प्राक्कथन

राष्ट्रीय प्रतिदर्श सर्वेक्षण कार्यालय (एनएसएसओ) के अखिल भारत रोजगार एवं बेरोजगारी के सर्वेक्षण राष्ट्रीय तथा राज्य स्तर के श्रम बाजार आंकड़ों के प्रमुख स्रोत हैं। इन सर्वेक्षणों से राष्ट्रीय तथा राज्य/संघ राज्यक्षेत्र स्तर पर श्रम-बल के बारे में तैयार किए गए संकेतक विभिन्न सरकारी संगठनों के नियोजन तथा नीति-निर्माण संबंधी कार्यों के लिए जरूरी महत्वपूर्ण इनपुट के तौर पर इस्तेमाल किए जाते हैं तथा अनेक अन्य उपयोगकर्ता/शोधकर्ता इन आंकड़ों को महत्वपूर्ण तथ्यों के रूप में उपयोग करते हैं। रोजगार तथा बेरोजगारी के बारे में एनएसएस के सर्वेक्षण 27वें दौर (अक्टूबर 1972 से सितम्बर 1973) से पंचवर्षीय आधार पर आयोजित किए जा रहे हैं। एनएसएस के 68वें दौर (जुलाई 2011-जून 2012) के दौरान किए गए रोजगार एवं बेरोजगारी संबंधी सर्वेक्षण को मिलाकर, एनएसएसओ रोजगार तथा बेरोजगारी पर अभी तक ऐसे कुल 9 व्यापक सर्वेक्षण कर चुका है। एनएसएस के 68वें दौर में (i) घरेलू उपभोक्ता व्यय और (ii) रोजगार एवं बेरोजगारी विषयों को कवर किया गया था।

2. एनएसएसओ द्वारा सर्वेक्षित प्रतिदर्शों को पारम्परिक रूप से केन्द्रीय प्रतिदर्श कहा जाता है। अधिकांश राज्यों ने भी राज्य प्रतिदर्श के तहत बराबर के अथवा अपेक्षाकृत बड़े प्रतिदर्श आकारों के लिए इस प्रकार के सर्वेक्षण किए हैं। केन्द्रीय प्रतिदर्शों से एकत्र किए गए आंकड़ों से रोजगार एवं बेरोजगारी के बारे में प्राप्त निष्कर्षों को एनएसएसओ अनेक रिपोर्टों के रूप में प्रकाशित करता है। 'भारत में रोजगार तथा बेरोजगारी के प्रमुख संकेतक, 2011-12' नामक दस्तावेज जून, 2013 में जारी किया गया था और जून, 2013 में ही यानि फील्ड कार्य समाप्त होने के एक वर्ष के अंदर ईकाई स्तर के आंकड़े भी जारी कर दिए गए थे। मुख्य संकेतकों के बारे में उपरोक्त दस्तावेज जारी करने के अलावा, एनएसएस के 68वें दौर के आधार पर रोजगार तथा बेरोजगारी के अलग-अलग पहलुओं के बारे में आने वाले समय में सात विस्तृत रिपोर्टें जारी करने की योजना बनाई गई है। इस श्रृंखला की पहली रिपोर्ट 'भारत में रोजगार एवं बेरोजगारी की स्थिति 2011-12' जनवरी, 2014 में प्रकाशित की गई थी।

3. 'भारत में अनौपचारिक क्षेत्र तथा रोजगार की स्थितियाँ' नामक वर्तमान रिपोर्ट सात रिपोर्टों की श्रृंखला में दूसरी रिपोर्ट है। इस रिपोर्ट में अनौपचारिक क्षेत्र (स्वामीत्व तथा साझीदारी वाले उद्यम) में कार्यरत श्रम-बल के विशेष संदर्भ के साथ गैर-कृषिगत क्षेत्र तथा एजीईजीसी क्षेत्र (अर्थात् फसल उगाने, पादप रोपण, फसलों तथा पशुओं के संयुक्त उत्पादन को छोड़कर कृषि क्षेत्र के अन्य भाग) के विभिन्न उद्यमों में कार्यरत श्रम-बल की सामान्य स्थिति के अनुमान दिए गए हैं। इस रिपोर्ट में एजीईजीसी तथा गैर-कृषिगत क्षेत्रों में कार्यरत श्रम-बल के सामान्य स्थिति के अनुमान रोजगार की विभिन्न स्थितियों के अनुसार दिए गए हैं। इस रिपोर्ट में तीन अध्याय और पांच परिशिष्ट हैं। अनुमानों से संबंधित मुख्य निष्कर्ष इस रिपोर्ट के तीसरे अध्याय में प्रस्तुत किए गए हैं। चूंकि, यह रिपोर्ट काफी बड़ी है, अखिल भारतीय स्तर की विस्तृत तालिकाएं (परिशिष्ट ए) इस रिपोर्ट के साथ एक सीडी में दी गई हैं।

4. एनएसएसओ के सर्वेक्षण अभिकल्प तथा अनुसंधान प्रभाग (एसडीआरडी) ने सर्वेक्षण पद्धति, सर्वेक्षण-साधन विकसित करने तथा यह रिपोर्ट तैयार करने का कार्य किया। एनएसएसओ के क्षेत्र संकार्य प्रभाग (एफओडी) ने फील्ड कार्य किया जबकि आंकड़ा विधायन तथा सारणीयन का कार्य समंक विधायन प्रभाग (डीपीडी) ने किया। एनएसएसओ के समन्वय एवं प्रकाशन प्रभाग (सीपीडी) ने सर्वेक्षण संबंधी विभिन्न कार्यकलापों में समन्वयन का कार्य किया।

5. मैं सर्वेक्षण के विभिन्न चरणों में बहुमूल्य मार्गदर्शन प्रदान करने हेतु राष्ट्रीय प्रतिदर्श सर्वेक्षण के 68वें दौर के कार्य दल और राष्ट्रीय सांख्यिकीय आयोग (एनएससी) के अध्यक्ष और सदस्यों का अत्यंत आभारी हूँ। मैं इस रिपोर्ट को प्रकाशित करने के लिए आवश्यक सुव्यवस्थित नियोजन तथा विभिन्न कार्यकलापों के बेहतरीन निष्पादन के लिए एनएसएसओ के विभिन्न प्रभागों के अधिकारियों द्वारा किये गये प्रयासों की भी सराहना करता हूँ।

6. मैं आशा करता हूँ कि यह रिपोर्ट योजनाकारों, नीति-निर्माताओं और शोधकर्ताओं के लिए उपयोगी सिद्ध होगी। इस रिपोर्ट की विषयवस्तु, अभिन्यास, कवरेज अथवा रिपोर्ट के किसी अन्य पहलू में सुधार के लिये सुझावों का स्वागत है।

(ए. के. मेहरा)

महानिदेशक एवं मुख्य कार्यकारी अधिकारी,
राष्ट्रीय प्रतिदर्श सर्वेक्षण कार्यालय

जुलाई 2014

PREFACE

The all India Employment and Unemployment Surveys of National Sample Survey Office (NSSO) are the primary sources of labour market data at the National and State levels. The labour force indicators at National and State/UT levels generated from these surveys are the critical inputs required for planning and policy formulation exercises of various Government organisations and also serve as an important element of data for many other users/researchers. NSS surveys on Employment and Unemployment are being conducted quinquennially from 27th round (October 1972 - September 1973) onwards. Including the employment and unemployment survey during NSS 68th round (July 2011 - June 2012), nine such comprehensive surveys on the employment and unemployment have been conducted by NSSO so far. The NSS 68th round covered the subjects of (i) *Household Consumer Expenditure* and (ii) *Employment and Unemployment*.

2. The sample surveyed by the NSSO is traditionally referred to as the Central Sample. Most of the States have also conducted this survey for an equal or larger sample size, under the state sample. The results of the Employment and Unemployment surveys, generated from the Central Sample data, are brought out by NSSO in the form of a number of reports. The document '*Key Indicators of Employment and Unemployment in India, 2011-12*' was brought out in June 2013 and unit level data were also released in June 2013 i.e. within one year of the completion of the field work. Apart from the above document on key indicators, seven detailed reports are planned to be released in the time to come on varied aspects of Employment and Unemployment based on NSS 68th round data. The first report of this series '*Employment and Unemployment Situation in India, 2011-12*' was published in January 2014.

3. The present report, '*Informal Sector and Conditions of Employment in India*' is the second in the series of seven reports. This report presents the estimates of usual status workforce engaged in various enterprises in the non-agricultural sector and AGEHC sector (i.e. part of the agriculture sector *excluding growing of crops, plant propagation, combined production of crops and animals*) with special reference to those engaged in the *informal sector* (*proprietary and partnership enterprises*). The report also provides the estimates of usual status employees in the AGEHC and non-agricultural sectors, with various conditions of their employment. This report contains three Chapters and five Appendices. The main findings relating to the estimates given in this report are presented in Chapter Three. Since the report is voluminous, the detailed tables at the all India level (Appendix A) are given in a CD along with this report.

4. The Survey Design and Research Division (SDRD) of NSSO developed the survey methodology, survey instruments and prepared this report. The field work was carried out by the Field Operations Division (FOD) of NSSO while the data processing and tabulation was undertaken by the Data Processing Division (DPD). The Coordination and Publication Division (CPD) of NSSO coordinated various activities pertaining to the survey.

5. I am greatly thankful to the Chairman and Members of the Working Group of NSS 68th round and the National Statistical Commission (NSC) for their valuable guidance at various stages of the survey. I also acknowledge and appreciate the efforts made by the officials of the different Divisions of NSSO in meticulous planning and execution of various activities involved in bringing out this report.

6. I hope this report will be useful to the planners, policy makers and researchers. Any suggestions for further improvements in the content, layout, coverage or any other aspect of this report would be greatly welcome and highly appreciated.

(A. K. Mehra)

New Delhi
July 2014

Director General & Chief Executive Officer
National Sample Survey Office

मुख्य बातें

यह रिपोर्ट जुलाई 2011 से जून 2012 के बीच एनएसएस के 68 वें दौर में रोजगार एवं बेरोजगारी पर किए गए सर्वेक्षण पर आधारित है। यह सर्वेक्षण 12,737 प्र.च.इ.यों में (7,469 ग्रामों एवं 5,268 नगरीय खंडों) में फैला हुआ था, एवं 1,01,724 परिवारों (59,700 ग्रामीण क्षेत्रों में और 42,024 नगरीय क्षेत्रों में) को इसमें समाविष्ट किया गया, और 4,56,999 व्यक्तियों (2,80,763 ग्रामीण क्षेत्रों में एवं 1,76,236 नगरीय क्षेत्रों में) की गणना की गई।

रा.प्र.सर्वे. के 68वें दौर (जुलाई 2011 - जून 2012) में एनआईसी- 2008 के उद्योग समूहों/प्रभागों 014, 016, 017, 02-99 में कार्यरत सामान्य स्तर कामगारों से उद्यमों के विभिन्न विशिष्टताओं की सूचना (यथा-उद्यमों के प्रकार, उद्यम में कामगारों की संख्या, क्या उद्यम बिजली का उपयोग करते हैं, इत्यादि) जिसमें वे लोग कार्यरत थे और यह सब उद्यमों में कार्यरत नियमित मजदूरी/वेतन भोगी कर्मचारियों एवं आकस्मिक श्रमिकों से रोजगार के लिए विभिन्न शर्तें (जैसे- रोजगार अनुबंध के प्रकार, सवेतन छुट्टी के लिए पात्रता, सामाजिक सुरक्षा लाभ की उपलब्धता, भुगतान के तरीके इत्यादि) एकत्रित किया गया। इन उद्योगों में उद्योग समूहों/प्रभागों 014, 016, 017, 02 एवं 03 (जो आगे एजीइजीसी क्षेत्र के रूप में देखा जाय) कृषि क्षेत्र में हैं। कृषि क्षेत्र में केवल फसल उगाना, पौधा प्रवर्धन, पशुओं के विशिष्ट उत्पादन के बिना फसल एवं पशुओं के संयुक्त उत्पादन को सम्मिलित नहीं किया गया। उद्योग प्रभाग 05-99 गैर-कृषि क्षेत्र में हैं। उद्यमों के विशिष्टताएं एवं रोजगार की शर्तों पर सूचना उन लोगों से एकत्रित किया गया जो कि एक कामगार के रूप में चाहे सामान्य प्रमुख स्तर (पी एस) या सामान्य गौण स्तर (एस एस) में वर्गीकृत थे। इस रिपोर्ट में एजीइजीसी और गैर-कृषि क्षेत्रों में सामान्य स्तर कार्यबल का प्राक्कलन दिया गया। यह प्राक्कलन उद्योगों की विविध विशिष्टताओं के लिए और अनौपचारिक क्षेत्र (मालिकाना एवं साझेदारी उद्यमों को पारिभाषित दायरे में लाना) के विशेष सन्दर्भ के साथ दिया गया। इस रिपोर्ट में रोजगार के विभिन्न शर्तों के साथ यह सब क्षेत्र में सामान्य स्तर के कर्मचारियों का प्राक्कलन प्रस्तुत किया गया है। यदि अन्यथा उल्लेख ना किया गया है, कार्यबल को एजीइजीसी और गैर-कृषि क्षेत्र में सामान्य स्तर कामगारों के रूप में दिखा जाय।

अखिल भारतीय स्तर पर 2011-12 के दौरान उद्यमों के विभिन्न विशिष्टताओं के लिए कामगारों का प्राक्कलन एवं रोजगार के विभिन्न शर्तों के तहत कर्मचारियों के प्राक्कलन के उपर कुछ मुख्य निष्कर्ष निम्नलिखित हैं:-

1. अनौपचारिक क्षेत्रों में कामगार

(क) एजीइजीसी (AGEGC) एवं गैर-कृषि क्षेत्र के कामगारों का शेयर :-

- भारत की जनसंख्या का करीब 39 प्रतिशत सामान्य स्थिति (पीएस+एसएस) में कार्यरत थे - ग्रामीण क्षेत्रों में यह अनुपात करीब 40 प्रतिशत एवं नगरीय क्षेत्रों में 36 प्रतिशत था।

- भारत में कामगारों का करीब 55 प्रतिशत एजीईजीसी एवं गैर-कृषि क्षेत्रों में लगे हुए थे- ग्रामीण क्षेत्रों में इनका अनुपात करीब 41 प्रतिशत एवं नगरीय क्षेत्रों में 95 प्रतिशत था ।
- एजीईजीसी और गैर-कृषि क्षेत्रों के कामगारों में करीब 93 प्रतिशत गैर-कृषि क्षेत्र में थे- इनका अनुपात ग्रामीण क्षेत्रों में करीब 89 प्रतिशत एवं नगरीय क्षेत्रों में करीब 98 प्रतिशत था ।

(ख) अनौपचारिक क्षेत्र के कामगार :-

- एजीईजीसी और गैर-कृषि क्षेत्रों के कामगारों में, करीब 72 प्रतिशत अनौपचारिक क्षेत्र में कार्यरत थे- इनका अनुपात ग्रामीण क्षेत्र में 75 प्रतिशत एवं नगरीय क्षेत्रों में 69 प्रतिशत था ।
- ग्रामीण क्षेत्रों में अनौपचारिक क्षेत्र के कामगारों में स्वनियोजित, नियमित मजदूरी/वेतन भोगी कर्मचारियों एवं आकस्मिक मजदूरों का अनुपात क्रमशः करीब 57 प्रतिशत, 11 प्रतिशत एवं 32 प्रतिशत था ।
- नगरीय क्षेत्रों में अनौपचारिक क्षेत्र के कामगारों में, स्वनियोजित, नियमित मजदूरी/वेतन भोगी कर्मचारियों एवं आकस्मिक मजदूरों का अनुपात क्रमशः करीब 58 प्रतिशत, 27 प्रतिशत एवं 16 प्रतिशत था ।
- ग्रामीण क्षेत्रों में करीब 97 प्रतिशत स्वनियोजित, 78 प्रतिशत आकस्मिक मजदूरों एवं 42 प्रतिशत नियमित मजदूरी/वेतन भोगी कर्मचारियों, अनौपचारिक क्षेत्र में नियोजित थे ।
- नगरीय क्षेत्रों में करीब 98 प्रतिशत स्वनियोजित, 81 प्रतिशत आकस्मिक मजदूरों एवं 40 प्रतिशत नियमित मजदूरी/वेतन भोगी कर्मचारियों अनौपचारिक क्षेत्र में नियोजित थे ।
- अनौपचारिक क्षेत्र के कामगारों में करीब 86 प्रतिशत ग्रामीण क्षेत्रों में (94 प्रतिशत पुरुष एवं 63 प्रतिशत महिलाएं) एवं नगरीय क्षेत्रों में करीब 98 प्रतिशत (99 प्रतिशत पुरुष एवं 95 प्रतिशत महिलाएं) गैर-कृषि क्षेत्र में कार्यरत थे ।
- विनिर्माण (सेक्सन सी), निर्माण (सेक्सन एफ), थोक एवं खुदरा व्यापार/व्यवसाय (सेक्सन जी), परिवहन एवं भंडारण (सेक्सन एच) उद्योग अनौपचारिक क्षेत्र में प्रमुख रोजगार प्रबंधक था । अनौपचारिक क्षेत्र के कामगारों में ग्रामीण क्षेत्रों में करीब 73 प्रतिशत, नगरीय क्षेत्रों में करीब 75 प्रतिशत इन्हीं उद्योगों में कार्यरत थे ।

(ग) अनौपचारिक क्षेत्र के कामगारों के कार्यस्थलों की अवस्थिति :-

- ग्रामीण क्षेत्रों में रहने वाले अनौपचारिक क्षेत्र के कामगारों में करीब 90 प्रतिशत (87 प्रतिशत पुरुष एवं 97 प्रतिशत महिलाएं) ग्रामीण क्षेत्रों में अपना कार्यस्थल बताया ।
- नगरीय क्षेत्रों में रहने वाले अनौपचारिक क्षेत्र के कामगारों में करीब 87 प्रतिशत (86 प्रतिशत पुरुष एवं 93 प्रतिशत महिलाएं) नगरीय क्षेत्रों में अपना कार्यस्थल बताया ।

- ग्रामीण क्षेत्रों में अनौपचारिक क्षेत्र के पुरुष कामगारों में करीब 5 प्रतिशत एवं नगरीय क्षेत्रों में पुरुष कामगारों में करीब 1 प्रतिशत के पास कोई निश्चित कार्यस्थल नहीं था। महिलाओं के लिए तदुसार अनुपात ग्रामीण क्षेत्रों में करीब 11 प्रतिशत और नगरीय क्षेत्रों में 4 प्रतिशत था।

(घ) विनिर्माण उद्यमों में जो कि बिजली का उपयोग करते थे इनमें कार्यरत अनौपचारिक क्षेत्र के कामगारों :-

- विनिर्माण उद्यमों के कामगारों में ग्रामीण क्षेत्रों में करीब 38 प्रतिशत एवं नगरीय क्षेत्रों में 64 प्रतिशत उन सब उद्यमों में कार्यरत थे जो कि उत्पादन प्रयोजन के लिए बिजली का उपयोग किया।
- विनिर्माण उद्योग में कार्यरत अनौपचारिक क्षेत्र के कामगारों में करीब 31 प्रतिशत ग्रामीण क्षेत्रों में और नगरीय क्षेत्रों में 56 प्रतिशत उन सब उद्यमों में कार्यरत थे जो कि उत्पादन प्रयोजन हेतु बिजली का उपयोग किया।

(ङ.) छोटे उद्यमों में अनौपचारिक क्षेत्र के कामगार (यथा- वैसे उद्यम जिसमें 6 से कम कामगार थे) :-

- अनौपचारिक क्षेत्र के कामगारों में करीब 75 प्रतिशत ग्रामीण क्षेत्रों में और नगरीय क्षेत्रों में 70 प्रतिशत छोटे उद्यमों में कार्यरत थे।

(च) अनौपचारिक क्षेत्र उद्यमों में कर्मचारियों का मजदूरी/वेतन कमाई :-

- एजीईजीसी और गैर-कृषि क्षेत्रों में एक नियमित मजदूर/वैतनिक कर्मचारियों का औसत दैनिक आय करीब 401 रु. था- करीब 225 रु. उनके लिए था जो अनौपचारिक क्षेत्र में कार्यरत थे और करीब 127 रु. उनके लिए था जो कि नियोक्ता के घर में कार्यरत थे।
- अनौपचारिक क्षेत्र में एक नियमित मजदूर/वैतनिक कर्मचारियों का औसत दैनिक आय ग्रामीण पुरुषों के लिए 189 रु., ग्रामीण महिलाओं के लिए 121 रु., नगरीय पुरुषों के लिए 258 रु. एवं नगरीय महिलाओं के लिए 194 रु. था।
- एजीईजीसी और गैर-कृषि क्षेत्रों में आकस्मिक मजदूरों का दैनिक मजदूरी दर करीब 155 रु. था- करीब 159 रु. उनके लिए था जो कि अनौपचारिक क्षेत्र में कार्यरत थे और करीब 116 रु. उनके लिए था जो नियोक्ता के घर में कार्यरत थे।
- अनौपचारिक क्षेत्र में आकस्मिक मजदूरों का दैनिक मजदूरी दर ग्रामीण पुरुषों के लिए करीब 163 रु., ग्रामीण महिलाओं के लिए 116 रु., नगरीय पुरुषों के लिए 169 रु. और नगरीय महिलाओं के लिए 113 रु. था।

2. रोजगार के विभिन्न शर्तों के साथ कामगारों

(क) अलिखित सेवा संविदा वाले कर्मचारी :-

- एजीईजीसी और गैर-कृषि क्षेत्रों में करीब 79 प्रतिशत कर्मचारियों के पास कोई लिखित सेवा संविदा नहीं था- आकस्मिक मजदूरों के लिए इसका अनुपात 97 प्रतिशत था और नियमित मजदूरों/वेतन भोगी कर्मचारियों के लिए 65 प्रतिशत था ।
- ग्रामीण क्षेत्रों में एजीईजीसी और गैर-कृषि क्षेत्रों के कर्मचारियों जो कि बिना किसी सेवा संविदा के थे, करीब 76 प्रतिशत या तो विनिर्माण क्षेत्र (सेक्सन सी) या निर्माण क्षेत्र (सेक्सन एफ) या परिवहन और भंडारण क्षेत्र (सेक्सन एच) में थे । इन तीनों क्षेत्रों में कर्मचारियों का अनुपात कुल मिलाकर करीब 69 प्रतिशत था ।
- नगरीय क्षेत्रों में एजीईजीसी और गैर-कृषि क्षेत्रों के कर्मचारियों जो कि बिना किसी सेवा संविदा के थे, करीब 65 प्रतिशत या तो विनिर्माण क्षेत्र (सेक्सन सी) या निर्माण क्षेत्र (सेक्सन एफ) या थोक और खुदरा व्यापार क्षेत्र (सेक्सन जी) या परिवहन और भंडारण क्षेत्र (सेक्सन एच) में थे । इन चारों क्षेत्रों में कर्मचारियों का अनुपात नगरीय क्षेत्रों में कुल मिलाकर करीब 55 प्रतिशत था ।

(ख) अस्थायी प्रकृति के रोजगार वाले कर्मचारी :-

- एजीईजीसी और गैर-कृषि क्षेत्रों के कर्मचारियों में करीब 42 प्रतिशत अस्थायी कर्मचारी थे- आकस्मिक मजदूरों के लिए इसका अनुपात 60 प्रतिशत था और नियमित मजदूरों/वेतन भोगी कर्मचारियों के लिए 28 प्रतिशत था ।

(ग) बिना सवेतन अवकाश वाले कर्मचारी :-

- एजीईजीसी और गैर-कृषि क्षेत्रों के कर्मचारियों में करीब 71 प्रतिशत कर्मचारी सवेतन अवकाश के पात्र नहीं थे- आकस्मिक मजदूरों के लिए यह अनुपात 98 प्रतिशत था और नियमित मजदूरों/वेतन भोगी कर्मचारियों के लिए 50 प्रतिशत था ।
- ग्रामीण क्षेत्रों में एजीईजीसी और गैर-कृषि क्षेत्रों के कर्मचारियों में जो सवेतन अवकाश के पात्र नहीं थे, उनमें करीब 79 प्रतिशत या तो विनिर्माण क्षेत्र (सेक्सन सी) या निर्माण क्षेत्र (सेक्सन एफ) या परिवहन और भंडारण क्षेत्र (सेक्सन एच) में थे । इन क्षेत्रों में कर्मचारियों का अनुपात ग्रामीण क्षेत्रों में कुल मिलाकर करीब 69 प्रतिशत था ।
- नगरीय क्षेत्रों में एजीईजीसी और गैर-कृषि क्षेत्र के कर्मचारियों में जो सवेतन अवकाश के पात्र नहीं थे उनमें करीब 70 प्रतिशत या तो विनिर्माण क्षेत्र (सेक्सन सी) या निर्माण क्षेत्र (सेक्सन एफ) या थोक

और खुदरा व्यापार क्षेत्र (सेक्सन जी) या परिवहन एवं भंडारण क्षेत्र (सेक्सन एच) में थे। इन क्षेत्रों में कर्मचारियों का अनुपात नगरीय क्षेत्रों में कुल मिलाकर करीब 55 प्रतिशत था।

(घ) कर्मचारियों जो किसी भी सामाजिक सुरक्षा लाभ से वंचित थे:-

- एजीईजीसी और गैर-कृषि क्षेत्र के कर्मचारियों में करीब 72 प्रतिशत कोई भी सामाजिक सुरक्षा लाभ के लिए पात्र नहीं थे- आकस्मिक मजदूरों के लिए यह अनुपात 93 प्रतिशत और नियमित मजदूरी/वेतन भोगी कर्मचारियों के लिए 56 प्रतिशत था।
- ग्रामीण क्षेत्रों में एजीईजीसी और गैर-कृषि क्षेत्रों के कर्मचारियों में जो कि कोई भी सामाजिक सुरक्षा लाभ के पात्र नहीं थे, उनमें करीब 76 प्रतिशत या तो विनिर्माण क्षेत्र (सेक्सन सी) या निर्माण क्षेत्र (सेक्सन एफ) या परिवहन और भंडारण क्षेत्र (सेक्सन एच) में थे। इन क्षेत्रों में कर्मचारियों का अनुपात, ग्रामीण क्षेत्रों में कुल मिलाकर करीब 69 प्रतिशत था।
- नगरीय क्षेत्रों में एजीईजीसी और गैर-कृषि क्षेत्रों के कर्मचारियों में जो कि कोई भी सामाजिक सुरक्षा लाभ के पात्र नहीं थे, उनमें करीब 74 प्रतिशत या तो विनिर्माण क्षेत्र (सेक्सन सी) या निर्माण क्षेत्र (सेक्सन एफ) या थोक और खुदरा व्यापार क्षेत्र (सेक्सन जी) या परिवहन और भंडारण क्षेत्र (सेक्सन एच) या नियोक्ता के रूप में घरों के क्रिया कलाप; पारिवारिक क्रियाकलापों का अपने उपयोग के लिए अविभेदित वस्तुएं एवं सेवाएं प्रस्तुत करना (सेक्सन टी) में थे। इन क्षेत्र में कर्मचारियों का अनुपात नगरीय क्षेत्र में कुल मिलाकर करीब 60 प्रतिशत था।

(ड.) अलिखित सेवा संविदा और सवेतन अवकाश के बिना कर्मचारियों :-

- एजीईजीसी और गैर-कृषि क्षेत्र में करीब 68 प्रतिशत कर्मचारियों के पास न तो लिखित सेवा संविदा थी और न ही वे सवेतन अवकाश के लिए पात्र थे।

(च) कर्मचारियों के लिए भुगतान के तरीके :-

- एजीईजीसी और गैर-कृषि क्षेत्रों में करीब 91 प्रतिशत नियमित मजदूरी/वेतन भोगी कर्मचारियों ने नियमित मासिक वेतन प्राप्त किया।
- एजीईजीसी और गैर-कृषि क्षेत्रों में करीब 56 प्रतिशत आकस्मिक मजदूरों ने दैनिक भुगतान प्राप्त किया।

(छ) संघ/एसोसियेशन का अस्तित्व :-

- सामान्य स्तर कामगारों का करीब 80 प्रतिशत का अपने क्रियाकलापों में संघ/एसोसियेशन नहीं था नियमित मजदूरी/वेतन भोगी कर्मचारियों के लिए यह अनुपात करीब 59 प्रतिशत था, आकस्मिक मजदूरों के लिए यह अनुपात 87 प्रतिशत एवं स्व नियोजित के लिए 83 प्रतिशत था।

- (3) एनएसएस 68वें दौर से प्राप्त अखिल भारतीय स्तर पर अनौपचारिक क्षेत्र में कार्यबल का मुख्य प्राक्कलन और रोजगार के विभिन्न शर्तों के साथ कार्यबल का मुख्य प्राक्कलन :-

मद सं.	मद विवरण	अनुपात (100 में)			
		ग्रामीण		नगरीय	
		पुरुष	महिला	पुरुष	महिला
(1)	(2)	(3)	(4)	(5)	(6)
1.	सामान्य स्तर में डब्ल्यूपीआर (WPR) (पीएस+एसएस)	54	25	55	15
2.	सभी कामगारों में एजीईजीसी एवं गैर-कृषि क्षेत्रों में कामगारों का अनुपात	43	35	96	92
3.	अनौपचारिक क्षेत्र में कामगारों का एजीईजीसी एवं गैर-कृषि क्षेत्रों के सभी कामगारों में अनुपात	76	73	70	64
4.	अनौपचारिक क्षेत्र के सभी कामगारों में गैर-कृषि क्षेत्रों में कार्यरत कामगारों का अनुपात	94	63	99	95
5.	एजीईजीसी एवं गैर-कृषि क्षेत्रों में कर्मचारियों का अनुपात जिनके पास कोई भी लिखित सेवा संविदा नहीं था	86	81	73	72
6.	एजीईजीसी एवं गैर-कृषि क्षेत्रों में अस्थायी कर्मचारियों का अनुपात	47	53	35	39
7.	एजीईजीसी एवं गैर-कृषि क्षेत्रों में कर्मचारियों का अनुपात जो सवेतन अवकाश के लिए पात्र नहीं थे	81	81	61	59
8.	एजीईजीसी एवं गैर-कृषि क्षेत्रों में कर्मचारियों का अनुपात जो किसी भी तरह के सामाजिक सुरक्षा के लिए पात्र नहीं थे	79	83	63	64
9.	एजीईजीसी एवं गैर-कृषि क्षेत्रों में कर्मचारियों का अनुपात, जिनके पास नहीं कोई लिखित सेवा संविदा था और नहीं वे सवेतन अवकाश के लिए पात्र थे	78	74	57	55
10.	सामान्य स्तर कामगारों का अनुपात जिनका कोई संघ/एसोसियेशन उनके क्रिया कलापों में नहीं था	82	89	68	77

HIGHLIGHTS

This report is based on the employment and unemployment survey conducted in the 68th round of NSS during July 2011 to June 2012. The survey was spread over 12,737 FSUs (7,469 villages and 5,268 urban blocks) covering 1,01,724 households (59,700 in rural areas and 42,024 in urban areas) and enumerating 4,56,999 persons (2,80,763 in rural areas and 1,76,236 in urban areas).

