaggregation	Sex

SDG 4 Metadata: National Indicator 4.7.1	
Goal	4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
Target	4.7: By 2030, ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development
Indicator	4.7.1: Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment (similar to 12.8.1 and 13.3.1)
Data Source Ministry	Ministry of Education
Department/Division	Department of School Education and Literacy
Description of Indicator	The indicator measures the extent to which countries mainstream Global Citizenship Education (GCED) and Education for Sustainable Development (ESD) in their education systems. For each of the four components of the indicator (policies, curricula, teacher education, and student assessment), a number of criteria are measured, which are then combined to give a single score between zero and one for each component. Only information for primary and secondary education will be used for calculation of indicator.
Computation	The indicator is computed with the help of set of questions.

SDG 4 Metadata: National Indicator 4.a.1	
Goal	4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
Target	4.a: Build and upgrade education facilities that are child, disability and gender sensitive and provide safe, non-violent, inclusive and effective learning environments for all
Indicator	4.a.1: Proportion of schools with access to: (a) electricity; (b) computers for pedagogical purposes; (c) adapted infrastructure and materials for students with disabilities/ disabled friendly ramp and toilets; (d) basic drinking water; (e) single-sex basic sanitation facilities; and (f) basic hand washing facilities (asper the WASH indicator definitions)
Data Source Ministry	Ministry of Education
Department/Division	Department of School Education & Literacy
Description of Indicator	The number of schools in a given level of education with access to: (a) electricity (b) computers for pedagogical purposes* (c) adapted infrastructure and materials** for students with disabilities/ disabled friendly ramp and toilets (d) basic drinking water; (e) single-sex basic sanitation facilities (f) basic hand washing facilities *Expressed as a percentage of all schools at that level **Expressed as percentage of total schools during the academic reference year.
Computation	Numerator: Number of schools with primary/upper primary/secondary/higher secondary as highest level having relevant facilities at each level Denominator: Total number of Schools with primary/upper primary/secondary/higher secondary as the highest level Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	Education Level
Mapping with Global Indicator	Partial match with GIF 4.a.1
References	Data is available on the website http://udise.in

SDG 4 Metadata: National Indicator 4.c.1	
Goal	4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
Target	4.c: By 2030, substantially increase the supply of qualified teachers, including through international cooperation for teacher training in developing countries, especially least developed countries and small island developing States
Indicator	4.c.1: Proportion of trained teacher, by education level (primary, upper primary, elementary, secondary and higher secondary education), (in percentage)
Data Source Ministry	Ministry of Education
Department/Division	Department of School Education & Literacy
Description of Indicator	Number of trained teachers, by education level (primary, upper primary, elementary, secondary and higher secondary education) expressed as a percentage of total teachers in that level.
Computation	Numerator: Number of teachers with Basic teacher's training/B.Ed./D.El.Ed./M.Ed. or equivalent (not less than two years) at primary/upper primary/elementary/secondary/higher secondary level Denominator: Total number of teachers at the corresponding level Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	Education Level
Mapping with Global Indicator	Partial match with GIF 4.c.1
References	Data is available on the website http://udise.in

SDG 5 Metadata: National Indicator 5.1.1

Goal	5: Achieve gender equality and empower all women and girls
Target	5.1: End all forms of discrimination against all women and girls everywhere
Indicator	5.1.1: Whether or not legal framework are in place to promote, enforce and monitor equality and non-discrimination on the basis of sex.
Data Source Ministry	Ministry of Women and Child Development
Department/Division	-
Description of Indicator	<p>The indicator is based on an assessment of legal frameworks that promote, enforce and monitor gender equality using a questionnaire comprising 42 Yes/No questions under the following four areas of law drawn from the international legal and policy framework on gender equality, in particular Convention on the Elimination of all Forms of Discrimination Against Women and the Beijing Platform for Action:</p> <ul style="list-style-type: none"> • Overarching legal frameworks and public life • Violence against women • Employment and economic benefits • Marriage and family
Computation	The indicator is computed with the help a questionnaire mentioned above.
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 5.1.1
References	Available in different legislation, policies and government programmes.

SDG 5 Metadata: National Indicator 5.1.2

Goal	5: Achieve gender equality and empower all women and girls
Target	5.1: End all forms of discrimination against all women and girls everywhere
Indicator	5.1.2: Per lakh women that have been subjected to dowry offences during the year
Data Source Ministry	Ministry of Home Affairs
Department/Division	National Crime Record Bureau
Description of Indicator	The indicator is defined as the number of women registered dowry related offences during reference year per 1,00,000 female population.
Computation	<p>Numerator: Number of women registered dowry related offences during reference year</p> <p>Denominator: Mid-year female population during reference year</p> <p>Multiplier: 1,00,000</p>
Unit of measurement	Rate (Per 1,00,000 female population)
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 5 Metadata: National Indicator 5.1.3

Goal	5: Achieve gender equality and empower all women and girls
Target	5.1: End all forms of discrimination against all women and girls everywhere
Indicator	5.1.3: Sex Ratio at Birth
Data Source Ministry	Ministry of Home Affairs
Department/Division	Office of the Registrar General & Census Commissioner, India
Description of Indicator	Sex Ratio at Birth is defined as the ratio of number of female live births in a population to the number of male live births in the population, in a given time period, scaled to a Denominator of 1,000. Data is collected under SRS.
Computation	Numerator: Female live births Denominator: Male live births Multiplier: 1,000
Unit of measurement	Per 1,000 male live births
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	Geographical location (rural/urban)
Mapping with Global Indicator	-
References	SRS Report is available on the website http://www.censusindia.gov.in

SDG 5 Metadata: National Indicator 5.1.4

Goal	5: Achieve gender equality and empower all women and girls
Target	5.1: End all forms of discrimination against all women and girls everywhere
Indicator	5.1.4: Rate of Crimes Against Women Per 1,00,000 Female Population
Data Source Ministry	Ministry of Home Affairs
Department/Division	National Crime Record Bureau
Description of Indicator	The indicator is defined as number of cases registered under crime against women during reference year per 1,00,000 female population.
Computation	Numerator: Number of cases registered under crime against women during reference year Denominator: Mid-year female population during reference year Multiplier: 1,00,000
Unit of measurement	Per 1,00,000 female population
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 5 Metadata: National Indicator 5.2.1	
Goal	5: Achieve gender equality and empower all women and girls
Target	5.2: Eliminate all forms of violence against all women and girls in the public and private spheres, including trafficking and sexual and other types of exploitation
Indicator	5.2.1: Proportion of ever-married women age 18-49 who have experienced physical, sexual or emotional violence by husband/partner in the past 12 months
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	The indicator is defined as the percentage of women aged 18-49 years who have ever experienced physical, sexual or emotional violence committed by their Husband/partner among the total women aged 18-49 surveyed. Data is collected under NFHS.
Computation	Numerator: Women Aged 18-49 years who have ever experienced physical, sexual or emotional violence committed by their Husband/partner Denominator: Total women aged 18-49 surveyed Multiplier: 100
Unit of Measurement	Percent
Periodicity	3 Years
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Partial match with GIF 5.2.1

SDG 5 Metadata: National Indicator 5.5.2

Goal	5: Achieve gender equality and empower all women and girls
Target	5.5: Ensure women's full and effective participation and equal opportunities for leadership at all levels of decision-making in political, economic and public life
Indicator	5.5.2: Proportion of women in managerial positions
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	NSSO
Description of Indicator	This indicator refers to the proportion of females in the total number of persons employed in managerial positions. It is recommended to use two different measures jointly for this indicator: the share of females in (total) management and the share of females in senior and middle management (thus excluding junior management). The joint calculation of these two measures provides information on whether women are more represented in junior management than in senior and middle management, thus pointing to an eventual ceiling for women to access higher-level management positions.
Computation	<p>Measure-I: the proportion of women working in managerial positions to total workers in managerial positions</p> <p>Proportion of women in management = (Women employed in NCO-2004 categories 11+12+13/ Persons employed in NCO-2004 categories 11+12+13) × 100</p> <p>Measure-II: the proportion of women working in senior and middle management to total workers in senior and middle management</p> <p>Proportion of women in senior and middle management = ((Women employed in NCO-2004 categories 11 + 12)/ (Persons employed in NCO-2004 categories 11 + 12)) × 100</p>
Unit of measurement	Proportion
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	Geographical location (rural/urban)

SDG 5 Metadata: National Indicator 5.6.2

Goal	5: Achieve gender equality and empower all women and girls
Target	5.6: Ensure universal access to sexual and reproductive health and reproductive rights as agreed in accordance with the Programme of Action of the International Conference on Population and Development and the Beijing Platform for Action and the outcome documents of their review conferences
Indicator	5.6.2: Whether the country has laws and regulations that guarantee full and equal access to women and men aged 15 years and older to sexual and reproductive health care, information and education
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	Department of Health and Family Welfare
Description of Indicator	The Indicator seeks to measure the extent to which countries have national laws and regulations that guarantee full and equal access to women and men aged 15 years and older to sexual and reproductive health care, information, and education. The indicator is a percentage scale of 0 to 100, indicating a country's status and progress in the existence of such National laws and regulations. Indicator measures only the existence of laws and regulations; it does not measure their implementation.
Computation	Indicator is calculated based on official government responses collected through the United Nations Inquiry among Governments on Population and Development. The Inquiry has been conducted since 1963. All questions required for indicator are integrated into Module II on fertility, family planning, and reproductive health of the Inquiry. The indicator measures the legal and regulatory environment across four thematic sections, defined as the key parameters of sexual and reproductive health care, information and education according to these international consensus documents and human rights standards: <ul style="list-style-type: none"> • Maternity care • Contraception services • Sexuality education • HIV and HPV The indicator measures specific legal enablers and barriers for 13 components across four sections. The calculation of the indicator requires data for all 13 components.
Unit of Measurement	Percent
Periodicity	4 years

SDG 5 Metadata: National Indicator 5.6.3

Goal	5: Achieve gender equality and empower all women and girls
Target	5.6: Ensure universal access to sexual and reproductive health and reproductive rights as agreed in accordance with the Programme of Action of the International Conference on Population and Development and the Beijing Platform for Action and the outcome documents of their review conferences
Indicator	5.6.3: Percentage of population aged 15-24 years with comprehensive knowledge of HIV/ AIDS
Data Source Ministry	Ministry of Health and Family Welfare
Department/Division	NACO Division
Description of Indicator	The indicator is defined as percentage of population aged 15-24 years with comprehensive knowledge of HIV/AIDS. Comprehensive knowledge means knowing that consistent use of condoms during sexual intercourse and having just one uninfected faithful partner can reduce the chances of getting HIV/AIDS, knowing that a healthy-looking person can have HIV/AIDS, and rejecting two common misconceptions about transmission or prevention of HIV/AIDS.
Computation	Numerator: Population aged 15-24 years with comprehensive knowledge of HIV/AIDS Denominator: Total population aged 15-24 years Multiplier: 100
Unit of measurement	Percent
Periodicity	3 years

SDG 5 Metadata: National Indicator 5.b.1	
Goal	5: Achieve gender equality and empower all women and girls
Target	5.b: Enhance the use of enabling technology, in particular information and communications technology, to promote the empowerment of women
Indicator	5.b.1: Percentage of women employed in IT and ITeS industry, (in percentage)
Data Source Ministry	Ministry of Electronics and Information Technology
Department/Division	-
Description of Indicator	The indicator is defined as percentage of women employed in IT and IT enabled services (ITeS) during the reference year among the total number persons employed in IT and ITeS during the reference year.
Computation	Numerator: Number of women employed in IT and ITeS during the reference year Denominator: Total number persons employed in IT and ITeS during the reference year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	-
References	Data is available on the website NASSCOM SR - 2018

SDG 5 Metadata: National Indicator 5.c.1	
Goal	5: Achieve gender equality and empower all women and girls
Target	5.c: Adopt and strengthen sound policies and enforceable legislation for the promotion of gender equality and the empowerment of all women and girls at all levels
Indicator	5.c.1: Number of Central Ministries and States having Gender Budget Cells (GBCs)
Data Source Ministry	Ministry of Women and Child Development
Department/Division	-
Description of Indicator	The indicator is defined as number of Central Ministries and States/UTs having Gender Budget Cells.
Computation	Number of Central Ministries having Gender Budget cells and Number of States having Gender Budget Cells (GBCs)
Unit of measurement	Number
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	-
References	NA

SDG 6 Metadata: National Indicator 6.1.1	
Goal	6: Ensure availability and sustainable management of water and sanitation for all
Target	6.1: By 2030, achieve universal and equitable access to safe and affordable drinking water for all
Indicator	6.1.1: Percentage of household getting safe and adequate drinking water within premises through Pipe Water Supply (PWS) (Urban and Rural)
Data Source Ministry	Rural: Ministry of Jal Shakti Urban: Ministry of Housing and Urban Affairs
Department/Division	Rural: Department of Drinking Water and Sanitation Urban: Atal Mission for Rejuvenation and Urban Transformation (AMRUT) Division
Description of Indicator	The indicator is percentage of households getting safe and adequate drinking water within their premises through pipe water supply.
Computation	Numerator: Number of households getting safe and adequate drinking water within their premises through PWS Denominator: Total number of households during the reference year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual (Rural and Urban)
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Partial mapping with GIF 6.1.1
References	Rural: Data is available on the website: https://ejalshakti.gov.in/JJM/JJMReports/physical/JJMRepHouseholdTapWaterConnection.aspx Urban:

SDG 6 Metadata: National Indicator 6.1.2	
Goal	6: Ensure availability and sustainable management of water and sanitation for all
Target	6.1: By 2030, achieve universal and equitable access to safe and affordable drinking water for all
Indicator	6.1.2: Percentage of population using an improved drinking water source (Rural)
Data Source Ministry	Ministry of Jal Shakti
Department/Division	Department of Drinking Water and Sanitation
Description of Indicator	The indicator is defined as percentage of population residing in Non-Quality Affected habitations. Non-Quality Affected habitations refer to habitations free from water contamination like fluoride, arsenic, iron, salinity, nitrate and heavy metal.
Computation	Numerator: Rural population getting safe drinking water using improved drinking water sources Denominator: Mid-year total rural population of the reference year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-
References	-

SDG 6 Metadata: National Indicator 6.2.1	
Goal	6: Ensure availability and sustainable management of water and sanitation for all
Target	6.2: By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations
Indicator	6.2.1: Proportion of households having access to toilet facility (Urban and Rural)
Data Source Ministry	Rural: Ministry of Jal Shakti Urban: Ministry of Housing and Urban Affairs
Department/Division	Rural: Department of Drinking Water and Sanitation Urban:
Description of Indicator	The indicator is defined as the percentage of households with toilet facility. Data for rural area is available, as supplied by Department of Drinking Water and Sanitation.
Computation	Numerator: Number of households with toilets as per Baseline survey 2012-13 + Toilets reported to be constructed by State/UTs from 2013-14 to reference year Denominator: Total households as per Baseline survey 2012-13 Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	Geographical location (rural/urban)
Mapping with Global Indicator	Partial mapping with GIF 6.2.1
References	Data is available on the website https://swachhbharatmission.gov.in

SDG 6 Metadata: National Indicator 6.2.2	
Goal	6: Ensure availability and sustainable management of water and sanitation for all
Target	6.2: By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations
Indicator	6.2.2: Percentage of Districts achieving Open Defecation Free (ODF) target
Data Source Ministry	Ministry of Jal Shakti
Department/Division	Department of Drinking Water and Sanitation
Description of Indicator	The indicator is referred to percentage of districts achieving Open Defecation Free (ODF) target. ODF is the termination of faecal-oral transmission which is defined as: 1) No visible faeces found in the environment/village 2) Every household as well as public/community institutions using safe technology option for disposal of faeces
Computation	Numerator: Number of districts achieving Open Defecation Free (ODF) target Denominator: Total number of districts Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 6 Metadata: National Indicator 6.2.3	
Goal	6: Ensure availability and sustainable management of water and sanitation for all
Target	6.2: By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations.
Indicator	6.2.3: Proportion of schools with separate toilet facility for girls,(in percentage)
Data Source Ministry	Ministry of Education
Department/Division	Department of School Education & Literacy
Description of Indicator	The number of schools with a given level of education having access to single-sex(girls) basic sanitation facilities expressed as a percentage of all schools at that level.
Computation	Numerator: Number of schools with primary/upper primary/secondary/higher secondary as highest level having access to single-sex (girls) basic sanitation facilities at each level Denominator: Total number of schools with primary/upper primary/secondary/higher secondary as the highest level Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-
References	Data is available on the website http://udise.in

SDG 6 Metadata: National Indicator 6.3.1	
Goal	6: Ensure availability and sustainable management of water and sanitation for all
Target	6.3: By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated waste water and substantially increasing recycling and safe reuse globally
Indicator	6.3.1: Percentage of Sewage Treated before discharge into Surface Water Bodies
Data Source Ministry	Ministry of Environment Forest and Climate Change
Department/Division	Central Pollution Control Board (CPCB)
Description of Indicator	The indicator is defined as the percentage of Actual Quantity Treated in Million Litres per Day out of total Sewage Generation in Million Litres per Day.
Computation	Numerator: Actual Quantity Treated in Million Litres per Day Denominator: Sewage Generation in Million Litres per Day Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Partial match with GIF 6.3.1
References	-

SDG 6 Metadata: National Indicator 6.3.2	
Goal	6. Ensure availability and sustainable management of water and sanitation for all
Target	6.3: By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally
Indicator	6.3.2: Proportion of water bodies with good ambient water quality
Data Source Ministry	Ministry of Environment, Forest and Climate Change
Department/Division	Central Pollution Control Board
Description of Indicator	Overall water quality is estimated based on an index, which incorporates data on five core parameters (Faecal Coliform, Faecal Streptococci, pH, Dissolved Oxygen, Biochemical Oxygen Demand (3 day, 27°C)), which inform on major water quality impairments present in aquatic bodies. The data generated every month by SPCBs/PCCs under NWMP Project: a) Number of analytical results of five core parameters b) Parameter-wise number of observations complying to the criteria
Computation	Numerator: Total complying observations Denominator: Total number of observations Multiplier: 100 National yearly score = (Summation of River wise yearly score)/15
Unit of measurement	Number
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 6.3.2
References	

