THE NATIONAL SAMPLE SURVEY

TWENTYFIFTH ROUND : JULY 1970—JUNE 1971

Number 241

VOL. II

Earnings, Indebtedness, Cultivated Holdings and Assets of Weaker Section Households in Rural Area for the States of Andhra Pradesh, Gujarat, Kerala, Madhya Pradesh, Maharashtra, Mysore and Tamil Nadu.

CHAPTER ONE

1. INTRODUCTION

1. *Objective.*—The National Sample Survey Organisation undertook an enquiry into the economic conditions of the weaker section of rural population of the country in its twentyfifth round of survey. With this object in view household schedules on economic condition of the small cultivators (schedule 16.1) and the wage-earners (schedule 16.2) were canvassed in the rural areas of the country. The period of the survey was from 1st July 1970 to 30th June 1971.

2. This report is a follow up of NSS Draft report No. 262 which contains All India estimates. The States covered in this report are Andhra Pradesh, Karala, Mysore and Tamil Nadu belonging to the southern part and Gujarat, Madhya Pradesh and Maharashtra to the western part of the country. The estimates for other states viz. Assam, Bihar, Orissa, West Bengal and Haryana, Jammu and Kashmir, Punjab, Rajasthan and Uttar Pradesh and for Union Territories have been presented in Draft Reports No. 275/1 and 275/3.

3. *Definition of the weaker section.*—Weaker section households for the purpose of the survey were composed of two sets of households viz. (i) small cultivator households and (ii) non-cultivating wage-earner households. 'Small cultivator households' were defined as the lowest ten percent of the households having some cultivated land either owned or leased in, during the reference period July 1969—June 1970, and 'non-cultivating wage earner households' were defined as households having no cultivated land whatsoever during the same reference period. Further, any of the households from either of these strata which might have derived its major income during the reference period, more or less on a regular basis, from sources like self-employment in trading, manufacture, mechanised transport, professions and also from salaried employment or from rent, was to be excluded. The rural households thus classified and selected were to constitute two more or less homogeneous groups viz. (a) the small cultivator households whose main stay was farming small holding (size of which is not the same nor is it fixed throughout the country) and, may be, some wage labour, and (b) non-cultivating wage earner households whose main stay was wage labour and who had no cultivated land.

4. *Items of information.*—Information collected on income, expenditure, assets and indebtedness from both the types of households were same in nature and for small cultivator households information on cultivated holding, particulars of the type of tenure and production from agriculture, were collected in addition. The detailed items of information collected were as follows : (i) area of land cultivated (ii) area of land owned and leased in (iii) state of record of tenancy rights and nature of dispute on land (iv) gross receipt from agriculture, livestock and enterprises relating to animal husbandry and forestry (v) net receipt from other sources viz. enterprise other than agriculture, wage income, hire charges of draught animal, cart and agricultural implements etc., remittances and other transfer receipts, and receipt from other non-gainful activities, (vi) disbursement on account of farm activities (vii) inventory and transaction of assets and (viii) indebtedness. Information on 'credit needs' was also collected from small cultivator households only. Besides these, details of household consumer expenditure, and employment and certain other related items of information were also collected, which are covered in separate reports. In this report information on earning, cultivated holdings, asset and indebtedness of small cultivator and wage earner households are presented.

5. *Reference period.*—The information on cultivated land, receipts and disbursements on farm accounts, and receipts from other sources, covered in this report, were collected for last 365 days preceding the date of survey. Data on 'assets' and loan outstanding presented in the report were referred to the date of survey and that on loan transacted was collected for a period of one year preceding the date of survey.

6. *Coverage.*—The geographical coverage of the survey in the twentyfifth round for the above mentioned survey was the rural area of the Indian Union except NEFA, Ladak district of Jammu and Kashmir State, Mizo Hills (Lushai) district in Assam State, Pul and Samari tahsils of district of Surguja and Bijapur, Dantowara and Kanta tehsils of district of Bastar of Madhya

National Sample Survey

Pradesh, Sironcha and Gadchirohi tehsils of district Chanda of Maharashtra, rural areas in Nagaland, Longai and Kanchanpur in Dharmanagar sub-division and Dumbulagar in Amarapur sub-division of the Union Territories of Tripura, the Union Territories of Andaman and Nicobar Islands and Laccadive, Minicoy and Amindivi Islands.