In NSS 68th round (July 2011- June 2012), for the usual status workers engaged in the industry groups/divisions 014, 016, 017, 02-99 of NIC-2008, information on various characteristics of the enterprises (viz., type of enterprise, number of workers in the enterprise, whether enterprise uses electricity etc.) in which they were employed and various conditions of employment of the regular wage/salaried employees and casual labourers (viz. type of job contract, eligibility for paid leave, availability of social security benefits, method of payment etc.) was collected. Among these industries, the industry groups/divisions 014, 016, 017, 02 and 03 (referred to as AGE GC sector) are in the [ag]riculture sector *[e]xcluding [g]rowing of [c]rops, plant propagation, combined production of crops and animals without a specialized production of crops or animals*. The industry divisions 05-99 are in the non-agriculture sector. Information on characteristics of the enterprises and conditions of employment was collected for those who were classified as workers either in the usual principal status (ps) or in the usual subsidiary status (ss). This report presents the estimates of usual status workforce in the AGE GC and non-agriculture sectors corresponding to various characteristics of enterprises, with special reference to the *informal sector* (defined to cover proprietary and partnership enterprises) and the estimates of usual status employees in these sectors under various conditions of employment. The workforce, unless otherwise mentioned, refers to the workers in the usual status (ps+ss) engaged in the AGE GC and non-agriculture sectors.

Some of the key findings on the estimates of workers corresponding to various characteristics of enterprises and the estimates of employees under various conditions of employment during 2011-12 at the all-India level are stated below:

1. Workers in Informal Sector

(a) *Share of workers in AGEGC and non-agriculture sectors*

- About 39 per cent of the population in India was employed - the proportion was about 40 per cent in rural areas and 36 per cent in urban areas.
- About 55 per cent of the workers in India were engaged in the AGEGC and non-agriculture sectors - the proportion was about 41 per cent in rural areas and about 95 per cent in urban areas.
- Among workers in AGEGC and non-agriculture sectors, about 93 per cent were in non-agriculture sector - the proportion was about 89 per cent in rural areas and about 98 per cent in urban areas.

(b) *Informal sector workers*

- Among workers in AGEGC and non-agriculture sectors, about 72 per cent were employed in the *informal sector* - the proportion was about 75 per cent in rural areas and about 69 per cent in urban areas.
- Among *informal sector* workers in the rural areas, the proportion of self-employed, regular wage/salaried employees and casual labourers were about 57 per cent, 11 per cent and 32 per cent, respectively.
- Among *informal sector* workers in the urban areas, the proportion of self-employed, regular wage/salaried employees and casual labourers were about 58 per cent, 27 per cent and 16 per cent, respectively.
- About 97 per cent of the self-employed, 78 per cent of the casual labourers and 42 per cent of the regular wage/salaried employees in the rural areas were employed in the *informal sector*.
- About 98 per cent of the self-employed, 81 per cent of the casual labourers and 40 per cent of the regular wage/salaried employees in the urban areas were employed in the *informal sector*.
- Among workers in the *informal sector*, about 86 per cent in rural areas and 98 per cent in urban areas were employed in the non-agriculture sector.

- *Manufacturing* (section C), *construction* (section F), *wholesale and retail trade* (section G), *transportation and storage* (section H) industries were the main provider of employment in the *informal sector*. Among workers in the *informal sector*, about 73 per cent in rural areas and 75 per cent in the urban areas were employed in these industries.

(c) Location of workplace of informal sector workers

- Among workers in the *informal sector* residing in the rural areas, about 90 per cent (87 per cent for males and 97 per cent for females) reported their work place in rural areas.
- Among workers in the *informal sector* residing in the urban areas, about 87 per cent (86 per cent for males and 93 per cent for females) reported their work place in urban areas.
- Among male workers in the *informal sector*, about 5 per cent in rural areas and 1 per cent in urban areas had no fixed place of work. For females, the corresponding proportion was about 11 per cent in rural areas and 4 per cent in urban areas.

(d) Informal sector workers in manufacturing enterprises that used electricity

- Among workers of the manufacturing enterprises, about 38 per cent in rural areas and 64 per cent in urban areas were engaged in enterprises that used electricity for production purposes.
- Among *informal sector* workers of the manufacturing industry, about 31 per cent in rural areas and 56 per cent in urban areas were engaged in enterprises that used electricity for production purposes.

(e) Informal sector workers in smaller enterprises (i.e. enterprise with less than 6 workers)

- Among *informal sector* workers, about 75 per cent in rural areas and 70 per cent in urban areas were engaged in *smaller enterprises*.

(f) Wage/salary earning of the employees in informal sector enterprises

- Average daily earnings of a regular wage/salaried employee in the AGE GC and non-agriculture sectors was about Rs. 401- it was about Rs. 225 for those employed in *informal sector* and about Rs. 127 for those employed in the *employer's households*.
- Average daily earnings of a regular wage/salaried employee in the *informal sector* was about Rs. 189 for rural males, Rs. 121 for rural females, Rs. 258 for urban males and Rs. 194 for urban females.
- Daily wage rate of a casual labourer in the AGE GC and non-agriculture sectors was about Rs. 155 - it was about Rs. 159 for those employed in *informal sector* and about Rs. 116 for those employed in the *employer's households*.
- Daily wage rate of a casual labourer in the *informal sector* was about Rs. 163 for rural males, Rs. 116 for rural females, Rs. 169 for urban males and Rs. 113 for urban females.

2. Workers with Different Conditions of Employment

(a) Employees without written job contract

- About 79 per cent of the employees in the AGE GC and non-agriculture sectors had no written job contract - the proportion was 97 per cent for casual labourers and 65 per cent for regular wage/salaried employees.
- In the rural areas, among employees in the AGE GC and non-agriculture sectors without having written job contract, about 76 per cent belonged to either the *manufacturing* sector (section C) or the *construction* sector (section F) or the *transportation and storage* sector (section H). The proportion of employees in these three sectors altogether was about 69 per cent.
- In the urban areas, among employees in the AGE GC and non-agriculture sectors without having written job contract, about 65 per cent belonged to either the *manufacturing* sector (section C) or the *construction* sector (section F) or the *wholesale and retail trade* sector (section G) or the *transportation and storage* sector (section H). The proportion of employees in these four sectors altogether was about 55 per cent in the urban areas.

(b) *Employees with temporary nature of employment*

- About 42 per cent of the employees in the AGE GC and non-agriculture sectors were temporary employees - the proportion was 60 per cent for casual labourers and 28 per cent for regular wage/salaried employees.

(c) *Employees without paid leave*

- About 71 per cent of the employees in the AGE GC and non-agriculture sectors were not eligible for paid leave - the proportion was 98 per cent for casual labourers and 50 per cent for regular wage/salaried employees.
- In the rural areas, among the employees in AGE GC and non-agricultural sectors who were not eligible for paid leave, about 79 per cent belonged to either the *manufacturing* sector (section C) or the *construction* sector (section F) or the *transportation and storage* sector (section H). The proportion of employees in these sectors altogether was about 69 per cent in the rural areas.
- In the urban areas, among employees in AGE GC and non-agriculture sectors who were not eligible for paid leave, about 70 per cent belonged to either the *manufacturing* sector (section C) or the *construction* sector (section F) or the *wholesale and retail trade* sector (section G) or the *transportation and storage* sector (section H). The proportion of employees in these sectors altogether was about 55 per cent in the urban areas.

(d) *Employees without any social security benefit*

- About 72 per cent of the employees in the AGE GC and non-agriculture sectors were not eligible for any social security benefit - the proportion was 93 per cent for casual labourers and 56 per cent for regular wage/salaried employees.
- In the rural areas, among the employees in AGE GC and non-agricultural sectors who were not eligible for any social security benefit, about 76 per cent belonged to either the *manufacturing* sector (section C) or the *construction* sector (section F) or the *transportation and storage* sector (section H). The proportion of employees in these sectors altogether was about 69 per cent in the rural areas.

- In the urban areas, among employees in AGE GC and non-agriculture sectors who were not eligible for any social security benefit, about 74 per cent belonged to either the *manufacturing* sector (section C) or the *construction* sector (section F) or the *wholesale and retail trade* sector (section G) or the *transportation and storage* sector (section H) or *activities of households as employers; undifferentiated goods and services producing activities of households for own use* (section T). The proportion of employees in these sectors altogether was about 60 per cent in the urban areas.

(e) Employees without written job contract and paid leave

- About 68 per cent of the employees in the AGE GC and non-agriculture sectors neither had written job contract nor were eligible for paid leave.

(f) Method of payment for employees

- About 91 per cent of the regular wage/ salaried employees in the AGE GC and non-agriculture sectors received *regular monthly salary*.
- About 56 per cent of the casual labourers in the AGE GC and non-agriculture sectors received *daily payment*.

(g) Existence of union/ association

- About 80 per cent of the usual status workers had no union/association in their activities - the proportion was about 59 per cent for regular wage/salaried employees, 87 per cent for casual labourers and 83 per cent for self-employed.

3. Key estimates of workforce in the informal sector and the estimates of workforce with different conditions of employment at the all-India level

item no	item description	proportion (in 100)			
		rural		urban	
		male	female	male	female
(1)	(2)	(3)	(4)	(5)	(6)
1.	WPR in usual status (ps+ss)	54	25	55	15
2.	Proportion of workers in the AGE GC and non-agriculture sectors among all workers	43	35	96	92
3.	Proportion of workers in the informal sector among all workers in AGE GC and non-agriculture sectors	76	73	70	64
4.	Proportion of workers in the non-agriculture sector among all workers in the informal sector	94	63	99	95
5.	Proportion of employees in the AGE GC and non-agriculture sectors who had no written job contract	86	81	73	72
6.	Proportion of temporary employees in the AGE GC and non-agriculture sectors	47	53	35	39
7.	Proportion of employees in the AGE GC and non-agriculture sectors who were not eligible for paid leave	81	81	61	59
8.	Proportion of employees in the AGE GC and non-agriculture sectors who were not eligible for any social security benefit	79	83	63	64
9.	Proportion of employees in the AGE GC and non-agriculture sectors who neither had written job contract nor were eligible for paid leave	78	74	57	55
10.	Proportion of usual status workers who had no union/association in their activities	82	89	68	77

Chapter One

Introduction

1.1 The Report in Perspective

1.1.1 In its 32nd Meeting held on 23-24 April 2010, the National Statistical Commission (NSC) considered the use of the 2009-10 NSSO quinquennial survey as the base year for both the price indices as well as revision of the national income estimates and felt that 2009-10 being a non-normal year may pose problems. Hence, it was desirable to repeat the survey once again in respect of consumer expenditure as well as employment and unemployment issues. In its 33rd Meeting held on 19-21 May 2010, the NSC decided that the 68th Round of NSS would be devoted to repeating the quinquennial survey on consumer expenditure and employment-unemployment with a provision in the employment schedule to measure employment under NREGA.

1.1.2 Pursuant to the above decision of the NSC, the National Sample Survey Office (NSSO), as a part of its 68th round survey programme during the period July 2011 - June 2012, carried out an all-India household survey to assess the employment and unemployment situation in India. In this survey, a nation-wide enquiry was conducted to generate estimates of various characteristics of the labour market at the national and State/UT levels. Information on various facets of the labour market in India was collected through a schedule of enquiry (Schedule 10) adopting the established concepts, definitions and procedures. Based on the data collected during the entire survey period of NSS 68th round, a document entitled '*Key Indicators of Employment and Unemployment in India, 2011-12*' showing the estimates of key labour force indicators for each State/UT and all-India was brought out in June 2013. The estimates of labour force indicators along with various characteristics associated with them, as obtained from NSS 68th round, were presented in detail in Report Number 554 (*Employment and Unemployment Situation in India*) released in January 2014.

1.1.3 Keeping in view the significant proportion of workers in India engaged in the informal sector of the economy, to study various characteristics of the workers engaged in the informal sector¹, a set of probing questions were put to usual status workers to collect some particulars of the enterprises in which they worked. Besides, to study various characteristics of informal employment² in the country, information on different conditions of employment for the employees (regular wage/salaried employees and casual labourers) in the usual status was also collected in the survey. Information on characteristics of enterprises and conditions of employment was collected for both usual principal status workers and usual subsidiary status workers engaged in non-agriculture sector (industry divisions 05-99 of NIC-2008) and a part

¹ For the purpose of discussion in the report, enterprises with type of ownership as *proprietary* or *partnership* have been considered as informal sector enterprises.

² The concepts of *informal sector* and *informal employment* as enunciated in 15th International Conference of Labour Statisticians (ICLS) and 17th ICLS, respectively, are given in Chapter Two.

of the agriculture sector (industry groups 014, 016, 017 and divisions 02, 03 of NIC-2008). In the agriculture sector, industry groups 011 (growing of non-perennial crops), 012 (growing of perennial crops), 013 (plant propagation) and 015 (mixed farming) of NIC – 2008 were excluded for collection of information on characteristics of enterprises and conditions of employment. Therefore, the industry groups/ divisions 014, 016, 017, 02 and 03 cover the [ag]ricultural sector [e]xcluding [g]rowing of [c]rops, plant propagation, combined production of crops and animals without a specialized production of crops or animals (henceforth referred to as AGE GC activities). The discussion on the existence of union/ association pertains to usual status workers in all the industry divisions of NIC - 2008, i.e., NIC - 2008 codes 01 to 99.

1.1.4 Information on various characteristics of enterprises where usually employed persons worked, was collected through employment and unemployment survey for the first time in NSS 55th round (July 1999 - June 2000). For workers engaged in the non-agricultural enterprises, information was collected on (i) location of the workplace, (ii) type of enterprise, (iii) number of workers in the enterprise, (iv) whether enterprise keeps written account and (v) whether enterprise uses electricity. NSS Report No. 460 presents survey findings of NSS 55th round pertaining to various characteristics of workers in the *informal sector*. In NSS 61st round (July 2004-June 2005), along with information on different characteristics of the enterprises (viz. location of the workplace, type of enterprise, number of workers in the enterprise, whether enterprise uses electricity) in which usually employed persons worked, particulars on conditions of employment (viz. type of job contract, whether eligible for paid leave, availability of social security benefits, method of payment) for the employees (regular wage/salaried employees and casual labourers) were also collected. In 66th (July 2009-June 2010) and 68th (July 2011-June 2012) rounds, information on characteristics of enterprises for all usual status workers and conditions of employment for the employees was collected for the same set of items as those of 61st round. While, the coverage of activities in 55th round was only for the non-agriculture sector, the coverage of activities in 61st, 66th and 68th rounds was non-agriculture sector and AGE GC activities in agriculture sector. NSS Report numbers 519 and 539 present estimates of usual status workforce engaged in AGE GC and non- agriculture sectors in respect of various characteristics of enterprises and the estimates of employees with different conditions of employment as obtained from NSS 61st and 66th rounds, respectively.

1.1.5 The present report, the second in the series of seven reports planned for NSS 68th round survey on employment and unemployment (Schedule 10), presents the estimates of usual status workforce in AGE GC and non- agriculture sectors pertaining to various characteristics of enterprises in which they were engaged, with special reference to those engaged in the *informal sector* (proprietary or partnership enterprises) and the estimates of employees in the usual status with various conditions of their employment. The estimates of workers by characteristics of enterprises and conditions of employment together present a picture of informal employment in the country.

1.2 Genesis of Employment and Unemployment Survey of NSSO

1.2.1 The quinquennial survey on employment and unemployment is one of the important surveys conducted repeatedly by the NSSO. The first such survey was carried out in the 27th round of NSSO during October 1972 - September 1973. The current employment and unemployment survey of NSS 68th round is like a quinquennial survey as far as subjects of enquiry, design, questionnaires and sample sizes are concerned. Including the present employment and unemployment survey of NSS 68th round (July 2011 - June 2012), nine such comprehensive surveys on the employment and unemployment situation in India have so far been conducted by NSSO.

1.2.2 *Past Quinquennial Surveys:* To assess the volume and structure of employment and unemployment, starting with the 9th round (May - September, 1955), NSSO conducted a number of surveys on employment and unemployment. To give a firm conceptual framework for conducting the employment and unemployment surveys, the Planning Commission, in the year 1970, set up an “Expert Committee on Unemployment Estimates” (popularly known as the Dantwala Committee). The concepts and definitions recommended by this committee formed the basis of the first quinquennial survey on employment and unemployment conducted in NSS 27th round (October 1972 - September 1973). Since then, seven comprehensive quinquennial surveys on employment and unemployment situation in India have been carried out by NSSO prior to the present survey of the 68th round (July 2011 - June 2012). These were carried out during the 32nd round (July 1977 - June 1978), 38th round (January - December 1983), 43rd round (July 1987 - June 1988), 50th round (July 1993 - June 1994), 55th round (July 1999 - June 2000), 61st round (July 2004 - June 2005) and 66th round (July 2009 - June 2010), in which concepts, definitions and procedures were based primarily on the recommendations of the Dantwala Committee.

1.2.3 *Other surveys on employment-unemployment:* Apart from the quinquennial surveys on employment and unemployment, NSSO has also collected information on certain key items on employment and unemployment, as a part of annual series, from a smaller sample of households in each round since its 45th round (July 1989 - June 1990) through the schedule on Household Consumer Expenditure (Schedule 1.0). This procedure of collecting data on employment and unemployment in the annual rounds of NSSO continued till NSS 59th round (January - December 2003). In the annual rounds, only activity status and industry of work according to usual principal status, subsidiary status and current weekly status approach were collected through a few columns of the demographic block of the Consumer Expenditure Schedule (Schedule 1.0). In the annual rounds, particulars of employment and unemployment according to the usual principal status and usual subsidiary status were collected by applying a similar approach as in the quinquennial rounds. In the quinquennial rounds, current daily activities in terms of status and industry are collected for the household members and current weekly activity is derived from the daily activities of the reference week whereas in the annual rounds, current weekly activity particulars were collected through direct query. In the 60th round (January - June 2004), a separate schedule on employment and unemployment was

canvassed for the first time in an annual round and particulars on employment and unemployment were collected in the same manner as that of the quinquennial rounds. A separate schedule on employment and unemployment, similar to the one canvassed in the 60th round, was also canvassed in the 62nd round (July 2005 - June 2006) and 64th round (July 2007- June 2008) of NSSO.

1.3 Scope of NSS 68th round Survey on Employment and Unemployment

1.3.1 As in the past, through the employment and unemployment schedule (Schedule 10) of 68th round, NSSO collected data to measure employment and unemployment indicators in terms of 3 basic approaches, viz., usual status approach, current weekly status approach and current daily status approach. The reference periods for these approaches differ - these being 365 days preceding the date of survey for “usual status approach”, 7 days preceding the date of survey for “current weekly status approach” and each day of the 7 days preceding the date of survey for “current daily status approach”. As in the past, in the present survey too, based on the classification of the individuals into various activity categories in the three approaches, labour force indicators like, labour force participation rate (LFPR), worker population ratio (WPR), unemployment rate (UR) are derived in usual status (ps), usual status (ps+ss), current weekly status (CWS) and current daily status (CDS).

1.3.2 The activity participation of the people is not only dynamic but also multidimensional - it varies over regions, age, education, gender, industry and occupational categories. In order to reveal the multidimensional aspects of the employment and unemployment situation in India, the employment and unemployment schedule (Schedule 10) of NSS 68th round captured a range of information on the following aspects:

- i) Particulars on household characteristics *like household size, household type, religion and social group of the household, land owned, possessed and cultivated by the household, etc.* For the rural households, information was collected on whether the household had Mahatma Gandhi National Rural Employment Guarantee (MGNREG) job card. For the households with MGNREG job card, information was also collected on (i) number of MGNREG job cards issued to the household and (ii) whether any member has any bank/post office account. Information on household monthly consumer expenditure was also collected through a worksheet to study the employment and unemployment characteristics with the level of living of the population.
- ii) Demographic particulars of the household members *like age, sex, educational level, status of current attendance, status of registration in placement agency, vocational training received, etc.* For rural households with MGNREG job card, for persons of age 18 years and above, whether the person was registered in any MGNREG job card and if registered, whether he/she worked in MGNREG works during last 365 days.

iii) *Particulars of usual principal activity, usual subsidiary economic activity, current weekly activity and current daily activity for all the members of the sample households.* For persons engaged in economic activities, information on detailed activity status, industry of work, occupation, wage and salary earnings of the employees for the work done during the reference week was also collected. For those who were unemployed on all the 7 days of the reference week, information was collected regarding the duration of the present spell of unemployment.

iv) *Particulars of the enterprises like location of work place, type of enterprise, number of workers in the enterprise, whether enterprise uses electricity etc.* for both usual principal status workers and usual subsidiary status workers engaged in industries other than growing of crops, plant propagation, combined production of crops and animals without a specialized production of crops or animals.

v) *Particulars on conditions of employment like type of job contract, eligibility for paid leave, availability of social security benefits and mode of payment* for the usual principal status employees and usual subsidiary status employees engaged in industries other than growing of crops, plant propagation, combined production of crops and animals without a specialized production of crops or animals.

vi) *Particulars regarding extent of underutilization of the labour time, nature of employment (permanent/temporary), existence of union/ association in their activity, etc.* for persons who were employed either in usual principal status or in usual subsidiary status.

vii) *Particulars regarding participation in specified activities like (i) maintenance of kitchen garden, (ii) work in household poultry/dairy, (iii) free collection of primary goods, husking of paddy, grinding of food grains, making baskets, sewing, tailoring, weaving for household use, tutoring of own children or others' children free of charge, etc.* for persons who were classified as engaged in domestic duties in the usual principal status.

1.4 Outline of NSS 68th round survey

1.4.1 *Geographical coverage:* The survey covered the whole of the Indian Union except (i) interior villages of Nagaland situated beyond five kilometers of the bus route and (ii) villages in Andaman and Nicobar Islands which remained inaccessible throughout the year.

1.4.2 *Sub-round:* The fieldwork of the 68th round of NSSO was of one year duration starting on 1st July, 2011 and ending on 30th June, 2012. As usual, the survey period of this round was divided into four sub-rounds, each with duration of three months, the 1st sub-round period ranging from July to September 2011, the 2nd sub-round period from October to December 2011 and so on. In each of these four sub-rounds, an equal number of sample villages/blocks (FSUs) were allotted for survey with a view to ensuring uniform spread of sample FSUs over the entire survey period.

1.5 Sample Design

1.5.1 A stratified multi-stage design was adopted for the 68th round survey. The first stage units (FSU) were the 2001 census villages (Panchayat wards in case of Kerala) in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. The ultimate stage units (USU) were households in both the sectors. In case of large FSUs, one intermediate stage of sampling was the selection of two hamlet-groups (hgs)/ sub-blocks (sbs) from these FSUs. For the rural sector, the list of 2001 census villages (Panchayat wards in case of Kerala) constituted the sampling frame. For the urban sector, the list of latest available UFS blocks (2007-12) constituted the sampling frame. Within each district of a State/UT, two basic strata were formed viz. (i) rural stratum comprising all rural areas of the district and (ii) urban stratum comprising all the urban areas of the district. However, within the urban areas of a district, if there were one or more towns with population 10 lakhs or more as per population census 2001 in a district, each of them formed a separate basic stratum and the remaining urban areas of the district were considered as another basic stratum. Sub-stratification was done within stratum of both rural and urban areas. If 'r' was the sample size allocated for a rural stratum, 'r/4' sub-strata were formed in that stratum. The villages within a district as per frame were first arranged in ascending order of population and then sub-strata 1 to 'r/4' were demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal population. If 'u' was the sample size for an urban stratum, 'u/4' sub-strata were formed in that stratum. In case u/4 was more than 1, implying formation of 2 or more sub-strata, this was done by first arranging the towns in ascending order of total number of households in the town as per UFS phase 2007-12 and then arranging the IV units of each town and blocks within each IV unit in ascending order of their numbers. From this arranged frame of UFS blocks of all the towns/million plus cities of a stratum, 'u/4' number of sub-strata were formed in such a way that each sub-stratum had more or less equal number of households as per UFS 2007-12.

1.5.2 At the all-India level, a total number of 12,784 FSUs (7,508 villages and 5,276 urban blocks) were allocated for survey in the central sample. The total number of sample FSUs was allocated to the States and UTs in proportion to population as per census 2001 subject to the availability of field investigators and ensuring minimum sample allocation to each State/ UT. The State/ UT level sample size was allocated between rural and urban sectors in proportion to population as per census 2001 with double weightage to urban sector subject to the restriction that urban sample size for bigger states like Maharashtra, Tamil Nadu, etc. did not exceed the rural sample size. A minimum of 16 FSUs (minimum 8 for each of rural and urban sector) was allocated to each state/ UT. Within each sector of a State/ UT, the respective sample size was allocated to the different strata/sub-strata in proportion to the population as per census 2001. Allocations at stratum level were adjusted to multiples of 4 with a minimum sample size of 4. Allocation for each sub-stratum was 4 and equal number of sample FSUs was allocated in each of the four sub-rounds.

1.5.3 For the rural sector, from each stratum/sub-stratum, required number of sample villages was selected by probability proportional to size with replacement (PPSWR), size being the population of the village as per Census 2001. For urban sector, from each stratum/sub-stratum, required number of sample FSUs was selected by Simple Random Sampling Without Replacement (SRSWOR). Both rural and urban samples were drawn in the form of two independent sub-samples. All households listed in a village/UFS block where no hamlet-group/sub-block formation was done, or the households listed in the two selected hamlet-groups/sub-blocks of the village/UFS block where hamlet-group/sub-block formation was done, constituted the sampling frame of households. All households listed in the selected village/block/ hamlet-groups/sub-blocks were stratified into three second stage strata (SSS). A total of 8 households were selected from each sample village/block for canvassing the employment and unemployment schedule. The sample households from each of the second stage strata were selected by SRSWOR.

1.5.4 Out of the total number of 12,784 FSUs (7,508 villages and 5,276 urban blocks) allotted for the central sample³ at the all-India level, 12,737 FSUs (7,469 villages and 5,268 urban blocks) could be surveyed for canvassing the employment and unemployment schedule (Schedule 10). The number of households surveyed was 1,01,724 (59,700 in rural areas and 42,024 in urban areas) and number of persons surveyed was 4,56,999 (2,80,763 in rural areas and 1,76,236 in urban areas). The sample design and estimation procedure used for the survey is given in Appendix B of this report. Field investigators of NSSO collected data for all members of the sample households by interviewing the informants of the selected households.

1.5.5 The domains of rural and urban sector in the survey are co-terminus with the criterion adopted in census. The urban frame used in the survey is the latest updated UFS that takes into account the newly declared towns after the last census 2001. Accordingly the rural sector is the one that is not urban.

1.6 Reports on Employment and Unemployment survey of NSS 68th round

1.6.1 The results of the employment and unemployment surveys of NSSO, generated from the central sample data, are released in the form of reports. It was planned to bring out the results of the employment and unemployment survey of NSS 68th round in seven reports. The first report of NSS 68th round viz. Report Number 554 (*Employment and Unemployment Situation in India, 2011-12*) presenting in details the estimates of labour force indicators along with various characteristics associated with them was brought out in January 2014. In addition to these seven reports, a document entitled '*Key Indicators of Employment and Unemployment*

³ The sample selected for NSS 68th round which was surveyed by NSSO is termed "Central sample". As is usual in the regular NSS rounds, most States and Union Territories participated in the survey. The sample surveyed by State Government officials is termed as "State sample".

in India, 2011-12' showing the estimates of key labour force indicators for each State/UT and all-India was brought out in June 2013. The tentative titles of the remaining five reports are:

- (i) *Participation of Women in Specified Activities along with Domestic Duties,*
- (ii) *Employment and Unemployment situation among Social Groups in India,*
- (iii) *Employment and Unemployment situation in Cities and Towns in India,*
- (iv) *Employment and Unemployment situation among Major Religious groups in India,*
- (v) *Status of Education and Vocational Training in India.*

1.7 Contents of this report

1.7.1 As stated earlier, this report presents estimates of usual status workers in AGE GC and non-agriculture sectors pertaining to various characteristics of enterprises, with special reference to the *informal sector* enterprises and the estimates of employees in the usual status with different conditions of their employment. The report contains three chapters, including the present introductory chapter (Chapter One), and five appendices. Chapter Two describes the concepts and definitions of the different terms used in the survey in connection with the items covered in this report. The detailed tables forming the basis of this report are presented in Appendix A. Appendix B gives a detailed description of the sample design and estimation procedure used for the survey. The Projected Population as on 1st January 2012 obtained by using the census population as on 1.3.2011 and the rate of growth of population between census 2001 and 2011 have been presented in Appendix C. The projections have been given for, male and female, separately, for rural and urban for each State/UT. Appendix D gives a facsimile of the schedule canvassed in the survey. The RSEs of the estimates of worker population ratio (WPR) according to usual status (ps+ss) have been presented in Appendix E for the major States. For the purpose of discussion in this report, the major states are 20 in the rural areas and 21 in the urban areas. The major states are: Andhra Pradesh, Assam, Bihar, Chhattisgarh, Gujarat, Haryana, Himachal Pradesh, Jammu & Kashmir, Jharkhand, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Odisha, Punjab, Rajasthan, Tamil Nadu, Uttarakhand, Uttar Pradesh, West Bengal and urban Delhi.

