

जिला-स्तर पर अनिगमित क्षेत्र : ए.एस.यू.एस.ई. 2025 से अंतर्दृष्टि

UNINCORPORATED SECTOR AT THE DISTRICT
LEVEL: INSIGHTS FROM ASUSE 2025

भारत सरकार

Government of India

सांख्यिकी और कार्यक्रम कार्यान्वयन मंत्रालय

Ministry of Statistics and Programme Implementation

राष्ट्रीय सांख्यिकी कार्यालय

National Statistics Office

प्रस्तावना

भारत की अर्थव्यवस्था में **अनिगमित गैर-कृषि क्षेत्र** का महत्वपूर्ण स्थान है जो देशभर में रोजगार, आजीविका तथा आर्थिक गतिविधियों में महत्वपूर्ण योगदान देता है। विभिन्न क्षेत्रों में विस्तृत यह क्षेत्र विनिर्माण, व्यापार तथा अन्य सेवाओं से संबंधित विविध प्रकार की गतिविधियों को समाहित करता है और राज्यों तथा संघ राज्य क्षेत्रों की आर्थिक संरचना का एक महत्वपूर्ण अंग है। देश के विभिन्न भागों में आर्थिक गतिविधियों तथा स्थानीय परिस्थितियों की विविधता को देखते हुए, ऐसे सांख्यिकीय आँकड़ों की आवश्यकता निरंतर बढ़ रही है, जो इस क्षेत्र की अधिक सूक्ष्म एवं विस्तृत समझ प्रदान कर सकें और साक्ष्य-आधारित नीति-निर्माण में सहायक हों।

वर्ष 2021 में अपने प्रारंभ से ही **अनिगमित क्षेत्र के उद्यमों का वार्षिक सर्वेक्षण (ए.एस.यू.एस.ई)** अपने कार्यक्षेत्र, आवृत्ति तथा सांख्यिकीय परिणामों की दृष्टि से उल्लेखनीय रूप से विकसित हुआ है। **ए.एस.यू.एस.ई 2025** की प्रतिचयन अभिकल्पना में उपयुक्त संशोधन किए गए हैं, ताकि जिला-स्तरीय आकलन को तैयार करना संभव हो सके। यह देश के उप-राज्य स्तर पर आधिकारिक आँकड़ों की उपलब्धता के विस्तार की दिशा में एक महत्वपूर्ण कदम है। इसके साथ ही, वर्ष 2011 की जनगणना के आधार पर दस लाख या उससे अधिक जनसंख्या वाले शहरों के लिए भी आकलन उपलब्ध कराए गए हैं।

प्रस्तुत रिपोर्ट में क्षेत्र के आकार, रोजगार संबंधी विशेषताओं, उद्यमों की रूपरेखा तथा आर्थिक कार्य-निष्पादन के चयनित मापदंडों को समाहित करते हुए परिचालन एवं आर्थिक संकेतकों का एक संतुलित समूह प्रस्तुत किया गया है। आकलन समग्र जिले के लिए प्रस्तुत किए गए हैं, जिसमें ग्रामीण एवं शहरी क्षेत्रों को संयुक्त रूप से सम्मिलित किया गया है।

यह रिपोर्ट राष्ट्रीय सांख्यिकी कार्यालय (एन.एस.ओ.), सांख्यिकी और कार्यक्रम कार्यान्वयन मंत्रालय (मॉसपी) द्वारा एक बड़े पैमाने पर किए गए राष्ट्रव्यापी सर्वेक्षण से जिला-स्तरीय आकलन को तैयार एवं प्रसारित करने का पहला प्रयास है। इसके माध्यम से आधिकारिक सांख्यिकी की उपलब्धता को जिला स्तर तक विस्तारित किया गया है। इस रिपोर्ट में प्रस्तुत जिला-स्तरीय आकलन नीति-निर्माताओं, राज्य एवं जिला प्रशासन, शोधकर्ताओं, शिक्षाविदों तथा अन्य हितधारकों के लिए नीति-निर्धारण, योजना-निर्माण, अनुश्रवण तथा आगे के विश्लेषणात्मक कार्यों में उपयोगी सिद्ध होने की अपेक्षा है।

हालाँकि, उपयोगकर्ताओं को सलाह दी जाती है कि जिला-स्तरीय आकलन की व्याख्या करते समय सर्वेक्षण की कार्यप्रणाली तथा उससे संबंधित प्रतिचयन परिवर्तनशीलता को समुचित रूप से ध्यान में रखें। चूँकि ये आकलन प्रतिदर्श सर्वेक्षण के आँकड़ों पर आधारित हैं, इसलिए विभिन्न जिलों एवं संकेतकों के लिए इनकी परिशुद्धता अलग-अलग हो सकती है। जहाँ कहीं उपलब्ध कराए गए हैं, वहाँ आकलन के साथ दिए गए परिशुद्धता के मापों को विश्लेषणात्मक, नीतिगत तथा योजना-निर्माण संबंधी प्रयोजनों के लिए उपयोग करते समय संदर्भित किया जाना चाहिए।