SDG 6 Metadata: National Indicator 6.4.1	
Goal	6: Ensure availability and sustainable management of water and sanitation for all
Target	6.4: By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity
Indicator	6.4.1 : Per capita storage of water, (in m ³ /person)
Data Source Ministry	Ministry of Jal Shakti
Department/Division	Central Water Commission
Description of Indicator	The indicator is defined as per capita estimated storage of water (in BCM). Data is collected under Publication: Water and Related Statistics.
Computation	Numerator: Estimated storage of water (in BCM) Denominator: Total Population (in Billion) Multiplier: Nil
Unit of measurement	m ³ /person
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	-
References	Publication: Water and Related Statistics is available on the website http://cwc.gov.in

SDG 6 Metadata: National Indicator 6.4.2	
Goal	6: Ensure availability and sustainable management of water and sanitation for all
Target	6.4: By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity
Indicator	6.4.2 : Percentage ground water withdrawal against availability
Data Source Ministry	Ministry of Jal Shakti
Department/Division	Central Ground Water Board
Description of Indicator	The indicator is defined as the percentage of utilization of ground water resources (in Billion Cubic Meter) for irrigation, domestic and industrial uses out of the total available Ground Water (in Billion Cubic Meter)
Computation	Numerator: Utilization of ground water resources (in Billion Cubic Meter) for irrigation, domestic and industrial use Denominator: Availability of Ground Water (in Billion Cubic Meter) Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 6 Metadata: National Indicator 6.4.3	
Goal	6: Ensure availability and sustainable management of water and sanitation for all
Target	6.4: By 2030, substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity
Indicator	6.4.3: Per capita availability of water (in m ³ /year)
Data Source Ministry	Numerator: Ministry of Jal Shakti Denominator: Ministry of Home Affairs
Department/Division	Numerator: Central Water Commission and State Water Resources Departments Denominator: Office of the Registrar General & Census Commissioner, India
Description of Indicator	The indicator is defined as per capita Water availability in the region (in Cubic Meter per year). Data is collected under Publication: Water and Related Statistics.
Computation	Numerator: Water availability (in Cubic Meter per year) Denominator: Population Multiplier: Nil
Unit of measurement	m ³ /person
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 6 Metadata: National Indicator 6.5.1	
Goal	6: Ensure availability and sustainable management of water and sanitation for all
Target	6.5: By 2030, implement integrated water resources management at all levels, including through transboundary cooperation as appropriate
Indicator	6.5.1: Degree of integrated water resources management
Data Source Ministry	Ministry of Jal Shakti
Department/Division	Central Water Commission
Description of Indicator	The indicator is a percentage (%) scale of 0 to 100, indicating a country's status and progress in the existence of such National laws and regulations. Indicator measures only the existence of laws and regulations; it does not measure their implementation.
Computation	The survey contains 33 questions divided into the four main sections (Enabling environment, Institutions and participation, Management instruments, Financing). The indicator is calculated on the basis of response on these questions.
Unit of Measurement	Percentage
Periodicity	3 Years
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 6.5.1

SDG 6 Metadata: National Indicator 6.6.2	
Goal	6: Ensure availability and sustainable management of water and sanitation for all
Target	6.6: By 2020, protect and restore water-related ecosystems, including mountains, forests, wetlands, rivers, aquifers and lakes
Indicator	6.6.2: Percentage of blocks/mandals/taluka over-exploited
Data Source Ministry	Ministry of Jal Shakti
Department/Division	Central Ground Water Board
Description of Indicator	The indicator is defined as number of blocks/mandals/taluka in which ground water is over- exploited expressed as percentage of total units assessed during the reference period.
Computation	Numerator: Number of blocks/mandals/taluka over-exploited Denominator: Number of Units Assessed Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 6 Metadata: National Indicator 6.b.1	
Goal	6: Ensure availability and sustainable management of water and sanitation for all
Target	6.b: Support and strengthen the participation of local communities in improving water and sanitation management
Indicator	6.b.1: Proportion of villages with Village Water & Sanitation Committee [VWSC]
Data Source Ministry	Ministry of Jal Shakti
Department/Division	DDWS
Description of Indicator	Village Water and Sanitation Committee (VWSC), a Committee under State Panchayat Raj Act, formed by the community to plan and implement any particular water supply scheme. It is setup in each Gram Panchayat for implementation of Water Supply Scheme of their own choice with active participation of the villagers.
Computation	Numerator: Number of villages with Village water and Sanitation Committee Denominator: Total Number of Villages
Unit of measurement	Proportion
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Partial mapping with GIF 6.b.1

SDG 7 Metadata: National Indicator 7.1.1	
Goal	7: Ensure access to affordable, reliable, sustainable and modern Energy for all
Target	7.1: By 2030, ensure universal access to affordable, reliable and modern Energy Services
Indicator	7.1.1: Percentage of households electrified
Data Source Ministry	Ministry of Power
Department/Division	Central Electricity Authority
Description of Indicator	The indicator refers to percentage of households that have been electrified under the 'Saubhagya' scheme out of total number of eligible households.
Computation	Numerator: Number of households electrified as per 'Saubhagya' scheme Denominator: Number of eligible households Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Partial mapping with GIF 7.1.1

SDG 7 Metadata: National Indicator 7.1.2	
Goal	7: Ensure access to affordable, reliable, sustainable and modern Energy for all
Target	7.1: By 2030, ensure universal access to affordable, reliable and modern Energy Services
Indicator	7.1.2: Percentage of households using clean cooking fuel
Data Source Ministry	Ministry of Petroleum and Natural Gas
Department/Division	-
Description of Indicator	Percentage coverage of household using (including sources) clean cooking fuel.
Computation	Numerator: Number of households with connection of LPG and PNG Denominator: Total number of households Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Partial match with GIF 7.1.2

SDG 7 Metadata: National Indicator 7.2.1	
Goal	7: Ensure access to affordable, reliable, sustainable and modern Energy for all
Target	7.2: By 2030, increase substantially the share of renewable energy in the global energy mix
Indicator	7.2.1: Renewable energy share in the total installed electricity generation
Data Source Ministry	Ministry of New and Renewable Energy
Department/Division	-
Description of Indicator	The indicator is defined as percentage share of electricity generated (BU) through Renewable Energy Sources in overall generation of electricity (BU)
Computation	Numerator: Electricity generated from renewable source (BU) Denominator: Overall energy generation (BU) Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual

SDG 7 Metadata: National Indicator 7.3.1	
Goal	7: Ensure access to affordable, reliable, sustainable and modern Energy for all
Target	7.3: By 2030, double the global rate of improvement in energy efficiency
Indicator	7.3.1: Energy intensity measured in terms of primary energy and GDP, (in mega joules per rupee)
Data Source Ministry	Ministry of Coal, Ministry of Petroleum and Natural Gas and Central Electricity Authority
Department/Division	-
Description of Indicator	The indicator is defined as the ratio of total primary energy during the reference year to the Gross Domestic Product at constant price during the reference year
Computation	Numerator: Total Primary Energy during the reference year Denominator: Gross Domestic Product at constant price for the reference year Multiplier: Nil
Unit of measurement	Mega Joules/Rupees
Periodicity	Annual

SDG 7 Metadata: National Indicator 7.b.1	
Goal	7: Ensure access to affordable, reliable, sustainable and modern Energy for all
Target	7.b: By 2030, expand infrastructure and upgrade technology for supplying modern and sustainable energy services for all in developing countries, in particular least developed countries, small island developing States and landlocked developing countries, in accordance with their respective programmes of support.
Indicator	7.b.1: Installed renewable energy generating capacity in the country (in watts per capita) (similar to 12.a.1)
Data Source Ministry	Ministry of New and Renewable Energy
Department/Division	-
Description of Indicator	The indicator refers to total energy generating capacity per capita using installed sources of renewable energy.
Computation	Numerator: Installed electricity generation capacity in renewable energy Denominator: Mid-Year Projected Population Multiplier: Nil
Unit of measurement	Watts per capita
Periodicity	Annual

SDG 8 Metadata: National Indicator 8.1.1

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.1: Sustain per capita economic growth in accordance with national circumstances and, in particular, at least 7 per cent gross domestic product growth per annum in the least developed countries
Indicator	8.1.1: Annual growth rate of GDP (adjusted to price changes) per capita
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	The Indicator is defined as Percentage change in Annual growth rate of real GDP per capita.
Computation	Numerator: Real GDP per capita of current year - Real GDP per capita of previous year Denominator: Real GDP per capita of previous year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual

SDG 8 Metadata: National Indicator 8.2.1

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.2: Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors
Indicator	8.2.1: Annual growth rate of real GDP per employed person
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	<p>The annual growth rate of real GDP per employed person conveys the annual percentage change in real Gross Domestic Product per employed person.</p> <p>The total number of employed persons for the year 't' has been estimated using the following formula: Total employed persons for the year 't' = WPR for the year 't' x Projected population for year 't'</p> <p>The WPR has been obtained from the annual PLFS conducted by NSSO. The projected population has been published by the Office of the Registrar General & Census Commissioner, India (Office of Registrar General, India).</p> <p>Real GDP per employed persons for the year 't' = GDP at constant price for the year 't' ÷ Total number of employed persons for the year 't'.</p>
Computation	Numerator: Real GDP per employed persons for year 't' – Real GDP per employed persons for year 't-1' Denominator: Real GDP per employed persons for year 't-1' Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	National

SDG 8 Metadata: National Indicator 8.2.2

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.2: Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour intensive sectors
Indicator	8.2.2: Total number of patents issued (granted), (similar to 8.3.2 and 9.5.3)
Data Source Ministry	Ministry of Commerce and Industry
Department/Division	Department for Promotion of Industry and Internal Trade
Description of Indicator	A patent is a form of intellectual property. It is an exclusive right granted for an invention.
Computation	Total number of patents application granted
Unit of measurement	Number
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 8 Metadata: National Indicator 8.2.3

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.2: Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour intensive sectors
Indicator	8.2.3: Annual growth in manufacturing sector
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	Indicator is defined as percentage change in annual growth in manufacturing sector.
Computation	Numerator: Gross value added (GVA) (at constant price) of manufacturing sector for the reference year - Gross value added (GVA) (at constant price) of manufacturing sector for the year previous to the reference year Denominator: Gross value added (GVA) (at constant price) of manufacturing sector for the year previous to the reference year Multiplier: 100

SDG 8 Metadata: National Indicator 8.2.4	
Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.2: Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour intensive sectors
Indicator	8.2.4: Annual growth in agriculture sector
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	Indicator is defined as percentage change in annual growth in agriculture sector.
Computation	Numerator: Gross Value Added (at constant prices) of agriculture sector for the reference year - Gross Value Added (at constant prices) of agriculture sector for the year previous to the reference year Denominator: Gross Value Added (at constant prices) of agriculture sector for the year previous to the reference year Multiplier: 100

SDG 8 Metadata: National Indicator 8.3.1	
Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.3: Promote development -oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-small- and medium-sized enterprises, including through access to financial services
Indicator	8.3.1: Percentage of workers in informal sector among total workers engaged in non- agriculture sector
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	NSSO
Description of Indicator	The indicator refers to percentage of workers in usual status (ps+ss) in informal sector among total workers in usual status (ps+ss) engaged in non-agriculture sector. The Data is collected under PLFS.
Computation	Numerator: Estimated Number of workers in proprietary and partnership enterprises engaged in non-agriculture sector in usual status (ps+ss) Denominator: Estimated Number of workers engaged in non-agriculture sector in usual status (ps+ss) Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT

SDG 8 Metadata: National Indicator 8.3.3

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.3: Promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-small - and medium-sized enterprises, including through access to financial services
Indicator	8.3.3: Outstanding Credit to MSME
Data Source Ministry	Ministry of Micro, Small and Medium Enterprises
Department/Division	-
Description of Indicator	The indicator refers as total loans outstanding to micro, small and medium enterprises availed through Scheduled Commercial Banks (excluding RRBs). It will indicate overall credit flow to the sector as also enable to assess the formalization of such enterprises.
Computation	Total outstanding credit (loan) to MSMEs during the reference year (as on 31 st March)
Unit of measurement	Rs. Crore
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 8 Metadata: National Indicator 8.4.1

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.4: Improve progressively, through 2030, global resource efficiency in consumption and production and Endeavour to decouple economic growth from environmental degradation, in accordance with the 10 Year Framework of Programmes on Sustainable Consumption and Production, with developed countries taking the lead
Indicator	8.4.1: Proportion of waste recycled vs. waste generated
Data Source Ministry	Ministry of Environment, Forest and Climate Change
Department/Division	Central Pollution Control Board
Description of Indicator	<p>This indicator indicates the percentage of hazardous waste recycled.</p> <ol style="list-style-type: none"> 1. Hazardous waste is waste that is dangerous or may become dangerous to the environment or people's health. 2. Municipal waste is defined at national level as wastes consisting of everyday items. These wastes come from household, institutions and commercial establishments. 3. E-waste or electronic waste is created when an electronic product is discarded after the end of its useful life. Electronic waste or e-waste may be defined as discarded computers, office electronic equipment, entertainment device electronics, mobile phones, television sets, and refrigerators. This includes used electronics which are destined for reuse, resale, salvage, and repairable electronics) and secondary scraps (copper, steel, plastic, etc.).
Computation	Numerator: Quantity of hazardous waste recycled Denominator: Quantity of hazardous waste generated Multiplier: 100

SDG 8 Metadata: National Indicator 8.4.2

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.4: Improve progressively, through 2030, global resource efficiency in consumption and production and Endeavour to decouple economic growth from environmental degradation, in accordance with the 10 Year Framework of Programmes on Sustainable Consumption and Production, with developed countries taking the lead
Indicator	8.4.2: Per capita fossil fuel consumption, (in Kg.)
Data Source Ministry	Ministry of Petroleum and Natural Gas
Department/Division	-
Description of Indicator	This indicator is defined as total fossil fuel consumption to the total population of India. Only petroleum products have been considered for fossil fuel consumption. Also, total consumption includes private sales by oil companies and excludes direct private imports.
Computation	Numerator: Total fossil fuel consumption during reference year Denominator: Mid-year population during reference year Multiplier: Nil
Unit of measurement	Kg
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-

SDG 8 Metadata: National Indicator 8.5.1

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.5: By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value
Indicator	8.5.1: Average hourly earnings of employees, by sex, age, occupation
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	NSSO
Description of Indicator	<p>Earnings are a key aspect of quality of employment and living conditions. Information on hourly earnings disaggregated by various classifications (sex, age, occupation) provides some indication of the extent to which pay equality is respected or achieved.</p> <p>Average Earning Per Hour (AEPH) = Total wage / earnings during the week earned by regular wage / salaried workers and casual labourer in Current Weekly Status (CWS) divided by Total hours worked during the week by regular wage / salaried workers and casual labourer in Current Weekly Status (CWS) working as regular wage / salaried workers and casual labourer.</p> <p>The Data is collected under PLFS.</p>
Computation	<p>Numerator: Total estimated earnings during the week by regular wage / salaried workers and casual labourer in Current Weekly Status (CWS).</p> <p>For computing the weekly earnings of regular wage / salaried workers in Current Weekly Status (CWS) the earning figure reported for last calendar month is adjusted by the factor (7/30).</p> <p>For computing the weekly earnings of casual labourer in Current Weekly Status (CWS), daily wage earned working as casual labourer are aggregated for the week</p> <p>Denominator: Total estimated hours worked during the week by regular wage / salaried workers and casual labourer in Current Weekly Status (CWS) working as regular wage / salaried workers and casual labourer</p> <p>For computing the total hours worked during the week by regular wage / salaried workers labourer in Current Weekly Status (CWS), the daily hours worked as regular wage /salaried worker are aggregated for the week</p> <p>For computing the total hours worked during the week by casual labourer in Current Weekly Status (CWS), the daily hours worked as casual labour for those days for which wages are reported as > 0 are aggregated for the week</p> <p>Average Earning Per Hour for a particular category '-' (blank) or 0 (zero) indicate no sample observation for the particular category</p> <p>Multiplier: Nil</p>
Unit of measurement	Rs.

SDG 8 Metadata: National Indicator 8.5.2

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.5: By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value
Indicator	8.5.2: Unemployment rate
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	NSSO
Description of Indicator	<p>Unemployment Rate is defined as the number of persons unemployed per 100 persons in the labour force (which includes both the employed and unemployed). It is the percentage of unemployed persons among total persons in the labour force in the usual status (ps+ss) (which includes principal status (ps) and subsidiary status (ss))</p> <p>The Data is collected under PLFS.</p>
Computation	<p>Numerator: Estimated Number of unemployed persons in usual status (ps+ss)</p> <p>Denominator: Estimated Number of persons in the labour force in usual status (ps+ss)</p> <p>Multiplier: 100</p>
Unit of measurement	Per 100 persons
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	Geographical location (rural/urban)
Mapping with Global Indicator	Partial match with GIF 8.5.2
References	PLFS Report is available on the website www.mospi.gov.in

SDG 8 Metadata: National Indicator 8.5.3

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.5: By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value
Indicator	8.5.3: Labour Force Participation Rate (LFPR) (%) (15- 59 years)
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	NSSO
Description of Indicator	LFPR is defined as the percentage of persons in labour force (i.e. working or seeking or available for work) in the population. The Data is collected under PLFS.
Computation	Numerator: Number of persons in labour force (i.e. working or seeking or available for work) Denominator: Total number of persons Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	Geographical location (rural/urban)

SDG 8 Metadata: National Indicator 8.7.1

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.7: Take immediate and effective measures to eradicate forced labour, end modern slavery and human trafficking and secure the prohibition and elimination of the worst forms of child labour, including recruitment and use of child soldiers, and by 2025 end child labour in all its forms
Indicator	8.7.1: Human trafficking cases per 10,00,000 population.
Data Source Ministry	Ministry of Home Affairs
Department/Division	National Crime Record Bureau
Description of Indicator	The indicator is defined as number of cases reported under human trafficking during the reference calendar year within the geographical area per 10,00,000 population
Computation	Numerator: Number of cases reported under human trafficking during the reference calendar year within the geographical area Denominator: Total mid-year projected population during the reference period Multiplier: 10,00,000
Unit of measurement	Per 10,00,000 population
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 8 Metadata: National Indicator 8.7.2

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.7: Take immediate and effective measures to eradicate forced labour, end modern slavery and human trafficking and secure the prohibition and elimination of the worst forms of child labour, including recruitment and use of child soldiers, and by 2025 end child labour in all its forms
Indicator	8.7.2: Number of Missing Children
Data Source Ministry	Ministry of Home Affairs
Department/Division	National Crime Record Bureau
Description of Indicator	The indicator is defined as the number of children (under age 18 years) reportedly went missing during the reference calendar year within the geographical area.
Computation	Number of children (under age 18 years) reportedly went missing during the reference calendar year within the geographical area
Unit of measurement	Number
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 8 Metadata: National Indicator 8.8.1