1.7.2 Appendix A contains twelve detailed tables at the all-India level. Of these, five tables provide estimates of usual status workers by various attributes such as activity status of workers, industry of work, enterprise type, location of workplace, size of enterprise, use of electricity for production by the enterprises etc. The other seven tables present estimates of employees by some combination of attributes like type of job contract, eligibility for paid leave, availability of social security benefits, method of payment, nature of employment (permanent/temporary), existence of union/ association in the activity etc. Appendix A of the report turns out to be very voluminous and hence, the hard-copy of Appendix A does not form a part of the Report. The soft copy of Appendix A of the report is provided in CD.

1.7.3 The estimates presented in this report, in general, refer to the mid-point of the survey period (July 2011 - June 2012) of NSS 68th round, i.e., 01.01.2012. In the NSS reports, the estimates of the employment and unemployment characteristics are generally presented as ratios. To estimate the absolute number of any category corresponding to the NSS 68th round, the survey estimates of ratios may be applied to the Projected Population as on 1st January 2012 as given in Appendix C.

1.7.4 It may be noted that as the tables are generally presented as ‘per 1000 distribution’ or rates ‘per 1000’, the figures are rounded off. Thus, while using the ratios from the survey results, it is to be noted that the accuracy of these derived aggregates will be limited to the number of significant digits available in such ratios. If there is no sample person in a particular category, the estimates/estimated proportions of persons in that category appear as zero (0). Estimated numbers per 1000 are also shown as zero (0), when they are greater than 0 but less than 0.5. The survey estimates of the aggregates are presented in the margin of the detailed tables which may be used to combine the estimates of the ratios or to get the ratios with more significant digits. The cell-level figures in the detailed tables, when added up, may not exactly be equal to the figure shown against the ‘total’ column/row due to rounding off and/or presence of non-response cases.

1.7.5 The estimates in the report have been presented for all the States/UTs and all-India. It may be mentioned that the sample sizes for the smaller States/UTs may not be adequate enough for getting sufficiently reliable estimates for some of the characteristics covered in the report and therefore, the users may be careful about the sample sizes while using the State/UT level estimates.

Chapter Two

Concepts and Definitions

2.0 The concepts and definitions of some important terms used in the survey and relevant to this report are explained in the following paragraphs.

2.1 **Household:** A group of persons who normally lived together and took food from a common kitchen constituted a household. The adverb “normally” means that temporary visitors and guests (whose total period of stay in the household was expected to be less than 6 months) were excluded but temporary stay-aways (whose total period of absence from the household was expected to be less than 6 months) were included. Thus a child residing in a hostel for studies was excluded from the household of his/her parents, but a resident domestic servant or paying guest (but not just a tenant in the house) was included in the employer’s/host’s household. “Living together” was given more importance than “sharing food from a common kitchen” in drawing the boundaries of a household in case the two criteria were in conflict. However, in the special case of a person taking food with his family but sleeping elsewhere (say, in a shop or a different house) due to shortage of space, the household formed by such a person’s family members was taken to include the person also. Each inmate of a hotel, mess, boarding-lodging house, hostel, etc., was considered to be a single-member household. The same principle was applicable for the residential staff of such establishments. However, if a group of persons among them was found to pool their income for spending, they were treated as forming a single household. A family living in a hotel was treated as a single household. The size of a household is the total number of persons in the household.

2.2 **Economic activity:** The entire spectrum of human activity falls into two categories – economic activities and non-economic activities. Any activity resulting in production of goods and services that add value to national product was considered as an economic activity for the employment and unemployment survey. Such activities included (i) production of all goods and services for market (i.e. for pay or profit) including those of government services, (ii) production of primary commodities for own consumption and (iii) own account production of fixed assets.

2.2.1 The full spectrum of economic activities as defined in the UN system of National Accounts was not covered in the definition of economic activities adopted for the employment and unemployment survey of NSS 68th round. Although production of any good for own consumption is considered as economic activity by UN System of National Accounts, production of only primary goods for own consumption was considered as economic activity by NSSO for the purpose of the survey. While the former considers activities like own

account processing of primary products as economic activities, processing of primary products for own consumption was not considered as economic activity in the NSS surveys.

2.2.2 The term 'economic activity' as defined in the employment and unemployment survey of NSS 68th round, therefore, included:

- (i) all the market activities performed for pay or profit which results in production of goods and services for exchange.
- (ii) of the non-market activities,
 - (a) all the activities relating to the agriculture, forestry, fishing, mining and quarrying sector (i.e. industry Divisions 01 to 09 of NIC-2008) which results in production of primary goods for own consumption (including free collection of uncultivated crops, forestry, firewood, hunting, fishing, mining, quarrying, etc.)
 - and
 - (b) activities relating to the own-account production of fixed assets, which include production of fixed assets including construction of own houses, roads, wells, etc., and of machinery, tools, etc., for household enterprise and also construction of any private or community facilities free of charge. A person may be engaged in own account construction in the capacity of either a labourer or a supervisor.

Activity status of a person was judged irrespective of the situation whether such activity was carried out illegally in the form of smuggling or not. As per the practice followed in earlier rounds, certain activities like prostitution, begging, etc., which though fetched earnings, were not considered as economic activities.

2.3 Activity status: It is the activity situation in which a person was found during a specified reference period with regard to the person's participation in economic and non-economic activities. According to this, a person could be in one or a combination of the following three broad activity statuses during the reference period:

- (i) working or being engaged in economic activity (work),
- (ii) being not engaged in economic activity (work) but either making tangible efforts to seek 'work' or being available for 'work' if 'work' is available and
- (iii) being not engaged in any economic activity (work) and also not available for 'work'.

Broad activity statuses mentioned in (i) and (ii) above are associated with 'being in labour force' and the last with 'not being in the labour force'. Within the labour force, broad activity status (i) and (ii) were associated with 'employment' and 'unemployment', respectively.

2.3.1 Identification of each individual in terms of a unique activity status could pose a problem when more than one of the three broad activity statuses listed above were concurrently obtained for a person during the reference period. In such an eventuality, unique identification under any one of the three broad activity statuses (viz. employed/unemployed/not in labour force) was done by adopting either *the major time criterion* or *priority criterion*. The former was used for classification of persons according to the usual status approach and the latter for classification of persons according to the current status approach (i.e., current weekly status and current daily status approaches). Each of the three broad activity statuses was further sub-divided into several detailed activity categories. If a person categorised as engaged in economic activity was found to be pursuing more than one economic activity during the reference period, the appropriate detailed activity in terms of status and industry was considered as that one corresponding to which relatively long time had been spent. A similar procedure was adopted for assigning detailed activity code for persons categorised as engaged in non-economic activity and pursuing more than one non-economic activity.

2.3.2 The detailed activity statuses under each of the three broad activity statuses (viz. 'employed', 'unemployed' and 'not in labour force') and the corresponding codes used in the survey are given below:

<u>code</u>	<u>description</u>
working (or employed)	
<i>self-employed</i>	
11	worked in household enterprises (self-employed) as own-account worker
12	worked in household enterprises (self-employed) as an employer
21	worked in household enterprises (self-employed) as helper
<i>regular wage/ salaried employee</i>	
31	worked as regular wage/salaried employee
<i>casual labour</i>	
41	worked as casual labour in public works other than MGNREG works
42	worked as casual labour in MGNREG works
51	worked as casual labour in other types of works

- 61 did not work owing to sickness though there was work in household enterprise
- 62 did not work owing to other reasons though there was work in household enterprise
- 71 did not work owing to sickness but had regular salaried/wage employment
- 72 did not work owing to other reasons but had regular salaried/wage employment

not working but seeking/available for work (or unemployed)

- 81 sought work or did not seek but was available for work (for usual status approach)
- 81 sought work (for current weekly status approach)
- 82 did not seek but was available for work (for current weekly status approach)

neither working nor available for work (or not in labour force)

- 91 attended educational institutions
- 92 attended to domestic duties only
- 93 attended to domestic duties and was also engaged in free collection of goods (vegetables, roots, firewood, cattle feed, etc.), sewing, tailoring, weaving, etc. for household use
- 94 rentiers, pensioners, remittance recipients, etc.
- 95 not able to work owing to disability
- 97 others (including beggars, prostitutes, etc.)
- 98 did not work owing to sickness (for casual workers only)
- 99 children of age 0-4 years

It may be noted that codes 42, 61, 62, 71, 72, 82 and 98 were applicable for current weekly status and current daily status approaches only. It may also be noted that activity status code 41 in the usual status is used for casual labour in all types of public works, whereas in the current activity status, code 41 is for casual labour in public works other than MGNREG public works and code 42 is for casual labour in MGNREG public works.

2.4 Workers (or employed): Persons who were engaged in any economic activity or who, despite their attachment to economic activity, abstained themselves from work for reason of illness, injury or other physical disability, bad weather, festivals, social or religious functions or other contingencies necessitating temporary absence from work, constituted workers. Unpaid household members who assisted in the operation of an economic activity in the household farm or non-farm activities were also considered as workers. Relevant activity status codes 11 to 72 were assigned for workers. Workers were further categorized as *self-employed* (relevant activity status codes: 11, 12, 21, 61, 62), *regular wage /salaried employee* (relevant activity status codes: 31, 71, 72), and *casual labour* (relevant activity status codes: 41, 42 and 51).

2.5 Seeking or available for work (or unemployed): Persons who, owing to lack of work, had not worked but either sought work through employment exchanges, intermediaries, friends or relatives or by making applications to prospective employers or expressed their willingness or availability for work under the prevailing conditions of work and remuneration, were considered as those 'seeking or available for work' (or unemployed). Activity status codes 81 or 82 were assigned for unemployed.

2.6 Labour force: Persons who were either 'working' (or employed) or 'seeking or available for work' (or unemployed) constituted the labour force. Persons with activity status codes 11 – 82 constituted the labour force.

2.7 Not in labour force: Persons who were neither 'working' nor 'seeking or available for work' for various reasons during the reference period were considered as 'not in labour force'. Persons under this category are students, those engaged in domestic duties, rentiers, pensioners, recipients of remittances, those living on alms, infirm or disabled persons, too young persons, prostitutes, etc. and casual labourers not working due to sickness. Activity status codes 91-95, 97, 98 and 99 were assigned for persons belonging to category 'not in labour force'.

2.8 Self-employed: Persons who operated their own farm or non-farm enterprises or were engaged independently in a profession or trade on own-account or with one or a few partners were deemed to be self-employed in household enterprises. The essential feature of the self-employed is that they have *autonomy* (decide how, where and when to produce) and *economic independence* (in respect of choice of market, scale of operation and finance) for carrying out their operation. The remuneration of the self-employed consists of a non-separable combination of two parts: a reward for their labour and profit of their enterprise.

2.8.1 Categories of self-employed persons: Self-employed persons were further categorised as follows:

- (i) **own-account workers:** Self-employed persons who operated their enterprises on their own account or with one or a few partners and who, during the reference period, by and large, ran their enterprise without hiring any labour was considered as own-account workers. They could, however, have had unpaid helpers to assist them in the activity of the enterprise.
- (ii) **employers:** Self-employed persons who worked on their own account or with one or a few partners and, who, by and large, ran their enterprise by hiring labour was considered as employers.

(iii) **helpers in household enterprise:** Self-employed persons who were engaged in their household enterprises, working full or part time and did not receive any regular salary or wages in return for the work performed was considered as helpers in household enterprise. They did not run the household enterprise on their own but assisted the concerned person living in the same household in running the household enterprise.

2.9 Regular wage/salaried employee: These were persons who worked in others' farm or non-farm enterprises (both household and non-household) and, in return, received salary or wages on a regular basis (i.e. not on the basis of daily or periodic renewal of work contract). This category included not only persons getting time wage but also persons receiving piece wage or salary and paid apprentices, both full time and part-time.

2.10 Casual labour: A person who was casually engaged in others' farm or non-farm enterprises (both household and non-household) and, in return, received wages according to the terms of the daily or periodic work contract, was considered as a casual labourer.

2.11 Public works: 'Public works' were those activities which were sponsored by Government or Local Bodies, and which cover local area development works like *construction of roads, dams, bunds, digging of ponds, etc.*, as relief measures, or as an outcome of employment generation schemes under the poverty alleviation programmes such as Mahatma Gandhi National Rural Employment Guarantee (MGNREG) works, Sampoorna Grameen Rozgar Yojana (SGRY), National Food for Work Programme (NFFWP), etc. The coverage of schemes under 'public works' is restricted to those schemes under poverty alleviation programmes, or relief measures through which the Government generated wage employment. The types of works that were generally undertaken through these schemes, were watershed development, drought proofing, land levelling, flood control, laying pipes or cables, sanitation, water harvesting, digging of irrigation canal, development of orchard, road construction, building construction / repair, running crèche, etc. There may be some schemes sponsored by the Government and in operation, which were conceived as self-employment generation schemes. Some such schemes of the Government were Swarnjayanti Gram Swarozgar Yojana (schemes under erstwhile IRDP merged with this), Rural Employment Generation Programme (REGP), Prime Minister's Rozgar Yojana (PMRY), Valmiki Ambedkar Awas Yojana (VAMBAY), etc. Employment generated through these schemes was not considered within the purview of 'public works'. Classification of individuals as 'casual labour in public works' required that the work in which they participated was 'public works' as defined above. To distinguish between 'public works' and works not classifiable as 'public works', some broad characteristics of 'public works' were identified, viz. the primary objective was generation of wage employment and poverty alleviation, and creation of community asset as an outcome in achieving those main objectives. It is to be noted that for

assigning current weekly and current daily activity status codes for the casual labourer working in public works, codes 41 and 42 were used as follows:

- (i) worked as casual labourer in public works other than Mahatma Gandhi National Rural Employment Guarantee (MGNREG) public works – 41
- (ii) worked as casual labourer in Mahatma Gandhi National Rural Employment Guarantee (MGNREG) public works – 42

In the usual activity status, code 41 was used for casual labour in public works, which included all types of public works and code 42 was not applicable in the usual activity status.

2.12 Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA): The Mahatma Gandhi National Rural Employment Guarantee Act, 2005 (MGNREGA) is an important step towards the realization of the right to work and to enhance the livelihood security of the households in the rural areas of the country. According to this Act, Rural Employment Guarantee Schemes (REGS) are formed by the State Governments. The Scheme provides at least 100 days of guaranteed wage employment in every financial year to every household whose adult members volunteer to do unskilled manual work. Adult means a person who has completed his/ her eighteen years of age. Unskilled manual work means any physical work which any adult person is capable of doing without any special skill/ training. The implementing agency of the scheme may be any Department of the Central Government or a State Government, a Zila Parishad, Panchayat/ Gram Panchayat or any local authority or Government undertaking or non-governmental organization authorized by the Central Government or the State Government.

2.13 Different approaches followed to determine activity status: The persons surveyed were classified into various activity categories in three approaches on the basis of activities (economic/non-economic) pursued by them during certain specified reference periods. The three approaches are usual status approach, current weekly status approach and the current daily status approach. Three reference periods used in NSS surveys are (i) one year, (ii) one week and (iii) each day of the reference week. In the usual status approach, the activity status of a person is determined on the basis of the reference period of one year. The activity status of a person in current weekly status approach is determined on the basis of the reference period of one week and that in current daily status approach is determined on the basis of the reference period of one day. The procedures adopted to classify the persons into various activity categories according to the usual status approach, current weekly status approach and current daily status approach are elucidated below.

2.13.1 Usual principal activity status: The usual activity status relates to the activity status of a person during the reference period of 365 days preceding the date of survey. The activity status on which a person spent relatively long time (i.e. major time criterion) during the 365 days preceding the date of survey was considered as the *usual principal activity status* of the

person. To decide the usual principal activity of a person, first a two stage dichotomous classification was followed for determining the broad usual principal activity status (employed or unemployed or not in labour force) of the person. At the first stage, persons were first categorised as those in the *labour force* (either employed or unemployed) and those *not in the labour force* depending on the major time spent during the 365 days preceding the date of survey. Persons thus adjudged as not belonging to the labour force were assigned the broad activity status 'neither working nor available for work' (*not in the labour force*). At the second stage, for persons belonging to the labour force, the broad activity status of either 'working' (*employed*) or 'not working but seeking and/or available for work' (*unemployed*) was ascertained based on the same criterion viz. relatively long time spent in accordance with either of the two broad statuses within the labour force during the 365 days preceding the date of survey. Within the broad activity status so determined, the detailed activity status of a person pursuing more than one such activity was determined once again on the basis of the relatively long time spent on such activities. In terms of activity status codes, codes 11-51 were assigned to persons classified as workers and codes 91-97 and 99 to those 'not in the labour force'. In the usual status approach, a single code 81 was assigned to persons seeking or available for work (unemployed persons) while two separate codes 81 (sought work) and 82 (did not seek but was available for work) were assigned to unemployed persons according to current weekly status and current daily status approach.

2.13.2 Usual subsidiary economic activity status: A person whose usual principal activity status was determined on the basis of the major time criterion could have pursued some economic activity for a shorter time throughout the reference year of 365 days preceding the date of survey or for a minor period, which is not less than 30 days, during the reference year. The status in which such economic activity was pursued was the subsidiary economic activity status of that person. Activity status codes 11 to 51 only were used for the subsidiary economic activity performed by a person. It may be noted that engagement in work in subsidiary capacity may arise out of the following two situations:

- (i) a person may be engaged in a relatively long period during the last 365 days in some economic (non-economic) activity and for a relatively short period (but not simultaneously), which is not less than 30 days (not necessarily for a continuous period), in another economic activity (any economic activity). The economic activity, which was pursued for a relatively short period was considered as his/her subsidiary economic activity.
- (ii) a person may be pursuing an economic activity (non-economic activity) almost throughout the year in the principal status and also simultaneously pursuing another economic activity (any economic activity) for a relatively short time in a subsidiary capacity. The economic activity, which was pursued for a relatively short time, was considered as his/her subsidiary economic activity.

If a person was categorised as worker according to usual principal status, then the subsidiary economic activity of the person was different from the principal activity either in terms of detailed work activity status or in terms of industry of work at the 2-digit level of NIC-2008.

2.13.3 Usual activity status considering principal and subsidiary status taken together: The usual status, determined on the basis of the usual principal activity and usual subsidiary economic activity of a person taken together, is considered as the activity status of the person according to usual status (ps+ss). According to the usual status (ps+ss), workers are those who perform some work activity either in the principal status or in the subsidiary status. Thus, a person who is not a worker in the usual principal status is considered as worker according to the usual status (ps+ss), if the person pursues some subsidiary economic activity for 30 days or more during 365 days preceding the date of survey.

2.13.4 Current weekly activity status: The current weekly activity status of a person is the activity status obtaining for a person during a reference period of 7 days preceding the date of survey. It is decided on the basis of a certain *priority- cum- major time criterion*. According to the *priority criterion*, the status 'working' gets priority over the status 'not working but seeking or available for work' that, in turn, gets priority over the status 'neither working nor available for work'. A person was considered 'working' (or employed) if he/she, while pursuing any economic activity, had worked for at least one hour on at least one day during the 7 days preceding the date of survey. A person was considered 'seeking or available for work' (or unemployed) if, during the reference week, the person was not classified as employed but he/she made efforts to get work/was available for work at least for one hour on any day during the reference week though not actively seeking work in the belief that no work was available. A person who had neither worked nor was available for work any time during the reference week was considered as engaged in non-economic activities (or not in labour force). After deciding the *broad current weekly activity status* of a person on the basis of '*priority*' criterion, the *detailed current activity status* was decided on the basis of '*major time*' criterion if that person pursued multiple economic activities. The current weekly activity status of a person could be any of the valid codes within 11 to 99. Of these codes, 11 to 72 pertained to workers, 81 to 82 for unemployed and 91 to 99 for persons 'not in the labour force'.

2.13.5 Current daily activity status: The activity pattern of the population, particularly in the informal sector, is such that during a week, and sometimes, even during a day, a person could pursue more than one activity. Moreover, many people could even undertake both economic and non-economic activities on the same day of a reference week. The current daily activity status of a person was determined for each of the 7 days of the reference week. The activity status of a person on a day was determined on the basis of the activities pursued by him/her using a *priority-cum-major time criterion*. For each day of the reference week, time

disposition was recorded for every member of the sample households. These involved recording of different activities pursued by the members along with the time intensity in quantitative terms for each day of the reference week. The different activities were identified and recorded in terms of 'activity status' and 'industry' codes for persons in urban areas and 'activity status', 'industry' and 'operation' codes for persons in rural areas. The description (and codes used) of current daily activity statuses is the same as those of current weekly activity status. The terms 'industry' and 'operation' are explained later. The following points were considered for assigning the time intensity and determining the current daily status of a person:

- i) Each day of the reference week was looked upon as comprising either two 'half days' or a 'full day' for assigning the activity status. For recording time disposition for activities pursued by a person in a day, an intensity of 1.0 was given against an activity that was done for 'full day' and an intensity of 0.5 against the activity which was done for 'half day'.
- ii) A person was considered 'working' (employed) for the full day if he/she had worked for 4 hours or more during the day.
- iii) If a person was engaged in more than one of the economic activities for 4 hours or more on a day, he/she was assigned two out of the various economic activities on which he/she devoted relatively long time on the reference day. In such cases, an intensity of 0.5 was given for each of these two economic activities.
- iv) If the person had worked for 1 hour or more but less than 4 hours, he/she was considered 'working' (employed) for half-day and 'seeking or available for work' (unemployed) or 'neither seeking nor available for work' (not in labour force) for the other half of the day depending on whether he was seeking/available for work or not.
- v) If a person was not engaged in any 'work' even for 1 hour on a day but was seeking/available for work for 4 hours or more, he was considered 'unemployed' for the entire day. But if he was 'seeking/available for work' for more than 1 hour and less than 4 hours only, he was considered 'unemployed' for half day and 'not in labour force' for the other half of the day.
- vi) A person who neither had any 'work' to do nor was available for 'work' even for half a day was considered 'not in labour force' for the entire day and was assigned one or two of the detailed non-economic activity statuses depending upon the activities pursued during the reference day.

2.14 In the employment and unemployment surveys of the quinquennial rounds of NSSO, the current weekly activity status of a person is derived from the intensities assigned for the different activities of a person during 7 days of the reference week.

2.15 **Industry and occupation of the work activity:** For the employed persons, to record the industry of work, 5-digit classification of NIC-2008 was used and to record the type of occupation, 3-digit classification of NCO-2004 was used. To identify certain category of workers under Division 97 (Activities of households as employers of domestic personnel) of NIC-2008, eight additional codes were used in the survey viz., housemaid /servant (97001), cook (97002), gardener (97003), gatekeeper/chowkidar/watchman (97004), governess/baby-sitter (97005), tutor (97006), driver (97007) and 'others' (97009). The entire activities described under Division 98 are not under the production boundary of Indian System of National Accounts (ISNA) and are not also considered as economic activities in the NSS survey. A part of the activities under Division 98 (viz., hunting and gathering, farming and the production of shelter), which is within the production boundary of ISNA, is also considered as economic activities in NSS surveys and the industry of these undifferentiated activities were judged in the usual manner, by considering the industry in which major time was spent. Thus, this part of activities got classified against the respective industries under Sections A or B relating to the primary sector or section F relating to construction. The rest of Division 98 is outside the production boundary of ISNA and was not considered as economic activity for the NSS survey. Broad structure of NIC-2008 (Sections and Divisions) has been presented at the end of this Chapter in **Annexure I**.

2.16 **Operation:** This was the type of work performed by a person during a reference period. It could be manual or non-manual and could pertain to activities in agricultural or non-agricultural sector. Operation was combined with activity status and industry corresponding to the work performed. Information regarding the type of operation was collected *only for rural areas* and related to *current status only*. The different types of operations came under four categories viz. *manual work in cultivation*; *manual work in other agricultural activities*; *Manual work in non-agricultural activities* and *non-manual work*. Ploughing, sowing, transplanting, weeding, harvesting and other cultivation activities fell under the category *manual work in cultivation*. Against the category *manual work in other agricultural activities* were the following types: forestry, plantation, animal husbandry, fisheries and other agricultural activities. *Manual work in non-agricultural activities* constituted the third category. The last category viz. *non-manual work* comprised two broad types – (i) in 'cultivation' and (ii) in 'other than cultivation'. It may be noted that for 'regular salaried/wage employees' on leave or on holiday, the 'operation' related to their respective function in the work or job from which he/she was temporarily off. Similarly, for persons categorised as 'self-employed' but not working on a particular day in spite of having work on that day, the operation related to the work that he/she would have done if he/she had not enjoyed leisure on that day.

2.17 Coverage of Industry for collection of data on informal sector and conditions of employment: Information on characteristics of enterprises and conditions of employment was collected for both usual principal status workers and usual subsidiary status workers engaged in non-agricultural sector (industry divisions 05-99 of NIC-2008) and a part of the agricultural sector (industry groups 014, 016, 017 and divisions 02, 03 of NIC-2008). In the agricultural sector, industry groups 011 (growing of non-perennial crops), 012 (growing of perennial crops), 013 (plant propagation) and 015 (mixed farming) of NIC – 2008 were excluded for collection of information on characteristics of enterprises and conditions of employment. The industry groups/ divisions 014, 016, 017, 02 and 03 are in the [ag]ricultural sector [e]xcluding [g]rowing of [c]rops, plant propagation, combined production of crops and animals without a specialized production of crops or animals (referred to as AGE GC activities). Information on the existence of union/association was collected for the usual status workers engaged in any industry of NIC - 2008.

2.18 Wage and salary earnings: Information on wage and salary earnings was collected separately for each of the wage/salaried employment recorded for a person in a day. Here, earnings refer to the wage/salary income (and not total earnings taking into consideration of all other activities done) received/receivable for the wage/salaried work done during the reference week by a wage/salaried employee and casual labourer. The wage/ salary received or receivable may be in cash or kind or partly in cash and partly in kind. While recording the earnings following conventions were followed.

- i) The wages in kind were evaluated at the current retail price.
- ii) Bonus and perquisites such as free accommodation, reimbursement of expenditure for medical treatment, free telephones, etc. evaluated at the cost of the employer or at retail prices and duly apportioned for the reference week were also included in earnings.
- iii) Amount receivable as 'over-time' for the additional work done beyond normal working time was excluded.

It may be noted that in the survey, at most two activities were recorded for a person in a day even if he/she had carried out more than two activities on that day. The earnings for regular wage/salaried employees and casual labourers were reported only with respect to the wage/salary activities recorded on that day and not by considering all the activities performed by him/her for the entire day. The average earnings per day received by regular wage/salaried employees in the usual status were obtained by considering those person-days where they worked as regular wage/salaried employees in the current daily status. The average earnings per day received by casual labourers in the usual status (41, 51) were obtained in the same way by considering those person-days where they worked as casual labourers in the current daily status.

2.19 Enterprise type: An enterprise is an undertaking which is engaged in the production and /or distribution of some goods and /or services meant mainly for the purpose of sale, whether fully or partly. An enterprise may be owned and operated by a single household or by several households jointly, or by an institutional body. The definitions of various types of enterprises are given below:

Proprietary: When an individual is the sole owner of an enterprise it is a proprietary enterprise. Own account production of fixed assets for own use, when produced by a single member, was classified as proprietary enterprise.

Partnership: Partnership is defined as the "relation between persons who have agreed to share the profits of a business carried on by all or any one of them acting for all". There may be two or more owners, belonging to the same or different households, on a partnership basis, with or without formal registration (where there is a tacit understanding about the distribution of profit among the so-called partners). Own account production of fixed assets, when produced by two or more members belonging to the same or different households was classified as partnership enterprises. Thus, own account production of fixed assets by a group of households for community use was classified as partnership enterprise.

Government/public sector enterprise: An enterprise, which is wholly owned/ run/managed by Central or State governments, quasi-government, institutions, local bodies like universities, education boards, municipalities, etc. An enterprise was not treated as a public sector enterprise if it was run on a loan granted by government, local body etc.

Private limited company: Private company means a company which by its articles:

- (a) restricts the right to transfer its shares, if any,
- (b) limits the number of its members to fifty not including-
 - (i) persons who are in the employment of the company, and
 - (ii) persons who, having been formerly in the employment of the company, were members of the company while in that employment and have continued to be members after the employment ceased; and
- (c) prohibits any initiation to the public to subscribe for any share in, or debentures of, the company.

Where two or more persons hold one or more shares in a company jointly, they shall, for the purpose of this definition, be treated as a single member.

Public limited company: A public limited company is defined as a company that is not a private limited company. As such public companies can have an unlimited number of members and can invite the public to subscribe to its shares and debentures. The minimum number of members required to form a public limited company is seven.