मैं सर्वेक्षण के दौरान सहयोग प्रदान करने वाले सभी उद्यम स्वामियों तथा अन्य उत्तरदाताओं के प्रति अपनी हार्दिक कृतज्ञता व्यक्त करती हूँ। मैं विशेषज्ञ समूहों एवं समितियों के सदस्यों द्वारा प्रदान किए गए बहुमूल्य मार्गदर्शन एवं सुझावों के लिए भी अपनी सराहना व्यक्त करती हूँ। मैं **राष्ट्रीय सांख्यिकी कार्यालय** के अधिकारियों एवं पदाधिकारियों, विशेषकर क्षेत्रीय कार्य, सर्वेक्षण कार्यप्रणाली, समंक विधायन तथा गुणवत्ता आश्वासन से जुड़े कार्मिकों द्वारा किए गए समर्पित प्रयासों की भी सराहना करती हूँ। उनके सामूहिक प्रयासों से इन जिला-स्तरीय आकलन का संकलन एवं प्रसार संभव हो सका है। इस रिपोर्ट की विषय-वस्तु तथा उपयोगिता में और सुधार के लिए प्राप्त होने वाली प्रतिक्रियाओं एवं सुझावों का हम स्वागत करते हैं।

सितंबर 2026

(गीता सिंह राठौर)

महानिदेशक

राष्ट्रीय प्रतिदर्श सर्वेक्षण

Preface

The unincorporated non-agricultural sector occupies an important place in the Indian economy, contributing significantly to employment, livelihoods and economic activity across the country. Spread across diverse locations and encompassing a wide range of activities in manufacturing, trade and other services, the sector forms an important part of the economic fabric of States and Union Territories. Given the diversity of economic activities and local conditions across the country, there is an increasing need for statistics that provide a more granular understanding of the sector for evidence-based policymaking.

Since its inception in 2021, ASUSE has evolved significantly in its scope, frequency and statistical outputs, with the sampling design of ASUSE 2025 suitably modified to facilitate district-level estimates. This marks an important step towards expanding the availability of official statistics at the sub-state level alongside estimates for cities with a population of one million or more, based on Population Census 2011.

The present report provides a balanced set of operational and economic indicators covering the size of the sector, employment characteristics, enterprise profile and selected measures of economic performance for the districts. The estimates are presented for the district as a whole, with rural and urban sectors combined.

This report marks the first-ever attempt of the National Statistics Office (NSO), Ministry of Statistics and Programme Implementation (MoSPI), to generate and disseminate district-level estimates from a large-scale nationwide survey, thereby extending the availability of official statistics to the district level. The district-level estimates presented in this report are expected to be useful to policymakers, State and district administrations, researchers, academia and other stakeholders for policy formulation, planning, monitoring and further analytical work.

Users are, however, advised to interpret the district-level estimates with due regard to the survey methodology and associated sampling variability. As the estimates are based on sample survey data, their precision may vary across districts and indicators. The accompanying measures of precision, wherever provided, may be referred to while using the estimates for analytical, policy and planning purposes.

I express my sincere gratitude to the enterprise owners and other respondents for their cooperation during the survey. I place on record my appreciation for the members of the expert groups and committees for their valuable guidance and suggestions. I also acknowledge the dedicated efforts of the officers and staff of the National Statistics Office, particularly those involved in field operations, survey methodology, data processing, quality assurance, whose collective efforts have made the generation and dissemination of these district-level estimates possible. Feedback and suggestions for further improving the content and usefulness of this report are most welcome.

Unincorporated Sector at the District Level: Insights from ASUSE 2025

Chapter One: Overview

1. Background

1.1. The importance of granular and high-frequency data has grown significantly in recent years, driven by the increasing need for evidence-based policymaking and targeted welfare interventions. In particular, the demand for sub-state-level statistics has grown significantly, as granular information helps identify regional variations, strengths and areas requiring attention and provides evidence-base for more targeted and area-specific policy interventions.

1.2. Since its inception in 2021, Annual Survey of Unincorporated Sector Enterprises (ASUSE) has evolved significantly, with the sampling design of ASUSE 2025 suitably strengthened and modified to facilitate district-level estimates alongside estimates at state-level and for cities with a population of one million or more, based on Population Census 2011.

1.3. This report presents a district-level portrait of the scale, structure and economic performance of India's unincorporated non-agricultural sector within States and Union Territories (UT). It marks the first initiative of the National Statistics Office (NSO), Ministry of Statistics and Programme Implementation (MoSPI), to disseminate district-level estimates from a large-scale nation-wide enterprise survey.