Goal	8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	Target 8.8: Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment
Indicator	8.8.1: Fatal and non-fatal occupational injuries per 100,000 workers.
Data Source Ministry	Ministry of Labour and Employment
Department/Division	Directorate General, Factory Advice Service and Labour Institutes, Mumbai
Description of Indicator	The data refers to number of fatal and non-fatal occupational injuries in factories per one-lakh persons employed in working factories during the calendar reference year. The data presented relates only to factories registered under the Factories Act, 1948. The data collected pertains only to factories registered under the Factories Act, 1948 and submitting returns. Data is not collected from factories which are not registered under the Factories Act, 1948.
Computation	Number of persons injured (fatal and non-fatal) in accidents in factories per one-lakh persons employed during the reference year.
Unit of Measurement	Number
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Exact mapping with GIF 8.8.1

SDG 8 Metadata: National Indicator 8.8.2

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.8: Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment
Indicator	8.8.2: Percentage of migrant workers
Data Source Ministry	Ministry of Home Affairs
Department/Division	Office of the Registrar General & Census Commissioner, India
Description of Indicator	<p>The indicator is a percentage of migrants who are engaged in any economic activities to total migrants. The data is derived through the Population Census refers to migrant workers expressed as percentage of total workers.</p> <p>Migrant workers are those Persons who moved with change of residence from one village/ town to another for any reason and are engaged in any economic activity.</p> <p>The Data is collected in Census of India.</p>
Computation	<p>Numerator: Number of migrant workers in the reference year</p> <p>Denominator: Number of migrants in the reference year</p> <p>Multiplier: 100</p>
Unit of measurement	Percent
Periodicity	10 Years
Level of Disaggregation	State/UT
Type of Disaggregation	Gender
Mapping with Global Indicator	-

SDG 8 Metadata: National Indicator 8.8.3

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.8: Protect labour rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment
Indicator	8.8.3: Percentage of regular wage/ salaried employees in non-agriculture sector without any social security benefit
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	NSSO
Description of Indicator	<p>The indicator is defined as the percentage of regular wage/ salaried employees in non-agriculture sector without any social security benefit in the reference year among the total number of regular wage/ salaried employees in non-agriculture sector in the reference year</p> <p>The Data is collected under PLFS.</p>
Computation	<p>Numerator: Number of regular wage/ salaried employees in non-agriculture sector without any social security benefit in the reference year</p> <p>Denominator: Number of regular wage/ salaried employees in non-agriculture sector in the reference year</p> <p>Multiplier: 100</p>

SDG 8 Metadata: National Indicator 8.9.1

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.9: By 2030, devise and implement policies to promote sustainable tourism that creates jobs and promotes local culture and products
Indicator	8.9.1: Tourism Direct GDP as a proportion of total GDP and in growth rate
Data Source Ministry	Ministry of Tourism
Department/Division	-
Description of Indicator	The indicator measures Tourism Direct GDP as a proportion of total GDP and in its growth rate.
Computation	<p>Tourism Direct GDP as a proportion of total GDP is calculated as:</p> <p>Numerator: Tourism Direct GDP in reference year</p> <p>Denominator: Total GDP in reference year</p> <p>Multiplier: 100</p> <p>The growth rate is calculated as:</p> <p>Numerator: Change in Tourism Direct GDP during current reference year over previous reference year</p> <p>Denominator: Tourism direct gross domestic product during the previous reference year</p> <p>Multiplier: 100</p>
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 8.9.1
References	Data is available on the website http://tourism.gov.in

SDG 8 Metadata: National Indicator 8.9.2

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.9: By 2030, devise and implement policies to promote sustainable tourism that creates jobs and promotes local culture and products
Indicator	8.9.2: Percentage change in number of visits by tourists (domestic and foreign) over previous years
Data Source Ministry	Ministry of Tourism
Department/Division	-
Description of Indicator	Percentage changes in number of visits to different States/UTs by the domestic and foreign visitors
Computation	<p>Numerator: Difference between number of tourists (domestic + Foreign) visited in reference year and previous reference year</p> <p>Denominator: Tourist visited in previous reference year</p> <p>Multiplier: 100</p>
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT

SDG 8 Metadata: National Indicator 8.10.1

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.10: Strengthen the capacity of domestic financial institutions to encourage and expand access to banking, insurance and financial services for all
Indicator	8.10.1 : (a) Number of banking outlets 1,00,000 population (b) Automated Teller Machines (ATMs) per 1,00,000 population
Data Source Ministry	Reserve Bank of India
Department/Division	-
Description of Indicator	The indicator denotes number of banking outlets (functioning Branches of Commercial Banks and ATMs) per 1,00,000 population as on 31st March of the reference financial year.
Computation	(a) Numerator: Number of Banking outlets in reference year Denominator: Mid-year population of reference year Multiplier: 1,00,000 (b) Numerator: Number of ATM in reference year Denominator: Mid-year population of reference year Multiplier: 1,00,000
Unit of measurement	Per 1,00,000 population
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Partial match with GIF 8.10.1

SDG 8 Metadata: National Indicator 8.10.2

Goal	8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
Target	8.10: Strengthen the capacity of domestic financial institutions to encourage and expand access to banking, insurance and financial services for all
Indicator	8.10.2 : Number of accounts (include deposit and credit accounts) of scheduled commercial banks per 1,000 population
Data Source Ministry	Reserve Bank of India
Department/Division	-
Description of Indicator	The number of accounts (which include deposit and credit accounts) of scheduled commercial banks as on 31st March of the reference financial year is available with RBI.
Computation	Numerator: Number of accounts (include deposit and credit accounts) of scheduled commercial banks during the reference period Denominator: Projected mid-year population during the reference period Multiplier: 1,000
Unit of measurement	Per 1,000 population
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-

SDG 9 Metadata: National Indicator 9.1.1	
Goal	9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
Target	9.1: Develop quality, reliable, sustainable and resilient infrastructure, including regional and trans-border infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
Indicator	9.1.1: Proportion of the rural population who live within 2 km of an all-season road
Data Source Ministry	Ministry of Rural Development
Department/Division	-
Description of Indicator	The status of all-weather road is as per Mission Antyodaya Survey. The indicator is computed as percentage of population with access to all weather road (<2 km) from the total population in the villages in a given period.
Computation	Numerator: Total Population with all weather road connectivity Denominator: Total Population as per Mission Antyodaya Survey Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	State/UT

SDG 9 Metadata: National Indicator 9.1.2	
Goal	9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
Target	9.1: Develop quality, reliable, sustainable and resilient infrastructure, including regional and trans-border infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
Indicator	9.1.2: Passenger and freight volumes, by mode of transport
Data Source Ministry	Ministry of Railway Ministry of Road Transport and Highways Ministry of Civil Aviation
Department/Division	-
Description of Indicator	This indicator consisting of three components of mode of transport i.e. Railways, Air and Road as these are three basic elements of transport system and contribute largely to Indian transport system: 1) Passenger movement and freight volumes by Railways 2) Passenger movement and freight volumes by Roads 3) Passenger movement and freight volumes by Scheduled Indian Airlines
Computation	-
Unit of measurement	Road Transport (Passengers - Billion Passenger Km / Freight - Billion Tonnes Km) Scheduled Indian Airlines (Passenger - Million / Cargos - Million Tonnes) Indian Railways (Passenger - Million / Freight - Million Tonnes)
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 9 Metadata: National Indicator 9.1.3

Goal	9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
Target	9.1: Develop quality, reliable, sustainable and resilient infrastructure, including regional and trans-border infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all
Indicator	9.1.3: Gross Capital Formation by industry of use
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	It is the net additions to fixed assets in the economy, Change in Stocks of Inventories (CIS) and valuables during the accounting period. GCF is estimated using production approach (Commodity flow method) and expenditure approach and $GCF = GFCF + CIS + \text{Valuables}$.
Computation	Gross Capital Formation (GCF) by industry excluding valuables for the reference year
Unit of measurement	Rs. Crore
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 9 Metadata: National Indicator 9.2.1

Goal	9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
Target	9.2: Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries
Indicator	9.2.1: Manufacturing value added as a proportion of GDP and per capita
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	The indicator is defined as the manufacturing Gross Value added as percentage of GDP at current/constant prices and manufacturing Gross Value added per capita.
Computation	Numerator: GVA (current/constant) at Basic Price in Manufacturing during reference year Denominator: GDP (current/constant) during reference year Multiplier: 100 MVA per capita = GVA in manufacturing at constant price/population
Unit of measurement	Percent and per capita
Periodicity	Annual

SDG 9 Metadata: National Indicator 9.2.2

Goal	9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
Target	9.2: Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries
Indicator	9.2.2: Manufacturing employment as a proportion of total employment
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	NSSO
Description of Indicator	The indicator is defined as a percentage of number of workers in usual status (ps+ss) engaged in manufacturing sector out of the total number of workers in usual status (ps+ss), during the reference year. The Data is collected under PLFS.
Computation	Numerator: Estimated number of workers in usual status (ps+ss) engaged in manufacturing sector i.e. industry division 10-33 of National Industrial Classification (NIC) - 2008 during the reference year Denominator: Estimated Number of workers in usual status (ps+ss) during the reference year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-

SDG 9 Metadata: National Indicator 9.2.3

Goal	9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
Target	9.2: Promote inclusive and sustainable industrialization and, by 2030, significantly raise industry's share of employment and gross domestic product, in line with national circumstances, and double its share in least developed countries
Indicator	9.2.3: Percentage Share of GVA in Manufacturing to Total GVA
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	The indicator is defined as the manufacturing Gross Value as percentage of Total Value Added (GVA) at current prices. Gross Value Added is defined as output less intermediate consumption. Gross value added is arrived by aggregating sector-wise value added. Sector-wise GVA is estimated using production/income/ expenditure approach depending upon the availability of related data.
Computation	Numerator: GVA at Basic Price in Manufacturing during reference year Denominator: GVA at basic prices during reference year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 9 Metadata: National Indicator 9.4.1

Goal	9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
Target	9.4: By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities.
Indicator	9.4.1: Total CO ₂ emissions of power sector per unit of GDP (in Tonne/Rupees Crore)
Data Source Ministry	Ministry of Power
Department/Division	Central Electricity Authority
Description of Indicator	The indicator refers to the amount of CO ₂ emissions generated by the power sector per unit of GDP.
Computation	Numerator: Total CO ₂ emission of power sector Denominator: GDP at current price Multiplier: Nil
Unit of measurement	Tonne/Rs. Crore
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

Goal	9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
Target	9.5: Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending
Indicator	9.5.2: Researchers (in full time equivalent) per million population
Data Source Ministry	Ministry of Science and Technology
Department/Division	Department of Science and Technology
Description of Indicator	This indicator is expressed in terms of researcher engaged in Research and Development (R&D) activities per million population and activities comprise institutional sector, higher education sector and industrial (public and private sector). Data includes: Major Scientific Agencies, Central Government/Ministry/Department, State Government, Higher Education, Public and Private. Sector Industries and SIRO's.
Computation	Numerator: Number of researchers (in numbers) Denominator: Population during reference period (in millions) Multiplier: Nil
Unit of measurement	Per million population
Periodicity	Biennial

Goal	9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
Target	9.5: Enhance scientific research, upgrade the technological capabilities of industrial sectors in all countries, in particular developing countries, including, by 2030, encouraging innovation and substantially increasing the number of research and development workers per 1 million people and public and private research and development spending
Indicator	9.5.3: Total number of patents issued (granted), (similar to 8.2.2 and 8.3.2)
Data Source Ministry	Ministry of Commerce and Industry
Department/Division	Department for Promotion of Industry and Internal Trade
Description of Indicator	A patent is a form of intellectual property. It is an exclusive right granted for an invention.
Computation	Total number of patents application granted
Unit of measurement	Number
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 9 Metadata: National Indicator 9.b.1

Goal	9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
Target	9.b: Support domestic technology development, research and innovation in developing countries, including by ensuring a conducive policy environment for, inter alia, industrial diversification and value addition to commodities
Indicator	9.b.1: Share of IPP in total Gross Fixed Capital Formation, (in percentage)
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	Numerator is the net additions to fixed assets in the form of IPP in the economy during the accounting period. IPP asset of GFCF is estimated using expenditure approach.
Computation	Numerator: Estimate of Intellectual Property Products in GFCF during reference year Denominator: Estimate of GFCF during reference year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 9 Metadata: National Indicator 9.b.2	
Goal	9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
Target	9.b: Support domestic technology development, research and innovation in developing countries, including by ensuring a conducive policy environment for, inter alia, industrial diversification and value addition to commodities
Indicator	9.b.2: Share of GVA of Information and Computer related activities in total GVA, (in percentage)
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	The indicator is defined as the percentage share GVA of Information and Computer related activities in total GVA
Computation	Numerator: GVA of Information and Computer related activities Denominator: GVA of the total economy Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

References	Data is available on the website http://www.mospi.gov.in

SDG 9 Metadata: National Indicator 9.c.1	
Goal	9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
Target	9.c: Significantly increase access to information and communications technology and strive to provide universal and affordable access to the Internet in least developed countries by 2021
Indicator	9.c.1: Proportion of population covered by a mobile network, by technology
Data Source Ministry	Ministry of Communications
Department/Division	Department of Telecommunications
Description of Indicator	The indicator measures proportion of population covered by a mobile network, by technolo.
Computation	Numerator: Population covered by a mobile network, by a given technology during reference year Denominator: Mid-year population during reference year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Partial match with GIF 9.c.1

SDG 10 Metadata: National Indicator 10.1.1	
Goal	10: Reduce inequality within and among countries
Target	10.1: By 2030, progressively achieve and sustain income growth of the bottom 40 per cent of the population at a rate higher than the national average
Indicator	10.1.1: Growth rates of household expenditure per capita among the bottom 40 per cent of the population and the total population
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	NSSO
Description of Indicator	The indicator measures growth rate of household expenditure per capita among the bottom 40 per cent of the population in the current year with respect to previous year.
Computation	<p>Numerator: Change in per capita household expenditure (in constant price) of the concerned group of population (bottom 40% of the population or the total population, as the case may be) in the current period from the previous year</p> <p>Denominator: Per capita household expenditure of the concerned group of population (bottom 40% of the population or the total population, as the case may be) in the previous period</p> <p>Multiplier: 100</p>
Unit of measurement	Percent
Periodicity	5 years
Level of Disaggregation	State/UT
Type of Disaggregation	Geographical location (rural/urban)
Mapping with Global Indicator	Exact match with GIF 10.1.1
References	NSS 68 th round report is available on the website www.mospi.gov.in

SDG 10 Metadata: National Indicator 10.1.2	
Goal	10: Reduce inequality within and among countries
Target	10.1: By 2030, progressively achieve and sustain income growth of the bottom 40 per cent of the population at a rate higher than the national average
Indicator	10.1.2: Gini Coefficient of Household Expenditure
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	NSSO
Description of Indicator	The indicator measures the inequality in consumption expenditure. The coefficient ranges from zero to one, with zero representing perfect equality and one showing perfect inequality. Gini coefficient measures the deviation of distribution of income (or consumption) among the individuals within a country from a perfectly equal distribution
Computation	The Gini coefficient is the ratio of the area that lies between the line of equality and the Lorenz curve
Unit of measurement	Ratio
Periodicity	5 years
Level of Disaggregation	State/UT
Type of Disaggregation	Geographical location (rural/urban)
Mapping with Global Indicator	-

SDG 10 Metadata: National Indicator 10.2.1

Goal	10: Reduce inequality within and among countries
Target	10.2: By 2030, empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status
Indicator	10.2.1: Percentage of people living below 50 per cent of median per capita household expenditure
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	NSSO
Description of Indicator	Percentage of people living below 50 per cent of median MPCE. The household consumption expenditures are collected with different reference periods for different items with last 7 days' for some food items, last 30 days' consumption for some other food items and some non-food items, and last 365 days' for some very infrequently consumed items. However, all such expenditures are translated in monthly expenditures.
Computation	Numerator: Estimated number of persons with MPCE less than or equal to Median MPCE in each sector (i.e., Rural or Urban) Denominator: Estimated number of all persons in each sector Multiplier: 100
Unit of measurement	Percent
Periodicity	5 years
Level of Disaggregation	State/UT
Type of Disaggregation	Geographical location (rural/urban)
Mapping with Global Indicator	Partial match with GIF 10.2.1
References	NSS 68 th round report is available on the website www.mospi.gov.in

SDG 10 Metadata: National Indicator 10.2.2

Goal	10: Reduce inequality within and among countries
Target	10.2: By 2030, empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status
Indicator	10.2.2: Proportion of seats held by women in (a) national parliaments and (b) local governments (similar to 5.5.1 and 16.7.1)
Data Source Ministry	1) Election Commission of India 2) Ministry of Panchayati Raj 3) Ministry of Housing and Urban Affairs
Department/Division	-
Description of Indicator	Proportion of seats held by women in Lok Sabha, State Legislative Assembly, Urban Local Bodies and Panchayati Raj Institutions
Computation	Numerator: Women representative in Lok Sabha/Legislative Assembly/ULB/PRI Denominator: Total representatives in Lok Sabha/Legislative Assembly/ULB/PRI Multiplier: 100
Unit of measurement	Percent
Periodicity	5 Years for Lok Sabha, ULB and PRI; Annual for State Legislative Assembly
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 10.2.2
References	Data is available on the website http://eci.nic.in ; http://www.panchayat.gov.in

SDG 10 Metadata: National Indicator 10.2.3

Goal	10: Reduce inequality within and among countries
Target	10.2: By 2030, empower and promote the social, economic and political inclusion of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status
Indicator	10.2.3: Ratio (in percent) of female workers to male workers working as Professionals and Technical Workers
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	NSSO
Description of Indicator	It is the ratio (in percent) of female workers to male workers working as Professionals and Technical Workers. The Data is collected under PLFS.
Computation	Numerator: Female workers working as Professionals and Technical Workers Denominator: Male workers working as Professionals and Technical Workers Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 10 Metadata: National Indicator 10.4.1

Goal	10: Reduce inequality within and among countries
Target	10.4: Adopt policies, especially fiscal, wage and social protection policies, and progressively achieve greater equality.
Indicator	10.4.1: Labour Share of GDP
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	Labour share of Gross Domestic Product (GDP) is the total compensation of employees given as a percent of GDP, which is a measure of total output. It provides information about the relative share of output which is paid as compensation to employees as compared with the share paid to capital in the production process for a given reference period.
Computation	Numerator: Compensation of employees Denominator: GDP at current price Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 10.4.1
References	-