Co-operative societies: Co-operative society is one that is formed through the co-operation of a number of persons, recognised as members of the society, to benefit themselves. In the process, the funds are raised by member's contributions/investments and the profits generated out of the society's activities are shared by the members. The government itself in a government agency can also be a member or shareholder of a registered co-operative society but this fact cannot render the society into a public sector enterprise for the purpose of this survey.

Trust: An arrangement through which one set of people, the trustees, are the legal owners of property which is administered in the interest of another set, the beneficiaries. Trusts may be set up to provide support for individuals or families, to provide pensions, to run charities, to liquidate the property of the bankrupts for the benefit of their creditors, or for the safe keeping of securities bought by trusts with their investor's money. The assets, which trusts hold are regulated by law, necessarily administered in the interests of the beneficiaries, and not for the profit of the trustees.

Employer Households (i.e. private households employing maid servant, watchman, cook etc.): The households which are employing maid servants, watchmen, cook, private tutor, etc. was considered as enterprise for the purpose of this survey and was classified as 'Employer households'.

2.20 Location of workplace: The location of workplace for each of the working members of a household was categorised as follows:

- no fixed workplace
- workplace located in:
 - own dwelling unit
 - structure attached to own dwelling unit
 - open area adjacent to own dwelling unit
 - detached structure adjacent to own dwelling unit
 - own enterprise/unit/office/shop but away from own dwelling
 - employer's dwelling unit
 - employer's enterprise/unit/office/shop but outside employer's dwelling
 - street with fixed location
 - construction site
 - others

The specified locations (except 'no fixed workplace') of workplace were further distinguished depending upon the location of the workplace in rural and urban areas.

2.21 Use of electricity by the enterprises for production of goods and services: The information on 'whether the enterprise in which the person worked used *electricity for its production purposes*' was collected in the survey. It may be mentioned here that use of electricity exclusively for purposes other than production like, for comfort, security, illumination, etc., was not considered as the use of electricity by the enterprise for its production.

2.22 Number of workers in the enterprise: Information on number of workers in the enterprise, where the persons worked, was collected in terms of 5 codes. The number of workers employed in the enterprise on an average in a day of operation, irrespective of whether they are hired worker or household members working in the enterprise, was considered as the number of workers in the enterprise. The number of workers also included working owner(s).

2.23 Type of job contract: For each employee in the usual status, it was ascertained whether there was any *written contract or agreement* with his/her employer in respect of duration of employment for the job he/she was engaged. For those who reported to have written job contract with their employer, further probing was done in respect of the length of duration contracted, viz., *for 1 year or less, for more than 1 year to 3 years and more than 3 years*. If the contract of employment specified a particular date of termination which was more than 3 years or if the type of job contracted was such that no time was fixed but the contract could only be terminated for certain administrative reasons such as incompetence, misconduct or for economic reasons then the contract was considered to have a duration of 3 years or more. However, if no written contract existed, then irrespective of the duration of employment, it was considered as no written job contract.

2.24 Eligibility of paid leave: For the employees in the usual status, it was ascertained whether they were eligible to get paid leave. Paid leave included leave during sickness, maternity, or such leave, as an employee was eligible to take without loss of pay, as per the conditions of employment. The situation was assessed excluding the paid off-days/holidays, which an enterprise normally allows to its employees. Employees were classified as those with eligibility for paid leave and those without eligibility for paid leave.

2.25 Availability of social security benefits: For the employees in the usual status, it was ascertained whether they were covered under any of the specified social security benefits or a combination of them which are arranged by the employer or for which contribution is made by the employer. For the purpose of the survey the following schemes were considered as social security benefits:

only PF/ pension (i.e., GPF, CPF, PPF, pension, etc.).
only gratuity
only health care & maternity benefits
only PF/ pension and gratuity
only PF/ pension and health care & maternity benefits.
only gratuity and health care & maternity benefits
PF/ pension, gratuity and health care & maternity benefits

Those who were not covered under any of the above social security schemes were considered as not eligible for any social security benefits.

2.25.1 The term Provident Fund (PF) included General Provident Fund, Contributory Provident Fund, Public Provident Fund, Employees Provident Fund, etc. It may be mentioned that coverage under any of these social security schemes meant that the employer contributed/ arranged/ paid in implementing the social security benefits for the worker. If an employee operated, in his/ her individual capacity, a PPF account and the employer is not contributing in that account then it was not considered as a social security benefit. On the contrary, a scheme, in which both the employee and the employer contributed, was considered a social security benefit. When benefits were given by the employer for treatment of illness/ injury or an employee was eligible for paid leave for a specified period of pre-natal/ childbirth/ post-natal stages or the expenditure for maternity care or childbirth was borne by the employer as per the conditions of employment, then such benefits were considered as health care & maternity benefits. There were cases where the employer was not directly contributing in a social security scheme for the employees, but being the member of the welfare association or organization or scheme in relation to the specific activity carried out by the employer, the employees got the benefit from that welfare association/ organization/ scheme. Such cases were also considered as social security benefits availed through the employer.

2.26 Method of payment: The method by which payments were received by the workers was recorded in the survey in terms of 5 codes. The different methods of payment were: *regular monthly salary, regular weekly payment, daily payment, piece rate payment and others.*

2.27 Existence of union/association in the activity: Union/association meant any registered/recognised body whose membership is open to a section of those engaged in a specific activity or trade and whose main objective is to look into the interests of its members. Thus, besides the usual trade unions, this category also covered the association of owners, self-employed persons, etc.

2.28 Nature of employment: In the survey, the nature of employment (permanent or temporary) was recorded for the persons employed either in usual principal status or usual subsidiary status. Nature of employment was considered as permanent if the person was, in normal course, found to continue in the same employment.

2.29 Informal sector and informal employment: A broad guideline regarding the concept of informal sector and informal employment as enunciated in the 15th International Conference of Labour Statisticians (ICLS) and 17th ICLS, are given below. Extracts of the resolutions and guidelines concerning informal sector and informal employment are given in **Annexure II** and **Annexure III** respectively, at the end of Chapter Two.

2.29.1 AS per 15th ICLS, the *informal sector* is broadly characterized as consisting of:

- (a) units engaged in the production of goods or services with the primary objective of generating employment and incomes to the persons concerned. These units typically operate at a low level of organization, with little or no division between labour and capital as factors of production and on a small scale. Labour relations - where they exist - are based mostly on casual employment, kinship or personal and social relations rather than contractual arrangements with formal guarantees.
- (b) production units of the informal sector have the characteristic features of household enterprises. The fixed and other assets used do not belong to the production units as such but to their owners. The units as such cannot engage in transactions or enter into contracts with other units, nor incur liabilities, on their own behalf. The owners have to raise the necessary finance at their own risk and are personally liable, without limit, for any debts or obligations incurred in the production process. Expenditure for production is often indistinguishable from household expenditure. Similarly, capital goods such as buildings or vehicles may be used indistinguishably for business and household purposes.

Thus, for statistical purposes, the *informal sector*, as per guidelines of 15th ICLS is regarded as a group of production units which, according to the definitions and classifications provided in the United Nations System of National Accounts, form part of the household sector as household enterprises or, equivalently, unincorporated enterprises owned by households.

2.29.2 According to the 17th ICLS framework, *informal employment* is identified by jobs classified by status of employment of the workers and the types of production units in which they were employed. The different types of production units are: (a) *formal sector enterprises*, (b) *informal sector enterprises*, and (c) *households which produce goods for their own final use and/or those employing domestic workers*. The status of employment of the workers performing the jobs may be (a) *own account workers*, (b) *employers*, (c) *contributing family workers*, (d) *employees*, or (e) *member of informal producers' co-operatives*. The employment may be considered as formal or informal depending upon the type of enterprises in which the workers are engaged or the nature of work they perform.

The *informal employment* comprises jobs held by:

- own-account workers and employers who have their own informal sector enterprises;
- contributing family workers, irrespective of whether they work in formal or informal sector enterprises;
- employees who have informal jobs (for definition, see item (5) in paragraph 3 in Annexure III) whether employed by formal sector enterprises, informal sector enterprises, or as paid domestic workers by households;
- members of informal producers' cooperatives; and
- persons engaged in the own-account production of goods exclusively for own final use by their household, such as subsistence farming or do-it-yourself construction of own dwellings.

2.29.3 In the 68th round survey, as in NSS 61st and 66th rounds, information on enterprise type was collected for all the usual status workers and the enterprise types proprietary and partnership are classified as informal sector enterprises. Besides, information on conditions of employment of the employees in the usual status engaged in industry groups/divisions 014, 016, 017, 02-99 of NIC-2008 was collected to identify informal employment. Information on employment status, type of enterprise, type of job contract, availability of paid leave, availability of social security benefits, nature of employment, existence of union/ association, etc. are used for identification of informal employment.

ANNEXURE – I

NATIONAL INDUSTRIAL CLASSIFICATION (NIC) – 2008

(Description of industry groups/divisions 014, 016, 017 and 02-99)

Section A: Agriculture, forestry and fishing

Division 01: Crop and animal production, hunting and related service activities

Group 014: Animal production

Group 016: Support activities to agriculture and post-harvest crop activities

Group 017: Hunting, trapping and related service activities

Division 02: Forestry and logging

Division 03: Fishing and aquaculture

Section B: Mining and quarrying

Division 05: Mining of coal and lignite

Division 06: Extraction of crude petroleum and natural gas

Division 07: Mining of metal ores

Division 08: Other mining and quarrying

Division 09: Mining support service activities

Section C: Manufacturing

Division 10: Manufacture of food products

Division 11: Manufacture of beverages

Division 12: Manufacture of tobacco products

Division 13: Manufacture of textiles

Division 14: Manufacture of wearing apparel

Division 15: Manufacture of leather and related products

Division 16: Manufacture of wood and products of wood and cork, except furniture;
manufacture of articles of straw and plaiting materials

Division 17: Manufacture of paper and paper products

Division 18: Printing and reproduction of recorded media
Division 19: Manufacture of coke and refined petroleum products
Division 20: Manufacture of chemicals and chemical products
Division 21: Manufacture of pharmaceuticals, medicinal chemical and botanical products
Division 22: Manufacture of rubber and plastics products
Division 23: Manufacture of other non-metallic mineral products
Division 24: Manufacture of basic metals
Division 25: Manufacture of fabricated metal products, except machinery and equipment
Division 26: Manufacture of computer, electronic and optical products
Division 27: Manufacture of electrical equipment
Division 28: Manufacture of machinery and equipment n.e.c.
Division 29: Manufacture of motor vehicles, trailers and semi-trailers
Division 30: Manufacture of other transport equipment
Division 31: Manufacture of furniture
Division 32: Other manufacturing
Division 33: Repair and installation of machinery and equipment

Section D: Electricity, gas, steam and air conditioning supply

Division 35: Electricity, gas, steam and air conditioning supply

Section E: Water supply; sewerage, waste management and remediation activities

Division 36: Water collection, treatment and supply
Division 37: Sewerage
Division 38: Waste collection, treatment and disposal activities; materials recovery
Division 39: Remediation activities and other waste management services

Section F: Construction

Division 41: Construction of buildings
Division 42: Civil engineering
Division 43: Specialized construction activities

Section G: Wholesale and retail trade; repair of motor vehicles and motorcycles

Division 45: Wholesale and retail trade and repair of motor vehicles and motorcycles
Division 46: Wholesale trade, except of motor vehicles and motorcycles
Division 47: Retail trade, except of motor vehicles and motorcycles

Section H: Transportation and storage

Division 49: Land transport and transport via pipelines

Division 50: Water transport

Division 51: Air transport

Division 52: Warehousing and support activities for transportation

Division 53: Postal and courier activities

Section I: Accommodation and Food service activities

Division 55: Accommodation

Division 56 Food and beverage service activities

Section J: Information and communication

Division 58: Publishing activities

Division 59: Motion picture, video and television programme production, sound recording
and music publishing activities

Division 60: Broadcasting and programming activities

Division 61: Telecommunications

Division 62: Computer programming, consultancy and related activities

Division 63: Information service activities

Section K: Financial and insurance activities

Division 64: Financial service activities, except insurance and pension funding

Division 65: Insurance, reinsurance and pension funding, except compulsory social security

Division 66: Other financial activities

Section L: Real estate activities

Division 68: Real estate activities

Section M: Professional, scientific and technical activities

Division 69: Legal and accounting activities

Division 70: Activities of head offices; management consultancy activities

Division 71: Architecture and engineering activities; technical testing and analysis

Division 72: Scientific research and development

Division 73: Advertising and market research

Division 74: Other professional, scientific and technical activities

Division 75: Veterinary activities

Section N: Administrative and support service activities

Division 77: Rental and leasing activities

Division 78: Employment activities

Division 79: Travel agency, tour operator and other reservation service activities

Division 80: Security and investigation activities

Division 81: Services to buildings and landscape activities

Division 82: Office administrative, office support and other business support activities

Section O: Public administration and defence; compulsory social security

Division 84: Public administration and defence; compulsory social security

Section P: Education

Division 85: Education

Section Q: Human health and social work activities

Division 86: Human health activities

Division 87: Residential care activities

Division 88: Social work activities without accommodation

Section R: Arts, entertainment and recreation

Division 90: Creative, arts and entertainment activities

Division 91: Libraries, archives, museums and other cultural activities

Division 92: Gambling and betting activities

Division 93: Sports activities and amusement and recreation activities

Section S: Other service activities

Division 94: Activities of membership organizations

Division 95: Repair of computers and personal and household goods

Division 96: Other personal service activities

Section T: Activities of households as employers; undifferentiated goods and services producing activities of households for own use

Division 97: Activities of households as employers of domestic personnel

Division 98: Undifferentiated goods and services producing activities of private households for own use

Section U: Activities of extraterritorial organizations and bodies

Division 99: Activities of extraterritorial organizations and bodies

ANNEXURE – II

Resolution concerning statistics of employment in the informal sector, adopted by the Fifteenth International Conference of Labour Statisticians (January 1993)

[Extract]

Concept

5 (1) The informal sector may be broadly characterized as consisting of units engaged in the production of goods or services with the primary objective of generating employment and incomes to the persons concerned. These units typically operate at a low level of organization, with little or no division between labour and capital as factors of production and on a small scale. Labour relations - where they exist - are based mostly on casual employment, kinship or personal and social relations rather than contractual arrangements with formal guarantees.

(2) Production units of the informal sector have the characteristic features of household enterprises. The fixed and other assets used do not belong to the production units as such but to their owners. The units as such cannot engage in transactions or enter into contracts with other units, nor incur liabilities, on their own behalf. The owners have to raise the necessary finance at their own risk and are personally liable, without limit, for any debts or obligations incurred in the production process. Expenditure for production is often indistinguishable from household expenditure. Similarly, capital goods such as buildings or vehicles may be used indistinguishably for business and household purposes.

Operational definitions

Informal sector

6 (1) For statistical purposes, the informal sector is regarded as a group of production units which, according to the definitions and classifications provided in the United Nations System of National Accounts (Rev. 4), form part of the household sector as household enterprises or, equivalently, unincorporated enterprises owned by households as defined in paragraph 7.

(2) Within the household sector, the informal sector comprises (i) "informal own-account enterprises" as defined in paragraph 8; and (ii) the additional component consisting of "enterprises of informal employers" as defined in paragraph 9.

(3) The informal sector is defined irrespective of the kind of workplace where the productive activities are carried out, the extent of fixed capital assets used, the duration of the operation of the enterprise (perennial, seasonal or casual), and its operation as a main or secondary activity of the owner.

Household enterprises

7. According to the United Nations System of National Accounts (Rev. 4), household enterprises (or, equivalently, unincorporated enterprises owned by households) are distinguished from corporations and quasi-corporations on the basis of the legal organization of the units and the type of accounts kept for them. Household enterprises are units engaged in the production of goods or services which are not constituted as separate legal entities independently of the households or household members that own them, and for which no complete sets of accounts (including balance sheets of assets and liabilities) are available which would permit a clear distinction of the production activities of the enterprises from the other activities of their owners and the identification of any flows of income and capital between the enterprises and the owners. Household enterprises include unincorporated enterprises owned and operated by individual household members or by two or more members of the same household as well as unincorporated partnerships formed by members of different households.

Informal own-account enterprises

8 (1) Informal own-account enterprises are household enterprises (in the sense of paragraph 7) owned and operated by own-account workers, either alone or in partnership with members of the same or other households, which may employ contributing family workers and employees on an occasional basis, but do not employ employees on a continuous basis and which have the characteristics described in subparagraphs 5 (1) and (2).

(2) For operational purposes, informal own-account enterprises may comprise, depending on national circumstances, either all own-account enterprises or only those which are not registered under specific forms of national legislation.

(3) Registration may refer to registration under factories or commercial acts, tax or social security laws, professional groups' regulatory acts, or similar acts, laws, or regulations established by national legislative bodies.

Enterprises of informal employers

9 (1) Enterprises of informal employers are household enterprises (in the sense of paragraph 7) owned and operated by employers, either alone or in partnership with members of the same or other households, which employ one or more employees on a continuous basis and which have the characteristics described in subparagraphs 5 (1) and (2).

(2) For operational purposes, enterprises of informal employers may be defined, depending on national circumstances, in terms of one or more of the following criteria:

- (i) size of the unit below a specified level of employment;
- (ii) non-registration of the enterprise or its employees.

(3) While the size criterion should preferably refer to the number of employees employed on a continuous basis, in practice, it may also be specified in terms of the total number of employees or the number of persons engaged during the reference period.

(4) The upper size limit in the definition of enterprises of informal employers may vary between countries and branches of economic activity. It may be determined on the basis of minimum size requirements as embodied in relevant national legislations, where they exist, or in terms of empirically determined norms. The choice of the upper size limit should take account of the coverage of statistical inquiries of larger units in the corresponding branches of economic activity, where they exist, in order to avoid an overlap.

(5) In the case of enterprises, which carry out their activities in more than one establishment, the size criterion should, in principle, refer to each of the establishments separately rather than to the enterprise as a whole. Accordingly, an enterprise should be considered to satisfy the size criterion if none of its establishments exceeds the specified upper size limit.

(6) Registration of the enterprise may refer to registration under specific forms of national legislation as specified in subparagraph 8 (3). Employees may be considered registered if they are employed on the basis of an employment or apprenticeship contract which commits the employer to pay relevant taxes and social security contributions on behalf of the employee or which makes the employment relationship subject to standard labour legislation.

10. For particular analytical purposes, more specific definitions of the informal sector may be developed at the national level by introducing further criteria on the basis of the data collected. Such definitions may vary according to the needs of different users of the statistics.

Population employed in the informal sector

11 (1) The population employed in the informal sector comprises all persons who, during a given reference period, were employed (in the sense of paragraph 9 of resolution I adopted by the Thirteenth International Conference of Labour Statisticians) in at least one informal sector unit as defined in paragraphs 8 and 9, irrespective of their status in employment and whether it is their main or a secondary job.

Treatment of particular cases

14. Household enterprises, which are exclusively engaged in non-market production, i.e. the production of goods or services for own final consumption or own fixed capital formation as defined by the United Nations System of National Accounts (Rev. 4), should be excluded from the scope of the informal sector for the purpose of statistics of employment in the informal sector. Depending on national circumstances, an exception may be made in respect of households employing domestic workers as referred to in paragraph 19.

16. For practical reasons, the scope of the informal sector may be limited to household enterprises engaged in non-agricultural activities. With account being taken of paragraph 14, all non-agricultural activities should be included in the scope of the informal sector, irrespective of whether the household enterprises carry them out as main or secondary activities. In particular, the informal sector should include secondary non-agricultural activities of household enterprises in the agricultural sector if they fulfil the requirements of paragraphs 8 or 9.

17. Units engaged in professional or technical activities carried out by self-employed persons, such as doctors, lawyers, accountants, architects or engineers, should be included in the informal sector if they fulfil the requirements of paragraphs 8 or 9.

18 (1) Outworkers are persons who agree to work for a particular enterprise, or to supply a certain quantity of goods or services to a particular enterprise, by prior arrangement or contract with that enterprise, but whose place of work is not within any of the establishments, which make up that enterprise.

(2) In order to facilitate data collection, all outworkers should be potentially included in the scope of informal sector surveys, irrespective of whether they constitute production units on their own (self-employed outworkers) or form part of the enterprise, which employs them (employee outworkers). On the basis of the information collected, self-employed and employee outworkers should be distinguished from each other by using the criteria recommended in the United Nations System of National Accounts (Rev. 4). Outworkers should be included in the informal sector, or in the population employed in the informal sector, if the production units, which they constitute as self-employed persons or for which they work as employees fulfil the requirements of paragraphs 8 or 9.

19. Domestic workers are persons exclusively engaged by households to render domestic services for payment in cash or in kind. Domestic workers should be included in or excluded from the informal sector depending upon national circumstances and the intended uses of the statistics. In either case, domestic workers should be identified as a separate sub-category in order to enhance international comparability of the statistics.

ANNEXURE – III

**Guidelines concerning a statistical definition of informal employment,
endorsed by the Seventeenth International Conference of Labour Statisticians
(November-December 2003)**

The Seventeenth International Conference of Labour Statisticians (ICLS),

Acknowledging that the relevance of informal employment varies among countries, and that a decision to develop statistics on it is therefore determined by national circumstances and priorities,

Noting that the term ‘informal economy’ is used by the ILO as including the informal sector as well as informal employment, and that as a supplement to the System of National Accounts 1993 an international conceptual framework for measurement of the non-observed economy already exists, which distinguishes the informal sector from underground production, illegal production, and household production for own final use,

Recalling the existing international standards on statistics of employment in the informal sector contained in the Resolution concerning statistics of employment in the informal sector adopted by the Fifteenth ICLS (January 1993),

Noting the recommendation made by the Expert Group on Informal Sector Statistics (Delhi Group), during its Fifth Meeting, that the definition and measurement of employment in the informal sector need to be complemented with a definition and measurement of informal employment,

Emphasizing the importance of consistency and coherence in relating the enterprise-based concept of employment in the informal sector to a broader, job-based concept of informal employment,

Considering the methodological work, which the International Labour Office and a number of countries have already undertaken in this area,

Supporting the request, which was made by the International Labour Conference in paragraph 37(n) of the Resolution concerning decent work and the informal economy adopted during its 90th Session (2002), that the International Labour Office should assist countries in the collection, analysis and dissemination of statistics on the informal economy,

Recognizing that the considerable diversity of informal employment situations poses limits to the extent to which statistics on informal employment can be harmonized across countries,

Realizing the usefulness of international guidelines in assisting countries in the development of national definitions of informal employment, and in enhancing the international comparability of the resulting statistics to the extent possible,

Endorses the following guidelines, which complement the Resolution concerning statistics of employment in the informal sector of the Fifteenth ICLS, and encourages countries to test the conceptual framework on which they are based.

1. The concept of informal sector refers to production units as observation units, while the concept of informal employment refers to jobs as observation units. Employment is defined in the sense of paragraph 9 of the Resolution concerning statistics of the economically active population, employment, unemployment and underemployment adopted by the Thirteenth ICLS.

2. *Informal sector enterprises* and *employment in the informal sector* are defined according to the Resolution concerning statistics of employment in the informal sector adopted by the Fifteenth ICLS. For the purpose of statistics on informal employment, paragraph 19 of the Resolution concerning statistics of employment in the informal sector adopted by the Fifteenth ICLS should be applied to exclude households employing paid domestic workers from informal sector enterprises, and to treat them separately as part of a category named 'households'.

3. (1) *Informal employment* comprises the total number of informal jobs as defined in subparagraphs (2) to (5) below, whether carried out in formal sector enterprises, informal sector enterprises, or households, during a given reference period.

- (2) As shown in the attached matrix, informal employment includes the following types of jobs:
- (i) own-account workers employed in their own informal sector enterprises (cell 3);
 - (ii) employers employed in their own informal sector enterprises (cell 4);
 - (iii) contributing family workers, irrespective of whether they work in formal or informal sector enterprises (cells 1 and 5);
 - (iv) members of informal producers' cooperatives (cell 8);
 - (v) employees holding informal jobs (as defined in subparagraph (5) below) in formal sector enterprises, informal sector enterprises, or as paid domestic workers employed by households (cells 2, 6 and 10);
 - (vi) own-account workers engaged in the production of goods exclusively for own final use by their household (cell 9), if considered employed according to paragraph 9 (6) of the Resolution concerning statistics of the economically active population, employment, unemployment and underemployment adopted by the Thirteenth ICLS.
- (3) Own-account workers, employers, members of producers' cooperatives, contributing family workers, and employees are defined in accordance with the latest version of the International Classification of Status in Employment (ICSE).
- (4) Producers' cooperatives are considered informal, if they are not formally established as legal entities and also meet the other criteria of informal sector enterprises specified in the Resolution concerning statistics of employment in the informal sector adopted by the Fifteenth ICLS.
- (5) Employees are considered to have informal jobs if their employment relationship is, in law or in practice, not subject to national labour legislation, income taxation, social protection or entitlement to certain employment benefits (advance notice of dismissal, severance pay, paid annual or sick leave, etc.). The reasons may be the following: non-declaration of the jobs or the employees; casual jobs or jobs of a limited short duration; jobs with hours of work or wages below a specified threshold (e.g. for social security contributions); employment by unincorporated enterprises or by persons in households; jobs where the employee's place of work is outside the premises of the employer's enterprise (e.g. outworkers without employment contract); or jobs, for which labour regulations are not applied, not enforced, or not complied with for any other reason. The operational criteria for defining informal jobs of employees are to be determined in accordance with national circumstances and data availability.

- (6) For purposes of analysis and policy-making, it may be useful to disaggregate the different types of informal jobs listed in paragraph 3 (2) above, especially those held by employees. Such a typology and definitions should be developed as part of further work on classifications by status in employment at the international and national levels.
4. Where they exist, employees holding formal jobs in informal sector enterprises (cell 7 of the attached matrix) should be excluded from informal employment.
5. *Informal employment outside the informal sector* comprises the following types of jobs:
- (i) employees holding informal jobs (as defined in paragraph 3 (5) above) in formal sector enterprises (cell 2) or as paid domestic workers employed by households (cell 10);
 - (ii) contributing family workers working in formal sector enterprises (cell 1);
 - (iii) own-account workers engaged in the production of goods exclusively for own final use by their household (cell 9), if considered employed according to paragraph 9 (6) of the Resolution concerning statistics of the economically active population, employment, unemployment and underemployment adopted by the Thirteenth ICLS.
6. Countries, which do not have statistics on employment in the informal sector, or for which a classification of employment by type of production unit is not relevant, may develop statistics on informal employment, if desired, in specifying appropriate definitions of informal jobs of own-account workers, employers and members of producers' cooperatives. Alternatively, they may limit the measurement of informal employment to employee jobs.
7. Countries, which exclude agricultural activities from the scope of their informal sector statistics, should develop suitable definitions of informal jobs in agriculture, especially with respect to jobs held by own-account workers, employers and members of producers' cooperatives.

Conceptual Framework: Informal Employment

Production units by type	Jobs by status in employment								
	Own-account workers		Employers		Contributing family workers	Employees		Members of producers' cooperatives	
	Informal	Formal	Informal	Formal	Informal	Informal	Formal	Informal	Formal
Formal sector enterprises					1	2			
Informal sector enterprises ^(a)	3		4		5	6	7	8	
Households ^(b)	9					10			

(a) As defined by the Fifteenth International Conference of Labour Statisticians (excluding households employing paid domestic workers).

(b) Households producing goods exclusively for their own final use and households employing paid domestic workers.

Note: Cells shaded in dark grey refer to jobs, which, by definition, do not exist in the type of production unit in question. Cells shaded in light grey refer to formal jobs. Un-shaded cells represent the various types of informal jobs.

Informal employment: Cells 1 to 6 and 8 to 10.

Employment in the informal sector: Cells 3 to 8.

Informal employment outside the informal sector: Cells 1, 2, 9 and 10.

Chapter Three

Summary of Findings

3.0. Introduction

3.0.1 *General:* In NSS 68th round (July 2011- June 2012), information on various characteristics of the enterprises (viz., type of enterprise, number of workers in the enterprise, whether enterprise uses electricity etc.) in which the usual status workers were employed and various conditions of employment of the regular wage/ salaried employees and casual labourers (viz. type of job contract, eligibility for paid leave, availability of social security benefits, method of payment etc.) was collected for the industry groups/divisions 014, 016, 017, 02-99 of NIC-2008. Among these industries, the industry groups/divisions 014, 016, 017, 02 and 03 (referred to as AGE GC sector) were in the [ag]riculture sector [e]xcluding [g]rowing of [c]rops, plant propagation, combined production of crops and animals without a specialized production of crops or animals. This information was collected for those who were classified as workers either in usual principal status (ps) or in usual subsidiary status (ss). This report presents the estimates of usual status workforce pertaining to various characteristics of enterprises in the industry groups/divisions 014, 016, 017, 02-99 of NIC-2008 (AGE GC and non-agriculture sectors), with special reference to those engaged in the *informal sector* enterprises¹, and the estimates of usual status employees in the AGE GC and non-agriculture sectors with various conditions of their employment.

3.0.2 For the purpose of discussion in this chapter, the workforce, unless otherwise mentioned, will refer to the workers in the usual status (ps+ss) engaged in the AGE GC and non-agriculture sectors. In the report, sometimes, 'workers in usual status (ps+ss)' has simply been referred as 'workers (ps+ss)'.