2. Overview of ASUSE 2025: Objectives, Coverage and Approach

2.1 The Annual Survey of Unincorporated Sector Enterprises (ASUSE), conducted by the National Statistical Office (NSO), provides comprehensive statistical information on India's unincorporated non-agricultural sector, covering manufacturing, trade and other services across rural and urban areas, excluding construction. The survey captures a wide range of economic and operational characteristics of enterprises, providing insights into their scale, employment, output and productivity. By complementing the information available for the corporate sector, ASUSE contributes to a more complete understanding of the Indian enterprise landscape. Its estimates serve as an important statistical input to National Accounts Statistics and support the data requirements of various Ministries and other stakeholders, thereby strengthening evidence-based policymaking and decision-making.

2.2 Geographically, ASUSE 2025 covered the rural and urban areas of whole of India (except some villages in Andaman and Nicobar Islands which are difficult to access). The survey was conducted during January to December 2025 following an establishment approach. As in previous surveys, the annual publications of ASUSE 2025 namely the factsheet, detailed report (*ASUSE 2025 Operational and Economic Characteristics*) and unit-level data have already been released. In addition, for the first time, a comprehensive statistical profile of the unincorporated sector in the country's 46 million-plus cities, identified on the basis of Census

2011 population, has been published through the report *Urban Unincorporated Enterprise Landscape: ASUSE 2025 – Insights from Million-Plus Cities*.

2.3 To strengthen the availability of high-frequency indicators, the NSO has also been publishing quarterly bulletins, namely, Quarterly Bulletin of Unincorporated Sector Enterprises (QBUSE) on key findings from the unincorporated non-agricultural sector since 2025.

2.4 In a bid to proactively engage with the stakeholders and ensure technical transparency with the users, a document *Know Your Survey: A User Guide to the Annual Survey of Unincorporated Sector Enterprises (ASUSE)* has also been released documenting the objectives, coverage, concepts, methodology, data quality practices, and outputs of ASUSE.

2.5 All these publications, reports and datasets together with the survey questionnaire, instructions and other methodological materials are available on the website of MoSPI (www.mospi.gov.in). Detailed information on the survey coverage, concepts and definitions, sampling design, methodology and results may be accessed through these resources. In view of the availability of these comprehensive reference materials, the present report does not reproduce the same details, but instead, focuses on district-level estimates highlighting the key insights from the data.

3. Insights on District Level Characteristics of the Unincorporated Sector

3.1. The report brings together key district-level indicators to provide a granular view of the size, employment characteristics, enterprise profile and economic performance of the unincorporated non-agricultural sector across States and Union Territories. As Lakshadweep and Chandigarh each comprise only one district, the district-level estimates for these UTs coincide with their respective UT-level estimates and already published in the ASUSE 2025 report. Accordingly, separate district-level estimates are not presented for Lakshadweep and Chandigarh in this report. Additionally, due to very small population size and very few villages in rural sector of Delhi, all the districts in Delhi were merged into one stratum only and sample FSUs in rural areas were selected from that stratum. In urban areas also, same treatment was given. Hence, for Delhi, district level estimates cannot be generated and presented in this Report.

3.2. The report presents a balanced set of operational and economic indicators to provide a comprehensive picture of the unincorporated sector at the district level. The estimates are presented for the district as a whole, combining the rural and urban sectors. For each selected district, the following indicators are provided:

Scale and Structure	Employment and Emoluments	Economic Performance
Estimated number of establishments	Estimated number of workers	Gross Value Added (Rs.) per establishment
Percentage of market establishments		

Percentage of proprietary and partnership establishments	Percentage of female Workers	(only for market establishments)
Percentage of hired-worker establishments (HWE)	Emoluments (Rs.) per hired worker	Gross Value Added (Rs.) per worker
Percentage of female-owned proprietary establishments		(only for market establishments)
Percentage of establishments registered under some act/authority		

While the report presents selected indicators for districts at the combined rural and urban level, participating States in ASUSE 2025 may draw further insights at more disaggregated levels using the samples canvassed by them. States may also undertake district-level analysis of several other policy-relevant operational and economic indicators, similar to those presented at the State/UT level in the detailed ASUSE 2025 report. Such analysis may include separate district-level estimates for rural and urban areas, as well as estimates by broad activity categories like manufacturing, trade and other services, factoring in the sample sizes and other considerations.

4. Sampling Design and Reliability of District-level Estimates

4.1 The ASUSE 2025 sampling design has been suitably structured to support estimation at the district level. Each district is treated as a separate stratum, with samples selected independently from the respective strata. The district estimates presented in this report are, therefore, design-based, with their estimation and associated measures of precision determined by the underlying sample design. A detailed note on sampling design with special focus on districts and coverage of ASUSE 2025 may be seen at Annexure-I.

4.2 The reliability of the estimates is indicated through their Relative Standard Errors (RSEs). RSEs for the major parameters are presented along with sample size for each of the districts covered in this report, enabling users to assess the precision of the estimates and interpret accordingly.