SDG 10 Metadata: National Indicator 10.4.2	
Goal	10: Reduce inequality within and among countries
Target	10.4: Adopt policies, especially fiscal, wage and social protection policies, and progressively achieve greater equality.
Indicator	10.4.2: Percentage of budget allocated to North Eastern States
Data Source Ministry	Ministry of Finance
Department/Division	Department of Economic Affairs
Description of Indicator	The indicator measures percentage allocation of budget to North Eastern regions out of total budget allocation during the reference year.
Computation	Numerator: Budget allocated to North Eastern region Denominator: Total budget allocation Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	-
References	Data is available on the website https://www.indiabudget.gov.in

SDG 10 Metadata: National Indicator 10.4.3	
Goal	10: Reduce inequality within and among countries
Target	10.4: Adopt policies, especially fiscal, wage and social protection policies, and progressively achieve greater equality.
Indicator	10.4.3: Percentage of budget allocated for welfare of Scheduled Caste and Scheduled Caste
Data Source Ministry	Ministry of Finance
Department/Division	Department of Economic Affairs
Description of Indicator	The indicator measures percentage actual allocation of budget to welfare of persons belonging to Schedules Castes and Scheduled Tribes out of total actual budget allocation during the reference year.
Computation	Numerator: Total actual budget allocated welfare of SCs and STs during the reference year Denominator: Total actual budget allocation during the reference year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 10 Metadata: National Indicator 10.5.1

Goal	10: Reduce inequality within and among countries
Target	10.5: Improve the regulation and monitoring of global financial markets and institutions and strengthen the implementation of such regulations
Indicator	10.5.1: Financial Soundness Indicators
Data Source Ministry	Reserve Bank of India
Department/Division	-
Description of Indicator	Seven FSIs are included as SDG indicators for 10.5.1 and expressed as percent. <ul style="list-style-type: none"> i. Regulatory Tier 1 capital to risk-weighted assets ii. Nonperforming loans net of provisions to capital iii. Nonperforming loans to total gross loans iv. Return on assets v. Liquid assets to short-term liabilities vi. Net open position in foreign exchange to capital vii. Capital to assets
Computation	The above indicator is computed by RBI on the basis of key financial ratios compiled based on reported data of Deposit Takers viz. SCBs, UCBs and RRBs (Obtained from NABARD)
Unit of Measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 10.5.1

SDG 10 Metadata: National Indicator 10.6.1

Goal	10: Reduce inequality within and among countries
Target	10.6: Ensure enhanced representation and voice for developing countries in decision-making in global international economic and financial institutions in order to deliver more effective, credible, accountable and legitimate institutions
Indicator	10.6.1: whether the country is a member and has voting rights in international organizations (similar to 16.8.1)
Data Source Ministry	Ministry of External Affairs
Department/Division	UNES Division
Description of Indicator	The indicator is calculated independently for eleven different international institutions: The United Nations General Assembly, the United Nations Security Council, the United Nations Economic and Social Council, the International Monetary Fund, the International Bank for Reconstruction and Development, the International Finance Corporation, the African Development Bank, the Asian Development Bank, the Inter-American Development Bank, the World Trade Organization, and the Financial Stability Board.
Computation	Number of membership (voting rights) in eleven different international institutions.
Unit of measurement	Ratio
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 10.6.1

SDG 10 Metadata: National Indicator 10.7.1

Goal	10: Reduce inequality within and among countries
Target	10.7: Facilitate orderly, safe, regular and responsible migration and mobility of people, including through the implementation of planned and well-managed migration policies
Indicator	10.7.1: Recruitment cost borne by employee as a proportion of yearly income earned in country of destination
Data Source Ministry	Ministry of External Affairs
Department/Division	Overseas Employments & Protectorate General of Emigrants (OE & PG) Division
Description of Indicator	The indicator is defined as the proportion of recruitment costs borne by employee in the monthly employment earnings.
Computation	RCI = Proportion of recruitment costs in the monthly employment earnings Calculation: RCI = Mean of $(C_k/(E_k))$ Where, C _k = is the recruitment costs paid by individual migrant worker E _k = is the monthly earnings of the same migrant worker k
Unit of measurement	Proportion
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 10.7.1
References	-

SDG 10 Metadata: National Indicator 10.c.1

Goal	10: Reduce inequality within and among countries
Target	10.c: By 2030, reduce to less than 3 per cent the transaction costs of migrant remittances and eliminate remittance corridors with costs higher than 5 per cent.
Indicator	10.c.1: Remittance costs as a proportion of the amount remitted
Data Source Ministry	Reserve Bank of India
Department/Division	-
Description of Indicator	Data for remittance is provided in the category of two types of transfer Mode through Direct Transfer to Bank Account/Electronic Wire and through SWIFT. Cost of sending USD 200 to public sector bank and cost of receiving USD 200 Public Sector Banks are provided in term of Range by RBI.
Computation	Numerator: Total remittance cost through Direct Transfer to Bank Account/Electronic Wire and through SWIFT transfer mode Denominator: Total amount remitted Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Partial match with GIF 10.c.1
References	Data is available on the website https://www.rbi.org.in

SDG 11 Metadata: National Indicator 11.2.2

Goal	11: Make cities and human settlements inclusive, safe, resilient and sustainable
Target	11.2: By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons
Indicator	11.2.2: People killed/injured in road accidents (similar to 3.6.1)
Data Source Ministry	Ministry of Home Affairs
Department/Division	National Crime Record Bureau
Description of Indicator	The indicator gives the total number of people killed (injured) due to road traffic accidents during reference year per population of reference year.
Computation	Numerator: People killed (injured) due to road traffic accidents during reference year Denominator: Mid-year population of reference year Multiplier: 1,00,000
Unit of measurement	Per 1,00,000 population
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-
References	Publication is available on the website http://ncrb.gov.in

SDG 11 Metadata: National Indicator 11.3.1

Goal	11: Make cities and human settlements inclusive, safe, resilient and sustainable
Target	11.3: By 2030, enhance inclusive and sustainable geographical location (rural/urban) and capacity for participatory, integrated and sustainable human settlement planning and management in all countries
Indicator	11.3.1: Proportion of Cities with Master Plan (similar to 11.a.1)
Data Source Ministry	Ministry of Housing and Urban Affairs
Department/Division	-
Description of Indicator	The indicator gives the proportion of cities with Master plan during reference year. If in the opinion of the State Government any regulated area requires to be developed according to a Master Plan, it may cause such plan to be prepared either through the Controlling Authority or through such other agency as the State Government may think fit. The Master Plan shall be comprehensive plan showing therein the existing and proposed location and general layout of: 1) Arterial streets and transportation lines 2) Residential sections 3) Business areas 4) Industrial areas 5) Educational institutions 6) Public Parks, play grounds and other recreational facilities 7) Public and semi-public buildings 8) Other land-uses which are necessary
Computation	Numerator: Number of cities with Master plan during reference year Denominator: Total number of cities during the reference year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 11 Metadata: National Indicator 11.4.1

Goal	11: Make cities and human settlements inclusive, safe, resilient and sustainable
Target	11.4: Strengthen efforts to protect and safeguard the world's cultural and natural heritage
Indicator	11.4.1: Total per capita expenditure on the preservation, protection and conservation of all cultural and natural heritage
Data Source Ministry	Ministry of Culture
Department/Division	-
Description of Indicator	The indicator shows per capita total funding from central government in the preservation, protection and conservation of ASI monuments for a given year.
Computation	Numerator: Total funding by Central Govt. in the conservation, preservation and protection of ASI monuments for the reference period Denominator: Projected population for the reference period Multiplier: Nil
Unit of measurement	Per capita
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	Cultural Heritage
Mapping with Global Indicator	Partial match with GIF 11.4.1
References	-

SDG 11 Metadata: National Indicator 11.5.1

Goal	11. Make cities and human settlements inclusive, safe, resilient and sustainable
Target	11.5: By 2030, significantly reduce the number of deaths and the number of people affected and substantially decrease the direct economic losses relative to global gross domestic product caused by disasters, including water-related disasters, with a focus on protecting the poor and people in vulnerable situations
Indicator	11.5.1: Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population (similar to 1.5.1 and 13.1.1)
Data Source Ministry	Ministry of Home Affairs
Department/Division	Disaster Management Division (DMD)
Description of Indicator	This indicator measures the number of people who died, went missing or were directly affected by disasters per 100,000 population.
Computation	Numerator: Number of deaths attributed to disasters + Number of missing persons attributed to disasters + Number of directly affected people attributed to disasters Denominator: Population Multiplier: 100,000
Unit of Measurement	Number
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 11.5.1

SDG 11 Metadata: National Indicator 11.6.1

Goal	11: Make cities and human settlements inclusive, safe, resilient and sustainable
Target	11.6: By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management.
Indicator	11.6.1: Percentage of Waste processed
Data Source Ministry	Ministry of Housing and Urban Affairs
Department/Division	-
Description of Indicator	The indicator is defined as the percentage of total waste processed out of total waste generated during reference year.
Computation	Numerator: Total waste processed during reference year Denominator: Total waste generation during the reference year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Partial mapping with GIF 11.6.1

SDG 11 Metadata: National Indicator 11.6.2

Goal	11: Make cities and human settlements inclusive, safe, resilient and sustainable
Target	11.6: By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management.
Indicator	11.6.2 : Percentage of wards with 100% door to door waste collection
Data Source Ministry	Ministry of Housing and Urban Affairs
Department/Division	-
Description of Indicator	The indicator is defined as the percentage of wards with 100% door to door waste collection out of total number of wards during reference year.
Computation	Numerator: Number of wards with 100% door to door waste collection Denominator: Total number of wards Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual

SDG 11 Metadata: National Indicator 11.6.3

Goal	11: Make cities and human settlements inclusive, safe, resilient and sustainable
Target	11.6: By 2030, reduce the adverse per capita environmental impact of cities, including by paying special attention to air quality and municipal and other waste management.
Indicator	11.6.3: The number of good air days when the Particulate matter level is below country standards for PM 10
Data Source Ministry	Ministry of Environment Forest and Climate Change
Department/Division	Central Pollution Control Board
Description of Indicator	It is the number of days when the particulate matter level is below country standards for PM 10
Computation	The number of good air days for cities have been computed, when daily average concentration of PM10 is below 100 µg/m ³ .
Unit of measurement	Number
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 11 Metadata: National Indicator 11.b.1	
Goal	11. Make cities and human settlements inclusive, safe, resilient and sustainable
Target	11.b: By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015–2030, holistic disaster risk management at all levels
Indicator	11.b.1: Whether the country has adopted and implemented national disaster risk reduction strategies inline with the Sendai Framework for Disaster Risk Reduction 2015-2030, (similar to 1.5.3 and 13.1.2)
Data Source Ministry	Ministry of Home Affairs
Department/Division	Disaster Management Division (DMD)
Description of Indicator	National and local disaster risk reduction strategies should be based on, and aligned with, the guiding principles, scope, outcomes, and strategic priorities of the Sendai Framework, and in particular Paragraph 27 (b) which identifies that strategies should be adopted and implemented.
Computation	National average score for the adoption and implementation of national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030 is calculated on the basis of a set of questions.

SDG 11 Metadata: National Indicator 11. b.2	
Goal	11. Make cities and human settlements inclusive, safe, resilient and sustainable
Target	11.b: By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015–2030, holistic disaster risk management at all levels
Indicator	11.b.2: Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies (similar to 1.5.4 and 13.1.3)
Data Source Ministry	Ministry of Home Affairs
Department/Division	Disaster Management Division (DMD)
Description of Indicator	The indicator is defined as the percentage of districts that have adopted and implemented local DRR strategies in line with national strategies out of total number of districts in the country during the given reference period.
Computation	Numerator: Number of districts that have adopted and implemented local DRR strategies in line with national strategies Denominator: Total number of districts Multiplier: 100
Unit of Measurement	Proportion
Periodicity	Annual

SDG 12 Metadata: National Indicator 12.3.1	
Goal	12: Ensure sustainable consumption and production patterns
Target	12.3: By 2030, halve per capita global food waste at the retail and consumer levels and reduce foodlosses along production and supply chains, including post-harvest losses
Indicator	12.3.1: Per capita food availability
Data Source Ministry	Ministry of Agriculture and Farmers' Welfare
Department/Division	FE, DAC&FW
Description of Indicator	Net availability of food grains per year per person
Computation	<p>Numerator: Net availability of food grains (in kg.) during the reference year Denominator: Mid-year population during the reference year Multiplier: Nil</p> <p>Where, Net availability of food grains = (Production of rice, wheat, other cereals and all pulses in '000 tons) – (seed, feed and wastage) - exports + imports + change in stocks (+/-)</p>
Unit of measurement	Kg per year per person
Periodicity	Annual

SDG 12 Metadata: National Indicator 12.3.2	
Goal	12: Ensure sustainable consumption and production patterns
Target	12.3: By 2030, halve per capita global food waste at the retail and consumer levels and reduce foodlosses along production and supply chains, including post-harvest losses
Indicator	12.3.2: Post harvest storage and distribution losses of Central/States Pool stocks of wheat and rice
Data Source Ministry	Ministry of Consumer Affairs, Food and Public Distribution
Department/Division	Department of Food and Public Distribution S& R Division
Description of Indicator	Indicator refers to percentage losses of Central Pool stocks of wheat and rice calculated in terms of value of losses. Losses are calculated in terms of storage and transit losses.
Computation	<p>For Storage Losses: Numerator: Total quantity of storage (Wheat and Rice) Denominator: Total quantity received in storage (Wheat and Rice) Multiplier: 100</p> <p>For Transit Losses: Numerator: Total quantity lost in transit (Wheat and Rice) Denominator: Total quantity moved during transit (Wheat and Rice) Multiplier: 100</p>

SDG 12 Metadata: National Indicator 12.4.1	
Goal	12: Ensure sustainable consumption and production patterns
Target	12.4: By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment
Indicator	12.4.1: Whether the country has ratified international Multilateral Environmental Agreements on hazardous waste and other chemicals
Data Source Ministry	Ministry of Environment, Forest and Climate Change
Department/Division	-
Description of Indicator	The indicator refers to whether the country has ratified, accepted, approved or accessed, to the following Multilateral Environmental Agreements (MEAs): 1) The Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and their Disposal (Basel Convention) 2) The Rotterdam Convention on the prior informed consent procedure for certain hazardous chemicals and pesticides in international trade (Rotterdam Convention) 3) The Stockholm Convention on Persistent Organic Pollutants (Stockholm Convention) 4) The Montreal Protocol on Substances that Deplete the Ozone Layer (Montreal Protocol) 5) Minamata Convention on Mercury (Minamata Convention)

SDG 12 Metadata: National Indicator 12.4.2	
Goal	12: Ensure sustainable consumption and production patterns
Target	12.4: By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment
Indicator	12.4.2: (a) Hazardous waste generated per capita; and (b) proportion of hazardous waste treated, by type of treatment
Data Source Ministry	Ministry of Environment, Forest and Climate Change
Department/Division	Central pollution Control Board
Description of Indicator	Hazardous waste is waste that is dangerous or may become dangerous to the environment or people's health. Municipal waste is defined at national level as wastes consisting of everyday items. These wastes come from household, institutions and commercial establishments.
Computation	Hazardous waste generated per capita: Numerator: Total hazardous waste generated in MT during the reference year Denominator: Mid-year population during the reference year Multiplier: Nil Proportion of hazardous waste treated Numerator: Total hazardous waste recycled/utilized in MT during the reference year Denominator: Mid-year population during the reference year Multiplier: Nil
Unit of measurement	Hazardous waste generated per capita: MT per person Proportion of hazardous waste treated, by type of treatment: Ratio
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	State/UT
Mapping with Global Indicator	Partial match with GIF 12.4.2

SDG 12 Metadata: National Indicator 12.8.1

Goal	12: Ensure sustainable consumption and production patterns
Target	12.8: By 2030, ensure that people everywhere have the relevant information and awareness for sustainable development and lifestyles in harmony with nature
Indicator	12.8.1: Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment (similar to 4.7.1 and 13.3.1)
Data Source Ministry	Ministry of Education
Department/Division	Department of School Education and Literacy
Description of Indicator	The indicator measures the extent to which countries mainstream Global Citizenship Education (GCED) and Education for Sustainable Development (ESD) in their education systems. For each of the four components of the indicator (policies, curricula, teacher education, and student assessment), a number of criteria are measured, which are then combined to give a single score between zero and one for each component. Only information for primary and secondary education will be used for calculation of indicator.
Computation	The indicator is computed with the help of set of questions.
Unit of measurement	-
Periodicity	Annual
Level of Disaggregation	-

SDG 12 Metadata: National Indicator 12.a.1	
Goal	12: Ensure sustainable consumption and production patterns
Target	12.a: Support developing countries to strengthen their scientific and technological capacity to move towards more sustainable patterns of consumption and production
Indicator	12.a.1: Installed renewable energy generating capacity in the country(in watts per capita) (similar to 7.b.1)
Data Source Ministry	Ministry of New and Renewable Energy
Department/Division	
Description of Indicator	The indicator refers to total energy generating capacity per capita using installed sources of renewable energy.
Computation	Numerator: Installed electricity generation capacity in renewable energy Denominator: Mid-Year Projected Population Multiplier: Nil
Unit of measurement	Watts per capita
Periodicity	Annual

SDG 12 Metadata: National Indicator 12.b.1	
Goal	12: Ensure sustainable consumption and production patterns
Target	12.b: Develop and implement tools to monitor sustainable development impacts for sustainable tourism that creates jobs and promotes local culture and products
Indicator	12.b.1: Implementation of standard accounting tools to monitor the economic and environmental aspects of tourism sustainability
Data Source Ministry	Ministry of Tourism
Department/Division	-
Description of Indicator	Implementation of standard accounting tools to monitor the economic and environmental aspects of tourism sustainability = total number of tables produced by countries out of the total table identified below: 1) TSA Table 1 on inbound tourism expenditure 2) TSA Table 2 on domestic tourism expenditure 3) TSA Table 3 on outbound tourism expenditure 4) TSA Table 4 on internal tourism expenditure 5) TSA Table 5 on production accounts of tourism industries 6) TSA Table 6 domestic supply and internal tourism consumption

SDG 12 Metadata: National Indicator 12.c.1	
Goal	12: Ensure sustainable consumption and production patterns
Target	12.c: Rationalize inefficient fossil-fuel subsidies that encourage wasteful consumption by removing market distortions, in accordance with national circumstances, including by restructuring taxation and phasing out those harmful subsidies, where they exist, to reflect their environmental impacts, taking fully into account the specific needs and conditions of developing countries and minimizing the possible adverse impacts on their development in a manner that protects the poor and the affected communities
Indicator	12.c.1: Amount of fossil fuel subsidy per unit of GDP
Data Source Ministry	Numerator: Ministry of Finance Denominator: Ministry of Statistics & Programme Implementation
Department/Division	-
Description of Indicator	The indicator refers to percentage share of expenditures made on subsidies of petroleum (include LPGs and Kerosene) with respect to GDP at current price.
Computation	Numerator: Expenditure on petroleum subsidies Denominator: Gross Domestic Product at current price Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Partial match with GIF 12.c.1

SDG 13 Metadata: National Indicator 13.1.1

Goal	13. Take urgent action to combat climate change and its impacts
Target	13.1: Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries
Indicator	13.1.1: Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population (similar to 1.5.1 and 11.5.1)
Data Source Ministry	Ministry of Home Affairs
Department/Division	Disaster Management Division (DMD)
Description of Indicator	This indicator measures the number of people who died, went missing or were directly affected by disasters per 100,000 population.
Computation	Numerator: Number of deaths attributed to disasters + Number of missing persons attributed to disasters + Number of directly affected people attributed to disasters Denominator: Population Multiplier: 100,000
Unit of Measurement	Number
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 13.1.1
References	-

SDG 13 Metadata: National Indicator 13.1.2

Goal	13. Take urgent action to combat climate change and its impacts
Target	13.1: Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries
Indicator	13.1.2: Whether the country has adopted and implemented national disaster risk reduction strategies inline with the Sendai Framework for Disaster Risk Reduction 2015-2030, (similar to 1.5.3 and 11.b.1)
Data Source Ministry	Ministry of Home Affairs
Department/Division	Disaster Management Division (DMD)
Description of Indicator	National and local disaster risk reduction strategies should be based on, and aligned with, the guiding principles, scope, outcomes, and strategic priorities of the Sendai Framework, and in particular Paragraph 27 (b) which identifies that strategies should be adopted and implemented.
Computation	National average score for the adoption and implementation of national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030 is calculated on the basis of a set of questions.