7. *Sampling Design.*—A self weighting sampling design (details given in Appendix 5) was laid out. The design is mainly a stratified two stage one, the first stage and the second stage units being a village and a household respectively. The sample villages were selected circularly systematically with equal probability and then the sample households were selected linear systematically with a random start in each sample village. The sample was so selected as to form two independent and interpenetrating net work of subsamples. The field work was organised in 4 sub-round and the period of survey was 1st July 1970 to 30th June 1971. In the survey out of 8714 sample villages 12522 sample households of small cultivators and 8804 of wage earners households were surveyed in the rural areas of the country as a whole. For obtaining more efficient estimates for states they were assigned on equal sample size for collection of data on a matching basis. Sample size for each of the States and Regions covered in this report has been shown in Table (A).

TABLE (A) : NUMBER OF SAMPLE VILLAGES AND HOUSEHOLDS BY STATES AND REGIONS

State	Region	number of sample		
		village	households	
			small cultivator	wage earner

Tamil Nadu	all	597	683	515
	Coastal, Northern	187	281	191
	Coastal, Southern	163	207	158
	Inland	247	195	166

8. *Estimates.*—In this report pooled estimates of all sub-rounds are presented for all States and Regions of Andhra Pradesh, Gujarat, Kerala, Madhya Pradesh, Maharashtra, Mysore and Tamil Nadu. The estimates are based on data collected through *Central Sample* only.

9. *Field Work.*—The responsibility of collection of data of the Central Sample rested on the Directorate of the Field Operation Division of the National Sample Survey Organisation, Government of India in all States and Union Territories except in West Bengal and Bombay City where the work was entrusted to the field unit of the Indian Statistical Institute.

10. *Arrangement of Tables.*—In the present report Tables in Appendix I refer to tables for small cultivator only and in Appendix II for small cultivators and wage earner households. The digit on the lefthand side of decimal in the table number stands for the number of the Appendix and those on its right indicate the serial number of the table within the Appendix. The Tables of Appendix I contain information on area of cultivated land, area owned and leased-in, area irrigated; state of record of tenancy rights of leased-in land, nature of dispute on record of tenancy rights of leased-in land and credit need of small cultivator households and the tables of Appendix II show estimates relating to income, expenditure, assets and indebtedness of small cultivators and wage earner households at the State and Region levels.

2. SOME CONCEPTS AND DEFINITIONS

11. Some important concepts and definitions adopted in the survey on economic conditions of small cultivator household and that of wage earner household are given below.

12. *Household.*—A group of persons normally living together and taking food from a common kitchen constituted a "household". However as special cases, (i) the inmates of a mess, hostel, boarding and lodging house, hotel, orphanage, vagrant house were treated as single member households, and (ii) inmates of jail, hospital, nursing homes etc. however were excluded, Floating population i.e. persons without any normal residence, vagrants etc. were also not listed for survey.

13. *Land cultivated.*—This was defined as the area of land cultivated by the household in agricultural year 1969-70. The net area sown or planted with crops, vegetables, orchards and plantation crops including land used for horticulture, nursery, forestry and logging was treated as cultivated land. The current fallow was included as cultivated land.

14. *Salaried employment.*—Employment on a regular salary basis (monthly, fortnightly or weekly) in the public sector, schools, hospitals, health centres, industrial or in any other establishments private or public etc. was termed as salaried employment.

15. *Adult and child.*—Person below 15 years of age on the date of survey was considered as 'child' and those who attained the age of 15 years or exceeded it were considered as "adult".

16. *Earners.*—A person who worked in his own farm and non-farm enterprise as self employed or participated in others farm or non-farm enterprise for wage or salary during the reference period was treated as an 'earner'. Household member who worked as unpaid helper in household farm or non-farm enterprise was also considered as an 'earner'.

17. *Land owned.*—A plot of land was considered as 'owned' by the household if any member of the household had the right of permanent heritable possession with or without right to transfer title on the date of survey. A plot of land which was leased out on the date of survey without losing the right of permanent heritable possession was also accounted as owned. But while accounting for cultivated land, owned land leased out for cultivation was not accounted against the owner household, but was accounted for household that leased in the land for cultivation.