4.3. The report presents sample size and RSE (in percentage) for understanding the accuracy of the following major indicators:

- i. Estimated Number of Establishments
- ii. Estimated Number of Workers
- iii. Emoluments (Rs.) per Hired Worker
- iv. GVA (Rs.) per Establishment (only for market establishments)
- v. GVA (Rs.) per worker (only for market establishments)

5. Points to Note for Users

While this report provides granular insights into the operational and economic characteristics of the non-agricultural unincorporated sector across various districts, users are advised to exercise caution while interpreting the results, keeping in view the following considerations:

- The district-level estimates exclude sample units belonging to the State-level zero stratum, which is formed prior to district-wise stratification. Consequently, the aggregate of district estimates presented in this report may not exactly match the corresponding State-level estimates disseminated through the detailed report of ASUSE 2025. For further details on estimation procedure, Annexure-II may be referred to.
- The estimates presented in this report are based solely on the Central Sample, i.e. the sample selected, surveyed, processed and tabulated by the NSO, MoSPI under ASUSE 2025. However, some State Governments also participated in ASUSE 2025 with State sample FSUs and the participating States may bring out annual district level estimates by combining the estimates from Central and State sample FSUs. Accordingly, due to varying sample size and composition, the estimates presented in this report may differ from estimates that may subsequently be generated and published by some of the State Directorates of Economics and Statistics (DESS) participating in ASUSE 2025 and canvassing corresponding State Sample.
- The report on million-plus cities was based exclusively on the urban sector. Therefore, even where a district and a million-plus city share the same name (e.g., Howrah), the estimates may differ, as the district-level estimates presented in this report cover both rural and urban areas.
- Although districts have been considered as separate stratum, the sample sizes for certain districts may not always be adequate to yield sufficiently reliable estimates; accordingly, the results should be interpreted with caution. In some cases, the Relative Standard Errors (RSEs) presented in this report are high resulting in lower statistical precisions and such cases may be duly considered while drawing inferences.
- Owing to inherent heterogeneity and variability in the unincorporated sector, differences in estimates may be observed across districts in the country, as well as among districts within the same State/UT. Such variations may be more pronounced in the case of financial indicators. Hence comparison across districts may be made with caution, as differences in estimates may reflect variations in economic structure, industrial composition and local conditions, in addition to sampling variability. Also, the existence of industry clusters is a common phenomenon of the unincorporated non-agricultural sector. Accordingly, the presence or absence of such clusters in particular district may contribute to divergence in the district-level estimates.

- ASUSE is conducted using an area frame, wherein the listing of establishments is carried out within the selected First Stage Units (FSUs) during the survey. The estimates presented in this report are based on such listing of establishments undertaken at the time of survey.
- Establishments in the unincorporated non-agricultural sector are often significantly influenced by demand from the formal sector through supply chain linkages. Accordingly, the results presented in this report may be interpreted in the broader context of the district's economic structure and overall economic situation.
- While the estimates provide useful directional insights, they may be used in conjunction with other data sources for detailed planning and decision-making.
- The district names used in this Report are based on the ASUSE 2025 sampling frame. Wherever possible, the latest district names have been used for these districts. However, the geographical coverage of some districts and number of districts may differ from the current administrative configuration due to subsequent changes in district boundaries, names and/or the creation of new districts.

6. Structure of the Report

6.1. This report comprises two chapters, a set of Appendix tables and two Annexures. Following the present chapter (Chapter One), Chapter Two presents State/UT-wise key highlights for districts that together account for at least 50% of the total estimated establishments in the respective State/UT. Where fewer than ten districts meet this criterion, highlights have been provided for the top ten districts with the largest estimated number of establishments; for States/UTs having fewer than ten districts, all districts have been covered. Chapter Two focuses on the size of employment and selected ownership and enterprise characteristics of these districts, which have a significant contribution to the unincorporated economy of their respective States/UTs.

6.2. The Appendix tables provide detailed State/UT-wise estimates for all districts, covering the major parameters along with Relative Standard Errors (RSEs) for selected key indicators as mentioned in Sections 3 and 4 of this Chapter. These tables provide the statistical basis for the analysis presented in the report. The sampling design and estimation procedure are presented in Annexures I and II, respectively.

CHAPTER TWO: HIGHLIGHTS

ANDAMAN & NICOBAR ISLANDS

Estimated number of establishments in each district:

District	Number of Establishments
South Andaman	17,663
North & Middle Andaman	6,593
Nicobar	4,669

- **South Andaman** has the highest number of estimated establishments employing about **37 thousand** workers, contributing about two-third of the total workforce.
- Highest percentage of female owned proprietary establishment has been observed in **North & Middle Andaman (26%)**.
- **South Andaman** has the highest share of Hired Worker Establishments (**24%**).