SDG 13 Metadata: National Indicator 13.1.3	
Goal	13. Take urgent action to combat climate change and its impacts
Target	13.1: Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries
Indicator	13.1.3: Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies (similar to 1.5.4 and 11.b.2)
Data Source Ministry	Ministry of Home Affairs
Department/Division	Disaster Management Division (DMD)
Description of Indicator	The indicator is defined as the percentage of districts that have adopted and implemented local DRR strategies in line with national strategies out of total number of districts in the country during the given reference period.
Computation	Numerator: Number of districts that have adopted and implemented local DRR strategies in line with national strategies Denominator: Total number of districts Multiplier: 100

SDG 13 Metadata: National Indicator 13.2.2

Goal	13: Take urgent action to combat climate change and its impacts
Target	13.2: Integrate climate change measures into national policies, strategies and planning
Indicator	13.2.2: Pre 2020 action: Achievement of pre-2020 goals as per country priority (percentage reduction in emission intensity of GDP, over 2005 level)
Data Source Ministry	Ministry of Environment, Forest and Climate Change
Department/Division	-
Description of Indicator	The indicator highlights the achievement of India's pre-2020 voluntary target, taken under UNFCCC, of reducing the emission intensity of its GDP by 20-25% from 2005 levels by 2020 (excluding emissions from agriculture)

SDG 13 Metadata: National Indicator 13.2.3

Goal	13: Take urgent action to combat climate change and its impacts
Target	13.2: Integrate climate change measures into national policies, strategies and planning
Indicator	13.2.3: Percentage of industries complying with environmental standards
Data Source Ministry	Ministry of Environment, Forest and Climate Change
Department/Division	-
Description of Indicator	Industries are classified as Red, Orange and Green based on their pollution potential. Considering the degree of pollution among the red units, these are further classified into '17 red category' units and 'other red category' units. The indicators gives the compliance status of 17 Categories of High Pollution Potential Industries.
Computation	Numerator: Number of Industries Complying with environmental standards Denominator: Total number of industries Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-

SDG 14 Metadata: National Indicator 14.1.1	
Goal	14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development.
Target	14.1: By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution.
Indicator	14.1.1: Coastal Water Quality Index (CWQI)
Data Source Ministry	Ministry of Earth Sciences
Department/Division	-
Description of Indicator	<p>The CWQI which is calculated for each monitoring location can be used to assess the health of the coastal waters. Based on the CWQI, the monitoring locations can be categorized as Poor, Fair, Good etc. Range for coastal water quality is as follows:</p> <ol style="list-style-type: none"> 1) 0-20 – Very Poor 2) 21-40 – Poor 3) 41-60 – Moderate 4) 61-80 – Good 5) 81-100 – Very Good <p>Field data on essential environmental parameters were collected along coastal States of India by the respective participating centers under Seawater Quality Monitoring (SWQM) programme of Ministry of Earth Sciences</p>

SDG 14 Metadata: National Indicator 14.1.2	
Goal	14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development.
Target	14.1: By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution
Indicator	14.1.2: Percentage use of nitrogenous fertilizers to total fertilizers (N, P & K)
Data Source Ministry	Ministry of Agriculture and Farmers' Welfare
Department/Division	INM, DAC&FW
Description of Indicator	The indicator refers to percentage consumption of Nitrogenous fertilizer (N) to total fertilizers (sum total of Nitrogenous fertilizers, Phosphatic fertilizers and potassium fertilizers) during the reference year in coastal areas.
Computation	<p>Numerator: Consumption of Nitrogenous fertilizer during the reference year</p> <p>Denominator: Consumption of total fertilizer (N, P & K) during the reference year</p> <p>Multiplier: 100</p>

SDG 14 Metadata: National Indicator 14.2.1	
Goal	14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development.
Target	14.2: By 2020, sustainably manage and protect marine and coastal ecosystems to avoid significant adverse impacts, including by strengthening their resilience, and take action for their restoration in order to achieve healthy and productive oceans
Indicator	14.2.1: Percentage change in area under mangroves (similar to 14.5.2)
Data Source Ministry	Ministry of Environment Forest and Climate Change
Department/Division	Forest Survey of India
Description of Indicator	<p>Mangrove cover is defined as 'Area covered under mangrove vegetation as interpreted from remote sensing data. It is included in the forest cover'.</p> <p>Forest cover is defined as 'All Lands, more than 1 hectare in area, with a tree canopy density of more than 10% irrespective of ownership and legal status. Such land may not necessarily be a recorded forest area. It also includes orchards, bamboo and palm'.</p> <p>Mangrove cover assessment is carried out biennially and changes thereon with respect to the previous assessment are calculated for each district, States and Country.</p> <p>Forest cover assessment is a biennial wall to wall mapping exercise based on Remote sensing using LISS III (23.5 mtr Resolution) sensor data from IRS P6, supported by intensive ground verification and field data from National Forest Inventory. Area covered under mangrove vegetation is also included in the forest cover.</p> <p>Mangrove shows conspicuous tone and textures on the satellite images, which has been used in the mapping of mangrove cover of the country.</p> <p>Changes in forest cover under mangrove w.r.t to previous assessments are calculated for district, State and country level. Based on the analysis of changes observed w.r.t previous assessment, a change matrix is generated indicating the change in the extent of mangrove cover.</p>
Computation	Numerator: Area under Mangrove cover in the period (t) - Area under Mangrove cover in period (t-2) Denominator: Area under Mangrove cover in period (t-2) Multiplier: 100

SDG 14 Metadata: National Indicator 14.2.2	
Goal	14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development.
Target	14.2: By 2020, sustainably manage and protect marine and coastal ecosystems to avoid significant adverse impacts, including by strengthening their resilience, and take action for their restoration in order to achieve healthy and productive oceans
Indicator	14.2.2: Percentage of Coastal and Marine protected Areas in relation to Territorial Sea (similar to Indicator 14.5.2)
Data Source Ministry	Ministry of Environment Forest and Climate Change
Department/Division	WII
Description of Indicator	<p>Marine protected Area (MPA) is an area within or adjacent to the marine environment, together with its overlying waters and associated flora, fauna, and historical and cultural features, which has been reserved by legislation or other effective means, including custom, with the effect that its marine and/or coastal biodiversity enjoys a higher level of protection than its surroundings (CBD). In India, PAs in whole or in part that falls within swath of 500 m from the high tide line and to marine environment along the coasts of Peninsular India, and all PAs of islands are included in the Coastal and Marine Protected Area Network (CMPA). So far, there is no Protected Area notified outside the Territorial Water of India.</p> <p>Territorial Sea: As per the Maritime Zones Act (1976) of India, the Territorial Waters/Sea is the line every point of which is at a distance of twelve (12) nautical miles from the nearest point of the appropriate baseline. The sovereignty of India extends to the territorial waters of and to the seabed and subsoil underlying, and the air space over, such waters.</p>

SDG 14 Metadata: National Indicator 14.3.1	
Goal	14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development.
Target	14.3: Minimize and address the impacts of ocean acidification, including through enhanced scientificcooperation at all levels
Indicator	14.3.1: Average marine acidity (pH) measured at agreed site of representative sampling stations
Data Source Ministry	Ministry of Earth Sciences
Department/Division	-
Description of Indicator	<p>Ministry of Earth Sciences, through Centre for Marine Living Resources and Ecology (CMLRE) and National Centre for Coastal Research (NCCR) is monitoring the estuarine, coastal and open ocean pH to ascertain the status of Ocean Acidification being influenced by anthropogenic activities and climate change conditions. NCCR through its "Seawater Quality Monitoring (SWQM/COMAPS)" programme is monitoring pH of the estuaries and coastal seas of India since 1990s. CMLRE and NCCR are jointly monitoring coastal and oceanic pH of the eastern Arabian Sea including on its shelf.</p> <p>Decrease in pH over a long-term period indicates the Ocean Acidification.</p> <p>Note: As such there is no average value for pH for coastal waters. However, the average global oceanicpH is around 8.</p>

SDG 14 Metadata: National Indicator 14.a.1	
Goal	14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development.
Target	Target 14.a: Increase scientific knowledge, develop research capacity and transfer marine technology, taking into account the Intergovernmental Oceanographic Commission Criteria and Guidelines on the Transfer of marine Technology, in order to improve ocean health and to enhance the contribution of marine biodiversity to the development of developing countries, in particular small island developing States and least developed countries
Indicator	14.a.1: Allocation of budget resources (Budget Estimates) for Ocean Services, Modeling, Applications, Resources and Technology (OSMART) scheme
Data Source Ministry	Ministry of Earth Sciences
Department/Division	
Description of Indicator	<p>The scheme encompasses a total of 16 sub-projects addressing ocean development activities such as Services, Technology, Resources, Observations and Science.</p> <p>The services rendered under the O-SMART will provide economic benefits to a number of user communities in the coastal and ocean sectors, namely, fisheries, offshore industry, coastal states, Defence, Shipping, Ports etc.</p> <p>This scheme (O-SMART) also provides necessary scientific and technological background required for implementation of various aspects of Blue Economy. The State of Art Early Warning Systems established under the O-SMART Scheme will help in effectively dealing with ocean disasters like Tsunami, storm surges.</p>

SDG 14 Metadata: National Indicator 14.b.1	
Goal	14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development.
Target	14.b: Provide access for small-scale artisanal fishers to marine resources and markets
Indicator	14.b.1: Assistance to the traditional / artisanal fishers for procurement of FRP boats and other associated fishing implements.
Data Source Ministry	Ministry of Fisheries, Animal Husbandry & Dairying
Department/Division	Department of Fisheries
Description of Indicator	Assistant is provided to Traditional/Artisanal Fisherman for procurement of Fiber Reinforced Plastic (FRP) Boats for 10 coastal States. The main objective is to organize all the traditional fishermen who are engaged in deep sea fishing operations and to engage in the protection of coastal environment, conservation of marine ecosystems and preservation of natural resources. This assistance also provides access for fishing equipment at reasonable cost.

SDG 15 Metadata: National Indicator 15.1.1	
Goal	15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
Target	15.1: By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and dry lands, inline with obligations under international agreements
Indicator	15.1.1: Forest cover as a percentage of total geographical area
Data Source Ministry	Ministry of Environment Forest and Climate Change
Department/Division	Forest Survey of India
Description of Indicator	Forest cover is defined as 'All Lands, more than 1 ha. in area, with a tree canopy density of more than 10% irrespective of ownership and legal status. Such land may not necessarily be a recorded forest area. It also includes orchards, bamboo and palm'.
Computation	Numerator: Recorded Forest Area Denominator: Total geographical area Multiplier: 100
Unit of measurement	Percent
Periodicity	2 Years
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	Partial match with GIF 15.1.1
References	Data is available on the website http://fsi.nic.in

SDG 15 Metadata: National Indicator 15.1.2	
Goal	15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
Target	15.1: By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and dry lands, inline with obligations under international agreements
Indicator	15.1.2: Protected area as percentage of total geographical area
Data Source Ministry	Ministry of Environment, Forest and Climate Change
Department/Division	Forest Survey of India
Description of Indicator	The indicator refers as protected area as percentage of total geographic area. Protected areas are those in which human occupation or at least the exploitation of resources is limited. There are several kinds of protected areas, which vary by level of protection depending on the enabling laws of each country or the regulations of the international organizations involved.
Computation	Numerator: Total area under National Park, Wild Life Sanctuaries, Conservation Reserves and Community Reserves Denominator: Total Geographic Area Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 15 Metadata: National Indicator 15.1.3	
Goal	15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
Target	15.1: By 2020, ensure the conservation, restoration and sustainable use of terrestrial and inland freshwater ecosystems and their services, in particular forests, wetlands, mountains and dry lands, inline with obligations under international agreements
Indicator	15.1.3: Area of Ramsar sites as a percentage to the total wetland area
Data Source Ministry	Ministry of Environment, Forest and Climate Change
Department/Division	-
Description of Indicator	Wetlands are vital for our water and food security. As “kidneys of landscape, wetlands receive flows of water and waste from upstream sources. They help stabilize water supplies, cleanse polluted waters, protect shorelines, and recharge groundwater aquifers. The Convention on Wetlands, called the Ramsar Convention, is an intergovernmental treaty that provides the framework for national action and international cooperation for the conservation and wise use of wetlands and their resources. The Convention was adopted in 1971 at the Iranian City of Ramsar. Contracting Parties to the Convention commit to designating wetlands into the List of Wetlands of International Importance, and wise use of all wetlands in their territory.
Computation	Numerator: Total area of Ramsar sites Denominator: Total wet land area Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual

SDG 15 Metadata: National Indicator 15.2.1		
Goal	15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss	
Target	15.2: By 2020, promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally	
Indicator	15.2.1: Progress towards sustainable forest management	
Data Source Ministry	Ministry of Environment, Forest and Climate Change	
Department/Division	-	
Description of Indicator	<p>The indicator is composed of following three sub-indicators that measure progress towards all dimensions of sustainable forest management:</p> <p>Net change in area under forest and tree cover Above-ground biomass in forest Proportion of geographical area under legally established protected areas</p>	
Computation	National data on forest area, biomass stock, forest area within protected areas and forest area under management plan are provided by Forest Survey of India	
Unit of Measurement	SUB-INDICATOR	UNIT
	Net change in area under forest and tree cover	Sq. km
	Above-ground biomass in forest	'000 Tonnes
	Proportion of geographical area under legally established protected areas	Percent (%)
	Proportion of forest area under a long-term management plan	Percent (%)
Periodicity	2 Years	
Level of Disaggregation	-

SDG 15 Metadata: National Indicator 15.2.2

Goal	15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
Target	15.2: By 2020, promote the implementation of sustainable management of all types of forests, halt deforestation, restore degraded forests and substantially increase afforestation and reforestation globally
Indicator	15.2.2: Percentage change in carbon stock in forest cover
Data Source Ministry	Ministry of Environment, Forest and Climate Change
Department/Division	Forest Survey of India
Description of Indicator	Forest carbon stock is the amount of carbon that has been sequestered from the atmosphere and stored within the forest ecosystem
Computation	Numerator: Forest Carbon Stock in the period 't' - Forest Carbon Stock in period (t-1) Denominator: Forest Carbon Stock in period (t-1) Multiplier: 100
Unit of Measurement	Percent
Periodicity	2 Years
Level of Disaggregation	State/UT

SDG 15 Metadata: National Indicator 15.4.1	
Goal	15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
Target	15.4: By 2030, ensure the conservation of mountain ecosystems including their biodiversity, in order to enhance their capacity to provide benefits that are essential for sustainable development
Indicator	15.4.1: Percentage change in forest cover in hill districts
Data Source Ministry	Ministry of Environment Forest and Climate Change
Department/Division	Forest Survey of India
Description of Indicator	<p>Forest cover is defined as 'All Lands, more than 1 hectare in area, with a tree canopy density of more than 10% irrespective of ownership and legal status. Such land may not necessarily be a recorded forest area. It also includes orchards, bamboo and palm'.</p> <p>Mountain areas include hill districts wherein more than 50% of its geographical area under 'hill talukas' based on criteria adopted by the planning commission for hill area and Western Ghats development programmes. About 127 hill districts have been taken into consideration for forest cover analysis in India State of Forest Report 2017.</p> <p>Forest cover assessment in 127 hill districts is carried out biennially and changes thereon with respect to the previous assessment are calculated for each district, States and Country.</p> <p>Forest cover assessment is a biennial wall to wall mapping exercise based on Remote sensing using LISSIII (23.5 mtr Resolution) sensor data from IRS P6, supported by intensive ground verification and field data from National Forest Inventory.</p>
Computation	<p>Numerator: Total Forest cover in hill district in the period 't' - Total forest cover in period (t-1)</p> <p>Denominator: Total forest cover in hill district in period (t-1)</p> <p>Multiplier: 100</p>
Unit of measurement	Percent
Periodicity	2 Years
Level of Disaggregation	State

SDG 15 Metadata: National Indicator 15.4.2

Goal	15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
Target	15.4: By 2030, ensure the conservation of mountain ecosystems including their biodiversity, in order to enhance their capacity to provide benefits that are essential for sustainable development
Indicator	15.4.2: Percentage change in per capita income of Himalayan States over previous year
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	The indicator measures percentage change in Per Capita Net State Domestic Product (PCNSDP) in hill States during the reference year over the previous year.
Computation	Numerator: PCNSDP during the reference year - PCNSDP during the previous year Denominator: PCNSDP during the previous year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	Hill State
Type of Disaggregation	-