18. *Irrigated Land.*—A plot of land cultivated during last one year ending on the date of survey was defined as irrigated in case it was provided with water from sources like canals, wells, tubewells etc. other than rain water at any point of time during last one year.

19. *Net income from farm.*—Net income of farmer's household was gross income obtained from farm produce less the expenditure made on account of it during the same reference period.

20. *Net income from other sources.*—It included net income (i.e. gross income less expenditure on its account) from (i) self-employment in manufacturing, trading, transport, mining and construction industries, (ii) professions and liberal arts, (iii) wage income from agricultural and non-agricultural activities, (iv) the hiring out of draught animals, carts and agricultural implements, (v) property viz., on account of rent of land, building, machineries etc., interest against loan, dividend from shares etc., (vi) remittances and other transfer receipts like gifts etc., (vii) non-gainful activities e.g. begging etc.

National Sample Survey

21. *Assets*.—Physical assets included land, building, tools and implements, machinery, transport equipment, furnitures and fittings and other fixed assets to be used for household enterprise. Financial assets included shares, bonds etc. Any domestic durable of the household was excluded.

22. *Indebtedness*.—For this purpose all types of loans short, medium or long term were taken into account. These loans included all cash and kind loans taken for enterprise, as well as for domestic purposes. Besides, trader's credit, credit purchase for enterprise, fees to be paid for professional service like those of doctors, lawyers etc. and 'hand loan' i.e. interest free loan taken from relatives or neighbours generally to be paid back within a short period of time were also included under loan.

**3. LIST OF NSS REGIONS WITH DETAILS OF THEIR COMPOSITION :
TWENTYFIFTH ROUND**

Sl. no.	State	Regions		
		no.	description	compositions (districts)
(1)	(2)	(3)	(4)	(5)
1.	Andhra Pradesh	1	Coastal	Srikakulam, Vishakhapatnam, East Godavari, West Godavari, Krishna, Guntur and Nellore.
2.		2	Inland, Northern	Adilabad, Karimnagar, Nazamabad, Medak, Warrangal, Khammam, Nalgonda, Hyderabad and Mehboobnagar.
3.		3	Inland, Southern	Kurnool, Anantapur, Cudapah and Chittoor.
4.	Gujarat	1	Eastern	Banaskantha (tehsil Danta), Sabarkantha (tehsils Khedbrahma, Vijayanagar, Bhiloda and Meghraj), Panchmahals (tehsils Limkheda, Dohad, Jhalod and Santrampur), Baroda (tehsils Naswadi, Tilkwada, Chotte Udepur and Jambugam), Broach (tehsils Ankteshwar, Valia, Jagadhia, Dodipadaa, Sagbara and Nanded), Sural (tehsils Hahuwa Vyara, Valod, Songhdah, Handvi, Uchhal, Nizar, Mangral, Palsana and Borodoli), Dangs (tehsil Dangs) (tehsil) and Balsar (tehsil Dharampur, Chikhli, Bausada, Umbergaon, Bulsar and Pardi).
5.		2	Plains, Northern	Sabarkantha (tehsils Prantij, Modasa, Himatnagar, Malpur, Bayad and Idar), Mehsana (tehsils Sidhpur, Patan, Mehsana, Kheralu, Visnagar, Vijapur, Kadi and Kalol), Ahmedabad (all tehsils) and Kaira (all tehsils).
6.		3	Plains, Southern	Panchmahals (tehsils Halol, Kalol Godhra, Jambahoda, Devgadhbaria, Shahera and Lunawada), Baroda (tehsils Savali, Debhoi, Sihar, Karjan, Padra, Baroda, Waghodia and Sankheda), Broach (tehsil, Mansot, Vagra, Amod, Jambusar and Broach), Surat (tehsils Charasi, Kamrej and Olpad) and Bulsar (tehsils Gaudevi and Navsari).
7.		4	Dry Areas	Banaskantha (tehsils Palampur, Vadgama, Dhanera, Deesa, Kankrej, Wav, Thared), Deodar, Radhanpur and Santalpur), Kutoh (all tehsils), Mehsana (tehsils Chansma, Sami and Harij), Surendranagar (all tehsils) and Rajkot (tehsil Malia).
8.		5	Saurashtra	Rajkot (tehsils Padhari, Gondal, Lodhika, Kotasangani, Jetpur, Dehroji, Upleta, Jamkandorna, Rajkot, Jasdān, Morvi and Wankaner), Bhavnagar (all tehsils), Amreli (all tehsils), Junagadh (all tehsils), Jamnagar (all tehsils).
9.	Kerala	1	Northern	Cannanore, Kozhikode and Palghat.
10.		2	Southern	Trichur, Ernakulam, Kottayam, Alleppy, Quilon and Trivendrum.