ESTIMATED WORKERS

ANDHRA PRADESH

Districts contributing majority of the establishments in State (arranged by number of establishments)

District	Number of Establishments	District	Number of Establishments
Prakasam	2,13,162	Srikakulam	1,76,298
Krishna	1,98,071	West Godavari	1,72,491
YSR (Kadapa)	1,95,322	East Godavari	1,70,935
NTR	1,89,602	Eluru	1,67,088
Sri Sathya Sai	1,82,388	Kakinada	1,65,939
Tirupati	1,79,582		

- **Prakasam** has the highest number of estimated establishments employing about **2.9 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Nandyal (36%)**.
- **NTR** has the highest share of Hired Worker Establishments (**17%**) among them.

ESTIMATED WORKERS IN DISTRICTS CONSTITUTING MAJORITY OF ESTABLISHMENTS IN THE STATE

ARUNACHAL PRADESH

Top 10 districts in terms of estimated number of establishments are:

District	Number of Establishments	District	Number of Establishments
Papum Pare	16,596	Kurung Kumey	3,376
West Kameng	4,386	Changlang	3,301
East Siang	4,326	Lower Subansiri	3,086
Upper Subansiri	3,831	East Kameng	3,014
Namsai	3,479	West Siang	2,932

- Top **six districts** share majority (more than 50%) of the total establishments in the state. Top ten districts share **72%** of establishments.
- **Papum Pare** has the highest number of estimated establishments employing about **33 thousand** workers.
- Highest percentage of female owned proprietary establishment has been observed in **East Kameng (42%)**.
- **Papum Pare** has the highest share of Hired Worker Establishments (**27%**).

ASSAM

Top 10 districts in terms of estimated number of establishments are:

District	Number of Establishments	District	Number of Establishments
Dhubri	1,11,562	Kokrajhar	64,978
Dibrugarh	95,778	Tinsukia	60,905
Barpeta	91,687	Sonitpur	58,880
Nagaon	79,927	Cachar	49,008
Kamrup Metropolitan	66,076	Dhemaji	43,460

- Top **ten districts** share majority (more than 50%) of the total establishments in the state.
- **Dhubri** has the highest number of estimated establishments employing about **1.4 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Majuli (36%)**.
- **Kamrup Metropolitan** has the highest share of Hired Worker Establishments (**27%**).

ESTIMATED WORKERS IN TOP 10 DISTRICTS

BIHAR

Districts contributing majority of the establishments in State (arranged by number of establishments)

District	Number of Establishments	District	Number of Establishments
Patna	3,72,573	Madhubani	1,60,932
Bhagalpur	3,24,294	Rohtas	1,56,492
Purbi Champaran	2,40,597	Nalanda	1,53,653
Gaya	2,04,329	Muzaffarpur	1,52,753
Vaishali	2,04,076	Siwan	1,50,205
Samastipur	1,68,584		

- **Patna** has the highest number of estimated establishments employing about **6.3 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Gopalganj (35%)**.
- **Patna** has the highest share of Hired Worker Establishments (**20%**).

CHHATTISGARH

Top 10 districts in terms of estimated number of establishments are:

District	Number of Establishments	District	Number of Establishments
Durg	1,53,020	Rajnandgaon	61,508
Raipur	1,32,194	Janjgir-Champa	59,777
Dhamtari	92,917	Kabirdham	56,140
Bilaspur	78,577	Balodabazar-Bhatapara	52,563
Balrampur-Ramanujganj	67,102	Balod	52,511

- Top **eight districts** share majority (more than 50%) of the total establishments in the state. Top ten districts share **58%** of establishments.
- **Durg** has the highest number of estimated establishments employing about **2.9 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Durg (35%)**.
- **Dantewada** has the highest share of Hired Worker Establishments (**25%**).

DADRA & NAGAR HAVELI AND DAMAN & DIU

Estimated number of establishments in each district:

District	Number of Establishments
Dadra & Nagar Haveli	20,476
Daman	8,030
Diu	2,768

- **Dadra & Nagar Haveli** contributes about two-third of the establishments employing about **46 thousand** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Diu (43%)**.
- **Dadra & Nagar Haveli** has the highest share of Hired Worker Establishments (**22%**) among them.

ESTIMATED WORKERS

GOA

Estimated number of establishments in each district:

District	Number of Establishments
North Goa	48,145
South Goa	13,850

- **North Goa** has the highest number of estimated establishments employing about **1.2 lakh** workers.
- **North Goa** contributes about 78% of the total establishments.
- **South Goa (21%)** has slightly higher concentration of female owned establishments as compared to **North Goa (19%)**
- **North Goa** has higher share of Hired Worker Establishments (**47%**).

ESTIMATED WORKERS

GUJARAT

Top 10 districts in terms of estimated number of establishments are:

District	Number of Establishments	District	Number of Establishments
Surat	8,51,398	Anand	1,35,435
Ahmedabad	7,30,347	Surendranagar	1,29,398
Vadodara	2,42,694	Kachchh	1,22,805
Rajkot	2,41,923	Junagadh	1,19,441
Bhavnagar	1,76,655	Banas Kantha	1,18,498

- Top **five districts** share majority (more than 50%) of the total establishments in the state. Top ten districts share **66%** of establishments.
- **Surat** has the highest number of estimated establishments employing about **17.4 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Surat (41%)**.
- **Anand** has the highest share of Hired Worker Establishments (**23%**) among them.