SDG 15 Metadata: National Indicator 15.5.1

Goal	15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
Target	15.5: Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity and, by 2020, protect and prevent the extinction of threatened species
Indicator	15.5.1: Red List Index
Data Source Ministry	Ministry of Environment Forest and Climate Change
Department/Division	-
Description of Indicator	<p>The Red List Index (RLI) measures change in aggregate extinction risk across groups of species. It is based on genuine changes in the number of species in each category of extinction risk on The IUCN Red List of Threatened Species (www.iucnredlist.org) is expressed as changes in an index ranging from 0 to 1. The RLI can be computed for only those species whose threat status has been assessed at least twice. The present indicator calculates RLI for Mammalia group.</p> <p>Considering this, the following two data sources have been adopted to compute RLI for Mammalia group:</p> <ul style="list-style-type: none"> • The Red Data Book on Indian Animals (Part I: Vertebrata) by ZSI, 1994 [T1] • Fauna of India Checklist: A checklist of Mammals of India by ZSI, 2017 [T2]
Computation	<p>The computation of RLI for Mammalia group has been performed using the following formula:</p> <p>The RLI value is calculated by multiplying the number of species in each red list category by the category weight (0 for LC, 1 for NT, 2 for VU, 3 for EN, 4 for CR and 5 for EX) these products are summed, divided by the maximum possible product (number of species multiplied by the maximum weight of 5) and subtracted from one (Bubb et al. 2009). This produces an index value that ranges from 0 to 1.</p>

SDG 15 Metadata: National Indicator 15.6.1

Goal	15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
Target	15.6: Promote fair and equitable sharing of the benefits arising from the utilization of genetic resources and promote appropriate access to such resources, as internationally agreed
Indicator	15.6.1: Whether country has adopted legislative, administrative and policy frameworks to ensure fair and equitable sharing of benefits
Data Source Ministry	Ministry of Environment Forest and Climate Change and Ministry of Agriculture and FW
Department/Division	National Biodiversity Authority and NBPGR
Description of Indicator	The indicator is defined as the number of countries that have adopted legislative, administrative and policy frameworks to ensure fair and equitable sharing of benefits. It refers to the efforts by countries to implement the Nagoya Protocol on Access to Genetic Resources and the Fair and Equitable Sharing of Benefits Arising from their Utilization to the Convention on Biological Diversity (2010) and the International Treaty on Plant Genetic Resources for Food and Agriculture (2001).
Computation	Response on the following is to be recorded: 1. Whether country is contracting Parties to the International Treaty on Plant Genetic Resources for Food and Agriculture 2. Whether country is parties to the Nagoya Protocol 3. Whether country has legislative, administrative and policy framework or measures reported through the Online Reporting System on Compliance of the International Treaty on Plant Genetic Resources for Food and Agriculture 4. Whether country has legislative, administrative and policy framework or measures reported to the Access and Benefit-Sharing Clearing-House

SDG 15 Metadata: National Indicator 15.7.1

Goal	15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
Target	15.7: Take urgent action to end poaching and trafficking of protected species of flora and fauna and address both demand and supply of illegal wildlife products.
Indicator	15.7.1: Number of cases registered under the Wildlife Protection Act, 1972 (similar to 15.c.1)
Data Source Ministry	Ministry of Environment Forest and Climate Change
Department/Division	Wildlife Crime Control Bureau
Description of Indicator	Whenever a case related to violation of The Wildlife (Protection) Act, 1972 is detected by an enforcement agency (Police/Forest) of a state, the details of the case is sent to Wildlife Crime Control Bureau (WCCB) by concerned state based on which the data is compiled by WCCB at national level. The annual data of the wildlife cases detected by states/UTs and reported to WCCB is then compiled. Wildlife Crime Control Bureau (WCCB) is a statutory multi-disciplinary body established by the Government of India under the Ministry of Environment and Forests, to combat organized wildlife crime in the country.
Computation	Total number of cases registered annually in all States and UTs under the Wildlife (Protection) Act, 1972 according to the data provided by States/UTs to WCCB
Unit of measurement	Number
Periodicity	Annual
Level of Disaggregation	States/UT

SDG 15 Metadata: National Indicator 15.8.1

Goal	15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
Target	15.8: By 2020, introduce measures to prevent the introduction and significantly reduce the impact of invasive alien species on land and water ecosystems and control or eradicate the priority species
Indicator	15.8.1: Whether the country has adopted relevant national legislation and adequately resourcing the prevention or control of invasive alien species
Data Source Ministry	Ministry of Environment, Forest and Climate Change
Department/Division	-
Description of Indicator	<p>This indicator aims to quantify trends in:</p> <p>Commitment by countries to relevant multinational agreements, specifically:</p> <p>(1) National adoption of invasive alien species relevant policy.</p> <p>Percentage of countries with</p> <p>(a) national legislation and policy relevant to invasive alien species.</p> <p>(b) if targets and objectives within national strategies for preventing and controlling invasive alien species are aligned with Aichi Target 9</p> <p>The translation of policy arrangements into action by countries to implement policy and actively prevent and control invasive alien species (IAS) and the resourcing of this action, specifically:</p> <p>(2) National allocation of resources towards the prevention or control of IAS.</p>
Computation	The responses on the above mentioned components has been complied as per the extant laws/policies/targets etc.

SDG 15 Metadata: National Indicator 15.9.1

Goal	15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
Target	15.9: By 2020, integrate ecosystem and biodiversity values into national and local planning, development processes, poverty reduction strategies and accounts
Indicator	15.9.1 (a) Progress towards national targets established in accordance with Aichi Biodiversity Target 2 of the Strategic Plan for Biodiversity, 2011-2020; (b) Integration of biodiversity into national accounting and reporting systems, defined as implementation of the System of Environmental-Economic Accounting
Data Source Ministry	Ministry of Environment Forest and Climate Change and MoSPI
Department/Division	-
Description of Indicator	The indicator measures the progress towards national targets established in accordance with Target 2 of the Strategic Plan for Biodiversity 2011-2020: By 2020, at the latest, biodiversity values have been integrated into national and local development and poverty reduction strategies and planning processes and are being incorporated into national accounting, as appropriate, and reporting systems.
Computation	Number of countries that established national targets in accordance with Aichi Biodiversity Target 2 of the Strategic Plan for Biodiversity 2011-2020 in their National Biodiversity Strategy and Action Plans (NBSAP) and the progress reported towards these targets.

SDG 15 Metadata: National Indicator 15.b.1

Goal	15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
Target	15.b: Mobilize significant resources from all sources and at all levels to finance sustainable forest management and provide adequate incentives to developing countries to advance such management, including for conservation and reforestation
Indicator	15.b.1: Percentage of government spending on environmental protection to total government expenditure
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	National Accounts Division
Description of Indicator	The indicator measures Government's spending on environment protection. The indicator is relevant to the target as it will help in assessing mobilization of resources for environment protection.
Computation	Numerator: Total government expenditures (at current price) on environment protection during reference year Denominator: Government total expenditures (at current price) during reference year Multiplier: 100

Goal	16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
Target	16.4: By 2030, significantly reduce illicit financial and arms flows, strengthen the recovery and return of stolen assets and combat all forms of organized crime
Indicator	16.4.2: Value of Property Stolen and Recovered and Percentage Recovery
Data Source Ministry	Ministry of Home Affairs
Department/Division	National Crime Records Bureau
Description of Indicator	-
Computation	Numerator: Sum of value (in Rs. Crore) stolen property recovered during reference year Denominator: Sum of value (in Rs. Crore) of all property stolen during the reference calendar year Multiplier: 1,00,000
Unit of measurement	Rs. Crore; Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-
References	Crime in India Publication is available on the website Link: http://ncrb.gov.in

SDG 16 Metadata: National Indicator 16.5.1	
Goal	16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
Target	16.5: Substantially reduce corruption and bribery in all their forms.
Indicator	16.5.1: Cases reported under Prevention of Corruption Act and related section of IPC per 1,00,000 population
Data Source Ministry	Ministry of Home Affairs
Department/Division	National Crime Record Bureau
Description of Indicator	The indicator is defined as the total number of cases registered under the Prevention of Corruption Act and related sections of IPC per 1,00,000 population, during reference year
Computation	Numerator: Total number of cases registered under the Prevention of Corruption Act and related sections of IPC Denominator: Mid-year projected population Multiplier: 1,00,000
Unit of measurement	Per 1,00,000 population
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-
References	Crime in India Publication is available on the website Link: http://ncrb.gov.in

SDG 16 Metadata: National Indicator 16.6.1	
Goal	16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels
Target	16.6: Develop effective, accountable and transparent institutions at all levels
Indicator	16.6.1: Primary government expenditures as a proportion of original approved budget
Data Source Ministry	Ministry of Finance
Department/Division	Department of Economic Affairs
Description of Indicator	Primary government expenditures as a proportion of original approved budget. This indicator measures the extent to which aggregate budget expenditure outturn reflects the amount originally approved, as defined in government budget documentation and fiscal reports. The coverage is budgetary central government (BCG) and the time period covered is the last three completed fiscal years.
Computation	The indicator has been calculated from Union Budget. Numerator: Actual Expenditure of Government of India Denominator: Budget Estimate of total expenditure of Government of India Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 16.6.1
References	Data is available on the website https://www.indiabudget.gov.in

SDG 16 Metadata: National Indicator 16.6.2

Goal	16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
Target	16.6: Develop effective, accountable and transparent institutions at all levels
Indicator	16.6.2: Percentage of RTI queries responded (similar to 16.10.1)
Data Source Ministry	Ministry of Electronics and Information Technology
Department/Division	CIC
Description of Indicator	This indicator denotes the percentage of cases under the Right to Information Act (RTI)
Computation	Numerator: Total RTI application cases disposed Denominator: Total RTI requests for the disposal Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	-
References	Data is available on the website http://cic.gov.in

SDG 16 Metadata: National Indicator 16.6.3

Goal	16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
Target	16.6: Develop effective, accountable and transparent institutions at all levels
Indicator	16.6.3: Number of Government services provided online to citizens.
Data Source Ministry	Ministry of Electronics and Information Technology
Department/Division	Ministry of Electronics and Information Technology
Description of Indicator	This indicator shows number of services provided online i.e. through e-transaction to citizens. These services include certificate, license or permit, land revenue, commercial tax etc. An e-Transaction is a transaction delivering public service using ICT tools to improve access, enhance transparency and reduce response time while also satisfying all of the following four conditions: 1) Service is requested through electronic means (self-access or assisted access) including mobile devices 2) Workflow/approval process is electronic 3) Database is electronic/digitized 4) Service delivery is electronic In order to improve access, enhance transparency and reduce response time is termed as an e-Transaction.
Computation	Number of services provided online i.e. through e-transaction to citizens
Unit of measurement	Number
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-
Mapping with Global Indicator	-
References	Data is available on the website http://cic.gov.in

SDG 16 Metadata: National Indicator 16.7.1	
Goal	16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
Target	16.7: Ensure responsive, inclusive, participatory and representative decision-making at all levels
Indicator	16.7.1: Proportion of seats held by women in (a) national parliaments and (b) local governments (similar to 5.5.1 and 10.2.2)
Data Source Ministry	4) Election Commission of India 5) Ministry of Panchayati Raj 6) Ministry of Housing and Urban Affairs
Department/Division	-
Description of Indicator	Proportion of seats held by women in Lok Sabha, State Legislative Assembly, Urban Local Bodies and PanchayatiRaj Institutions
Computation	Numerator: Women representative in Lok Sabha/Legislative Assembly/ULB/PRI Denominator: Total representatives in Lok Sabha/Legislative Assembly/ ULB/PRI Multiplier: 100
Unit of measurement	Percent
Periodicity	5 Years for Lok Sabha, ULB and PRI; Annual for State Legislative Assembly
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Partial match with GIF 16.7.1
References	Data is available on the website http://eci.nic.in ; http://www.panchayat.gov.in

SDG 16 Metadata: National Indicator 16.7.2	
Goal	16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
Target	16.7: Ensure responsive, inclusive, participatory and representative decision-making at all levels
Indicator	16.7.2: Proportion of SC/ST persons in Elected bodies (similar to 10.2.3)
Data Source Ministry	Election Commission of India
Department/Division	-
Description of Indicator	Proportion of seats held by persons belonging to SCs and STs in Lok Sabha. Scheduled Castes and Scheduled Tribes as defined under clause (24) and clause (25) of article 366 of the Indian Constitution respectively.
Computation	Numerator: Number of representative belonging to SCs and STs in Lok Sabha Denominator: Total representatives in Lok Sabha Multiplier: 100
Unit of measurement	Percent
Periodicity	5 years
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	-
References	Data is available on the website; http://eci.nic.in

SDG 16 Metadata: National Indicator 16.8.1	
Goal	16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
Target	16.8: Broaden and strengthen the participation of developing countries in the institutions of global governance
Indicator	16.8.1: whether the country is a member and has voting rights in international organizations (similar to 10.6.1)
Data Source Ministry	Ministry of External Affairs
Department/Division	UNES
Description of Indicator	The indicator is calculated independently for eleven different international institutions: The United Nations General Assembly, the United Nations Security Council, the United Nations Economic and Social Council, the International Monetary Fund, the International Bank for Reconstruction and Development, the International Finance Corporation, the African Development Bank, the Asian Development Bank, the Inter-American Development Bank, the World Trade Organization, and the Financial Stability Board.
Computation	Number of membership (voting rights) in eleven different international institutions.
Unit of measurement	Ratio
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 16.8.1

SDG 16 Metadata: National Indicator 16.9.1	
Goal	16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
Target	16.9: By 2030, provide legal identity for all, including birth registration
Indicator	16.9.1: Percentage of births registered
Data Source Ministry	Ministry of Home Affairs
Department/Division	Office of the Registrar General & Census Commissioner, India
Description of Indicator	<p>The indicator refers to percentage of births registered with a civil authority out of total birth occurred in a year. The indicator is defined as 'Level of Registration' (LOR) of birth for some registration area describing the extent to which registration of such event is complete in that area. LOR is calculated as the number of registered births, deaths to the total number of such events available for registration in that area during the year.</p> <p>For want of actual number of births, deaths available for registration, these are estimated using the Sample Registration System (SRS) birth and the estimated mid-year population. The indicator is defined as Level of Registration of Births (LOR) i.e. as the percentage of registered births to the births estimated through SRS.</p> <p>Where, Number of estimated birth events for a year = Mid-year population × Birth Rate from Sample Registration System</p>
Computation	Numerator: Number of birth registered with civil authority during year Denominator: Number of estimated birth for the year Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT
Type of Disaggregation	-

SDG 16 Metadata: National Indicator 16.9.2	
Goal	16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
Target	16.9: By 2030, provide legal identity for all, including birth registration
Indicator	16.9.2: Proportion of population covered under Aadhaar
Data Source Ministry	Ministry of Electronics and Information Technology
Department/Division	Unique Identification Authority of India
Description of Indicator	The indicator measures numbers of Proof of Identities (PoI) issued to the residents of the country.
Computation	Numerator: Population of the area who got their Aadhar IDs Denominator: Total population of the area Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	State/UT

SDG 16 Metadata: National Indicator 16.10.1	
Goal	16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
Target	16.10: Ensure public access to information and protect fundamental freedoms, in accordance with national legislation and international agreements
Indicator	16.10.1: Percentage of RTI queries responded (similar to 16.6.2)
Data Source Ministry	Ministry of Electronics and Information Technology
Department/Division	CIC
Description of Indicator	This indicator denotes the percentage of cases under the Right to Information Act (RTI)
Computation	Numerator: Total RTI application cases disposed Denominator: Total RTI requests for the disposal Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual

SDG 17 Metadata: National Indicator 17.1.1	
Goal	17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development
Target	17.1: Strengthen domestic resource mobilization, including through international support to developing countries, to improve domestic capacity for tax and other revenue collection
Indicator	17.1.1: Total government revenue as a proportion of GDP, by source
Data Source Ministry	Numerator: Ministry of Finance Denominator: Ministry of Statistics and Programme Implementation
Department/Division	DEA and National Accounts Division
Description of Indicator	The indicator is defined as total government revenue as a proportion of GDP at current prices.
Computation	Numerator: Total revenue receipts Denominator: GDP at current prices Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 17 Metadata: National Indicator 17.3.1

Goal	17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development
Target	17.3: Mobilize additional financial resources for developing countries from multiple sources
Indicator	17.3.1: Foreign Direct Investment as proportion of Gross National Income.
Data Source Ministry	Numerator: Ministry of Finance Denominator: Ministry of Statistics and Programme Implementation
Department/Division	Denominator: National Accounts Division
Description of Indicator	The indicator refers to the amount of net FDI flows to India as a percentage of gross national income of India.
Computation	Numerator: Net FDI flows to India (in USD Million) Denominator: GNI at current price Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual

SDG 17 Metadata: National Indicator 17.3.2

Goal	17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development
Target	17.3: Mobilize additional financial resources for developing countries from multiple sources
Indicator	17.3.2: Volume of remittances as a proportion of total GDP
Data Source Ministry	Numerator: Ministry of Finance Denominator: Ministry of Statistics and Programme Implementation
Department/Division	Denominator: National Accounts Division
Description of Indicator	The indicator refers to the amount of personal remittances (which includes personal transfers and compensation of employees as defined by World Bank Global Development Indicators) to India as a percentage of gross domestic product.
Computation	Numerator: Personal remittances to India (Net) (in USD Million) Denominator: GDP at current price Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual

SDG 17 Metadata: National Indicator 17.4.1	
Goal	17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development
Target	17.4: Assist developing countries in attaining long-term debt sustainability through coordinated policies aimed at fostering debt financing, debt relief and debt restructuring, as appropriate, and address the external debt of highly indebted poor countries to reduce debt distress
Indicator	17.4.1: Debt service as a proportion of exports of goods and services.
Data Source Ministry	Reserve Bank of India
Department/Division	-
Description of Indicator	The indicator is defined as the percentage of debt services (principle and interest payments) to the exports of goods and services.
Computation	Numerator: Debt Service (USD Million) Denominator: Exports of Goods and services (USD Million) Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-

SDG 17 Metadata: National Indicator 17.6.1	
Goal	17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development
Target	17.6: Enhance North-South, South-South and triangular regional and international cooperation on and access to science, technology and innovation and enhance knowledge- sharing on mutually agreed terms, including through improved coordination among existing mechanisms, in particular at the United Nations level, and through a global technology facilitation mechanism
Indicator	17.6.1: Fixed internet broadband subscriptions per 100 inhabitants, by speed.
Data Source Ministry	Numerator: Telecom Regulatory Authority of India Denominator: Ministry of Home Affairs
Department/Division	Denominator: National Accounts Division
Description of Indicator	The indicator refers to the number of fixed-broadband subscriptions to the public Internet, split by advertised download speed. The indicator is currently broken down by the following subscription speeds: 1) Broadband Service: Refers to all subscriptions having internet access with minimum capacity of equal to, or greater than, 512 kbit/s in one or both direction(s). 2) Narrowband Service: Refers to all subscriptions having internet access with minimum capacity of lesser than 512 kbit/s in one or both direction(s).
Computation	Numerator: Total wire line (wired) subscribers of internet broadband Denominator: Projected mid-year population Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Partial match with GIF 17.6.1

SDG 17 Metadata: National Indicator 17.11.1	
Goal	17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development
Target	17.11: Significantly increase the exports of developing countries, in particular with a view to doubling the least developed countries' share of global exports by 2020
Indicator	17.11.1: Share of India's exports in Global exports
Data Source Ministry	Ministry of Commerce and Industry
Department/Division	DGFT, Department of Commerce and Industry
Description of Indicator	Percentage Share of India's exports to Global exports for merchandise and services trade, based on calendar year data available at WTO database.
Computation	Numerator: Total India's exports for merchandise and services trade for calendar year Denominator: Total Global exports for merchandise and services trade, based on calendar year data available at WTO database Multiplier: Nil
Unit of measurement	Percent
Periodicity	Annual
Level of Disaggregation	-
Type of Disaggregation	-
Mapping with Global Indicator	Exact match with GIF 17.11.1

SDG 17 Metadata: National Indicator 17.18.2	
Goal	17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development
Target	17.18: By 2020, enhance capacity-building support to developing countries, including for least developed countries and small island developing States, to increase significantly the availability of high quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts
Indicator	17.18.2: Whether the country has national statistical legislation that complies with the Fundamental Principles of Official Statistics
Data Source Ministry	Ministry of Statistics and Programme Implementation
Department/Division	-
Description of Indicator	The indicator intends to measure whether the country has rules, regulation or measures that complies with the United Nations Fundamental Principles of Official Statistics (UN FPOS). The UN FPOS is a set of 10 principles that was adopted by the UN.
Computation	In India, the ten UN FPOS were formally adopted through a decision of the Union Cabinet on 4th May 2016 and notified in the Official Gazette on 15th June 2016.