3.0.3 In this chapter, survey estimates are given for all-India and also for the States/UTs in some cases but the discussions focus on the all-India estimates only. In some cases, comparison with the corresponding survey results of NSS 61st (2004-05) and 66th (2009-10) rounds has also been done at the all-India level. Section 1 of this chapter gives an idea of the workforce at the all-India level and the share of this workforce engaged in the AGE GC and non-agriculture sectors. In Section 2, discussions have been made regarding the estimates of AGE GC and non-agriculture sector workers pertaining to the various characteristics of the enterprises, with special reference to the *informal sector* enterprises. In Section 3, detailed discussions have been made regarding the estimates of AGE GC and non-agriculture sector employees with respect to the various conditions of their employment. Based on the information collected on existence of union/association in the activities of the usual status workers engaged in any of the industry divisions 01 to 99 of NIC - 2008, the survey estimates relating to this character have also been presented in Section 3. The State/UT level results are given at the end of this chapter.

¹ For the purpose of discussion in the report, enterprises with type of ownership as *proprietary* or *partnership* have been considered as informal sector enterprises.

3.0.4 In order to have an idea on the reliability of estimates for different characteristics at the States/UT level or for some characteristics at more disaggregated level for all-India, it is crucial to have some idea about the sample sizes at least for some broad characteristics of workers. Statement 3.0, gives the number of sample workers in usual status (ps+ss) with different statuses in employment and industry groups/divisions of work, separately for males and females in the rural and urban areas at the all-India level. The corresponding figures for each State/UT are presented in Statement 3.0.1. It can be seen from Statement 3.0 that, even at the all-India level, the sample sizes for the AGEGC sector are very small for the rural areas and even smaller for the urban areas. For the non-agriculture sector, though the sample sizes seem sufficient for a number of States/UTs, yet when these sample sizes are to be distributed over different classificatory variables (such as industry sections, place of work, etc.), the adequacy of the sample size for different States/UTs cannot be assured. Considering this limitation, the discussions in this chapter are restricted to the findings at the all-India level only. However, in some cases, the State/UT level results are given corresponding to the all-India results but while using these estimates, the users are to be careful regarding the number of sample workers at the State/UT level and also at the level of disaggregation for which estimates are used.

Statement 3.0: Number of sample workers in usual status (ps+ss) with different statuses in employment and industry groups/divisions of work during 2011-12

2011-12 for all-India. This Statement shows that, during 2011-12, about 39 per cent of the population in India were employed in the usual status (ps+ss) i.e., employed either in usual principal status (ps) or usual subsidiary status (ss). The WPR in usual status (ps+ss) was about 40 per cent in rural areas and about 36 per cent in urban areas and it was higher for males (about 54 per cent) than females (about 22 per cent). It was the lowest for urban females at about 15 per cent and nearly 25 per cent among their rural counterparts. Statement 3.1 also shows that nearly 35 per cent of the population in India were workers in the usual principal status and 9 per cent were workers in the subsidiary

capacity. Statement 3.1.1, placed at the end of this chapter, presents Worker population ratio (WPR) per 1000 of persons in usual status (ps+ss) during 2011-12 for each State and UT.

3.1.2 *Status in employment during 2011-12*: Statement 3.2 presents the distribution of workers in India in usual status (ps+ss) by status in employment, viz., *self-employed*, *regular wage/ salaried employee*, *casual labour in public works* and *casual labour in*

Statement 3.2: Per 1000 distribution of workers in usual status (ps+ss) by status in employment during 2011-12

1. *Status in employment (code): self-employed - 11-21, regular wage/salaried employees - 31, casual labour in public works - 41, casual labour in other types of works - 51.*

2. *Reference: NSS Report No. 55 (Employment and Unemployment Situation in India, 2011-12).*

cent). In other words, the self-employed and casual labourer together constituted nearly 91 per cent of rural workforce and nearly 57 per cent of the urban workforce. Statement 3.2.1 presents the distribution of workers in usual status (ps+ss) by status in employment during 2011-12 for each State and UT.

3.1.3 *Distribution of workers by industry of work during 2011-12*: Statement 3.3 gives the distribution of workers in India in usual status (ps+ss) by three broad industry groups of NIC-2008. The three groups of industries considered are: *non-agriculture sector* (industry divisions 05 to 99); *AGGC activities* (industry groups 011, 012, 013, 015 i.e., growing of crops, plant propagation, combined production of crops and animals without a specialized production of crops or animals within the agriculture sector); *AGEGC activities* (industry groups/divisions 014, 016, 017, 02, 03 i.e., agriculture sector excluding growing of crops, plant propagation, combined production of crops and animals without a specialized production of crops or animals). In the survey, information on characteristics of enterprises and conditions of employment was collected for the workers engaged in non-agriculture sector and AGE GC activities (industry groups/ divisions 014, 016, 017 and 02-99 of NIC-2008).

Statement 3.3 shows that about 55 per cent of the workers in India were engaged in the AGE GC and non-agriculture sector. The proportion of the workers engaged in AGE GC and non-agriculture sector was about 43 per cent, 35 per cent, 96 per cent and 92 per cent

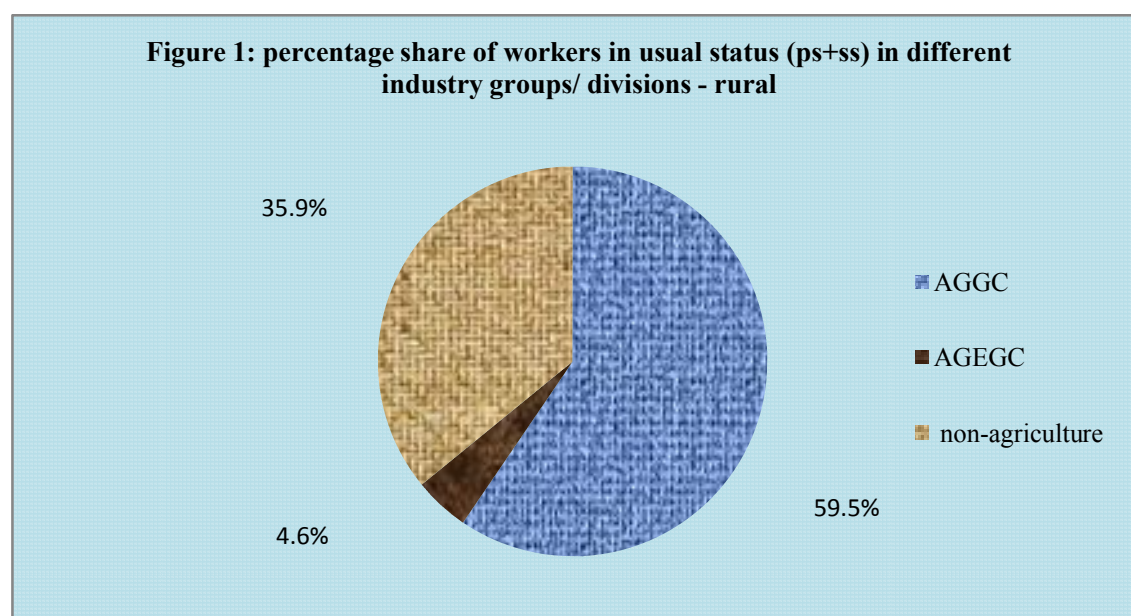

Statement 3.3: Per 1000 distribution of workers in usual status (ps+ss) by industry groups/divisions during 2011-12

person	69	931	1000

1. Industry groups/ divisions (NIC-2008): AGEGC: 014, 016, 017, 02, 03; non-agriculture: 05-99; AGEGC and non-agriculture: 014, 016, 017, 02-99.

per cent in urban areas were engaged in AGEGC activities.

agriculture and that of AGEGC activities are shown in Statement 3.4. Between these two broad sectors of activities, the non-agriculture sector alone accounted for about 93 per cent of workers (ps+ss) - about 89 per cent in rural areas and 98 per cent in urban areas. It is seen from Statement 3.4 that, between AGEGC and non-agriculture sectors, male workers were mostly engaged in the non-agriculture sector - about 95 per cent in rural areas and 99 per cent in urban areas. Among female workers engaged in AGEGC and non-agriculture sectors, about 29 per cent in rural areas and 3

3.1.5 Changes in the proportion of workers in AGE GC and non-agriculture sectors during 2011-12: The WPR in usual status (ps+ss) and the proportion of workers engaged in AGE GC and non-agriculture sectors among workers in usual status (ps+ss), as obtained from NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds, are shown in Statement 3.5. It is seen that the proportion of workers engaged in non-agriculture and AGE GC activities increased by about 3 percentage points (from 48 per cent to 51 per cent) between 61st and 66th rounds which further increased by about 4 percentage points (from 51 per cent to 55 per cent) between 66th and 68th rounds. Between 61st and 68th rounds, the proportion of workers engaged in non-agriculture and AGE GC activities increased by about 6 percentage points (from 37 per cent to 43 per cent) for rural males, 4 percentage points (from 31 per cent to 35 per cent) for rural females, 5 percentage points (from 87 per cent to 92 per cent) for urban females and remained almost unchanged for urban males.

Statement 3.5: WPR (per 1000) in usual status (ps+ss) and proportion (per 1000) of workers engaged in AGE GC and non-agriculture sectors among workers in usual status (ps+ss) during NSS 61 st (2004-05), 66 th (2009-10) and 68 th (2011-12) rounds

3.2 Employment in Informal Sector

3.2.1 Informal sector enterprises: According to the 15th ICLS conceptual framework (Chapter 2, Annexure II), unincorporated enterprises owned by households, (i.e., *proprietary* and *partnership* enterprises including the informal producers' cooperatives) are largely considered as *informal sector* enterprises.

3.2.1.1 In the survey, for persons usually employed in AGE GC and non-agriculture sectors, information was collected regarding the types of enterprises in which they worked. Information on ‘type of enterprise’ was recorded in terms of nine categories viz. (i) *proprietary male*, (ii) *proprietary female*, (iii) *partnership with members from same household*, (iv) *partnership with members from different households*, (v) *Government/public sector*, (vi) *Public/private limited company*, (vii) *Co-operative societies/trust/other non profit institutions*, (viii) *employer’s households* and (xi) *others*. In the survey, ‘co-operative societies/trust/other non-profit institutions’ was specified as one of the categories for collecting information in respect of ‘type of enterprise’ but no distinction was made about whether these were formal or informal. As informal producers’ cooperatives could not be identified separately, workers engaged in enterprise type ‘co-operative societies/ trusts / other NPIs’ have been excluded from the coverage of *informal sector*. For collecting information on type of enterprise in which the employed persons worked, one category was also specified as ‘*employer’s households*’ which comprised private households employing persons for producing goods and services for household consumption. As per the conceptual framework of 15th ICLS, the enterprise type ‘*employer’s households*’ is not covered in the *informal sector*, although jobs in this type of enterprise could be informal or formal. In this report, workers engaged in the enterprise type ‘*employer’s households*’ have been excluded from the coverage of workers in the *informal sector*. However, estimates for some characteristics have been provided separately for the enterprise type ‘*employer’s households*’. Considering these aspects, for the purpose of the report, only *proprietary* and *partnership* enterprises have been considered as *informal sector* enterprises. For discussion in this chapter, unless otherwise mentioned, *informal sector* enterprises will mean *proprietary* and *partnership* type enterprises within the non-agriculture and AGE GC sectors.

3.2.2 Share of employment in enterprise type ‘co-operative societies/trust/other non-profit institutions’ during 2011-12:

Statement 3.6: Proportion (per 1000) of workers engaged in enterprise type ‘co-operative societies/trust/other non-profit institutions’ among workers (ps+ss) of AGE GC and non-agriculture sectors during 2011-12

category of workers	all-India		
	rural	urban	rural + urban
(1)	(2)	(3)	(4)
male	8	10	9
female	11	25	16
person	9	13	11

AGE GC and non-agriculture sectors: Industry groups/divisions 014, 016, 017, 02-99 of NIC-2008.

Statement 3.6 presents the proportion of workers engaged in enterprise type ‘co-operative societies/trust/other non-profit institutions’ among all workers in usual status (ps+ss) of AGE GC and non-agriculture sectors in India during 2011-12. It is seen from Statement 3.6 that only about 1 per cent of the workers in the non-agriculture and AGE GC sectors were engaged in the

enterprise type ‘co-operative societies/trust/ other non-profit institutions’ – the proportion was about 1 per cent each for rural males, rural females, urban males and about 3 per cent for urban females.

3.2.3 Share of employment in enterprise type 'employer's households' during 2011-12: Statement 3.7 presents the proportion of workers engaged in enterprise type 'employer's

Statement 3.7: Proportion (per 1000) of workers engaged in enterprise type 'employer's households' among workers (ps+ss) of AGEKC and non-agriculture sectors during 2011-12

category of workers	rural	urban	all-India rural + urban

households' among all workers in usual status (ps+ss) of AGEKC and non-agriculture sectors in India during 2011-12. It is seen from Statement 3.7 that about 2 per cent of the workers in the non-agriculture and AGEKC sectors were engaged in the enterprise type 'employer's households' – the proportion was about 1 per cent for males and about 4 per cent for females. Among workers engaged in the non-agriculture and AGEKC sectors, the proportion of

workers in 'employer's households' was the highest for urban females (about 9 per cent).

3.2.4 Share of informal sector in the employment of AGEKC and non-agriculture sectors during 2011-12: Among workers in usual status (ps+ss) in the AGEKC and non-agriculture sectors, the proportion of workers engaged in proprietary and partnership (P & P) enterprises, as obtained from NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds, have been presented at the all-India level in Statement 3.8. As stated earlier, *proprietary* and *partnership* enterprises together has been considered as the *informal sector* enterprises for the purpose of this report. The Statement 3.8 shows that a high proportion of AGEKC and non-agriculture sector workers, in both the rural and urban areas, work in the *informal sector*. As per the survey estimates of NSS 68th round, among workers in the AGEKC and non-agriculture sectors, about 72 per cent were employed in the *informal sector*- it was 75 per cent in the rural areas and 69 per cent in the urban areas. This proportion was higher for males (73 per cent) than females (69 per cent) – it was 76 per cent for rural males, 73 per cent for rural females, 70 per cent for urban males and 64 per cent for urban females.

3.2.4.1 Changes in the share of informal sector in the employment of AGEKC and non-agriculture sectors between 2004-05 and 2011-12: Statement 3.8 shows that the proportion of workers in the *informal sector* declined considerably between 2004-05 and 2011-12. At the all-India level, nearly 78 per cent of the workers (ps+ss) in AGEKC and non-agriculture sectors were employed in the *informal sector* in 2004-05, while the proportion was about 71 per cent in 2009-10 and about 72 per cent in 2011-12. Between 2004-05 and 2011-12, while the overall decline in the share of employment in the *informal sector* was about 5 percentage points in India - the decline was about 6 percentage points in the rural areas and 3 percentage points in the urban areas. The decline for males was about 3 percentage points and that for females was about 11 percentage points. During this period, the decline was the highest for rural females (about 14 percentage points). The decline for rural males, urban males and urban females was about 3 percentage points, 4 percentage points and 2 percentage points, respectively.

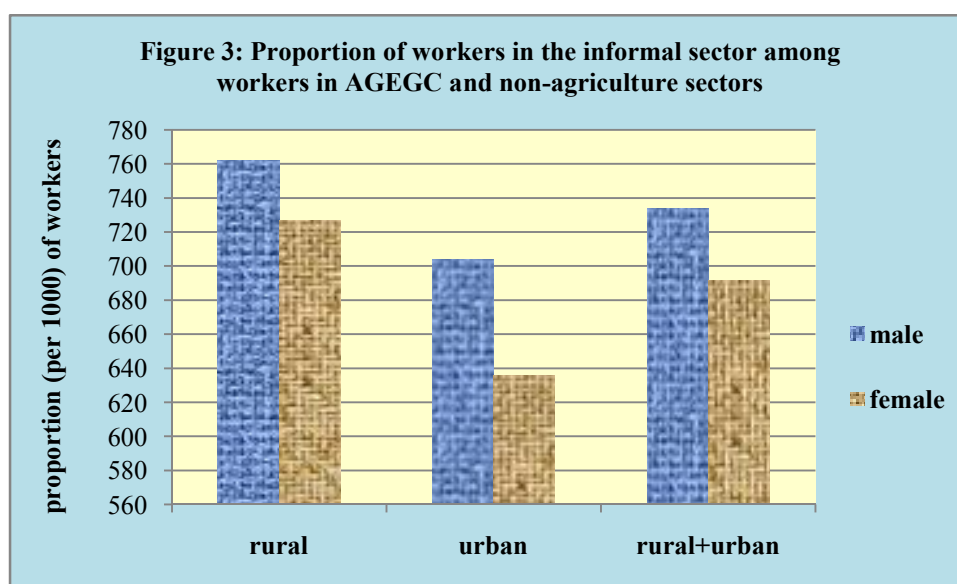

Statement 3.8: Proportion (per 1000) of workers engaged in *proprietary* and *partnership* (P & P) enterprises among workers (ps+ss) engaged in AGE GC and non-agriculture sectors during NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds

AGE GC and non-agriculture sectors: Industry groups/ divisions 014, 016, 017, 02-99 of NIC-2008.

3.2.4.1.1 From Statement 3.8, it is observed that among the four types of *informal* sector enterprises viz. *proprietary male*, *proprietary female*, *partnership with owners from the same household* and *partnership with owners from different households*, the main contributor in the decline of the share of employment in the *informal sector* between 2004-05 and 2011-12 was the '*proprietary male enterprises*'. During this period, the decline in the proportion of workers engaged in *proprietary male enterprises* was about 2 percentage points for rural males, 14 percentage points for rural females, 2 percentage points for urban males and 4 percentage points for urban females as against the overall decline in the share of employment in the *informal sector* of about 3 percentage points for rural males, 14 percentage points for rural females, 4 percentage points for urban males and 2 percentage points for urban females.

3.2.4.1.2 Statement 3.8.1 presents the proportion of workers engaged in the informal sector among workers (ps+ss) of AGEKC and non-agriculture sectors for different categories of persons of each State and UT. Figure 3 gives a diagrammatic presentation of the share of employment in the informal sector among workers in usual status (ps+ss) in AGEKC and non-agriculture sectors.

3.2.5 *Distribution of workers in the informal sector by status in employment in 2011-12:* After having an idea regarding the size of employment in the *informal sector*, it may be of interest to see the distribution of informal sector workers by different statuses of their employment viz. *self-employed* (activity status codes: 11, 12, 21), *regular wage/ salaried employees* (activity status code: 31) and *casual labourers engaged in works other than public works* (activity status code: 51). Statement 3.9 presents the distribution of informal sector workers and all workers engaged in AGE GC and non-agriculture sectors by different statuses of employment.

Statement 3.9: Per 1000 distribution of workers (ps+ss) in AGE GC and non-agriculture sectors engaged in *informal sector* (P & P) enterprises and 'all' types of enterprises by status in employment during 2011-12

1. Status in employment (code): self-employment - 11, 12, 21; regular wage/ salaried employees - 31; casual labour in public works - 41; casual labour in works other than public works - 51.

2. AGE GC and non-agriculture sectors: Industry groups/ divisions 014, 016, 017, 02-99 of NIC-2008.

Statement 3.9 shows that, as compared to the overall structure of employment in AGE GC and non-agriculture sectors, the share of self-employment was considerably higher and the share of regular wage/salaried employment was considerably lower in the employment of the *informal sector*. Among workers in the *informal sector*, about 57 per cent in rural areas and about 58 per cent in urban areas were self-employed. The share of self-employment in the employment of *informal sector* was nearly 50 per cent for rural males, 77 per cent for rural females, 56 per cent for urban males, 66 per cent for urban females, while the share of self-employment in the overall employment of AGE GC and non-agriculture sectors was about 39 per cent for rural males, 57 per cent for rural females, 40 per cent for urban males, 43 per cent for urban females.

The share of regular wage/salaried employment in the employment of the *informal sector* was about 13 per cent for rural males, 6 per cent for rural females, 28 per cent for urban males, 22 per cent for urban females, while the corresponding share in the overall employment of AGE GC and non-agriculture sectors was about 23 per cent for rural males, 15 per cent for rural females, 45 per cent for urban males, 46 per cent for urban females.

3.2.6 Share of informal sector in the employment of AGE GC and non-agriculture sectors for different statuses in employment during 2011-12: Statement 3.10 presents the proportion of workers in the *informal sector* among workers in usual status (ps+ss) engaged in AGE GC and non-agriculture sectors for different statuses in employment as obtained from the present survey.

Statement 3.10: Proportion (per 1000) of workers in the *informal sector* (P & P) among workers (ps+ss) engaged in AGE GC and non-agriculture sectors for different statuses in employment during 2011-12

1. Status in employment (code): self-employed - 11, 12, 21; regular wage/ salaried employees – 31; casual labour in public works - 41; casual labour in works other than public works - 51.

2. Industry groups/ divisions (NIC-2008): AGE GC: 014, 016, 017, 02, 03; non-agriculture: 05-99; AGE GC and non-agriculture: 014, 016, 017, 02-99.

3. Casual workers engaged in public works (status code 41), by definition, are outside the coverage of informal sector.

The statement shows that, among workers in AGE GC and non-agriculture sectors, about 75 per cent in rural areas and 69 per cent in urban areas were employed in the *informal sector* – the proportion of worker employed in the *informal sector* was much higher among self-employed and casual labourers as compared to the regular wage/salaried employees. Among self-employed in AGE GC and non-agriculture sectors, about 97 per cent in rural areas and 98 per cent in urban areas reported to have worked in the *informal sector*. In AGE GC and non-agriculture sectors, a substantial proportion of casual labour was also employed in the *informal sector* – about 78 per cent in rural areas (78 per cent for males and 76 per cent for females) and 81 per cent in urban areas (83 per cent for males and 70 per cent for females). The proportion of regular wage/salaried workers employed in the *informal sector* was about 42 per cent in the rural areas and 40 per cent in the urban areas. The proportion of regular wage/salaried workers employed in the *informal sector* was higher for males than females – it was about 45 per cent for rural males as compared to 28 per cent for rural females and 43 per cent for urban males as compared to 30 per cent for urban females. Statement 3.10.1, placed at the end of this chapter, presents the proportion of AGE GC and non-agriculture sectors workers employed in the informal sector for different statuses in employment for each State and UT.

3.2.6.1 *Changes in the share of informal sector in the employment of AGE GC and non-agriculture sectors for different statuses in employment between 2004-05 and 2011-12:* Statement 3.11 presents the proportions of workers in the *informal sector* among workers in AGE GC and non-agriculture sectors for different statuses in employment during NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds. It is seen that, between 2004-05 and 2011-12, among the self-employed in AGE GC and non-agriculture sectors, the proportion of workers employed in the *informal sector* increased by about 1 percentage point in both rural and urban areas – the increase was about 2 percentage points for rural males and urban females and about 1 percentage point for rural females. During this period, among the regular wage/salaried employees in AGE GC and non-agriculture sectors, the proportion of workers employed in the *informal sector* increased by about 1 percentage point in rural areas and decreased by about 3 percentage points in urban areas, while the corresponding proportion among casual labourers decreased by about 2 percentage points in both rural and urban areas. During this period, the proportion of casual labourers employed in the *informal sector* increased by about 1 percentage point for urban females and decreased by about 3 percentage points for males in both rural and urban areas. Between 2004-05 and 2011-12, among the regular wage/salaried workers in AGE GC and non-agriculture sectors, the proportion employed in *informal sector* decreased by about 4 percentage points for urban males and increased by about 2 percentage points for females in both rural and urban areas.

Statement 3.11: Proportion (per 1000) of workers in the *informal sector* (P & P) among workers (ps+ss) in AGE GC and non-agriculture sectors for different statuses in employment during NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds

1. Status in employment (code): self-employed - 11, 12, 21; regular wage/ salaried employees – 31; casual labour in public works - 41; casual labour in works other than public works - 51.

2. AGE GC and non-agriculture sectors: Industry groups/ divisions 014, 016, 017, 02-99 of NIC-2008.

3.2.7 Distribution of workers in the informal sector by industry groups/sections of NIC-2008 during 2011-12: Statement 3.12 presents, at the all-India level, the distribution of *informal sector* workers and all workers (ps+ss) in AGE GC and non-agriculture sectors by different broad industry groups/sections of NIC 2008. The statement shows that, as compared to the share of all workers in AGE GC and non-agriculture sectors, the share of *informal sector* workers was distinctly lower for the industries *education* (section P) and *construction* (section F) in rural areas and for *education* (section P), *information and communication* (section J) and *financial and insurance activities* (Section K) in urban areas. It is seen from Statement 3.12 that, among workers in the AGE GC and non-agriculture sectors, about 89 per cent in the rural areas and 98 per cent in the urban areas were employed in the non-agriculture sector - the proportion was about 95 per cent for rural males, 71 per cent for rural females, 99 per cent for urban males and 97 per cent for urban females. Among workers in the *informal sector*, about 86 per cent in rural areas and 98 per cent in urban areas were employed in the non-agriculture sector - the proportion was about 94 per cent for rural males, 63 per cent for rural females, 99 per cent for urban males and 95 per cent for urban females. Statement 3.12 shows that a significant proportion of female workers in the rural areas were employed in the AGE GC sector - about 29 per cent of the workers of AGE GC and non-agriculture sectors and about 37 per cent of the workers of the *informal sector*.

3.2.7.1 Statement 3.12 shows that the industries *manufacturing* (section C), *construction* (section F), *wholesale and retail trade* (section G) and *transportation and storage* (section H) were the main provider of employment in the *AGEGC and non-agriculture sectors* as well as in the *informal sector*. In the rural areas, these four industries together provided employment for nearly 70 per cent of the workers in the *AGEGC and non-agriculture sectors* (75 per cent for males and 54 per cent for females) and 73 per cent of the workers in the *informal sector* (80 per cent for males and 53 per cent for females). In the urban areas, these industries provided employment for nearly 63 per cent of the workers in the *AGEGC and non-agriculture sectors* (67 per cent for males and 47 per cent for females) and 75 per cent of the workers in the *informal sector* (77 per cent for males and 66 per cent for females). The industry which provided maximum employment in the *informal sector* was *construction* for rural males (about 29 per cent), *AGEGC* for rural females (about 37 per cent), *wholesale and retail trade* for urban males (about 31 per cent) and *manufacturing* for urban females (about 44 per cent). For rural females, a substantial proportion of workers of the *informal sector* were also employed in the *manufacturing* industry (about 36 per cent) – *AGEGC* and *manufacturing* together provided nearly 74 per cent of the employment of rural females in the *informal sector*.

Statement 3.12: Per 1000 distribution of workers (ps+ss) in AGE GC and non-agriculture sectors engaged in *informal sector (P & P)* enterprises and 'all' types of enterprises by industry groups/sections of NIC-2008 during 2011-12

1. Description of sections B to U (NIC 2008) - B: Mining and Quarrying; C: Manufacturing; D: Electricity, Gas, steam and air conditioning supply; E: Water supply, sewerage, waste management and remediation activities; F: Construction; G: Wholesale and retail trades; repair of motor vehicles, motor cycles; H: Transportation and storage; I: Accommodation and food service activities; J: Information and communication; K: Financial and insurance activities; L: Real estate activities; M: Professional, scientific and technical activities; N: Administrative and support service activities; O: Public administration and defence, compulsory social security; P: Education; Q: Human health and social work activities; R: Arts, entertainment and recreation; S: Other service activities; T: Activities of households as employers; undifferentiated goods and services producing activities of households for own use; U: Activities of extraterritorial organizations and bodies.

2. Industry groups/ divisions (NIC-2008): AGE GC: 014, 016, 017, 02, 03; non-agriculture: 05-99.

3.2.8 *Share of informal sector in the employment of different broad industry groups/sections of NIC-2008 during 2011-12:* Statement 3.13 presents, at the all-India level, the proportion of workers of different industry groups/sections employed in the informal sector. The statement shows that, during 2011-12, among workers in AGE GC and non-agriculture sectors, about 72 per cent were employed in the *informal sector* – it was about 75 per cent in the rural area and 69 per cent in the urban area. It is seen that nearly 92 per cent of the workers engaged in AGE GC in both rural and urban areas belonged to the informal sector and the proportion was higher for females than males - it was 94 per cent for rural females as compared to 89 per cent for rural males and 97 per cent for urban females as compared to 89 per cent for urban males. Among workers in the non-agriculture sector, about 73 per cent in rural areas and 69 per cent in urban areas reported to have worked in the informal sector – the proportion was higher for males than females - it was 76 per cent for rural males as compared to 64 per cent for rural females and 70 per cent for urban males as compared to 63 per cent for urban females.

3.2.8.1 It is seen from Statement 3.13 that, in the rural areas, among male workers of different industries, the proportion employed in the *informal sector* was more than 90 per cent for the industries *Real estate activities* (section L), *Wholesale and retail trades; repair of motor vehicles, motor cycles* (section G), *Accommodation and food service activities* (Section I), *Other service activities* (Section S) and was less than 30 per cent for the industries *Education* (Section P), *Electricity, Gas, steam and air conditioning supply* (Section D). Among rural female workers of different industries, the proportion employed in the *informal sector* was more than 90 per cent for the industries *Real estate activities* (section L), *Wholesale and retail trades; repair of motor vehicles, motor cycles* (section G), *Manufacturing* (Section C), *Arts, entertainment and recreation* (Section R), *Mining and Quarrying* (Section B) and was less than 30 per cent for the industries *Human health and social work activities* (Section Q), *Education* (Section P), *Financial and insurance activities* (Section K), *Electricity, Gas, steam and air conditioning supply* (Section D).

