

35. PUBLIC HEALTH STATISTICS

Available information concerning public health statistics in India, is shown in the tables under this section. Data in greater detail are published by Ministry of Health and Family Welfare, Government of India and the various State authorities in the form of periodical reports. The information relates to all the Indian Union, unless otherwise specified. The figures for the latest available year are shown in greater detail. Corresponding figures for the earlier years are shown in totals only.

Table 35.1

This table shows the number of hospitals and dispensaries and the number of beds available.

Table 35.2

This table gives the number of medical practitioners in 'Allopathy', registered with the 'Medical Councils' in the States. Information relating to States, where there are no 'Medical Councils', have not been included.

Table 35.3

This table gives the number of nursing personnel registered with 'Nursing Councils' or 'Boards' according to different categories.

Table 35.4

Data concerning number of mental hospitals, beds, patients admitted and discharged, etc. are shown in this table. For the column on patients discharged, only total number is given and the break-up by cured and otherwise is not shown.

Table 35.5

The figures of Family Welfare Statistics, given in the table are based on the information received from the various States/Union Territories and as compiled by the Department of Family Welfare. The rates have been estimated using the final population figures of Census 2001 conducted by Registrar General of India.

The Number of conventional contraceptive users is arrived at by dividing the off-taking of Condoms, and oral pills by 72 and 13 respectively on an average by a couple in a year to give complete protection.

Notes :

- Source are DHS of States/UTs; In spite of repeated efforts, some States/UTs have either not submitted the information of previous years only.
 - Figures are for varying periods and thus are provisional and subject to change.
 - In Health Information of India 2004, aggregate of CHCs given without urban/rural break up and hence aggregate was included under rural.
 - In Delhi no concept of Rural and Urban Hospital.
 - Leprosy hospital beds strength not given.
- A-Total hospital reduced from 2001 due to exclusion of CHCs and non reporting.
B- Relates to Government Allopathic Hospitals only-Health Information of India 2003, 2004 and 2005.
C- Estimated at 30 beds per one CHC.
D - Includes CHCs (348) and other Rural and Urban Hospital (788 with 64987 beds for which Rural Urban breakup not furnished + No. of CHC as per Rural Health Bulletin March 2005 & relates to 01.09.2004.
#- Year 2003 onwards, CBHI not compile the information on Number of Dispensaries.