SDG 17 Metadata: National Indicator 17.19.2	
Goal	17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development
Target	17.19: By 2030, build on existing initiatives to develop measurements of progress on sustainable development that complement gross domestic product, and support statistical capacity-building in developing countries.
Indicator	17.19.2: Proportion of States/UTs that have achieved 100 per cent birth registration and 80 per cent death registration
Data Source Ministry	Ministry of Home Affairs
Department/Division	Office of the Registrar General & Census Commissioner, India
Description of Indicator	The indicator measures proportion of States/UTs that have achieved 100 per cent birth registration and 80 per cent death registration.
Computation	a) Numerator: Total no. of States/UTs reported 100% birth registration (at least 80% death registration) under CRS b) Denominator: Total States/UTs covered in CRS Multiplier: 100
Unit of measurement	Percent
Periodicity	Annual

Annex I - List of Un-addressed Targets		
S. No.	Target No.	Target
1	1.1	By 2030, eradicate extreme poverty for all people everywhere, currently measured as people living on less than \$1.25 a day
2	2.b	Correct and prevent trade restrictions and distortions in world agricultural markets, including through the parallel elimination of all forms of agricultural ex-port subsidies and all export measures with equivalent effect, in accordance with the mandate of the Doha Development Round
3 *	4.b	By 2020, substantially expand globally the number of scholarships available to developing countries, in particular least developed countries, small island developing States and African countries, for enrolment in higher education, including vocational training and information and communications technology, technical, engineering and scientific programmes, in developed countries and other developing countries
4 *	6.a	6.a: By 2030, expand international cooperation and capacity-building support to developing countries in water- and sanitation-related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment, recycling and reuse technologies
5 *	7.a	By 2030, enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil- fuel technology, and promote investment in energy infrastructure and clean energy technology
6 *	8.a	Increase Aid for Trade support for developing countries, in particular least developed countries, including through the Enhanced Integrated Framework for Trade-related Technical Assistance to Least Developed Countries
7 *	9.a	Facilitate sustainable and resilient infrastructure development in developing countries through enhanced financial, technological and technical support to African countries, least developed countries, landlocked developing countries and small island developing States
8	10.3	Ensure equal opportunity and reduce inequalities of outcome, including by eliminating discriminatory laws, policies and practices and promoting appropriate legislation, policies and action in this regard
9	10.a	Implement the principle of special and differential treatment for developing countries, in particular least developed countries, in accordance with World Trade Organization agreements
10*	10.b	Encourage official development assistance and financial flows, including foreign direct investment, to States where the need is greatest, in particular least developed countries, African countries, small island developing States and land-locked developing countries, in accordance with their national plans and programmes
11 #	11.c	Support least developed countries, including through financial and technical assistance, in building sustainable and resilient buildings utilizing local materials
12	12.2	By 2030, achieve the sustainable management and efficient use of natural resources
13 \$	13.a	Implement the commitment undertaken by developed-country parties to the United Nations Framework Convention on Climate Change to a goal of mobilizing jointly \$100 billion annually by 2020 from all sources to address the needs of developing countries in the context of meaningful mitigation actions and transparency on implementation and fully operationalize the Green Climate Fund through its capitalization as soon as possible.

Annex I - List of Un-addressed Targets		
S. No.	Target No.	Target
14 \$	13.b	Promote mechanisms for raising capacity for effective climate change-related planning and management in least developed countries and small island developing States, including focusing on women, youth and local and marginalized communities
15	14.6	By 2020, prohibit certain forms of fisheries subsidies which contribute to over-capacity and overfishing, eliminate subsidies that contribute to illegal, unreported and unregulated fishing and refrain from introducing new such subsidies, recognizing that appropriate and effective special and differential treatment for developing and least developed countries should be an integral part of the World Trade Organization fisheries subsidies negotiation
16	14.7	By 2030, increase the economic benefits to small island developing States and least developed countries from the sustainable use of marine resources, including through sustainable management of fisheries, aquaculture and tourism
17 *	15.a	Mobilize and significantly increase financial resources from all sources to conserve and sustainably use biodiversity and ecosystems
18	16.b	Promote and enforce non-discriminatory laws and policies for sustainable development
19 \$	17.2	Developed countries to implement fully their official development assistance commitments, including the commitment by many developed countries to achieve the target of 0.7 per cent of gross national income for official development assistance (ODA/GNI) to developing countries and 0.15 to 0.20 per cent of ODA/GNI to least developed countries; ODA providers are encouraged to consider setting a target to provide at least 0.20 per cent of ODA/GNI to least developed countries
20	17.5	Adopt and implement investment promotion regimes for least developed countries
21	17.7	Promote the development, transfer, dissemination and diffusion of environmentally sound technologies to developing countries on favourable terms, including on concessional and preferential terms, as mutually agreed
22	17.8	Fully operationalize the technology bank and science, technology and innovation capacity-building mechanism for least developed countries by 2017 and enhance the use of enabling technology, in particular information and communications technology
23 *	17.9	Enhance international support for implementing effective and targeted capacity-building in developing countries to support national plans to implement all the Sustainable Development Goals, including through North-South, South-South and triangular cooperation
24	17.10	Promote a universal, rules-based, open, non-discriminatory and equitable multilateral trading system under the World Trade Organization, including through the conclusion of negotiations under its Doha Development Agenda
25	17.12	Realize timely implementation of duty-free and quota-free market access on a lasting basis for all least developed countries, consistent with World Trade Organization decisions, including by ensuring that preferential rules of origin applicable to imports from least developed countries are transparent and simple, and contribute to facilitating market access
26	17.14	Enhance policy coherence for sustainable development
27	17.15	Respect each country's policy space and leadership to establish and implement policies for poverty eradication and sustainable development
28	17.17	Encourage and promote effective public, public-private and civil society partnerships, building on the experience and resourcing strategies of partnerships

* Targets related to Official Development Assistance (ODA)

\$ Not relevant in the national context

No indicator has been developed at global level

Annex II - List of Similar Indicators			
S. No.	Indicator No.	Description of National SDG Indicator (NI)	Similar Indicators
1	NI 1.5.1	Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population	11.5.1 & 13.1.1
2	NI 1.5.3	Whether the country has adopted and implemented national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030	11.b.1 & 13.1.2
3	NI 1.5.4	Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies	11.b.2 & 13.1.3
4	NI 3.6.1	People killed/injured in road accidents (per 1,00,000 population)	11.2.2
5	NI 4.7.1	Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment	12.8.1 & 13.3.1
6	NI 5.5.1	Proportion of seats held by women in (a) national parliaments and (b) local governments	10.2.2 & 16.7.1
7	NI 7.b.1	Installed renewable energy generating capacity in the country	12.a.1
8	NI 8.2.2	Total number of patents issued (granted)	8.3.2 & 9.5.3
9	NI 10.6.1	Whether the Country is a member and has voting rights in international organizations	16.8.1
10	NI 11.3.1	Proportion of cities with Master plans	11.a.1
11	NI 14.2.1	Percentage change in area under mangroves	14.5.2
12	NI 14.2.2	Percentage of Coastal Marine protected Areas in relation to Territorial Sea	14.5.1
13	NI 15.7.1	Number of cases registered under the Wildlife Protection Act, 1972	15.c.1
14	NI 16.6.2	Percentage of RTI queries responded	16.10.1

Annex III - Mapping of National SDG Indicators with Global SDG Indicators					
S.No.	National SDG Indicator (NI)		Global SDG Indicator (GI)		Mapping of NI with GI
	Indicator No.	Description of Indicator	Indicator No.	Description of Indicator	
1	NI 1.2.1	Proportion of population living below the national poverty line	GI 1.2.1	Proportion of the population living below the national poverty line by sex, age,	Exact
2	NI 1.2.2	Proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions	GI 1.2.2	Proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions	Partial
3	NI 1.3.1	Percentage of households with any usual member covered by a health scheme or health insurance	GI 1.3.1	Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable	Partial
4	NI 1.3.2	Number of Beneficiaries under Integrated Child Development Scheme - ICDS			
5	NI 1.3.3	Persons offered employment as a percentage of persons who demanded employment under Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA)			
6	NI 1.3.4	Number of Self Help Groups (SHGs) provided bank credit linkage			
7	NI 1.3.5	Proportion of the population (out of total eligible population) receiving social protection benefits under Pradhan Mantri Matritva Vandana Yojana (PMMVY)			
8	NI 1.3.6	Number of senior citizens provided institutional assistance through Senior Citizen Homes/Day Care Centers funded by the Government			
9	NI 1.3.7	Number of beneficiaries added under Employee's Pension Scheme (EPS) during the year			
10	NI 1.3.8	Coverage of New Pension Scheme (NPS)			
11	NI 1.4.1	Proportion of population living in households with access to basic services	GI 1.4.1	Proportion of population living in households with access to basic services	Partial
12	NI 1.5.1	Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population (similar to Indicators 11.5.1 and 13.1.1)	GI 1.5.1	Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population	Exact
13	NI 1.5.3	Whether the country has adopted and implemented national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, (similar to Indicators 11.b.1 and 13.1.2)	GI 1.5.3	Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015–2030	Exact

Annex III - Mapping of National SDG Indicators with Global SDG Indicators

S.No.	National SDG Indicator (NI)		Global SDG Indicator (GI)		Mapping of NI with GI
	Indicator No.	Description of Indicator	Indicator No.	Description of Indicator	
14	NI 1.5.4	Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies (similar to 11.b.2/13.1.3)	GI 1.5.4	Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies	Exact
15	NI 1.a.2	Proportion of total government spending on essential services (education, health and social protection)	GI 1.a.2	Proportion of total government spending on essential services (education, health and social protection)	Exact
16	NI 2.2.1	Percentage of children under age 5 years who are stunted	GI 2.2.1	Prevalence of stunting (height for age <-2 standard deviation from the median of the World Health Organization (WHO) Child Growth Standards) among children under 5 years of age	Exact
17	NI 2.2.2	Prevalence of malnutrition among children under 5 years of age, by type (wasting and overweight)	GI 2.2.2	Prevalence of malnutrition (weight for height >+2 or <-2 standard deviation from the median of the WHO Child Growth Standards) among children under 5 years of age, by type (wasting and overweight)	Exact
18	NI 2.2.3	Prevalence of anaemia in women aged 15 to 49 years, by pregnancy status (percentage)	GI 2.2.3	Prevalence of anaemia in women aged 15 to 49 years, by pregnancy status (percentage)	Exact
19	NI 2.5.1	Number of (a) plant and (b) animal genetic resources for food and agriculture secured in either medium- or long-term conservation facilities	GI 2.5.1	Number of (a) plant and (b) animal genetic resources for food and agriculture secured in either medium- or long-term conservation facilities	Exact
20	NI 2.5.2	Proportion of local breeds classified as being at risk of extinction	GI 2.5.2	Proportion of local breeds classified as being at risk of extinction	Exact
21	NI 2.a.1	The agriculture orientation index for government expenditures	GI 2.a.1	The agriculture orientation index for government expenditures	Exact
22	NI 3.1.1	Maternal Mortality Ratio, (per 1,00,000 live birth)	GI 3.1.1	Maternal Mortality Ratio	Exact
23	NI 3.1.2	Percentage of births attended by skilled health personnel (Period 5 years)	GI 3.1.2	Proportion of births attended by skilled health personnel	Exact
24	NI 3.2.1	Under-five mortality rate, (per 1,000 live births)	GI 3.2.1	Under-5 mortality rate,	Exact
25	NI 3.2.2	Neonatal mortality rate, (per 1,000 live births)	GI 3.2.2	Neonatal mortality rate	Exact
26	NI 3.3.1	Number of new HIV infections per 1,000 uninfected population	GI 3.3.1	Number of new HIV infections per 1,000 uninfected population, by sex, age and key populations	Partial

Annex III - Mapping of National SDG Indicators with Global SDG Indicators					
S.No.	National SDG Indicator (NI)		Global SDG Indicator (GI)		Mapping of NI with GI
	Indicator No.	Description of Indicator	Indicator No.	Description of Indicator	
27	NI 3.3.2	Tuberculosis incidence per 1,00,000 population	GI 3.3.2	Tuberculosis incidence per 1,00,000 population	Exact
28	NI 3.3.3	Malaria incidence per 1,000 population	GI 3.3.3	Malaria incidence per 1,000 population	Exact
29	NI 3.3.4	Prevalence of Viral Hepatitis B per 1,00,000 population	GI 3.3.4	Hepatitis B incidence per 1,00,000 population	Partial
30	NI 3.4.1	Mortality rate attributed to Cardiovascular disease, Malignant & other Neoplasms, Diabetes Mellitus or Chronic Respiratory disease	GI 3.4.1	Mortality rate attributed to cardiovascular disease, cancer, diabetes or chronic respiratory disease	Partial
31	NI 3.4.2	Suicide mortality rate, (per 1,00,000 population)	GI 3.4.2	Suicide mortality rate	Exact
32	NI 3.6.1	People killed/injured in road accidents (per 1,00,000 population) (similar to 11.2.2)	GI 3.6.1	Death rate due to road traffic injuries	Exact
33	NI 3.7.1	Percentage of currently married women aged 15-49 years who have their need for family planning satisfied with modern methods	GI 3.7.1	Proportion of women of reproductive age (aged 15–49 years) who have their need for family planning satisfied with modern methods	Partial
34	NI 3.7.2	Adolescent birth rate (aged 15–19 years) per 1,000 women in that age group	GI 3.7.2	Adolescent birth rate (aged 10-14 years; aged 15–19 years) per 1,000 women in that age group	Partial
35	NI 3.8.1	Coverage of essential health services	GI 3.8.1	Coverage of essential health services	Partial
36	NI 3.8.2	Proportion of population with large household expenditures on health as a share of total household expenditure or income	GI 3.8.2	Proportion of population with large household expenditures on health as a share of total household expenditure or income	Exact
37	NI 3.9.3	Mortality rate attributed to unintentional poisoning, (per 1,00,000 population)	GI 3.9.3	Mortality rate attributed to unintentional poisoning, (per 1,00,000 population)	Partial
38	NI 3.a.1	Percentage of adults 15 years and above with use of any kind of tobacco (smoking and smokeless)	GI 3.a.1	Age-standardized prevalence of current tobacco use among persons aged 15 years and older	Partial
39	NI 3.b.1	Percentage of children age 12-23 months fully vaccinated with BCG, measles and three doses each of polio and DPT or Penta vaccine (excluding polio vaccine given at birth)	GI 3.b.1	Proportion of the target population covered by all vaccines included in their national programme	Exact
40	NI 3.c.1	Health worker density	GI 3.c.1	Health worker density and distribution	Exact

Annex III - Mapping of National SDG Indicators with Global SDG Indicators

S.No.	National SDG Indicator (NI)		Global SDG Indicator (GI)		Mapping of NI with GI
	Indicator No.	Description of Indicator	Indicator No.	Description of Indicator	
41	NI 3.d.1	International Health Regulations (IHR) capacity and health emergency preparedness	GI 3.d.1	International Health Regulations (IHR) capacity and health emergency preparedness	Exact
42	NI 4.1.1	Percentage of students in grade 3, 5 and 8 achieving at least a minimum proficiency level in terms of nationally defined learning outcomes to be attained by pupils at the end of each of above grades	GI 4.1.1	Proportion of children and young people (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex	Partial
43	NI 4.1.2	Completion rate for grade 5, grade 8 and grade 10	GI 4.1.2	Completion rate (primary education, lower secondary education, upper secondary education)	Exact
44	NI 4.2.2	Participation rate in organized learning one year before official primary entry	GI 4.2.2	Participation rate in organized learning (one year before the official primary entry age), by sex	Exact
45	NI 4.3.1	Participation rate of youth and adults in formal and non-formal education and training in the previous 12 months	GI 4.3.1	Participation rate of youth and adults in formal and non-formal education and training in the previous 12 months, by sex	Exact
46	NI 4.4.1	Proportion of youth and adults with information and communication technology (ICT) skills	GI 4.4.1	Proportion of youth and adults with information and communication technology (ICT) skills, by type of skills	Exact
47	NI 4.5.1	Gender Parity indices for Primary /Secondary/Higher Secondary /Tertiary education	GI 4.5.1	Parity indices (female/male, rural/urban, bottom/top wealth quintile and others such as disability status, indigenous peoples and conflict-affected, as data become available) for all education indicators on this list that can be disaggregated	Partial
48	NI 4.7.1	Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment (similar to 12.8.1/13.3.1)	GI 4.7.1	Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment	Exact
49	NI 4.a.1	Proportion of schools with access to: (a) electricity; (b) computers for pedagogical purposes; (c) adapted infrastructure and materials for students with disabilities/ disabled friendly ramp and toilets; (d) basic drinking water; (e) single-sex basic sanitation facilities; and (f) basic hand washing facilities (as per the WASH indicator definitions), (in percentage)	GI 4.a.1	Proportion of schools offering basic services, by type of service	Partial