HARYANA

Top 10 districts in terms of estimated number of establishments are:

District	Number of Establishments	District	Number of Establishments
Gurugram	1,55,780	Ambala	84,021
Faridabad	1,53,662	Panipat	79,955
Karnal	1,28,254	Kurukshetra	75,672
Yamunanagar	1,00,711	Sonipat	75,137
Kaithal	90,351	Rohtak	72,932

- Top **seven districts** share majority (more than 50%) of the total establishments in the state. Top ten districts share **65%** of establishments.
- **Gurugram** has the highest number of estimated establishments employing about **3.6 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Kurukshetra (34%)**.
- **Gurugram** has the highest share of Hired Worker Establishments (**29%**) among them.

HIMACHAL PRADESH

Top 10 districts in terms of estimated number of establishments are:

District	Number of Establishments	District	Number of Establishments
Kangra	1,01,813	Hamirpur	45,396
Mandi	67,858	Una	41,681
Shimla	66,975	Bilaspur	34,296
Solan	55,922	Chamba	30,537
Sirmaur	47,219	Kullu	24,309

- Top **four districts** share majority (more than 50%) of the total establishments in the state. Top ten districts share **96%** of establishments.
- **Kangra** has the highest number of estimated establishments employing about **1.8 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Mandi (33%)**.
- **Solan** has the highest share of Hired Worker Establishments (**19%**).

ESTIMATED WORKERS IN TOP 10 DISTRICTS

JAMMU & KASHMIR

Top 10 districts in terms of estimated number of establishments are:

District	Number of Establishments	District	Number of Establishments
Srinagar	1,62,080	Anantnag	36,121
Baramulla	1,47,267	Bandipore	34,420
Budgam	87,321	Ganderbal	33,111
Jammu	85,202	Kupwara	33,039
Rajouri	39,696	Pulwama	30,597

- Top **four districts** share majority (more than 50%) of the total establishments in the state. Top ten districts share **79%** of establishments.
- **Srinagar** has the highest number of estimated establishments employing about **3.9 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Ganderbal (42%)**.
- **Srinagar** has the highest share of Hired Worker Establishments (**42%**) among them.

ESTIMATED WORKERS IN TOP 10 DISTRICTS

JHARKHAND

Top 10 districts in terms of estimated number of establishments are:

District	Number of Establishments	District	Number of Establishments
Giridih	2,26,339	Purbi Singhbhum	1,14,650
Dhanbad	2,18,121	Pakur	1,10,144
Bokaro	1,52,123	Hazaribagh	1,06,857
Palamu	1,35,295	Deoghar	97,763
Ranchi	1,29,972	Garhwa	91,553

- Top **seven districts** share majority (more than 50%) of the total establishments in the state. Top ten districts share **65%** of establishments.
- **Giridih** has the highest number of estimated establishments employing about **3.2 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Pakur (56%)**.
- **Ramgarh** has the highest share of Hired Worker Establishments (**19%**).

ESTIMATED WORKERS IN TOP 10 DISTRICTS

KARNATAKA

Top 10 districts in terms of estimated number of establishments are:

District	Number of Establishments	District	Number of Establishments
Bengaluru (Urban)	5,01,393	Vijayapura	1,58,622
Belagavi	4,47,776	Ballari	1,44,275

- **Gangtok** has the highest number of estimated establishments employing about **27 thousand** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Namchi (30%)**.
- **Gangtok** has the highest share of Hired Worker Establishments (22%).

TAMIL NADU

Districts contributing majority of the establishments in State (arranged by number of establishments)

District	Number of Establishments	District	Number of Establishments
Chennai	3,45,850	Tiruppur	1,86,338
Coimbatore	3,04,890	Kanniyakumari	1,82,140
Salem	2,37,160	Thanjavur	1,69,677
Tiruvallur	2,31,016	Virudhunagar	1,67,384
Madurai	2,18,522	Tiruvannamalai	1,66,857
Erode	1,92,098	Chengalpattu	1,54,585

- **Chennai** has the highest number of estimated establishments employing about **7.5 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Tenkasi (52%)**.
- **Chennai** has the highest share of Hired Worker Establishments (**36%**).

TELANGANA

Top 10 districts in terms of estimated number of establishments are:

District	Number of Establishments	District	Number of Establishments
Ranga Reddy	6,92,633	Khammam	97,155
Nizamabad	2,52,591	Siddipet	92,079
Jagtial	2,04,588	Rajanna Sircilla	89,777
Nirmal	1,75,711	Karimnagar	86,766
Bhadradri Kothagudem	1,05,604	Mancherial	86,484

- Top **six districts** share majority (more than 50%) of the total establishments in the state. Top ten districts share **64%** of establishments.
- **Ranga Reddy** has the highest number of estimated establishments employing about **16.9 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Nirmal (80%)**.
- **Ranga Reddy** has the highest share of Hired Worker Establishments (**38%**).