3.2.8.2 In the urban areas, among male workers of different industries, the proportion employed in the *informal sector* was more than 90 per cent for the industries *Wholesale and retail trades; repair of motor vehicles, motor cycles* (section G), *Accommodation and food service activities* (Section I) and was less than 30 per cent for the industries *Financial and insurance activities* (Section K), *Electricity, Gas, steam and air conditioning supply* (Section D). Among urban female workers of different industries, the proportion employed in the *informal sector* was more than 90 per cent for the industries *Accommodation and food service activities* (Section I), *Wholesale and retail trades; repair of motor vehicles, motor cycles* (section G) and was less than 30 per cent for the industries *Financial and insurance activities* (Section K), *Information and communication* (Section J), *Electricity, Gas, steam and air conditioning supply* (Section D). Statement 3.13.1 presents the proportion of workers in the *informal sector* among workers in usual status (ps+ss) engaged in different *industry groups/sections* at the States/UT level. Figure 4 gives a diagrammatic presentation of the share of *informal sector* in the employment of different industry groups/sections for both rural and urban areas.

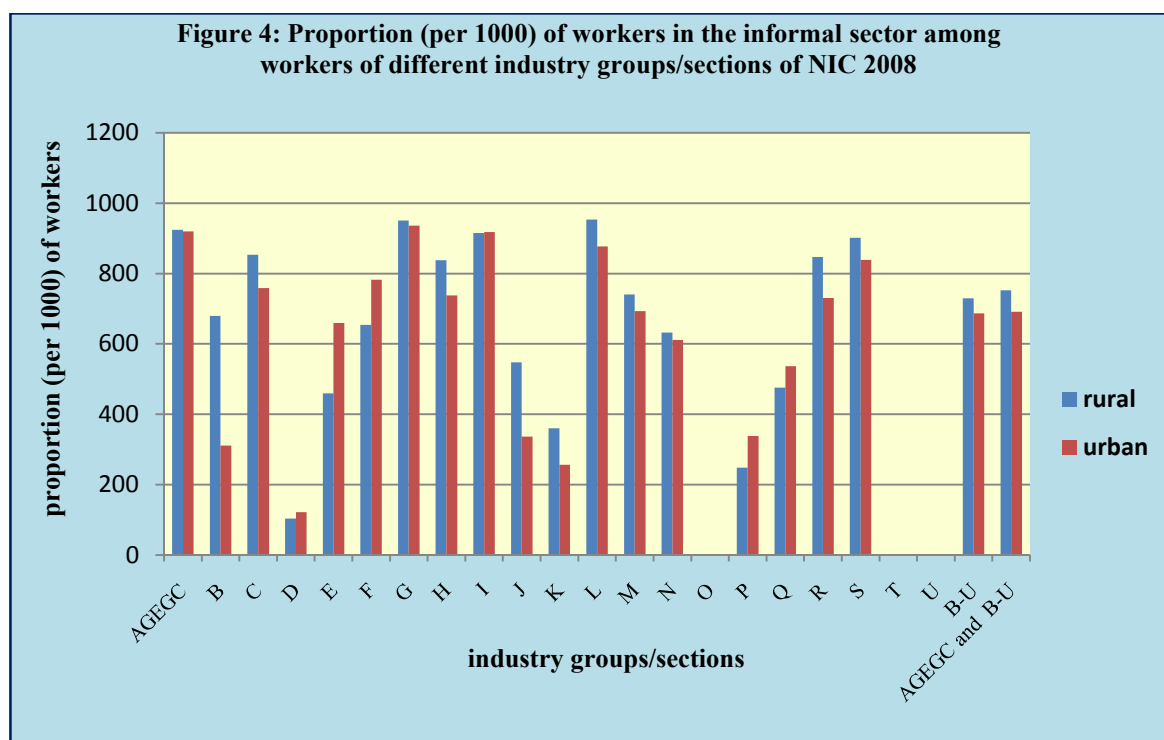

Statement 3.13: Proportion (per 1000) of workers in the *informal sector* (P & P) among workers (ps+ss) of different industry groups/sections during 2011-12

1. Description of sections B to U (NIC 2008) - B: Mining and Quarrying; C: Manufacturing; D: Electricity, Gas, steam and air conditioning supply; E: Water supply, sewerage, waste management and remediation activities; F: Construction; G: Wholesale and retail trades; repair of motor vehicles, motor cycles; H: Transportation and storage; I: Accommodation and food service activities; J: Information and communication; K: Financial and insurance activities; L: Real estate activities; M: Professional, scientific and technical activities; N: Administrative and support service activities; O: Public administration and defence, compulsory social security; P: Education; Q: Human health and social work activities; R: Arts, entertainment and recreation; S: Other service activities; T: Activities of households as employers; undifferentiated goods and services producing activities of households for own use; U: Activities of extraterritorial organizations and bodies.

2. By definition industry divisions O, T and U cannot be in the informal sector.

3. Industry groups/ divisions (NIC-2008): AGE GC: 014, 016, 017, 02, 03; non-agriculture: 05-99

3.2.8.3 Changes in the share of informal sector in the employment of AGECC and non-agriculture sectors between 2004-05 and 2011-12: Statement 3.14 presents, at the all-India level, the proportion of workers employed in the informal sector among workers in AGECC sector and non-agriculture sectors as obtained from NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds. It is seen from Statement 3.14 that, between 2004-05 and 2011-12, the share of the *informal sector* in the employment of AGECC and non-agriculture sector considered together decreased by about 3 percentage points for rural males, 4 percentage points for urban males, 14 percentage points for rural females and 2 percentage points for urban females. During this period, decline in the share of the *informal sector* happened for both rural males and rural females employed in the AGECC sector as well as in the non-agriculture sector. In the urban areas, the share of the *informal sector* increased for both males and females employed in the AGECC sector while it decreased for both males and females employed in the non-agriculture sector. Among workers engaged in AGECC sector, the proportion employed in the *informal sector* reduced by about 2 percentage points for rural males and 3 percentage points for rural females while it increased by about 2 percentage points for both males and females in the urban areas. Between 2004-05 and 2011-12, among workers engaged in the non-agriculture sector, the proportion employed in the *informal sector* reduced from 78 per cent to 76 per cent for rural males, from 77 per cent to 64 per cent for rural females, from 74 per cent to 70 per cent for urban males and from 64 per cent to 63 per cent for urban females.

Statement 3.14: Proportion (per 1000) of workers in the *informal sector* (P & P) among workers (ps+ss) in AGE GC and non-agriculture sectors during NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds

3.2.9 Distribution of workers by Location of Work Place during 2011-12: In the survey, information on 'location of work place' was collected for the member of the sample households usually employed in AGE GC and non-agriculture sectors. The different types of 'location of workplace' considered for the survey have been specified in para 2.20 of Chapter Two. Location of work place was recorded considering the location of the enterprise in which a person worked. Statement 3.15 presents the distribution of usual status (ps + ss) workers by location of their work place separately for the *informal sector* enterprises and 'all' enterprises' in AGE GC and non-agriculture sectors.

3.2.9.1 It is seen from Statement 3.15 that, among workers of AGE GC and non-agriculture sectors residing in rural areas, about 89 per cent had their work place in the rural areas itself – this proportion was 86 per cent for rural males and 95 per cent for rural females. Among workers in AGE GC and non-agriculture sectors residing in urban areas, about 89 per cent also reported their work place in the urban areas - this proportion was 88 per cent for urban males and 94 per cent for urban females. The proportion of workers in the *informal sector* having their residence and work place both in rural areas was higher than the corresponding proportion for all workers in AGE GC and non-agriculture sectors but the proportion of workers in the *informal sector* having their residence and work place both in urban areas was lower than the corresponding proportion for all workers in AGE GC and non-agriculture sectors. Among workers in the *informal sector* residing in rural areas, about 90 per cent reported their work place in rural areas (87 per cent for rural males and 97 per cent for rural females), while among *informal sector* workers residing in urban areas, about 87 per cent reported their work place in urban areas (86 per cent for urban males and 93 per cent for urban females).

Statement 3.15: Per 1000 distribution of workers (ps+ss) **residing in rural areas** engaged in *informal sector* (P & P) and 'all' types of enterprises in AGE GC and non-agriculture sectors by **location of work place** during 2011-12

AGE GC and non-agriculture sectors: Industry groups/ divisions 014, 016, 017, 02-99 of NIC-2008.

3.2.9.2 Among workers in AGEHC and non-agriculture sectors, about 7 per cent (9 per cent for males and 3 per cent for females) residing in rural areas reported their workplace in urban areas and about 4 per cent (4 per cent for males and 3 per cent for females) residing in urban areas reported their workplace in rural areas. These proportions were almost of the same extent among workers in the *informal sector*. The proportion of workers with *no fixed work place* was higher in urban areas than in rural areas and was also higher for males than females. Among AGEHC and non-agriculture sector workers, about 4 per cent for rural males, 1 per cent for rural females, 8 per cent for urban males, 3 per cent for urban females had no fixed place of work. The corresponding proportions for workers in the *informal sector* were about 5 per cent, 1 per cent, 11 per cent and 4 per cent for rural males, rural females, urban males and urban females, respectively.

3.2.9.3 It is seen from Statement 3.15 that the workplaces for male workers were mainly (i) *employers enterprise/unit/office/shop but outside employer's dwelling*, (ii) *construction site*, (iii) *own enterprise/ unit/ office/shop but away from own dwelling* and (iv) *own dwelling unit*. Among AGEHC and non-agriculture sector workers, about 66 per cent of rural males worked in these types of enterprises located in rural areas and 76 per cent of urban males worked in these types of enterprises located in urban areas. The corresponding proportions for rural males and urban males employed in the *informal sector* were 63 per cent and 72 per cent, respectively. The workplaces for female workers were mainly (i) *own dwelling unit*, (ii) *structure attached to own dwelling unit*, (iii) *open area adjacent to own dwelling unit*, (iv) *detached structure adjacent to own dwelling unit* and (v) *employers enterprise/unit/office/shop but outside employer's dwelling*. Among AGEHC and non-agriculture sector workers, about 80 per cent of rural females worked in these types of enterprises located in rural areas and 70 per cent of urban females worked in these types of enterprises located in urban areas. The corresponding proportions for rural females and urban females employed in the *informal sector* were 80 per cent and 73 per cent, respectively.

3.2.10 *Share of workers in enterprises using electricity for production purposes:* An important input for raising productivity of workers is the use of electricity by the enterprises for production purposes. In the survey, for persons usually employed in AGEKC and non-agriculture sectors, information was collected regarding use of electricity for production of goods and services by the enterprises in which they worked. Statement 3.16 presents the proportions of workers engaged in enterprises that used electricity, separately for *manufacturing enterprises* in the *informal sector* as well as for all enterprises of the *manufacturing* sector. These figures are also presented for all enterprises in the *informal sector* as well as for all enterprises in the AGEKC and non-agriculture sectors. In the Statement the survey results of NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds are also given for comparison. The corresponding proportions for each State/UT are given in Statement 3.16.1. Figure 5 presents the proportion of workers employed in *manufacturing enterprises* that used electricity for production purposes as obtained from NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds.

Statement 3.16: Proportion (per 1000) of workers engaged in enterprises that used electricity among workers (ps+ss) of manufacturing enterprises and workers in AGEKC and non-agriculture sectors separately for P & P and 'all' enterprise types during NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds

1. P & P: proprietary and partnership enterprises

2. Manufacturing enterprises: Industry divisions 10-33 of NIC-2008

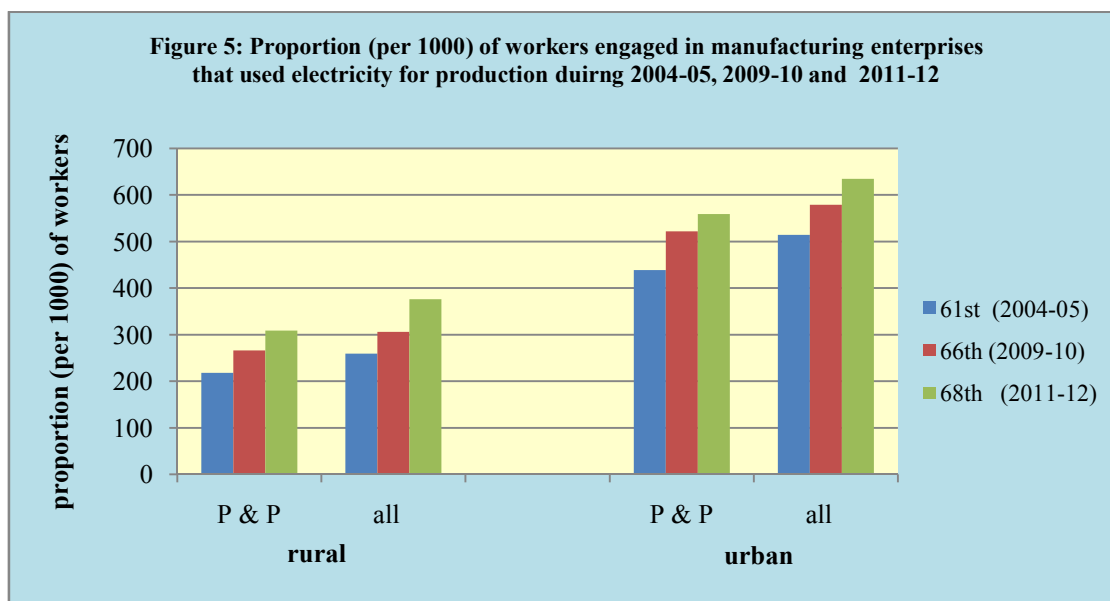

3. AGEKC and non-agriculture sectors: Industry groups/ divisions 014, 016, 017, 02-99 of NIC-2008.

3.2.10.1 *Share of workers in enterprises using electricity for production purposes during 2011-12:* It is seen from Statement 3.16 that, among workers of the manufacturing enterprises, about 38 per cent in rural areas and 64 per cent in urban areas were engaged in enterprises that used electricity for production purposes. The proportion of workers engaged in the manufacturing enterprises that used electricity for production purposes was higher for males than females – the proportion was 48 per cent for rural males, 19 per cent for rural females, 73 per cent for urban males and 35 per cent for urban females. As compared to all enterprises in the manufacturing sector, the proportion of workers engaged in enterprises that used electricity for production purposes was lower for the *informal sector* enterprises engaged in manufacturing activities. Among workers in the *informal sector* enterprises engaged in manufacturing activities, the proportion of workers employed in enterprises that used electricity for production purposes was 31 per cent in rural areas (39 per cent for males and 17 per cent for females) and 56 per cent in urban areas (66 per cent for males and 30 per cent for females). A significant difference is observed in the proportion of workers employed in *manufacturing* enterprises using electricity, when enterprises owned on a *partnership* basis are compared with those owned on *proprietary* basis. In rural areas, the proportion was 39 per cent for partnership enterprises and 30 per cent for proprietary enterprises, while in urban areas; it was 78 per cent for partnership enterprises and 54 per cent for proprietary enterprises.

3.2.10.2 Compared to the *manufacturing* enterprises, when all enterprises in AGEHC and non-agriculture sectors are considered, it is seen that a smaller proportion of workers were engaged in enterprises that used electricity for production purposes. Among workers in AGEHC and non-agriculture sectors, about 17 per cent in rural areas and 38 per cent in urban areas were engaged in enterprises that used electricity for production purposes. For the *informal sector*, the proportion of workers engaged in enterprises that used electricity for production purposes was about 16 per cent in rural areas (15 per cent for *proprietary* enterprises and 30 per cent for *partnership* enterprises) and 33 per cent in urban areas (32 per cent for *proprietary* enterprises and 50 per cent for *partnership* enterprises).

3.2.10.3 *Changes in the proportion of workers engaged in enterprises using electricity for production purposes between 2004-05 and 2011-12:* Statement 3.16 shows that, between 2004-05 and 2011-12, the proportion of workers employed in enterprises that used electricity for production purposes had increased for both *informal sector enterprises* (*proprietary* and *partnership*) and all types of enterprises in the *manufacturing* sector as well as in the entire AGEHC and non-agricultural sectors. For all enterprises in the *manufacturing* sector, the proportion increased from 26 per cent to 38 per cent in rural areas and from 51 per cent to 64 per cent in urban areas. For the *informal sector* enterprises in the *manufacturing* sector, the proportion increased from 22 per cent to 31 per cent in rural areas and from 44 per cent to 56 per cent in urban areas during this period. Between 2004-05 and 2011-12, among all workers in the AGEHC and non-agriculture sectors, the proportion of workers engaged in enterprises that used electricity increased from 11 per cent to 17 per cent in rural areas and from 23 per cent to 38 per cent in urban areas. During this period, among workers in the *informal sector*, the proportion

of workers engaged in enterprises that used electricity increased from 9 per cent to 16 per cent in rural areas and from 20 per cent to 33 per cent in urban areas.

3.2.11 Share of workers in smaller enterprises: In the survey, for persons usually employed in AGEHC and non-agriculture sectors, information was collected regarding the number of workers of the enterprises where they worked. Information on number of workers in the enterprise was recorded in terms of four categories viz. *less than 6*; *6 and above but less than 10*; *10 and above but less than 20*; *20 and above*. For the purpose of this report, the enterprises with less than 6 workers are termed *smaller enterprises*. Statement 3.17 shows, the proportion of workers engaged in *smaller enterprises*, separately for workers employed in the informal sector enterprises and all enterprises in AGEHC and non-agriculture sectors. In the Statement the survey results of NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds are also given for comparison. Among workers of the *informal sector* and all workers of AGEHC and non-agriculture sectors, the proportions of workers engaged in *smaller enterprises* are presented for each State/UT in Statement 3.17.1. Figure 6 gives a diagrammatic presentation of the proportions of workers employed in *smaller enterprises* among workers in *informal sector* as well as among all workers in AGEHC and non-agriculture sectors as obtained from NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds.

3.2.11.1 Share of workers in smaller enterprises during 2011-12: The survey results of NSS 68th round show that a higher proportion of *informal sector* workers were engaged in *smaller enterprises* as compared to all workers in AGEHC and non-agriculture sectors. The proportion of workers engaged in *smaller enterprises* was higher for rural areas than urban areas. In rural areas, about 75 per cent of the *informal sector* workers were engaged in *smaller enterprises* as compared to 63 per cent of all workers in AGEHC and non-agriculture sectors, while in urban areas, about 70 per cent of the *informal sector* workers were engaged in *smaller enterprises* as compared to 54 per cent of all workers in AGEHC

and non-agriculture sectors. It is also seen from Statement 3.17 that compared to male workers a higher proportion of female workers had worked in *smaller enterprises* - among workers in AGE GC and non-agriculture sectors, the proportion was 68 per cent for rural females compared to 61 per cent for rural males and 61 per cent for urban females compared to 53 per cent for urban males, and simultaneously, among workers in the *informal sector*, the proportion was 83 per cent for rural females compared to 72 per cent for rural males and 75 per cent for urban females compared to 69 per cent for urban males. The proportion of workers employed in *smaller enterprises* was much higher for proprietary enterprises (76 per cent in rural areas and 72 per cent in urban areas) compared to the partnership enterprises (59 per cent in rural areas and 42 per cent in urban areas).

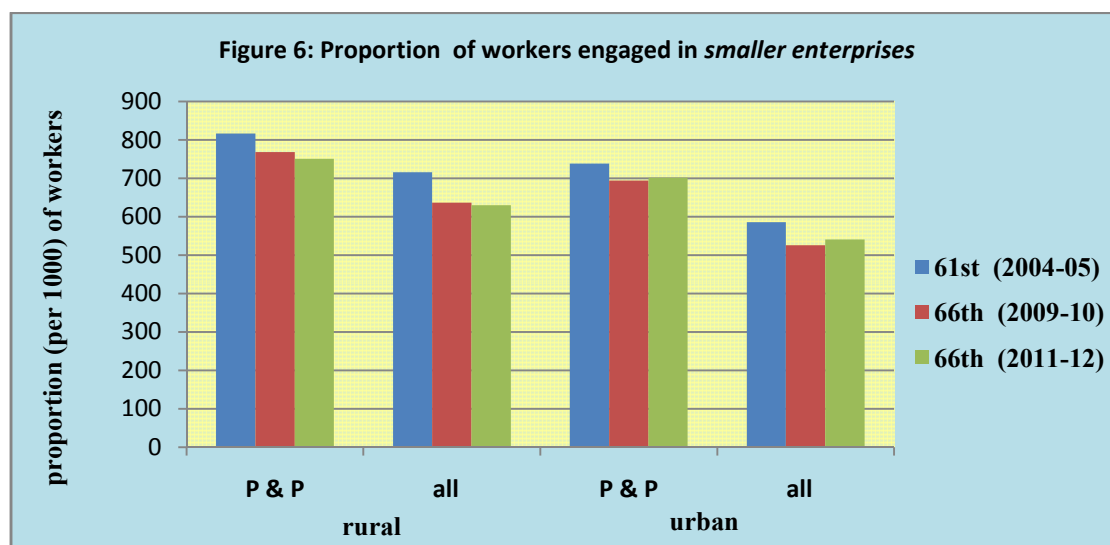

Statement 3.17: Proportion (per 1000) of workers engaged in enterprises with less than 6 workers among the workers (ps+ss) in AGE GC and non-agriculture sectors separately for 'P & P' enterprises and 'all' enterprise types during NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds

1. P & P: proprietary and partnership enterprises

2. AGE GC and non-agriculture sectors: Industry groups/ divisions 014, 016, 017, 02-99 of NIC-2008.

3.2.11.2 *Changes in the share of workers in smaller enterprises between 2004-05 and 2011-12:* It is seen from Statement 3.17 that, between 2004-05 and 2011-12, the proportion of workers in smaller enterprises decreased in both rural and urban areas. The decline in the proportion happened for *informal sector* workers as well as for all workers in AGE GC and non-agriculture sectors. During the period 2004-05 and 2011-12, among all workers in AGE GC and non-agriculture sectors, the proportion of workers engaged in *smaller enterprises* decreased from 72 per cent to 63 per cent in rural areas and from 59 per cent to 54 per cent in urban areas. Among workers of the *informal sector*, the proportion engaged in *smaller enterprises* decreased from 82 per cent in 2004-05 to 75 per cent in 2011-12 in rural areas and from 74 per cent in 2004-05 to 70 per cent in 2011-12 in urban areas. During this period, for the proprietary enterprises, the proportion of workers engaged in *smaller enterprises* decreased from 83 per cent to 76 per cent in rural areas and from 76 per cent to 72 per cent in urban areas, while the proportion for partnership enterprises increased from 54 per cent to 59 per cent in rural areas and from 39 per cent to 42 per cent in urban areas.

3.2.12 Wage and salary earnings for the employees engaged in AGE GC and non-agriculture sectors during 2011-12: In the survey, information on wage and salary earnings was collected only for regular wage/salaried employees and casual labourers in the current daily status, while particulars of the enterprises were collected only for the workers in the usual status. The employment status of a person may differ in the usual status and current daily status. Therefore, wage and salary earnings for the usual status regular wage/salaried employees and casual labourers (activity status codes: 31, 41, 51) employed in different types of enterprises cannot be obtained directly. However, an attempt was made to calculate the wage and salary earnings only for those regular wage/salaried employees and casual labourers in the usual status who had the same current daily activity status. It was assumed that these employees were engaged in the same enterprise type in the current daily status which was reported by them in their usual status. Statement 3.18 presents the average wage and salary earnings per day for the regular wage/salaried employees and casual labourers who had the same activity status in the usual status approach and current daily status approach. In the statement, estimates are given for regular wage/salaried employees and casual labourers engaged in the informal sector enterprises, employer's households and all types of enterprises in the AGE GC and non-agriculture sectors. The corresponding results at the State/UT level are given in Statement 3.18.1.

3.2.12.1 Earnings of regular wage/salaried employees: It is seen from Statement 3.18 that, at the all-India level, the average daily earnings of a regular wage/salaried employee in the AGE GC and non-agriculture sectors was about Rs. 401. It was about Rs. 225 for those employed in *informal sector* and about Rs. 127 for those employed in the *employer's households*. It is seen that the average salary earnings of a regular wage/salaried employee was higher for males than females and was higher in the urban areas than in the rural areas, irrespective of the types of enterprise in which they worked.

For the regular wage/salaried employees in the *informal sector*, the average salary earnings per day was about Rs. 258 for urban males compared to Rs. 189 for rural males and about Rs. 194 for urban females compared to Rs. 121 for rural females. For the regular wage/salaried employees working in the *employer's households*, the average salary earnings per day was about Rs. 208 for urban males compared to Rs. 146 for rural males and about Rs. 103 for urban females compared to only Rs. 60 for rural females. The overall female-male wage ratio for regular wage/salaried employment in the *informal sector* was 0.74 - it was 0.64 in rural areas and 0.75 in urban areas. For regular wage/salaried employment in the *employer's households*, the ratio was 0.49 at the all-India level - 0.41 in rural areas and 0.49 in urban areas.

Statement 3.18: Average wage and salary earnings (Rs.) per day received by employees according to usual status (ps+ss) engaged in AGE GC and non-agriculture sectors who had same status in employment in current daily status during 2011-12

1. P & P: proprietary and partnership enterprises

2. empl. hhs.: employer's households

3. AGE GC and non-agriculture sectors: Industry groups/ divisions 014, 016, 017, 02-99 of NIC-2008.

3.2.12.2 *Earnings of casual labourers*: Statement 3.18 shows that, at the all-India level, the average daily wages of a casual labourer in the AGE GC and non-agriculture sectors was about Rs. 155 - it was about Rs. 159 for those employed in *informal sector* and about Rs. 116 for those employed in the *employer's households*. In the *informal sector* as well as in the entire AGE GC and non-agriculture sectors, male casual labourers in urban areas earned a little higher wages than those in rural areas, while a reverse situation was observed for females.

In the AGE GC and non-agriculture sectors as a whole, wage rate (per day) for casual labourers was about Rs. 168 for urban males compared to Rs. 159 for rural males and about Rs. 108 for urban females compared to Rs. 111 for rural females. In the *informal sector*, the daily wage rate of a casual labourer was about Rs. 163 for rural males, Rs. 116 for rural females, Rs. 169 for urban males and Rs. 113 for urban females. Among casual labourers engaged in enterprise types *proprietary and partnership, employer's households and all enterprises* in AGE GC and non-agriculture sectors, the daily wage rate was the highest for the urban males working in *employer's households*. The daily wage rates for the casual labourers working in the *employer's households* was Rs. 140 for rural males, Rs. 70 for rural females, Rs. 186 for urban males and Rs. 101 for urban females. The overall female-male wage ratio for casual labourers employment in the *informal sector* was 0.70 - it was 0.71 in rural areas and 0.67 in urban areas. For casual labourers in the *employer's households*, the female-male wage ratio was 0.59 - it was 0.50 in rural areas and 0.54 in urban areas.

3.3 Conditions of Employment

3.3.1 It has already been stated in Chapter One that the estimates of workers by characteristics of enterprises and conditions of their employment present a picture of informal employment in the country. In order to get an idea about the volume of informal employment in the country, information on different conditions of employment of the employees (i.e., regular wage/salaried employees and casual labourers) in the usual status like, whether there was any written job contract in the employment, whether employees were eligible for the paid leave, whether employees were covered under social security benefits, etc., was collected in the survey for those employed in AGE GC and non-agriculture sectors. In this section estimates of regular wage/ salaried workers and casual labourers subject to various conditions of employment have been studied.

3.3.1.1 The number of sample regular wage/salaried employees and casual labourers engaged in the AGE GC and non-agriculture sector, as netted in the survey, has been presented in Statement 3.0 (para. 3.0.4). It is evident from the statement that the sample number of regular wage/salaried employees and casual labourers engaged in the AGE GC sector, even at the all-India level, is too small and therefore, while using these estimates, the users are to be careful regarding the number of sample employees in this sector.

3.3.2 *Employees with no written job contract*: In the survey, for the regular wage/salaried employees and casual labourers engaged in the AGE GC and non-agriculture sectors, information was collected on whether there was any written contract or agreement with the employer regarding the duration of the job they were engaged in. Information on *type of job contract* was recorded in terms of four categories viz. *no written job contract; written job contract for 1 year or less; written job contract for more than 1 year to 3 years and written job contract for more than 3 years*.

Statement 3.19 presents survey findings regarding the proportion of regular wage/salaried employees and casual labourers in AGE GC and non-agriculture sectors who had no written job contract with the employer. The corresponding proportions obtained from NSS 61st (2004-05), 66th (2009-10) rounds have also been given in the statement for comparison. The survey results of NSS 68th round regarding these proportions at State/UT level are presented in Statement 3.19.1. As obtained from NSS 61st, 66th and 68th round surveys, a diagrammatic presentation of the proportion of regular wage/salaried employees in the AGE GC and non-agriculture sectors without having written job contract is given in Figure 7.