Annex III - Mapping of National SDG Indicators with Global SDG Indicators

S.No.	National SDG Indicator (NI)		Global SDG Indicator (GI)		Mapping of NI with GI
	Indicator No.	Description of Indicator	Indicator No.	Description of Indicator	
50	NI 4.c.1	Proportion of trained teachers, by education level (primary, upper primary, elementary, secondary and higher secondary education)	GI 4.c.1	Proportion of teachers with the minimum required qualifications, by education level	Partial
51	NI 5.1.1	Whether or not legal framework are in place to promote, enforce and monitor equality and non-discrimination on the basis of sex	GI 5.1.1	Whether or not legal framework are in place to promote, enforce and monitor equality and non-discrimination on the basis of sex	Exact
52	NI 5.2.1	Proportion of ever-married women age 18-49 years who have experienced physical, sexual or emotional violence by husband/partner in the past 12 months	GI 5.2.1	Proportion of ever-partnered women and girls aged 15 years and older subjected to physical, sexual or psychological violence by a current or former intimate partner in the previous 12 months, by form of violence and by age	Partial
53	NI 5.2.2	Proportion of women and girls aged 18-49 years subjected to sexual violence by persons other than an intimate partner in the previous 12 months	GI 5.2.2	Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence	Partial
54	NI 5.3.1	Percentage of women aged 20-24 years who were married by exact age 18 years	GI 5.3.1	Proportion of women aged 20–24 years who were married or in a union before age 15 and before age 18	Partial
55	NI 5.4.1	Proportion of time spent on unpaid domestic and care work.	GI 5.4.1	Proportion of time spent on unpaid domestic and care work, by sex, age and location	Exact
56	NI 5.5.1	Proportion of seats held by women in (a) national parliaments and (b) local governments (similar to 10.2.2 and 16.7.1)	GI 5.5.1	Proportion of seats held by women in (a) national Parliaments and (b) local governments	Exact
57	NI 5.5.2	Proportion of women in managerial positions	GI 5.5.2	Proportion of women in managerial positions	Exact
58	NI 5.6.2	Whether the country has laws and regulations that guarantee full and equal access to women and men aged 15 years and older to sexual and reproductive health care, information and education	GI 5.6.2	Number of countries with laws and regulations that guarantee full and equal access to women and men aged 15 years and older to sexual and reproductive health care, information and education	Exact

Annex III - Mapping of National SDG Indicators with Global SDG Indicators					
S.No.	National SDG Indicator (NI)		Global SDG Indicator (GI)		Mapping of NI with GI
	Indicator No.	Description of Indicator	Indicator No.	Description of Indicator	
59	NI 6.1.1	Percentage of Population getting safe and adequate drinking water within premises through Pipe Water Supply (PWS) (similar to 1.4.1)	GI 6.1.1	Proportion of population using safely managed drinking water services	Partial
60	NI 6.2.1	Proportion of households having access to toilet facility (Urban & Rural)	GI 6.2.1	Proportion of population using (a) safely managed sanitation services and (b) a hand-washing facility with soap and water	Partial
61	NI 6.3.1	Percentage of sewage treated before discharge into surface water bodies	GI 6.3.1	Proportion of domestic and industrial wastewater flows safely treated	Partial
62	NI 6.3.2	Proportion of Water Bodies with Good Ambient Water Quality	GI 6.3.2	Proportion of Water Bodies with Good Ambient Water Quality	Exact
63	NI 6.5.1	Degree of integrated water resources management	GI 6.5.1	Degree of integrated water resources management	Exact
64	NI 6.b.1	Proportion of villages with Village Water & Sanitation Committee [VWSC]	GI 6.b.1	Proportion of local administrative units with established and operational policies and procedures for participation of local communities in water and sanitation management	Partial
65	NI 7.1.1	Percentage of households electrified	GI 7.1.1	Proportion of population with access to electricity	Partial
66	NI 7.1.2	Percentage of household using clean cooking fuel	GI 7.1.2	Proportion of population with primary reliance on clean fuels and technology	Partial
67	NI 7.2.1	Renewable energy share in the total installed electricity generation	GI 7.2.1	Renewable energy share in the total final energy consumption	Partial
68	NI 7.3.1	Energy intensity measured in terms of primary energy and GDP, (in mega joules per rupee)	GI 7.3.1	Energy intensity measured in terms of primary energy and GDP	Exact
69	NI 7.b.1	Installed renewable energy generating capacity in the country (in watts per capita)(similar to indicator 12.a.1)	GI 7.b.1	Installed renewable energy-generating capacity in developing and developed countries (in watts per capita)	Exact
70	NI 8.1.1	Annual growth rate of GDP (adjusted to price changes) per capita, (in percentage)	GI 8.1.1	Annual growth rate of real GDP per capita	Exact
71	NI 8.2.1	Annual growth rate of GDP per employed person	GI 8.2.1	Annual growth rate of real GDP per employed person	Exact

Annex III - Mapping of National SDG Indicators with Global SDG Indicators					
S.No.	National SDG Indicator (NI)		Global SDG Indicator (GI)		Mapping of NI with GI
	Indicator No.	Description of Indicator	Indicator No.	Description of Indicator	
72	NI 8.5.1	Average hourly earnings of employees, by sex, age, occupation (in Rs.)	GI 8.5.1	Average hourly earnings of employees, by sex, age, occupation and persons with disabilities	Exact
73	NI 8.5.2	Unemployment rate	GI 8.5.2	Unemployment rate by sex, age and persons with disabilities	Partial
74	NI 8.6.1	Proportion of youth (aged 15–24 years) not in education, employment or training	GI 8.6.1	Proportion of youth (aged 15–24 years) not in education, employment or training	Exact
75	NI 8.8.1	Fatal and non-fatal occupational injuries per 100,000 workers	GI 8.8.1	Fatal and non-fatal occupational injuries per 100,000 workers, by sex and migrant status	Exact
76	NI 8.9.1	Tourism direct GDP as a proportion of total GDP and in growth rate	GI 8.9.1	Tourism direct GDP as a proportion of total GDP and in growth rate	Exact
77	NI 8.10.1	a) Number of banking outlets per 1,00,000 population and (b) number of automated teller machines (ATMs) per 100,000 population	GI 8.10.1	(a) Number of commercial bank branches per 100,000 adults and (b) number of automated teller machines (ATMs) per 100,000 adults	Partial
78	NI 8.b.1	Existence of a developed and operationalized national strategy for youth employment, as a distinct strategy or as part of a national employment strategy	GI 8.b.1	Existence of a developed and operationalized national strategy for youth employment, as a distinct strategy or as part of a national employment strategy	Exact
79	NI 9.1.1	Proportion of the rural population who live within 2 km of an all-season road	GI 9.1.1	Proportion of the rural population who live within 2 km of an all-season road	Exact
80	NI 9.1.2	Passenger and freight volumes, by mode of transport	GI 9.1.2	Passenger and freight volumes, by mode of transport	Partial
81	NI 9.2.1	Manufacturing value added as a proportion of GDP and per capita	GI 9.2.1	Manufacturing value added as a proportion of GDP and per capita	Exact
82	NI 9.2.2	Manufacturing employment as a proportion of total employment, (in percentage)	GI 9.2.2	Manufacturing employment as a proportion of total employment	Partial
83	NI 9.4.1	Total CO ₂ emissions of power sector per unit of GDP (in Tonne /Rupees Crore)	GI 9.4.1	CO ₂ emission per unit of value added	Partial
84	NI 9.5.1	Research and development expenditure as a proportion of GDP	GI 9.5.1	Research and development expenditure as a proportion of GDP	Partial

Annex III - Mapping of National SDG Indicators with Global SDG Indicators

S.No.	National SDG Indicator (NI)		Global SDG Indicator (GI)		Mapping of NI with GI
	Indicator No.	Description of Indicator	Indicator No.	Description of Indicator	
85	NI 9.5.2	Researchers (in full time equivalent) per million population	GI 9.5.2	Researchers (in full time equivalent) per million inhabitants	Partial
86	NI 9.c.1	Proportion of population covered by a mobile network, by technology	GI 9.c.1	Proportion of population covered by a mobile network, by technology	Partial
87	NI 10.1.1	Growth rates of household expenditure per capita among the bottom 40 per cent of the population and the total population, 2011-12 (in percentage)	GI 10.1.1	Growth rates of household expenditure per capita among the bottom 40 per cent of the population and the total population	Exact
88	NI 10.2.1	Percentage of people living below 50 percent of median per capita household expenditure	GI 10.2.1	Proportion of people living below 50 per cent of median income, by sex, age and persons with disabilities	Partial
89	NI 10.4.1	Labour Share of GDP	GI 10.4.1	Labour Share of GDP	Exact
90	NI 10.5.1	Financial Soundness Indicators	GI 10.5.1	Financial Soundness Indicators	Exact
91	NI 10.6.1	Whether the Country is a member and has voting rights in international organizations (similar to Indicator 16.8.1)	GI 10.6.1	Proportion of members and voting rights of developing countries in international organizations	Exact
92	NI 10.7.1	Recruitment cost borne by employee as a proportion of monthly income earned in country of destination	GI 10.7.1	Recruitment cost borne by employee as a proportion of monthly income earned in country of destination	Exact
93	NI 10.c.1	Remittance costs as a proportion of the amount remitted, (cost of Sending/Receiving USD 200 in Public Sector Banks)	GI 10.c.1	Remittance costs as a proportion of the amount remitted	Partial
94	NI 11.1.1	Proportion of Urban Population Living in Slums, informal Settlements or Inadequate Housing	GI 11.1.1	Proportion of Urban Population Living in Slums, informal Settlements or Inadequate Housing	Exact
95	NI 11.2.1	Proportion of Households in urban areas having convenient access to public transport	GI 11.2.1	Proportion of population that has convenient access to public transport, by sex, age and persons with disabilities	Exact
96	NI 11.4.1	Total per capita expenditure on the preservation, protection and conservation of all cultural and natural heritage	GI 11.4.1	Total per capita expenditure on the preservation, protection and conservation of all cultural and natural heritage, by source of funding (public, private), type of heritage(cultural, natural) and level of government (national, regional, and local/municipal)	Partial

Annex III - Mapping of National SDG Indicators with Global SDG Indicators

S.No.	National SDG Indicator (NI)		Global SDG Indicator (GI)		Mapping of NI with GI
	Indicator No.	Description of Indicator	Indicator No.	Description of Indicator	
97	NI 11.5.1	Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population (similar to Indicator 1.5.1 and 13.1.1)	GI 11.5.1	Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population	Exact
98	NI 11.6.1	Percentage of waste processed	GI 11.6.1	Proportion of municipal solid waste collected and managed in controlled facilities out of total municipal waste generated by cities	Partial
99	NI 11.b.1	Whether the country has adopted and implemented national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, (similar to Indicator 1.5.3 and 11.b.1)	GI 11.b.1	Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015–2030	Exact
100	NI 11.b.2	Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies (similar to 1.5.4/13.1.3)	GI 11.b.2	Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies	Exact
101	NI 12.4.1	Whether the country has ratified international Multilateral Environmental Agreements on hazardous waste and other chemicals	GI 12.4.1	Number of parties to international multilateral environmental agreements on hazardous waste, and other chemicals that meet their commitments and obligations in transmitting information as required by each relevant agreement	Partial
102	NI 12.4.2	(a) Hazardous waste generated per capita; and (b) proportion of hazardous waste treated, by type of treatment	GI 12.4.2	(a) Hazardous waste generated per capita; and (b) proportion of hazardous waste treated, by type of treatment	Partial
103	NI 12.6.1	Proportion of companies publishing sustainability reports	GI 12.6.1	Proportion of companies publishing sustainability reports	Exact
104	NI 12.8.1	Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment (similar to 4.7.1/13.3.1)	GI 12.8.1	Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment	Exact
105	NI 12.a.1	Installed renewable energy generating capacity in the country (in watts per capita) (similar to indicator 7.b.1)	GI 12.a.1	Installed renewable energy generating capacity in developing countries	Exact

Annex III - Mapping of National SDG Indicators with Global SDG Indicators

S.No.	National SDG Indicator (NI)		Global SDG Indicator (GI)		Mapping of NI with GI
	Indicator No.	Description of Indicator	Indicator No.	Description of Indicator	
106	NI 12.b.1	Implementation of standard accounting tools to monitor the economic and environmental aspects of tourism sustainability	GI 12.b.1	Implementation of standard accounting tools to monitor the economic and environmental aspects of tourism sustainability	Exact
107	NI 12.c.1	Amount of fossil fuel subsidy per unit of GDP	GI 12.c.1	Amount of fossil fuel subsidy per unit of GDP (Production and consumption)	Partial
108	NI 13.1.1	Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population (similar to Indicator 1.5.1 and 11.5.1)	GI 13.1.1	Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population	Exact
109	NI 13.1.2	Whether the country has adopted and implemented national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, (similar to Indicator 1.5.3 and 11.b.1)	GI 13.1.2	Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015–2030	Exact
110	NI 13.1.3	Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies (similar to 1.5.4/11.b.2)	GI 13.1.3	Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies	Exact
111	NI 13.2.1	Whether the country has nationally determined contributions and long-term strategies, as reported to the secretariat of the United Nations Framework Convention on Climate Change	GI 13.2.1	Number of countries with nationally determined contributions, long-term strategies, national adaptation plans and adaptation communications, as reported to the secretariat of the United Nations Framework Convention on Climate Change	Partial
112	NI 13.3.1	Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment (similar to 4.7.1/12.8.1)	GI 13.3.1	Extent to which (i) global citizenship education and (ii) education for sustainable development are mainstreamed in (a) national education policies; (b) curricula; (c) teacher education; and (d) student assessment	Exact
113	NI 14.3.1	Average marine acidity (pH) measured at agreed site of representative sampling stations	GI 14.3.1	Average marine acidity (pH) measured at agreed site of representative sampling stations	Partial

Annex III - Mapping of National SDG Indicators with Global SDG Indicators

S.No.	National SDG Indicator (NI)		Global SDG Indicator (GI)		Mapping of NI with GI
	Indicator No.	Description of Indicator	Indicator No.	Description of Indicator	
114	NI 14.c.1	Compliance of international laws	GI 14.c.1	Number of countries making progress in ratifying, accepting and implementing through legal, policy and institutional frameworks, ocean-related instruments that implement international law, as reflected in the United Nations Convention on the Law of the Sea, for the conservation and sustainable use of the oceans and their resources	Partial
115	NI 15.1.1	Forest cover as a percentage of total geographical area, (in percentage)	GI 15.1.1	Forest area as a percentage of land area	Partial
116	NI 15.2.1	Progress towards sustainable forest management	GI 15.2.1	Progress towards sustainable forest management	Partial
117	NI 15.3.1	Proportion of land that is degraded over total land area	GI 15.3.1	Proportion of land that is degraded over total land area	Partial
118	NI 15.5.1	Red List Index	GI 15.5.1	Red List Index	Partial
119	NI 15.6.1	15.6.1: Whether country has adopted legislative, administrative and Policy frameworks to ensure fair and equitable sharing of benefits	GI 15.6.1	Number of countries that have adopted legislative, administrative and policy frameworks to ensure fair and equitable sharing of benefits	Exact
120	NI 15.8.1	Whether the country has adopted relevant national legislation and adequately resourcing the prevention or control of invasive alien species	GI 15.8.1	Proportion of countries adopting relevant national legislation and adequately resourcing the prevention or control of invasive alien species	Exact
121	NI 15.9.1	(a) Progress towards national targets established in accordance with Aichi Biodiversity Target 2 of the Strategies Plan for Biodiversity, 2011-2020; (b) Integration of biodiversity into national accounting and reporting systems, defined as implementation of the System of Environmental-Economic Accounting	GI 15.9.1	(a) Number of countries that have established national targets in accordance with or similar to Aichi Biodiversity Target 2 of the Strategic Plan for Biodiversity 2011–2020 in their national biodiversity strategy and action plans and the progress reported towards these targets; and (b) integration of biodiversity into national accounting and reporting systems, defined as implementation of the System of Environmental-Economic Accounting	Exact

Annex III - Mapping of National SDG Indicators with Global SDG Indicators					
S.No.	National SDG Indicator (NI)		Global SDG Indicator (GI)		Mapping of NI with GI
	Indicator No.	Description of Indicator	Indicator No.	Description of Indicator	
122	NI 16.1.1	Number of victims of intentional homicide per 1,00,000 population	GI 16.1.1	Number of victims of intentional homicide per 1,00,000 population, by sex and age	Partial
123	NI 16.1.3	Per 1,00,000 Population subjected to physical, psychological or sexual violence in the previous 12 months	GI 16.1.3	Proportion of population subjected to (a) physical violence, (b) psychological violence and/or (c) sexual violence in the previous 12 months	Partial
124	NI 16.2.2	Number of victims rescued from human trafficking per 1,00,000 population, by sex, age and form of exploitation	GI 16.2.2	Number of victims rescued from human trafficking per 1,00,000 population, by sex, age and form of exploitation	Partial
125	NI 16.2.3	Percentage of women aged 18-29 years who experienced sexual violence by age 18	GI 16.2.3	Proportion of young women and men aged 18–29 years who experienced sexual violence by age 18	Partial
126	NI 16.3.2	Unsentenced detainees as a proportion of overall prison population	GI 16.3.2	Unsentenced detainees as a proportion of overall prison population	Exact
127	NI 16.6.1	Primary government expenditures as a proportion of original approved budget	GI 16.6.1	Primary government expenditures as a proportion of original approved budget, by sector (or by budget codes or similar)	Exact
128	NI 16.7.1	Proportion of seats held by women in (a) national parliaments and (b) local governments	GI 16.7.1	Proportions of positions in national and local institutions, including (a) the legislatures; (b) the public service; and (c) the judiciary, compared to national distributions, by sex, age, persons with disabilities and population groups	Partial