(1)	(2)	(3)	(4)	(5)
11. Madhya Pradesh		1	Eastern	Surguja, Raigarh, Bilaspur, Raipur, Drug, Balaghat and Bastar.
12.		2	Inland	Sidhi, Rewa, Satna, Panna, Jabalpur, Shahdol, Mandia and Seoni.
13.		3	Inland, Western	Dameh, Sagar, Vidhisha-Sehore, Raisen, Narsimhapur, Chhindwara, Hosangabad and Betul.
14.		4	Western	Mandsaur, Rajgarh, Shajapur, Ujjain, Ratlam, Jhabua, Dhar, Indore-Dewas, East Nimar and West Nimar.
15.		5	Northern	Chhattarpur, Tikamgarh, Bhind, Datia, Gawalior, Murena, Shivpuri and Guna.
16. Maharashtra		1	Coastal	Thana, Greater Bombay, Kolaba and Ratnagiri.
17.		2	Inland, Western	Ahmednagar, Poona, Sholapur, Satara, Sangli and Kolhapur.
18.		3	Inland, Northern	Jalgaon, Dhulia and Nasik.
19.		4	Inland, Central	Aurangabad, Bhir, Parbhani, Nanded and Osmanabad.
20.		5	Inland, Eastern	Nagpur, Wardha, Amravati, Buldana, Akola and Yeotmal.
21.		6	Eastern	Bhandara and Chanda.
22. Mysore		1	Coastal and Ghata	North Kanara and South Kanara.
23.		2	Inland, Eastern	Shimoga, Chikmagalur, Hassan and Coorg.
24.		3	Inland, Southern	Kolar, Tumkur, Bangalore, Mandya and Mysore.
25.		4	Inland, Northern	Bidar, Gulbarga, Bijapur, Belgaum, Dharwar, Raichur, Bellary and Chitaldrug,
26. Tamil Nadu		1	Coastal, Northern	Madras, Chingleput, North Arcot and South Arcot.
27.		2	Coastal, Southern	Thanjavur, Ramanathapuram, Tirunelveli and Kanyakumari.
28.		3	Inland	Salem, Dharmपुरi, Tiruchirapalli, Madurai, Coimbatore and Nilgiris.

TABLE (1.4) : PERCENTAGE DISTRIBUTION OF TOTAL AREA **LEASED IN' BY TYPE OF 'LEASE IN' : SMALL CULTIVATOR HOUSEHOLDS

type of leased in	number of sample households	percentage
(1)	(2)	(3)
State : Andhra Pradesh		
cash rent basis	16	10.37
crop share basis	43	60.58
any other basis	22	29.05
total 'leased' in	81	100.00
number of sample villages	672	x
Region : Coastal		
cash rent basis	12	29.85
crop share basis	6	35.85
any other basis	6	34.80
total 'leased in'	24	100.00
number of sample villages	280	x
Region : Inland, Northern		
cash rent basis	1	3.32
crop share basis	18	70.11
any other basis	8	26.57
total 'leased in'	27	100.00
number of sample villages	240	x
Region : Inland, Southern		
cash rent basis	3	5.82
crop share basis	19	65.38
any other basis	8	28.80
total 'leased in'	30	100.00
number of sample villages	152	x

*Includes non-cultivated areas.

NOTE : A sample household having more than one plot of land 'leased in' and each plot being leased in under different types of 'lease in', was separately counted under each type of 'lease in'. On the other hand a sample household which had 'leased in' land was counted only once under 'all types' of lease in category. Hence number of sample households reporting to have 'leased in' land under cash rent basis, crop share basis and any other basis when added up exceeded the number of sample households under 'all types' in some cases.