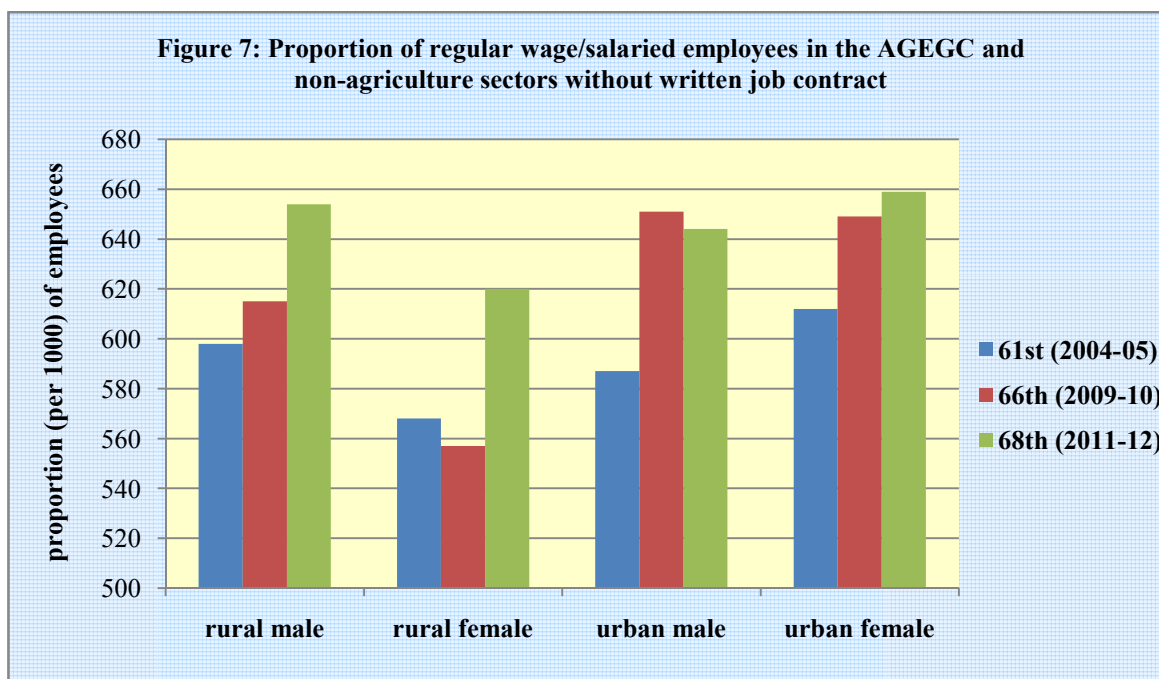

3.3.2.1 Proportion of employees with no written job contract during 2011-12: It is seen from Statement 3.19 that, during 2011-12, among the employees in the AGE GC and non-agriculture sectors, about 79 per cent had no written job contract - the proportion was about 85 per cent in rural areas (86 per cent for males and 81 per cent for females) and about 73 per cent in the urban areas (73 per cent for males and 72 per cent for females). As expected, the proportion of workers without written job contract was higher for casual labourers as compared to the regular wage/salaried employees. In the AGE GC and non-agriculture sector, about 97 per cent of the casual labourers as compared to about 65 per cent of regular wage/salaried employees had no written job contract. Among casual labourers in the AGE GC and non-agriculture sectors, the proportion without written job contract was higher for males than females - the proportions were 98 per cent and 93 per cent for males and females, respectively. Gender differentials among regular wage/salaried employees under this condition of employment was found to be marginal - the proportion of regular wage/salaried employees in the AGE GC and non-agriculture sector without written job contract being 65 per cent for both males and females.

3.3.2.2 Changes in proportion of employees with no written job contract during 2004-05 and 2011-12: It is seen from Statement 3.19 that the proportion of employees without written job contract has increased between 2004-05 and 2011-12 for males and females of both rural and urban areas. In the AGE GC and non-agriculture sector, the proportion of employees without written job contract increased from 74 per cent in 2004-05 to 79 per cent in 2011-12. During this period, this proportion increased from 79 per cent to 86 per cent for rural males, from 78 per cent to 81 per cent for rural females, from 68 per cent to 73 per cent for urban males and from 69 per cent to 72 per cent for urban females. Between 2004-05 and 2011-12, the proportion of casual labourers without written job contract remained almost at the same level but it increased for regular wage/salaried employees. In the AGE GC and non-agriculture sector, the proportion of regular wage/salaried employees without written job contract increased from 59 per cent in 2004-05 to 65 per cent in 2011-12. During this period, this proportion increased from 60 per cent to 65 per cent for rural males, from 57 per cent to 62 per cent for rural females, from 59 per cent to 64 per cent for urban males and from 61 per cent to 66 per cent for urban females.

Statement 3.19: Proportion (per 1000) of employees who had no written job contract among employees (ps+ss) in AGEGC and non-agriculture sectors for different statuses in employment during NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds

Industry groups/ divisions (NIC-2008): AGEGC: 014, 016, 017, 02, 03; non-agriculture:05-99.

3.3.2.3 *Distribution of employees without written job contract by industry groups/sections of NIC-2008*: The Statement 3.20 presents, at the all-India level, the distributions of employees without having written job contract and those for all employees in AGEGC and non-agriculture sectors by industry groups/sections of NIC-2008. The statement shows that, as compared to the proportion of all employees, the proportion of employees without written job contract was higher for the industries AGEGC, *manufacturing* (section C), *construction* (section F), *wholesale and retail trade* (section G), *accommodation and food service activities* (section I), *other service activities* (section S) and *activities of households as employers*; *undifferentiated goods and services producing activities of households for own use* (section T). In the AGEGC and non-agriculture sectors altogether, among employees without having written job contract, about 76 per cent in the rural areas belonged to either the *manufacturing* sector (section C) or the *construction* sector (section F) or the *transportation and storage* sector (section H). In the rural areas, the proportion of all employees in these three sectors altogether was about 69 per cent. In the urban areas, among employees without having written job contract, about 65 per cent belonged to either the *manufacturing* sector (section C) or the *construction* sector (section F) or the *wholesale and retail trade* sector (section G) or the *transportation and storage* sector (section H). The proportion of employees in these four sectors altogether was about 55 per cent in the urban areas. Among rural females, a large proportion of employees without having written job contract were also in *education* (section P) (about 9 per cent), AGEGC (about 8 per cent) and *activities of households as employers etc.* (section T) (about 4 per cent). Among urban females, a large proportion of such workers were employed in *employer's households* (about 22 per cent), *education* (about 16 per cent) and *other service activities* (section S) (about 9 per cent).

Statement 3.20: Per 1000 distribution of employees (ps+ss) who had no written job contract and the distribution of employees in AGE GC and non-agriculture sectors by industry groups/sections during 2011-12

Description of sections B to U (NIC 2008) - B: Mining and Quarrying; C: Manufacturing; D: Electricity, Gas, steam and air conditioning supply; E: Water supply, sewerage, waste management and remediation activities; F: Construction; G: Wholesale and retail trades; repair of motor vehicles, motor cycles; H: Transportation and storage; I: Accommodation and food service activities; J: Information and communication; K: Financial and insurance activities; L: Real estate activities; M: Professional, scientific and technical activities; N: Administrative and support service activities; O: Public administration and defence, compulsory social security; P: Education; Q: Human health and social work activities; R: Arts, entertainment and recreation; S: Other service activities; T: Activities of households as employers; undifferentiated goods and services producing activities of households for own use; U: Activities of extraterritorial organizations and bodies.

2. Industry groups/ divisions (NIC-2008) - AGE GC: 014, 016, 017, 02, 03; non-agriculture: 05-99.

3.3.3 Nature of employment: In the survey, information regarding the nature of employment of the usual status workers was collected to see whether their employment was permanent or temporary. Nature of employment was defined to be *permanent if the person was, in normal course, likely to continue in the same employment*. Statement 3.21 presents, at the all-India level, the proportion of regular wage/salaried employees and casual labourers in AGE GC and non-agriculture sectors whose nature of employment was temporary. The corresponding results obtained from NSS 61st (2004-05), 66th (2009-10) rounds have also been given in the statement for comparison. The survey results of NSS 68th round regarding these proportions at State/UT level are presented in Statement 3.21.1. Figure 8 gives a diagrammatic presentation of the proportion of temporary employees among the *regular wage/salaried employees* in the AGE GC and non-agriculture sectors as obtained from NSS 61st, 66th and 68th round surveys.

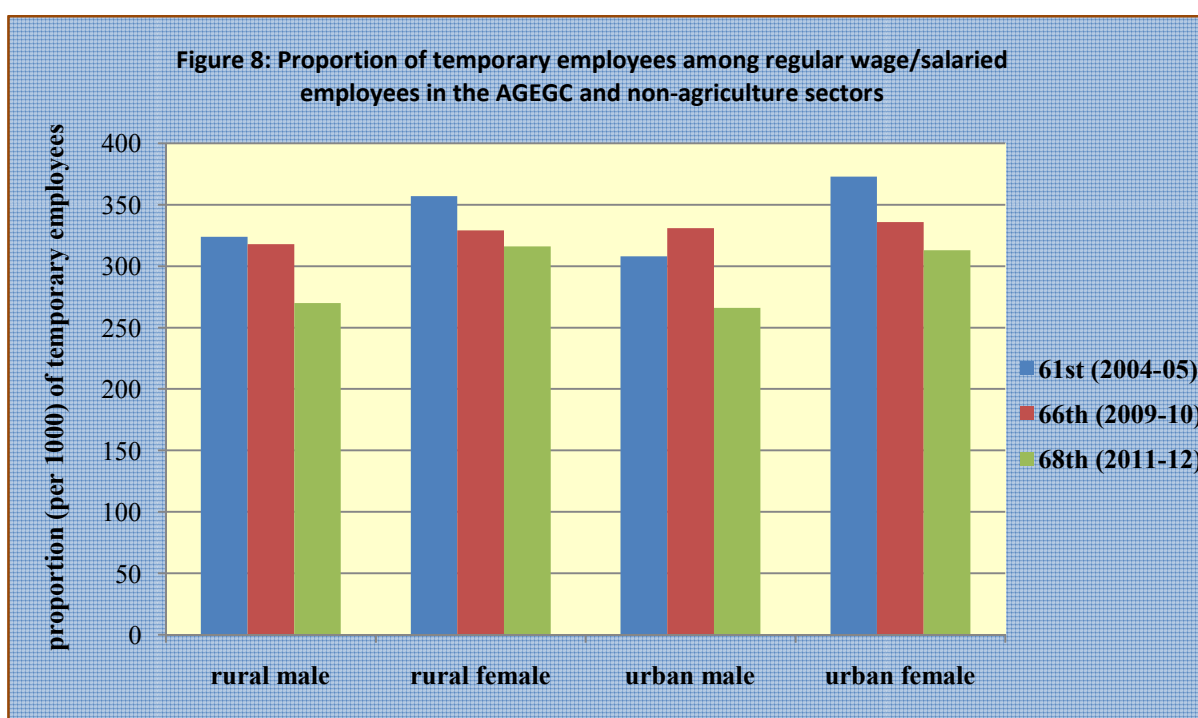

3.3.3.1 Proportion of temporary employees during 2011-12: It is seen from Statement 3.21 that, during 2011-12, among the employees in the AGE GC and non-agriculture sectors, about 42 per cent were temporary employees - the proportion was about 48 per cent in rural areas (47 per cent for males and 53 per cent for females) and about 36 per cent in the urban areas (35 per cent for males and 39 per cent for females). As expected, the proportion of temporary employees was higher for casual labourers as compared to the regular wage/salaried employees. In the AGE GC and non-agriculture sectors, about 60 per cent of the casual labourers were temporary employees as compared to about 28 per cent for the regular wage/salaried employees. Among the employees in the AGE GC and non-agriculture sector altogether, the proportion of temporary employees was higher for females than males. Among the casual labourers, the proportion was about 64 per cent for rural females compared to 58 per cent for rural males and about 70 per cent for urban females compared to 62 per cent for urban males. Among the regular wage/salaried employees, the proportion was about 32 per cent for rural females compared to 27 per cent for rural males and about 31 per cent for urban females compared to 27 per cent for urban males.

Statement 3.21: Proportion (per 1000) of temporary employees among employees (ps+ss) in AGE GC and non-agriculture sectors for different statuses in employment during NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds

3.3.3.2 Changes in the proportion of temporary employees during 2004-05 and 2011-12:

It is seen from Statement 3.21 that, between 2004-05 and 2011-12, the proportion of temporary employees has decreased for rural males, urban males and urban females while the proportion has increased marginally for rural females. Between 2004-05 and 2011-12, among the employees in the AGE GC and non-agriculture sectors, the proportion of temporary employees decreased from 46 per cent in 2004-05 to 42 per cent in 2011-12. During this period, the proportion decreased from 49 per cent to 47 per cent for rural males, from 41 per cent to 35 per cent for urban males and from 45 per cent to 39 per cent for urban females while the proportion increased from 52 per cent to 53 per cent for rural females. Between 2004-05 and 2011-12, there was reduction in the proportion of temporary employees among casual labourers as well as among regular wage/salaried employees engaged in the AGE GC and non-agriculture sectors. The reduction was from 66 per cent to 60 per cent for casual labourers and from 33 per cent to 28 per cent for regular wage/salaried employees.

3.3.4 Eligibility for paid leave: In the survey, for the regular wage/salaried employees and casual labourers engaged in the AGE GC and non-agriculture sectors, information was collected on whether they were eligible for paid leave or not. For the purpose of survey, paid leave included the cases of leave during sickness, maternity or such leaves as the employee was eligible to take without loss of pay as per the conditions of employment. Statement 3.22 gives, at all-India level, the proportion of regular wage/salaried employees and casual labourers in AGE GC and non-agriculture sectors not eligible for paid leave as obtained from NSS 61st, 66th and 68th round surveys. The corresponding estimates for States/UTs for 2011-12 are presented in Statement 3.22.1. Figure 9 shows the changes in the proportion of regular wage/salaried employees in the AGE GC and non-agricultural sectors not eligible for paid leave during NSS 61st, 66th and 68th rounds.

3.3.4.1 Proportion of employees not eligible for paid leave during 2011-12: Statement 3.22 shows that, during 2011-12, among the employees in the AGE GC and non-agriculture sectors, about 71 per cent were not eligible for paid leave – the proportion was about 81 per cent in rural areas and about 61 per cent in urban areas. As expected, the proportion of workers not eligible for paid leave was higher for casual labourers as compared to the regular wage/salaried employees. In the AGE GC and non-agriculture sectors, about 98 per cent of the casual labourers as compared to about 50 per cent of the regular wage/salaried employees were not eligible for paid leave. This proportion was nearly 51 per cent in rural areas and 49 per cent in urban areas for the regular wage/salaried employees as compared to nearly 98 per cent for casual labourers in both rural and urban areas. Gender differentials in respect of this condition of employment were negligible for the employees engaged in the AGE GC and non-agriculture sectors altogether – the proportion of casual labourers not eligible for paid leave was 98 per cent for males as well as for females and for the regular wage/salaried employees, it was about 50 per cent for males and 49 per cent for females.

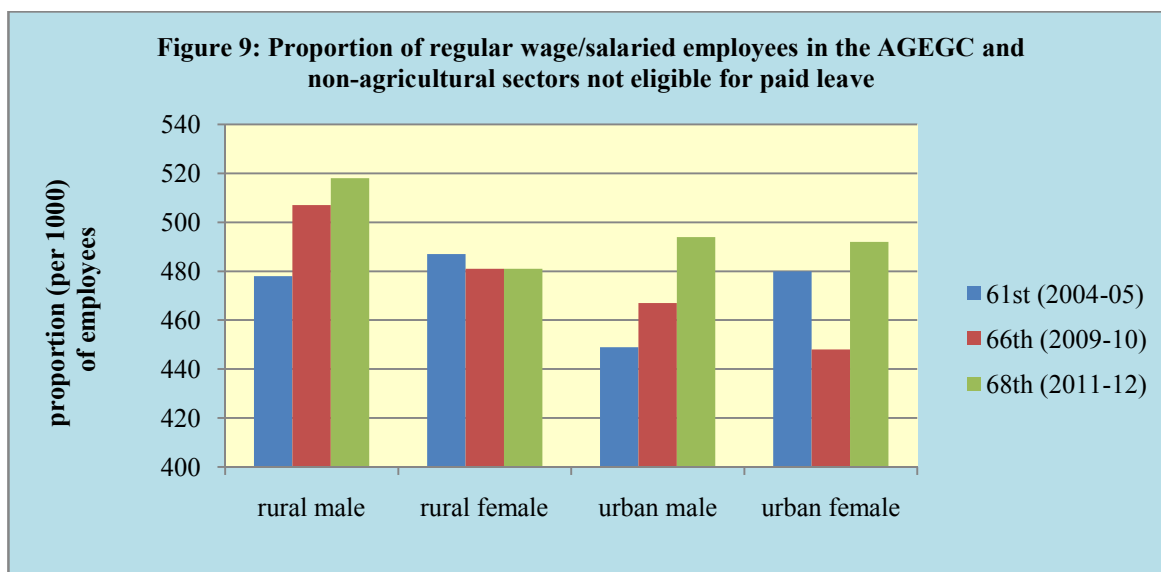

3.3.4.2 Changes in the proportion of employees not eligible for paid leave during 2004-05 and 2011-12: It is seen from Statement 3.22 that the proportion of employees who are not eligible for paid leave has increased over the years – for employees in the AGE GC and non-agriculture sectors, the proportion increased from about 66 per cent to about 70 per cent during 2004-05 and 2009-10, which further increased to about 71 per cent in 2011-12. Between 2004-05 and 2011-12, the proportion of employees not eligible for paid leave increased for rural males, rural females and urban males but remained almost unchanged for urban females - for employees in the AGE GC and non-agriculture sectors, the proportion increased from 74 per cent to 81 per cent for both males and females in rural areas, from 58 per cent to 61 per cent for urban males and remained almost at 59 per cent for urban females. During this period, in the AGE GC and non-agriculture sectors, the proportion of casual labourers not eligible for paid leave increased from 96 per cent to 98 per cent. For regular wage/salaried employees in the AGE GC and non-agriculture sectors, the proportion increased from 46 per cent to 50 per cent.

Statement 3.22: Proportion (per 1000) of employees not eligible for paid leave among employees (ps+ss) in AGE GC and non-agriculture sectors for different statuses in employment during NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds

2. '-' indicates that no sample regular wage/ salaried employee was there

3.3.4.3 Distribution of employees not eligible for paid leave by industry groups/sections of NIC 2008: As obtained from the present survey, the distributions of employees (ps+ss) not eligible for paid leave by industry groups/sections of NIC-2008 at the all-India level are presented in Statement 3.23. The statement shows that, as compared to the proportion of all employees (Ref: Statement 3.20), the proportion of employees not eligible for paid leave was considerably higher for the industries AGE GC and *construction* (section F) in the rural areas and for the industries *manufacturing* (section C), *construction* (section F), *wholesale and retail trade* (section G), *accommodation and food service activities* (section I), *other service activities* (section S) and *activities of households as employers; undifferentiated goods and services producing activities of households for own use* (section T) in the urban areas. The proportion of employees not eligible for paid leave as compared to the proportion of all the employees was considerably lower for the industries *public administration and defence, compulsory social security* (section O) and *education* (section P) in rural areas and for the industries *information and communication* (section J); *financial and insurance activities* (section K), *public administration and defence, compulsory social security* (section O), *education* (section P), *human health and social work activities* (section Q) in the urban areas.

3.3.4.4 In the rural areas, among the employees in AGE GC and non-agricultural sectors who were not eligible for paid leave, about 79 per cent belonged to either the *manufacturing* sector (section C) or the *construction* sector (section F) or the *transportation and storage* sector (section H). The proportion of employees in these sectors altogether was about 69 per cent in the rural areas. In the urban areas, among employees in AGE GC and non-agriculture sectors who were not eligible for paid leave, about 70 per cent belonged to either the *manufacturing* sector (section C) or the *construction* sector (section F) or the *wholesale and retail trade* sector (section G) or the *transportation and storage* sector (section H).

The proportion of employees in these sectors altogether was about 55 per cent in the urban areas. Among other sectors, a large proportion of employees who were not eligible for paid leave were employed in AGE GC (about 9 per cent), *education* (about 6 per cent) for rural females and in *education* (about 11 per cent), *other service activities* (about 10 per cent) and *activities of households as employers; undifferentiated goods and services producing activities of households for own use* (about 23 per cent) for urban females.

Statement 3.23: Per 1000 distribution of employees (ps+ss) not eligible for paid leave and engaged in AGE GC and non-agriculture sectors by industry group/ division during 2011-12

1. Description of sections B to U (NIC 2008): - B: Mining and Quarrying; C: Manufacturing; D: Electricity, Gas, steam and air conditioning supply; E: Water supply, sewerage, waste management and remediation activities; F: Construction; G: Wholesale and retail trades; repair of motor vehicles, motor cycles; H: Transportation and storage; I: Accommodation and food service activities; J: Information and communication; K: Financial and insurance activities; L: Real estate activities; M: Professional, scientific and technical activities; N: Administrative and support service activities; O: Public administration and defence, compulsory social security; P: Education; Q: Human health and social work activities; R: Arts, entertainment and recreation; S: Other service activities; T: Activities of households as employers; undifferentiated goods and services producing activities of households for own use; U: Activities of extraterritorial organizations and bodies.

2. Industry groups/ divisions (NIC-2008): AGE GC: 014, 016, 017, 02, 03; non-agriculture: 05-99.

3.3.5 Availability of social security benefits: In the survey, for the regular wage/salaried employees and casual labourers engaged in the AGE GC and non-agriculture sectors, information was collected regarding the availability of different types of social security benefits by them. It was ascertained from the employees whether they were eligible for availing any specified social security benefits or a combination of them which were arranged or for which contribution was made by the employer. The different social security benefits considered in the survey were *Provident Fund (PF) scheme, gratuity and, health care & maternity benefits*. The term Provident Fund (PF) included General Provident Fund, Contributory Provident Fund, Public Provident Fund, Employees Provident Fund, etc. If an employee operated a PPF account in his/her individual capacity and the employer was not contributing to that account, it was not considered as availability of social security benefit. On the contrary, a scheme, in which both the employee and the employer contributed, was considered a social security benefit. Similarly, if an employee was eligible for paid leave for a specified period of pre-natal/childbirth/post-natal stages or if the expenditure for maternity care or childbirth was met by the employer as per the conditions of employment, then such benefits were considered as health care and maternity benefits. Non-availability of social security benefits is a measure of insecurity in the job one performs.

3.3.5.1 Statement 3.24 presents the proportion of regular wage/salaried employees and casual labourers in AGE GC and non-agriculture sectors not eligible for any social security benefit during NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds. The survey results of NSS 68th round regarding these proportions at State/UT level are presented in Statement 3.24.1. Figure 10 gives a diagrammatic presentation of the proportion of *regular wage/salaried employees* in the AGE GC and non-agriculture sectors not eligible for any social security benefit during 2004-05, 2009-10 and 2011-12.

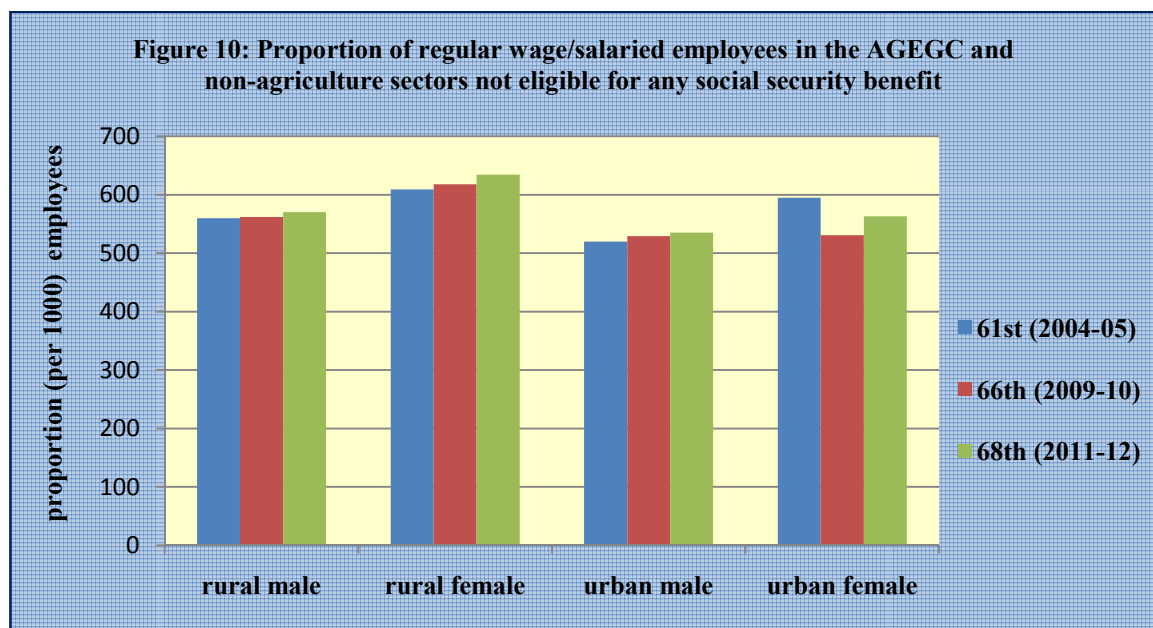

3.3.5.2 Proportion of employees not eligible for any social security benefit during 2011-12: Statement 3.24 shows that, during 2011-12, among the employees in the AGE GC and non-agriculture sectors, about 72 per cent were not eligible for any social security benefit – the proportion was about 80 per cent in rural areas and about 64 per cent in urban areas. As expected, among the casual labourers a very higher proportion were outside the social security net but even for the regular wage/salaried employees, the proportion of workers left out of the coverage of the social security benefits was substantial. While, about 93 per cent of the casual labourers in the AGE GC and non-agriculture sectors (93 per cent in rural areas and 95 per cent in urban areas) were not covered under any of the specified social security benefits, the proportion for the regular wage/salaried employees not covered by any of the social security benefits was also nearly 56 per cent (58 per cent in rural areas and 54 per cent in urban areas). Gender disparity in eligibility of social security benefits was negligible for casual labourers but there was marginal disparity for the regular wage/salaried employees. In the AGE GC and non-agriculture sectors altogether, the proportion of casual labourers not eligible for any social security benefit was 93 per cent for both males and females while for the regular wage/salaried employees, it was about 55 per cent for males and 59 per cent for females.

Statement 3.24: Proportion (per 1000) of employees not eligible for any social security benefit* among employees (ps+ss) in AGE GC and non-agriculture sectors for different statuses in employment during NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds

Note: * For the purpose of the survey, the social security benefits considered were PF/ pension, gratuity, health care and maternity benefit.

1. Industry groups/ divisions (NIC-2008): AGE GC: 014, 016, 017, 02, 03; non-agriculture:05-99.

3.3.5.3 Changes in the proportion of employees not eligible for any social security benefits during 2004-05 and 2011-12: It is seen from Statement 3.24 that in the AGE GC and non-agriculture sectors, the proportion of employees not eligible for any social security benefit increased from about 71 per cent to about 74 per cent during 2004-05 and 2009-10 but decreased to about 72 per cent in 2011-12. Between 2004-05 and 2011-12, the proportion of employees not eligible for any social security benefit increased for both males and females in rural areas, while it decreased for urban females and remained almost unchanged for urban males - for employees in the AGE GC and non-agriculture sectors, the proportion increased from 78 per cent to 79 per cent for rural males and from 80 per cent to 83 per cent for rural females, while it decreased from 68 per cent to 64 per cent for urban females and remained almost at 63 per cent for urban males. During this period, in the AGE GC and non-agriculture sectors, the proportion of casual labourers not eligible for any social security benefit declined from 96 per cent to 93 per cent - the decline was from 95 per cent to 93 per cent for rural males, from 96 per cent to 93 per cent for rural females, from 96 per cent to 95 per cent for urban males and remained almost at 97 per cent for urban females. For regular wage/salaried employees in the AGE GC and non-agriculture sectors, the proportion increased from about 56 per cent to 57 per cent for rural males, from 61 per cent to 63 per cent for rural females, from 52 per cent to 54 per cent for urban males and reduced from 60 per cent to 56 per cent for urban females.

3.3.5.4 *Distribution of employees not eligible for any social security benefit by industry groups/sections of NIC 2008*: As obtained from the present survey, the distributions of employees (ps+ss) not eligible for any social security benefit by industry groups/sections of NIC-2008, at the all-India level, are presented in Statement 3.25. The distribution of employees not eligible for any social security benefit shows a similar pattern as in the case of employees not eligible for paid leave. The statement shows that, as compared to the proportion of all employees (Ref: Statement 3.20), the proportion of employees not eligible for any social security benefit was considerably higher for the *construction* sector (section F) in the rural areas and for the industries *manufacturing* (section C), *construction* (section F), *wholesale and retail trade* (section G), and *activities of households as employers; undifferentiated goods and services producing activities of households for own use* (section T) in the urban areas. The proportion of employees not eligible for any social security benefit as compared to the proportion of all the employees was considerably lower for the industries *public administration and defence, compulsory social security* (section O) and *education* (section P) in the rural areas and for the industries *information and communication* (section J); *financial and insurance activities* (section K), *public administration and defence, compulsory social security* (section O), *education* (section P) in the urban areas.

3.3.5.5 In the rural areas, among the employees in AGEHC and non-agricultural sectors who were not eligible for any social security benefit, about 76 per cent belonged to either the *manufacturing* sector (section C) or the *construction* sector (section F) or the *transportation and storage* sector (section H). The proportion of employees in these sectors altogether was about 69 per cent in the rural areas. In the urban areas, among employees in AGEHC and non-agriculture sectors who were not eligible for paid leave, about 74 per cent belonged to either the *manufacturing* sector (section C) or the *construction* sector (section F) or the *wholesale and retail trade* sector (section G) or the *transportation and storage* sector (section H) or *activities of households as employers; undifferentiated goods and services producing activities of households for own use* (section T). The proportion of employees in these sectors altogether was about 60 per cent in the urban areas. Among rural females, a large proportion of employees not eligible for any social security benefit were also employed in AGEHC (about 8 per cent) and *education* (about 11 per cent). Among the urban females, the proportion was also high in *education* (about 14 per cent), *other service activities* (about 10 per cent) and *activities of households as employers; undifferentiated goods and services producing activities of households for own use* (about 24 per cent).