TRIPURA

Estimated number of establishments in each district:

District	No. of Establishments	District	No. of Establishments
West Tripura	83,538	Sepahijala	26,882
South Tripura	30,283	Dhalai	20,674
Gomati	29,524	Unakoti	20,229
Khowai	27,791	North Tripura	16,781

- **West Tripura** has the highest number of estimated establishments employing about **1.2 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Sepahijala (26%)**.
- **Khowai** has the highest share of Hired Worker Establishments (**16%**).

UTTAR PRADESH

Districts contributing majority of the establishments in State (arranged by number of establishments)

District	Number of Establishments	District	Number of Establishments
Prayagraj	6,31,531	Kanpur Nagar	2,23,900
Lucknow	3,93,226	Unnao	2,23,470
Azamgarh	3,09,978	Sitapur	2,22,680
Bareilly	2,99,328	Budaun	2,18,314
Ghaziabad	2,88,337	Gautam Buddha Nagar	2,01,223
Aligarh	2,66,637	Saharanpur	1,98,727
Hardoi	2,58,096	Moradabad	1,93,918
Gorakhpur	2,51,511	Agra	1,85,025
Varanasi	2,35,657	Meerut	1,84,002
Shahjahanpur	2,27,095	Gonda	1,83,982
Sant Ravidas Nagar (Bhadohi)	2,25,713	Lakhimpur Kheri	1,80,837

- **Prayagraj** has the highest number of estimated establishments employing about **11.8 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Hardoi (41%)**.
- **Lucknow** has the highest share of Hired Worker Establishments (**29%**).

UTTARAKHAND

Top 10 districts in terms of estimated number of establishments are:

District	Number of Establishments	District	Number of Establishments
Udham Singh Nagar	1,64,344	Chamoli	42,298
Haridwar	1,07,441	Tehri Garhwal	36,895
Nainital	86,994	Uttarkashi	32,301
Dehradun	74,843	Almora	29,108
Pauri Garhwal	52,413	Pithoragarh	26,393

- Top **three districts** share majority (more than 50%) of the total establishments in the state. Top ten districts share **92%** of establishments.
- **Udham Singh Nagar** has the highest number of estimated establishments employing about **2.8 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Chamoli (16%)**.
- **Dehradun** has the highest share of Hired Worker Establishments (**31%**) among them.

WEST BENGAL

Top 10 districts in terms of estimated number of establishments are:

District	Number of Establishments	District	Number of Establishments
North Twenty Four Parganas	16,59,626	Nadia	6,69,432
South Twenty Four Parganas	10,29,847	Purba Medinipur	6,09,706
Kolkata	8,84,435	Malda	5,47,942
Murshidabad	7,05,238	Hooghly	4,93,270
Howrah	6,73,733	Paschim Medinipur	4,48,732

- Top **six districts** share majority (more than 50%) of the total establishments in the state. Top ten districts share **74%** of establishments.
- **North Twenty Four Parganas** has the highest number of estimated establishments employing about **21.3 lakh** workers.
- Highest percentage of female owned proprietary establishment has been observed in **Murshidabad (55%)**.
- **Kolkata** has the highest share of Hired Worker Establishments (**17%**) among them.

Annexure-I: Note on Sampling Design

Introduction

ASUSE 2025 refers to the Annual Survey of Unincorporated Sector Enterprises conducted during January to December 2025, which covered the unincorporated non-agricultural establishments in both rural and urban areas of India. Entire geographical area of India, except some villages in Andaman & Nicobar Islands which are difficult to access were covered in ASUSE 2025.

Sampling Design of ASUSE 2025 with special focus on District level estimates:

A stratified multi-stage sampling design was adopted for ASUSE 2025. Census 2011 villages were considered as First Stage Units (FSUs) in rural areas (except Kerala). Panchayat wards were considered as FSUs in rural part of Kerala. In urban area First Stage Units (FSU) were the latest updated UFS (Urban Frame Survey) blocks. The Ultimate Stage Units (USUs) were establishments. In the case of large FSUs, one intermediate stage of sampling was the selection of three hamlet groups (HGs) or sub-blocks (SBs) from each of the large FSUs.

Stratification:

Each district was considered as basic stratum. Within each district of a State/UT, generally speaking, two basic strata were formed:

- (i) rural stratum comprising of all rural areas of the district and
- (ii) urban stratum comprising of all the urban areas of the district. However, within the urban areas of a district, if there were one or more towns with population one million or more as per Census 2011, each of them formed a separate basic stratum and the remaining urban areas of the district was considered as another basic stratum.