APPENDIX III

SAMPLING DESIGN AND ESTIMATION PROCEDURE

1. *Sample Design*.—The sample design of the rural survey of the NSS twentyfifth round was a stratified one with two-stage selection within each stratum. The first stage units were villages and the second stage units were households for the socio-economic enquiries. The sample design had been made *self-weighting* for each schedule of enquiry at the state level. The sample villages were usually selected in the form of two independent and interpenetrating sub-samples. Sub-sample 1 was surveyed by one party of investigators and sub-sample 2 by another party.

2. *Sample size (Central sample)*.—The total sample size for household enquiries in the rural areas was 8400 samples villages and the average sample size was expected to be 2 households in a village for each of the schedule 16·1 and 16·2¹.

3. *Work Programme*.—The survey period (one year) of this round had been divided into four sub-rounds of three months duration each. In each sub-sample of a rural stratum there were 12 samples villages. These 12 villages were sub-divided into four sets of three villages each in a specified manner. For one sub-round out of these 12 villages, only three villages were selected and were surveyed in the sub-round. Thus on the whole, all the 12 villages were covered once during the full survey period.

4. *Sampling frame*.—The frame was the list of villages as per the 1961 population census.

5. *Stratification*.—The country had been divided into 65 agricultural regions by grouping within each state or union territory, districts having similar population density and crop pattern, Strata are formed within each region, by grouping tehsils (i) which are contiguous, (ii) having similar crop pattern and population density, and (iii) having good transport facilities amongst them. The number of persons engaged in agricultural occupation is more or less the same for each stratum within a region.

6. *Allocation*.—The All-India sample size had been allocated to the states on a joint consideration of their rural population, area under cereal crops and available investigator strength. This was modified to (i) ensure a multiple of 360 villages in each state (excepting Haryana and Punjab), (ii) take account of state-wise variation in workload and (iii) make the sample size a multiple of 24 in order to facilitate an allocation of 24 villages in each rural stratum.

7. *Selection of villages*.—For the central sample, in each stratum, two independent sub-samples of 12 villages each had been selected circular systematically with equal probability.

8. *Selection of households*.—All the households in the sample village were divided into the following three sub-strata : (1) households having no cultivated land, (2) the lowest ten percent of households having cultivated land and (3) remaining households. Households deriving more or less regular and major income in the last year from self-employment in trading establishment, manufacture, construction, mechanised transport, professions or salaried employment or rent were excluded from both sub-strata 1 and 2 and were included in sub-stratum 3. Samples for schedules 16·1, 16·(2) & 16(R) were selected from sub-stratum 2, 1 & 3 respectively. Sample households were selected liner systematically using intervals and random start specified for this purpose so as to get about 2 sample households on an average from each sub-stratum.

9. *Estimation Procedure* :

- s : subscript for sth stratum
- i : subscript for ith sample village
- j : subscript for jth sample household
- k ; number of strata in the state
- h : number of households selected for the enquiry
- y : value of the characteristic

If Y stands for the estimate of the *state-total* for the characteristic Y in the concerned schedule

$$Y = M \sum_{s=1}^k \sum_{i=1}^{12} \sum_{j=1}^{h_{si}} y_{sij}$$

Where M is the constant multiplier for the particular schedule.

¹ The actual number of household selected for survey was far below this expected level in the first two sub-rounds. As the design was self-weighting, the intervals for household selection were subsequently reduced to realise a larger sample in the last two sub rounds.

APPENDIX IV

FACSIMILE OF THE SCHEDULES OF INVESTIGATION

- (i) Schedule 16·1 : Economic condition of the small cultivator household.
- (ii) Schedule 16·2 : Economic condition of the rural non-cultivating wage earner household.

[4] household members and their demographic and time disposition particulars during the week ended on																[4.1] wage rate in the reference week																	
serial number	relation to head of household	sex (male-1, female-2)	age last birthday (years)	marital status code	general education code	srl. no. of time disposition code	time disposition code	intensity code on							total number of man days in reference week	wage/salary (Rs. 0'00) receivable for work during the week			type of wage earner	date wage (Rs. 0'00 per day) at which worked in reference week