Statement 3.25: Per 1000 distribution of employees (ps+ss) in AGEGC and non-agriculture sectors who were not eligible for any social security benefits by industry groups/ sections during 2011-12

1. Description of sections B to U (NIC 2008): - *B: Mining and Quarrying; C: Manufacturing; D: Electricity, Gas, steam and air conditioning supply; E: Water supply, sewerage, waste management and remediation activities; F: Construction; G: Wholesale and retail trades; repair of motor vehicles, motor cycles; H: Transportation and storage; I: Accommodation and food service activities; J: Information and communication; K: Financial and insurance activities; L: Real estate activities; M: Professional, scientific and technical activities; N: Administrative and support service activities; O: Public administration and defence, compulsory social security; P: Education; Q: Human health and social work activities; R: Arts, entertainment and recreation; S: Other service activities; T: Activities of households as employers; undifferentiated goods and services producing activities of households for own use; U: Activities of extraterritorial organizations and bodies.*

2. Industry groups/ divisions (NIC-2008): AGEGC: 014, 016, 017, 02, 03; non-agriculture: 05-99.

3.3.6 Proportion of employees with no written job contract and not eligible for paid leave: The proportion of employees in the AGE GC and non-agriculture sectors who had no written job contract and were not also eligible for paid leave is presented in Statement 3.26 at the all-India level as obtained from NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds. Statement 3.26 shows that during 2011-12, at the all-India level, about 68 per cent of the employees engaged in AGE GC and non-agriculture sectors neither had written job contract nor were eligible for the paid leave – the proportion was about 77 per cent in

Statement 3.26: Proportion (per 1000) of employees who had no written job contract and were not eligible for paid leave among employees (ps+ss) engaged in AGE GC and non-agriculture sectors during NSS 61st (2004-05), 66th (2009-10) and 68th (2011-12) rounds

cent during 2004-05 and 2009-10, which further increased to 68 per cent in 2011-12. Between 2004-05 and 2011-12, the proportion increased from 72 per cent to 78 per cent for rural males, from 70 per cent to 74 per cent for rural females, from 55 per cent to 57 per cent for urban males, while it remained around 55 per cent for urban females.

3.3.7 Method of receiving payment by the employees during 2011-12: In the survey, information on method of receiving payment of salary/wages for the work done by the regular wage/salaried employees and casual labourers engaged in AGE GC and non-agricultural sectors was collected in terms of five categories viz. *regular monthly salary*, *regular weekly payment*, *daily payment*, *piece rate payment* and *others*. Statement 3.27 presents, at the all-India level, per 1000 distribution of usual status (ps+ss) regular wage/salaried employees and casual labourers engaged in AGE GC and non-agriculture sectors by method of payment during 2011-12. The corresponding results for each State/UT are presented in Statement 3.27.1.

Industry groups/ divisions (NIC-2008): AGE GC: 014, 016, 017, 02, 03; non-agriculture:05-99.

3.3.7.1 From statement 3.27, it is observed that for the regular wage/ salaried employees, the most prevalent method of receipt of payment was *regular monthly salary* whereas for casual labourers it was *daily payment*. Among regular wage/ salaried employees in the AGE GC and non-agricultural sectors, nearly 91 per cent received *regular monthly salary* – the proportion was nearly 89 per cent in the rural areas and 92 per cent in the urban areas. Among casual labourers nearly 56 per cent received *daily payment* - the proportion was nearly 58 per cent in the rural areas and 49 per cent in the urban areas. A higher proportion of female regular wage/ salaried employees in both rural and urban areas received *regular monthly salary* compared to their male counterparts - the proportion was about 91 per cent for rural females against 88 per cent for rural males and about 94 per cent for urban females against 92 per cent for urban males.

It is observed that both in the rural and urban areas, a lower proportion of female *casual labourers* received *daily payment* compared to their male counterparts - the proportion was nearly 38 per cent for rural females against 63 per cent for rural males and about 34 per cent for urban females against 52 per cent for urban males. A substantial proportion (about 32 per cent) of female *casual labourers* received *regular weekly payment*.

3.3.8 *Existence of Union/Association in the Activities of the Workers during 2011-12*: In the survey, information regarding existence of union/association in the activities of the usual status workers was collected irrespective of the coverage of industries. For the purpose of the survey, union/ association meant any registered/ recognized body whose membership was open to a section of those engaged in a specific activity or trade and whose main objective was to look after the interests of its members. Statement 3.28 presents, at the all-India level, the proportion of workers (ps+ss) of age 15 years and above with non-existence of union/association in their activities during 2011-12. The

Status in employment (code): self-employment - 11, 12, 21; regular wage/ salaried employees - 31; casual labour in public works - 41; casual labour in works other than public works - 51.

corresponding results for each State/UT are presented in Statement 3.28.1. Statement 3.28 shows that about 80 per cent of the usual status workers had no union/association in their activities - the proportion was about 84 per cent in the rural areas and about 70 per cent in the urban areas. It is seen that majority of casual labourers and self-employed had no union/association in their activities. The proportion of regular wage/salaried employees reporting non-existence of union/association in their activities was comparatively lower. The proportion of workers with non-existence of union/association in their activities was about 59 per cent for the regular wage/salaried employees compared to about 87 per cent for casual labourers and about 83 per cent for self-employed. The proportion of workers with non-existence of union/association in their activities was higher for females than males. Among the regular wage/salaried employees, the proportion was about 56 per cent for rural females compared to 55 per cent for rural males and 66 per cent for urban females compared to 61 per cent for urban males. Among self-employed, the proportions were about 84 per cent, 90 per cent, 71 per cent and 84 per cent for rural males, rural females, urban males and urban females, respectively. Among casual labourers, the proportions were about 92 per cent and 86 per cent for females and males in rural areas whereas about 86 per cent and 81 per cent for females and males in urban areas.

Appendix B

Sample Design and Estimation Procedure

Appendix - B

Sample Design and Estimation Procedure

1. Introduction

1.1 The 68th round (July 2011-June 2012) of NSS was earmarked for survey on 'Household Consumer Expenditure' and 'Employment and Unemployment'. The survey covered the whole of the Indian Union *except* (i) interior villages of Nagaland situated beyond five kilometres of the bus route and (ii) villages in Andaman and Nicobar Islands which remain inaccessible throughout the year. The period of survey was of one year duration starting on 1st July 2011 and ending on 30th June 2012. The survey period of this round was divided into four sub-rounds of three months' duration each - 1st sub-round: July to September 2011; 2nd sub-round: October to December 2011; and so on. In each of these four sub-rounds equal number of sample villages/ blocks (FSUs) was allotted for survey with a view to ensure uniform spread of sample FSUs over the entire survey period.

2 Sample Design

2.1 A stratified multi-stage design was adopted for the 68th round survey. The first stage units (FSU) were the 2001 census villages (Panchayat wards in case of Kerala) in the rural areas and Urban Frame Survey (UFS) blocks in the urban areas. The ultimate stage units (USU) were households in both the sectors. In case of large FSUs, one intermediate stage of sampling was the selection of two hamlet-groups (hgs)/sub-blocks (sbs) from these FSUs.

2.2 *Selection of the first-stage units:* The sampling frame and the sampling technique used for selection of the FSUs are stated in the following paragraphs.

2.2.1 *Sampling Frame for First Stage Units:* For the rural sector, the list of 2001 census villages (Panchayat wards in case of Kerala) constituted the sampling frame. For the urban sector, the list of latest available UFS blocks (2007-12) constituted the sampling frame.

2.2.2 *Stratification of the first stage units:* Within each district of a State/ UT, two basic strata were formed as follows:

- i) rural stratum comprising all rural areas of the district and
- (ii) urban stratum comprising all the urban areas of the district.

However, within the urban areas of a district, if there were one or more towns with population 10 lakhs or more as per population census 2001 in a district, each of them formed a separate basic stratum and the remaining urban areas of the district were considered as another basic stratum.

2.2.3 Sub-stratification: Procedure followed for sub-stratification in each of rural and urban sectors are stated below.

2.2.3.1 Rural sector: If 'r' was the sample size allocated for a rural stratum, 'r/4' sub-strata were formed in that stratum. The villages within a district as per frame were first arranged in ascending order of population and then sub-strata 1 to 'r/4' were demarcated in such a way that each sub-stratum comprised a group of villages of the arranged frame and had more or less equal population.

2.2.3.2 Urban sector: If 'u' was the sample size for an urban stratum, 'u/4' sub-strata were formed in that stratum. In case u/4 was more than 1, implying formation of 2 or more sub-strata, this was done by first arranging the towns in ascending order of total number of households in the town as per UFS phase 2007-12 and then arranging the IV units of each town and blocks within each IV unit in ascending order of their numbers. From this arranged frame of UFS blocks of all the towns/million plus cities of a stratum, 'u/4' number of sub-strata were formed in such a way that each sub-stratum had more or less equal number of households as per UFS 2007-12.

2.2.4 Allocation of FSU's among Strata: At the all-India level, a total number of 12784 FSUs (7,508 villages and 5,276 urban blocks) were allocated for survey in the central sample. The total number of sample FSUs was allocated to the States and UTs in proportion to population as per census 2001 subject to the availability of field investigators and ensuring minimum sample allocation to each State/ UT. The State/ UT level sample size was allocated between rural and urban sectors in proportion to population as per *census 2001* with double weightage to urban sector subject to the restriction that urban sample size for bigger states like Maharashtra, Tamil Nadu, etc. did not exceed the rural sample size. A minimum of 16 FSUs (minimum 8 for each of rural and urban sector) was allocated to each state/ UT. Within each sector of a State/ UT, the respective sample size was allocated to the different strata/ sub-strata in proportion to the population as per census 2001. Allocations at stratum/ sub-stratum level were adjusted to multiples of 4 with a minimum sample size of 4 and equal number of samples was allocated among the four sub rounds. Allocations at stratum level were adjusted to multiples of 4 with a minimum sample size of 4. Allocation for each sub-stratum was 4. Equal number of samples was allocated in each of the four sub-rounds.

2.2.5 Selection of first-stage units: For the rural sector, from each stratum/sub-stratum, required number of sample villages was selected by probability proportional to size with replacement (PPSWR), size being the population of the village as per Census 2001. For the urban sector, FSUs were selected from each stratum/sub-stratum by using Simple Random Sampling Without Replacement (SRSWOR). Both rural and urban samples were drawn in the form of two independent sub-samples and equal number of samples were allocated among the four sub rounds.

2.3 Selection of Ultimate Stage Units (USU) within a FSU: The procedures followed for selection of USUs within an FSU are stated in the remaining paragraphs of this sub-section.

2.3.1 *Formation and Selection of hamlet-groups/sub-blocks:* Sample FSUs with approximate population 1200 or more were divided into a suitable number (say, D) of 'hamlet-groups' in the rural sector and 'sub-blocks' in the urban sector as stated below.

approximate present population of the sample FSU	no. of hgs/sbs to be formed
less than 1200 (no hamlet-groups/sub-blocks)	1
1200 to 1799	3
1800 to 2399	4
2400 to 2999	5
3000 to 3599	6
.....and so on	

For rural areas of Himachal Pradesh, Sikkim, Uttarakhand (except four districts Dehradun (Plains), Nainital (Plains), Haridwar and Udham Singh Nagar), Poonch, Rajouri, Udhampur, Doda, Leh (Ladakh), Kargil districts of Jammu and Kashmir and Idukki district of Kerala, the number of hamlet-groups formed was as follows:

approximate present population of the sample village	no. of hgs to be formed
less than 600 (no hamlet-groups)	1
600 to 899	3
900 to 1199	4
1200 to 1499	5
.....and so on	

Hamlet-groups/ sub-blocks were formed in the sample FSU by more or less equalising populations. Two hamlet-groups (hgs)/ sub-blocks (sbs) were selected from a large FSU, wherever hamlet-groups/ sub-blocks were formed. This was done in the following manner – one hg/ sb with maximum percentage share of population was always selected and was termed as hg/ sb 1; one more hg/sb was selected from the remaining hamlet-groups/ sub-blocks by simple random sampling (SRS) and was termed as hg/sb 2. Listing and selection of the households was done independently in the two selected hamlet-groups/ sub-blocks. For the FSUs where no hg/sb formation was done, the hg/sb number was assigned as 1.

2.3.2 *Sampling frame of households:* All households listed in a village/UFS block where no hamlet-group/sub-block formation was done, or the households listed in the two selected hamlet-groups/sub-blocks of the village/UFS block where hamlet-group/sub-block formation was done, constituted the sampling frame of households.

2.3.3 *Formation of second stage strata (SSS) and allocation of households in different SSS:* For employment and unemployment survey of NSS 68th round, all households listed in the selected FSU/hamlet groups/sub-blocks were stratified into three second stage strata (SSS). The three second-stage-strata (SSS) formed in each of rural and urban areas and the number of households surveyed from each of the three SSS are specified below:

SSS	composition of SSS	No. of households surveyed	
		FSU without hg/sb formation	for each hg/sb - for FSUs with hg/sb formation
Rural			
SSS 1	relatively affluent households	2	1
SSS 2	of the remaining, households having principal earning from non- agricultural activity	4	2
SSS 3	other households	2	1
Urban			
SSS 1	households having MPCE of top 10% of urban population ($MPCE > B$)	2	1
SSS 2	households having MPCE of middle 60% of urban population ($A \leq MPCE \leq B$)	4	2
SSS 3	households having MPCE of bottom 30% of urban population ($MPCE < A$)	2	1

2.3.4 In the rural areas, identification of affluent households was done by taking into account factors generally associated with affluent households such as: ownership of motor car/ jeep/ tractor/ combine-harvester/ truck/ bus/ etc.; consumer durables like refrigerator/ washing machine etc.; any member as doctor/ advocate/ high salaried job/ ownership of large business etc.; ownership of spacious pucca house in good condition; ownership of 7 hectares or more of cultivable land; ownership of 3.5 hectares or more of irrigated land; ownership of 10 or more cattle, buffaloes and camels. In the urban areas, two cut-off points 'A' and 'B' (in Rs.) were determined from NSS 66th round data for each NSS region in such a way that top 10% of the population had MPCE more than 'B' and bottom 30% of the population had MPCE less than A.

2.3.5 *Selection of households:* For employment-unemployment survey, a total of 8 households were selected from each FSU. In both rural and urban areas, in case no hamlet-group/sub-block formation was done in the village/block, a number of 2, 4 and 2 households were selected from the second stage strata SSS1, SSS2 and SSS3, respectively. In case hamlet-groups/sub-blocks were formed in the village/block, a number of 1, 2 and 1 households were selected respectively from the second stage strata SSS1, SSS2 and SSS3 of each of the hamlet-groups/sub-blocks. The sample households from each of the second stage strata were selected by SRSWOR.

2.4 Number of village/blocks allotted for survey in the NSS 68th round along with the number of villages/blocks actually surveyed and number of persons enumerated in employment and unemployment survey are given for different states and union territories in Table B1 at the end of Appendix-B.

3. Estimation Procedure

Procedures for obtaining estimates of aggregates, ratios and their RSEs are briefly indicated below:

3.1 Notations:

s = subscript for s -th stratum

t = subscript for t -th sub-stratum

m = subscript for sub-sample ($m = 1, 2$)

i = subscript for i -th FSU [village (panchayat ward)/ block]

d = subscript for a hamlet-group/ sub-block ($d = 1, 2$)

j = subscript for j -th second stage stratum in an FSU/ hg/sb [$j = 1, 2$ or 3]

k = subscript for k -th sample household under a particular second stage stratum within an FSU/ hg/sb

D = total number of hg's/ sb's formed in the sample FSU

$D^* = 0$ if $D = 1$; and

$= (D - 1)$ for FSUs with $D > 1$

N = total number of FSUs in any urban sub-stratum

Z = total size of a rural sub-stratum (= sum of sizes for all the FSUs of a sub-stratum)

z = size of sample village used for selection

n = number of sample FSUs surveyed including 'zero cases' but excluding casualty for a particular sub-sample and sub-stratum

H = total number of households listed in a second-stage stratum of an FSU/ hamlet-group or sub-block of sample FSU

h = number of households surveyed in a second-stage stratum of an FSU/ hamlet-group or sub-block of sample FSU

x, y = observed value of characteristics x, y under estimation

\hat{X}, \hat{Y} = estimates of population total X, Y for the characteristics x, y

Under the above symbols,

$y_{stmidjk}$ = observed value of the characteristic y for the k -th household in the j -th second stage stratum of the d -th hg/sb ($d = 1, 2$) of the i -th FSU belonging to the m -th sub-sample for the t -th sub-stratum of s -th stratum.

For ease of understanding, a few symbols have been suppressed in following paragraphs where they are obvious.

3.2 Estimation of aggregates for a particular sub-sample (m) of a stratum (s):

3.2.1 rural areas:

Estimate of population total (Y) of the characteristic y for the j -th SSS of a sub-stratum within a stratum denoted by \hat{Y}_j is obtained as

$$\hat{Y}_j = \frac{Z}{n_j} \sum_{i=1}^{n_j} \frac{1}{z_i} \left[\frac{H_{i1j}}{h_{i1j}} \sum_{k=1}^{h_{i1j}} y_{i1jk} + D_i^* \times \frac{H_{i2j}}{h_{i2j}} \sum_{k=1}^{h_{i2j}} y_{i2jk} \right]$$

Estimate of aggregates for t -th sub-stratum of s -th stratum denoted by \hat{Y}_{st} is obtained as

$$\hat{Y}_{st} = \sum_j \hat{Y}_j$$

Sub-sample estimate for a stratum (\hat{Y}_{sm}) is obtained by adding sub-sample wise estimates of all the sub-strata (\hat{Y}_{st}) of the stratum.

3.2.2 urban areas:

Estimate of aggregates for j -th second stage stratum of a stratum (\hat{Y}_j) is obtained as

$$\hat{Y}_j = \frac{N}{n_j} \sum_{i=1}^{n_j} \left[\frac{H_{i1j}}{h_{i1j}} \sum_{k=1}^{h_{i1j}} y_{i1jk} + D_i^* \times \frac{H_{i2j}}{h_{i2j}} \sum_{k=1}^{h_{i2j}} y_{i2jk} \right]$$

Estimate of aggregates for t -th sub-stratum of s -th stratum denoted by \hat{Y}_{st} is obtained as

$$\hat{Y}_{st} = \sum_j \hat{Y}_j$$

Sub-sample estimate for a stratum (\hat{Y}_{sm}) is obtained by adding sub-sample wise estimates of all the sub-strata (\hat{Y}_{st}) of the stratum.

3.3 Overall Estimate for Aggregates: Overall estimate for aggregates for a stratum (\hat{Y}_s) based on two sub-samples is obtained as:

$$\hat{Y}_s = \frac{1}{2} \sum_{m=1}^2 \hat{Y}_{sm}$$

3.4 Overall Estimate of Aggregates at State/UT/all-India level:

The overall estimate \hat{Y} at the State/ UT/ all-India level is obtained by summing the stratum estimates \hat{Y}_s over all strata belonging to the State/ UT/ all-India.

3.5 *Estimates of Ratios:* \hat{Y} and \hat{X} being the overall estimates of the aggregates Y and X for two characteristics y and x, respectively at the State/ UT/ all-India level, the combined ratio estimate (\hat{R}) of the ratio ($R = \frac{Y}{X}$) is obtained as $\hat{R} = \frac{\hat{Y}}{\hat{X}}$.

3.6 *Estimates of Error:* The estimated variances of the above estimates are obtained as follows:

3.6.1 For aggregate \hat{Y} :

$V\hat{a}r(\hat{Y}) = \sum_s V\hat{a}r(\hat{Y}_s)$ where $V\hat{a}r(\hat{Y}_s)$ is given by

$V\hat{a}r(\hat{Y}_s) = \sum_t \frac{1}{4} (\hat{Y}_{st1} - \hat{Y}_{st2})^2$, where \hat{Y}_{st1} and \hat{Y}_{st2} are the estimates for sub-sample 1 and sub-sample 2 respectively for stratum 's' and sub-stratum 't'.

3.6.2 For ratio \hat{R} :

$$M\hat{S}E(\hat{R}) = \frac{1}{4\hat{X}^2} \sum_s \sum_t \left[(\hat{Y}_{st1} - \hat{Y}_{st2})^2 + \hat{R}^2 (\hat{X}_{st1} - \hat{X}_{st2})^2 - 2\hat{R} (\hat{Y}_{st1} - \hat{Y}_{st2}) (\hat{X}_{st1} - \hat{X}_{st2}) \right]$$

3.6.3 *Estimates of Relative Standard Error (RSE):*

$$R\hat{S}E(\hat{Y}) = \frac{\sqrt{V\hat{a}r(\hat{Y})}}{\hat{Y}} \times 100$$

$$R\hat{S}E(\hat{R}) = \frac{\sqrt{M\hat{S}E(\hat{R})}}{\hat{R}} \times 100$$

Table B1: Number of FSUs (villages/urban blocks) allotted, number of FSUs surveyed and number of persons enumerated in different states and union territories

[3] household characteristics										
1.	household size					7.	land owned as on the date of survey (0.000 hectares)			
2.	principal industry (NIC-2008)	description:				8.	land possessed as on the date of survey (0.000 hectares)			
		code (5-digit)				9.	land cultivated (including orchard and plantation) during July 2010– June 2011 (0.000 hectares)			
3.	principal occupation (NCO-2004)	description:				10.	for rural areas,	whether the household has MGNREG job card (yes-1, no-2)		
		code (3-digit)				11.		if 1 in item 10,	number of MGNREG job cards issued to the household	
4.	household type (code)				12.	whether any member of the household has any bank/post office account [#] (yes-1, no-2)				
5.	religion (code)									
6.	social group (code)									

Note: 1 acre = 0.4047 hectare, 1 hectare=10, 000 sq. metre

[#]: Including accounts held in bank/post offices for payment of wages earned in MGNREG work.

Codes for Block 3

item 4: household type:

for rural areas: self-employed in: agriculture-1, non-agriculture -2; regular wage/salary earning-3, casual labour in: agriculture-4, non-agriculture -5; others -9.

for urban areas: self-employed -1, regular wage/salary earning -2, casual labour -3, others -9.

item 5: religion: Hinduism -1, Islam -2, Christianity -3, Sikhism -4, Jainism -5, Buddhism -6, Zoroastrianism -7, others -9.

item 6: social group: scheduled tribe -1, scheduled caste -2, other backward class -3, others -9.

Codes for Block 4**col. (3): relation to head:**

self -1, spouse of head -2, married child -3, spouse of married child -4, unmarried child -5, grandchild -6, father/ mother/ father-in-law/ mother-in-law -7, brother/ sister/ brother-in-law/ sister-in-law/ other relatives -8, servants/ employees/ other non-relatives -9.

col. (6): marital status:

never married -1, currently married -2, widowed -3, divorced/separated -4.

col. (7): educational level - general:

not literate -01, literate without formal schooling: EGS/ NFEC/ AEC -02, TLC -03, others -04; literate: below primary -05, primary -06, middle -07, secondary -08, higher secondary -10, diploma/certificate course -11, graduate -12, postgraduate and above -13.

col. (8): educational level - technical:

no technical education -01, technical degree in agriculture/ engineering/ technology/ medicine, etc. -02, diploma or certificate (below graduate level) in: agriculture -03, engineering/ technology -04, medicine -05, crafts -06, other subjects -07; diploma or certificate (graduate and above level) in: agriculture -08, engineering/ technology -09, medicine -10, crafts -11, other subjects -12.

col. (9): status of current attendance:

currently not attending:

never attended: school too far -01, to supplement household income -02, education not considered necessary -03, to attend domestic chores -04, others -05;

ever attended but currently not attending: school too far -11, to supplement household income -12, education not considered necessary -13, to attend domestic chores -14, others -15;

currently attending in: EGS/ NFEC/ AEC -21, TLC -22, pre-primary (nursery/ Kindergarten, etc.) -23, primary (class I to IV/ V) -24, middle -25, secondary -26, higher secondary -27, graduate in: agriculture -28, engineering/ technology -29, medicine -30, other subjects -31; post graduate and above -32, diploma or certificate (below graduate level) in: agriculture -33, engineering/ technology -34, medicine -35, crafts -36, other subjects -37; diploma or certificate (graduate level) in: agriculture -38, engineering/ technology -39, medicine -40, crafts -41, other subjects -42; diploma or certificate in post graduate and above level -43.

col. (10): **type of institution:** government -1, local body -2, private and aided -3, private and unaided -4, not known -5.

col. (11): **whether currently registered with any placement agency:** registered: only in government employment exchanges -1, only in private placement agencies -2, in both government employment exchanges and private placement agencies -3; not registered -4.

col. (12): whether receiving/received any vocational training:

yes: receiving formal vocational training -1; received vocational training: formal -2, non-formal: hereditary -3, self-learning -4, learning on the job -5, others -6; did not receive any vocational training -7.

col. (13): field of training:

mechanical engineering trades -01, electrical and electronic engineering trades -02, computer trades -03, civil engineering and building construction related works -04, chemical engineering trades -05, leather related work -06, textile related work -07, catering, nutrition, hotels and restaurant related work -08, artisan/ craftsman/ handicraft and cottage based production work -09, creative arts/ artists -10, agriculture and crop production related skills and food preservation related work -11, non-crop based agricultural and other related activities -12, health and paramedical services related work -13, office and business related work -14, driving and motor mechanic work -15, beautician, hairdressing & related work -16, work related to tour operators/ travel managers -17, photography and related work -18, work related to childcare, nutrition, pre-schools and crèche -19, journalism, mass communication and media related work -20, printing technology related work -21, other -99.

col. (15): whether worked in MGNREG works during last 365 days:

worked -1, sought but did not get work -2, did not seek work -3.

[4] demographic particulars of household members

srl. no.	name of member	relation to head (code)	sex (<i>male-1, female-2</i>)	age (years)	marital status (code)	educational level		for persons of age 0-29 years, current attendance in educational institution		for persons of age 15 to 45 years, whether currently registered with any placement agency (code)	for persons of age 15 to 59 years		for persons of age 18 years and above in rural households with MGNREG job card,	
						general (code)	technical (code)	status of current attendance (code)	for codes 21- 43 in col. 9, type of institution (code)		whether receiving/ received any vocational training (code)	for codes 1 & 2 in col. 12, field of training (code)	whether registered in any MGNREG job card (yes-1, no-2)	for 1 in col. 14, whether worked in MGNREG works during last 365 days (code)
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)	(15)

Codes for Block 5.1

col. (3): **status:**

worked in h.h. enterprise (self-employed): own account worker -11, employer-12, worked as helper in h.h. enterprise (unpaid family worker) -21; worked as regular salaried/ wage employee -31, worked as casual wage labour: in public works -41, in other types of work -51; did not work but was seeking and/or available for work -81, attended educational institution -91, attended domestic duties only -92, attended domestic duties and was also engaged in free collection of goods (vegetables, roots, firewood, cattle feed, etc.), sewing, tailoring, weaving, etc. for household use -93, rentiers, pensioners, remittance recipients, etc. -94, not able to work due to disability -95, others (including begging, prostitution, etc.) -97.

col. (5): **industry:** 5-digit code as per NIC -2008.

col. (6): **occupation:** 3-digit code as per NCO -2004.

col. (8): **location of workplace:**

workplace in rural areas and located in: own dwelling unit-10, structure attached to own dwelling unit-11, open area adjacent to own dwelling unit-12, detached structure adjacent to own dwelling unit- 13, own enterprise/unit/office/shop but away from own dwelling-14, employer's dwelling unit -15, employer's enterprise/unit/office/shop but outside employer's dwelling -16, street with fixed location-17, construction site-18, others -19; workplace in urban areas and located in: own dwelling unit-20, structure attached to own dwelling unit-21, open area adjacent to own dwelling unit-22, detached structure adjacent to own dwelling unit- 23, own enterprise/unit/office/shop but away from own dwelling-24, employer's dwelling unit -25, employer's enterprise/unit/office/shop but outside employer's dwelling -26, street with fixed location-27, construction site-28, others -29; no fixed workplace -99.

col. (9): **enterprise type:** proprietary: male -1, female -2; partnership: with members from same hh. -3, with members from different hh. -4; Government/public sector-5, Public/Private limited company-6, Co-operative societies/trust/other non profit institutions -7, employer's households(i.e., private households employing maid servant, watchman, cook, etc.) -8, others -9.

col. (11): **number of workers in the enterprise:** less than 6 -1, 6 & above but less than 10 -2, 10 & above but less than 20 -3, 20 & above -4, not known -9.

col. (12): **type of job contract:** no written job contract -1; written job contract: for 1 year or less -2, more than 1 year to 3 years -3, more than 3 years -4.

col. (14): **availability of social security benefits:**
eligible for: only PF/ pension (i.e., GPF, CPF, PPF, pension, etc.) -1, only gratuity -2, only health care & maternity benefits -3, only PF/ pension and gratuity -4, only PF/ pension and health care & maternity benefits -5, only gratuity and health care & maternity benefits -6, PF/ pension, gratuity, health care & maternity benefits -7; not eligible for any of above social security benefits -8, not known-9.

col. (15): **method of payment:** regular monthly salary -1, regular weekly payment -2, daily payment -3, piece rate payment -4, others - 5.

col. (16): **period of seeking/available for work during last 365 days:** sought/available for: less than 1 month -1, 1 month & above but less than 3 months -2, 3 months & above but less than 7 months -3, 7 months & above but less than 10 months -4, 10 months to 12 months - 5; did not seek/ not available -6.

Codes for Block 5.2

col. (3): **status:** codes as in col. 3, block 5.1. **(only codes 11 to 51 are applicable here).**

col. (5): **industry :** 5-digit code as per NIC-2008.

col. (6): **occupation :** 3-digit code as per NCO-2004.

col. (7): **location of workplace:** codes as in col. 8, block 5.1.

col. (8): **enterprise type:** codes as in col. 9, block 5.1.

col. (10): **number of workers in the enterprise:** codes as in col. 11, block 5.1.

col. (11): **type of job contract:** codes as in col. 12, block 5.1.

col. (13): **availability of social security benefits:** codes as in col. 14, block 5.1.

col. (14): **method of payment :** codes as in col. 15, block 5.1.