- each million plus city as per census 2011 constituted a separate stratum. Stratum numbers were 01, 02, 03....,19
- rest of the urban areas of the district was given stratum number 20

Sub-stratification:

In Urban areas within each stratum, two sub-strata were formed based on area type.

sub-stratum 1: UFS blocks identified as Bazaar area (BA)/ Industrial area (IA)/ Hospital area (HA)/ Slum area (SA) which are likely to contain relatively higher number of establishments.

sub-stratum 2: remaining UFS blocks of the stratum

In the rural areas, sub-stratification was done based on coefficient of variation (CV) of 6th Economic Census (2013-14) information on number of workers and in its absence the Population Census 2011 information on number of workers. All the villages with zero worker in both EC 6 and Population Census 2011 within each State/Ut formed zero stratum within that State/UT, wherever available. Based on coefficient of variation of 6th EC worker, maximum three non-zero sub-strata were formed in each rural part of the districts except Kerala. ‘Non-zero sub-strata’ within each stratum were formed in such a way that each of the sub-stratum

possesses more or less equal no. of workers. Sub-strata having very less number of villages were merged with other sub-strata within the same stratum.

In Kerala four sub-strata were formed within each rural part of the district based on census 2011 population.

Allocation of sample FSUs:

Allocation was made to each district considering size of the district as per 6th EC information on number of workers and in its absence the Population Census 2011 information on number of workers, RSE (%) of important indicators from past surveys and also existing manpower of FOD. Minimum allocation of FSUs in rural and urban part of the district was 8 and 16 respectively and for million plus cities' strata additionally minimum 20 FSUs were allotted to each city. Sample FSUs were selected by SRSWOR.

Subject Coverage:

The ASUSE 2025, which was conducted during January 2025 to December 2025 covered all unincorporated non-agricultural establishments belonging to three sectors viz., 'Manufacturing', 'Trade' and 'Selected services other than Trade'.

(i) The survey covered the following broad categories:

- (a) Manufacturing establishments excluding those registered under Sections 2m(i) and 2m(ii) of the Factories Act, 1948
- (b) Manufacturing establishments registered under Section 85 of Factories Act, 1948
- (c) Establishments engaged in cotton ginning, cleaning and bailing (code 016302 of NIC 2025) excluding those registered under Sections 2m(i) and 2m(ii) of the Factories Act, 1948
- (d) Establishments manufacturing Bidi and Cigar excluding those registered under bidi and cigar workers (conditions of employment) Act, 1966
- (e) Non-captive electric power generation, transmission and distribution by units not registered with the Central Electricity Authority (CEA)
- (f) Trading establishments
- (g) Other service sector establishments

Categories of establishments under coverage in (a) to (g) above were:

- (a) Proprietary and partnership establishments [excluding Limited Liability Partnership (LLP) establishments]
- (b) Society/trust/association/club/body of individuals etc., Co-operatives, Self-Help Groups (SHGs), Non-Profit Institutions (NPI/NPISH), etc.

Following establishments were excluded from the coverage:

- (a) Establishments which are incorporated i.e. registered under Companies Act, 1956/ Companies Act, 2013.
- (b) Manufacturing establishments and other establishments providing manufacturing services, which are covered under Annual Survey of Industries (ASI)
- (c) The electricity units registered with the Central Electricity Authority (CEA)
- (d) Government Department/Government Company/Government Society/ Public Sector Unit

Annexure-II: Estimation Procedure for District Level Estimates

Methodology for producing design-based estimates for districts

Each district was considered as separate stratum for ASUSE 2025. District level estimates are generated at stratum $\times$ sub-stratum level. All the observed values of selected establishments in a particular sub-stratum are multiplied with corresponding sampling weights and then added up for generating sub-stratum level estimates. Ultimately district level estimates are generated by adding estimates of all sub-stratum level estimates within the particular district.

It may be noted that all the districts of a State/UT (except for Delhi) which were included in the frame for selection of sample for conducting ASUSE 2025 were treated as separate strata and district-level estimates has been presented in this report for all those districts.

It should be noted that, within each State/UT, all villages recorded as having zero workers in both the 6th Economic Census and Census 2011 were grouped together to form the “zero stratum” at the State/UT level. Sampling weights for zero stratum rural FSUs were also calculated at State/UT level only. Hence contribution of zero stratum FSUs is not considered in district level estimates. In ASUSE 2025, the total estimated number of establishments was 7.93 crore, of which establishments in zero-stratum villages accounted for nearly 1.59 lakhs.

This Report is being brought out on the basis of the central sample FSUs only. *However, some State Governments also participated in ASUSE 2025 with State sample FSUs and the participating States may bring out annual district level estimates by combining the estimates from Central and State sample FSUs.*

Treatment of Delhi for generating District level estimates

Due to very small population size and very few villages in rural sector of Delhi, all the districts in Delhi were merged into one stratum only and sample FSUs in rural areas were selected from that stratum. In urban areas also, same treatment was given. Hence, for Delhi, district level estimates cannot be generated and presented in this Report.
